## SECTION III – RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. To obtain a better understanding, you should read this section together with “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 111 and 222, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. The risks and uncertainties described in this section are not the only risks that we may face. Additional risks and uncertainties not known to us or that we currently believe to be immaterial may also have an adverse effect on our business, results of operations, financial condition and prospects.

If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our cash flows, business, financial condition and results of operations could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are risks where the impact is not quantifiable and hence the same has not been disclosed in such risk factors. Investment in equity and equity related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. Before making an investment decision, investors must rely on their own examination of the Issue and us.

This Draft Red Herring Prospectus contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

### **Materiality**

The Risk factors have been determined and disclosed on the basis of their materiality. The following factors have been considered for determining the materiality:

- Some events may have material impact qualitatively & quantitatively;
- Some events may not be material individually but may be found material collectively; and
- Some events may not be material at present but may be having material impact in future.

### **Internal Risk Factors**

1. *A significant portion of our revenue is currently generated from two hospitals Sangani Hospital, Keshod and Sangani Super Speciality Hospital, Veraval. Further, both our hospitals are located in the state of Gujarat. Any material impact on the revenue from these hospitals will impact our business, prospects, financial condition and results of operations significantly.*

A significant portion of our revenue is currently generated from two hospitals, Sangani Hospital, Keshod and Sangani Super Speciality Hospital, Veraval, both of which are located in the state of Gujarat. Sangani Hospital commenced its operations in the year 2001 and Sangani Super Speciality

Hospital commenced its operations in 2017. Below is the revenue contribution of both of our hospitals in our total revenue:

Particulars		Sangani Hospital, Keshod	Sangani Super Speciality Hospital, Veraval
For the year ended 2020	Revenue contribution (₹ in lakhs)	131.28	82.36
	% contribution in total revenue	29.55	18.54
For the year ended 2021	Revenue contribution (₹ in lakhs)	206.69	89.86
	% contribution in total revenue	41.56	18.07
For the year ended 2022	Revenue contribution (₹ in lakhs)	312.99	240.81
	% contribution in total revenue	30.44	23.42
For the period ended December 31, 2022	Revenue contribution (₹ in lakhs)	373.88	221.07
	% contribution in total revenue	43.08	25.47

Further, we generate all our revenue from the state of Gujarat. Due to this concentration of our revenue in the state of Gujarat, and our dependence on Sangani Hospital, Keshod and Sangani Super Speciality Hospital, Veraval, a number of factors could cause material fluctuations or decline in our revenue, and could reduce our operating margins, as a result of which there could be a material adverse impact on our business, prospects, financial condition and results of operations. These factors could inter alia, include:

- decrease in the number of new patients registered;
- loss of key experienced medical professionals;
- adverse publicity and loss of reputation;
- regulatory changes;
- decrease in profitability;
- increase in competition;
- liabilities on account of medical negligence; and / or
- loss due to natural calamities.

**2. In past, we have undertaken and may continue to undertake strategic investments, acquisitions and mergers in the future, which may be difficult to integrate and manage. Our future success depends on our ability to achieve and manage growth, whether through internal growth or strategic acquisitions**

In past, we have pursued and may continue to pursue acquisitions, mergers and strategic investments in businesses that operate in the healthcare services industry and whose resources, capabilities and strategies are complementary to and likely to enhance our business operations. For example, we have recently acquired eight entities consisting of partnership firms and proprietorship firms under our group due to similar and ancillary kind of business activities being done in each of the entities. For further details, please see “Our Business” and “History and Certain Corporate Matters” on page 111 and 133 of this draft red herring prospectus. There can be no assurance that we will be able to achieve the strategic purpose of these acquisitions and generate the expected benefits. It is possible that we may not be able to identify suitable investment opportunities in future, or if we do identify suitable opportunities, we may not be able to complete those transactions on terms commercially acceptable to us or at all. The inability to identify suitable investments or the inability to complete such transactions may adversely affect our competitiveness or our growth prospects. Even if we find such suitable opportunities, we may not be able to effectively integrate these into our existing businesses, or we may incur higher than

anticipated costs, or incur unknown liabilities that could have a material adverse effect on our financial condition and results of operations.

**3. *We are significantly dependent on our Promoters, Dr. Ajaykumar Sangani, Dr. Rajeshkumar Sangani & Dr. Vaishali Sangani, and any loss of their services could adversely affect our business and results of operations.***

The growth of our business and legacy has been, and is significantly dependent on our Promoters, Dr. Ajaykumar Sangani who is MBBS, DLO & MS (E.N.T.) and does ear, nose, throat, head and neck surgery, Dr. Rajeshkumar Sangani who is MBBS & MD (Physician) and who is a general physician, cardiologist and looks after intensive care unit & Dr. Vaishali Sangani who is MBBS & MD and does Obstetrics & Gynaecology surgery. They have a combined experience of more than four decades. Apart from our reliance on our promoters for their expertise in the medical profession, we are also significantly dependent on them for setting our strategic direction and managing our business affairs. Accordingly, our promoters are unable, or unwilling to be associated with us, our business and prospects could be severely impaired, and it would be difficult for us to find a suitable replacement. This could have an adverse impact on our future performance and results of operations.

**4. *Discontinuation of association by doctors and other healthcare professionals with our hospitals for any reason, and our inability to retain them may adversely affect our business and results of operations.***

We operate in an industry which is dependent on the availability of quality human resources, particularly doctors and other healthcare professionals. As on April 30, 2023, we engaged the services of 27 professional consultants, of which, 6 doctors were engaged by us on a full-time basis, and 21 doctors were engaged by us on a consultation basis. Our ability to attract and retain doctors and other healthcare professionals depends on, among other things, the commercial terms of service or employment that we offer them, the reputation of our hospitals and the exposure to technology and research opportunities offered by us. There can be no assurance that we will be successful in controlling an increase in market trends of professional fees or salaries, as applicable, paid to doctors and other healthcare professionals. Further, an increase in the pay packages offered by us to our doctors and other healthcare professionals would lead to a reduction in our profitability. On the other hand, if we are unable to offer our doctors or other healthcare professionals competitive fees, salaries and perquisites, our relationship with them may deteriorate and consequently, we may be unable to retain them. We may not be able to recruit suitable personnel to replace such doctors and medical staff in time, or at all. This may negatively impact our ability to provide quality care to our patients resulting in a drop in the number of new patients registered, and existent patients returning to avail our healthcare services. As a result, our business and results of operations could be materially and adversely affected.

Further, higher rates of attrition lead to an increase in our recruitment and training costs, which may have an adverse impact on our profitability and financial condition. High rates of attrition and competition for manpower may limit our ability to attract and retain the skilled manpower necessary for us to meet our future growth requirements. There can be no assurance that skilled manpower will continue to be available in sufficient numbers and at wages suitable to our requirement.

**5. *Delay in receipt of payment from our patients / customers and government bodies may affect our cash flows, which may, in turn affect our financial condition and results of operations.***

Our patients either pay for their medical expenses themselves or through third party payers. Third party payers include central and state government bodies, that pay for medical expenses. We are dependent on the timely payment of outstanding dues by such third-party payers, and we may suffer from time lapses in recovering our fees and costs incurred from such third-party payers. If we do not receive payments on a timely manner from such third-party payers, our cash flows could be affected, which may, in turn, materially and adversely affect our financial condition and results of operations.

We face competition from other hospitals and healthcare facilities. If we are unable to compete effectively, our business and results of operations may be materially and adversely affected.

**6. *We are a company with limited operating history, and therefore investors may not be able to assess our prospects on the basis of historical results.***

Our Company was originally incorporated as “Sangani Hospital Limited” in Keshod, Gujarat, a public limited company under the Companies Act, 2013, pursuant to a certificate of incorporation dated November 11, 2021 and certificate of commencement of business dated December 14, 2021 issued by the Registrar of Companies, Ahmedabad. The Corporate Identification Number of our Company is U85300GJ2021PLC127189. Post incorporation, our company acquired partnership firms and proprietorship firms under our group pursuant to business transfer agreement. As we do not have significant operating and financial history in Sangani Hospital Limited, it may be difficult to evaluate our current or future prospects on the basis of historical results and performance. Past performance of our group should not be construed as an indication of our future performance. For details regarding business and financial information, please refer chapter titled “*Our Business*” and “*Restated Financial Statements*” on page 111 and 164 respectively of this Draft Red Herring Prospectus.

**7. *Our revenue is primarily dependent on inpatient treatments, which could decline due to a variety of factors. Any such decline will adversely affect our financial condition and results of operations.***

Our inpatient admissions and treatment contribute significantly to our revenue. In the event there is a decline in the number of inpatients serviced by us, our financial condition and results of operations will materially stand impacted. If our patients choose to avail inpatient healthcare services from our competitors, instead of availing such healthcare services from us, our growth in revenue could stand materially impaired.

**8. *We are subject to medical and legal risks associated with the operation of medical facilities and in-house pharmacies, including negative publicity.***

Owning and operating medical facilities entails a number of operational, financial and reputational risks. Healthcare quality is measured by certain factors, including the quality of medical care, doctor expertise, friendliness of staff, waiting times and ease of access to our doctors. If we are unable to provide high quality services to our patients or fail to maintain a high level of patient satisfaction or experience a high rate of mortality or medical malpractice suits, our brand or reputation could be damaged.

For example, our business involves the treatment of patients with a variety of infectious diseases, and individuals may contract serious communicable diseases at our facilities which could result in significant claims for damages against us and subsequent loss of reputation. In addition, our hospitals could be subjected to quarantines and sterilizations, which could significantly limit their operations, as well as regulatory restrictions on, or the withdrawal of, permits and authorizations, any of which could result in reduced utilization or reputational damage.

Furthermore, we are exposed to the risk of legal claims and regulatory actions arising out of the healthcare services we provide and any alleged non-compliance with the provisions of various laws and regulations. The healthcare industry is subject to stringent laws, rules and regulations, compliance with which requires substantial cost and management attention. See “*Key Industrial Regulations and Policies*” on page 122 of this draft red herring prospectus. In addition, there are ongoing and proposed reforms in the healthcare industry in India, and we are subject to the uncertainty associated with such development including pharmaceutical pricing.

From time to time, we may be subject to complaints from our patients, or be involved in litigation alleging, among other things, medical negligence by our doctors and other healthcare professionals. Complaints (including First Information Reports (FIRs)) may be filed against our doctors and show cause notices may be issued or inquiries may be initiated by regulatory or adjudicating authorities with respect to the treatment and other services provided to our patients. An adverse outcome in such proceedings could lead to the suspension or removal of our doctors from the register of medical

practitioners, de-empanelment of our hospitals from state medical councils or have financial consequences and/or exposure to criminal or other liability. Even if our Company is not a party to such proceedings, our reputation and business may be adversely impacted by their negative outcomes and publicity.

Further, we may also be subject to complaints related to product negligence and product liability for medical devices or pharmaceuticals we dispense. Medical products that we sell, or use could become subject to contamination, tampering, mislabelling or other damage. In addition, errors in any form, including in the dispensing and packaging of pharmaceuticals could lead to serious injury, illness or even death. Product liability claims may be asserted against us with respect to any of the products or pharmaceuticals we sell. A product liability judgment against us could have a material adverse effect on our business, cash flows, financial condition or results of operations.

Furthermore, we could also be the subject of complaints from patients who are dissatisfied with the quality and cost of healthcare services or inquiries or investigations may be initiated by regulatory or adjudicating authorities with respect to such matters. The results of these inquiries, investigations, claims and lawsuits cannot be predicted, and it is possible that the ultimate resolution of these legal claims and regulatory actions, individually or in the aggregate, may have a material adverse effect on our business both in the near and long term, financial position, results of operations or cash flows. These matters could:

- require us to pay substantial damages or amounts in judgments or settlements, which individually or in the aggregate could exceed amounts, if any, that may be recovered under our insurance policies where coverage applies and is available;
- harm our reputation and the goodwill associated with our brand;
- cause us to incur substantial expenses and/or substantial increases in our insurance premiums;
- require significant time and attention from our management; and
- require us to incur debt to finance any damages or amounts in judgment or settlement.

The existence of any such claims may harm our professional standing and market reputation and/or that of the doctors and medical professionals involved. Regardless of their validity, negative publicity arising from such claims may adversely impact the number of patients visiting our healthcare facilities and the revenue therefrom.

While we seek to mitigate against such risks, there is no assurance that we will be successful in doing so. Further, while there has been no material adverse impact on our operations, results of operations and financial conditions in the last three financial years due to any instance of medical and legal risks associated with the operation of our medical facilities, including negative publicity, there is no assurance such instances will not occur in the future.

In addition, certain risks relating to our in-house pharmacy business, such as employee misconduct or improper activities, failure to keep accurate stocklist and recording of dispensation of drugs, the need to comply with government regulations and policies regarding the treatment of pharmaceuticals from handling, use, storage, transportation, disposal and/or discharge thereof, may adversely affect our operations.

***9. We may lose existing industry accreditations, fail to obtain accreditations for facilities for which we have made applications, or fail to renew our accreditations if we are not able to maintain or meet evolving accreditation standards.***

Our hospital, Sangani Super Speciality Hospital, Veraval is accredited by the NABH. Further, we are in the process of submitting application for NABH accreditation for Sangani Hospital, Keshod. This application will be scrutinized and inspected at various levels. Our ability to obtain and retain our accreditation depends on the standards and protocols we are required to maintain by the accrediting body. We may also be required to progressively achieve better standards and meet stricter requirements if norms for accreditation are revised. We may not be able to meet such standards. There can be no

assurance that our pending applications for accreditations will be granted. We may face reputational risk if our accreditations are either withdrawn or not renewed. Any such action may adversely affect our revenue, prospects and results of operations.

***10. We face competition from other hospitals and healthcare facilities. If we are unable to compete effectively, our business and results of operations may be materially and adversely affected.***

We compete with other hospitals, clinics and dispensaries of varying sizes with the ability to perform different kinds of services, some or all of which we may or may not be able to offer. Our competitors also include healthcare facilities owned or managed by government agencies and trusts, which may be able to obtain financing or make expenditure on more favourable terms than private healthcare facilities such as us. Our ability to compete in a given market is driven significantly by the extent and depth of diagnosis and procedural capabilities of our competitors and the complexities involved. The healthcare industry is driven by, amongst others, brand value and reputation, including skills of consulting doctors and the abilities of the surgeons. We are constantly required to evaluate and increase our competitive position in the markets we cater to, including meeting industry standards with regard to compensation of doctors and paramedical staff and offering our patients competitive rates for diagnosis, treatment and procedures. Some of our competitors may be more established and may have greater financial resources, personnel and other resources than us. Existing or new competitors may also price their services at a significant discount to ours or offer greater convenience or better services or amenities than we provide. Our competitors may compete with us for doctors and other healthcare professionals. This may result in a higher attrition rate at our hospital network and could negatively impact our ability to register new patients and provide high quality services. Further, our competitors may plan to expand their healthcare networks, which may exert further pricing and recruiting pressures on us. If we are unable to compete effectively with our competitors, our business and results of operations could be materially and adversely affected.

***11. If we are unable to increase our hospital occupancy rates and reduce average length of stay of our patient, we may not be able to generate adequate returns on our capital expenditure.***

We have invested and continue to invest a significant amount of capital expenditure in expanding bed capacity. Our current expansion plan involves the setting up of two new hospitals, namely, Sangani Hospital, Keshod and Sangani Super Speciality Hospital, Veraval. For details, please see chapter titled “Our Business” on page 111 of this draft red herring prospectus. We have also introduced new technologies, modernized our facilities and expanded our range of services.

We intend to focus on improving occupancy rates throughout our hospitals. Improving occupancy rates at our hospitals is highly dependent on brand recognition, wider acceptance in the communities in which we operate, our ability to attract and retain well-known and respected doctors, our ability to develop practices and our ability to compete effectively with other hospitals and clinics. If we fail to improve our occupancy rates, but continue to incur significant expenditure in the future, this could materially adversely affect our operating efficiencies and our profitability.

***12. We have not yet placed orders in relation to the capital expenditure to be incurred for the purchase of equipment / machinery. In the event of any delay in placing the orders, or in the event the vendors are not able to provide the equipment / machinery or other materials in a timely manner, or at all, may result in time and cost overruns and our business, prospects and results of operations may be adversely affected.***

We intend to utilize portions of the Net Proceeds for funding capital expenditure requirements towards purchase of equipment / machinery. While we have procured quotations from vendors in relation to the capital expenditure to be incurred, we have not placed any firm orders for any of them. For details in respect of the foregoing, see “Objects of the Issue” on page 81 of this Draft Red Herring Prospectus. Such quotations are valid for a certain period of time and may be subject to revisions, and other commercial and technical factors. We cannot assure you that we will be able to undertake such capital expenditure within the cost indicated by such quotations or that there will not be cost escalations.

Further, the actual amount and timing of our future capital requirements may differ from our estimates as a result of, among other things, unforeseen delays or cost overruns, unanticipated expenses, regulatory changes, engineering design changes and technological changes. In the event of any delay in placing the orders, or an escalation in the cost of acquisition of the equipment or in the event the vendors are not able to provide the equipment in a timely manner, or at all, we may encounter time and cost overruns. Further, if we are unable to procure the requisite materials from the vendors from whom we have procured quotations, we cannot assure you that we may be able to identify alternate vendors to provide us with the materials which satisfy our requirements at acceptable prices. Our inability to procure the machinery and equipment at acceptable prices or in a timely manner, may result in an increase in capital expenditure, the proposed schedule of implementation and deployment of the Net Proceeds may be extended or may vary accordingly, thereby resulting in an adverse effect on our business, prospects and results of operations.

***13. If we are unable to keep abreast with technological changes, new equipment and service introductions, changes in patients' needs and evolving industry standards, our business and financial condition may be adversely affected. Further, we will also incur costs associated with replacing obsolete equipment.***

Our business is characterised by periodic technological changes, new equipment and service introductions, technology enhancements, changes in patients' needs and evolving industry standards. New equipment and services based on new or improved technologies or new industry standards can render existing equipment and services obsolete. To effectively serve our patients, we have to continually enhance and develop our equipment and technologies on a timely basis to satisfy the increasingly sophisticated requirements of the medical professionals providing healthcare services at our hospitals. Further, as industry standards evolve, we may be required to enhance and develop our internal processes and procedures, as well as equipment and technologies, in order to comply with such standards and maintain the accreditations that we have received. Additionally, there may be significant advances in alternative treatment methods, which could reduce demand or even eliminate our existing services.

We cannot assure you that we will be able to procure the latest equipment and technologies at commercially suitable terms and in a timely manner, or at all. Further, we cannot assure you that our existent equipment and technologies are error-free, and incapable of malfunctioning. We may also incur significant costs in replacing or modifying equipment in which we have already made a substantial investment before the end of its anticipated useful life. There can be no assurance that we will have sufficient funds to continually invest in such equipment and technologies on a timely basis, or at all. In the event that we are unable to keep abreast with the current trends and needs of our business, or that we lose any of our accreditations, we may lose our competitiveness and market share, which may adversely affect our amount of revenue generated, business and financial condition.

Additionally, a number of medical equipment we use as part of our business have limited life span, and may become obsolete, including by reason of advancement of technology. We may be required to continually service our existing equipment and replace them whenever required, with new equipment. Replacement of medical equipment may be costly, and may involve significant capital expenditure, requiring that we plan for, and fund such expenditure in advance. Our cash flows and general financial condition may constrain us from replacing our medical equipment as and when appropriate. Any constraints on our ability to replace and upgrade our medical equipment may result in our inability to offer services that involve the use of such equipment, thus adversely affecting our revenue.

***14. Lack of health insurance in India may affect our business, cash flows and results of operations.***

Penetration of health insurance providers in India is very low. In the absence of health insurance, procedures and diagnostics involving significant costs may not be affordable to a number of patients. Such patients may choose not to undergo such procedures, despite being in need of them, or may choose to undergo similar procedures from hospitals which are less costly.

Further, most indemnity plans under health insurance policies in India are designed so that the insured is responsible to pay out-of-pocket expenses to the healthcare providers and then file a claim to get reimbursed. This reimbursement policy favours wealthier patients. In contrast, the lower income households are unable to afford the insurance premium or pay the medical fees upfront. Furthermore, most health insurance policies in India cover only inpatient care costs. Consequently, higher out-of-pocket expenses related to healthcare in India may make healthcare unaffordable for lower income households. Due to the lack of viable health insurance policies in India, demand for our medical services may not increase as expected. As a result, we may not be able to provide medical services and may not benefit from the revenue we may expect to realise from such services.

**15. Most of our radiology and diagnostic imaging equipment contain radioactive and nuclear materials or emit radiation during operation which could make us liable for damages.**

Radioactive procedures are commonly used in medical applications. Our hospitals routinely use equipment that deal with radioactive substances. We are required by various regulations promulgated under the Atomic Energy Act, 1962, and administered by the Atomic Energy Regulatory Board (“AERB”), to obtain certifications, licences and registrations for various processes and medical applications involving radioactive substances. The AERB also imposes stringent control requirements as to the use, handling and disposal of radioactive substances and procedures. A number of record maintenance requirements are also applicable to our Company. Despite precautions and compliance with regulations, the risk exists that accidents could occur during our operation of radiation generating equipment and use of radioactive material, resulting in the release of radiation or leakage of substances in a manner or to an extent unsafe for human beings or for the environment in general. Such accidents involving radioactive substances can be devastating to human life and well-being, including causing death. We may be liable for all such damage caused as a result of any accident and may be required to compensate persons suffering injury as a result of such exposure to radiation. Such damages may materially impact our business and financial condition.

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. Also documents related to some of these cases are not available in records of the Company, hence the information related them are not ascertainable. If any new developments arise, such as a change in Indian law or rulings against us by appellate courts or tribunals, we may need to make provisions in our financial statements that could increase our expenses and current liabilities. For further details pertaining to outstanding litigations, kindly refer to the chapter titled “*Outstanding Litigations and Material Developments*” beginning on page 232 of this draft red herring prospectus.

***17. Our Promoters and Directors have interests in an entity, which are in businesses similar to ours and this may result in potential conflict of interest with us.***

There are, and may be, certain transactions between our company and our promoters or promoter group entity, in the ordinary course of business and at arms’ length price. However, a potential conflict of interest may occur between our promoters, directors, subsidiary entity due to having similar line of business. For further details, please see “*Our Management*” and “*Our Promoters and Promoter Group*” on pages, 140 and 156, respectively of this draft red herring prospectus. Our promoters and directors,

and their related entity may compete with us and have no obligation to direct any opportunities to us. We cannot assure you that these or other conflicts of interest will be resolved in an impartial manner.

***18. Any downtime for maintenance and repair of our medical equipment could lead to business interruptions that could be expensive and harmful to our reputation and to our business.***

Our equipment, including operation theatres, require constant maintenance, including cleaning, sanitising and overhaul. Maintenance work on most equipment can be performed only by the manufacturer or a designated service provider and involves significant downtime to complete maintenance. At times, maintenance of some equipment cannot be performed at our hospitals and may have to be moved to the location of the manufacturer or service provider, adding to the downtime. Our equipment is subject to normal wear and tear and will be in need of repairs from time to time. Some repairs may be routine in nature, involving lower downtime, and some repairs may require replacement of parts of the equipment, which may be time consuming. During such times, we may not be able to put the equipment to use. We may, as a result, suffer losses by reason of not being able to use such equipment.

***19. There have been instances in the past where we have not made certain regulatory filings with the RoC and there were certain instances of discrepancies in relation to certain statutory filings and corporate records of our Company.***

There have been some instances of clerical errors and delays in filing some of our statutory forms with the RoC, which have subsequently been filed along with the payment of additional fees, as specified by the concerned RoC. Delayed filing with additional fees including but not limited to form MGT-14 (with respect to filing of Special resolution for allotment of shares for acquiring of business), PAS-3 (with respect to allotment of shares), SH-7. We cannot assure you that regulatory proceedings or actions will not be initiated against us in the future and we will not be subject to any penalty imposed by the competent regulatory authority in this regard. We manage the regulatory compliance by monitoring and evaluating our internal controls, and ensuring that we are in compliances with all relevant statutory and regulatory requirements. There can be no assurance that deficiencies in our filings will not arise in future, or that we will be able to implement, or continue to maintain, adequate measures to rectify or mitigate any deficiencies in our internal control. Any inability on our part to adequately detect, rectify any deficiencies in our internal controls may adversely impact our ability to accurately report, or successfully manage, our financial risks and to avoid frauds.

***20. Our Promoters and Promoter Group will be able to exercise significant influence and control over our operations after the issue and may have interests that are different from those of our other shareholders.***

As of the date of this Draft Red Herring Prospectus, our Promoters and Promoter Group collectively hold 100% of our issued and outstanding equity share capital. Post the issue, our Promoters and Promoter Group will continue to hold [●]% of our issued and outstanding Equity Share capital. By virtue of their shareholding, our Promoters and Promoter Group will have the ability to exercise significant control and influence over our affairs and business, including the appointment of Directors, the timing and payment of dividends, the adoption of and amendments to our Memorandum and Articles of Association, the approval of a merger, amalgamation or sale of substantially all of our assets and the approval of most other actions requiring the approval of our shareholders. The interests of our Promoters and Promoter Group may be different from or conflict with the interests of our other shareholders and their influence may result in change of our management or in our control, even if such a transaction may not be beneficial to our other shareholders.

***21. We are significantly dependent on our current pool of Key Management Personnel to manage our day-to-day operations and to execute our growth strategy going forward.***

We depend on our current pool of Key Management Personnel to carry out our day-to-day management and overseeing of operations. We also rely on them significantly to plan and execute our growth strategy in the future. For details on our Key Management Personnel, please see “Our Management” on page

140 of this Draft Red Herring Prospectus. The availability of senior management talent in the healthcare industry, especially those with experience in handling hospitals is limited. We may not be able to retain the services of the current management team and could lose talent to competition. Replacement of Key Management Personnel may not be easy, and we may need to wait indefinitely to fill positions until we find suitable candidates. Any significant loss of senior management or key personnel could materially and adversely affect our business and prospects.

***22. Our insurance coverage may not adequately protect us against potential risk, and this may have a material adverse effect on our business.***

We maintain insurance coverage for key risks relating to our business. While we believe that the amount of our insurance coverage is in line with industry standards, there can be no assurance that any claim under the insurance policies maintained by us will be honoured fully, in part or on time. In addition, not all risks associated with our operations may be insurable, on commercially reasonable terms or at all. Although we believe that we have obtained insurance coverage customary to our business, such insurance may not provide adequate coverage in certain circumstances and is subject to certain deductibles, exclusions and limits on coverage. To the extent that we suffer loss or damage that is not covered by insurance or exceeds our insurance coverage, our results of operations and cash flow may be adversely affected. Natural disasters in the future or occurrence of any other event for which we are not adequately or sufficiently insured may cause significant disruption to our operations that could have a material adverse impact on our business and operations. The occurrence of an event for which we are not adequately or sufficiently insured could have an adverse effect on our business, results of operations, financial condition and cash flows. If we are subject to litigation or claims or our operations are interrupted for a sustained period, we cannot assure you that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption.

***23. Our Company has unsecured loans with a total outstanding amount of ₹ 6.50 lakhs as of December 31, 2022, that may be recalled by the lenders at any time.***

Our Company has currently availed certain unsecured loans. The total outstanding amount of the unsecured loan as of December 31, 2022, was ₹ 6.50 lakhs. These loans may be recalled by the lenders at any time. In the event that any lender seeks a repayment of any such loan, our Company would need to find alternative sources of financing, which may not be available on commercially reasonable terms, or at all and this may affect our Company's liquidity. If we are unable to procure such financing, we may not have adequate working capital to maintain the desired inventory level. As a result, any such demand may materially and adversely affect our business, cash flows, financial condition and results of operations. For further details of these unsecured loans, please refer to Chapter titled "Restated Financial Statements" beginning on page 164 of this Draft Red Herring Prospectus

***24. We have not independently verified certain data in this Draft Red Herring Prospectus***

We have not independently verified data from the industry and related data contained in this Draft Red Herring Prospectus and although we believe the sources mentioned in the report to be reliable, we cannot assure you that they are complete or reliable. Such data may also be produced on a different basis from comparable information compiled. Therefore, discussions of matters relating to India, its economy or the industry in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

***25. Our business requires us to obtain and renew certain registrations, licenses, approvals, NoCs and permits in the ordinary course of our business. Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.***

We are required to obtain and maintain a number of statutory and regulatory licences, registrations, permits and approvals, generally for carrying out our business. In addition, we will need to apply for renewal of certain approvals, licenses, registrations and permits, which expire or seek new approvals, licenses, registrations and permits from time to time, as and when required in the ordinary course of our business. Obtaining licences, registrations, permits and approvals or their renewals are time consuming processes and are subject to frequent delays. We have obtained licenses, registrations, permits and approvals from the relevant authorities and are renewing such statutory approvals periodically for our business.

Further, pursuant to our recent acquisitions, many of the licenses and approvals are in the old name and the same are required to be updated / changed with various government / semi government authorities and various organizations. We are in the process of taking necessary steps for transferring the approvals in the new name of our Company. There can be no assurance that the relevant authorities will renew or issue any of such permits or approvals in the timeframe anticipated by us or at all. Any failure to apply for and obtain the required approvals, licenses, registrations or permits in a timely manner, or any suspension or revocation of any of the approvals, licenses, registrations and permits would result in a delay in our business operations which could otherwise adversely affect our financial condition, results of operations and future prospects of the Company. We cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. In addition to the same, our failure to comply with existing or increased regulations, or the introduction of changes to existing regulations, could adversely affect our business and results of operations. For further details regarding the material approvals, licenses, registrations and permits, please see “Government and other Key approvals” on page 236 of this Draft Red Herring Prospectus.

**26. Our logo  is not registered with the trademark registration authority, and we may be unable to protect our logo from being infringed by others which may adversely affect our business value, financial condition and results of operations.**

As on the date of this Draft Red Herring Prospectus, we have not yet obtained registration from the Trademark Registration Authority for our logo  and hence we do not enjoy the statutory protection accorded to a registered trademark. Additionally, we have not made any application for the registration of our logo. We may remain vulnerable to infringement or passing-off by third parties, however, we will not be able to enforce any rights against them resulting to change our logo, which may adversely affect our reputation & business and could require us to incur additional costs. Although, we believe that our present systems are adequate to protect our confidential information and intellectual property, there can be no assurance that our intellectual property data, trade secrets or proprietary technology will not be copied, infringed or obtained by third parties. Further, our efforts to protect our intellectual property may not be adequate and may lead to erosion of our business value and our operations could be adversely affected. This may lead to litigations and any such litigations could be time consuming and costly and their outcome cannot be guaranteed. Our company may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our intellectual property, which may adversely affect our business, financial condition and results of operations.

**27. We may be subject to labor unrest, slowdowns and work stoppages, which could affect our reputation, business, financial condition and results of operations.**

Healthcare is a manpower-intensive sector, and we employ doctors, staff and other people for providing care to our patients. Furthermore, India has stringent labor legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal, and legislation that imposes certain financial obligations on employers upon retrenchment. Presently, none of our employees of our facilities are unionized. In the event that employees seek to unionize, it may become difficult for us to maintain flexible labor policies and may increase our costs and adversely affect our business. While we have not experienced any major instance of labor unrest, slowdowns or work stoppages that has had a material adverse impact on our

operations, results of operations and financial conditions in the last three financial years, there is no assurance such instances will not occur in the future and any disruption in services due to any potential strikes (including those by the contract labor employed through third-party contractors), may affect our reputation, business, financial condition and results of operations.

***28. Our Promoter, Directors and Key Managerial Personnel may have interest in our Company, other than reimbursement of expenses incurred, remuneration or other benefits received.***

Our Promoter, Directors and Key Managerial Personnel may be deemed to be interested to the extent of the Equity Shares held by them and benefits deriving from their shareholding in our Company. Our Promoters are interested in the transactions entered into between our company and themselves as well as between our company and our group entities. For further details, please refer to the chapters titled “Our Business” and “Our Promoters and Promoter Group”, beginning on page 111 and 156 respectively and the chapter titled “Annexure 23 - Related Party Transactions” of restated consolidated financials and “Annexure 24- Related Party Transactions” of restated standalone financials under chapter titled “Restated Financial Statements” beginning on page 164 of this Draft Red Herring Prospectus.

***29. We have not identified any alternate source of financing the ‘Objects of the Issue’. If we fail to mobilize resources as per our plans, our growth plans may be affected.***

We have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this Issue may delay in the implementation schedule and could adversely affect our growth plans. For further details of object of Issue and schedule of implementation please refer to the chapter titled “Objects of the Issue” on page 81 of this Draft Red Herring Prospectus.

***30. Our Company’s management will have flexibility in utilizing the net proceeds from the issue and the deployment of the net proceeds from the issue is not subject to any monitoring by any independent agency.***

Our Company intends to primarily use the net proceeds towards capital expenditure in Sangani Hospital, Keshod and Sangani Super Speciality Hospital, Veraval and for general corporate purposes as mentioned in “Objects of the Issue” on page 81 of this Draft Red Herring Prospectus. In terms of the SEBI (ICDR) Regulations, we are not required to appoint a monitoring agency since the issue size is not in excess of ₹ 10,000 lakhs. The management of our company will have discretion to use the net proceeds from the issue, and investors will be relying on the judgment of our Company’s management regarding the application of the net proceeds from the issue. Our company may have to revise its management estimates from time to time and consequently its requirements may change.

Further, pursuant to Section 27 of the Companies Act 2013, any variation in the objects would require a special resolution of the shareholders and our promoters or controlling shareholders will be required to provide an exit opportunity to the shareholders of our company who do not agree to such proposal to vary the objects, in such manner as may be prescribed in future by the SEBI.

Accordingly, prospective investors in the issue will need to rely upon our management’s judgment with respect to the use of net proceeds. If we are unable to enter into arrangements for utilization of net proceeds as expected and assumed by us in a timely manner or at all, we may not be able to derive the expected benefits from the proceeds of the issue and our business and financial results may suffer.

***31. We have entered into and may continue to enter into related party transactions and there can be no assurance that such transactions have been on favourable terms.***

We have entered into certain transactions with related parties may continue to do so in future. While our Company believes that all such transactions have been conducted on arms-length basis and is in compliance with the Companies Act, there can be no assurance that it could not have been achieved on more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that our company will enter into related party transactions also in the future. There can be no

assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operation. For details, please refer to “Annexure 23 - Related Party Transactions” of restated consolidated financials and “Annexure 24- Related Party Transactions” of restated standalone financials under section titled “Financial Information” on page 164 of this Draft Red Herring Prospectus.

**32. *We may not be successful in implementing our business strategies.***

The success of our business depends substantially on our ability to implement our business strategies effectively. Even though we have successfully executed our business strategies in the past, there is no guarantee that we can implement the same on time and within the estimated budget going forward, or that we will be able to meet the expectations of our targeted clients. Changes in regulations applicable to us may also make it difficult to implement our business strategies. Failure to implement our business strategies would have a material adverse effect on our business and results of operations.

**33. *The objects of the issue have not been appraised by any bank or financial institution. Our funding requirements and proposed deployment of the net proceeds are based on management estimates and may be subject to change based on various factors, some of which are beyond our control. Any variation in the utilization of the net proceeds or in the terms of the conditions as disclosed in this Draft Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders’ approval.***

Our funding requirements and deployment of the net proceeds are based on internal management estimates and current market conditions and have not been appraised by any bank or financial institution or other independent agency. It is subject to change in light of changes in external circumstances, costs, other financial condition or business strategies. Furthermore, the deployment of the net proceeds is at our discretion. We operate in a highly competitive and dynamic industry and may need to revise our estimates from time to time based on changes in external circumstances or costs, or changes in other financial conditions, business or strategy. We may not be able to obtain the shareholders’ approval in a timely manner, or at all, in the event we need to make such changes. Any delay or inability in obtaining such shareholders’ approval may adversely affect our business or operations.

**34. *The requirements of being a listed company may strain our resources.***

We are not a listed company. We have not been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance, and other expenses that we did not incur as an unlisted company. We will be subject to the equity listing agreement with the Stock Exchange which will require us to file audited annual and half yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies.

Further, as a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures and internal control over financial reporting. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required.

As a result, our management’s attention may be diverted from business concerns, which may adversely affect our business, prospects, financial condition, and results of operations. Further, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge but cannot assure that we will be able to do so in a timely and efficient manner.

**35. *Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures.***

Our future ability to pay dividends will depend on our earnings, financial condition and capital requirements of our company. There can be no assurance that we will generate sufficient income to cover the operating expenses and pay dividends to the shareholders. Our ability to pay dividends will also depend on our expansion plans. We may be unable to pay dividends in the near or medium term, and the future dividend policy will depend on the capital requirements and financing arrangements for the business plans, financial condition and results of operations.

***36. The Equity Shares have never been publicly traded, and, after the issue, the equity shares may experience price and volume fluctuations, and an active trading market for the equity shares may not develop. Further, the price of the equity shares may be volatile, and you may be unable to resell the equity shares at or above the issue price, or at all.***

Prior to the issue, there has been no public market for the equity shares, and an active trading market on the stock exchange may not develop or be sustained after the issue. Listing and quotation does not guarantee that a market for the equity shares will develop. The issue price of the equity shares is proposed to be determined through a book building process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the equity shares at the time of commencement of trading of the equity shares or at any time thereafter. The market price of the equity shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

***37. The trading volume and market price of the equity shares may be volatile following the issue.***

The market price of the equity shares may fluctuate as a result of, among other things, the following factors, some of which are beyond our control:

- half yearly variations in our results of operations;
- results of operations that vary from the expectations of securities analysts and investors;
- results of operations that vary from those of our competitors;
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors;
- a change in research analysts' recommendations;
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments;
- announcements by third parties / governmental entities of significant claims/ proceedings against us;
- new laws and governmental regulations applicable to our industry;
- additions or departures of key management personnel;
- changes in exchange rates;
- changes in the price of oil or gas;
- fluctuations in stock market prices and volume; and
- general economic and stock market conditions

Changes in relation to any of the factors listed above could adversely affect the price of the Equity Shares.

***38. There are restrictions on daily weekly monthly movement in the price of the equity shares, which may adversely affect the shareholder's ability to sell for the price at which it can sell, equity shares at a particular point in time.***

Once listed, we would be subject to circuit breakers imposed by the stock exchange, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit

breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI. The percentage limit on circuit breakers is said by the stock exchange based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchange does not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of the circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

## **External Risk Factors**

### ***39. Any adverse revision to India's debt rating by a domestic or international rating agency could adversely affect our business.***

India's sovereign debt rating could be adversely affected due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Equity Shares.

### ***40. We could be exposed to risks relating to the handling of personal information, including medical data.***

Indian laws rules and regulations generally require body corporates/ medical institutions to protect the privacy of their patients, clients, employees/ staff or third party ("Provider of Information") and prohibit unauthorized disclosure of personal information, including medical data. These laws and regulations may continually change as a result of new legislation, amendments to existing legislation, changes in the enforcement policies and changes in the interpretation of such laws and regulations by the courts or the regulators. For example, the Personal Data Protection Bill, 2019, which was introduced to propose a legal framework governing the processing of personal data, was withdrawn on August 3, 2022 and a new data protection bill has not been submitted before the Parliament. Compliance with new and evolving privacy and security laws, regulations and requirements may result in increased operating costs and may constrain or require us to alter our business model or operations. Deficiencies in managing our information systems and data security practices may lead to leaks of personal information and sensitive personal data or information, including, patient records, test results, prescriptions and lab records, which could adversely impact our business and damage our reputation. For example, there had been reports of a data breach in India at a multi-specialty hospital unrelated to us, where medical data, including lab results and prescriptions, of patients who sought treatment were leaked and available online. We have taken measures to maintain the confidentiality of Provider of Information, however these measures may not always be effective in protecting sensitive personal information. While we have not faced any such breach or theft of confidential and other sensitive information or any kind of data leakage in the past, any breach of our confidentiality obligations to Provider of Information, including due to data leakages or improper use of such medical information notwithstanding the safeguards that we have implemented, could expose us to fines, potential liabilities and legal proceedings, such as litigation or regulatory proceedings, which would adversely impact our reputation. As cyber-attacks and similar events become increasingly sophisticated, we may need to incur additional costs to implement data security and privacy measures, modify or enhance our protective measures or investigate and remediate any vulnerability to cyber incidents.

### ***41. Challenges that affect the healthcare industry will have an effect on our operations.***

As a provider of health care services, we are impacted by challenges that affect the industry in general. These include general economic conditions and outlook, improvements in technologies, increase in operating costs, government regulation and policy and importantly, our competitive position in the market in general. These factors will impact us and our business on an ongoing basis. We will be constrained to respond to changes adequately to remain profitable, including bringing about changes to

operations, cutting down on costs, and reassessing growth plans and strategies. We are unable to predict these challenges and cannot assure you that we will continue to maintain our current levels of financial performance.

***42. Compliance with applicable health, safety, environmental and other governmental regulations may be costly and adversely affect our results of operations.***

Compliance with applicable health, safety, environmental and other governmental regulations is time consuming, costly and requires a number of dedicated personnel. We are subjected to payment of fees and levies on an ongoing basis with respect to a number of licences, approvals, consents and permissions we are required to obtain from governmental authorities. We are required to periodically maintain a number of records and registers and file a number of returns. Ensuring compliance requires that we hire trained personnel across our locations. Our compliance costs may adversely affect our revenue.

***43. QIB and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Issue Period and withdraw their Bids until Bid/ Issue Closing Date. While our Company is required to complete Allotment pursuant to the Issue within six working days from the Bid/ Issue Closing Date, events affecting the Bidders' decision to invest in the Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations or financial condition may arise between the date of submission of the Bid and Allotment. Our Company may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Bidders ability to sell the Equity Shares Allotted pursuant to the Issue or cause the trading price of the Equity Shares to decline on listing.

***44. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

***45. Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

***46. A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.***

There are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company, even if a change in control would result in the purchase of Equity Shares at a premium to the market price or would otherwise be beneficial to the shareholders. Such provisions may discourage or prevent certain types of transactions involving actual or threatened change in control of our Company. Under the SEBI Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of the SEBI Takeover Regulations.

***47. You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.***

Under current Indian tax laws and regulations, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. A securities transaction tax ("STT") is levied on and collected by an Indian stock exchange on which equity shares are sold. Any capital gain exceeding ₹ 1 lakh, realized on the sale of equity shares held for more than 12 months immediately preceding the date of transfer, which are sold using any other platform other than on a recognized stock exchange and on which no STT has been paid, are subject to long-term capital gains tax in India.

The Finance Act, 2019 amended the Indian Stamp Act, 1899 with effect from July 1, 2020 and clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, the onus will be on the transferor. The stamp duty for transfer of securities other than debentures on a delivery basis is specified at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. The Finance Act, 2020, has, among others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime and that dividend distribution tax will not be payable in respect of dividends declared, distributed or paid by a domestic company after March 31, 2020, and accordingly, that such dividends not be exempt in the hands of the shareholders, both resident as well as non-resident, and that such dividends likely be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. In cases where the seller is a non-resident, capital gains arising from the sale of the equity shares will be partially or wholly exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Historically, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity shares.

Further, we cannot predict whether any tax laws or other regulations impacting it will be enacted or predict the nature and impact of any such laws or regulations or whether, if at all, any laws or regulations would have a material adverse effect on our business, financial condition, results of operations and cash flows.

***48. Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the issue.***

The Equity Shares will be listed on the Stock Exchange. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors' book entry, or 'demat' accounts with depository participants in India, are expected to be credited within one working day of the date on which the Basis of Allotment is approved by the Stock Exchange. The Allotment of Equity Shares in the issue and the credit of such Equity Shares to the applicant's demat account with depository participant could take approximately five working days from the Bid/ Issue Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchange is expected to commence within six working days of the Bid/ issue Closing Date. There could be a failure or delay in listing of the Equity Shares on the Stock Exchange. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

***49. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions specified by the RBI, then the prior approval of RBI will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further details, please refer to section titled "*Restrictions on Foreign Ownership of Indian Securities*" beginning on page 304 of this Draft Red Herring Prospectus.

***50. The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war in India or globally may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

### GLOBAL OUTLOOK

Global growth, estimated at 3.4 percent in 2022, is projected to fall to 2.9 percent in 2023 before rising to 3.1 percent in 2024. Compared with the October forecast, the estimate for 2022 and the forecast for 2023 are both higher by about 0.2 percentage point, reflecting positive surprises and greater-than-expected resilience in numerous economies. Negative growth in global GDP or global GDP per capita which often happens when there is a global recession is not expected. Nevertheless, global growth projected for 2023 and 2024 is below the historical (2000–19) annual average of 3.8 percent. The forecast of low growth in 2023 reflects the rise in central bank rates to fight inflation- especially in advanced economies as well as the war in Ukraine. The decline in growth in 2023 from 2022 is driven by advanced economies; in emerging markets and developing economies, growth is estimated to have bottomed out in 2022. Following the path of global demand, world trade growth is expected to decline in 2023 to 2.4 percent, despite an easing of supply bottlenecks, before rising to 3.4 percent in 2024.

For advanced economies, growth is projected to decline sharply from 2.7 percent in 2022 to 1.2 percent in 2023 before rising to 1.4 percent in 2024, with a downward revision of 0.2 percentage point for 2024. About 90 percent of advanced economies are projected to see a decline in growth in 2023.

In the United States, growth is projected to fall from 2.0 percent in 2022 to 1.4 percent in 2023 and 1.0 percent in 2024. With growth rebounding in the second half of 2024, growth in 2024 will be faster than in 2023 on a fourth-quarter-over-fourth-quarter basis, as in most advanced economies.

Growth in the United Kingdom is projected to be –0.6 percent in 2023, a 0.9 percentage point downward revision from October, reflecting tighter fiscal and monetary policies and financial conditions and still-high energy retail prices weighing on household budgets.

For emerging market and developing economies, growth is projected to rise modestly, from 3.9 percent in 2022 to 4.0 percent in 2023 and 4.2 percent in 2024, with an upward revision of 0.3 percentage point for 2023 and a downward revision of 0.1 percentage point for 2024. About half of emerging markets and developing economies have lower growth in 2023 than in 2022.

Growth in emerging and developing Asia is expected to rise in 2023 and 2024 to 5.3 percent and 5.2 percent, respectively, after the deeper-than-expected slowdown in 2022 to 4.3 percent attributable to China’s economy. China’s real GDP slowdown in the fourth quarter of 2022 implies a 0.2 percentage point downgrade for 2022 growth to 3.0 percent the first time in more than 40 years with China’s growth below the global average. Growth in China is projected to rise to 5.2 percent in 2023, reflecting rapidly

improving mobility, and to fall to 4.5 percent in 2024 before settling at below 4 percent over the medium term amid declining business dynamism and slow progress on structural reforms. Growth in India is set to decline from 6.8 percent in 2022 to 6.1 percent in 2023 before picking up to 6.8 percent in 2024, with resilient domestic demand despite external headwinds.

### **Inflation Peaking:**

About 84 percent of countries are expected to have lower headline (consumer price index) inflation in 2023 than in 2022. Global inflation is set to fall from 8.8 percent in 2022 (annual average) to 6.6 percent in 2023 and 4.3 percent in 2024—above pre-pandemic (2017–19) levels of about 3.5 percent.

In advanced economies, annual average inflation is projected to decline from 7.3 percent in 2022 to 4.6 percent in 2023 and 2.6 percent in 2024—above target in several cases.

In emerging markets and developing economies, projected annual inflation declines from 9.9 percent in 2022 to 8.1 percent in 2023 and 5.5 percent in 2024, above the 4.9 percent pre-pandemic (2017–19) average.

In low-income developing countries, inflation is projected to moderate from 14.2 percent in 2022 to 8.6 percent in 2024—still high, but close to the pre-pandemic average.

# For India, data and projections are presented on a fiscal year basis, with FY 2022–23 (starting in April 2022) shown in the 2022 column. India's growth projections are 5.4 percent in 2023 and 6.8 percent in 2024 based on calendar year.

The global fight against inflation, Russia's war in Ukraine, and a resurgence of COVID-19 in China weighed on global economic activity in 2022, and the first two factors will continue to do so in 2023.

Despite these headwinds, real GDP was surprisingly strong in the third quarter of 2022 in numerous economies, including the United States, the euro area, and major emerging market and developing economies. The sources of these surprises were in many cases domestic: stronger-than-expected private

consumption and investment amid tight labour markets and greater-than-anticipated fiscal support. Households spent more to satisfy pent-up demand, particularly on services, partly by drawing down their stock of savings as economies reopened. Business investment rose to meet demand. On the supply side, easing bottlenecks and declining transportation costs reduced pressures on input prices and allowed for a rebound in previously constrained sectors, such as motor vehicles. Energy markets have adjusted faster than expected to the shock from Russia's invasion of Ukraine.

In the fourth quarter of 2022, however, this uptick is estimated to have faded in most—though not all—major economies. US growth remains stronger than expected, with consumers continuing to spend from their stock of savings (the personal saving rate is at its lowest in more than 60 years, except for July 2005), unemployment near historic lows, and plentiful job opportunities. But elsewhere, high-frequency activity indicators (such as business and consumer sentiment, purchasing manager surveys, and mobility indicators) generally point to a slowdown.

## INDIAN ECONOMY

India was one of the fastest growing economies in the world with real GDP growing 7.7 percent year-on-year during Q1-Q3 fiscal year 2022-23 (April-March, FY22-23). Growth was underpinned by robust domestic demand- strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. While the overall growth momentum remains robust and real GDP growth for FY22-23 is estimated to be 6.9 percent, there were signs of moderation in Q3 as growth slowed to 4.4 percent year-on-year (y-o-y). There was also a change in the composition of domestic demand in Q3 FY22-23 with a lower share from government consumption as fiscal consolidation efforts continued. Estimates suggest that the pandemic induced a spike in extreme poverty (\$2.15), of up to 4 percentage points, moderated in FY21-22.

Headline inflation averaged around 6.6 percent in FY22-23. Average inflation in H2 FY22-23 was almost 1 percentage point lower than the first half as inflationary pressures began to taper and the combination of supply side measures (such as export restrictions) and monetary policy tightening began to take effect. Notwithstanding the moderation, headline inflation remains above the Reserve Bank of India's (RBI) target range of 2–6 percent. The gradual moderation in price pressures was led by a decline in food inflation (the single largest component of headline inflation) and easing fuel prices on the back of softening in global oil prices. However, the core inflation remained elevated in FY22-23, averaging around 6.1 percent over the fiscal year. While there was some tapering in domestic demand growth in Q3, it remained the main reason for the stickiness in core inflation. An improving traditional market services sector (trade, hospitality, transport and storage and, communication) also played a role in propping up core inflation.

The current account deficit narrowed from 3.3 percent of GDP in H1 FY22-23 to 2.2 percent in Q3 FY22-23. The current account balance remains adequately financed by robust net capital inflows and foreign direct investment inflows. The rupee has depreciated by 9.1 percent since April 2022, but the pace of depreciation showed signs of slowing in H2.

Robust nominal GDP growth bolstered revenue collection during Q1-Q3 FY22-23. The highlight continued to be the performance of the Goods and Services Tax (GST) with average growth of over 20 percent year-on-year. According to the government's revised estimates, tax revenues were about 8 percent higher than budgeted and 15.6 percent higher than the previous year. On the expenditure side, the announcement of several support measures to offset the impact of inflationary pressure caused current spending to exceed budget estimates by 8 percent, largely due to increased allocation for income support measures like the food subsidy, fertilizer subsidies and Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). Capital spending was only 3 percent lower than budgeted but 22 percent higher than the previous year and reached an all-time high level of 2.7 percent of GDP.

Overall, the central government is likely to meet its fiscal deficit target of 6.4 percent in FY22-23. The general government fiscal deficit – the combined deficit of the Centre and States – is estimated to have declined further to 9.4 percent in FY22-23 from 13.3 percent of GDP in FY20-21. Public debt is also estimated to decline to 84.3 percent of GDP in FY22-23, from a peak of 87.6 percent in FY20-21.

India's economy has been relatively resilient to challenging external conditions, real GDP growth is likely to moderate to 6.3 percent in FY23-24 from the estimated 6.9 percent in FY22-23.

## **GLOBAL HEALTHCARE INDUSTRY**

The COVID-19 pandemic permanently changed global health care - from accelerating the adoption of new technology and care delivery models to increasing the focus on sustainability and resiliency.

COVID-19 has had a profound effect on how health care is being practiced in both industrialized and developing countries. It has changed global demands for an increased focus on sustainability and resiliency which was not present prior to the epidemic. What stands out most is that, after the pandemic, we will never be able to think about health care in the same way again. In our 2023 Global Health Care Outlook, we examine the current state of the sector and explore insights around international health policies, identifying emerging threats to public health, and how technology will change health care delivery over the next decade. We also look at the five key areas that are critical to this transformation, and we pose questions and suggest actions that professional can take to lead this transformation.

## **INDIAN HEALTHCARE INDUSTRY**

The Indian healthcare sector is expected to record a three-fold rise, growing at a CAGR of 22% between 2016–22 to reach US\$ 372 billion in 2022 from US\$ 110 billion in 2016. As of February 20, 2023, more than 220.63 crore COVID-19 vaccine doses have been administered across the country. By FY22, Indian healthcare infrastructure is expected to reach US\$ 349.1 billion. India climbed to the 63<sup>rd</sup> rank among 190 countries in the World Bank's 'Ease of Doing Business' rankings in 2020.

As of 2021, the Indian healthcare sector is one of India's largest employers as it employs a total of 4.7 million people. The sector has generated 2.7 million additional jobs in India between 2017-22 over 5,00,000 new jobs per year. Rising income levels, an ageing population, growing health awareness and a changing attitude towards preventive healthcare is expected to boost healthcare services demand in the future. The low cost of medical services has resulted in a rise in the country's medical tourism, attracting patients from across the world. Moreover, India has emerged as a hub for R&D activities for international players due to its relatively low cost of clinical research.

Conducive policies for encouraging FDI, tax benefits, and favourable Government policies coupled with promising growth prospects have helped the industry attract private equity (PE), venture capitals (VCs) and foreign players.

## **INDIAN PHARMACEUTICAL INDUSTRY**

The Indian pharmaceutical industry ranks third globally in pharmaceutical production by volume and is known for its generic medicines and low-cost vaccines. The sector contributed to around 1.32% of the Gross Value Added (at 2011-12 constant prices) of the Indian Economy in 2020-21. The total annual

turnover of Pharmaceuticals in the fiscal year 2021-22 was Rs. 3,44,125 crore (USD 42.34 Bn). Major segments of Indian Pharmaceutical Industry include generic drugs, OTC medicines, bulk drugs, vaccines, contract research & manufacturing, biosimilars and biologics. India is a global leader in the supply of DPT, BCG, and Measles vaccines. India is one of the biggest suppliers of low-cost vaccines in the world. India accounts for 60 percent of global vaccine production, contributing 40 to 70 percent of the WHO demand for Diphtheria, Tetanus and Pertussis (DPT) and Bacillus Calmette–Guérin (BCG) vaccines, and 90 percent of the WHO demand for the measles vaccine. There are 500 API manufacturers contributing about 8% in the global API Industry. India is the largest supplier of generic medicines. It manufactures about 60,000 different generic brands across 60 therapeutic categories and accounts for 20% of the global supply of generics. Access to affordable HIV treatment from India is one of the greatest success stories in medicine. Because of the low price and high quality, Indian medicines are preferred worldwide, making it “pharmacy of the world”. The sector has been growing at a healthy rate.

## Our competitive strengths

The following are some of our competitive strengths that place us well in the attractive healthcare market in India.

- ***‘Doctor-led’ hospitals driven by skilled and experienced doctors in the healthcare space.***

Our Company is led by a team of highly qualified and experienced professionals, including Dr. Ajaykumar Sangani, who holds an MBBS, DLO, and MS in E.N.T., Dr. Rajeshkumar Sangani, who is an MBBS and MD (Physician), Kamalkumar Sangani, and Dr. Vaishali Sangani, who holds MBBS &

MD (Obstetrics & Gynaecology). These individuals have been actively involved in the management of our Company since inception and have been instrumental in its growth and expansion.

Our Company follows a 'doctor-led' model of management, which means that its day-to-day operations are overseen by the doctors themselves. This ensures that the highest standards of medical care are maintained at all times. Our Company operates hospitals, pathology laboratories, and medical stores, which provide a wide range of medical services to its patients.

Under the leadership of our promoters, our Company has successfully expanded its operations from Keshod to Veraval. This is a testament to their vision, dedication, and commitment to providing high-quality healthcare services to their patients. Our promoters are supported by a team of skilled and experienced professionals who work tirelessly to ensure that the patients receive the best possible medical care.

- ***Focus on under-served areas with dense population.***

Our Company's hospitals, pathology laboratory, and medical stores are currently located in under-served areas with a dense population, such as Keshod and Veraval. This is in line with our Company's mission to deliver advanced healthcare in these areas and improve the healthcare infrastructure. Our Company recognizes the need for high-quality healthcare services in under-served areas, and its presence in these markets provides an opportunity to meet this need.

Furthermore, our Company's strategic locations in these key under-served areas provide more opportunities to attract a wide base of patients. Patients from other cities and districts travel to access healthcare services at our Company's facilities, which is a testament to the quality of care provided by our Company. This also highlights the need for high-quality healthcare services in under-served areas.

Our Company believes that its presence in these under-served markets presents a great potential to expand its offering and improve the healthcare infrastructure. Our Company's management is committed to investing in the latest technologies, medical equipment, and human resources to improve the quality of healthcare services provided to its patients.

- ***Growth opportunities in existing facilities and diversification into new services.***

Our Company's strength lies in its ability to leverage on land space and diversification into new services. This is particularly advantageous as hospitals typically have to incur significant capital costs when expanding, mainly for the procurement of land. However, our Company believes that it has an inherent advantage in expanding its services in the locations it is currently in. In terms of expansion capacity, our Company has identified that it can add up to total 100 beds at Keshod Hospital and up to total 80 beds at Veraval Hospital without significant further major investments in infrastructure.

Furthermore, our Company is continually exploring services that it can offer to its patients, which will enable it to provide better healthcare services. Our Company is committed to investing in the latest technologies, medical equipment, and human resources to ensure that we provide the highest standards of medical care to our patients.

- ***Ability to attract quality doctors, nurses, paramedical, and other staff.***

As at April 30, 2023, we employed 38 employees and engaged 27 professional consultants, which comprised 6 doctors who are full-time consultants and 21 doctors who are part-time consultants. Our staff strength also comprises 13 nurses and 25 paramedical, corporate and support staff and pharmacists. Our doctors are generally available on-call, round the clock, and are able to fulfil patient needs and requirements, while also effectively addressing emergencies. In respect of employees engaged full time by us, our compensation structure provides our employees with a fixed monthly salary. We maintain our

standard of quality healthcare by consistently employing a diverse pool of talented doctors, nurses and paramedical professionals. We believe that our reputation for clinical excellence, amiable work culture, professional ethics, and competitive compensation packages have all enabled us to successfully attract talented doctors, nurses, paramedical staff, and other corporate staff members.

### **Business strategies**

- ***Continue to strengthen healthcare services across other specialties.***

Our expansion strategies are centred on establishing hospitals which focus on offering quality healthcare services across a spectrum of specialties such as neurology, nephrology, invasive cardiac care, critical care, gastrology and oncology. We intend to continue to strengthen our capabilities in these specialties. To this end, and together with our strategy to expand our hospitals to new geographies, we intend to strengthen our specialties by setting up multi-specialty hospitals which focuses on these specialties. Further, for the purposes of strengthening our focus on other specialties, we intend to equip our hospitals with an additional range of diverse healthcare equipment.

- ***Implement initiatives to improve operational efficiencies.***

We believe that improving operating efficiencies and profitability is critical to our growth. We intend to focus on the following key areas to improve our clinical and administrative operating efficiencies and profitability:

- We aim to improve our daily average revenue per occupied bed by enhancing our focus on high growth care areas such as Critical care, non-invasive cardiology and ENT surgery.
- We intend to lower the costs of consumption by centralising our procurement function. To this end, we intend on implementing various measures to improve our operational efficiencies, including undertaking measures to reduce our consumption of disposable items and avoid wastage. Further, we also intend to minimise our costs and leverage our economies of scale by standardizing the type of medical consumables used at our hospitals, optimizing procurement costs, and consolidating our suppliers by establishing and adopting strict guidelines for medical procedures across our hospitals.
- We intend to continue to minimise average length of stay of our patients at our hospitals. We believe that systematically reducing an inpatient's average length of stay of our patients at our hospitals will aid in improving our daily average revenue per occupied.
- We intend to maximise our operational efficiency by achieving greater integration and by implementing a stronger supply chain management.

- ***Continue to grow our ancillary businesses.***

In addition to offering multi-specialty and specialty services in our hospitals, our Company is also engaged in the business of pathology laboratory and medical stores. Our Company currently has two pathology laboratories and two medical stores in both Keshod and Veraval, providing patients with access to a range of diagnostic and medical products. As the demand for these services increases going forward, our Company plans to expand its footprint in the pathology laboratory and medical store business. This will enable our Company to reach more patients and provide them with access to high-quality diagnostic services and medical products. Our Company's pathology laboratory services include a range of diagnostic tests that are crucial in the diagnosis and treatment of various medical conditions. These tests are performed by skilled professionals using the latest medical equipment and technologies. Similarly, our Company's medical stores offer a wide range of medical products, including prescription medicines, over-the-counter medicines, and medical devices.

- *Digital healthcare initiatives to address patient convenience, operational efficiencies and expand reach.*

Our Company recognizes the importance of incorporating digital technology into our operations to provide customized healthcare services for our patients and improve the in-hospital patient experience. Our Company's digital strategy focuses on developing an application and internal system to achieve these goals. Our Company plans to develop an application that patients can use to book appointments, make payments, order drugs for home delivery, download investigation reports, and receive alerts on essential services. This will provide patients with a convenient and easy-to-use platform to access healthcare services, reducing the need for physical visits and improving the overall patient experience.

Additionally, our Company also plans to create an internal digitalized system that will be able to process large amounts of patient data to provide insights into patient needs. This will enable us to identify patterns and trends in patient data, which can be used to provide more targeted and personalized healthcare services to our patients.

### **Competition**

We function in healthcare services industry which is highly competitive in nature. Currently, there are numerous players in healthcare industry providing services in standalone basis or integrated basis. Existing and established players give us a major competition in terms of technology and innovative services. Our industry has number of unorganised players in the market operating in the local vicinity. These local players form a great part of the industry.

While our primary competition comprises hospitals, which are institutionalised hospitals providing primary, tertiary, and quaternary healthcare services, we face varying degrees of competition that we have a presence in. We believe that we have been able to gain a competitive edge over our competition as a result of constant innovation and technical expertise, particularly, in the field of critical care.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India, the FEMA, the Consolidated FDI Policy and the circulars and notifications issued thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as the Department of Industrial Policy and Promotion) (“**DPIIT**”), issued the FDI Policy, which, with effect from October 15, 2020 consolidated, subsumed and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. The FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy is permitted up to 100% of the paid-up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Issue.

### Foreign Exchange Laws

The foreign investment in our Company is governed by, *inter-alia*, the FEMA, the FEMA Non-debt Instruments Rules, the FDI Policy issued and amended by way of press notes.

Under the Consolidated FDI Policy, 100% foreign direct investment is permitted in our Company under the automatic route. Subject to conditions specified in the FDI Policy, up to 100% foreign investment under the automatic route is currently permitted in “pharmaceuticals” (greenfield), while up to 74% foreign investment under the automatic route is currently permitted in “pharmaceuticals” (brownfield), with approval under the government route for any foreign investment beyond such threshold.

Further, in terms of the FEMA Non-debt Instruments Rules, the aggregate FPI investment limit is the sectoral cap applicable to Indian company as prescribed in the FEMA Non-debt Instruments Rules with respect to its paid-up equity capital on a fully diluted basis. See “*Issue Procedure*” on page 270.

In terms of the FEMA Non-debt Instruments Rules and the FDI Policy, a person resident outside India may make investments into India, subject to certain terms and conditions, and further provided that an entity of a country, which shares land border with India or where the beneficial owner of an investment into India, who is situated in or is a citizen of any such country, shall invest only with the approval of the Government of India. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the above restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Issue Period.

**The above information is given for the benefit of the Bidders. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the applicable limits under laws or regulations.**

**The Equity Shares have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are only being offered and sold (i) within the United States to U.S. QIBs pursuant to the private placement exemption set out in Section 4(a)(2) of the U.S. Securities Act, and (ii) outside the United States in offshore transactions in reliance on Regulation S and the applicable laws of the jurisdiction where those offers and sales occur.**
