

SAMPLE T&T™ SCHEDULE

Tips for planning your T&T meeting time:

- It is best to schedule Small Group Time after Large Group Time so kids can review and discuss the lesson content and gospel message with their leaders.
- If kids are moved around to different locations, allow time for transition. Generally it takes about five minutes to transfer children to different rooms. The schedule below takes these transitions into account.
- We recommend running T&T for at least 90 minutes. For optimal time, plan for two hours.

Below is a sample meeting time of 90 minutes (1.5 hours). For more details on what to do in each T&T segment, view the training modules in the Leader Training section of the T&T Field Test website. If you can meet for two hours, we recommend adding 10 minutes to Large Group Time, 10 minutes to Small Group Time, five minutes to Game Time and five minutes to Closing.

*There are many options for discussion in Small Group Time. Leaders may choose to continue the discussion started in the Application portion of the Large Group Time, to use the discussion questions provided in the Small Group Guide, to allow kids to ask their own questions or to complete the Explore This! section from the Kid's Handbook together.
