Hi Chuck

Enclosed are two pictures of Dive Party - "ERG" 26/7/43.

Did you have the one ~~at~~ from the bow before? Have you heard of a dive tug "Edith"? My friend Art Gray has pictures and stories of diving from it. Art was pleased with the copies of Dippers Digest that I gave him. He also asked about Jack Humphries whom he dove with on the "Edith" (I think). I did not get George Cox on his web site or E-mail, do you have a phone # for him? Please send me some more Dippers Digest or Diving pictures/info if you can. When do you think you might come down this way? I'm looking forward to meeting you. I am also sending a picture of Art Gray diving a Seibe German Helmet near ~~the~~ Godrich, Ont. around 1954 as well as Oliver "Fisty" Edwards in ~~his~~ John Date equipment on The Welland Canal. I hope you enjoy them. One of my Mentors collects old marine inboard engines pre 1920s with the heavy cast Flywheels. Do you know of any leads ~~on~~ for this type of engine?

Sincerely

Mike E. Bebbi
