

SAMRINA SP single QPAR51

outdoor ground spike light black

Outdoor lighting doesn't get much more sustainable than this: SAMRINA is one of the SLV lights that is partially made of recycled plastic. It is also a shining example of how design, quality, and high durability can be combined in the most environmentally friendly way possible. With its flexibly adjustable spotlight, the black earth spike light makes a stylish yet sustainable impression in any garden as well as in front of homes, hotels, and restaurants. It also offers the option of using different lightbulbs, such as smart LED bulbs - which are perfect for intelligent control and adjusting lighting characteristics depending on the context.
