BIG WHITE®

Whether printed or digital – with us the choice is yours.

SLV.COM – EXPERIENCE LIGHT ONLINE

On our online platform you will find the complete SLV range with all product details, descriptions, availability, and much more. Our filter makes looking for the perfect product easy. Useful design files, 3D data, configurators and calculation tools such as FastCalc by DIAL are there to help you create your perfect lighting design. We always keep pace with the times, with news from the world of lighting, and received a Shop Usability Award in 2019. Visit **slv.com**

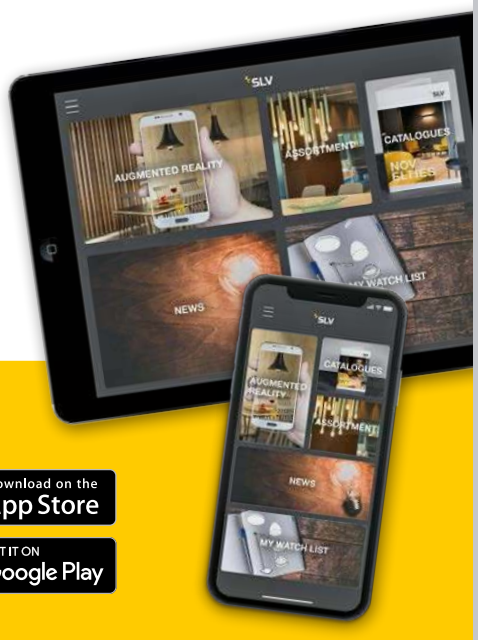

THE DIGITAL BIG WHITE® CATALOGUE – YOUR FLEXIBLE COMPANION

With our digital catalogue, you have a tool that will make your customer visits more efficient than ever: as well as having a digital copy of our main catalogue to hand, you can also gain quick insight into the exact SLV products you want to see through our additional services.

SLV EXPERIENCE LIGHT APP: NOW YOU CAN EXPERIENCE REAL INSPIRATION VIRTUALLY TOO.

Understand in advance what SLV lights can do for customers.
With our augmented reality app, SLV EXPERIENCE LIGHT, you can always find the perfect lighting – on the spot, indoors and outdoors. The app is extremely easy to use, making it an important consultation tool for electrical installers and lighting designers. Because where the customer's imagination ends, the possibilities of our app begin: give a virtual presentation of how our lights will work in their future location.

Download the SLV EXPERIENCE LIGHT app for free.
Download our free augmented reality app from the iTunes Apple Store or Google Play Store onto your smartphone or tablet.

SLV – EXPERIENCE LIGHT!

SLV is a brand that has continued to shine ever more brightly since 1979. Like the symbolic **Polar Star** in our brand logo, we now shine far beyond the borders of our German origin.

3500+

MORE THAN 3,500 ITEMS IN THE BIG WHITE 2021 CATALOGUE

Light is extremely versatile and influences every area of our life. The possibilities offered by SLV for making light a unique experience are just as versatile.

What does Experience Light mean?

Experience Light means creating an all-round priceless experience. Through the perfect lighting solutions for a wide range of indoor and outdoor spaces, covering diverse contexts and purposes. Through excellent service, fast delivery, and easy installation. And through strong brand quality – which is available at a fair price.

Fast and reliable delivery

Great value for money

5 year guarantee*

German engineering

98 % product availability

Our own development in Germany, long-term thinking, and rigorous quality assurance form the basis of our exceptional quality standards. You can rely on the SLV brand – even in challenging times. With a constant product availability of 98 %, we offer fast and reliable delivery to all our customers from our own logistics centre in Germany.

* Please note the guarantee conditions available at slv.com → Service → Downloads → Guarantee conditions.

NEW

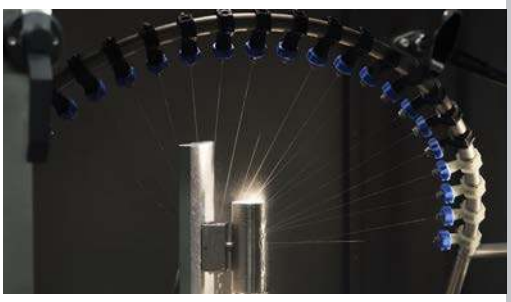

100+

Here at SLV, what drives us is constant development and finding new solutions. Whether it is a matter of adapting new technologies and standards or networking and controlling devices intelligently – future-proof lighting solutions are always our priority at SLV.

DALI ZIGBEE

MORE THAN 100 NEW PRODUCTS IN THE BIG WHITE 2021 CATALOGUE

Tried and tested quality.
The SLV test laboratories, located at SLV's German headquarters in Übach-Palenberg (North Rhine-Westphalia) and in Shanghai in Asia, contribute significantly to quality assurance and improvement.

Distinguished design.
Industrial designers from all over the world develop lights for the SLV brand.
For designs that create special experiences and are recognised with prestigious awards.

BENDO

MALU

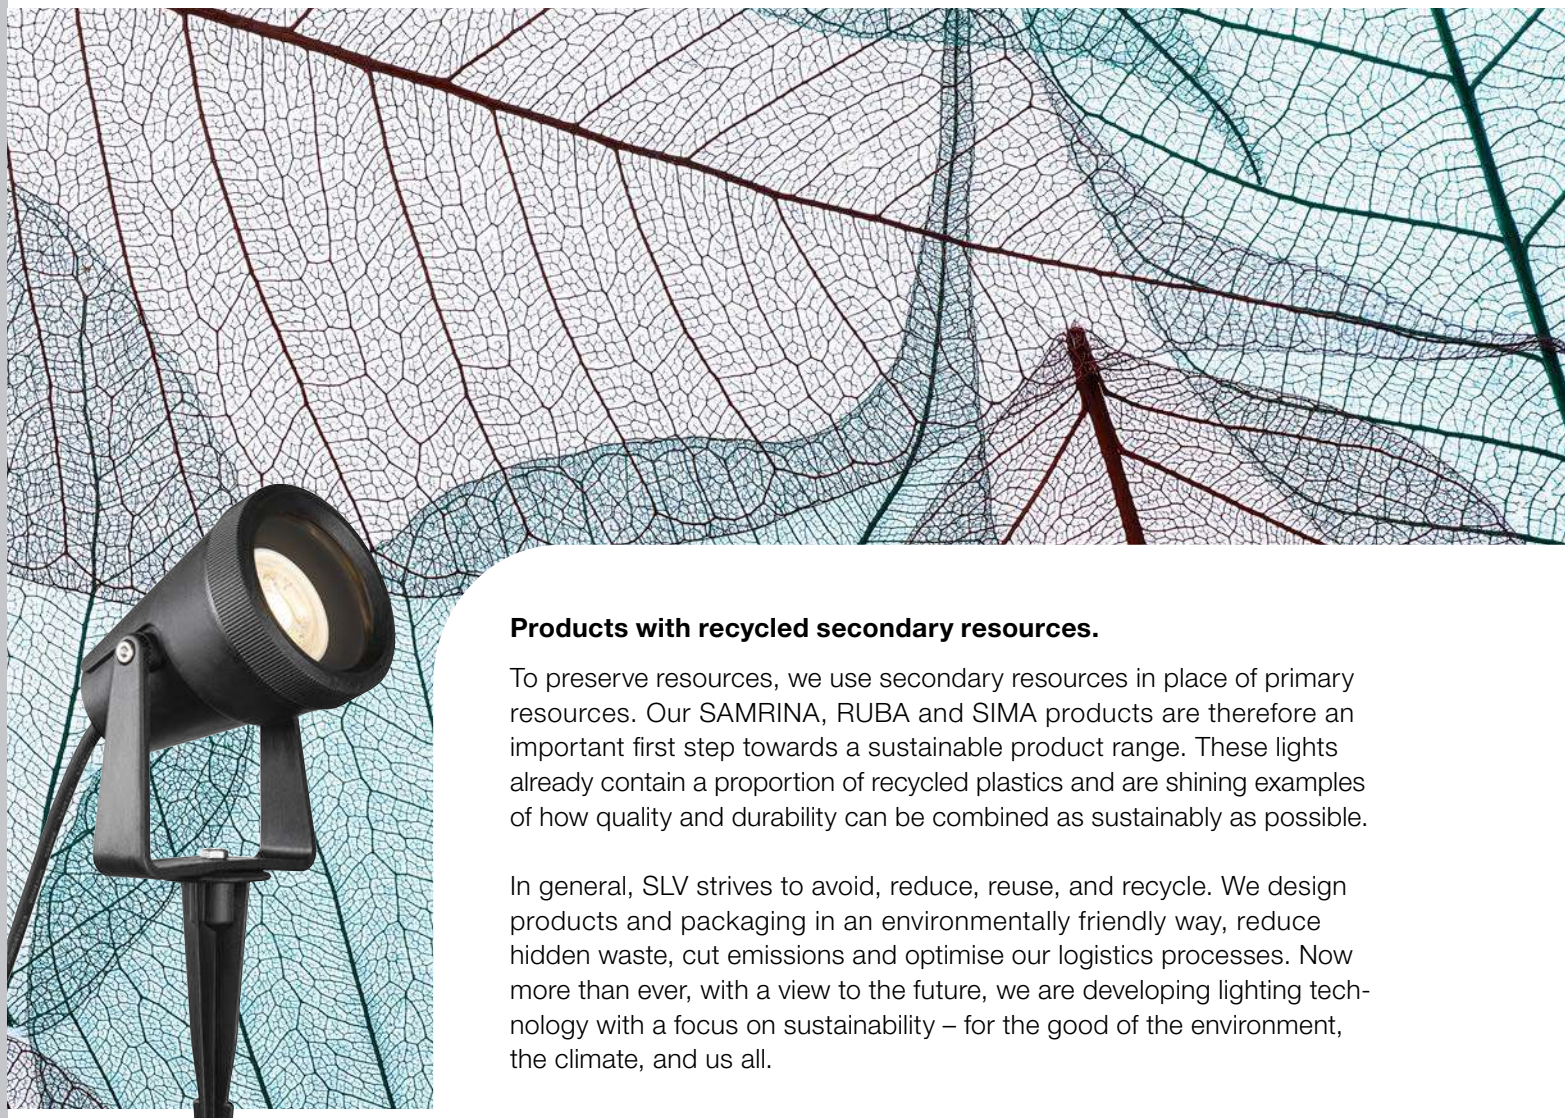

ESKINA

A strong partner.
Success is always the result of close collaboration. So it's great that SLV can rely on the partnerships it has developed – both within the lighting sector and outside of it.

GREEN LIGHT
FOR SUSTAINABILITY

Our understanding of sustainability is characterised by resource-saving actions and ecological innovations. Across all core processes.
With products that are better for the environment and our planet.

Products with recycled secondary resources.

To preserve resources, we use secondary resources in place of primary resources. Our SAMRINA, RUBA and SIMA products are therefore an important first step towards a sustainable product range. These lights already contain a proportion of recycled plastics and are shining examples of how quality and durability can be combined as sustainably as possible.

In general, SLV strives to avoid, reduce, reuse, and recycle. We design products and packaging in an environmentally friendly way, reduce hidden waste, cut emissions and optimise our logistics processes. Now more than ever, with a view to the future, we are developing lighting technology with a focus on sustainability – for the good of the environment, the climate, and us all.

LED INSIDE

Energy-efficient LED illumination.

High efficiency, long durability, and environmentally-friendly disposal: compared to traditional lightbulbs, LEDs save up to 90 % in energy. Of course, SLV uses energy-saving technology for its lights.

Less packaging.

Recycled paper instead of styro-foam, reduced total volumes, and cardboard instead of plastic: when it comes to packaging, we are working specifically towards an established closed-loop economy. We also want to further minimise the emissions indirectly caused by transportation and thus our CO_2 footprint.

Repair instead of disposal.

For us, sustainability also means that more than 80 % of our lights can be repaired by trained specialists. This saves raw materials, reduces waste, and makes our customers happier.

SAMRINA, RUBA and SIMA – shining examples of sustainable quality.

NUMINOS.

ONE LIGHTING SYSTEM – A THOUSAND POSSIBILITIES.

THE PERFECT LIGHTING SOLUTION FOR EVER Y CONTEXT.

THE FREELY CONFIGURABLE LIGHTING SYSTEM THAT CASTS A GOOD LIGHT ON EVERY SETTING.

No two projects are the same. But many projects demand a coherent lighting and design concept. NUMINOS is a perfectly coordinated lighting system that harmonises function, design and technology. For planners and doers. For every need. For maximum variety with minimum effort.

NUMINOS.

HIGH-PERFORMANCE LED MODULE WITH BRILLIANT COLOUR RENDERING

WIDE SELECTION OF DOWNLIGHTS AND SPOTS FOR A HARMONIOUS DESIGN CONCEPT.

MORE FREEDOM WITH SYSTEM.

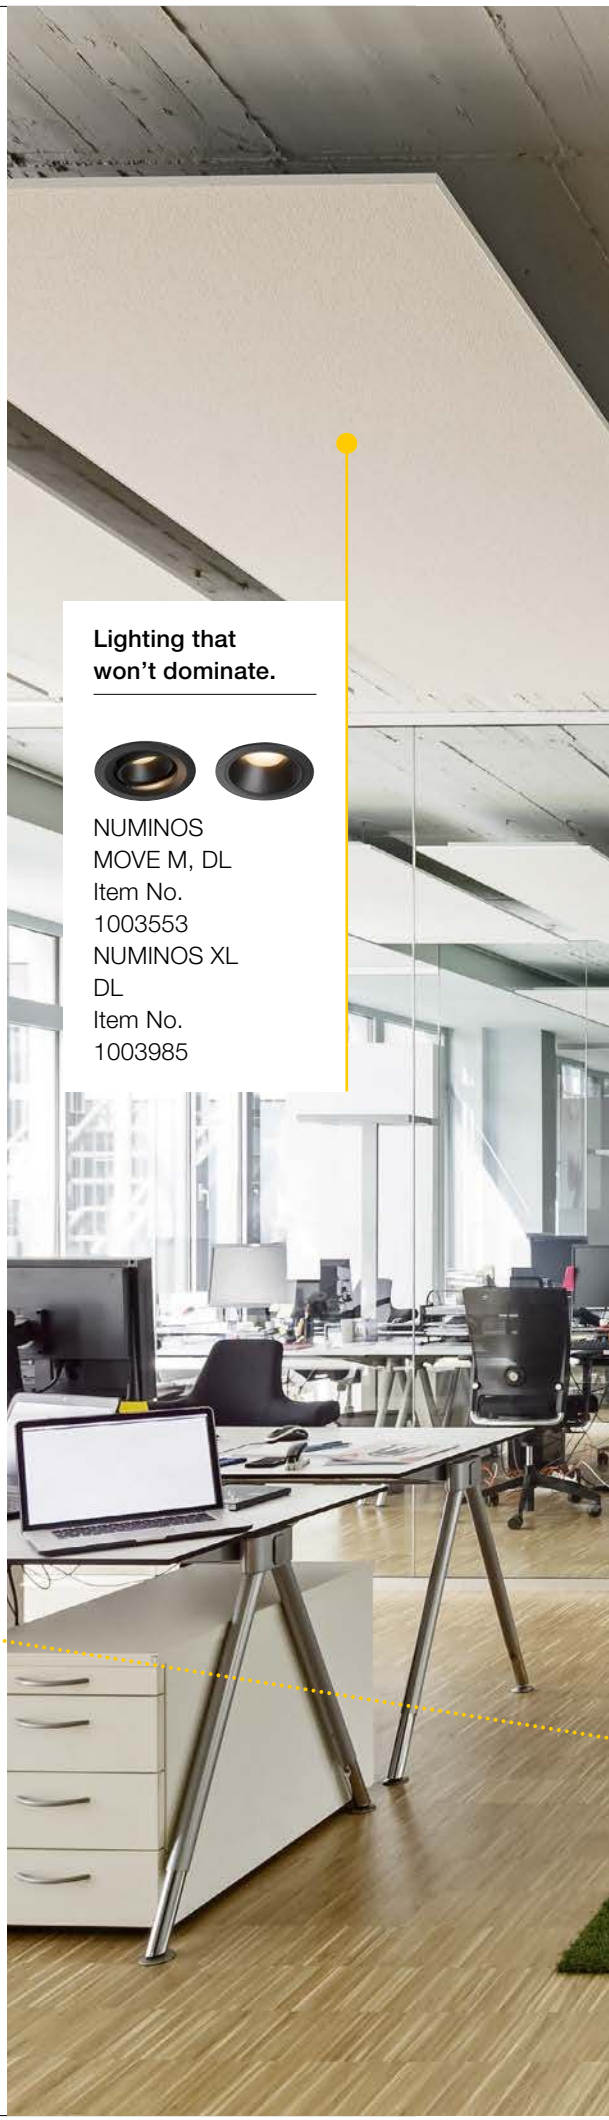

WHATEVER YOU'RE PLANNING –
THE NUMINOS LIGHTING SYSTEM
CREATES SPACE FOR NEW IDEAS.

The NUMINOS lighting system offers constant lighting characteristics and modern design for all uses:

- **for office spaces**
- **shops & boutiques**
- **hotels & gastronomy**
- **museums**
- **at home**
- **and much more**

From hotels and offices to commercial or private rooms. From application to technology to design in detail: it's good that the modular downlights and spotlights can be configured exactly as required by the design or space in question. And the more multifaceted your project is, the more you benefit from the NUMINOS lighting system.

Lighting that won't dominate.

NUMINOS MOVE M, DL
Item No. 1003553
NUMINOS XL DL
Item No. 1003985

Highlights that shine down.

NUMINOS S, CL
Item No.
1004139

Free for all dimensions.

NUMINOS L,
3-circuit
Item No.
1004554

Perfect for suspending, and height-adjustable.

NUMINOS L, PD
Item No.
1004530

UNIQUE VARIETY, SHARED HIGHLIGHTS.

Choose between:

- Downlight or spotlight
- Various sizes and diameters
- Housing colours (black/white)
- Reflector variants
- Pivoting or rigid versions
- Performance classes

The different variants feature:

- High-performance LED module with the light colours 2700K/3000K/4000K
- Colour quality CRI>90
- Glare rating UGR min. <22

DOWNLIGHTS

Available in seven versions (68-75mm to 176-186mm) with high-performance LED module in three light colours (2700K, 3000K, 4000K) and glare ratings (UGR 16, 19, 22)

Selectable reflectors with half beam angles of 20°, 40° or 55°.

Various effect filters (frosted / prismatic / elliptical / honeycomb) available as accessories.

Decorative ring can be selected in white, black or chrome as a visible border.

NUMINOS downlights are available as rigid or swivelling versions (4x fixed and 3x rotated and pivoted).

S M L XL

Accessory with system:
You can easily add an optional driver (on/off, phase dimming, DALI) and suitable diffusers using the colour coding system.

You can find drivers and diffusers for the SLV NUMINOS Downlight system on pages 40-41.

ONE LIGHTING SYSTEM INTELLIGENTLY DESIGNED IN EVERY DETAIL

Thanks to the wide selection of modules, there is a suitable solution for every need. Fixed configuration. Fast and safe to install.

SPOTLIGHTS

Available in three housing sizes (65x155mm, 85x175mm, 100x203mm) with high-power LED module in three light colours (2700K, 3000K, 4000K)

Thanks to the built-in LED driver (phase dimming, DALI), all spot-lights are suitable for direct con-nection to 230V mains voltage.

Selectable lenses with half beam angles of 24°, 36° or 60°.

NUMINOS spotlights are available as swivelling or fixed ceiling spots, pendant lights and as spots for 3-circuit rail systems.

Easy to install.

Because efficiency always pays off, SLV lights are easy, quick and safe to install. Connection via mounting plate, rail system, quick-release coupling, spring clips and colour-coded drivers for downlights offers a key advantage: it saves you time and effort – and therefore costs.

ONE LIGHTING SYSTEM. FOR EVERY EVENTUALITY.

For success under all conditions, you need team players who shine with individual strengths. Discover the applications for which the individual NUMINOS lights are particularly well suited.

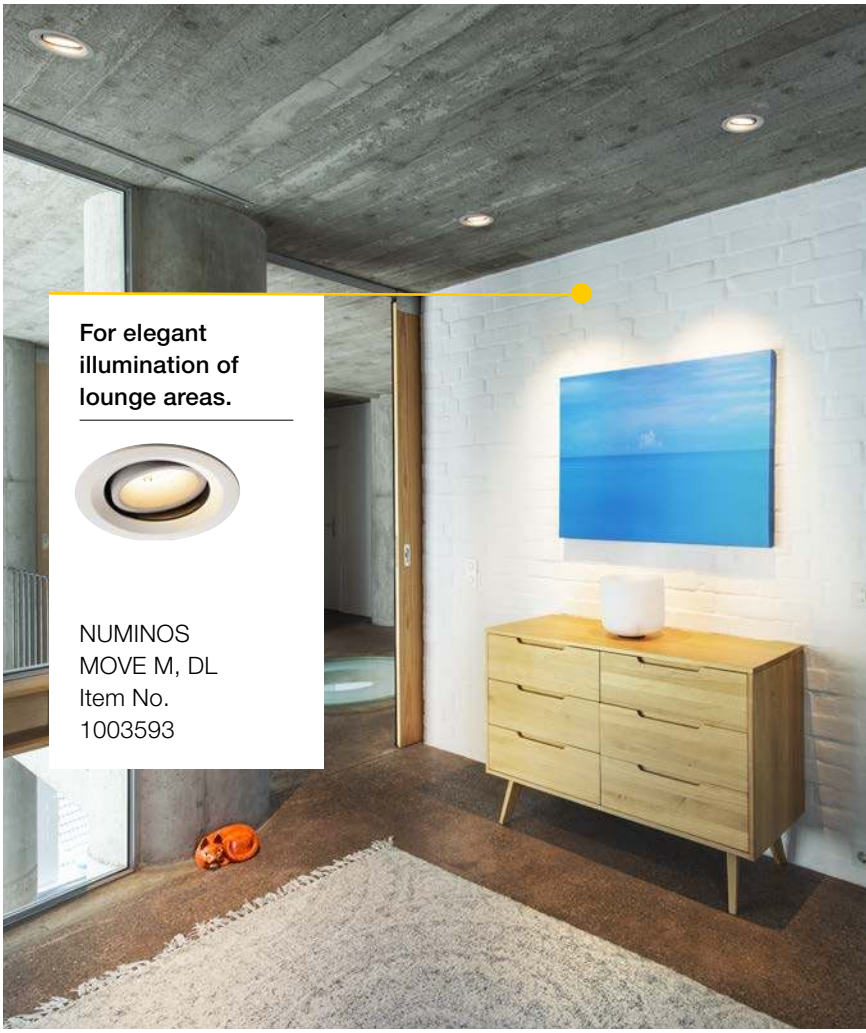

Downlights
Unobtrusive, modern and space-saving lighting that directs the gaze to particular objects or the room in general: the downlights in the NUMINOS lighting system can be used variably in commercial and private settings.

To help focus on what really matters in meeting rooms.

Flexibility in all its facets.
Whether you're looking to create atmospheric room lighting or effective accent lighting – with the right spotlights, anything is possible. The rotating and pivoting versions in particular, as well as the rail spotlights of the NUMINOS lighting system, meet the highest demands in terms of flexibility.

REACH YOUR GOAL SYSTEMATICALLY.

With the NUMINOS Online Configurator.

With our configurator, it's that easy:
The first question to answer is: downlight or spotlight? You can then choose between preconfigured and additionally customisable application scenarios or free configuration.

If you are still unsure about the selection of attributes, don't worry: we offer suitable explanations for each selected configuration.

Here you can find the NUMINOS configurator:

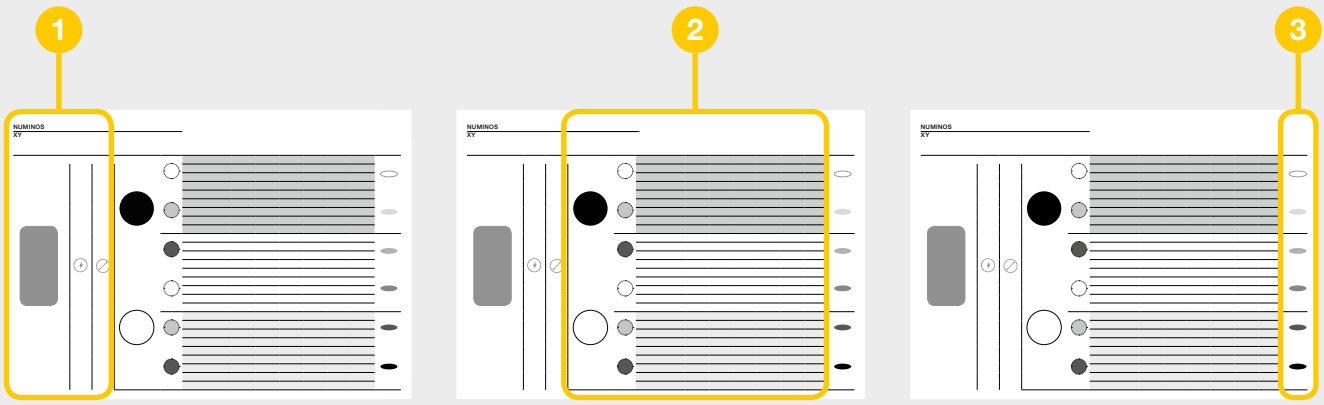

www.numinos.SLV.com

Just three steps to reach your goal:

1. **TECHNICAL CONFIGURATION**
2. **OPTICAL CONFIGURATION**
3. **VISUAL REPRESENTATION & COMPLETION**

Reach your goal here and now – configure your lighting with the BIG WHITE® catalogue.

Put together your dream lighting over the next pages.
The following product overviews will help you reach your goal just as easily: scroll to your desired light type, follow the columns from left to right and make your individual selection. At the end, you will find the relevant item number for direct ordering.

STEP 1
SPOTLIGHT OR DOWNLIGHT?

Choose the most suitable light type for your needs. The diameter (down-lights) or housing size (spotlights) are coupled with the total wattage.

STEP 2
TECHNICAL CONFIGURATION & SELECTION OF DETAILS

Column by column, you can select optical and technical attributes such as housing colour or decorative colours, the colour temperature, half beam angle and more.

STEP 3
PRODUCT

Get a visual impression of your fully configured light and order it right away using the relevant item number.

STILL UNSURE ABOUT SOMETHING?

Scan me to view a video that shows how to configure NUMINOS lights.

In addition to the familiar catalog icons, you will find the following icons in this chapter:

UGR	**Glare rating**
	Colour temperature
	Half beam angle
lm	**Lumen**
	Controller

DL

XL

Product details:

1050mA
Power consumption: 37.4W
Material: aluminium/polycarbonate (PC)
Installation dimensions: Diameter: 17.5 cm D: 13 cm

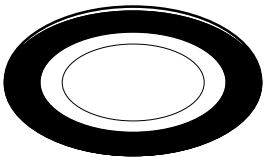

Tip:

Low-voltage plug
Driver not included

You can find suitable drivers and diffusers on pages 40-41.

THE BEST THINGS COME FROM ABOVE.

CEILING LIGHTS FOR FLEXIBLE LIGHTING.

Ceiling lights are the centrepiece of any room. They bring a warm ambience into each space with their radiant power. Adapted to the room concept, you can align the luminaires in an optimum way and set impressive emphasis of light from above.

FOR THAT RADIANT LOOK.

COMBINATION OF WALL AND CEILING LIGHTS.

Whereas ceiling lights call the tune with regard to general lighting, wall luminaires create individual impressions. A combination of the two is therefore ideal for an integrated light solution – providing many varying options; there are no limits to your creativity.

DEEP ROOTED.

RECESSED FITTINGS RADIATE AN IMPRESSION.

Be it broad-beamed, flooded, static or swivelling: Recessed fittings are the core element of many lighting concepts, and provide a good alternative to freely suspended luminaires. You can adapt to any ambience and give yourself a great deal of furnishing freedom.

PROFESSIONAL IMPRESSION.

3-CIRCUIT HIGH-VOLTAGE TRACKS FOR NEW LIGHT EMPHASIS.

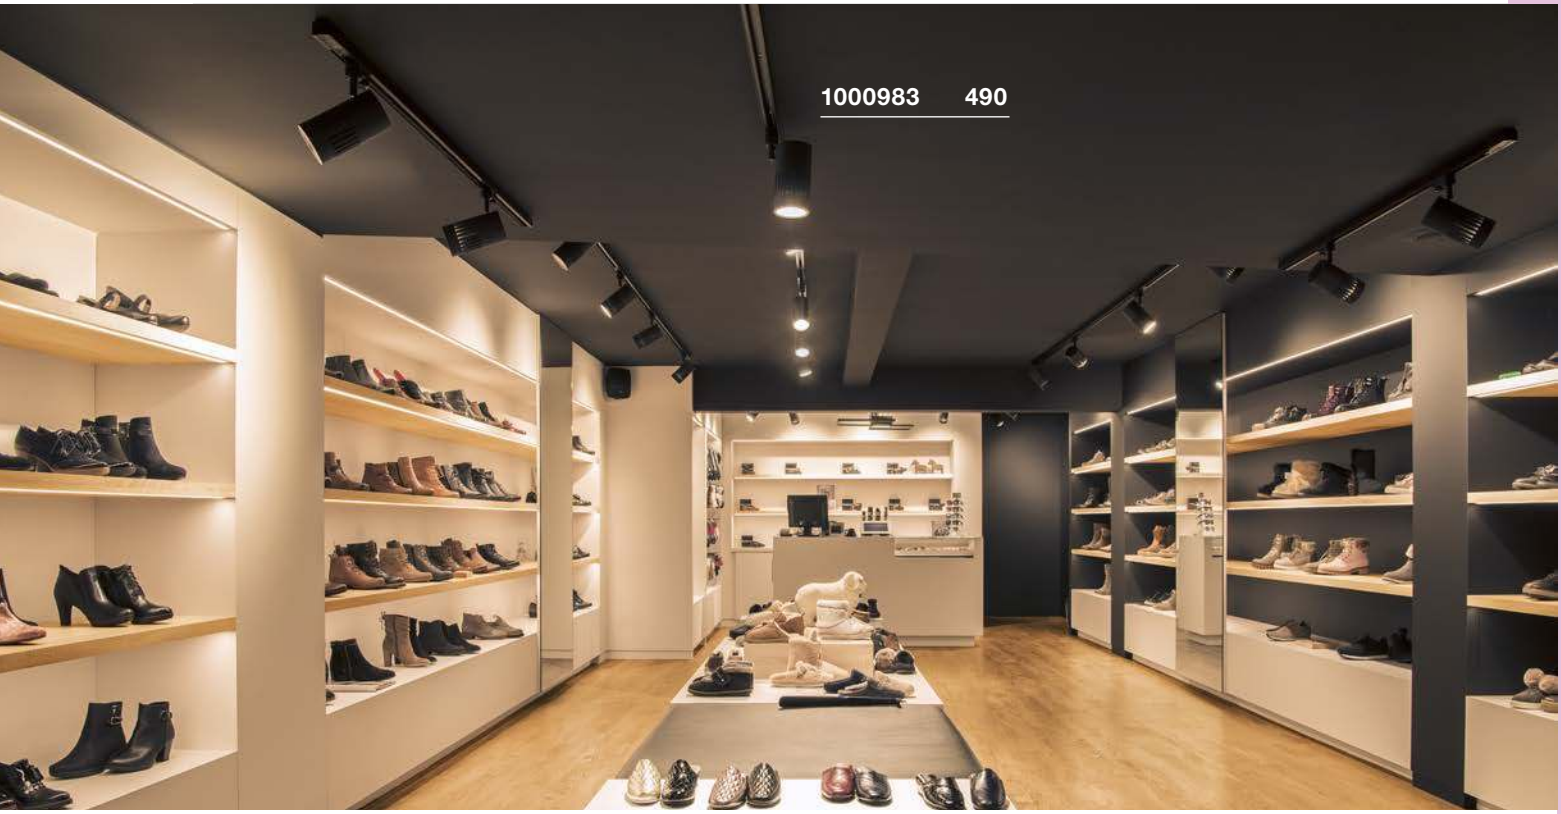

Well thought-out lighting is essential, particularly in locations where there is a lot to see. 3-circuit high-voltage tracks are ideal for shops and trade fair stands. They provide perfect lighting and put products and exhibits in the right light.

1004772 473

1004690 471

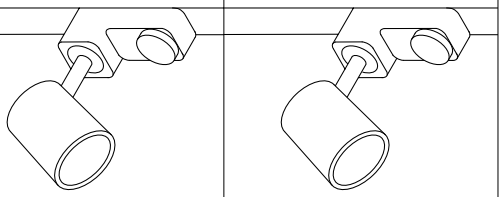

HIGH-VOLTAGE 3-PHASE TRACK

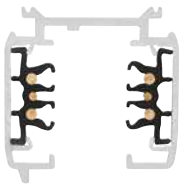

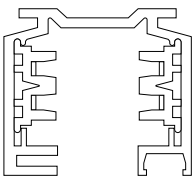

Other luminaires and variants can be found online at www.slv.com
You can find manufacturer's details for our recommended lamps in the chapter 'Lightbulbs', from page 844

3-CIRCUIT TRACK COMPATIBILITY

Compatible with fittings/adapters from:

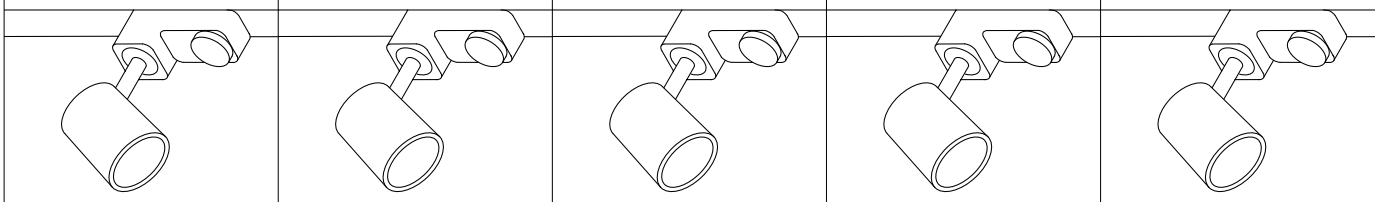

SLV **Tracks and track components**	Use	SLV	Global/Nordic	Eutrac®
				
	without DALI	✓	✓	★
	with DALI	✓	✓	✗

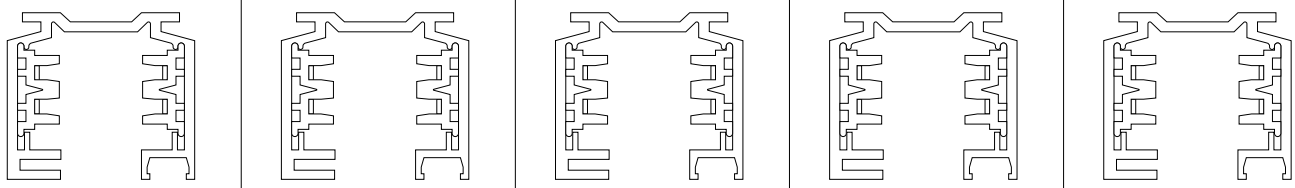

Compatible with tracks and track components from:

SLV **Fittings and adapters**	Use	SLV S-Track	Global/Nordic	Eutrac®
				
	without DALI	✓	✓	✓
	with DALI	✓	✓	✓ ★★

★ Subject to prior testing using samples of the lamp and track
★★ But without DALI functionality

Details not guaranteed.
Technical data and dimensions are subject to change without notice.
During the planning phase of the project, check the project using samples to ensure functionality.
Compatibility refers only to tracks/fittings. Tracks and track components from different manufacturers should not be combined.

STAYING ON TRACK.

SIMPLY WELL ILLUMINATED WITH 1-CIRCUIT 240V TRACKS.

Thanks to the holes in the profile, the flat aluminium track can be attached to the wall or ceiling in a quick and easy way. When doing this you have the choice between a recessed version and a surface-mounted version, available in several colours.

LOVE OF DETAIL.

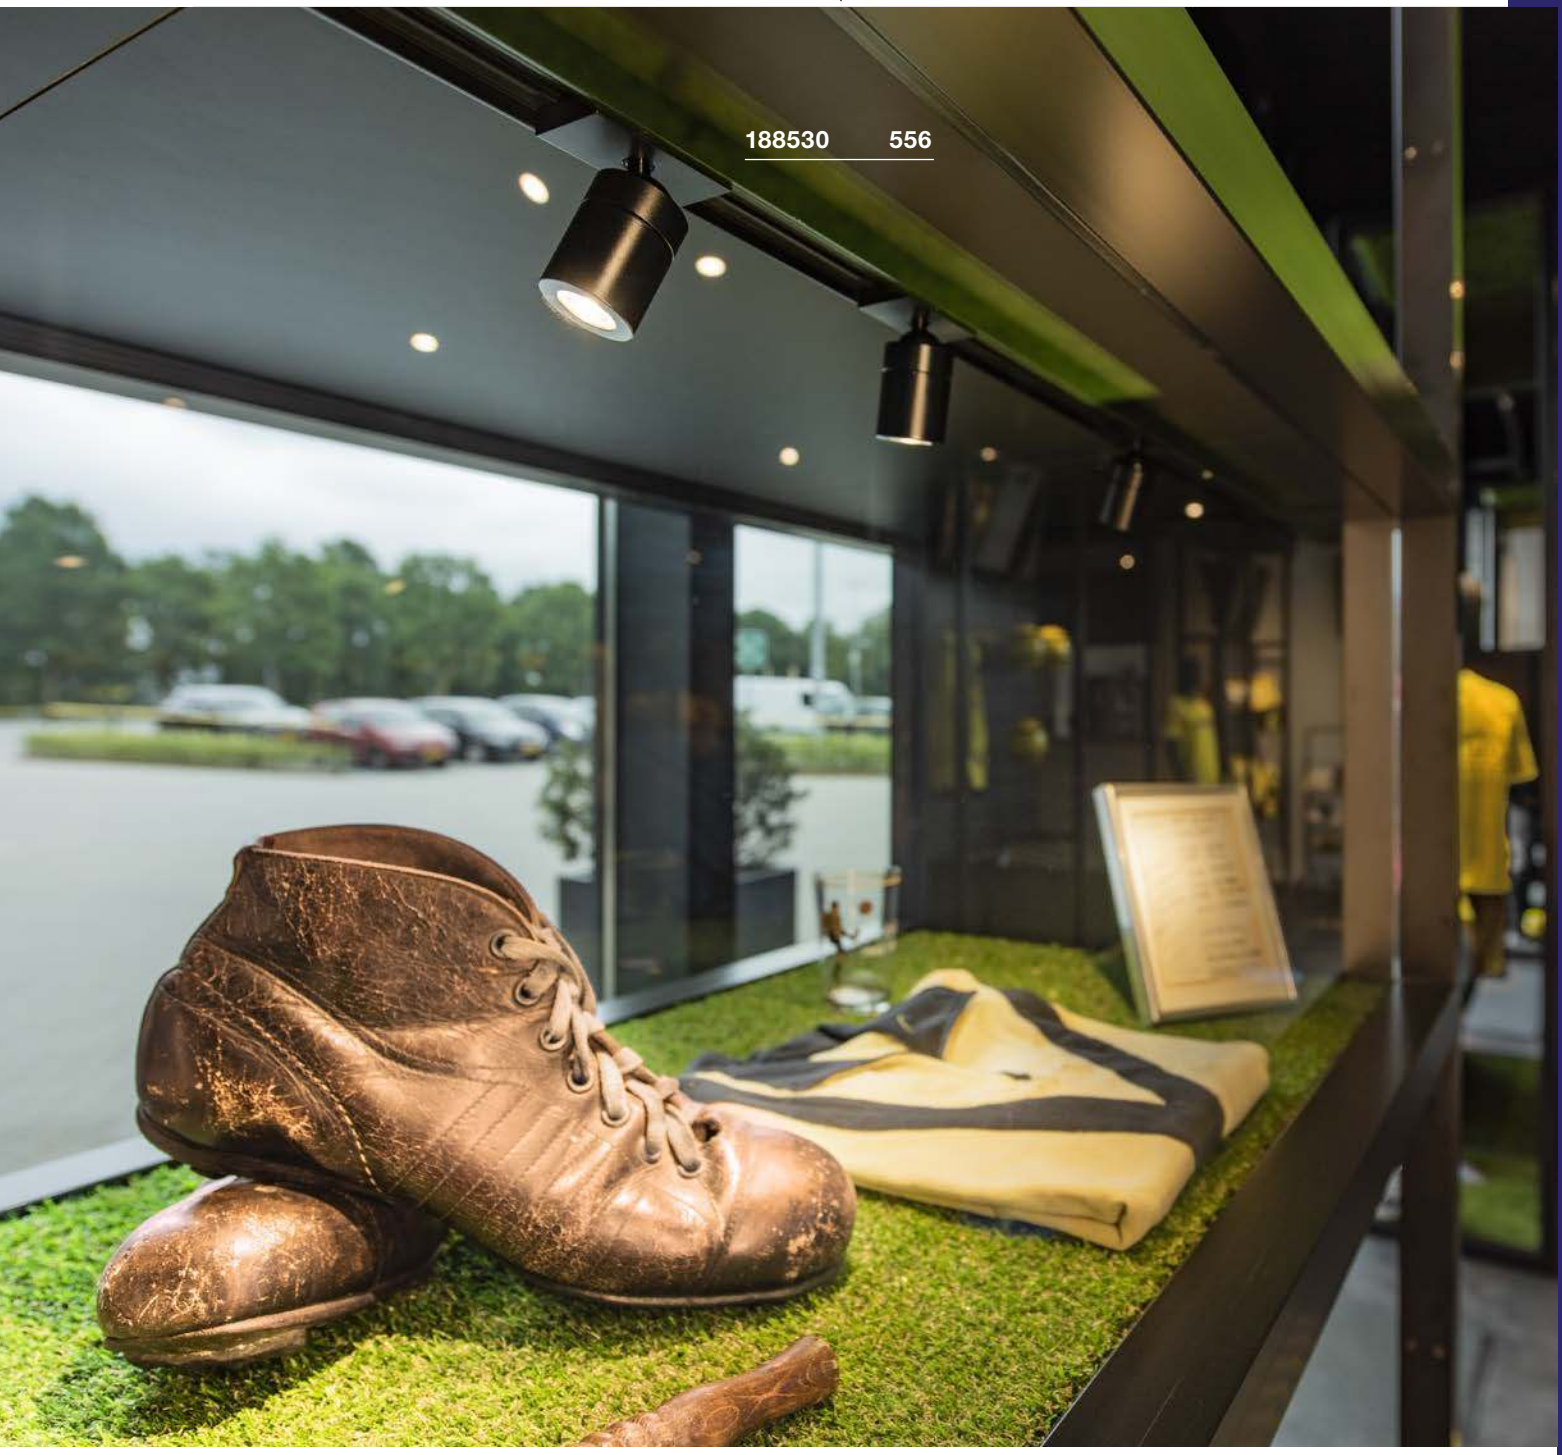

LOW-VOLTAGE CABLE SYSTEM AND AND CABINET TRACKS CREATE EMPHASIS.

Light helps to give rooms atmosphere. Anywhere where it needs to be cosy and professional at the same time, low voltage cable systems are the right solution – because they provide room for individual lighting concepts and create cosiness. Our low-voltage our low voltage cabinet tracks are the ideal solution for accentuating product display cases.

SHOWING THE WAY.

MOBILE LUMINAIRES AND FLOOR STANDS.

Nobody has to flounder in the dark any more: Mobile luminaires and floor stands are a popular design element for outdoor systems, and provide orientation and safety. The special appearance of the outdoor luminaires is due to their high-quality materials, modern designs and innovative technologies.

BRINGING LIGHT INTO THE DARK.

PRACTICAL WALL AND CEILING LIGHTS.

They beam out, even under the worst weather conditions: Our wall and ceiling lights are robust, energy-efficient and powerful. However, as well as all of the functionality you can also choose between different designs. Do you prefer modern? Traditional? Round? Or would you like square?

TOUGH COOKIE.

RECESSED FITTINGS – THE RELIABLE WAY OF LIGHTING.

Recessed fittings are a good alternative to suspended luminaires, particularly in the outdoor area, since they are individually adjustable and can be set, directed and flooded statically. And they are equipped to cope with any weather. Thanks to high-quality workmanship and materials and individual IP protection classes.

	flat, opaque	Plastic PMMA	1000549	33.10
	high, frosted*	Plastic PMMA	1000555	40.50
	high, frosted*	Plastic PC	1000552	33.10

Plastic PMMA/PC:
Profile covers made of PMMA are especially uniform.
Profile covers made of PC are break-proof and especially suitable for use in contexts requiring high resilience.

* The high covers are only suitable for GRAZIA 20 surface-mounted profiles, not for recessed profiles.

LONGITUDINAL CONNECTOR

IMPRESSIVE LINE-UP.

LED STRIP LIGHTS AND LIGHT BARS FOR A SPECIAL ATMOSPHERE.

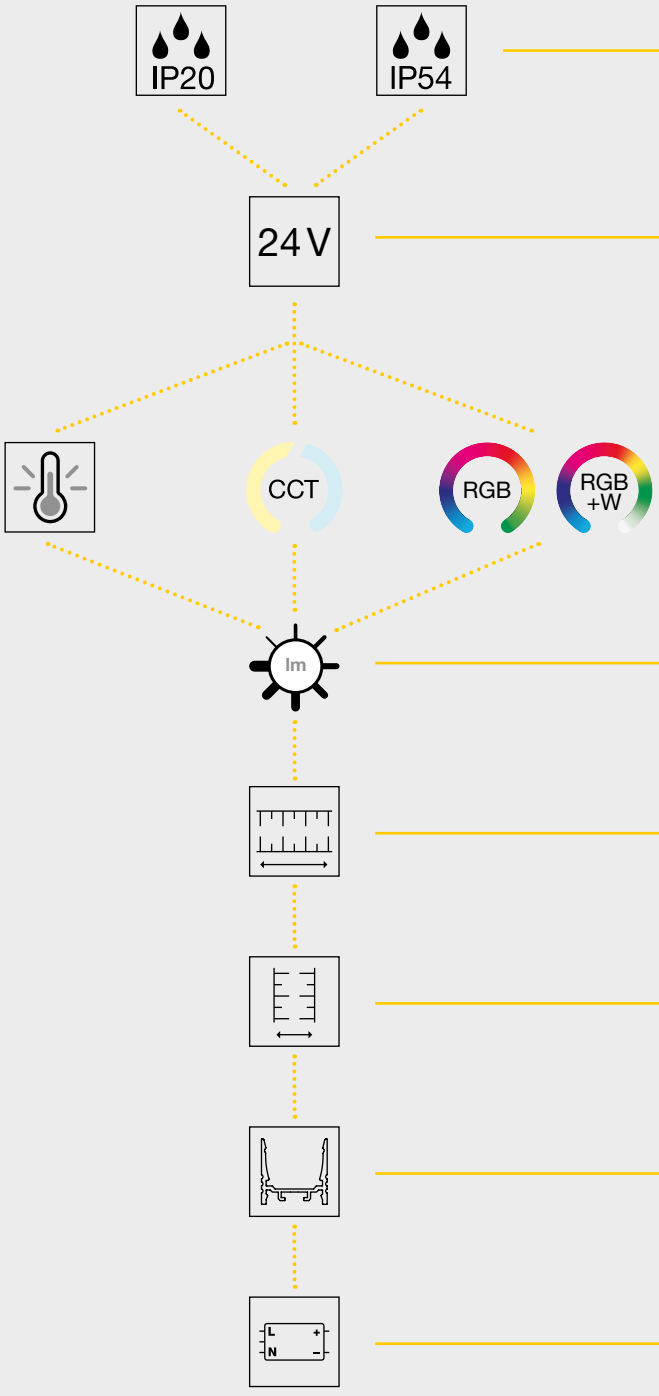

Want to introduce a bit of variety? LED strip lights and light bars are modern and extraordinary design elements giving rooms a special atmosphere. The elongated luminaires with many different colours make a good impression as signposts.

1004727 799

WHICH LED STRIP DO I NEED?

LED strips and profiles for your project.
Everything at a glance.

For indoors, outdoors, and wet rooms.
With IP20 and IP54, equipped for all applications.

When you need extra length.
Create long lengths with fewer feed-in points. Thanks to 24V technology.

Add a touch of colour.
LED strips available in white, as CCT (Tunable White) or RGBW version

Create accent lighting or illuminate entire rooms.
Up to 7000lm across 5m possible.

Stay flexible.
With lengths of 5-80m.

That fits.
LED strip widths for almost every profile.

The perfect combination.
You can find suitable profiles on p. 772-776

Tailored to your project.
You can find suitable drivers on p. 833-839

DISCOVER DALI AND NETWORK LIGHTING.

Familiarise yourself with the protocol that makes it possible to easily install, manage and communicate with individual lights and lighting installations.

Already familiar with the terms smart home or smart building? Do you want to install flexible lighting scenarios and sequences? Unveiling DALI and suitable SLV products: the Digital Adressable Lighting Interface (DALI) simplifies digital communication between electronic ballasts, transformers and corresponding actuators: flexible light management for modern buildings combined with typical SLV light diversity.

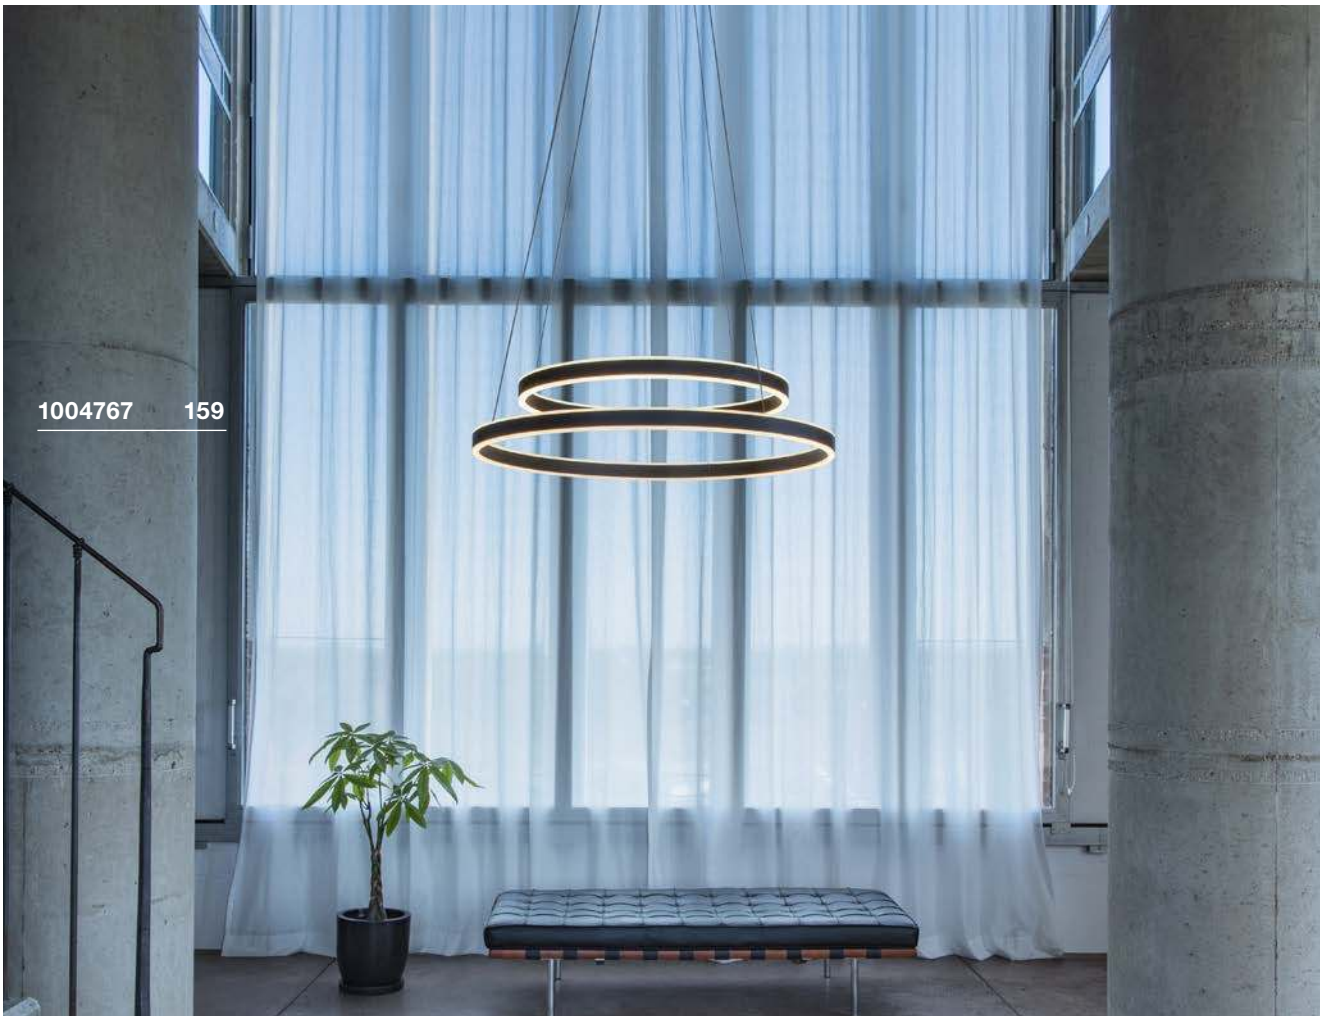

- Flexible and intelligent light management.
- Centrally controlled with other building systems.
- Easy to install, universal use.

The basis for intelligent lighting.
DALI – an excellent basis for flexible and intelligent light management in modern buildings. With DALI 2.0, it is now also possible to integrate sensors into the network. These can independently access the bus, communicate with a master controller, lighting controllers or other sensor controls and control the lights.

SAFELY COMBINABLE: SLV, DALI AND SCHNEIDER ELECTRIC PRODUCTS.

Working in close collaboration with Schneider Electric, we offer a tailored and easily installable solution. You benefit from SLV DALI lights, which largely already support DALI 2.0. Extensive testing guarantees compatibility between the KNX DALI Gateway of Schneider Electric and SLV DALI products.

This means you can easily and seamlessly integrate all SLV DALI lights into a streamlined building management system via the Schneider Electric Gateway. The newly introduced NUMINOS lighting system along with our MEDO family offer an excellent choice of combinations and applications. Discover more about SLV lighting that can be networked with DALI on the following pages.

DALI. TECHNICALLY LIT.

All lighting components must feature a DALI interface. This allows up to 64 addresses, 16 groups and 16 scenes to be centrally managed. The status of a light or lighting control device is displayed and set using bi-directional data exchange via a DALI control device.

- The voltage ranges from 9.5 to 22.5V
- The system voltage is a maximum of 250 mA
- The data transmission rate is 1,200 baud
- DALI is optionally expandable

Heating appliances, air-conditioning units, blind systems and much more – if the 64 available addresses are not enough and additional building system components need to be centrally managed along with the lighting, that's no problem: DALI-based applications can be networked via a Gateway throughout different rooms and higher-level controls. A KNX system such as the new Schneider Electric KNX/ DALI Gateway is typically used.

SIMPLE. COMPATIBLE. SMART.

ZigBee® 3.0 – the smart wireless system.

Dimmers, changing colours, lighting moods at the push of a button: it's not only lighting systems that are based on the standard ZigBee® 3.0. The wireless standard is versatile, with minimum energy consumption and is easy to install, making it suitable for anyone who wants to easily network lights without having to deal with complicated technology. A theoretical range of up to 100 metres is possible for all types of living areas, houses and commercial buildings.

The SLV VALETO® SMART LIGHT SYSTEM

The intelligent lighting solution for homes, hotels, restaurants and shops. Thanks to the ZigBee® 3.0 standard, you can enjoy compatibility with various common smart home systems:

Schneider Electric | Philips Hue | Amazon Alexa | and much more

It is easily managed via remote control, app or Amazon Alexa. The SLV VALETO® SMART LIGHT SYSTEM is of course easy to integrate into existing electrical installations.

Highly compatible.
Tested with Schneider Electric products.

With the VALETO® SMART LIGHT SYSTEM, SLV offers a variety of system-compatible lighting management based on the ZigBee® 3.0 standard.

Schneider Electric PlusLink products, which support switch actuators, dimmers, blinds, motion sensors and 1-10V DALI interfaces, are easily integrated into the system.
This enables seamless integration of the switch design with various switch programmes. You can also look forward to many other application solutiosn as part of our future collaboration with Schneider Electric.

Scalable:
Installations with up to 200 lights can be realised with the SLV VALETO® Gateway.

Integrable:
SLV VALETO® is, thanks to the ZigBee® 3.0 standard, compatible with other manufacturers' products and systems.

Controllable:
Easy to control via app, remote control or voice assistance systems.

Coverage:
By integrating an own mesh network, SLV VALETO® products can also be controlled from large distances.*

Secure:
The Gateway only stores your data locally, never in the cloud.

SLV VALETO®

*Excluding battery-operated devices.

SIMPLE.

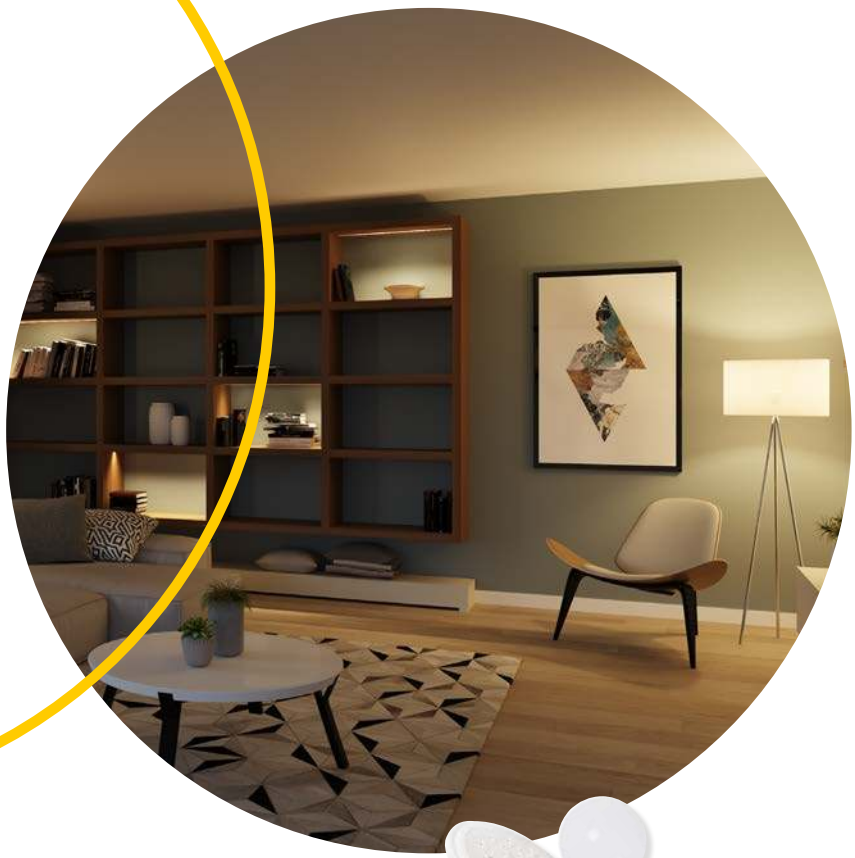

The ideal starting point for smart lighting management: simply couple our SLV VALETO® remote controls (e.g.: 1002994) with the SLV VALETO® lights (e.g.: 1001917) and see how easy smart can be.

YOUR BEAMING COMPANION.

ACCESSORIES FOR INDIVIDUAL LIGHT AESTHETICS.

There are many different aspects to light. The possibilities are just as numerous when it is a case of lighting rooms and outside areas. These options can be extended with our accessories, and environments can literally be immersed in new light with different light installations.

232435 239

FIND A DIMMER. GOOD COMBINATION.

ATMOSPHERIC ROOM LIGHTING THANKS TO THE PERFECT COMBINATION OF LUMINAIRE AND DIMMER. **AT FIND-A-DIMMER.SLV.COM**

Attention must be paid to the compatibility of the luminaires or lamps with the dimmer when dimming. And particularly with LED lamps, it must be checked beforehand which dimmer is required. In view of the many different products, it is not always easy to find the best combination. Our "Find a Dimmer" overview should help you to do this. As well as numerous combinations consisting of different luminaires and lamps and dimmers, at **find-a-dimmer.slv.com** you will also find more information about the minimum number of luminaires or lamps that are needed for problem-free operation. **The overview is updated and extended at regular intervals.**

For specific enquiries , please contact our technical support at **service@slv.de**.

1 Suitable

- Ideal dimming behaviour
- The minimum number of luminaires/ lamps that are needed for problem-free operation is specified as a number.

Conditionally suitable

- No optimum dimming behaviour
- Flickering possible

Not compatible

DALI INTERFACE
1-10V + on/off

0,02

Product details

220-240V ~50/60Hz
Material: plastic
L: 5.85 cm W: 3.25 cm H: 1.5 cm

Tip

For controlling electronic ballasts with 1-10V control input. Switching relay for additional on/off switching of the EB power supply. Galvanic isolation of DALI input and 1-10V output

Wattage up to	1000W

Variant	Item No.	GBP
grey	1002218	112.50

Manufacturer:
LUNATONE Industrielle Elektronik GmbH

DALI UNIVERSAL DIMMER
3-25W

0,02

Product details

220-240V ~50/60Hz
Material: plastic
L: 5.85 cm W: 3.25 cm H: 1.5 cm

Tip

Suitable for R, L, and C load thanks to automatic loaddetection. DALI current consumption: 6mA

Wattage of	3W
Wattage up to	25W

Variant	Item No.	GBP
grey	1002220	97.20

Manufacturer:
LUNATONE Industrielle Elektronik GmbH

DALI UNIVERSAL DIMMER
10-300W

0,05

Product details

220-240V ~50/60Hz
Material: plastic
L: 12.02 cm W: 3.02 cm H: 2.16 cm

Tip

Suitable for R, L, and C load thanks to automatic loaddetection. DALI current consumption: 6mA

Wattage of	10W
Wattage up to	300W

Variant	Item No.	GBP
white	1002221	153.00

Manufacturer:
LUNATONE Industrielle Elektronik GmbH

DALI CONTROLLER
24V DC

0,051

Product details

10-24V DC
Material: plastic PC
L: 11.6 cm W: 4.2 cm H: 1.8 cm

Tip

Suitable for controlling LEDs with a constant voltage of 10-24V / DC - Controlsignal DALI or Push-Dim

Variant	Item No.	GBP
white/grey	1003106	47.70

Manufacturer:
LUNATONE Industrielle Elektronik GmbH

1-10V DIMMER
10W

0,04

Product details

10W
Material: plastic PC
L: 2.3 cm W: 3.9 cm H: 2 cm

Tip

Suitable for dimming of
1-10V electronic ballasts

Variant	Item No.	GBP
white	**470505**	**9.90**

Manufacturer:
WeiSen Electronic Co., Ltd

COMPENSATION MODULE

0,035

Product details

220-240V ~50/60Hz
Material: plastic PC
L: 9.5 cm Diameter: 1.5 cm

Tip

Reduces or eradicates problems encountered when dimming, such as flickering or flashing, or if the LED illumination is not 100% eliminated when switched off The compensator is always connected after the dimmer or switch and parallel to the downlight spot or LED driver.

DALI – THE FLEXIBLE LIGHTING SOLUTION

What is DALI? DALI is a system for freely configuring flexible light scenarios and arrangements. This bus-compatible system makes it possible to individually access, control and evaluate light and all components of a lighting system. Luminaires, groups of luminaires and even the lighting of entire buildings are controlled in this way.

You can create a special atmosphere in your retail premises with our DALI system. Your lighting is configured in a flexible way by using DALI spotlights in conjunction with our special DALI adapters and tracks. Thanks to the wide range of accessories, any configuration that is required can be realised. Be it ceiling or wall installation, or as a pendant.
The tracks consist of an extruded aluminium profile that is painted in white or black. The tracks are available in different lengths with an integrated 2-core DALI cable, and can be cut to length in accordance with requirements. Suitable luminaires with a high CRI of >90 are also available for this system.

LED DRIVER DALI
250-700mA | 20W inc. strain relief

0,2

Product details

220-240V ~50/60Hz
Material: PC
L: 15 cm W: 5.2 cm H: 2.8 cm
Dimmable: 1-10V / Dali

Tip

250/350/500/700mA
Output current can be adjusted using DIP switch

Voltage sec.	6-60V
Wattage of	1.5W
Wattage up to	20W
Thermal protection	110°C
Power factor	0,9

Variant	Item No.	GBP

THE SOURCE OF ALL LIGHT.

THE RIGHT LAMP FOR ANY LIGHTING SOLUTION.

The right lighting effect is the result of perfect interaction between the luminaire and the lamp. As well as the design, energy efficiency is also an important criterion. Many alternatives to the classic light bulb have gained a foothold on the market in recent years. This means that the right lighting element is available for every kind of application or luminaire.

LAMPS

GENERAL INFORMATION.

• Operating in open luminaires without protection glass is only permitted with low-pressure lamps. Lamps with this symbol (IEC 357 standard) are suitable for use in luminaires without protection glass.

• Halogen lamps and metal halide discharge lamps (HID) can cause the lamp housing to heat up. The latter may therefore only be touched when they have cooled down. Adjustable luminaires or lamp heads which do not have an adjusting handle fitted or which are used with lamps at the maximum wattage meaning that the maximum housing temperature permitted is exceeded on the obvious adjustment point, must be installed out of hands' reach. You can find corresponding solutions in this chapter.

• Low-voltage lamps can be operated using suitable LED retrofit lamps in many cases. However, not every combination of luminaires with apparently suitable lamps is possible due to the conflicting individual cases, where there are transformer and LED technology-specific issues. If you have any questions about compatibility, visit slv.com or contact our sales department.

• The dimensions specified for the lamps always refer to the complete exterior dimensions of a lamp. This means that the threaded base is included.

• All bulbs must be disposed of separately and do not belong in the household waste.

IT'S A FAMILY AFFAIR:

OUR SLV LUMINAIRE FAMILIES.

Particularly when visual continuity is required, our range of luminaires is ideal for designing different rooms or room situations in a uniform way, yet still remain versatile.

SLV WORLDWIDE.

MORE THAN 100 COUNTRIES – ONE SHARED LANGUAGE: EXPERIENCE LIGHT.

Our SLV lights illuminate **the dark, all over the** world.
Our lights are already in use in more than 100 countries.

And the journey continues: together with you, we want to inspire people **all over the world** to experience light in the best way possible.

SYMBOLS KEY

PRODUCT CHARACTERISTICS

Information regarding the possible **replacement** of light sources and control equipment by end users or qualified persons **without permanent damage to the light.**

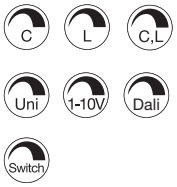

· Light source can be replaced by a qualified person
· LED can be replaced by a qualified person
· Control equipment can be replaced by a qualified person

· Light source can be replaced by the end user
· LED can be replaced by the end user
· Control equipment can be replaced by the end user

· Light source cannot be replaced
· Control equipment cannot be replaced

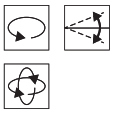

Dimmable with...
· C = leading-edge **phase** dimmer
· L = trailing-edge **phase** dimmer
· Uni = universal dimmer
· 1–10 V
· Dali = Dali busbar system
· Switch = switch or button

Dim to warm
With dimmers, the light colour can be altered from cold white to warm white.

Weight of the product in kilogrammes (kg)

Rotating and pivoting capacity in degrees:
· Rotation range
· Pivot range
· Gimballed

The half beam angle
Describes the beam angle in degrees. The smaller the angle, the more concentrated the light will be.

Pendant cable length in cm

Power cable length in cm
Feed-in length in cm (with open cable ends)

Average lifespan of a lightbulb or light source in hours

Lumen maintenance
Describes the amount by which the luminous flux of an LED decreases during a specified period.

Indicates products that can be operated via **remote control**

UGR = Unified Glare Rating
The lower the UGR value, the lower the psychological glare.

SAFETY DETAILS

Protection categories
· Protection category I/protective conductor
· Protection class II/protection through double or strengthened insulation
· Protection category III/protection through low voltage

The **IK degree of shock resistance** is a measure of the resistance of the housing of electrical equipment to mechanical stress, especially impact stress.

APPLICATION AREA · ASSEMBLY

IP protection class
Indicates the suitability of electrical equipment for different environmental conditions.

Allows the installation of electrical control equipment on materials whose **flammability** is not known.

Through-wiring possible.

Independent converter
(control equipment also for use outside of lights)

Short circuit protected **safety control equipment**

· For indoor use **only**
· **Not suitable**for use **indoors**

SPECIFIC DETAILS - RECESSED LIGHTS

Shape of the installation opening

Product suitability for being driven over given

weight capacity of the product up to specified value in tons. Measurements based on concrete installation.

SPECIAL SYMBOLS

Indicates **products** that have been added to the catalogue for the first time

Indicates **new versions** of existing products
· New colour variant
· New product variant
· Successor

Items with this symbol are **discontinued models**

Indicates products
· with **integrated** LEDs
· with **lightbulb socket**

Connected lighting
Indicates smart products that use the following protocols:
· Zigbee® · DALI · Bluetooth

Indicates **lights with a movement sensor** (microwave technology (MR)/infrared/radio)

Using the integrated **CCT** switch, the light colour can be switched between 3000K and 4000K during installation.

Indicates **lights with RGB+W** and **RGB** (Red-Green-Blue + White and Red-Green-Blue)

· **USB charging function**
· **Inductive (wireless) charging function** for Smartphones

Indicates products that **can be combined**

Indicates lights that, after priming **can be individually covered with wall paint or wallpaper**.

Indicates lights from a single **lighting family**

Award-winning lights
· Red Dot Design Award
· German Design Award

CUSTOMER INFORMATION

Information regarding light housing heat generation
Halogen lightbulbs operate at high temperatures and can lead to the heating of the light housing. They should therefore only be touched once the housing has cooled down. Adjustable lights and light heads that do not feature insulated positioning levers, or which exceed the maximum permissible housing temperature at the positioning point when operated at maximum wattage, should also be mounted out of reach. LED retrofit lightbulbs offer a low-temperature alternative to most of our halogen lights.

Luminous flux
The total amount of light produced by a light source is given in lumens (lm).

Luminosity
The luminosity is the luminous flux indicated per solid angle and is expressed in candelas (cd).

Colour rendering index
The colour rendering property of a light source is indicated by the Colour Rendering Index (CRI). A CRI of 80 or higher is required for light sources used indoors. Light sources used outdoors must have a CRI of at least 65.

Light colour
The light colour of a light source is indicated in K (Kelvin).

Standard LED
This is the classic version of the LED (3 mm or 5 mm LED). These were originally developed for indication purposes, e.g. in instrument panels.

Standard SMD LED
SMD means "Surface Mounted Device". This is a compact LED that is soldered directly onto the circuit board without wire connections. SMDs are available in different sizes and are suitable for lighting purposes.

PowerLED
PowerLED is a high-performance LED with a performance of 1W or more. It places increased demands on current constancy and should therefore always be operated with constant current sources. If you with to connect several LEDs, they must therefore be connected in series. A parallel connection is not permitted. Please ensure that you observe the installation sequence so that the LEDs are not exposed to high current for a short time, which could damage them. Ultimately, the following rule applies: first you should completely connect the secondary circuit (LEDs to driver), then you should close the primary circuit (driver to power source).

Chip On Board LED (COB LED); Area LED
This is an LED with an exceptionally flat shape. The advantage of COB LEDs is good heat dissipation when technically implemented with cooling surfaces, which enables high light output and a long lifespan.

Stainless Steel 304
(1.4301) Good resistance to corrosion is shown in natural environmental media (water, urban and rural atmosphere) in the absence of significant chlorine and salt concentrations. 1.4301 is, however, not suitable for use in areas where there is contact with seawater, salt water or a salty atmosphere, or for use in swimming pools or similar contexts.

Stainless Steel 316
(1.4404) In natural environmental media (water, urban and rural atmosphere) as well as in industrial areas with moderate chlorine and salt concentration, in the food and pharmaceutical industry and in the agricultural food sector, 1.4404 shows excellent resistance to corrosion. 1.4404 is not resistant to seawater.

Please note:
A large part of the products shown in this catalogue are protected by trademarks, registered designs, utility models or patents. Any violation of these property rights or the use of text and layout design or copyrighted images without our authorisation will be prosecuted. The illustrations and information contained in this catalogue are for illustrative purposes only and are not legally binding in terms of colour, shape, design or technical details. All product descriptions and specifications are subject to alteration and errors.
All of the products in our range are subject to our strict quality assurance procedures and comply with generally applicable standards. This catalogue contains a general range and is not country specific. Any deviations from country-specific guidelines must be clarified before ordering. SLV cannot be held responsible for any deviations in terms of technical standards.
All weights and dimensions are given in kg and cm respectively unless stated otherwise. We reserve the right to make technical alterations!

The presentation of our lights with realistic photos showing examples of use is possible thanks to the kind cooperation and agreement of the owners or designers of the environments depicted in the images. We would like to take this opportunity to thank all those who contributed to the creation and use of our photos by giving their consent!

With the appearance of this catalogue, the prices stated in previous lists and catalogues are rendered invalid.

All prices specified are recommended retail prices (RRP) given in GBP and without VAT.
