

**FINAL DRAFT**

**DND UXO and Legacy Sites Program  
Federal and Provincial Diving and Explosives  
Qualification's Tables**

**August 2008**

## ***Foreword***

The DND UXO and Legacy Sites Program has identified underwater sites as a key area of responsibility. The Program is currently developing a strategy through which these underwater sites can be dealt with by the Commercial Diving and Blasting Industry. This document has been initiated in support of this strategy and provides a series of tables that identifies the jurisdiction that enforces diving and/or blasting legislation and the nature of any diving or blasting competency certification required.

Links to both Federal and Provincial web sites are included in the table to provide the reader with access to current Canadian occupational diving and blasting health and safety legislation along with the required competency qualifications necessary to conduct these operations.

The information found in this document is not intended to be an exhaustive interpretation or to constitute legal advice to the reader. This document is prepared for convenience only, and for accurate reference, the reader should refer to the official volumes of the legislation. This document does ***not*** contain ***the*** official version of these regulations.

## Canadian Diving and Blasting Regulation and Competency Requirements Comparison Table dated April 1 2008

Jurisdiction	Dive Regulation		Dive Competency Certificate		Blasting Regulation		Blasting Competency Certificate	
	Yes	No	Yes	No	Yes	No	Yes	No
Alberta	Z275.2		Z275.4		OHS Reg. Part 39		Issued by Prov.	
British Columbia	Internal		Z275.4		OHS Reg. Part 21		Issued by Prov.	
Manitoba	Z275.2		Z275.4		Reg. 217/2006		Issued by Prov.	
New Brunswick	Internal		Must be Competent		Part XII Reg 91-191		Issued by Prov.	
Newfoundland/Labrador	Z275.2		Z275.4 modified		OHS Reg. S.155-166		Issued by Prov.	
Nova Scotia	Internal		Z275.4		OHS Reg. 89/2008		Issued by Prov.	
Nunavut	Z275.2 Review		Z275.4		Explosives Reg. 1990		Issued by Prov.	
N.W.T.	Z275.2		Z275.4		Explosive Reg. 1990		Issued by Prov.	
Ontario	Internal		Z275.4		Re. 213/91 S. 196-206			Must be Competent
P.E.I	Z275.2		Z275.4		OHS. Reg. Part 26			Must be Competent
Quebec	Z275.2 Review		Z275.4 Review		Safety Code Const.Industry S. 4		Issued by Prov.	
Saskatchewan	Internal		Must be Competent		OHS. Reg. Part XXVI			Written Authorization
Yukon		*		*	OHS. Reg. Part 14		Issued by Prov.	
CDN Federal	Internal		Internal		Explosives Act		Fireworks & Pyrotechnical	

Z275.2 - CSA Standard "Occupational Safety Code for Diving Operations"

Z275.4 - CSA Standard "Competency Standard for Diving Operations"

Internal - In-house legislation

Review - Regulation Under review - future amendment possible

Must be Competent - Responsibility of employer

Written Authorization - Authorization by Director

Modified - Standard adopted with slight modification

## Alberta Diving Overview

Government		Workplace Health & Safety Policy & Legislation
Department (s)		Alberta Employment, Immigration & Industry
Address		8 <sup>th</sup> Floor, 10808-99 Ave. Edmonton, AB - T5K 0G5
Contact Person (s)	Name:	Yan Lau
	Title:	Senior Manager
	Phone #	780-415-0595
	Fax:	780-422-0014
	Email:	<a href="mailto:yan.lau@gov.ab.ca">yan.lau@gov.ab.ca</a>
Web site		<a href="http://employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/563.html">http://employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/563.html</a>
Referenced Diving Legislation:		Occupational Health & Safety Regulation Part 31 Diving Operations
Updated to		2006
Web site referencing diving legislation		<a href="http://www.employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/1359.html?search-phrase=Part+31&amp;include-docs=on&amp;search-section=WHS%2FPUB">http://www.employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/1359.html?search-phrase=Part+31&amp;include-docs=on&amp;search-section=WHS%2FPUB</a>
Referenced Diving Standards:		Standard Section
Z275.1 Hyperbaric Chambers	Adopted <input checked="" type="checkbox"/> Referenced <input type="checkbox"/>	CSA Standard CAN/CSA-Z275.1-93 Hyperbaric Facilities
Z275.2 Diving Operations	Adopted <input checked="" type="checkbox"/> Referenced <input type="checkbox"/>	CSA Standard CAN/CSA-Z275.2-04 Occupational Safety Code for Diving Operations
Z275.4 Competency Requirements	Adopted <input checked="" type="checkbox"/> Referenced <input type="checkbox"/>	CSA Standard CAN/CSA-Z275.4-02 Competency Standard for Diving Operations
Z275.5 Training Criteria	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	As Required by CSA Z275.4
Other Standards Referenced		N/A

Enforcement		Alberta inspectors generally only respond to complaints or incidents. Experienced diving inspectors are not employed within the province. Employers are required to comply with regulatory requirements and must show Due Diligence. Non-compliance - Possible site closure, financial penalty, prosecution.
Diving Medical	Required Yes	Employers are required to ensure that commercial diving medicals are conducted in accordance with CSA Z275.2, Occupational Safety Code for Diving Operations.
<b>B.C. Diving Overview</b>		
Department (s)	WorksafeBC (Worker's Compensation Board of BC) Certification Services	
Address	6951 Westminster Highway Richmond, BC - V7C 1C6	
Contact Person (s)	Name: Title: Phone # Fax: Email:	Wayne Bingham Manager 604-276-3090 604-279-7494 <a href="mailto:Wayne.Bingham@worksafebc.com">Wayne.Bingham@worksafebc.com</a>
Web site	<a href="http://www.worksafebc.com">http://www.worksafebc.com</a> <a href="http://www2.worksafebc.com/Publications/OHSRegulation/GuidelinePart24.asp#ContentsPart24">http://www2.worksafebc.com/Publications/OHSRegulation/GuidelinePart24.asp#ContentsPart24</a>	
Referenced Diving Legislation:	Section 24 Occupational Health & Safety Regulation	
Updated to	2007	
Web site referencing diving legislation	<a href="http://www2.worksafebc.com/publications/OHSRegulation/Part24.asp">http://www2.worksafebc.com/publications/OHSRegulation/Part24.asp</a>	
Referenced Diving Standards:	Standard Section	
Z275.1 Hyperbaric Chambers	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	OH&S Regulation 24.25 Hyperbaric Chambers is not specific to CSA Z275.1 but states that "chambers must conform to standards acceptable to the board". The Guideline is mute but it would be expected that Z275.1 Hyperbaric Facilities would be complied with.
Z275.2 Diving Operations	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	WorksafeBC has developed specific commercial diving regulations for British Columbia. These can be found in Section 24 of the Regulation and are enforced throughout the province by WorksafeBC officers. Failure to comply with the Regulation requirements may result in closure of the diving operation, a financial sanction, prosecution or all of the above.
Z275.4 Competency Requirements	Adopted <input checked="" type="checkbox"/> Referenced <input type="checkbox"/>	OH&S Regulation 24.13 references CSA Z275.4 -97 and not the current standard. The Guideline states that the current Z275.4-02 may be complied with as an alternative to Z275.4-97. The competency standard is rigidly enforced throughout the province.

Z275.5 Training Criteria	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	As Required by CSA Z275.4
Other Standards Referenced		N/A
Enforcement	Required	Proactive - Non-compliance - Possible site closure, financial penalty, prosecution.
Diving Medical	Yes X  No	Note. Worksafe BC has developed a WorksafeBC Guideline which can be found on the OH&S Regulation page of the web-site. Section 24 is specific to commercial diving operations and includes Guidelines for many items such as Notice of Project, Medical certification, Training, Diver Competency, Dive Tables etc.

<b>Manitoba Diving Overview</b>		
Government	Manitoba Labour & Immigration

Referenced Diving Standards:		Standard Section
Z275.1 Hyperbaric Chamber	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	N/A
Z275.2 Diving Operations	Adopted <input type="checkbox"/> Referenced <input checked="" type="checkbox"/>	As Referenced for diving medicals
Z275.4 Competency Requirement	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	No competency requirement for a diver. A diver is defined as “a competent worker or competent self-employed person who performs underwater work”. A dive supervisor is defined as “a competent person who has complete responsibility for a diving operation, including responsibility for the health and safety of all diving personnel.” An employer shall ensure that only competent workers are required or permitted to perform underwater diving operations. An employer shall ensure that a diving operation is conducted under the direction of a diving supervisor; and give to the diving supervisor all the information and resources necessary to protect the health and safety of every diver under the supervisor’s direction.

Z275.5 Training Criteria	Adopted <input type="checkbox"/> Referenced <input type="checkbox"/>	N/A
Other Standards Referenced		An employer shall ensure that all diving operations, repetitive dives and treatments of divers are carried out in strict accordance with decompression tables and procedures published or approved by the Defence and Civil Institute of Environmental Medicine (Canada) or another approved agency.
Enforcement		Reactive – Non-compliance - Possible site closure, financial penalty, prosecution
Diving Medical	Yes X Required No	A diver must have a comprehensive medical examination conducted by a physician at least once every 12 months in accordance with the criteria set forth in Canadian Standards Association Z275.2-92 Occupational Safety Code for Diving Operations.  No diver shall dive unless the diver has been certified by the physician to be free of any medical condition that would make unsafe the performance of the type of dive to be carried out.

Address	8 <sup>th</sup> Floor, 10808-99 Ave, Edmonton AB T5K 0G5
Contact Person (s)	Name: Yan Lau Title: Senior Manager Phone: 780-415-0595 Fax: 780-422-0014 e-mail: <a href="mailto:yan.lau@gov.ab.ca">yan.lau@gov.ab.ca</a>
Web site	<a href="http://employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/563.html">http://employment.alberta.ca/cps/rde/xchg/hre/hs.xsl/563.html</a>
Referencing Explosive Legislation:	Occupational Health & Safety Regulation Part 33 Explosives
Updated to	2006
Web site referencing explosive legislation	<a href="http://employment.alberta.ca/documents/WHS/WHS-PUB_OHSC-1.pdf">http://employment.alberta.ca/documents/WHS/WHS-PUB_OHSC-1.pdf</a>
Referenced Explosive Standards:	No
Blasting or Explosive certification required?	Yes <input checked="" type="checkbox"/> No
Is blaster or firm or other certified?	Blaster: Yes
Who certifies blasters or firm?	The employer designates the blaster. The blaster is issued a permit by Workplace Health & Safety

Previous blasting training required prior to certification?	Blaster can qualify and be issued a permit by completing an approved course or having 6 months experience and be recommended by his employer.
Minimum age of Blaster?	18 years
Specified Blasting Supervisor required?	No
Special requirements for Blasting Supervisor?	Supervisor must be knowledgeable in type of blasting being conducted and in accordance with permit issued.
Medical qualifications required?	No
Types of initiation permitted?	No restrictions but in accordance with permit issued.
Underwater blasting permitted?	No restrictions but permit would come under "other" classification.
Special requirements/certification for underwater blasting?	No special requirements but in accordance with permit.
Military blasting experience accepted?	Yes. Permits have previously been issued to military personnel. Permit would restrict blaster to specific EOD use.
Describe procedures/results if explosives violations observed.	Random inspections of the worksite would generally not be conducted. Inspectors would respond to complaints and incidents or target firms with a poor safety record or high claims costs. Action for code violation would be similar to other violations.
Does agency have explosive inspectors?	No
Explosive Act (Canada) regulations enforced?	Yes, by Federal Explosive Inspectors who would be assisted by Health & Safety Inspectors as required.
Special explosive permits required?	Special permits, including UXO/Legacy site clearance operations, would be reviewed and issued under the "Other" category.

<b>B.C. Blasting Overview</b>	
Government	WorksafeBC (Worker's Compensation Board of British Columbia)
Department (s)	Certification Services
Address	6951 Westminster Highway Richmond B.C.
Contact Person (s)	Name: Wayne Bingham Title: Manager Phone #: 604-233-4021 Fax: 604-279-7494 e-mail: <a href="mailto:Wayne.Bingham@worksafebc.com">Wayne.Bingham@worksafebc.com</a>
Web site	<a href="http://www.worksafebc.com">www.worksafebc.com</a>
Referencing Explosive Legislation:	Occupational Health & Safety Regulation - Part 21
Updated to	May 2006

Web site referencing explosive legislation	<a href="http://www2.worksafebc.com/publications/OHSRegulation/Part21.asp">http://www2.worksafebc.com/publications/OHSRegulation/Part21.asp</a>
Referenced Explosive Standards:	No
Blasting or Explosive certification required?	Yes
Is blaster or firm or other certified?	Blaster must hold a valid blaster's certificate issued by the Board or acceptable to the board.
Who certifies blasters or firm?	Worksafe BC
Previous blasting training required prior to certification?	Yes. The candidate for a blaster's certificate must forward written proof to the examining officer that the candidate has had at least 6 months experience in blasting as an assistant to a blaster and/or the candidates character, qualifications and experience would make the candidate competent to handle explosives.
Minimum age of Blaster?	18 years
Specified Blasting Supervisor required?	Yes. All work within the blasting area must be done under the authorization of the designated blaster of record responsible for that area.
Special requirements for Blasting Supervisor?	Supervisor must be knowledgeable in type of blasting being conducted and in accordance with permit issued.
Medical qualifications required?	The blaster must "be physically capable of safely carrying out the duties of a blaster.
Types of initiation permitted?	No restrictions but in accordance with type of certification issued by the board. Blasters can be examined for various levels of certification.
Underwater blasting permitted?	No restrictions.
Special requirements/certification for underwater blasting?	No special requirements for underwater blasting operations but such operations must be in accordance with the Regulation and only then if the work is involved within the scope of that certificate. Occupational diving operations must be conducted in accordance with Section 24 of the Regulation.
Military blasting experience accepted?	Yes. Permits have previously been issued to military personnel. Permit would be classified as Restricted and may limit the blaster to UXO/Legacy blasting operations only.
Describe procedures/results if explosives violations observed.	The blaster's certificate may be seized and the blaster suspended from blasting for a period of time as determined by the board. The Board may apply a financial sanction and/or prosecute the blaster and his employer.
Does agency have explosive inspectors?	Yes. All safety and health officers can inspect a blast site and they may be assisted by other officers knowledgeable in blasting operations.
Explosive Act (Canada) regulations enforced?	Yes, by Federal Explosive Inspectors, RCMP officers and Board personnel as required.
Above regulations enforced by whom?	See above.
Special explosive permits required?	No. Restricted tickets may be issued for specific purposes.

## Manitoba Blasting Overview

Government	Government Of Manitoba
Department	Manitoba Labour, Workplace Safety & Health Division
Address	200-401 York Ave. Winnipeg, MA R3C 0P8
Contact Person(s)	Name: Bill Comaskey Title: Director, Mine Safety Branch Phone: 204-945-0848 Fax: 204-945-4556 e-mail: <a href="mailto:bill.comaskey@gov.mb.ca">bill.comaskey@gov.mb.ca</a>

Referenced Explosive Standards:	Explosives Act Canada
Blasting or Explosive certification required?	Yes
Is blaster or firm or other certified?	The blaster.
Who certifies blasters or firm?	The Director, Workplace Safety & Health Division
Previous blasting training required prior to certification?	The director may establish blaster safety training programs and examinations for the different classes of blaster's certificates established
Minimum age of Blaster?	18 Years
Specified Blasting Supervisor required?	An employer must not authorize or permit a charge to be prepared, fixed or fired, or a misfire to be handled, by anyone other than a blaster or a person who is working under the direct personal supervision of a blaster.
Special requirements for Blasting Supervisor?	No.
Medical qualifications required?	No.
Types of initiation permitted?	No restrictions. In accordance with issued certificate.
Underwater blasting permitted?	Yes.
Special requirements/certification for underwater blasting?	It is suggested that the Mine Safety Branch be contacted regarding all underwater explosive work as terms and conditions may be imposed on a blaster's certificate.
Military blasting experience accepted?	Military blasting experience may be acceptable and a class established by the director. See above regarding contact with the Mine Safety Branch.
Describe procedures/results if explosives violations observed.	Suspension of blaster's certificate, site closure and financial sanctions imposed. .
Does agency have explosive inspectors?	Division Safety & Health Officers will inspect all

	blasting operations as necessary.
Explosive Act (Canada) regulations enforced?	Yes.
Special explosive permits required?	A special class or permit may be established by the director.

Section Referencing Explosive Legislation:	Safety Code for the Construction Industry – Section 4
Updated to	February 23, 2008
Web site referencing explosive legislation	<a href="http://www.msp.gouv.qc.ca/police/police_en.asp?txtSection=loi&amp;txtNomAutreFichier=loi_regl_explosifs_en.htm">http://www.msp.gouv.qc.ca/police/police_en.asp?txtSection=loi&amp;txtNomAutreFichier=loi_regl_explosifs_en.htm</a> <a href="http://www.publicationsduquebec.gouv.qc.ca/accueil.en.html">http://www.publicationsduquebec.gouv.qc.ca/accueil.en.html</a>
Blasting or Explosive certification required?	Yes
Is blaster or firm or other certified?	To do blasting or any other work requiring the use of explosives on a construction site, a worker must hold a <u>shotfirer's</u> certificate. Since 1994, the Commission de la construction du Québec (CCQ) has been mandated by the Commission de la santé et de la sécurité du travail ( <b>CSST</b> ) to manage certification of shotfirers. There is also a specialized certificate for Seismic and mining exploration that is issued by Emploi-Quebec, who are mandated by the CSST (Comission de Santé et Sécurité au Travail) to administer the training program.
Who certifies blasters or firm?	CSST
Previous blasting training required prior to certification?	The candidate must supply written proof that his character, knowledge and experience make him competent to handle explosives and pass the written examination set by the Commission with a minimum mark of 80 %.
Minimum age of Blaster?	18 years
Special requirements for Blasting Supervisor?	A shot-firer may not be helped by more than 2 helpers who do not have a certificate. He must supervise them.
Medical qualifications required?	Able bodied and sound of mind.
Types of initiation permitted?	All
Underwater blasting permitted?	Yes
Special requirements/certification for underwater blasting?	No but commercial diving operations must be conducted in accordance with provincial regulatory requirements.
Military blasting experience accepted?	Yes but individual still needs to qualify by filling in a form with his past experience and if sufficient will still have to pass a test prior to being issued a Blaster's Certificate
Describe procedures/results if explosive violations observed.	Yes. Suspension of certificate, site closure, financial penalties, prosecution
Does agency have explosive inspectors?	Yes, you can find them on our Website by region. The CSST and the Surete du Quebec (SQ) also have explosives inspectors
Explosive Act (Canada) regulations enforced?	This is our mandate consult <a href="http://laws.justice.gc.ca/en/E-17">http://laws.justice.gc.ca/en/E-17</a> There is a Provincial Explosives Act and Regulations that can be found in the related links on our Website or directly to

	<a href="http://www.msp.gouv.qc.ca/police/police_en.asp?txtSection=loi&amp;txtNom">http://www.msp.gouv.qc.ca/police/police_en.asp?txtSection=loi&amp;txtNom</a>
Special explosive permits required?	NRCan/ERD issue Fireworks and Pyrotechnical certificates (requires a day course) Possession of explosives in Quebec requires a Permis Général delivered by the Sureté du Quebec (SQ) <a href="http://www.formulaire.gouv.qc.ca/cgi/affiche">http://www.formulaire.gouv.qc.ca/cgi/affiche</a> Storage and Transportation permits are required both Provincially and Federally in most cases
<b>Saskatchewan Blasting Overview</b>	
Government or other agency responsible for explosives	Government of Saskatchewan Advanced Education, Employment & Labour
Department (s)	Mine Safety Unit
Address	400-1870 Albert St. Regina Saskatchewan S4P 4W1 306-787-4496 1-800-567-7233

Describe procedures/results if explosives violations observed.	Stop work, suspension or cancellation of license or certificate, prosecution, seizure of explosives,
Does agency have explosive inspectors?	Yes
Explosive Act (Canada) regulations enforced?	Yes.
Above regulations enforced by whom?	Federal Explosive Inspectors, RCMP, provincial jurisdictions.
Special explosive permits required?	N/A

NOTE: The Explosives Regulatory Division (ERD), a part of Natural Resources Canada, is responsible for administering Canada's *Explosives Act* and Regulations. ERD operates with two main goals in mind: first, to improve public safety; and second, to strengthen national security. Under Canada's *Explosives Act* and Regulations, ERD: Maintains a system of authorization, licensing, certification and permits, supported by a compliance inspection program; and Takes steps to ensure that only responsible people have access to explosives.

ERD works to ensure compliance with the *Explosives Act* and Regulations in the manufacture, importation and distribution of many types of explosives, including:

Blasting Explosives, Pyrotechnics (special effects), Fireworks, Ammunition, Propellant powders.

#### Transportation of Explosives

Two Government of Canada organizations are responsible for the transportation of explosives:

NRCAN Explosives Regulatory Division and,

Transport Canada Transportation of Dangerous Goods Directorate , which administers the Transportation of dangerous goods Act and Regulations.

It is recommended that all blasters or individuals transporting explosives be knowledgeable with the requirements of the Transportation of Dangerous Goods Act and Regulations which may be found at the following link: <http://www.tc.gc.ca/tdg/menu.htm>
