

Whether you think you can,
or you think you can't...
YOU'RE RIGHT!
Henry Ford

How To Identify Your Vision

Your vision of where or who you want to be is the greatest asset you have so if you want your asset to grow, invest in it.

THE FIRST RULE IS TO HAVE VISION FOR YOUR LIFE. THE SECOND IS TO BELIEVE IN YOUR ABILITY TO FIGURE THINGS OUT. THE THIRD IS TO HAVE FUN MAKING YOUR DREAMS HAPPEN NO MATTER HOW HARD IT GETS. THE FOURTH IS TO BE PATIENT BUT ALWAYS PERSISTENT. THE FIFTH IS TO RESPECT AND LOVE OTHER PEOPLE WHO ARE ALSO PLAYING THIS SAME GAME OF LIFE.

Brendon Burchard

Knowing and having a vision in life is the greatest gift you can give to yourself. Take the time to work out your vision and then focus all your efforts on making it a reality.

So how do you work out what your vision is?

To put it in a different way, your vision is what you are passionate about. If you can identify what you are passionate about in your life, you will have identified what drives you to success.

You can be passionate about more than one thing but if you analyze it and really break it down, there will be one item that really gets you motivated and excited. My vision is to assist others in whatever way possible using my talents and knowledge in the hope that I can contribute to their lives in a meaningful way no matter how small.

EACH OF US HAS A
FIRE IN OUR HEARTS
FOR SOMETHING.
IT'S OUR GOAL IN
LIFE TO FIND IT AND
KEEP IT LIT.

- MARY LOU RETTON

What is your fire? What would make you get up in the morning and say...Yes! Another wonderful day full of amazing opportunities to learn and grow!

If you do not have a vision then establishing goals will be challenging. Don't focus on the how, just focus on the what because the how will be presented at the right time.

Let me use an everyday example...Think of your GPS. When you want to get somewhere all you do is type in the address and enter. The GPS then works out the how and you follow its instructions and achieve the end result.

Your mind and the power of thought and intention is your GPS so all you need to do is punch in the end destination (your vision), hit enter and follow the instructions as they are presented to you.

DO SOMETHING
TODAY THAT
YOUR FUTURE
SELF WILL
THANK YOU FOR.

What you think of today and what you do today will have a direct impact on your tomorrow. You don't know what tomorrow brings but there is no harm in stating with passion how you see your tomorrows unfold.

"Personal leadership is the process of keeping your vision and values before you and aligning your life to be congruent with them" **Steven Covey**

if you have a vision but find it is not getting any closer then you need to look at what you think, say and do every day and ask yourself...

Does this thought, word or action serve my vision?"

If the answer is "Yes" then carry on and don't give up. If the answer is "No" then change.
