

Whether you think you can,
or you think you can't...
YOU'RE RIGHT!
Henry Ford

How To Make money With Your Passion

When we think of assets we have or own, we tend to only think about material assets or money. What about you? What about your knowledge, skills and abilities?

I know what you are thinking. How do I determine my worth? Think of what you know, what you can do in your personal and professional life. Could you use any of those abilities, talents to turn it into a business where you get paid for your assets?

Let me use an example:

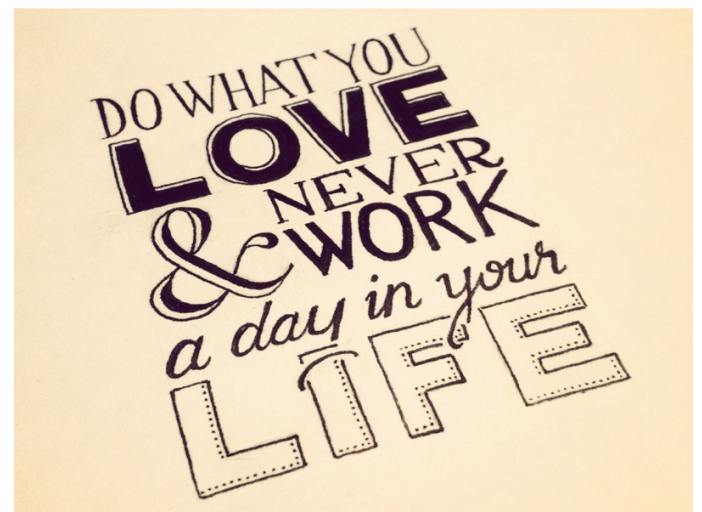

Let's say you are a bookkeeper by trade but in your spare time, you enjoy doing handyman things around the house. How many people do you know that are not handy themselves? Could you turn this into a part time business to earn extra income? With commitment and persistence, could you then maybe turn this into a full time business? Think about it...if you are doing what you love, it does not feel like work.

Here's another example:

Let's say you are a PA and in your spare time, you love baking. How many people do you know that are useless at baking? How many parties do you know of around you or with your friends? Could you turn this into a part time business that could eventually become a full time business?

I trust you are seeing where I am going with this? We all have so many talents that others do not have. You could use these to help them and in turn get paid for your talents. You are effectively selling your personal assets.

What is your passion? Is it gardening, driving, baking, designing, dress making, photography or even advice? Turn your passion into a business and make money doing what you love.

If you do what you love it will never feel like you are working. You will get up every morning wanting to get stuck in. just imagine how successful you can be because you will be committed and passionate about your business.

Confidence is something you create within yourself by believing in who you are. It may not bring success but it gives you power to face any challenge. Believe you are good enough because you are and will be.

Find your passion and figure out how you can get paid for it. Whatever you do.....**TAKE ACTION!**
