

Farm Service Agency

Crop Reporting Deadlines at FSA:

Spring Crops - July 15

Fall Crops - November 15

Please contact your local FSA office regarding office hours, deadlines and their current process for crop reporting. Failure to report timely may result in late filing fees.

Pandemic Cover Crop Program (PCCP)

This USDA/FSA program offered \$5 per acre credit towards crop insurance premiums on qualified cover crops.

We have no idea if PCCP will be extended or if other cover crop programs will be introduced.

Contact your local FSA office with any questions and be sure to report your cover crops to FSA.

“Our office is in the field.”
