

NOTAPO I

Indoor recessed wall light 3000K white

Aluminium recessed wall light NOTAPO I WL. The invisibly installed LED emits its light indirectly onto the surface to be illuminated. This makes glare-free illumination of walkways and staircases possible, for example. The NOTAPO I recessed fitting is available with a white housing. An installation frame and a mounting box for installation in masonry are optionally available. This luminaire contains built-in LED lamps.
