

**CRM:110** Positioning For:  
 Silk CRM: 109  
 GDUs to Silk: 1360  
 Phy. CRM: 113  
 GDUs to Phy. Mat.: 2730

**MANAGEMENT COMMENTS**

- 110 CRM leader hybrid with excellent yield potential.
- Best performance on high management, well drained acre.
- Average to shorter plant type with lower ear placement.
- Would benefit from Approach Prima application and earlier harvest

**REFUGE**  
*Integrated Refuge*

- 95% (YGCB, HX1, LL, RR2)
- 5% (LL, RR2)

**SUITABILITY RATINGS**

**KEY ENVIRONMENTS**

High Yield Environment	Highly Suitable
Variable Yield Environment	Suitable

**SUITABILITY**

Corn After Corn	Suitable
Late Harvest	Manage Appropriately

**SOILS**

Drought-Prone Sandy Soils	Suitable
Early Planting/Cold Soils	Suitable

**CHARACTERISTIC SCORES**

Drought Tol.	6
Root Strength	6
Stalk Strength	5
Mid-Season Brittle Stalk	6

**IMPORTANT:** Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.pioneer.com](http://www.pioneer.com) or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
