

Enlist E3 Soybean Suitability Ratings for North Central Indiana - 2024

Pioneer® Variety	RM	Tech. Segment	Characteristic and Disease Ratings								Poorly Drained Soils	Drought-Prone Soils	Irrigated	Early Planting	Wide Rows	Product Management Suggestions
P18A73E	18	E3 A-Series	Emergence	7	PRR	1k	SDS	7	Canopy Width	5	S	HS	S	S	S	PEKING. High yielding, offensive variety best suited for the productive acre. Provides very good SDS tolerance and late season standability. Brings above average White Mold tolerance. Provides consistent
			Height	4	PFT	4	WMD	5	Metribuzin	●						
			Standability	7	FEY	9	SCN	PK	SU Tolerance	●						
P19A37E	19	E3 A-Series	Emergence	8	PRR	1k, 3A	SDS	6	Canopy Width	5	S	S	HS	HS	S	New Late Group 1 high yielding line for the early planted/early harvest market. Able to be pushed south of a normal maturity zone due to solid agronomics.
			Height	5	PFT	5	WMD	4	Metribuzin	●						
			Standability	7	FEY	5	SCN	PI	SU Tolerance	●						
P21A53E	21	E3 A-Series	Emergence	7	PRR	1c	SDS	5	Canopy Width	6	S	HS	S	S	S	High yielding variety with tremendous versatility. Suited for both drought prone and poorly drained soils. Provides excellent SDS tolerance. Moderate susceptibility to White Mold.
			Height	4	PFT	5	WMD	3	Metribuzin	●						
			Standability	7	FEY	5	SCN	PI	SU Tolerance	●						
P22A67E	22	E3 A-Series	Emergence	7	PRR	1k, 3A	SDS	6	Canopy Width	5	S	S	S	S	S	New Early 2 maturity bean with high yield potential. Manage lower white mold tolerance and standability
			Height	5	PFT	4	WMD	4	Metribuzin	●						
			Standability	6	FEY	6	SCN	PI	SU Tolerance	●						
P23A40E	23	E3 A-Series	Emergence	6	PRR	1k	SDS	6	Canopy Width	4	HS	HS	S	S	HS	High yielding variety with the highest A-series White Mold tolerance in Group II. Very good harvest standability and plant height to allow for wide area of placement. Above average SDS tolerance.
			Height	6	PFT	4	WMD	5	Metribuzin	●						
			Standability	7	FEY	9	SCN	PI	SU Tolerance	●						
P25A16E	25	E3 A-Series	Emergence	7	PRR	1k	SDS	7	Canopy Width	6	HS	S	HS	HS	HS	Excellent yield stability across testing locations with strong agronomics. Solid top end yield and with strength in low to moderate yield environments. Good frogeye tolerance and white mold tolerance. Top choice for irrigated acres. Baking crust tolerance.
			Height	4	PFT	4	WMD	6	Metribuzin	●						
			Standability	8	FEY	8	SCN	PK	SU Tolerance	●						
P28A39E	28	E3 A-Series	Emergence	6	PRR	1k	SDS	6	Canopy Width	6	HS	S	S	S	HS	NEW Lead variety in the late group 2 maturity. Excellent emergence and late season standability. Use foliar fungicides to manage Frog Eye Leaf Spot tolerance.
			Height	4	PFT	5	WMD	4	Metribuzin	●						
			Standability	8	FEY	3	SCN	PI	SU Tolerance	●						
P28A65E	28	E3 A-Series	Emergence	6	PRR	1k	SDS	7	Canopy Width	6	S	S	S	S	S	Best suited for highly productive acres with excellent lodging resistance. Very good tolerance to SDS, Brown Stem Rot, and Phytophthora. Moderate stress tolerance providing versatility. Manage frogeye leaf rot. will respond to fungicide applications.
			Height	4	PFT	5	WMD	4	Metribuzin	●						
			Standability	8	FEY	3	SCN	PI	SU Tolerance	●						
P29A19E	29	E3 A-Series	Emergence	7	PRR	1k, 3a	SDS	7	Canopy Width	6	HS	HS	S	S	S	High yielding variety with excellent stress tolerance. Solid height allows for placement on eastern Indiana clay soils. Stacked Phytophthora genes with excellent SDS tolerance. Manage Frogeye.
			Height	5	PFT	4	WMD	4	Metribuzin	●						
			Standability	7	FEY	3	SCN	PI	SU Tolerance	●						
P30A75E	30	E3 A-Series	Emergence	7	PRR	1k	SDS	6	Canopy Width	6	S	S	HS	S	S	NEW flexible placement variety with stress tolerance and top end yield potential. Good standability and white mold tolerance for productive or irrigated acres.
			Height	4	PFT	5	WMD	5	Metribuzin	●						
			Standability	7	FEY	5	SCN	PI	SU Tolerance	●						
P31A73E	31	E3 A-Series	Emergence	7	PRR	1k	SDS	5	Canopy Width	6	HS	S	S	S	HS	PEKING. Provides excellent yield in all yield environments. Very good emergence and harvest standability. Outstanding tolerance to Frogeye Leaf Spot and average tolerance to SDS. Manage white mold.
			Height	4	PFT	3	WMD	2	Metribuzin	●						
			Standability	7	FEY	8	SCN	PK	SU Tolerance	●						
P33A62E	33	E3 A-Series	Emergence	7	PRR	1c	SDS	5	Canopy Width	4	HS	S	S	S	HS	NEW but proven genetics with versatile placement in all environments. Good plant height when on stressed soils with good standability on productive soils.
			Height	6	PFT	4	WMD	4	Metribuzin	●						
			Standability	7	FEY	5	SCN	PI	SU Tolerance	●						
P34A98E	34	E3 A-Series	Emergence	8	PRR	1k	SDS	6	Canopy Width	6	S	S	S	S	HS	NEW offensive new variety with excellent standability and industry leading yield. Short stature with excellent standability lend well for irrigated acres but white mold needs to be managed.
			Height	3	PFT	4	WMD	3	Metribuzin	●						
			Standability	8	FEY	8	SCN	PI	SU Tolerance	●						

SUITABILITY RATINGS: HS = Highly Suitable, S = Suitable, M = Manage. The environment in which the variety is planted heavily influences variety yield performance. Proper placement is important for optimum performance. Use this guide along with suggestions from your DuPont Pioneer account manager, field agronomist or local sales professional. IMPORTANT: Positioning information is based upon historical observations and analysis of trials by DuPont Pioneer Agronomists and Research Managers. Individual product responses are variable and subject to a variety of environmental, disease and pest pressures. Please use this information as only one component of your product positioning decision. Refer to www.pioneer.com/products or contact a Pioneer sales professional for the latest and most complete listing of trials and scores for each Pioneer® brand product.

PRR (Phytophthora Resistance)
PFT (Phytophthora Field Tolerance)
FEY (Frog Eye Leaf Spot)
SDS (Sudden Death Syndrome)
WMD (White Mold)
SCN (Soybean Cyst Nematode tolerance, PK=Peeking & PI=PI 88788)
Metribuzin and SU Tolerance (●) Adequate Tolerance, (●) Warning, (●) Requires Careful Management
* Trait Scores on products are not final and subject to change.

DO NOT APPLY DICAMBA HERBICIDE IN-CROP TO SOYBEANS with Roundup Ready 2 Xtend® technology unless you use a dicamba herbicide product that is specifically labeled for that use in the location where you intend to make the application. IT IS A VIOLATION OF FEDERAL AND STATE LAW TO MAKE AN IN-CROP APPLICATION OF ANY DICAMBA HERBICIDE PRODUCT ON SOYBEANS with Roundup Ready 2 Xtend® technology, OR ANY OTHER PESTICIDE APPLICATION, UNLESS THE PRODUCT LABELING SPECIFICALLY AUTHORIZES THE USE. Contact the U.S. EPA and your state pesticide regulatory agency with any questions about the approval status of dicamba herbicide products for in-crop use with soybeans with Roundup Ready 2 Xtend® technology. ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. Soybeans with Roundup Ready 2 Xtend® technology contain genes that confer tolerance to glyphosate and dicamba. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Dicamba will kill crops that are not tolerant to dicamba. Roundup Ready 2 Xtend® is a trademark of Monsanto Technology LLC used under license. Always follow stewardship practices in accordance with the Product Use Guide (PUG) or other product-specific stewardship requirements including grain marketing and pesticide label directions. Varieties with BOLT® technology provide excellent plant-back flexibility for soybeans following application of SU (sulfonylurea) herbicides such as DuPont(TM) Lead Off® or DuPont(TM) Basis® Blend as a component of a program or for double-crop soybeans following SU herbicides such as DuPont(TM) Finesse® applied to wheat the previous fall. Always follow grain marketing, stewardship practices and pesticide label directions. Varieties with the GlyTol® Tolerant trait (including those designated by the letter "R" in the product number) contain genes that confer tolerance to glyphosate herbicides. Glyphosate herbicides will kill crops that are not tolerant to glyphosate. Always follow grain marketing, stewardship practices and pesticide label directions. Varieties with the Genuity® Roundup Ready 2 Yield® (RR2Y) trait contain genes that confer tolerance to glyphosate, the active ingredient in Roundup® brand agricultural herbicides. Roundup® brand agricultural herbicides will kill crops that are not tolerant to glyphosate. Genuity®, Roundup® and Roundup Ready 2 Yield® are registered trademarks of Monsanto Technology LLC used under license. Individual results may vary, and performance may vary from location to location and from year to year. This result may not be an indicator of results you may obtain as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible. Varieties with the DuPont(TM) STS® gene (STS) are tolerant to certain SU (sulfonylurea) herbicides. This technology allows post-emergent applications of DuPont(TM) Synchrony® XP and DuPont(TM) Classic® herbicides without crop injury or stress (see herbicide product labels). NOTE: A soybean variety with a herbicide tolerant trait does not confer to all herbicides. Spraying herbicides not labeled for a specific soybean variety will result in severe plant injury or plant death. Always read and follow herbicide label directions and precautions for use. Varieties with the LibertyLink® gene (LL) are resistant to Liberty® herbicide Liberty®, LibertyLink® and the Water Droplet Design are trademarks of Bayer. Varieties with Enlist E3 technology (E3) are jointly developed by Dow AgroSciences and MS Technologies, LLC. The Enlist weed control system is owned and developed by Dow AgroSciences LLC. Enlist Duo and Enlist One herbicides are not registered for sale or use in all states or counties. Contact your state pesticide regulatory agency to determine if a product is registered for sale or use in your area. Enlist Duo and Enlist One herbicides are the only 2,4-D products authorized for use in Enlist crops. Always read and follow label directions. P = Plenish® high oleic soybeans for contract production only. Plenish® high oleic soybeans have an enhanced oil profile and are produced and channeled under contract to specific grain markets. Growers should refer to the Pioneer Product Use Guide on www.pioneer.com/stewardship for more information. (-) = Variety does not contain a herbicide resistant gene.
