

## DL 126

recessed fitting, LED, 3000K, round, brushed metal, 2.8 W, incl. leaf springs

The DL 126 recessed fitting impresses with its low height and it is therefore ideal for use with low installation depths. The six long-life SMD LEDs with a total power output of 3W ensure that you have the necessary level of illumination. The recessed fitting is available with a shutter coloured white, chrome and brushed metal. A suitable 12V direct current power supply is needed for operation. This luminaire contains built-in warm-white LED lamps.
