

Corn Grain:

**P0924Q** (Q,LL,RR2)

Additional Products in this Family: P0924Q (Q,LL,RR2) | P0924

## CRM:109

Positioning For:

Silk CRM: 109

GDUs to Silk: 1360

Phy. CRM: 112

GDUs to Phy. Mat.: 2700

## MANAGEMENT COMMENTS

- Leader high yielding triple with great agronomics
- Above roots and brittle
- Improved test weight from other 109 CRM Qrome products
- Available in Qrome and conventional

## REFUGE

Integrated Refuge

- 95% (RW, YGCB, HXX, LL, RR2)
- 5% (LL, RR2)

## MARKET SEGMENTS

HTF: High Total Fermentables (Dry-Grind Ethanol)

## SUITABILITY RATINGS

### KEY ENVIRONMENTS

High Yield Environment	Highly Suitable
Variable Yield Environment	Suitable
Low Yield Environment	Manage Appropriately

### SUITABILITY

Corn After Corn	Suitable
Late Harvest	Suitable

### SOILS

Early Planting/Cold Soils	Suitable
---------------------------	----------

### CHARACTERISTIC SCORES

Drought Tol.	7
Root Strength	6
Stalk Strength	5
Mid-Season Brittle Stalk	6
Ear Ht.	6
Plant Ht.	6
Staygreen	6

### DISEASE SCORES

Gray Leaf Spot	5
No. Leaf Blight	6
Anthr. Stalk Rot	4
Diplodia Ear Rot	4
Tar Spot	6
Gibberella Ear Rot	

TRAIT SCORE RATINGS: 9 = Excellent; 1 = Poor; Blank = Insufficient Data.

## ESTIMATED SEEDING RATE

**Contact your Pioneer sales professional for additional information.** Planting rate estimates provided for informational purposes only. Information here is provided for a hybrid family and not individual products. Product performance is variable and depends on many factors, such as soil type, management practices, environmental stress, disease, and pest pressure. Individual results may vary. Planting rate and seeding costs have been increased by 5% to account for early season stand loss.

IMPORTANT: Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.pioneer.com](http://www.pioneer.com) or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
