

Company Profile

Company Profile

Hikvision is the world's leading supplier of video surveillance products and solutions. Featuring the industry's strongest R&D workforce, Hikvision uses its state-of-the-art manufacturing facilities to design and develop innovative CCTV and video surveillance products. The company's complete product suite includes Smart IP cameras, HD analog cameras, speed domes, NVRs, DVRs, video management software, access control and alarm systems, encoders, decoders, and other elements of sophisticated security systems. Hikvision products serve a diverse set of vertical markets that includes retail, banking and finance, transportation, education, commercial, government, and residential applications.

Since its inception in 2001, Hikvision has played an active role in video surveillance market, devoting 8% of its annual revenue to research and development for continued product innovation. Hikvision, which is publicly listed on the Shenzhen Stock Exchange, has a truly global presence with regional offices in nearly 20 locations around the world.

Hikvision Claims Top Position in World CCTV & Video Surveillance Market for Fourth Consecutive Year

July 16, 2015 According to the latest report from business information provider IHS Inc. (NYSE: IHS), Hikvision has strengthened its position as the world's leading CCTV and Video Surveillance Equipment company, the fourth year in a row that Hikvision has topped the list. The company's dominant 16.3% total market share in terms of revenue is up by more than 50% compared with the previous year and more than double its 8% market share of just two years ago.

Even more significantly, Hikvision has claimed the Number 1 position in every individual equipment category, making up 18.9% of the global network security camera market, increased by 5.9 percentage points of revenue market share compared with last year's Number 2 position (13%) in this fast-growing camera sector. The report also indicates the company's efforts in overseas market over the years by ranking Number 2 position in CCTV & Video Surveillance Equipment category in EMEA market, achieving a 9.2% market share.

Company now number 1 in every equipment category, including network and megapixel cameras
