YOUR IDEAL PARTNER FOR HUMAN RESOURCING NEEDS

Recruitment As A Service (RAAS)

Personality Reporting

Technology Assessment

Background Reporting

WHAT IS RAAS?

- RAAS stands for Recruitment as a Service, where you hire us to become an extension of your internal HR team.
- We dedicate resources from our team to yours.
- We work with your hiring managers, draft job descriptions in par with industry standards, post jobs both internally and externally, facilitate interviews and fill the open position during the course of the contract term, irrespective of the rising market rates.
- We take care of the background check and personality reporting for finalized candidates and perform the onboarding process on your behalf.

COST-EFFECTIVE RECRUITMENT

Working with CSL is a **cost-effective solution for hiring full-time staff**, especially since employers may not realize the many hidden challenges of direct recruiting. In fact, a recent study revealed that it could take up to 15 weeks to fill an open position. Our innovative off-site day recruitment process can reduce your hiring timeline in half, helping you save both money and countless hours of lost productivity. How?

Our resources are trained HR generalists, who take the time to learn about your company and your organization's mission, vision and values before they start working on the positions.

Our E2E (End to End) solution allows you to focus on more important matters while we take care of all the recruiting efforts from the initiation of job description to the final onboarding process.

All these services for less than what you would pay a full-time HR staff within your team!
