

ABOUT US

We discovered our Miracle

If You had a product that changed your life would you keep it a secret?

It All Started with a Meeting with Dr. Betty Kamen, Ph.D.

We had been the Health Industry for decades but a fateful-meeting with Dr.-Betty Kamen changed our lives forever.

Dr. Kamen is internationally known as a distinguished author, lecturer and nutrition consultant.

With a graduate degree in psychology and nutrition education. Dr Betty Kamen's books include Hormone Replacement Therapy Yes or No! and She's Gotta Have it! Along with other well documented books on Vitamin, Mineral and Nutrition.

Dr. Kamen's Original research on Hormone and Herbs was used to create a wonderful transdermal cream. When we first made contact with her the cream was being sold by a Large

Nutritional Firm. It was not their only product and was not getting the attention we felt it deserved.

Due to remarkable benefits that many people had reported. We decided it was past time to bring this product to light.

Over the years we have offered this product and have personally spoken to well over 30,00 people that are finding relief from hot flashes to night sweats and every thing in between. In our journey we became aquatinted with other wonderful doctors including Dr. John R. Lee. We found that Dr. Kamen and Dr. Lee were close associates. I personally have seen the difference in my skin and wrinkles as I have used the Miracle Cream daily.

But more than that, I have heal spurs that don't hurt at all because of using the cream daily on my feet. My husband states that The Miracle Cream has given him back his life. He has recovered from accidents and anxiety attacks to mention just a few of the benefits. More important we have 5 daughters who use the cream and have gain 5 out of the 6 grandchildren because of this product.

I have people as young as 11 and as old as 102 using this amazing cream daily.

Dr. Kamen is in her late 80's . Her husband is in his early 90's. Both do not take any drugs and use only good nutrition and supplements. And so can You!
