# INTERNATIONAL RISK SERVICES

International Risk Services has over 20 years of experience and has completed numerous risk management and health and safety projects during that time. International Risk Services methodology provides its clients with timely and quality risk analysis required to meet regulatory requirements and to support risk-based decision making.

International Risk Services assists clients focusing on the “upside and downside” of business risk. Our goal is to maximize the wealth of clients through strategically managing their risks and maximizing their competitive edge by staying one step ahead of their competition.

We provide world-class integrated risk management services in the fields of Health, Safety, Environment, Governance and Quality – risk areas relevant to all business sectors. International Risk Services has extensive experience delivering risk management and safety projects in line with the requirements of local laws and international standards, including ISO 45001, ISO 14000, ISO 31000 as well as against the in-house built criteria.

We achieve success for our clients through collaboration with them to enhance the skills of the management team, facilitating the development of knowledge in their organizations and working with them in the planning, development and implementation of risk management strategies.

**International Risk Services is a firm with extensive safety, risk management and environmental experience across the variety of industries in Australian, Poland, Russia, Kazakhstan, Mali and Tanzania.**

# SAFETY AND RISK MANAGEMENT SERVICES

Auditing and benchmarking against international standards

**Whether you're seeking environmental, safety or risk management improvement or meeting regulatory requirements, we can advise you throughout the process and help get your organization legally compliant quickly.**

International Risk Services provides auditing and benchmarking against **local legislation, ISO 45001 - Occupational Health and Safety, ISO 14000 - Environmental management, ISO 31000 - Risk management** as well as other major international standards and guidelines.

This service is suitable for both large and medium sized companies, as well as fund and asset managers seeking to independently audit their portfolio companies.

Each audit usually takes between 3-7 days and highlights safety, risk management and environmental performance gaps and well as recommendations for improvement and management action plans.

International Risk Services have developed in-house automated auditing and risk management maturity tools to minimize workplace disruption during the auditing process.

## **Benefits:**

- Independent gap analysis against legislative and standardization requirements
- Develop road maps to take the risk management to the next level and optimize its value
- Actionable recommendations to prepare for certifications, reducing insurance premiums or financing costs
- Various reporting formats suitable for management, Board of directors, fund managers and regulators

Some of our recent clients include:

## Integrated risk, safety and environmental management is a positive signal to stakeholders and investors. Direct saving from risk management far outweigh the cost of implementation.

International Risk Services helps large, medium and small organizations develop management systems, covering **ISO 45001 - Occupational Health and Safety**, **ISO 14000 - Environmental management**, **ISO 31000 - Risk management** as well as other major international standards or guidelines.

Robust integrated risk, safety and environmental management systems help organizations reduce insurance premiums, cost of borrowing from the banks, credit ratings as well as comply with the requirements often set by large corporate clients.

This service is suitable for both large and medium sized companies, as well as fund and asset managers seeking to improve corporate governance at their portfolio companies. Projects usually take between 3 and 6 weeks to complete and include:

- Review of existing management systems
- Policies and procedures development
- Advise on the selection of enterprise risk management solutions and systems
- Develop Board reporting packs
- Training and roll out

### Benefits:

- The implementation of an effective management system assists in demonstrating that your business's management is meeting its legal responsibilities
- A systematic approach to processes raises awareness among employees and other stakeholders, allowing potential problem areas to be rectified before developing into liabilities
- An efficient and effective management can help to deliver long term cost efficiencies, through savings on insurance and financing

Some of our recent clients include:

## Strategic, financial and safety risk assessments

International Risk Services provides numerous risk assessments for large, medium and small sized companies:

### Strategic risks

Our team regularly performs strategic risk assessments, helping companies develop risk based budgets, calculate strategic objectives, key performance indicators and metrics, integrate risk information into management and Board reporting as well as presenting risk information to banks, investors and insurance companies.

### Investments and portfolio management

Our team is able to perform risk management modelling on individual investment projects or the portfolio of projects. We use latest Palisade Decision Tools software for scenario analysis and Monte Carlo simulations.

### Plant and equipment

Our team of qualified plant assessors performed thousands of plant risk assessments, cross referencing over 60 international standards.

### Manual handling

Our manual handling risk assessments cover activities including lifting, pushing, pulling, holding, throwing and carrying, repetitive tasks such as packing, typing, assembling, cleaning and sorting, using hand-tools, and operating machinery and equipment.

### Dangerous goods

Our team helps manufacturers, importers and suppliers of dangerous goods and employers using those substances, to meet legislative requirements.

### Confined spaces

Our team assists companies in performing confined spaces risk assessments in line with legislative requirements.

### Working at heights

Our team aids in identifying any job your workers are exposed to a chance of a fall of more than 2 meters and suggest actions to minimize these risks.

### Noise

Our team conducts noise surveys and provide recommendations to reduce the impact of noise in your workplace.

### Benefits:

- Identify significant risks associated with company strategy, business decision or specific project
- Allocate ownership to key risks
- Make business decisions based on quantitative risk information
- Develop mitigation plans
- Fulfil legal obligations to perform timely and accurate risk assessments
- Prepare high quality risk assessment reports for banks, investors and insurance companies.

Some of our recent clients include:

**International Risk Services provides a variety of risk management, safety and environmental training courses. We provide online and face-to-face induction, refresher and specialized risk management training.**

Our training packages are written by practicing risk management professionals with over 20 years of experience. The quality and technical depth of these training resources is unmatched by the other commercial material.

Most popular training courses include:

- Risk management for executives - the relevance of ISO31000 to your organization and how you can use it as a framework for risk management in your organization contact
- Health and safety for executives - to learn more about the development of the new ISO45001
- Managing your environmental impacts – the recent revision of ISO14001 has made it even more relevant to organizations in the 21st century
- Risk modelling techniques
- Risk management for fund managers
- Risk, safety and environmental management for internal auditors
- Incident investigation (ICAM)
- Dangerous goods and hazardous substances
- Plant risk assessment
- Hazard identification
- Lock out and isolation
- Risk assessment
- Confined space
- Working at heights

**Benefits:**

- Fulfil legal obligations by providing quality and timely training to staff
- Test employee competency level or certify their knowledge in the field of risk management, safety and environment
- Raise risk management awareness at senior management level
- Train and mentor organization's existing risk management professionals.

Some of our recent clients include:

## Outsourced risk management

International Risk Services provide ongoing risk management and safety support to organizations who don't want to keep a fulltime staff dedicated to risk management. We offer clients annual packages to provide experienced risk management professionals to be available on call.

Typical package includes:

- periodic (quarterly) reviews to monitor and review agreed actions. The quarterly reviews will be reported to your Board as part of your overall risk assurance function. The reports will contain:
  - results of the reviews of your risk control strategies
  - an updated risk profile
  - an assessment of the effectiveness of risk management
- one annual review designed to test and review the risk management function and facilitate a strategic risk identification session
- updates to your risk management policy as required to ensure the policy refers to all relevant legislative guidelines. Any such updates will be communicated to your organization by us
- an off-site dedicated help line to provide ad-hoc risk management guidance to the organization.

Internal Risk Services provide a full or part-time onsite and offsite risk management service that is customized to each organization's needs. All our packages are tailored to the overall maturity of your organization as well as specific legislative needs.

### Benefits:

- Optimize your total cost of risk — even reduce it to less than half that of your peers while still complying with relevant laws and regulations
- Take advantage of our accumulated industry knowledge and expertise - highly experienced risk management team available on call for any specialized risk projects
- Receive trustworthy advice without bias or hidden agenda

Some of our recent clients include:

# OUR TEAM

**Paul Camilleri**  
Company Director

Paul has a Bachelor in Business Finance (Monash University), Post Graduate Risk Management (Swinburne University Faculty of Engineering), has a Graduate Diploma in Occupational Health and Safety, A Certified Global Trainer and is a Registered Global Lead Risk Auditor with Exemplar Global.

Paul has worked in risk management for 25 years and tackled numerous projects in Australia and overseas.

Typical projects Paul has been involved in

## **Transport and Warehousing**

Paul has extensive experience in safety compliance auditing of the transport industry including conducting technical analysis and developing Global Safety Systems for these clients. Clients include CHEP, Tolls, Patrick Corporation and Linfox. Public Transport has also been covered including training in Accident Investigation

## **Shipping and Transport**

Paul has developed comprehensive safety management systems for shipping operations and technical risk assessments for compliance requirements. Ship induction programs have also been developed. Paul has worked across Port operations in regards to movement and management of Port Container Yards, Quarantine and Fumigation and Fully Automated Container Loading Facilities.

## **Food and Drinks Production**

Paul has worked extensively with major food and packaging groups including Tetra Pak, Parmalat Milk, Fonterra, Coke Cola, Simplot Foods, Beads Foods, Patties Foods, Fresh Cheese, Murray Goulburn etc. We have audited and built safety management systems for these operations and trained staff.

## **Health Care**

Paul has had extensive experience auditing over 20 hospitals for St. John of God. We currently look after 150 nursing homes and have built and design safety systems for these facilities and trained staff.

## **Construction Industry**

Paul has had extensive experience in auditing the construction industry including Lend Lease and Leightons. We have designed and built safety systems for these operations and trained staff.

**Alex Sidorenko,**  
**CT31000,**  
**CRMP.RR**  
Company Director

Alex Sidorenko is an expert with over 13 years of strategic, innovation, risk and performance management experience across Australia, Russia, Poland and Kazakhstan. **In 2014 Alex was named the Risk Manager of the Year by the Russian Risk Management Association.**

Alex is a multi-disciplinary risk consultant and the principle risk management consultant of International Risk Services.

In his other role as a Board member of Institute for strategic risk analysis in decision making Alex is responsible for risk management training and certification (including creating exams) across Russia and CIS, running numerous risk management classroom and e-learning training programs. Alex represents Russian risk management community at the ISO Technical Committee 262 responsible for the update of ISO31000:20XX and Guide 73 since 2015.

Alex is the co-author of the global PwC risk management methodology, the author of the risk management guidelines for SME (Russian standardization organization), risk management textbook (Russian Ministry of Finance), risk management guide (Australian Stock Exchange) and the award-winning training course on risk management (best risk education program 2013, 2014 and 2015).

Alex worked as a Head of Risk Management at RUSNANO, one of the largest private equity funds in Russia, specializing in technology investment. Alex won an award for best ERM implementation at RUSNANO in 2014.

Prior to that Alex worked in senior risk roles at Skolkovo Foundation, Strategy Partners, PwC and Deloitte.

Alex recently published his second risk management book called "Effective Risk Management 2.0". Alex also regularly presents at risk management conferences in Russia and Europe. In November 2012 Alex shot a series of TV programs dedicated to risk management in start-ups. Alex teaches risk management at major Russian business schools including OpUS, Technopark Skolkovo, MIRBIS, MFUA, SKOLKOVO and USIB as well as corporate universities, like Gazprom.

He has successfully completed his double Bachelor degree in Risk Management and Econometrics at Monash University, Australia, achieving the top risk management and statistics student award two years in a row.

**Marius Van Der Plas**  
Associate Safety, Risk & Security Consultant

Marius has worked as Safety, Risk and Security consultant with over more than 10 years' experience.

Marius has managed safety for a number of companies in Construction, Health Care and Government and has developed and audited Safety Management Systems for a number of high profile companies.

Past projects include

- AS4801 Audit for Latrobe City Council
- AS 4801 Safety Auditing:
  - for BMD
  - for St.John of God
  - for Baiada Poultry
- Safety Auditing and Risk Assessments for Aged Care Services Australia Group (ACSAG)
- Risk Assessments and Safety Audit of the APA Group

**Chay Goebel**  
National Plant Manager

Chay is an accomplished plant assessor and safety auditor. Chay is a Qualified Diesel Mechanic and is currently completing his Mechanical Engineering Degree and has a Diploma in Safety from Swinburne University.

Chay manages Plant Risk Assessments around the country and is responsible for overseeing our national plant risk assessment team with assessors in all states and territories. Chay is very experienced in the legislative requirements for risk assessments, audits and is well versed in the relevant Australian Standards.

Past projects include

- Plant risk assessments:
  - for Shamrock Civil
  - for Isuzu
- MDG Audit for Service Trucks Australia
- Telfer Gold Mine Diesel Fitter conducting maintenance and safety audits
- Yarrabee Coal Mine conducting maintenance and safety audits
- Hino Risk Assessments

# INDUSTRY EXPERIENCE

## Aged Care

Aged Care Services  
Australia Group

- Audit of Nursing Homes in Victoria.
- Self Insurance pre audit, rebuilt safety management systems, conducted plant, manual handling, working at heights, confined space and hazardous substance and dangerous goods risk assessments. Developed technical SOPS. 8 Nursing Home Villages in NSW.

RSL Life Care

## Aviation

Ansett Air Lines

- Enterprise risk management profile

John Holland Aviation

- Conduct risk assessments on plant and equipment used for servicing airplanes.

## Building and Construction

Boyd Construction

- Plant Risk Assessment on Construction Equipment

Clevertonics

- Risk assessment on new emergency management system

John Holland Civil &  
Rail

- Plant Risk Assessment training in Perth, NSW and Queensland. Risk Assessments on Plant & Equipment kept at Storage Depots.

Lend Lease

- Design Risk Assessment Barangaroo development

MMM Pty LTD

- Risk assessment on construction site scaffolding and EWP access.

Moody and Civil  
Construction

- Conduct Plant Risk Assessment on all heavy industrial plant and equipment. Over 30 items assessed.

Olex Cables

- Plant risk assessment on Cable winding equipment.

Pezzimenti Tunnel  
Boring

- Plant Risk Assessment on Tunnel Boring Equipment

Ramage Concreting

- Development of AS4801 Safety Management System. Conduct Risk Assessments and develop Safe Operating Procedures.

Sunraysia Cranes

- Risk assessments (Plant, Manual Handling, Hazardous Substances, Dangerous Goods and Working at Height). Development of new Safety Management System in line with AS 4801 and SafetyMap.

Trident Group

- Plant Risk Assessment on Numerous Construction plant.

## Community and Education

James Cook  
University

- Conducted AS 4801 Audit on Townsville & Cairns Operations, Trained Vice Chancellor Board in Model Legislation, Researched Safety Software in the Australian Market

La Trobe Valley  
Council

- AS 4801 Safety Audit

Wetherill Parks  
Community Centre

- Conduct Enterprise Wide Risk Profile. Develop AS 4801 Safety Management System. Conduct Plant, Manual Handling, Height Risk Assessments. Develop Safe Operating Procedures.

YMCA

- Dangerous Goods Risk Assessment

## Event Management

Caulfield Cup Day  
Carnival

- Enterprise wide risk management profile for Caulfield Cup Day Carnival

Republic Events

- Development of Safety Management System. Operational risk review on all operational activities for putting on major events
