## P0688AM (AM,LL,RR2)

Additional Products in this Family: P0688AM (AM,LL,RR2) | P0688Q (Q,LL,RR2)

CRM:106 Silk CRM: 103 GDUs to Silk: 1280 Phy. CRM: 104

GDUs to Phy. Mat.: 2500

Positioning For:

## **MANAGEMENT COMMENTS**

- Outstanding drought tolerance for stressprone acres
- Recommended for drought-prone acres with more limited top end yield potential
- Very reliable stalks and roots with above average mid-season brittle stalk resistance
- Moderate susceptibility to gray leaf spot and northern corn leaf blight
- Take advantage of rapid drydown by harvesting early

## REFUGE Integrated Refuge

- 95% (YGCB, HX1, LL, RR2)
- 5% (LL, RR2)

HTF: High Total Fermentables (Dry-Grind Ethanol) HAE: High Available Energy (Monogastric Feed)

Contact your Pioneer sales professional for additional information. Planting rate estimates provided for informational purposes only. Information here is provided for a hybrid family and not individual products. Product performance is variable and depends on many factors, such as soil type, management practices, environmental stress, disease, and pest pressure. Individual results may vary. Planting rate and seeding costs have been increased by 5% to account for early season stand loss.

11KF Updated as of 02/2022

IMPORTANT: Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to www.pioneer.com or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
