The Course

Assess your current level – should you begin with Functional Skills or just go straight to GCSE's? The online system (BKSB) begins with a GCSE screener to ensure you start at the right place. Once you know where to start, each Functional Skills or GCSE course also begins with a diagnostic assessment to identify your strengths and weaknesses and devise an individual learning plan that's tailored to you.

Learn key concepts and strengthen essential skills – how will you know when it's time to move on to the next level? Complete the interactive, self-marking lessons following your individual learning plan for each course. The system will assess your progress as you go and adjust your learning plan accordingly. Your dedicated tutor(s) will also be monitoring your progress and, using the BKSB messaging system, you can get support and help when you need it.

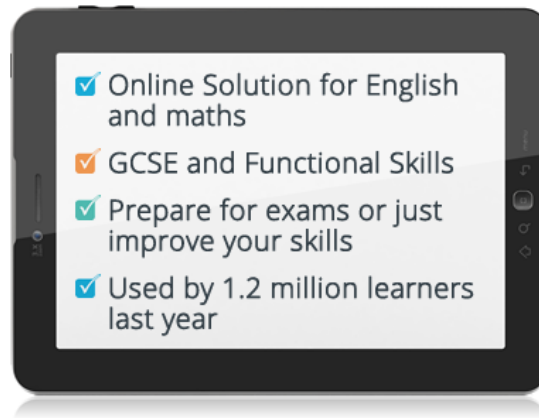

Attend bi-monthly tutorial sessions at Forest Lane Lodge with your dedicated tutor(s) – one day for Maths and one day for English. Work together with your fellow students and get extra help for those difficult to grasp concepts, and take the opportunity to ask any niggling questions you may have.

The course lasts 12 months, from September 2016 to August 2017.
