*Redefining Public Safety Solutions*

RPSS is excited to announce a new partnership with INdigital. INdigital is a thought leader in the fast changing world of public safety with years of experience along with the real world deployment of one of the nation's largest statewide IP based public safety networks.

As a full service public safety provider, INdigital has developed advanced applications through research and development, planning, design and successful implementation.

RPSS will offer INdigital's Mobile PSAP solution MEVO, as well as INdigital's text for 9-1-1 platform Texty. The partnership of RPSS and INdigital offers a combination of experience, cutting edge technology and innovation, which will redefine public safety solutions.
