

COUPA FLEX

wall light, QT14, 3000K, chrome, frosted glass, 43W,

The COUPA FLEX offers a mixture of steel and textile elements, besides the main light source it is equipped with a 1 W Power LED reading light in warm white light colour. There are two switches for individual control of both light sources installed which fit in with the overall design. With the beam angle selected for the LED reading light, it is almost glare-free and thereby ensures a comfortable light which relaxes the user. Thanks to the flexible arm, it can be aligned easily. The G9 lamp holder placed behind the shade and the already incorporated LED driver make COUPA FLEX ready for direct connection to 230V mains supply. The luminaire contains built-in LED lamps.
