Protecting Your Ownership Experience

Accidents happen!

Accidents happen, even to the most astute drivers. Road hazards, such as potholes, nails and road debris, are one of the main causes of tire and wheel damage. According to the Transportation Research Board, Americans spend approximately \$20 billion on replacing their tires on passenger vehicles and light trucks each year. You can avoid these extra costs with Portfolio Tire & Wheel Protection.

With our Tire and Wheel Protection plan, you will be covered for repairs or replacement of your tires and wheels for damages caused by road hazards. Additionally, you will have roadside assistance available to you 24 hours a day, 7 days a week.

See your Portfolio Tire and Wheel Protection contract for full details of coverage.
