

A Sure Start Children's Centre

A warm welcome to Haven Nursery School and Children's Centre website. The centre is located on a beautiful site with extensive outdoor areas including a forest site. We are a Forest School nursery and have four qualified staff to deliver the Forest School programme. All children have the opportunity to participate in this exciting programme.

Everyone who steps into Haven comments on the friendly, happy atmosphere and the commitment of the staff who work with our children. We are committed to providing a rich curriculum that excites our children and is bursting with a wide range of learning opportunities. We want all children to find joy in their learning and there is a strong emphasis on following children's interests and encouraging children to become experts in what they do.

Our focus is on ensuring that our children develop the learning behaviours they need to equip them to become lifelong learners.

I hope this 'taster' of our nursery answers some of your questions and encourages you to come and visit us as well as providing regular updated information for our current parents and children.

Karen Hooper

Acting Head of Centre
