

GALEN 120

SP LED PROFILE Outdoor Single Colour CCT switch
 3000/4000K

Thanks to the integrated mounting bracket and the splash-proof connection cables, the GALEN LED profile can be installed quickly and easily on walls, floors, or ceilings. It is most suitable as a form of lighting for displays and signs. Added to this is the practical CCT switch, which provides added flexibility as it allows the light colour to be adjusted between 3000K (warm white) and 4000K (neutral white) using an external switch. Robustly made and featuring high-performance LEDs, GALEN is perfect for creating effective or functional lighting in the outdoor areas of shops, hotels, restaurants, or in commercial buildings.
