

# 2016 El Paso Electric

## Large Commercial Solutions Executive Summary For Contractors

### Imagine the possibilities with an extra **\$74 million\*** for local businesses.

That's the impact the Large Commercial Solutions Program has had on EPE commercial participants including manufacturers, office parks, call centers and more.

Energy is one of the largest operating expenses facing an organization. The **no-cost** Large Commercial Solutions Program provides you with the resources to identify energy efficiency opportunities and convert them into savings.

Incentives are available for new and retrofit qualifying projects. EPE has contracted with CLEAResult to implement the program.

By participating in the program, you can take advantage of the following resources:

- **INCENTIVES** to earn \$240 for every kW saved. Potential qualifying projects:
  - Lighting systems
  - HVAC systems
  - ENERGY STAR® roofing
  - Lighting/HVAC controls
  - Pumps & motors with VFDs
  - Custom projects
- **TECHNICAL ASSISTANCE** to help identify and evaluate energy efficiency opportunities is available at no-cost.
- **COMMUNICATIONS SUPPORT** to help publicize your leadership and accomplishments in energy efficiency.

Please contact us should you have any questions or need additional information. We look forward to helping your organization save energy and money.

\*Based on the lifetime energy savings of equipment installed and total incentives earned by EPE commercial participants as of November 2015.

# 2016 El Paso Electric

## Small Commercial Solutions Program Executive Summary For Contractors

The Program provides support to eligible El Paso Electric small commercial customers and participating contractors. The Program does not prescribe technologies or end uses, but instead provides a framework through which the Participant can receive technical assistance and cash incentives for implementing and installing a wide range of measures.

**El Paso Electric offers \$400/kW cash incentive for reduced peak electric demand.**

The Programs provide some combination of the following assistance to Participating Contractors:

- **TECHNICAL ASSISTANCE** to help identify and evaluate energy-efficiency opportunities. This includes assessment of the mechanical and electrical equipment of renovation and new construction projects through quantification of energy consumption (kWh) and peak demand savings (kW).
- **COMMUNICATIONS SUPPORT** to help publicize the Participating Contractor and Participant's leadership and accomplishments in energy efficiency.
- **CASH INCENTIVES** are available for Participants through a Participating Contractor for New Construction and Renovation Projects that reduce peak electric demand.

Qualifying projects include but not limited to:

- Indoor and outdoor lighting
- HVAC
- Roofing
- HVAC tune ups
- Window treatment

Please contact El Paso Electric or CLEAResult should you have any questions or need additional information on enrolling your qualified contractor. Thank you for working with us to help EPE customers save energy and money.
