

NEXTA™ >> STAND

Plant Growth Regulators (PGRs) enhance germination, uniform emergence, and vigorous growth. With four essential plant phytohormones: Cytokinin, Gibberellic Acid, Indole-Butyric Acid, and Indole-Acetic Acid, NEXTA™ STAND is an EPA-registered product. NEXTA STAND helps plants maintain optimum hormone balance and sets the foundation for higher yield.

PRODUCT FEATURES/BENEFITS

Enhances Emergence

NEXTA STAND boosts plant vigor, promoting strong, uniform emergence and balanced growth above and below ground.

Boosts Root Growth And Plant Vigor

High yield begins with a strong, well-developed root system. NEXTA STAND has the growth-promoting ingredients to promote root development.

Improves Plant Health And Physiology

NEXTA STAND enhances cell division and nutrient uptake, so your plants can better defend themselves and recover from abiotic stressors such as cold weather, drought, and herbicide applications.

Maximizes Yield Potential and Grain Quality

NEXTA STAND enhances naturally occurring hormones within the plant to optimize genetic expression.

ACTIVE INGREDIENTS

Cytokinin (as kinetin)	0.009%
Gibberellic acid	0.005%
Indole-3-butyric acid	0.005%
Indole-3-acetic acid	0.005%

RECOMMENDED FIELD APPLICATIONS

NEXTA STAND is formulated for the following highlighted applications.

Soil

Foliar

Irrigation

CONTAINER SIZE

2 x 2.5 gallon

275-gallon mini bulk

This reference guide is not intended as a substitute for the product label for the product(s) referenced herein. Product labels for the above product(s) contain important precautions, directions for use, and product warranty and liability limitations, which must be read before using the product(s). Always read and follow all label direction and precautions for use when using any product alone or in tank-mix combinations. This product is not for sale or use in all states. Contact your state pesticide regulatory agency to determine if a product is registered for sale and use in your state. Conduct a "jar test" using all products in proper proportion in order to establish physical compatibility. Many factors contribute to crop performance and return on investment. The information contained herein is true and accurate to the best of our knowledge and belief, but is presented without guarantee since field conditions and use are beyond our control. Neither the manufacturer nor the seller make any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instruction. Corteva Biologicals products are designed to help plants function more efficiently and are not replacements for sound agronomy and fertility programs. They work in concert with good farming practices to help the plant realize its true yield potential. ©2024 Corteva Agriscience. NXSTNDSS (09/24)
