 GDUs to Silk: 1370  
 Phy. CRM: 113  
 GDUs to Phy. Mat.: 2730

**MANAGEMENT COMMENTS**

- Delivers industry leading yield in the white corn segment at a desirable maturity for northern Indiana
- End users view as having excellent grain quality high test weight with a hard kernel and exceptional white color
- Taller hybrid with medium ear placement on the plant
- Strong stalk strength late season, but root strength is below average
- GLS tolerance is below average and should be scouted for

**SUITABILITY RATINGS**

**KEY ENVIRONMENTS**

High Yield Environment	Highly Suitable
Variable Yield Environment	Suitable

**SUITABILITY**

Corn After Corn	Manage Appropriately
Late Harvest	Suitable

**SOILS**

Drought-Prone Sandy Soils	Suitable
Early Planting/Cold Soils	Suitable

**CHARACTERISTIC SCORES**

Drought Tol.	5
Root Strength	5
Stalk Strength	7
Mid-Season Brittle Stalk	6
Ear Ht.	6
Plant Ht.	6
Staygreen	5
Hybrid Family	P1120W

**DISEASE SCORES**

Gray Leaf Spot	5
No. Leaf Blight	5
Anthr. Stalk Rot	5
Diplodia Ear Rot	5
Gibberella Ear Rot	
Tar Spot	

TRAIT SCORE RATINGS: 9 = Excellent; 1 = Poor; Blank = Insufficient Data.

**REFUGE**  
*Integrated Refuge*

- 95% (YGCB, HX1, LL, RR2)
- 5% (LL, RR2)

**MARKET SEGMENTS**

WH: White food corn  
 HTF: High Total Fermentables (Dry-Grind Ethanol)

Pioneer® brand products are provided subject to the terms and conditions of purchase which are part of the labeling and purchase documents. TM ® Trademarks of Corteva Agriscience and its affiliated companies. © 2022 Corteva. 11KF Updated as of 02/2022

**IMPORTANT:** Trait rating scores provide key information useful in selection and management of Pioneer® brand products in your area. Information and ratings are based on comparisons with other Pioneer brand products, not competitive products. Information and scores are assigned by Pioneer Research Managers. Scores are based on period-of-years testing through 2021 harvest and were the latest available at time of printing. Some scores may change after 2022 harvest. Scores represent an average of performance data across areas of adaptation, multiple growing conditions, and a wide range of both climate and soil types, and may not predict future results. All products within a hybrid family receive the same score unless observations indicate a significant difference. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to [www.pioneer.com](http://www.pioneer.com) or contact a Pioneer sales professional for the latest and most complete listing of traits and scores for each Pioneer brand product and for product placement and management suggestions specific to your operation and local conditions.
