

Goodbye Gays

This strange music video was also co-produced by this Jewish looking person "Askill." Haskil is a Jewish surname that gets close to Askill. The jooz are trying to promote pedophilia because they know that will swing the pendulum far and fast to get the backlash they want, to be able to put us back into the total Mosaic straight jacket socially. When the jooz took over Russia in the early years, they did the same to the populace which caused the backlash in which they then brought down the most puritanical Judaic moral order socially, that rivals Saudi Arabia. Communism is Judaism.

They are now pushing pedophilia normalization and rights on the end of the Jewish run, Social Marxist Gay rights movement which was the plan all along. Europe is now undergoing the first wave of this. While 83% of pedophiles are heterosexuals, they are purposely using the term "Gay Pedophile" in their propaganda documentary to push the first wave, because they want people to connect "pedophile" to Gay. This is exactly the propaganda the jooz used against Gay people in the USSR to ban homosexuality with a death sentence in the slave camps.

The average person is a doofus who thinks they are a genius philosopher king. So they will say they would never believe that. But just about everything they believe is from propaganda [propagation] of doctrines by media, schools and society in general they are a walking Albatross. So if the media then spends a few years promoting pedophile=Gay, then guess what? People will be influenced; why wouldn't they?

Remember what happened to Gay Rights in Russia not long ago? Jewish Putin banned it forever literally. They can't even address it again legally for a century by the law, and Russians supported it because they were told pedophile=Gay for decades under the Soviet system and thereafter. They also used this to ban numerous political dissents within the bill, but the Gay issue was the excuse.

The Jews make non-heterosexuality the death penalty where their programs have taken total control. Look at Jewish Christianity and Islam as well as Jewish Marxism.

Over here the Jews were never able to take control through communism due to the Second World War, so in their own writings the working class could not be used anymore. The war forced the Jews to end their phony depression which was used to create the needed ground for a Marxist revolution and rebuild industry, which caused a post-war economic boom. They moved to minority groups to take them over and use them as social Marxist shock troops to batter

down the host. They included mention of using non heterosexuals as well. The Gay rights movement was already starting to emerge on its own, so the Jews just took different groups of people and their struggle for rights and used it to their own advantage. The Jews state once they get to a point where full Marxist revolution is in full swing, the second stage is the liquidation of the first stage useful idiots, non-heterosexuals, liberals and others. This is what they did in Russia as well. The jooz tried to get this off the ground in 2010 by their own admission with the "Protest Wall Street," organized by the Rothschilds and Soros Jews and their Jewish agents. Its stated goal was to start a Marxist revolution. That's the not last time they are going to try.

Within this, the Jews have created a "Gay Identity" that is meant to keep Gays under control, in the program, and destroy them from within, while creating as much hostility against them as possible within the general public. The next phase of this is occurring as stated now. They are starting to ramp up the next wave propaganda of trying to give pedophilia the new rights. They are trying to tie this into the Gay movement. A documentary was made to provoke this in Europe and the featured freak is a "Homosexual pedophile." This will be the new phase they will repeat over and over. The fact is 83% of pedophiles are heterosexual. But don't expect a documentary on that soon. The price the GLBT people pay for supporting this Jewish run "rights" movement is to lose all rights down the road. You mean...The Jews lied...

The Jews are a race of perverts anyway and some would love to make pedophilia legal. Remember the famous and super obnoxious, communist Jew and nation wrecker Allan Ginsberg was a supporter and member of the Pedophile, North American Man/Boy Love Association (NAMBLA).

Here is the shocking video made by French Jew, Serge Gainsbourg who promotes pedophilia and incest where he sings to his own daughter a song called: Lemon Incest:

Music artist Sia is a disgusting person, and I will point out why.

Although the music artist has been around in the industry for some time, her videos suggest something of an awful nature. She is an Australian songwriter and singer who refuses to put her face in any of her videos. Instead she uses the face of 12-year old Maddie Ziegler who is known for being on the television show "Dance Moms," where children are competing for a prize using ballet

What is more disgusting is that poor 12-year old Maddie is put in a skin colored suit in Sia's videos and barely using ballet at all in her performances, jumping

around like she is a mentally handicapped and untalented ballet dancer. The horror continues with the video "Elastic Heart" where she is put in a giant birdcage with jooish actor Shia LaBeouf. The two of them dance back in forth as Shia is in a skin-colored Tarzan suit. The video is beyond inappropriate, with Sia actually admitting to rolling hills magazine "I know it screams of pedophilia, I anticipated it would".

All of this is just advocating that child abuse and inappropriate behavior is acceptable again and it is being passed off as "art." Sia will not even show her face but she will exploit Maddie Ziegler to the fullest extent she can

This has to stop NOW.
