Total Number of Shirts released at retail: **235**

Total Number of Shirts unreleased: **17**

Significant in many ways, this collection is an incredible one, as it is not replicable. This collection is comprised of one of every single Supreme Box Logo T Shirt ever produced, from the inception of the brand in 1994, to present day 2020. With 252 T shirts in the collection, 17 of these shirts were never released to the public. For the fast growing Supreme collector's secondary market, this is the rarest and most desirable collection to ever be released.

Comparable in holistic nature of a complete collection, the below comparison shows how far more difficult to amass the complete collection of T-Shirts is, which results in stronger auction estimates, private sale pricing and secondary market competitive pricing.
