FEATURED PRODUCTS

P13050AM™

- Dependable performance on dryland to more favorable acres.
- Strong drought tolerance provides consistent performance.
- Good foliar disease package and strong roots.

P13777PCE™

- Industry-leading yield performance.
- Solid agronomics include good roots and respectable stalk strength.
- Above average staygreen and tar spot resistance.

P13841PCUE™

- Optimum® AQUAmax® product offering impressive performance on irrigated and dryland acres.
- Dependable roots and strong mid-season brittle stalk resistance.
- Moderate plant stature with good ear height.

P14830AML™

- Impressive yield potential on favorable dryland and irrigated acres.
- Moderate plant stature with good ear placement.
- Good late-season plant health and grain quality.

P1742PCE™

- Full-season leader product for moderate to high yield acres.
- Good gray leaf spot resistance and excellent late-season plant health.
- Moderate plant stature with good ear height.

FEATURED PRODUCTS

P0487PCE™

- Optimum® AQUAmax® product provides consistent performance on moderate to tougher acres.
- Solid foliar disease package.
- Taller plant stature with moderate ear height.

P05081AML™

- Leader Optimum® AQUAmax® product offers strong performance on dryland and higher productivity acres.
- Good all-around agronomics and a solid disease package.
- Exceptional drought tolerance and good ear flex provides consistent performance across environments.

P13777

- Leader conventional product with exceptional yield performance.
- Impressive foliar disease package and good agronomics.

P11304Wv™

- Versatile white product with excellent yield potential.
- Good overall agronomic and disease package.
- Strong drought tolerance provides consistent performance.

P1790Wq™

- Leader white product with excellent yield potential.
- Consistent performer across a range of soil types.

PIONEER® BRAND POWERCORE® ENLIST® CORN

Pioneer® brand PowerCore® Enlist® corn is an advanced combination of high-yielding genetics, unsurpassed flexibility and protection against above-ground pests stacked with the Enlist® corn trait for multiple modes of action against tough weeds. In 2024, PowerCore Enlist products showed a 7.7 bu/A advantage over competitive hybrids, with 18,176 comparisons showing a 65% win rate.

Data is based on average of 2024 comparisons made in the U.S. through Nov. 7, 2024. Comparisons are against all competitors, technology segment matched, unless otherwise stated, and within a +/- 3 CRM of the competitive brand. Product responses are variable and subject to any number of environmental, disease and pest pressures. Individual results may vary. Multi-year and multi-location data are a better predictor of future performance. DO NOT USE THIS OR ANY OTHER DATA FROM A LIMITED NUMBER OF TRIALS AS A SIGNIFICANT FACTOR IN PRODUCT SELECTION. Refer to www.pioneer.com or contact a Pioneer sales representative or authorized dealer for the latest and complete listing of traits and scores for each Pioneer® brand product.

FEATURED PRODUCTS

P13777PCE™

- Top silage yield potential with excellent fiber digestibility and good overall quality.
- Impressive foliar disease package.

P14830AML™

- Impressive dual-purpose silage product for the productive acre.
- Moderate plant stature that offers outstanding silage tonnage and excellent quality.

P1548AM™

- Proven dual-purpose silage option with high tonnage potential and excellent fiber digestibility.
- Exceptional drought tolerance provides consistent performance across a range of yield levels and soil types.

TONNEDGE

TONNEDGE HYBRIDS

Pioneer® brand exclusive corn silage TonnEdge hybrids, powered by the Silage Zone,® offer livestock producers products that deliver high tonnage potential and superior plant health while providing an edge over the competition with a focus on local selection, agronomics, and quality. All this comes with the service, support, and tools you need to produce the highest quality feed for your operation.
