Industry publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness are not guaranteed and their reliability cannot be assured. Although we believe that industry data used in this Red Herring Prospectus is reliable, it has not been independently verified. Similarly, internal Company reports, while believed by us to be reliable, have not been verified by any independent sources.

Further the extent to which the market and industry data presented in this Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward-looking statement.

Important factors that could cause actual results to differ materially from our expectations include, among others:

- Our failure to keep pace with changes in technology;
- Increased competition in our Industry;
- Competition from international and domestic companies;
- Our ability to attract and retain talented personnel;
- Any disruption in hand Power Distribution Industry;
- Failure to obtain any applicable approvals, licenses, registrations and permits in a timely manner;
- Higher interest outgo on our loans;
- Our ability to successfully implement our growth strategy and expansion plans;

- Other factors beyond our control;

For a further discussion of factors that could cause our actual results to differ, refer to section titled “*Risk Factors*” and chapter titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on pages 25 and 195 respectively. By their nature, certain market risk disclosures are only estimating and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date. Neither we, our Directors, Underwriter, Merchant Banker nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

SECTION II – SUMMARY OF OFFER DOCUMENT

SUMMARY OF OUR BUSINESS

We are one of the growing manufacturers of Copper and Aluminium Winding Wires in India having over twenty years of experience in manufacturing of winding wires.

Divine Power Energy Limited is a manufacturer of Bare Copper/ Aluminium Wire, Bare Copper/ Aluminium Strip, Winding Copper/ Aluminium Wire, Winding Copper / Aluminium Strip. Winding wires / strips are manufactured by annealing and insulating wires / strips and covering them with paper, cotton, fiberglass etc. Winding wires/ strips covered with paper, crepe paper and cotton are sold to power distribution companies and transformer manufacturers to manufacture transformers and also to fix normal wear and tear. In the previous calendar year our company started manufacturing wires / strips covered with fiberglass which are used in manufacturing electromagnetic coils, like the one used in lifting magnets which are used to lift heavy objects like containers, machinery etc. The Company has supplied wires / strips covered with fiberglass to markets like Punjab, Bengaluru, Ahmedabad. In the recent past the Company has started trading in super enamelled wires and strips in an effort to cater customer demand and remain competitive.

Our Company mainly sells winding wires to the power distribution companies and transformer manufacturers. Transformers play a critical role in power distribution by regulating the voltage from generation source to the consumer end. The transformer steps up the voltages to higher voltages before transmission at the generator, reducing the power loss during transmission and steps down the higher voltage to lower as required before transmitting the power to the end user. One of the critical components of a transformer is its coil which plays the role of converting electric energy to magnetic energy and then to electric energy, and changes the voltage and current at the same time. The coil is made from winding the wires in a given ratio as per the capacity and ability of the transformer. Our Company manufactures winding wires by insulating bare conductors (wires / strips of copper/ aluminium) by paper, cotton, super enamel, fiberglass etc. which are used to make coils of the transformers. Therefore, making our product indispensable for manufacturing transformers and hence power transmission and distribution.

For more details, please refer chapter titled “*Our Business*” beginning on page 122.

SUMMARY OF OUR INDUSTRY

We operate primarily in manufacturing copper and Aluminium Winding Wires which are mainly sold to transformer manufacturers. We primarily serve power distribution industry. Our products are used to manufacture transformers, motors, servo invertors etc. For more details, please refer chapter titled “*Industry Overview*” beginning on page 99.

SECTION-III

RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Red Herring Prospectus when available, particularly the “*Our Business*”, “*Our Industry*” “*Restated Financial Statements*” and related notes thereon and “*Management Discussions and Analysis of Financial Condition and Results of Operations*” on page 122, 99, 187 and 195 respectively and the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse impact on our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition may be adversely affected, the price of the Equity Shares could decline, and you may lose all or part of your investment.

In making an investment decision, as prospective investors, you must rely on your own examination of us and the terms of the Issue, including the merits and the risks involved. You should consult your tax, financial, legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. To obtain a complete understanding of our business, you should read this section in conjunction with the sections titled “*Our Industry*”, “*Our Business*”, and “*Restated Financial Statements*” beginning on pages 99, 122 and 187, respectively, as well as the other financial and statistical information contained in this Red Herring Prospectus.

This Red Herring Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the considerations described in this section and elsewhere in this Red Herring Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the Issue, including the merits and the risks involved. You should not invest in this Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Ind As, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- While certain events may not be considered material on an individual basis, their significance may become apparent when assessed collectively.
- Some events may exert a significant qualitative impact rather than a quantitative one.
- Although some events may not be deemed material currently, they could potentially have a significant impact in the future.

Internal Risk Factors

1. *Our business is working capital intensive. Our inability to meet our working capital requirements may have adverse effect on our results of operations. Further, failure to manage our inventory could also have adverse effect on our sales, profitability, cash flow and liquidity.*

Our business is working capital intensive and requires a significant amount of working capital for smooth functioning. Summary of our working capital position based on the financial statement is given below:

(Rs. In Lakhs)

The Company relies on working capital mainly to finance its debtors and inventory. Following table shows the working capital cycle of the Company:

(In Days)

Particulars	Year Ended		
	March 31, 2024	March 31, 2023	March 31, 2022
Debtor Cycle	34	67	63
Inventory Cycle	81	76	83
Creditor Cycle	5	10	15
Working Capital Cycle	110	133	131

A significant amount of working capital is required to finance the purchase of raw materials and trade receivables. For further information, kindly refer Objects of the Issue on page no. 77.

We meet our working capital requirements majorly through banking facilities, net worth and internal accruals. In future, our inability, if any, to meet our working capital requirements or inability to renew our existing working capital limits through banking arrangements, can adversely impact our business operations and financial position.

We require a significant amount towards working capital requirements which is based on certain assumptions, and accordingly, any change of such assumptions would result in changes to our working capital requirements. A significant amount of working capital is required to finance the purchase of raw materials and trade receivables. As a result, we may continue to avail debt in the future to satisfy our working capital requirements. Our working

capital requirements may increase if we undertake larger or additional order from Customers or if payment terms do not include advance payments or such contracts have payment schedules that shift payments toward the end of a project or otherwise increase our working capital burden.

2. The Company is dependent on few suppliers for purchase of product. Loss of any of these large suppliers may affect our business operations.

Our top ten suppliers contribute 70.93%, 73.21% and 81.53% of our total purchase from operations for the financial year ended on March 31, 2024, 2023 and 2022, respectively. We cannot assure that we will be able to get the same quantum and quality of supplies, or any supplies at all, and the loss of supplies from one or more of them may adversely affect our purchases of stock and ultimately our revenue and results of operations. However, the composition and amount of purchase from these suppliers might change as we continue seek new suppliers for our product for better quality and price in the normal course of business. The details of contribution of top suppliers in purchase of total purchase is given below:

Particulars	% contribution to total purchases		
	For the year ended March 31, 2024	For the year ended March 31, 2023	For the year ended March 31, 2022
Top 1 Supplier	16.33	14.74	18.86
Top 3 Supplier	34.35	40.05	45.50
Top 5 Supplier	50.26	52.74	61.90
Top 10 Supplier	70.93	73.21	81.53

Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new suppliers, there can be no assurance that we will be able to maintain long term relationships with such suppliers or find new suppliers in time.

3. The Company is dependent on few numbers of customers for sales. Loss of any of this large customer may affect our revenues and profitability.

Our top ten customers contribute 68.47%, 62.05% and 61.53% of our total revenue from operations on standalone basis for financial year ended on March 31, 2024, 2023 and 2022, respectively. Our Company is engaged in the business of Manufacturing of Copper and Aluminium winding wires. Our business operations are highly dependent on our customers and the loss of any of our customers may adversely affect our sales and consequently on our business and results of operations. The table set forth below states contribution of Top 1/3/5/10 customers in our total revenue from operations:

Particulars	% contribution to Revenue from operations		
	For the year ended March 31, 2024	For the year ended March 31, 2023	For the year ended March 31, 2022
Top 1 Customer	29.61	33.45	32.60
Top 3 Customer	48.13	43.55	42.07
Top 5 Customer	57.39	51.16	50.48
Top 10 Customer	68.47	62.05	61.53

The loss of one or more of these significant or key customers or a reduction in the amount of business we obtain from them could have an adverse effect on our business, results of operations, financial condition and cash flows. We cannot assure you that we will be able to maintain historic levels of business and/or negotiate and execute long term contracts on terms that are commercially viable with our significant customers or that we will be able to significantly reduce customer concentration in the future. Any decline in our quality standards, growing competition and any change in the demand, may adversely affect our ability to retain them. We cannot assure that we shall generate the same quantum of business, or any business at all, and the loss of business from one or more of them may adversely affect our revenues and results of operations.

However, the composition and revenue generated from these customers might change, as we continue to add new customers in the normal course of business. Though we believe that we will not face substantial challenges in maintaining our business relationship with them or finding new customers, there can be no assurance that we will be able to maintain long term relationships with such customers or find new customers in time.

4. ***We do not have firm commitment agreements with our customers. If our customers reduce their purchases from us or choose not to source their requirements from us, there may be an adverse effect on our business, results of operations, financial condition and cash flows.***

We do not have firm commitment with our customers and instead rely on purchase orders issued by them that set out the price for the products to be procured from us. The success of our business relies on sustained relationships with our customers. Our company lacks long-term contracts or marketing tie-ups for our products, and we have not designated exclusive agents for our operations. Any shifts in the purchasing behaviour of our end users or the disassociation of major customers could negatively impact our business. The loss or interruption of work by a significant customer, a group of significant customers, or the inability to secure new orders regularly or at all may adversely affect our revenues, cash flows and operations.

5. ***Our business is dependent and will continue to depend on our manufacturing facilities, and we are subject to certain risks in our manufacturing process. Any slowdown or shutdown in our manufacturing operations or strikes, work stoppages or increased wage demands by our employees that could interfere with our operations could have an adverse effect on our business, financial condition and results of operations.***

We conduct our operations through manufacturing facility, located at Sahibabad (Uttar Pradesh). Our manufacturing facility operate as a continuous process and our business is dependent upon our ability to manage our manufacturing facility, which are subject to various operating risks, including those beyond our control, such as the breakdown, failure of equipment or industrial accidents, severe weather conditions and natural disasters. Any significant malfunction or breakdown of our machinery, equipment, reactors, automation systems, IT systems or any other part of our manufacturing processes or systems (together, our “Manufacturing Assets”) may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair Manufacturing Assets in a timely manner or at all, our operations may need to be suspended until we procure the appropriate Manufacturing Assets to replace them. In addition, we may be required to carry out planned and unplanned shutdowns of our facilities for maintenance, statutory inspections, customer audits and testing, or may shut down certain facility for capacity expansion and equipment upgrades.

As of the date of filing of this red herring prospectus, we have a total of 40 employees. The success of our operations hinges on the availability of labour and maintaining positive relationships with our workforce. Potential strikes or lockouts arising from disputes with our labour force could detrimentally impact our operations. While we haven't encountered any work stoppages due to labour disputes or cessation of work in the past three fiscal years, we cannot guarantee the absence of such events in the future. The occurrence of strikes or lockouts has the potential to disrupt our operations and could materially adversely affect our business, financial condition, and results of operations.

Although we have not experienced any significant disruptions at our manufacturing facility in the past three years (save in respect of the COVID-19 pandemic), we cannot assure you that there will not be any disruptions in our operations in the future save and except during a force majeure situation like we have witnessed during covid. Our inability, if any, to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shutdown of our operations or the under-utilization of our manufacturing facilities, which in turn may have an adverse effect on our business, financial condition and results of operations.

6. ***Our cost of production is exposed to fluctuations in the prices of raw material particularly Copper Rod, Aluminium Rod and insulating material like paper, cotton and fiber glass our Company has not entered into any agreement with respect to long-term supply for raw materials required.***

The major raw material used are copper rod, aluminium rod and insulating material like paper, cotton and fiber glass and raw material consumption contribution is 91.85%, 86.60% and 104.24% of revenue from operations for financial year ended March 31, 2024, 2023 and 2022 respectively. Based on restated financial statements, our industry, particularly the prices of copper and aluminium, is subject to high fluctuations. Additionally, factors influencing these prices, whether directly or indirectly, are beyond our Company's control. We primarily procure our raw materials from the spot market and have not established any long-term supply agreements with our suppliers. Consequently, we face the risks associated with compensating for or passing on the increased cost of raw materials due to price fluctuations to our customers.

If we choose to pass on the rise in the cost of raw materials to our customers by increasing the prices of our products, aiming to maintain historical margins, there is a risk of our products becoming unaffordable for a specific demographic segment. Upward fluctuations in raw material prices can thereby directly or indirectly impact our margins, posing a significant risk to our profitability and resulting in a material adverse effect on our business, financial condition, and results of operations.

7. ***The industry segments in which we operate being fragmented, we face competition from other players, which may affect our business operational and financial conditions.***

The market for our products is characterized by competition, involving both organized and unorganized players. Players in this industry generally compete with each other on key attributes such as technical competence, quality of products, various products line, customer base, pricing and timely delivery. Some competitors boast longer industry experience and possess greater financial, technical, and overall resources, enabling them to adapt swiftly to changing market dynamics and sustain competitiveness.

Some of our listed peers are Shera Energy Limited, Bhagyanagar India Limited, Rajnandini Metal Limited, Ram Ratna Wires Limited and Precision Wires India Limited. Owing to their size, scale and industry experience we face stiff competition from them. Some of the peers have deep pockets which may limit our capability to cater growing demand in the industry and fund ever evolving technological advancements. In addition, we operate in the industry where there are many players both in organised and unorganised space which operate locally in a limited scale which makes competition stiff and limits our profit margins.

Furthermore, the unorganized sector often offers products at highly competitive prices that we may struggle to match, potentially impacting our sales volume and growth prospects. The intensification of competition may lead to a reduction in our market share and could influence our profit margins, thereby adversely affecting our business operations and financial condition.

8. ***We have in the past entered into transactions with related parties and may continue to do so in the future. These or any future related party transactions may potentially involve conflicts of interest and there can be no assurance that we could not have achieved better terms, had such arrangements been entered into with unrelated parties.***

We have entered into related party transactions with our Promoters, Promoters Group, Group Entities and Directors. For details of these transactions, please refer “Annexure 36 – Restated Summary Statement of Related Party Transactions” under section titled “Restated Financial Statements” on page no. F-31. We have taken the permission of Board & shareholders for such transactions under the Companies Act, 2013.

All the related party transactions carried out by the Company in the past are in compliance with the Companies Act, 2013 and other applicable provisions at that time.

Although all related-party transactions that we may enter into are on an arm's length basis and are subject to approval by our Audit Committee, Board or shareholders, as required under the Companies Act, 2013 and the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as

amended (“SEBI Listing Regulations”), we cannot assure you that such transactions in the future, individually or in aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Such related-party transactions in the future may potentially involve conflicts of interest which may be detrimental to the interest of our Company and we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of our minority shareholders and will not have an adverse effect on our business, financial condition, cash flows and results of operations. There can also be no assurance that any dispute that may arise between us and related parties will be resolved in our favour.

Following are the Related Party Transactions:

(Rs. In Lakhs)

Particulars	Year ended March 31, 2024	% of total Income	Year ended March 31, 2023	% of total Income	Year ended March 31, 2022	% of total Income
Related Party Transactions during the year	301.03	1.35	1,592.27	10.56	1,521.31	12.38

For details of the related party transactions, as per the requirements under AS see ‘Related Party Disclosures’ issued by the Institute of Chartered Accountants of India and as reported in the Restated Financial Statements, see “Restated Financial Information – Restated Summary Statement of Related Party Disclosure” beginning on page no. F-31.

9. ***Our Company has reported certain negative cash flows from its operating activities, financing activities and investing activities, details of which are given below. Sustained negative cash flow could impact our growth and business***

We have experienced both positive and negative cash flows. The below table sets forth details of our cash flows for the specified periods indicated:

(Rs. In Lakhs)

Particulars	Fiscal Ended March 31, 2024	Fiscal Ended March 31, 2023	Fiscal Ended March 31, 2022
Net cash flows generated from operating activities	(282.08)	190.82	471.78
Net cash flows (used in) investing activities	(241.53)	(414.91)	(161.38)
Net cash flows (used in)/generated from financing activities	525.45	255.32	(352.59)
Net increase/(decrease) in cash and cash equivalents	1.84	31.23	(42.20)

Negative cash flows over extended periods, or significant negative cash flows in the short term, could materially impact our ability to operate our business and implement our growth plans. As a result, our business, financial condition and results of operations could be materially and adversely affected. For further details, see sections titled “Restated Financial Information” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 187 and 195, respectively.

10. ***We are subject to strict quality requirements, regular inspections and audits by our customers, and any failure to comply with quality standards may lead to cancellation of existing and future orders and could negatively impact our business, financial condition and results of operations.***

We face an inherent business risk of exposure to product defects and subsequent liability claims if the use of any of our products results in personal injury or property damage. We and our component suppliers may not be able to meet regulatory quality standards, or the quality standards imposed by our customers and applicable to our manufacturing processes, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. We are also required to obtain material approvals and certifications for product

quality verification. Further, our manufacturing facilities are subjected to rigorous quality control checks, accreditation requirements, and periodic inspections from various regulatory agencies that have issued us product and system certifications. If any of our products do not meet regulatory standards or are defective, we may be, inter alia, (i) responsible for damages relating to any defective products, (ii) required to replace, recall or redesign such products, (iii) incur significant costs to defend any such claims or (iv) restricted to produce or market such products to our customers.

The failure by us or any of our suppliers to achieve or maintain compliance with regulatory requirements or quality standards may disrupt our ability to supply products sufficient to meet demand until compliance is achieved or, with a component supplier, until a new supplier has been identified and evaluated. The quality of raw materials will have an impact on the quality of the finished products and in turn affect our brand image, business and revenue. There is no assurance that our products will always meet the satisfaction of our customers' quality standards. Our component supplier's failure to comply with applicable regulations could cause adverse consequences to be imposed on us, including warning letters, fines, injunctions, civil penalties, the refusal of regulatory authorities to grant approvals, delays, suspensions or withdrawal of approvals, license revocation, seizures or recalls of products, operating restrictions and criminal prosecutions, all of which could harm our business. There can be no assurance that if we need to engage new suppliers to satisfy our business requirement, we will be able locate new suppliers in compliance with regulatory requirements in a timely manner, or at all. Failure to do so could lead to the cancellation of existing and future orders and have a material adverse effect on our business and revenue. There is no guarantee that any future failure to comply with quality standards will not have a material adverse impact on our business, financial condition, results of operations, cash flows, and prospects.

11. In our audited financial statements, our Company did not make any provision for gratuity payment as required under The Payment of Gratuity Act 1972. However, in the Restated Financial Statements, the impact of provision for gratuity payment on the Profits earned by the company has been shown in Annexure-6 "Restated Summary Statement of Reconciliation of Restated Profit/ (Loss) To Profit/ (Loss) as per Audited Financial Statements".

Gratuity is a lump sum that a company pays when an employee leaves an organisation and this is one of the many retirement benefits offered by a company to an employee. Currently, the Payment of Gratuity Act, 1972 (the Gratuity Act) is applicable to employees engaged in factories, mines, oilfields, plantations, ports, railway companies, shops or other establishments with ten or more employees. Gratuity is fully paid by the employer, and no part comes from an employee's salary. The Accounting Standard stipulates that present value of obligations with respect to the retirement benefits to be paid to the employees should be accounted in the books on accrual basis.

As per the Actuarial Certificate, issued by TransValue Consultants, for the periods covered in this Red Herring Prospectus, we may derive that the impact of the provision of gratuity on the Financial Statements on yearly basis is not material. The same has been disclosed below –

Particulars	For the year ended March 31,		
	2024	2023	2022
Profit / (Loss) after Tax (as per audited financial statements) (i)	641.28	285.08	84.95
Add/(Less) : Adjustments on account of -			
Provision for Gratuity	0.92	0.19	12.90
Tax Adjustments on above	(0.23)	(0.05)	(3.25)
Previous period Tax adjustments	-	-	(5.21)
Total Adjustments (ii)	0.69	0.14	4.44
Restated Profit/ (Loss) (i+ii+iii)	640.59	284.94	80.51

We further confirm that the provision of gratuity shall be made in all the future audited financial statements, wherever applicable.

12. Our Company has not made provision for Gratuity Payment as required under The Payment of Gratuity Act 1972. The company has not complied with AS-15- Employee Benefits as Issued by ICAI.

The Accounting Policy followed by us is not in conformity with the Accounting Standard prescribed by the Institute of Chartered Accountants of India, regarding disclosure of Present Value of Obligations with respect to the retirement benefits to be paid to the employees. The Accounting Standard stipulates that these liabilities should be accounted in the Books on Accrual Basis. However, our company has made the suitable adjustments for the above in the restated financial statements.

13. Our Company profit margins are affected by the prices of Copper and Aluminium owing to their cyclical nature.

Our primary raw material is Copper and Aluminium rods which are used to manufacture winding wires and strips. As Copper and Aluminium are commodities whose prices are linked to the global demand and other factors such as global economic growth, geopolitics etc., the cost of our raw material affects in the same direction. The cyclical nature of commodities affects the cost of our raw material and so our profit margins. The cost of material consumed is Rs. 20,398.83, Rs. 13,040.66 Lakhs and Rs. 12,768.67 Lakhs for F.Y 2024, 2023 and 2022, which is 91.85%, 86.60% and 104.24% respectively, of the revenue from operations for the same period. The profit margin in the same period was 2.88%, 1.89% and 0.66% respectively. The commodities prices are an important factor for our profitability, and any upward change in the commodity prices may affect us negatively.

14. The Company debt-to-equity ratio has remained above 2 in the past three Financial Years and for the stub period.

The Company debt-to-equity ratio was 2.26, 2.49 and 3.58 for the year ended March 31, 2024, March 31, 2023 and March 31, 2022. The Company higher debt-to-equity ratio is mainly attributable to higher working capital requirements. The Company has working capital cycle of 110 days, 133 days and 131 days for the year ended March 31, 2024, March 31, 2023 and March 31, 2022. The Company relies on working capital mainly to finance its debtors and inventory. Following table shows the working capital cycle of the Company:

(In Days)

Particulars	Year Ended		
	March 31, 2024	March 31, 2023	March 31, 2022
Debtor Cycle	34	67	63
Inventory Cycle	81	76	83
Creditor Cycle	5	10	15
Working Capital Cycle	110	133	131

Despite higher operating cycle the Company has strike the balance with growth and profitability owing to efficient management of working capital in the past. The Company profitability may suffer due to increase in interest rates, default by debtors, effect on demand due to micro and macro economic conditions etc. In future, there can be no assurance of steady growth in profits considering the business environment in which the Company operates.

15. Our business is largely concentrated in two states (“States”) and is affected by various factors associated with these states.

Geographical revenue distribution from these two states for the preceding three financial years are as under:

(Rs. In Lakhs)

State	FY 2023-24	%*	FY 2022-23	%*	FY 2021-22	%*
Uttar Pradesh	8,768.61	39.19	5,522.02	35.58	4,624.42	37.74
Punjab	6,896.37	31.20	5,032.14	34.03	4,241.73	34.62

*% of total revenue from operations.

This concentration of our business in these states are subjects us to various risks, including but not limited to:

- regional slowdown in manufacturing activities;
- vulnerability to change of policies, laws and regulations or the political and economic environment of States;
- constraint on our ability to diversify across states;
- laws regulating the generation, storage, handling, use and transportation of material;

Any such adverse development affecting continuing operations at our manufacturing facilities could result in significant loss due to an inability to meet customer contracts and production schedules, which could materially affect our business reputation within the industry. The occurrence of or our inability to effectively respond to, any such events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects. Further, continuous addition of industries in and around our manufacturing facilities without commensurate growth of its infrastructural facilities may put pressure on the existing infrastructure therein, which may adversely affect our business.

16. Compliance with and changes in safety, health and environmental laws and regulations may adversely affect our business, prospects, financial condition and results of operations.

Considering the nature of our business, we anticipate being subject to extensive and increasingly stringent health, and safety regulations, along with various labour, workplace, and related laws. Additionally, environmental laws and regulations govern the discharge, emission, storage, handling, and disposal of substances resulting from our business operations. The evolving landscape of environmental regulations, including their potential impact on our operations, remains unpredictable. Consequently, the costs and management time required to comply with these evolving requirements could be substantial.

Potential amendments to existing statutes may introduce additional provisions for our company to follow, necessitating incurring clean-up and remediation costs, as well as expenses related to damages, fines, penalties, closure of production facilities due to non-compliance, and other liabilities leading to litigation. These factors have the potential to adversely affect our business, prospects, financial condition, and results of operations.

17. Failure or disruption of our information technology systems may adversely affect our business, financial condition, results of operations, cash flows and prospects.

We depend on information technology systems and accounting systems to support our business processes, including designing, planning, execution, procurement, inventory management, quality control, product costing, human resources and finance. Although these technology initiatives are intended to increase productivity and operating efficiencies, they may not achieve such intended results. These systems may be potentially vulnerable to outages due to fire, floods, power loss, telecommunications failures, natural disasters, computer viruses or malware, break-ins and similar events. Effective response to such disruptions or malfunctions will require effort and diligence on the part of our third-party distribution partners and employees to avoid any adverse effect to our information technology systems.

Modernization and technology upgradation is essential to provide better services to customers. Although, we strive to keep our technology in line with the latest standards, we may be required to implement new technology or upgrade the existing technology employed by us. Further, the costs in up grading our technology could be significant as compared to the one that our competitors might have in place in terms of costs, efficiency and timely delivery of the final products.

Any failure in overhauling or updating our information technology systems in a timely manner could cause our operations to be vulnerable to external attacks and inefficient. Hence, any failure or disruption in the operation of these systems or the loss of data due to such failure or disruption (including due to human error or sabotage) may affect our ability to conduct our normal business operations, which may materially adversely affect our business, financial condition, results of operations, cash flows and prospects. In addition, technological advances from time to time may result in our systems, methods or processing facilities becoming obsolete.

There is no assurance that we will not experience disruption in our information technology systems in the future and we will be able to remedy such disruption in timely manner, or at all. Any such disruption of our information technology systems could have a material adverse effect on our business, results of operation and financial condition.

18. Our Company is dependent on third party transportation providers for transportation of raw materials and finished goods. Accordingly, any increase in transportation costs or unavailability of transportation services for our products or transportation strikes may have an adverse effect on our business.

Our Company is engaged in manufacturing of copper and aluminium wires products and our manufacturing facility situated at Sahibabad (Uttar Pradesh). We procure raw materials from domestic suppliers. Also, our finished goods are sold and delivered to various locations across the country. Though our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on our business. Most of the raw material and finished products are transported to and from our manufacturing unit by third party transportation providers. Transportation strikes could have an adverse effect on our receipt of goods and our ability to deliver our products to our customers. Non-availability of trucks and pickup trucks could also adversely affect receipt of goods and the delivery of our products. Further, disruptions of transportation services due to weather-related problems, strikes, lock-outs, inadequacies in the road infrastructure, or other events could impair ability to procure raw materials on time. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

19. Our success largely depends upon the knowledge and experience of our Promoters, Directors and our Key Management Personnel/Senior Management as well as our ability to attract and retain personnel with technical expertise. Any loss of our Promoters, Directors, Key Management Personnel/Senior Management or our ability to attract and retain them and other personnel with technical expertise could adversely affect our business, financial condition and results of operations.

Our success largely depends upon the knowledge and experience of our Promoters, Directors and our Key Management Personnel/Senior Management as well as our ability to attract and retain skilled personnel. Any loss of our Promoters, Directors and Key Management Personnel/Senior Management or our inability to attract and retain them and other skilled personnel could adversely affect our business, financial condition and results of operations. We depend on the management skills and guidance of our Promoters and Directors for development of business strategies, monitoring their successful implementation and meeting future challenges. Further, we depend on the expertise, experience and continued efforts of our Key Management Personnel/Senior Management. Our future performance will depend largely on our ability to retain the continued service of our management team. If one or more of our Key Management Personnel/Senior Management are unable or unwilling to continue in his or her present position, it could be difficult for us to find a suitable or timely replacement and our business, financial condition and results of operations could be adversely affected.

In addition, we may require a long period of time to hire and train replacement personnel when personnel with technical expertise terminate their employment with us. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting and retaining personnel with technical expertise that our business requires.

There is significant competition for management and other skilled personnel, and it may be difficult to attract and retain the personnel we require in the future. There can be no assurance that our competitors will not Issue better compensation packages, incentives and other perquisites to such skilled personnel. In the event that we are not able to attract and retain talented employees as required for conducting our business, or if we are unable to motivate and retain existing employees, our business, financial condition and results of operations may be adversely affected. For further information, see “*Our Management*” on page 160.

20. *Company does not have any Order Book, mainly accept order through phone calls & emails, which could adversely affect our results of operations.*

The substantial portion of the Company order book is recorded through informal means such as phone calls and emails. These orders are accepted in the normal course of business mainly due to past business relationships and trust benefits with the clients. This practice is common and widely accepted among small and medium-sized companies in our industry, the order book of the Company for any given period is not ascertainable and cannot be measured accurately. However, Company maintains the record in the form of order book register.

Due to the reliance on informal means for a substantial portion of our orders, predicting the Company's future revenue with precision is challenging. There is no guarantee regarding the accuracy of revenue projections based solely on the order book. Nevertheless, the Company has demonstrated consistent growth in the past and anticipates similar performance in the future. Any delay, cancellation or payment default could have a material adverse effect on our business, results of operations & financial condition.

We have not experienced any delay due to any internal factors or mismatch of order recorded in past. Further, no assurance can be given that this will not be happen in future.

21. *We could be harmed by employee misconduct or errors that are difficult to detect and any such incidences could adversely affect our financial condition, results of operations and reputation.*

Misconduct by our employees or executives could bind us to transactions that exceed authorised limits, present unacceptable risks or involve us in unauthorised and unlawful activities without our knowledge, which may result in penalties, damage to our reputation and loss of business from our customers. Employee or executive misconduct could also involve the improper use or disclosure of confidential information, which could also result in serious reputational and financial harm, including harm to our brand. Further, the precautions taken and systems put in place to prevent, detect and deter such activities may not be effective in all cases and could have an adverse effect on our business, results of operations, financial condition and cash flows.

22. *If we are unable to source business opportunities effectively, we may not achieve our financial objectives.*

Our ability to achieve our financial objectives will depend on our ability to identify, evaluate and accomplish business opportunities. To grow our business, we will need to hire, train, supervise and manage new employees, expand our distribution network and to implement systems capable of effectively accommodating our growth. However, we cannot assure you that any such employees will contribute to the success of our business or that we will implement such systems effectively. Our failure to source business opportunities effectively could have a material adverse effect on our business, financial condition and results of operations. It is also possible that the strategies used by us in the future may be different from those presently in use. No assurance can be given that our analyses of market and other data or the strategies we use or plans in future to use will be successful under various market conditions.

23. *Any negative publicity or defect in product quality may cause the Company substantial costs which in turn could adversely affect our goodwill and our sales could be diminished.*

Our business, like any other, heavily depends on the quality of our products, playing a pivotal role in establishing trust with our customers. Maintaining a positive company image is paramount in this context. Unfavourable publicity, whether concerning our company, brand, provided facilities, or unexpected events, has the potential to impact our reputation and operational results.

Additionally, defective products may result in damage claims against us. Currently, we lack product liability insurance covering our products. While we strive to uphold quality standards, ensuring the uniform quality of all our products cannot be guaranteed. Any deviation in quality may adversely affect the value of our brand, potentially leading to reduced sales if associated with negative publicity.

24. *We are required to maintain certain licenses, approvals, registrations, consents and permits in the ordinary course of business. Failure to obtain the requisite approvals result in non-compliance and therefore, affect our business operations, financial condition, result of operations and prospects.*

We require certain statutory and regulatory registrations, permits, licenses and approvals to operate our business, such as registration and licenses issued under the Factories Act for our manufacturing facility, fire safety licenses from fire safety authorities, Registration Certificate of Establishment under Delhi Shops & Establishment Act, 1954, registration certificates issued under various labour laws, including contract labour registration certificates and licenses as well as various taxation related registrations, such as registrations for payment of GST and service taxes. Additionally, our licenses, permits and approvals impose certain terms and conditions that require us to incur significant costs and restrict certain of our business activities. We cannot assure you that our approvals, licenses, permits and registrations may not be revoked or suspended in the event of any non-compliance with any terms or conditions set forth thereof.

In the future, we will be required to regularly renew permits, licenses and approvals for our business, and to obtain new permits, licenses and approvals for any proposed expansion. While we will endeavour to renew or obtain such permits, licenses and approvals as required, we cannot assure you that the relevant authorities will issue any such approvals within our anticipated timeframe or at all.

Further, we cannot assure you that the legal framework, licensing and other regulatory requirements or enforcement trends in the industries and jurisdictions in which we operate will not further change in a manner that makes it more costly or difficult to renew or obtain the statutory and regulatory permits, licenses and approvals we require to operate our business, or that we will be successful in responding to such changes. Moreover, as we grow our business, the requirements for obtaining new licenses, approvals and authorisations will also increase. If we lose or are otherwise unable to maintain any of our required licenses, registrations, permits and approvals under the applicable laws and regulations, our business operations may be adversely affected which in turn could have an adverse effect on our results of operations, financial condition and cash flows. For further details, please see the section titled “*Government and Statutory Approvals*” on page 211 for more details, including such approvals for which applications are pending before relevant authorities.

25. *We have not entered into any formal arrangement for technical support service for maintenance and smooth functioning of our equipment's and machineries, which may affect our performance.*

Our Manufacturing process involve daily use of technical equipment's and Machineries. They require periodic maintenance checks and technical support in an event of technical breakdown or malfunctioning. Our Company has not entered into any formal technical support service agreements with a competent third-party vendor. However, Company has an in-house team for maintenance and advancement of machinery. Our Failure to reduce the downtime in as such events occur may adversely affect our productivity, business and result of operations.

26. *Our Key Management Personnel i.e. Company Secretary & Compliance Officer is associated with the Company less than one year.*

Our Key Management Personnel namely Ms. Swati Bansal (Company Secretary & Compliance Officer) have been appointed at the current designation in the Company within one year prior to the date of this Red Herring Prospectus. For details of Key Management Personnel and their appointment, please refer to chapter “*Our Management*” beginning on page 160.

However, our Chief Financial Officer, Mr. Sujeet Kumar Saxena joined our Company as an Account Manager in 2006 & has been in our Company for more than 17 years. He is currently appointed as Chief Financial Officer of the Company.

27. *Our success depends on our ability to execute our growth strategies. If we are unable to sustain or manage our growth, our business, results of operations, cash flows and financial condition may be adversely affected.*

We are embarking on a growth strategy that involves steps aimed at expanding our business and establishing leadership position for our winding wires segment in India, enhancing our geographical footprint of our winding

wires segment, capitalizing on the market opportunity in winding wires segment, including through innovation and product development to expand our product portfolio, growing and developing productivity and operational efficiencies and enhancing our environmental initiatives. For further details, see “*Our Business*” on page 122.

Our future growth may place significant demands on our management and operations and require us to continuously evolve and improve our financial, operational and other internal controls within our Company. In particular, continued expansion may pose following challenges:

- delays and cost overruns as a result of a number of factors, many of which may be beyond our control, such as unavailability of timely supplies of equipment and technologies;
- maintaining high levels of project control and management, and client satisfaction;
- recruiting, training and retaining sufficient skilled management, technical and bidding personnel;
- developing and improving our internal administrative infrastructure, particularly our financial, operational, communications, internal control and other internal systems;
- making accurate assessments of the resources we will require;
- adhering to the standards of health, safety and environment and quality and process execution to meet clients’ expectations;
- inadequate infrastructure and logistics for the delivery of our products;
- operating in jurisdictions and business segments where we have limited experience;
- preserving a uniform culture, values and work environment;
- shortage of raw materials or our inability to source for sufficient inventory;
- strengthening internal control and ensuring compliance with legal and contractual obligations;
- managing relationships with clients, suppliers, contractors, investors, lenders and service providers; and
- Supporting infrastructure such as IT and HR management systems.

If we are not successful in managing our growth, our business may be disrupted and profitability may be reduced. Our business, prospects, financial condition and results of operations may be adversely affected.

28. *Our Company may not completely utilise the Net Proceeds of the Issue for the objects stated in FY 2024-25.*

Our Company proposes to deploy the entire Net Proceeds towards the objects as described above during FY 2024-25. However, if the Net Proceeds are not completely utilised for the objects stated in Red Herring Prospectus in FY 2024-25 due to factors such as (i) economic and business conditions; (ii) increased competition; (iii) market conditions outside the control of our Company and its management; and (iv) other commercial considerations such as availability of alternate financial resources, the same would be utilised (in part or full) in a subsequent period as may be determined by our Company in accordance with applicable law. For further details on the use of the Issue Proceeds, please refer chapter titled “*Objects of the Issue*” beginning on page 77.

29. *We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further we have not identified any alternate source of financing the ‘Objects of the Issue’. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.*

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our

part to raise money from this Issue or any shortfall in the Issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled “Objects of the Issue” beginning on page 77.

30. Our manufacturing capacity may not reach their installed capacity and we may also be unable to effectively utilize our expanded manufacturing capacities.

In period ending F.Y. 2023-24, 2022-23 and 2021-22, our Installed capacity and capacity utilization was as under:
(In Metric Tonnes)

Capacity Utilisation	March 31, 2024	March 31, 2023	March 31, 2022
Installed Capacity	8,400	7,500	7,500
Actual Production	4,188	2,925	3,600
% Utilization	49.86%	39.00%	48.00%

The under-utilisation of installed capacity is mainly due to higher working capital requirement in our business as evident from the table provided below. The Company needs to fund the revenue growth by offering longer credit period to its debtors and maintaining higher inventory to support the incremental growth in the revenue. The working capital requirement of the Company is directly proportional to the growth in the topline. The Company strive to maintain the balance between the growth and profitability.

(in days)

Particulars	Year Ended		
	March 31, 2024	March 31, 2023	March 31, 2022
Debtor Cycle	34	67	63
Inventory Cycle	81	76	83
Creditor Cycle	5	10	15
Working Capital Cycle	110	133	131

Other than working capital requirement, our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility as well as on the market demand of the products sold by us. Among others, the capacity utilization also depends upon the availability of raw materials, labour, industry/ market conditions and procurement practice followed by our customers. In the event we are unable to achieve considerable capacity utilization of our current manufacturing facility, it would result in operational inefficiencies which could have a material adverse effect on our business, results, financial condition and future prospects. Under-utilization of our manufacturing capabilities over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance.

31. There have been some instances of delayed filing of records and returns required to be filed by the Company with various regulatory authorities.

There have been some instances of delayed filing by the Company in respect of the filings required to be made with regulatory authorities, including filings under Companies Act. Till date, the Company has not received any notices from authority, however, there can be no assurance that the regulator may not initiate proceedings against us or that we will be able to sufficiently defend against any action initiated by regulators in relation to regulatory compliances for all instances and periods. Any adverse order passed or penalty imposed by regulators on us may adversely affect our business and results of operations.

The company has paid additional fee for the late filing of few forms such as DIR-12, MGT-14, PAS-3, CRA-2 and CRA-4. The details are as under:

S. No.	Form	ROC Fee	Penalty
For F.Y. 2023-24			
1	Form DIR-12 (Appointment of CS)	600	2400

2	Form MGT-14 (Appointment of CS)	600	2400
3	Form CRA-2 (Appointment of Cost Auditor for F.Y. 2023-24)	600	1200
4	Form PAS-6	600	3600
For F.Y. 2022-23			
1	Form MGT-14	600	1200
2	Form DPT-3 for F.Y. 2022-23	600	6000
3	Form PAS-3	600	1200
4	Form MGT-14	600	1200
5	Form CRA-2 (Appointment of Cost Auditor for F.Y. 2022-23)	400	1600
For F. Y. 2021-22			
1	Form CRA-2 (Appointment of Cost Auditor for F.Y. 2021-22)	400	4800
2	Form CRA-4 (Filing of Cost Audit Report for F.Y. 2021-22)	600	7200
For F. Y. 2020-21			
1	Form CRA-2 (Appointment of Cost Auditor for F.Y. 2020-21)	400	4800
Total Penalty Paid			34,000

However, this is to confirm that as on date, all the requisite e-forms have been filed with additional fee wherever applicable and approval for such e-forms, wherever applicable, has been received from the Registrar of Companies, Delhi. There has been no condonation of delay in filing of forms in past five financial years. The company has taken the cognizance of late filings of e-forms and designated the company secretary and compliance officer to take necessary actions for future filings.

32. *We operate in a labour-intensive industry and are subject to stringent labour laws and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees could adversely affect our business, financial condition, results of operations and cash flows.*

Our manufacturing processes are labour intensive in nature. In the summer months or during the harvesting season, a significant portion of our labour force return to their hometowns for summer holiday and/or to assist their families in the harvesting of crops, resulting in a temporary labour shortage which may affect the production in our manufacturing facilities. Further, if we or our contractors are unable to negotiate with the labour or their sub-contractors, it could result in work stoppages or increased operating costs due to higher than anticipated wages or benefits.

There can be no assurance that we will not experience any strike or work stoppage in the future. In addition, work stoppages or slowdowns experienced by our customers or key suppliers could result in slow-downs or closures of our units. If we or one or more of our customers or key suppliers experience a work stoppage, such work stoppage could have an adverse effect on our business, financial condition, cash flows and results of operations.

During periods of shortages in labour, we may not be able to manufacture our products according to our previously determined time frames, at our previously estimated product costs, or at all, which may adversely affect our business, results of operations, cash flows and reputation.

We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes financial obligations on employers upon retrenchment. If labour laws become more stringent, it may become more difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

33. *We have significant power and fuel requirements and any disruption to power sources could increase our production costs and adversely affect our results of operations and cash flows.*

We require substantial power and fuel for our manufacturing facility, and our energy costs represent a significant portion of the production costs for our operations. Also, being in high volume and low margin business, increase in power and fuel cost may affect our profit margins negatively. For Fiscals 2022, 2023 and 2024, our power and fuel expenses were Rs. 84.87 Lakh, Rs. 93.00 Lakh and Rs. 106.12 Lakh constituting 0.70%, 0.64%, and 0.49%, respectively, of our total expenses. If energy costs were to rise, or if electricity supplies or supply arrangements

were disrupted, our profitability could decline. Energy prices can be affected by numerous factors beyond our control, including global and regional supply and demand, carbon taxes, inflation, political and economic conditions and applicable regulatory regime.

We source most of our electricity requirements for our manufacturing facilities from local power suppliers or state electricity boards. If our electricity suppliers increase the price for electricity, our cost of production and profitability would be materially adversely affected. Further, natural disasters or adverse conditions may occur in the geographical areas in which we operate including severe weather, tropical storms, floods, excessive rainfalls as well as other events beyond our control. If for any reason electricity is not available, we may need to shut down our plants until an adequate supply of electricity is restored. Interruptions of electricity supply can also result in production shutdowns, increased costs associated with restarting production and the loss of production in progress.

34. We regularly work with hazardous materials and activities in our operation which can be dangerous and could cause injuries to people or property.

Our business requires individuals to work under potentially dangerous circumstances or with flammable materials. For example, if improperly handled in production of winding wires and moving machineries such as stranding machines can seriously hurt or even kill employees or other persons, and cause damage to our properties and the properties of others. Despite compliance with requisite safety requirements and standards, our operations are subject to significant hazards, including explosions, fires, mechanical failures and other operational problems, discharges or releases of hazardous substances, chemicals or gases and other environmental risks.

These hazards can cause personal injury and loss of life or destruction of property and equipment as well as environmental damage. In addition, the loss or shutting down of our facilities resulting from any accident in our operations could disrupt our business operations and adversely affect our results of operations, financial condition and reputation. We could also face claims and litigation filed on behalf of persons alleging injury predominantly due to occupational exposure to hazards at our facilities. If these claims and lawsuits, individually or in the aggregate, are resolved against us, our business, financial condition, results of operations and cash flows could be adversely affected.

35. Improper storage, processing and handling of our raw materials, work products and products could damage our inventories and, as a result, have an adverse effect on our business, results of operations and cash flows.

We typically store our raw materials, work-in-progress, stock in trade and finished goods in covered warehouses. In the event that our raw materials, work products and products are improperly stored, processed and handled, the quality our raw materials, such as copper and aluminium could be reduced and our work products could be damaged. As a result, our production outputs could be adversely affected, which could have a material adverse effect on our business, financial condition, results of operations and cash flows.

36. In the Financial Year 2022-2023, the Statutory Auditor underwent two changes.

During the Financial Year 2023-2024, the Statutory Auditor was changed twice due to casual vacancies. The former auditor, M/s Vijay Mukesh & Co., resigned on April 17, 2023, and M/s SNMG & Co. was appointed to fill the casual vacancy on May 16, 2023. Subsequently, a second casual vacancy occurred when M/s SNMG & Co. resigned on July 31, 2023, and VAPS & Co. was appointed on August 01, 2023, for the financial year 2022-2023.

We cannot guarantee that there will be no changes in the statutory auditor in the future or any occurrence of a casual vacancy.

37. Our Independent director does not hold expertise in our business field.

Our Independent director, namely Mr. Vikram Grover and Ms. Deepika Gaur are working as Practicing Company Secretaries, and hence does not have experience in the industry in which Our Company operate, which may have an impact on performance of our Independent Directors. However, independent directors have vast experience in the area of Corporate Governance as Company Secretary. Company Secretaries are considered as the guardian of

Corporate Governance in the corporate world. Appointing Practicing Company Secretaries as our Independent directors gives us greater assurance of good Corporate Governance.

38. *Our Company has availed unsecured loans from banks and other financial institutions, which may be recalled on demand.*

For Fiscals 2024, 2023 and 2022, we have outstanding unsecured loan (excluding interests accrued) amounting to Rs. 31.17 Lakh, Rs. 459.01 Lakh and Rs. 758.01 Lakh, respectively as unsecured loans from directors and promoters and short-term Channel Financing from financial institutions, which are repayable on demand. These loans are not repayable in accordance with any agreed repayment schedule and may be recalled by the relevant lender at any time. In such cases, we may be required to repay the entirety of the unsecured loans together with accrued interest. We may not be able to generate sufficient funds at short notice to be able to repay such loans and may resort to refinancing such loans at a higher rate of interest and on terms not favourable to it. Failure to repay unsecured loans in a timely manner may have a material adverse effect on our business, results of operation financial condition and cash flow. For further details of our unsecured loans, please refer the section titled “*Financial Information*” beginning on page 187.

39. *Our insurance coverage may not be adequate to protect us against all potential losses, which may have a material adverse effect on our business, financial condition, cash flows and results of operations.*

Our operations are subject to various risks and hazards inherent in the manufacturing business, including breakdowns, failure or substandard performance of equipment, third party liability claims, labour disturbances, employee fraud and infrastructure failure, as well as fire, theft, robbery, earthquake, flood, acts of terrorism and other force majeure events. We have obtained insurance policies in relation to plant and machinery, burglary, stocks and finished goods. In addition, we have also obtained directors’ and officers’ liability insurance.

There are possible losses, which we may not have insured against or covered or wherein the insurance cover in relation to the same may not be adequate. If we were to incur a serious uninsured loss or a loss that significantly exceeds the limits of our insurance policies, it could have a material adverse effect on our business, financial condition, results of operations and cash flows. For details, *see “Our Business – Insurance”* on page 133.

We may not have identified every risk, and further may not be insured against every risk, including operational risks that may occur, and the occurrence of an event that causes losses more than the limits specified in our policies, or losses arising from events or risks not covered by insurance policies or due to the same being inadequate. Any of the above could materially harm our financial condition and future results of operations and cash flows. There can be no assurance that any claims filed will be honoured fully or in a timely fashion under our insurance policies. In addition, we may not be able to renew certain of our insurance policies upon their expiration, either on commercially acceptable terms or at all.

40. *Our Directors and Promoters may engage in the same line of business with Group Entities, which could give rise to actual or potential conflicts of interest with our business.*

The interests of our Directors or Promoters may conflict with the interests of our other Shareholders due to their involvement in other group entities that may compete with our business or may benefit from preferential treatments when doing business with our Company. Our Directors, or Promoters, as applicable, may, for business considerations or otherwise, in transactions with other group Companies where they have interest, cause our Company to take actions, or refrain from taking actions, in order to benefit themselves instead of our Company’s interests or the interests of its other Shareholders and which may be harmful to our Company’s interests or the interests of our other Shareholders, which may materially adversely impact our business, financial condition, results of operations and cash flows.

Certain companies or firms controlled by our Promoters deals in our products directly from our Company. Conflicts of interest may arise when we sell our products to such Group Company at lower prices, or give it any other form of preferential treatment. In cases of conflict, our Promoters, who will continue to retain majority

shareholding in our Company (directly and indirectly) subsequent to the Issue, may favour other companies in which our Promoter has interests. There can be no assurance that our Promoters or any company controlled by our Promoters will not compete with our existing business or any future business that we may undertake or that their interests will not conflict with ours. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations, cash flows and financial condition. For details, see “**Group Entities**” on page 180.

41. The determination of the Price Band is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchanges. Further, the current market price of some securities listed pursuant to initial public offerings which were managed by the Book Running Lead Manager in the past, is below their respective issue prices.

The determination of the Price Band and discount, if any, is based on various factors and assumptions, and will be determined by our Company in consultation with the Book Running Lead Manager. Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the Book Running Lead Manager through the Book Building Process. These will be based on numerous factors, including those described under “Basis for Issue Price” on page 87, and may not be indicative of the market price of the Equity Shares upon listing on the Stock Exchange. The price of our Equity Shares upon listing on the Stock Exchange will be determined by the market and may be influenced by many factors outside of our control. Further, the current market price of securities listed pursuant to certain previous initial public Issue managed by the Book Running Lead Manager is below their respective issue prices. For further details, see “Other Regulatory and Statutory Disclosures – Price information of past issues handled by the Book Running Lead Manager” on page 215.

42. Our Promoters and Promoter Group will continue to retain a majority shareholding in our Company after the Issue, which will allow them to exercise significant influence over us.

After the completion of the Issue, our Promoters and Promoter Group is expected to hold 73.50 % of our outstanding Equity Shares. Further, the involvement of our Promoters in our operations, including through strategy, direction and customer relationships have been integral to our development and business and the loss of any of our Promoters may have a material adverse effect on our business and prospects.

Accordingly, our Promoters and Promoter Group will continue to exercise significant influence over our business and all matters requiring shareholders’ approval, including the composition of our Board of Directors, the adoption of amendments to our constitutional documents, the approval of mergers, strategic acquisitions or the sales of substantially all of our assets, and the policies for dividends, investments and capital expenditures. This concentration of ownership may also delay, defer or even prevent a change in control of our Company and may make some transactions more difficult or impossible without the support of our Promoters and Promoter Group. Further, the Promoters’ shareholding may limit the ability of a third party to acquire control. The interests of our Promoters and Promoter Group, as our Company’s controlling shareholder, could conflict with our Company’s interests, your interests or the interests of our other shareholders. There is no assurance that our Promoters and Promoter Group will act to resolve any conflicts of interest in our Company’s or your favour.

43. The average cost of acquisition of Equity Shares by our Promoters and Selling Shareholder could be lower than the floor price.

Our Promoters average cost of acquisition of Equity Shares in our Company may be lower than the Floor Price of the Price Band as may be decided by the Company and Selling Shareholder in consultation with the Book Running Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter titled “Summary of Issue Document” and “Capital Structure” beginning on pages 19 and 64 respectively.

44. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done

on terms and conditions, which may not be favourable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

45. *There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.*

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our finances. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the Designated Stock Exchange and shall also simultaneously make the material deviations/ adverse comments of the audit committee public.

46. *If we are unable to raise additional capital, our business prospects could be adversely affected.*

We intend to fund our development plans through our internal accruals, cash flow from operations and working capital from banks. We will continue to incur significant expenditure in maintaining and growing our existing manufacturing infrastructure. We cannot assure you that we will have sufficient capital resources for our current operations or any future expansion plans that we may have. While we expect our internal accruals and cash flow from operations to be adequate to fund our existing commitments, our ability to incur any future borrowings is dependent upon the success of our operations. Additionally, the inability to obtain sufficient financing could adversely affect our ability to complete expansion plans. Our ability to arrange financing and the costs of capital of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from banks, investor confidence, the continued success of our operations and other laws that are conducive to our raising capital in this manner. If we decide to meet our capital requirements through debt financing, we may be subject to certain restrictive covenants. If we are unable to raise adequate capital in a timely manner and on favourable terms, or at all, our business, results of operations, cash flows and financial condition could be adversely affected.

47. *In addition to normal remuneration, other benefits and reimbursement of expenses some of our Directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoters) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our Directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our Directors will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our Directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our Directors will always act to resolve any conflicts of interest in our favour, thereby adversely affecting our business and results of operations and prospects.

48. *Third party industry and statistical data in this Prospectus may be incomplete, incorrect or unreliable.*

Neither Book Running Lead Manager nor we have independently verified the data obtained from the official and industry publications and other sources referred in this Red Herring Prospectus and therefore, while we believe them to be true, there can be no assurance that they are complete or reliable. Such data may also be produced on different bases from those used in the industry publications we have referenced. The discussion of matters relating to India, its economy and our industry in this Red Herring Prospectus are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete or unreliable. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections,

forecasts and assumptions that may prove to be incorrect. While industry sources take due care and caution while preparing their reports, they do not guarantee the accuracy, adequacy or completeness of the data or report and do not take responsibility for any errors or omissions or for the results obtained from using their data or report. Accordingly, investors should not place undue reliance on, or base their investment decision on this information.

49. *Any Penalty or demand raised by statutory authorities in future will affect our financial position of our Company.*

Our Company is engaged in business of manufacturing of winding wires, which attracts tax liability as per the applicable provisions of Law. We are also subject to the labour laws like depositing of contributions with Provident Fund. Though, we have deposited the required returns under various applicable Acts but any demand or penalty raised by the concerned authority in future for any previous year and current year will affect the financial position of our Company.

50. *Our ability to pay dividends in the future will depend upon our future earnings, financial condition, cash flows, working capital requirements, capital expenditure and restrictive covenants in our financing arrangements.*

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations financial condition, cash requirements, business prospects and any other financing arrangements.

Additionally, we may not be permitted to declare any dividends under the loan financing arrangement that our Company may enter into future, if there is a default under such loan agreements or unless our Company has paid all the dues to the lender up to the date on which the dividend is declared or paid or has made satisfactory provisions thereof.

Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value.

51. *After the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.*

An active trading market on the Stock Exchange may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares shall be determined through a book-building process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

52. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.*

In terms of the SEBI (ICDR) Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of

any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price of the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

53. *A third party could be prevented from acquiring control of our Company because of anti-takeover provisions under Indian law.*

As a listed Indian entity, there are provisions in Indian law that may delay or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions require certain compliances, such as undertaking an open Issue, which may prevent a potential acquirer from attempting to take control of our Company. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, it is possible that such a takeover would not be attempted or consummated.

54. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Issue.*

The Equity Shares will be listed on the SME platform of National Stock Exchange of India Limited ("NSE Emerge"). Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. After the Basis of Allotment is approved by the Designated Stock Exchange, the Company undertakes the Allotment and the demat account of the Allottees with depository participants in India are credited with the Equity Shares. The Allotment of Equity Shares in this Issue, the credit of such Equity Shares to the applicant's demat account with depository participant and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchange is expected to complete within Three working days of the Issue Closing Date (or such other period as prescribed under applicable laws). There could be a failure or delay in listing of the Equity Shares on the Stock Exchange. Any failure or delay in obtaining the approval or otherwise commence trading in the Equity Shares would restrict investors' ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors' demat accounts, or that trading in the Equity Shares will commence, within the time periods as specified herein. We could also be required to pay interest at the applicable rates if allotment is not made, unblocking intimation/ refund intimation, as applicable are not dispatched or demat credits are not made to investors within the prescribed time periods.

55. *The requirements of being a publicly listed company may strain our resources.*

We are not a publicly listed company and have not, historically, been subjected to the compliance requirement or the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the SEBI Listing Regulations, which will require us to file audited annual and unaudited half yearly reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies.

Further, as a publicly listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management attention will be required. As a result, our management's attention may be diverted from our business concerns, which may adversely affect our business, prospects, results of operations and financial condition. In addition, we may need to hire additional legal

and accounting staff with appropriate experience and technical accounting knowledge, but we cannot assure you that we will be able to do so in a timely and efficient manner.

56. *There is no guarantee that the Equity Shares Issued pursuant to this Issue will be listed on the NSE – Emerge in a timely manner.*

We have applied to NSE to use the name of its SME platform “NSE-Emerge” as the Stock Exchange in this Issue document for listing our shares. In accordance with Indian law and practice, permission for listing and trading of the Equity Shares Issued pursuant to the Issue will not be granted until after the Equity Shares have been Issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a delay in listing the Equity Shares on the Stock Exchange. Any delay in obtaining the approval would restrict your ability to dispose of your Equity Shares

External Risk Factors

57. *Outbreaks of contagious diseases, such as the recent outbreak of COVID-19, may have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.*

India experienced multiple waves of COVID-19 which had impacted global supply chains and resulted in shortages of materials and components used in the manufacturing operations and an inability to meet the manufacturing targets and this impact continues till date. The COVID-19 pandemic had resulted in restrictions on travel and transportation and prolonged closures of workplaces, businesses and schools, with employees being asked to work from home and citizens being advised to stay at home. Consequently, there was a significant disruption in attendance at the manufacturing facilities.

There can be no assurance that any future outbreak of contagious diseases will not have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

58. *Changes in the Government Policy could adversely affect economic conditions in India generally and our business in particular.*

Our business, and the market price and liquidity of our Equity Shares, may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Elimination or substantial change of policies or the introduction of policies that negatively affect the Company’s business could cause its results of operations to suffer. Any significant change in India’s economic policies could disrupt business and economic conditions in India generally and the Company’s business in particular.

59. *A slowdown in economic growth in India could adversely affect our business, results of operations, financial condition and cash flows.*

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. Demand for our products may be adversely affected by an economic downturn in domestic, regional and global economies. Economic growth in the country in which we operate is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports of materials, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows.

60. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation is typically impacted by factors such as governmental policies, regulations, commodity prices, liquidity and global economic environment. Any change in the government or a change in the economic and deregulation policies could adversely affect the inflation rates. Continued high rates of inflation may increase our costs such as salaries, travel costs and related allowances, which are typically linked to general price levels. There can be no assurance that we will be able to pass on any additional costs to our clients or that our revenue will increase

proportionately corresponding to such inflation. Accordingly, high rates of inflation in India could have an adverse effect on our profitability and, if significant, on our financial condition.

61. *Taxes and other levies imposed by the Government of India or other State Governments, as well as other financial policies and regulations, may have a material adverse effect on our business, financial condition and results of operations.*

Taxes and other levies imposed by the Central or State Governments in India that affect our industry include STT, GST, income tax and other taxes, duties or surcharges introduced on a permanent or temporary basis from time to time. Imposition of any other taxes by the Central and the State Governments may adversely affect our results of operations.

62. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Capital gains arising from the sale of equity shares within 12 months in an Indian company are generally taxable in India. Any gain realised on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gain being long term capital gain amounting to upto one lakhs rupees provided Securities Transaction Tax (“STT”) is paid on the transaction. STT is levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realised on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and on which no STT has been paid, is subject to long term capital gains tax in India. Further, any gain realised on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of equity shares is exempt from taxation in India where an exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident.

Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable to pay tax in India as well as in their own jurisdiction on a gain on the sale of equity shares

63. *Natural calamities could have a negative impact on the Indian economy and cause our Company’s business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. in recent years. The extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

64. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India’s economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade the global equity markets as well generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company’s business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

DETAILS OF THE MARKET MAKING AGREEMENT

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by NSE and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

- ❖ The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange from time to time. Further, the Market Maker shall inform the exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
- ❖ The prices quoted by the Market Maker shall be in compliance with the Market Maker Spread requirements and other particulars as specified or as per the requirements of NSE Emerge and SEBI from time to time.
- ❖ The minimum depth of the quote shall be Rs.1,00,000. However, the investors with holdings of value less than Rs.1,00,000 shall be allowed to issue their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. [●]/- per share the minimum lot size is [●] Equity Shares thus minimum depth of the quote shall be [●] until the same, would be revised by NSE.
- ❖ After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Equity Shares of market maker in our Company reaches to 25%. Or upper limit (Including the 5% of Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% equity shares would not be taken into consideration of computing the threshold of 25%. As soon as the Shares of market maker in our Company reduce to 24%, the market maker will resume providing 2-way quotes.
- ❖ There shall be no exemption/threshold on downside. However, in the event the market maker exhausts his inventory through market making process, the concerned stock exchange may intimate the same to SEBI after due verification.
- ❖ On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. The securities of the company will be placed in Special Pre-Open Session (SPOS) and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity shares on the Stock Exchange.
- ❖ There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non- controllable reasons would be final.

- ❖ The Inventory Management and Buying/Selling Quotations and its mechanism shall be as per the relevant circulars issued by SEBI and NSE Emerge from time to time.
- ❖ Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
- ❖ There would not be more than five Market Makers for the Company's Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors.
- ❖ The shares of the company will be traded in continuous trading session from the time and day the company gets listed on NSE Emerge Platform and market maker will remain present as per the guidelines mentioned under NSE and SEBI circulars.
- ❖ There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
- ❖ The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.
- ❖ The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Company, who shall then be responsible to appoint a replacement Market Maker.
- ❖ In case of termination of the abovementioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Company to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI ICDR Regulations. Further the Company reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.
- ❖ Risk containment measures and monitoring for Market Maker: NSE Emerge Platform will have all margins which are applicable on the Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. NSE can impose any other margins as deemed necessary from time-to-time.
- ❖ Punitive Action in case of default by Market Maker: NSE Emerge will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two-way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.
- ❖ Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to Rs.250 Crores, the applicable price bands for the first day shall be:

- In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
- In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The price band shall be 20% and the Market Maker Spread (difference between the sell and the buy quote) shall be within 10% or as intimated by Exchange from time to time.

- ❖ The following spread will be applicable on the NSE Emerge:

9. Our Promoter Group, Directors and their immediate relatives have not purchased/sold Equity Shares of the Company during last 6 months:
10. Our Promoters have confirmed to the Company and the Lead Manager that the Equity Shares held by our Promoters have been financed from their personal funds or their internal accruals, as the case may be, and no loans or financial assistance from any bank or financial institution has been availed by them for this purpose.
11. There are no financing arrangements whereby the Promoter Group, the Directors of our Company and their relatives have financed the purchase by any other person of securities of the issuer other than in the normal course of the business of the financing entity during the period of six months immediately preceding the date of filing offer document with the Stock Exchanges.
12. Details of Promoter's Contribution locked in for three years:

As per sub-Regulation (1) of Regulation 236 of the SEBI (ICDR) Regulations, 2018, an aggregate of 20% of the post-Issue Capital shall be considered as Promoter's Contribution.

Our Promoters have given their consent to include such number of Equity Shares held by them as may constitute 20% of the post-issue Equity Share Capital of our Company as Promoter's Contribution and have agreed not to sell or transfer or pledge or otherwise dispose of in any manner, the Promoter's Contribution from the date of filing of this Red Herring Prospectus until the completion of the lock-in period specified above.

In terms of clause (a) of Regulation 238 of the SEBI (ICDR) Regulations, 2018, Minimum Promoter's Contribution as mentioned above shall be locked-in for a period of three years from the date of commencement of commercial production or date of allotment in the Initial Public Offer, whichever is later.

Explanation: The expression "date of commencement of commercial production" means the last date of the month in which commercial production of the project in respect of which the funds raised are proposed to be utilised as stated in the offer document, is expected to commence.

We further confirm that Minimum Promoter's Contribution of 20.00% of the post issue paid-up Equity Shares Capital does not include any contribution from Alternative Investment Fund.

The Minimum Promoter's Contribution has been brought into to the extent of not less than the specified minimum lot and has been contributed by the persons defined as Promoters under the SEBI (ICDR) Regulations, 2018.

The lock-in of the Minimum Promoter's Contribution will be created as per applicable regulations and procedure and details of the same shall also be provided to the Stock Exchange before listing of the Equity Shares.

Details of the Equity Shares to be locked-in for three years from the date of Allotment as Promoter's Contribution are set forth in the table below:

*Subject to finalization of Basis of Allotment.

The Equity Shares that are being locked in are not ineligible for computation of Promoter's contribution in terms of Regulation 237 of the SEBI ICDR Regulations. Equity Shares offered by the Promoters for the minimum Promoter's contribution are not subject to pledge. Lock-in period shall commence from the date of Allotment of Equity Shares in the Public Issue.

We confirm that the minimum Promoter's contribution of 20% which is subject to lock-in for three years does not consist of:

- Equity Shares acquired during the preceding three years for consideration other than cash and revaluation of assets or capitalisation of intangible assets;
- Equity Shares acquired during the preceding three years resulting from a bonus issue by utilisation of revaluation reserves or unrealised profits of the issuer or from bonus issue against equity shares which are ineligible for minimum Promoter's contribution;
- Equity Shares acquired by Promoters during the preceding one year at a price lower than the Issue Price;
- The Equity Shares held by the Promoters and offered for minimum 20% Promoter's Contribution are not subject to any pledge.
- Equity Shares for which specific written consent has not been obtained from the shareholders for inclusion of their subscription in the minimum Promoter's Contribution subject to lock-in.

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription "Non-Transferable" and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the Depository.

Equity Shares locked-in for one year other than Minimum Promoter's Contribution

In addition to the Promoter's Contribution that are locked-in for three years as the minimum Promoter's contribution, the promoter and public shareholding pre-issue Equity Share capital of our Company, shall be

locked in for a period of one year from the date of Allotment in the Public Issue. Further, such lock-in of the Equity Shares would be created as per the bye laws of the Depositories.

Lock-in of the Equity Shares to be allotted, if any, to the Anchor Investors

One half of the Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked in for a period of 90 days from the date of Allotment and the remaining Equity Shares allotted to Anchor Investors under the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

Inscription or recording of non-transferability

In terms of Regulation 241 of the SEBI ICDR Regulations, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription “Non-Transferable” and specify the lock - in period and in case such equity shares are dematerialized, the Company shall ensure that the lock - in is recorded by the Depository.

Pledge of Locked in Equity Shares

Pursuant to Regulation 242 of the SEBI ICDR Regulations, the locked-in Equity Shares held by our Promoters can be pledged with any scheduled commercial bank or public financial institution or systematically important non-banking finance company or a housing finance company as collateral security for loans granted by them, provided that:

- a. if the equity shares are locked-in in terms of clause (a) of Regulation 238, the loan has been granted to the company or its subsidiary(ies) for the purpose of financing one or more of the objects of the Offer and pledge of equity shares is one of the terms of sanction of the loan;
- b. if the specified securities are locked-in in terms of clause (b) of Regulation 238 and the pledge of specified securities is one of the terms of sanction of the loan.

Provided that such lock-in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock-in period stipulated in these regulations has expired.

Transferability of Locked in Equity Shares

- a. Pursuant to Regulation 243 of the SEBI ICDR Regulations, Equity Shares held by our Promoters, which are locked in as per Regulation 238 of the SEBI ICDR Regulations, may be transferred to and amongst our Promoters/ Promoter Group or to a new promoter or persons in control of our Company subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with SEBI SAST Regulations as applicable.
- b. Pursuant to Regulation 243 of the SEBI ICDR Regulations, Equity Shares held by shareholders other than our Promoters, which are locked-in as per Regulation 239 of the SEBI ICDR Regulations, may be transferred to any other person holding shares, subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with SEBI SAST Regulations as applicable.

FUND REQUIREMENTS

The fund requirement and deployment are based on internal management estimates of our Company and have not been verified by the Book Running Lead Manager or appraised by any bank or financial institution or any other external agency. They are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, costs of commodities and interest rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management.

We intend to utilize the proceeds of the Fresh Issue, in the manner set forth below:

(Rs. In lakhs)

Sr. No.	Particulars	Amount
1	Working Capital Requirement including margin money	1,800.00
2	General Corporate Purpose*	[●]
	Total	[●]

**The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.*

The requirements of the objects detailed above are intended to be funded from the Proceeds of the Issue. Accordingly, we confirm that there is no requirement for us to make firm arrangements of finance through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised from the proposed Issue.

The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. These are based on current conditions and are subject to change in light of changes in external circumstances or costs, other financial conditions, business or strategy, as discussed further below.

In case of variations in the actual utilization of funds allocated for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue. If surplus funds are unavailable, the required financing will be through our internal accruals and/or debt.

We may have to revise our fund requirements and deployment as a result of changes in commercial and other external factors, which may not be within the control of our management. This may entail scheduling, revising or cancelling the fund requirements and increasing or decreasing the fund requirements for a particular purpose from its fund requirements mentioned below, at the discretion of our management. In case of any shortfall, we intend to meet our estimated requirement from internal accruals and/or debt. In case of any such re-schedulement, it shall be made by compliance of the relevant provisions of the Companies Act, 2013.

For further details on the risks involved in our business plans and executing our business strategies, please see the section titled “*Risk Factors*” beginning on page 25.

Working Capital Increased	-	759.68	1,373.63	1,852.35
Change (%)	-	15.46%	24.21%	26.28%

Reason for high Inventories:

Apart from the above reasons, we manufacture the products as per the demand of the client & keep the finished goods with us, we deliver the finished goods to the client on advance payment mechanism, we usually keep inventories for average of 70-80 days to:

- protect our self from sudden jump in raw material prices especially Aluminium and Copper Rods, it also helps us to improve our margins and reduce the chances of loss due to price escalation,
- timely fulfil the orders

We usually procure raw material from NALCO, Hindalco, Birla Copper (Hindalco's copper division) and few other private players on every 3-5 days basis to stock sufficient raw material for smooth operations, as the pricing of aluminium and copper is so much dependent on international market & very important factor for Company's margins. As our sales increasing every year and to maintain that efficiency, we have to keep high inventory in the facility that helps us to manage the inventories effectively. It's usually takes 20-22 days to convert raw material into finished goods & transport the finished goods to the buyer.

Reason for high Trade receivables: -

Trade receivables have increased due to increase in sale of the Company.

Reason for increase in sales in past financial years are:

FISCAL 2024

Our revenue from operations increased by Rs. 6,641.69 lakhs or 47.48% to Rs. 22,208.00 lakhs for Fiscal 2024 as compared to Rs. 15,058.53 lakhs for Fiscal 2023. This increase in revenue from operations was primarily due to increased sales of our products resulting from a robust growth of domestic demand.

Our revenue from sales of finished goods increased by Rs. 7,149.47 lakhs or 47.48% to Rs. 20,329.69 lakhs for Fiscal 2024 as compared to Rs. 13,688.00 lakhs for Fiscal 2023. Further, our revenue from sale of traded goods increased by Rs. 653.92 lakhs or 59.56% to Rs. 1,751.86 lakhs for Fiscal 2024 from Rs. 1,097.94 lakhs in Fiscal 2023.

Our profit for the year increased by Rs. 355.65 lakhs or 124.82% to Rs. 640.59 lakhs for Fiscal 2024 compared to Rs. 284.94 lakhs for Fiscal 2023.

- **Addition of New Machineries:** In Fiscal 2024, the Company purchased one online annealer machine which cools the wires and strips simultaneously during the annealing process, which has allowed us to expand the production very efficiently. During the annealing process the metal is heated to improves the workability of a material, increasing toughness, reducing hardness and increasing the ductility and machinability of a metal. The online annealer machine cools the metal instantly as the metal comes out of the machine reducing the time to cool the metal almost to zero which earlier use to take hours. The online annealer machine has increased the efficiency and the ability to produce more in any given time.
- **Product Modifications:** In F.Y. 2024 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.
- **Utilization:** Our Capacity utilization for the Financial Year 2024 was 49.86% of the total capacity as compared to 39% in the previous Financial Year 2023. The higher utilization is attributable the robust domestic demand as evident from increase of revenue from sale of finished products. The revenue from sales of finished goods increased by Rs. 7,149.47 lakhs or 47.48% to Rs. 20,329.69 lakhs for Fiscal 2024 as compared to Rs. 13,688.00 lakhs for Fiscal 2023. Increase in revenue from operation has led to increase in profit owing to Economies of Scale and Operating Leverage.

FISCAL 2023

The Company's revenue from operations have increased by 22.94% or Rs. 2,809.44 Lakhs to Rs. 15,058.53 Lakhs for Fiscal 2023 as compared to Rs.12,249.09 Lakhs in Fiscal 2022, however profit after tax increased 216.18% or Rs. 194.91Lakh to Rs. 285.08 Lakh for Fiscal 2023 as compared to Rs.90.16 Lakhs in Fiscal 2022 due to the following reason:

- **Addition of New Machineries:** In Fiscal 2023, we purchased two Fiberglass Insulation Machines which helped us to expand our product mix. In F. Y 2023 we started selling fiberglass coated winding wires/ strips which have higher margins. The demand for such product is to make electromagnetic coils for lifting magnets which are used to lift heavy objects like containers, machinery etc. and have also purchased two Automatic Horizontal Paper Covering Machine which has resulted in increasing efficiency and automating the process of insulating wires/ strips with paper hence decreasing labour cost.
- **Product Modifications:** In F.Y. 2023 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.

FISCAL 2022

In Fiscal 2022 Company's revenue from operations have increased by 5.32% or Rs, 619.29 Lakhs to Rs. 12,249.09 Lakhs for Fiscal 2022 as compared to Rs. 11,629.83 Lakhs in Fiscal 2021, however profit after tax increased by 77.71% in same Fiscal due to the following reason:

- **Addition of New Machineries:** In F.Y. 2022 the Company purchased 3 Automatic Horizontal Paper Covering Machine which automated the process of insulating wires/ strips with paper, reducing the need for extensive human intervention. The said machines are equipped with sensors which control the entire process automatic, helping in increasing efficiency and lessening deployment of human asset. This has resulted in cost saving, as our Employee benefits expense decreased to Rs. 73.22 Lakhs in F.Y. 2022 from Rs. 82.99 Lakhs in F. Y. 2021.
- **Utilization:** Our Capacity utilization for the Financial Year 2022 was 48% of the total capacity as compared to 45% in the previous Financial Year 2021. In the same year we started producing fine wires which are

mainly used in small transformers. Fine copper wires are used in the transformers having capacity of 630 KVA whereas fine aluminium wires are used in the transformer having capacity of 10/25/63 KVA. In producing fine wires we require lesser metal as compared to the thick wires and more paper which cost less in comparison with the metal. Lesser metal requirement in fine wires is the primary reason for higher profit margins.

**To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Object, as per the estimated schedule of deployment specified above; our Company shall deploy the Net issue Proceeds in the subsequent Financial Years towards the Object. Due to general business exigencies, the use of issue proceeds may be interchangeable. However, the use of issue proceeds for general corporate purpose shall not exceed 25% at any point of time.

INTERIM USE OF PROCEEDS

Pending utilization for the purposes described above, we intend to deposit the funds with scheduled commercial banks included in the second schedule of Reserve Bank of India Act, 1934. In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for any investment in the equity markets. Our management, in accordance with the policies established by our Board of Directors from time to time, will deploy the Net Proceeds. Further, our Board of Directors hereby undertakes that full recovery of the said deposit shall be made without any sort of delays as and when need arises for utilization of proceeds for the objects of the issue.

BRIDGE FINANCING FACILITIES

Our Company has not raised any bridge loans from any bank or financial institution as on the date of this Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds. However, depending upon business requirements, our Company may consider raising bridge financing facilities.

MONITORING UTILIZATION OF FUNDS

Since the proceeds from the Fresh Issue do not exceed Rs. 10,000.00 Lakhs, in terms of Regulation 262 of the SEBI Regulations, our Company is not required to appoint a monitoring agency for the purposes of this Issue.

Our Board and the management will monitor the utilization of the Net Proceeds through its audit committee. Pursuant to Regulation 32 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, our Company shall on half-yearly basis disclose to the Audit Committee the applications of the proceeds of the Issue. On an annual basis, our Company shall prepare a statement of funds utilized for purposes other than stated in this Red Herring Prospectus and place it before the Audit Committee. Such disclosures shall be made only until such time that all the proceeds of the Issue have been utilized in full. The statement will be certified by the Statutory Auditors of our Company.

No part of the Issue Proceeds will be paid by our Company as consideration to our Promoters, our Directors, Key Management Personnel or companies promoted by the Promoters, except as may be required in the usual course of business and for working capital requirements.

VARIATION IN OBJECTS

In accordance with Section 13(8) and Section 27 of the Companies Act, 2013, our Company shall not vary the objects of the Initial Public Issue without our Company being authorized to do so by the Shareholders by way of a special resolution through a postal ballot. Further, pursuant to Regulation 32 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, our Company shall on half-yearly basis disclose to the Audit Committee the applications of the proceeds of the Issue. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution (“Postal Ballot Notice”) shall specify the prescribed details as required under the Companies Act. The Postal Ballot Notice shall simultaneously be published in the newspapers, one in English and one in Hindi, the vernacular language of the jurisdiction where our Registered Office is situated. Our Promoters will be required to provide an exit opportunity to such shareholders who do not agree to the above stated proposal, at a price as may be prescribed by SEBI, in this regard.

APPRAISAL BY APPRAISING AGENCY

None of the Objects have been appraised by any bank or financial institution or any other independent third-party organization. The funding requirements of our Company and the deployment of the proceeds of the Issue are currently based on available management estimates. The funding requirements of our Company are dependent on a number of factors which may not be in the control of our management, including variations in interest rate structures, changes in our financial condition and current commercial conditions and are subject to change in light of changes in external circumstances or in our financial condition, business or strategy.

OTHER CONFIRMATIONS

There are no material existing or anticipated transactions with our Promoters, our Directors, our Company’s key Managerial personnel and group entities, in relation to the utilization of the Net Proceeds. No part of the Issue Proceeds will be paid by our Company as consideration to our Promoters, our Directors, Key Management Personnel or company promoted by the Promoters, except as may be required in the usual course of business.

Reference - Initial Public Offer of Equity Shares by Divine Power Energy Limited.

We hereby confirm that the enclosed Annexure, prepared by **Divine Power Energy Limited** (“the Company”), provides the possible tax benefits available to the Company and to the shareholders of the Company under the Income-tax Act, 1961 (“the Act”) as amended by the Finance Act 2023, circular and notifications issued from time to time, i.e. applicable for the Financial Year 2024-25 relevant to the assessment year 2025-26, the Central Goods and Services Tax Act, 2017 / the Integrated Goods and Services Tax Act, 2017 (“GST Act”), as amended by the Finance Act 2023, circular and notifications issued from time to time, i.e., applicable for the Financial Year 2024-25 relevant to the assessment year 2025-26, presently in force in India (together, the “Tax Laws”). Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws. Hence, the ability of the Company and / or its shareholders to derive the tax benefits is dependent upon their fulfilling such conditions which, based on business imperatives the Company faces in the future, the Company or its shareholders may or may not choose to fulfil.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and do not cover any general tax benefits available to the Company. Further, the preparation of enclosed statement and the contents stated therein is the responsibility of the Company’s management. We are informed that, this Statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the proposed initial public offering of Equity shares (“the Issue”) by the Company.

We do not express any opinion or provide any assurance as to whether:

- a) The Company or its shareholders will continue to obtain these benefits in future; or
- b) The conditions prescribed for availing the benefits have been/ would be met.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Limitations:

Our views are based on facts and assumptions indicated to us and the existing provisions of tax law and its interpretations, which are subject to change or modification from time to time by subsequent legislative, regulatory, administrative, or judicial decisions. Any such changes, which could also be retrospective, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events

subsequent to its issue, which may have a material effect on the discussions herein. This report including enclosed annexure are intended solely for your information and for the inclusion in the Red Herring Prospectus/ Prospectus or any other issue related material in connection with the proposed initial public offer of the Company and is not to be used, referred to or distributed for any other purpose without our prior written consent.

This statement has been prepared solely in connection with the Proposed Offer by the Company under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended.

ANNEXURE TO THE STATEMENT OF POSSIBLE TAX BENEFITS

The information provided below sets out the possible special tax benefits available to the Company and the Equity Shareholders under the Act presently in force in India. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

YOU SHOULD CONSULT YOUR OWN TAX ADVISORS CONCERNING THE INDIAN TAX IMPLICATIONS AND CONSEQUENCES OF PURCHASING, OWNING AND DISPOSING OF EQUITY SHARES IN YOUR PARTICULAR SITUATION

A. SPECIAL TAX BENEFITS TO THE COMPANY:

The Company is not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

B. SPECIAL DIRECT AND INDIRECT TAX BENEFITS TO THE SHAREHOLDERS:

The Shareholders of the Company are not entitled to any special tax benefits under the Income Tax Act, 1961 and GST Act.

Note:

1. For the purpose of reporting here, we have not considered the general tax benefits available to the company or shareholders.
2. The above statement covers only certain relevant direct tax law benefits and indirect tax law benefits or benefit.
3. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to changes from time to time. We do not assume responsibility to update the views consequent to such changes. We shall not be liable to any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith or intentional misconduct. We will not be liable to any other person in respect of this statement.

We hereby give our consent to include our above referred opinion regarding the tax benefits available to the Company and to its shareholders in the Red Herring Prospectus/Prospectus.

SECTION VI – ABOUT THE COMPANY

INDUSTRY OVERVIEW

The information in this chapter has been extracted from the websites of and publicly available documents from various sources. The data may have been re-classified by us for the purpose of presentation. Neither we nor any other person connected with this Offer has independently verified the information provided in this chapter. Industry sources and publications, referred to in this chapter, generally state that the information contained therein has been obtained from sources generally believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured, and, accordingly, investment decisions should not be based on such information. You should read the entire this Prospectus, including the information contained in the sections titled “Risk Factors” “Our Business” and “Financial Statements as restated” and related notes beginning on page 25, 122 and 187 respectively before deciding to invest in our Equity Shares.

GLOBAL ECONOMIC OVERVIEW

The global economy displays strong signs of robustness with steady growth rates and the return of inflation to target levels as economic activity remained unexpectedly resilient during the disinflationary phase of 2022–23. After the supply-chain disruptions driven by the Covid-19 pandemic, the Russia-Ukraine conflict triggered a global energy and food crisis, along with an increase in inflation rates. This followed a globally-synchronised response of monetary policy tightening. In spite of several predictions of recession, the global economy managed to avoid it as the world’s banking system remained largely resilient. Further, the acceleration of inflation rates did not trigger uncontrolled wage-price spirals with global inflation cooling off almost as quickly as it went up.

Global Inflation Falling as Output Grows

Source: Haver analytics; and IMF staff calculations

Global growth bottomed out at the end of 2022 at 2.3% y-o-y, soon after median headline inflation peaked at 9.4%. According to the IMF’s latest projections, global growth is expected to hold steady in 2024 and 2025 around the 2023 estimated levels of 3.2%. Growth rates are expected to increase marginally for the advanced economies with the acceleration mainly reflecting a recovery in the euro area from low growth rates in 2023. Emerging market and developing economies, on the other hand, are expected to witness steady growth through 2025 but with regional differences. Advanced economies are projected to grow by 1.7% in 2024 and 1.8% in 2025 vs 1.6% in 2023. Growth is expected to be stable at 4.2% through 2025 in emerging market and developing economies,

with a moderation in emerging and developing Asia offset mainly by accelerating growth in the Middle East, Central Asia and sub-Saharan Africa. Growth in emerging and developing Asia is seen to decline from 5.6% in 2023 to 5.2% in 2024 and 4.9% in 2025. China is expected to witness a slowdown from 5.2% in 2023 to 4.6% in 2024 and 4.1% in 2025, driven by the easing of the positive effects of one-off factors including the post-pandemic boost to consumption and fiscal stimulus, as well as continued weakness in the property sector. India's growth is projected to remain strong at 6.8% in 2024 and 6.5% in 2025, enabled by continuing robust domestic demand and a rising working-age population.

Growth Outlook: Broadly Stable

(Percent; solid = April 2024 WEO, dashes = October 2023 WEO); Source: IMF staff calculations

Central banks in major economies started raising policy interest rates to restrictive levels to counter rising inflation in the aftermath of Covid-19. Consequently, mortgage costs increased and credit availability tightened, resulting in businesses facing difficulties in refinancing their debt, rising corporate bankruptcies, and slowed down business and residential investments in several economies. The combined effects of higher borrowing costs and a shift toward remote work since the pandemic resulted in the commercial real estate sector, including the office segment, coming under pressure in some economies, and led to rising defaults, lower investment, and a slide in valuations.

Nominal Policy Rates in Advanced Economies and Emerging Markets

Monetary Tightening: Nominal and Real

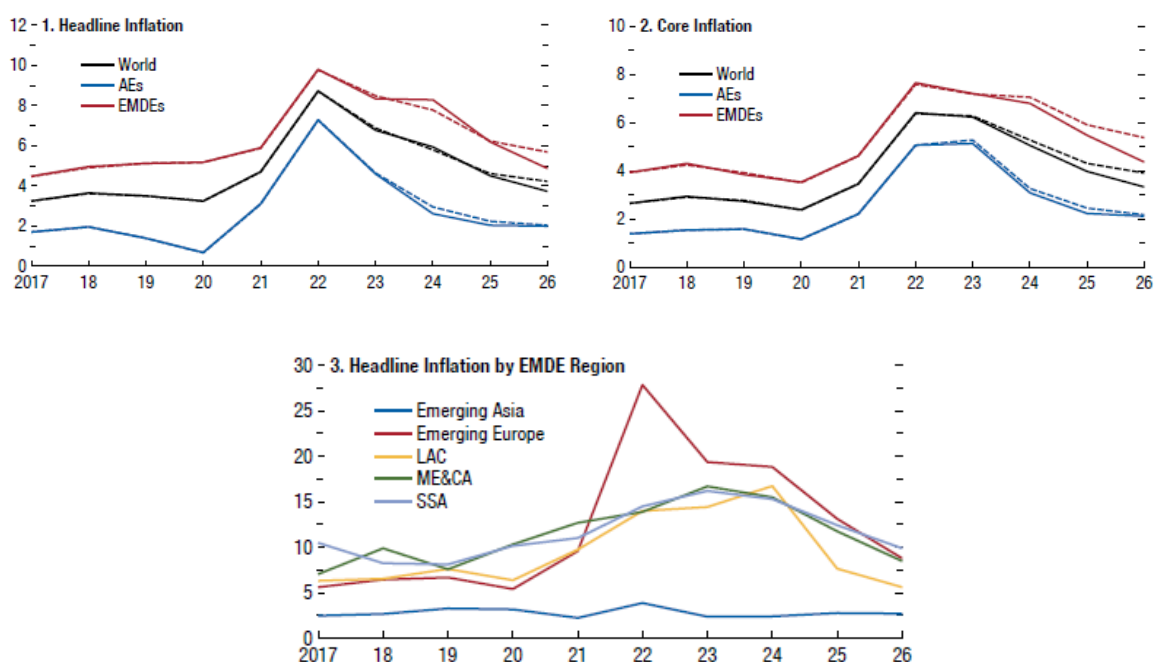

(Percent)

Source: Bank for International Settlements; Consensus Economics; Haver Analytics; and IMF calculations

In spite of widespread concerns, a global economic downturn driven by a sharp rise in policy rates did not materialise, with several factors preventing it. First, some central banks, including the European Central Bank and the Federal Reserve, raised their nominal interest rates after inflation expectations started to rise, keeping real interest rates lower than initially supported economic activity. The Bank of Japan continued to maintain policy rates near zero, leading to a steady decline in real rates. On the other hand, the central banks in Brazil, Chile and other emerging market and developing economies grouping raised rates relatively quickly, sending real interest rates higher. Second, households in major advanced economies were able to fall back on the savings accumulated during the pandemic to dampen the impact of higher borrowing costs on their spending. Third, changes in the housing and mortgage markets in the pre-pandemic decade of low interest rates curbed the impact of the recent rise in policy rates on household consumption in several economies. The near-term impact of rate hikes was moderated by the increase in average maturity and share of mortgages subject to fixed rates. That said, the degree of the monetary policy pass-through to mortgage and housing markets across economies has not been equal.

The fall in headline inflation since 2022 is attributable to the fading of energy and other relative price shocks and lower core inflation, with increased global energy supply and tight monetary policies resulting in a decline in energy prices. Core inflation declined due to the fading of pass-through effects from past shocks to headline inflation, as well as with easing of labour market pressures. The monetary tightening by central banks across major advanced economies during 2022–23 had a potentially strong role in lowering energy prices owing to its high degree of synchronisation and the associated effect on curbing world energy demand. Near-term inflation expectations are an important pass-through channel as they have declined toward target levels in advanced economies as well as emerging market and developing economies. However, measures of financial market-based inflation expectations have recently shown signs of a pickup in the US. Global headline inflation is seen to decline from an average of 6.8% in 2023 to 5.9% in 2024 and further to 4.5% in 2025. The decline will be more front-loaded in the advanced economies, with the inflation rate sliding by 2.0 percentage points in 2024. In 2025, only the emerging market and developing economies are expected to see a fall in inflation. Further, advanced economies are expected to return sooner to rates near their pre-pandemic (2017–19) average around 2.0% in 2025, with emerging market and developing economies set to return to their pre-pandemic average around 5.0% a year later.

Inflation Outlook: Falling

(Percent; solid = April 2024 WEO, dashes = October 2023 WEO)

Source: IMF staff calculations

The waning of global inflation in 2024 is attributable to a broad-based reduction in global core inflation. This is in contrast with 2023 when global core inflation fell marginally with the primary driver of the decline in headline inflation being fuel and food price inflation. Core inflation is expected to decline by 1.2 percentage points in 2024 compared to a 0.2 percentage point fall in 2023. The fall in both headline and core inflation is expected to be faster in the advanced economies. Although factors driving the decline in core inflation differ by country, they include continued tight monetary policies, a related softening of labour markets, and fading pass-through effects from earlier declines in relative prices, especially that of energy.

World trade is forecast to grow by 3.0% in 2024 and subsequently by 3.3% in 2025. Trade growth is seen to remain below its historical (2000–19) annual average rate of 4.9% over the medium term, at 3.2% in 2029. Basis this forecast, the ratio of total world trade to GDP (in current dollars) averages 57% over the next five years, broadly in line with the trend since the global financial crisis. In spite of the trade-to-GDP ratio remaining relatively steady, notable shifts in trade patterns are taking place with deepening of cleavages along geopolitical lines, especially since the beginning of the Russia-Ukraine conflict in February 2022 with growth in trade flows between geopolitical blocs having declined significantly since compared with growth of trade within blocs. Amidst rising cross-border trade restrictions, and increased concerns about supply-chain resilience and national security, there is a reallocation of trade flows across the globe. About 3,200 new trade restrictions came about in 2022 whilst another 3,000 were introduced in 2023, up from approximately 1,100 in 2019, according to Global Trade Alert data.

According to the IMF, the risk of a hard landing for the world economy has faded since the October 2023 edition of the World Economic Outlook (WEO) with risks to the global outlook now broadly balanced. On the downside, new price spikes driven by geopolitical tensions, including the Russia-Ukraine and Gaza-Israel conflicts, along with persistent core inflation in economies where labour markets tightness persists, could potentially push interest rate expectations up and resulting in a decline in asset prices. A divergence in the pace of disinflation amongst major economies could also lead to currency movements. The absence of a comprehensive response to the stress in the real estate sector could negatively impact growth in China with rub-off effects on the country's trading partners. Further geoeconomic fragmentation with higher barriers to the flow of goods, capital and people could lead to a supply-side slowdown. On the upside, if fiscal policies are more liberal than expected, they could raise economic activity in the short term, with the risk of making policy adjustment more costly. A faster-than-anticipated tapering-off of inflation with further gains in labour force participation will allow central banks to bring easing plans forward. Stronger-than-expected structural reforms and artificial intelligence could drive a rise in productivity.

As the world economy approaches a soft landing, the near-term priority for central banks is to ensure a normalised trajectory for inflation by avoiding both premature and delayed action in policy easing. Further, a less restrictive stance by central banks is expected to bring about a renewed focus on medium-term fiscal consolidation to regenerate capacity for budgetary manoeuvre and priority investments, and to ensure debt sustainability.

Differences across national economies call for bespoke policy responses. An intensification of supply-augmenting reforms will enable inflation and debt reduction, allow countries to increase growth toward the higher average prevailing in the pre-pandemic period, and accelerate convergence toward higher income levels.

INDIAN ECONOMIC OVERVIEW

The Indian economy closed FY24 strongly with its growth surpassing market expectations, despite strong external headwinds. Early indications suggest a continuation of the economic momentum during the first quarter of FY25. The emerging robust trends in important high-frequency indicators of growth like the GST collections, e-way bills, electronic toll collections, sale of vehicles, purchasing managers' indices and the value and number of digital transactions attest to the growing strength of the economy.

Industrial activity is gaining momentum. This is clear from improving industrial capacity utilisation and volume indicators like the Index of Industrial Production and Purchasing Managers' Index (PMI) for manufacturing. Concurrently, fixed investment is gathering pace on the back of the focus of the Government on capital spending and the resultant crowing in of private investment. The forward-looking surveys of the Reserve Bank also indicate improving consumer confidence and industrial outlook.

The job market trends are reassuring. While the urban unemployment rate declined y-o-y during the quarter ending March 2024, the labour force participation rate and worker-to-population ratio have improved. Formal jobs are rising, as indicated by the growing net payroll additions under the Employee Provident Fund Organisation.

Along with growth and employment, the other macroeconomic indicators are also improving. Retail inflation clocked 4.83% in April 2024, the lowest in the past 11 months. On the external front, despite global challenges, India's foreign exchange reserves are comfortable, and the Indian rupee has been one of the most resilient vis-à-vis the US dollar in recent months. From the fiscal angle, robust trends in the capital spending of the general government during April-February of FY24, combined with the fiscal consolidation plans reflected in the Budget for FY25, have laid to rest concerns about debt sustainability. Thus, the major pillars of India's macro-economic strength, including growth, price stability and fiscal management, are directionally positive and mutually reinforcing.

The unrelenting geopolitical tensions and volatility in global commodity prices, especially of petroleum products, present substantial multi-frontal challenges. Nonetheless, the expectation is that the macro-economic buffers nurtured and strengthened during the post-Covid management of the economy will help the Indian economy navigate these challenges reasonably smoothly.

FY25 started with a strong performance of domestic activity in April

Domestic economic activity remained buoyant in FY24, and the momentum has continued in FY25. GST collection jumped to a high of ₹ 2.1 lakh crore in April 2024. The strong uptick was driven by an increase in domestic transactions and imports. The average GST collections have also displayed a level shift upwards over the years due to heightened economic activity and a widening tax base. Among lead demand indicators, toll collection registered continued growth in April 2024. Electricity consumption also accelerated in April due to rising temperatures and increased industrial activity. Vehicle registrations surged in April 2024, led by two-wheelers on the back of stable fuel prices and a positive outlook for monsoon. However, on account of seasonality, e-way bill generation softened compared to March 2024, but registered strong growth compared to the corresponding month last year.

Resilient investment indicators

Investment activity continues to display stability despite ongoing geopolitical headwinds. As per the Second Advance Estimates of National Income released by the National Statistical Office (NSO), the Gross Fixed Capital Formation (GFCF) is expected to be the largest GDP growth driver in FY24, with a percentage contribution of 44.9%. The National Account Statistics 2024 shows GFCF growing by 18.7% in FY23 from ₹69.8 lakh crore in FY22 to ₹82.9 lakh crore in FY23, with broad-based growth across sectors. GFCF in private non-financial corporations witnessed a most notable CAGR of 10.6% from FY12 to FY23, highlighting a pick-up in private capital expenditure.

According to the data released by the Controller General of Accounts, capital expenditure by the Union Government from April 2023 to February 2024 stood at ₹8.1 lakh crore, 36.5% higher compared to the corresponding period of the previous year. Increased capital expenditure by the Union Government has led to an improvement in the quality of Government spending, as reflected in the decline in the revenue expenditure to capital outlay ratio. The ratio declined from 7.1 in FY20 (April-February) to 3.7 in FY24 (April-February). The increased spending on capex has also incentivised States to increase their capital spending. Capital expenditure by 22 major States grew by 26.6% during April 23-February 24, versus 13.3% in the corresponding period of the previous year.

The CMIE data on new investment announcements serves as an indicator for corporate capex plans. These figures represent intentions, which may or may not materialise, but they do mirror the sentiments and expectations of the companies. The overall scenario is promising, with a significant improvement compared to the pre-COVID era, despite the intentions being lower than the previous year. In FY24, the private sector announced new investment projects worth ₹23.5 lakh crore, much higher than the past five years' average of ₹14.4 lakh crore. Despite new investment projects announced by the private sector being lower in FY24 compared to the previous year, the investment projects completed by the private sector witnessed a significant uptick to ₹3.1 lakh crore in FY24 from ₹2.7 lakh crore in FY23.

The upbeat investment environment is accompanied by increased capacity utilisation in the manufacturing sector, as seen in the RBI's quarterly Order Books, Inventory and Capacity Utilisation Survey (OBICUS) for Q3 of FY24. The aggregate capacity utilisation in the manufacturing sector picked up significantly from 74% in Q2 to 74.7% in Q3 of FY24. Manufacturing companies received a larger number of orders during this quarter as compared to the corresponding quarter of the previous year.

Stronger rural and urban demand conditions

While investment activity remains expansive, consumption is being propelled by consistent growth in urban demand and a resurgence in rural demand, thereby contributing to India’s growth in FY24. As per the data published by Nielsen IQ, the volume sales of fast-moving consumer goods (FMCG) in rural markets saw a rise of 7.6% in the Q4 of FY24 on a y-o-y basis. For the first time in five quarters, rural FMCG demand growth outpaced urban growth.

Other indicators of rural demand also demonstrate a robust growth in consumption activity in FY24. Two and three-wheeler sales increased by 14.2% in FY24, at 186.7 lakh compared to 163.5 lakh in FY23, due to enhanced model availability, new product introduction and positive market sentiments. Carrying the momentum in FY25, two-wheeler sales registered a remarkable growth of 30.8% in April 2024 on a yearly basis.

The resilience of urban demand is evident in the robust growth of housing personal loans, which increased by 36.9% in FY24. Sales of passenger vehicles saw a rise of 8.4% in FY24, spurred by the launch of cost-effective compressed natural gas fuel options and new electric models, coupled with positive market sentiment and the provision of high-quality after-sales service.

The robust consumption demand in urban areas is also reflected in rising domestic air passenger traffic. In FY24, domestic air passenger traffic surpassed the pre-pandemic peak, driven by a growing demand for air travel. The momentum in urban demand persisted in FY25, buoyed by positive consumer sentiment and festive celebrations.

Robust growth in industrial activity in FY24

Industrial output continues to expand in March 2024, with the Index of Industrial Production (IIP) increasing by 4.9% in March 2024. IIP grew by 5.8% in the fiscal year FY24. It is important to note that IIP is a volume index, and its growth cannot be readily compared with that of value indices (either at current prices or at constant prices). The acceleration in 2023-24 was bolstered by healthy growth in infrastructure, intermediate and consumer goods sectors. The emphasis on capex push by the government has led to robust performance of the infrastructure goods sector, exhibiting a growth of 9.7% in FY24, higher than 8.4% in FY23.

Manufacturing sector output expanded to a five-month high of 5.2% in March 2024, lifting the overall growth performance for this segment in the 2023-24 to 5.5%. The manufacturing activity maintained its growth trajectory from the previous year, with the Manufacturing PMI for April remaining in the expansionary zone, supported by strong demand conditions, which resulted in a further expansion of output. Improvements in delivery times from suppliers contributed to the increased purchasing activity. Furthermore, a positive outlook for the year ahead prompted firms to expand their workforce.

Healthy expansion of the service sector

Just like the industrial activity, the growth in service sectors remains robust in April 2024, as gauged by HSBC's Services PMI. The business activity index has stayed in the expansionary zone for 33 consecutive months in a row, maintaining a resilient value of 60.8 in April 2024. The surge was sustained by buoyant domestic demand and growth of new business and output. In addition to the robust domestic demand, companies reported growth in emerging international markets. The year-ahead outlook for business activity has improved, fuelled by enhanced marketing initiatives, gains in efficiency, competitive pricing strategies, and optimistic predictions regarding sustained favourable demand conditions.

As the service sector strengthens, there has been a rise in bank credit to important services. The credit growth in the services sector increased to 20.2% in March 2024 on a y-o-y basis, propelled by an increase in credit to transport operators and the commercial real estate sector.

Performance of real estate

Real estate sector has seen a significant rebound after the Covid pandemic led lockdowns. The residential property market in India demonstrated a promising trend in 2023, with both demand and new supply experiencing double-digit growth. The momentum continued in Q1 of 2024, witnessing record-breaking sales, clocking a robust 41%

y-o-y growth compared to the same period in the previous year. Further, the increasing demand for real estate is reiterated by the rise in housing loans.

Pandemic-induced trends such as remote and hybrid working are expected to have induced homebuyers to venture into larger, sustainable spaces with value-added services and amenities. Factors such as rapid urbanisation, growing emergence of nuclear families, new real estate developers entering the sector, and improved availability of financial options for developers, as well as homebuyers, have contributed to the growth of the real estate sector.

Lowest rate of retail inflation in almost a year

Retail inflation based on consumer price index (CPI) decreased from 4.85% in March 2024 to 4.83% in April 2024, marking it as the lowest rate in the previous 11 months. The modest reduction in retail inflation in April 2024 was primarily due to a drop in core inflation (which excludes food, fuel and light), which reached a record low of 3.2%, the lowest since January 2014. The decline in core inflation in April was largely due to reduced inflation rates in various items including clothing, footwear, housing, household goods and services, health, education, recreation, amusement, transport and communication.

Going forward, the inflation trajectory will be influenced by several factors. Government initiatives, including the open market sales, monitoring of stocks, import of pulses, and export restrictions, are expected to help stabilize food prices. The forecast of normal rainfall for the Southwest Monsoon 2024 bodes well for food production and could alleviate price pressure on food items. Ongoing geopolitical tensions could potentially drive-up international commodity prices and disrupt supply chains.

Optimistic outlook for merchandise exports as external sector remains stable

India's merchandise exports in FY25 began on a positive note, recording a growth of 1.08% y-o-y in April 2024. This comes amid marginally improved economic activity and consumer sentiment in Europe and a steady US economy. The main drivers of export growth were electronic goods, organic and inorganic chemicals, petroleum products and pharmaceuticals, which increased by 25.8%, 16.8%, 3.1% and 7.4%, respectively. Imports increased by 10.3% y-o-y. This led to an increase in the merchandise trade deficit by 32.3% y-o-y in April 2024.

RBI monthly data indicates India's services exports ended in FY24 by recording a growth of 4.8%. Although the growth has moderated compared to the previous year, a decline in services imports led to a 13.6% increase in net services trade. Preliminary estimates by the Ministry of Commerce and Industry indicate that the momentum in services exports has been carried forward into FY25 with a growth of 14.7% in April 2024.

Gross Foreign Direct Investment (FDI) inflows in FY24 stood at USD 71.0 billion, compared to USD 71.4 billion in FY23. The 2024 Kearny FDI Confidence Index ranked India 4th in the EME category, underscoring its attractiveness as an FDI destination despite moderation and volatility in global capital flows.

Despite volatile FPI flows, the rupee continues to remain one of the most stable major currencies. Between 2nd January 2024 and 15th May 2024, the rupee depreciated by 0.2% against the US Dollar. Between 1st April 2024 and 15th May 2024, the rupee depreciated marginally by 0.11%. A stable rupee has also aided the RBI build significant forex reserves, which, as of 10 May 2024, stood at USD 644.2 billion.

Employment trends confirm India’s economic resilience

The unemployment situation improved, with annual as well as quarterly unemployment rates declining since the highs witnessed during the COVID-19 pandemic. As per the Periodic Labour Force Survey (PLFS) data released by the National Statistical Office, the urban unemployment rate, as per the Current Weekly Status (CWS) for people aged 15 years and above declined to 6.7% for the quarter ending March 2024 from 6.8% in the corresponding quarter of the previous year.

The moderation in the urban unemployment rate has been accompanied by a rise in the Worker to Population Ratio (WPR) and Labour Force Participation Rate (LFPR). The WPR for people aged 15 years and above increased from 45.2% in the quarter ending March 2023 to 46.9% in the quarter ending March 2024. During the same time, the LFPR rose from 48.5% to 50.2%. The Female LFPR also witnessed a rise during the same period.

Rising formalisation of employment

The declining unemployment rates have been accompanied with a rising formalisation of employment. There is evidence of increasing net payroll additions under the Employee Provident Fund Organisation (EPFO), with more members rejoining than exiting the social security net. The creation of digital identities like Aadhar, registration of unorganised workers on the e-shram portal and registration of MSMEs on the Udyam portal has played a significant role in promoting the formalisation of the economy. As of 22 May 2024, 4.4 crore MSMEs have been registered on the Udyam Portal (including informal enterprises registered on the Udyam Assistance Platform), more than 97% being micro-enterprises.

At a broader level of the manufacturing and services sector as well, rising job creation is evident. The PMI Manufacturing employment sub-index suggests the generation of more employment opportunities in the manufacturing sector supported by improvement in operating conditions, buoyant demand, uptake in new business intakes and scaled-up production. Similarly, the PMI Services sub-index shows a step-up in employment generation in the services sector from a combination of buoyant domestic demand, new business gains and an upturn in international sales.

OUTLOOK

- Industrial and service sectors of the Indian economy are performing well, backed by brisk domestic demand and partially by tentative external demand. Domestic manufacturing will likely receive stronger external support in the upcoming months. Modestly improved economic activity and consumer sentiment in Europe and a steady US economy have aided India's exports in April. There are reports that show that the number of

organisations in the US and Europe that are focusing on reindustrialisation has increased. The majority of these organisations are focussing on enhancing supply chain resilience. This can benefit India's manufacturing firms as part of the China Plus One strategy. The EXIM Bank of India has forecasted that merchandise exports will post a double-digit growth in Q1 of FY25.

- Factors like the ongoing recovery in the hotel and tourism industry, increased credit flow to transport and real estate segments, policy support and robust investments in physical and digital infrastructure and logistics will help the services sector. The strong export growth in April 2024 indicates that the momentum in services trade has been carried forward into FY25.
- The future inflation path will be shaped by several elements. Government initiatives to stabilise the prices of essential food items, including their open market sale, stock monitoring and trade policy measures are helping to stabilize food prices. The harvest for the Rabi Marketing Season for 2024-25 is expected to temper the prices of key items like wheat and chana. The prediction of a normal Southwest Monsoon also augers well for food production and easing of price pressures. With the assumption of normal monsoon, the RBI forecasts a 4.9% retail inflation for FY25's first quarter. The positive indications in the farm sector should help India firewall against any adverse pressures that may arise from geopolitical tensions and global commodity prices. Likewise, the strong macro-economic buffers of India should help the real sectors of the economy navigate the external headwinds smoothly and continue the growth momentum of the previous year.

ELECTRICAL EQUIPMENT INDUSTRY

GLOBAL MARKET

Electrical equipment produces products that generate, distribute and use electrical power. Electrical equipment's primary function is to accomplish work by converting electrical energy and controlling electrical energy, including protecting systems, property, and people.

The main types of electrical equipment are electric lighting equipment, household appliances, power generation, transmission, and control equipment, batteries and wires, and cables. Home appliances are electrical machines that aid in household functions such as cooking, cleaning, and food storage. The equipment is operated through online and offline modes. The various sales channels include OEM and aftermarket that are used by B2B and B2C end users.

The electrical equipment market size has grown strongly in recent years. It will grow from \$1,619.07 billion in 2023 to \$1,728.91 billion in 2024 at a compound annual growth rate (CAGR) of 6.8%. The growth in the historic period can be attributed to economic growth in emerging markets, favourable government initiatives, and technological advances.

The electrical equipment market size is expected to see strong growth in the next few years. It will grow to \$2,193.05 billion in 2028 at a compound annual growth rate (CAGR) of 6.1%. The growth can be attributed to innovations in electrical equipment, rising investments in energy efficient infrastructure, and favourable government initiatives. Major trends in the include premiumisation of electrical equipment, developing smart appliances, developing smart appliances, developing energy-efficient products, developing and deploying e-commerce platform, strategic alliances and collaborations in order to expand its development activities.

(Source: www.thebusinessresearchcompany.com/report/electrical-equipment-global-market-report)

DOMESTIC MARKET

The Indian electrical equipment market is projected to reach a value of USD 52.98 billion at a CAGR of 11.68% between 2022 and 2027. The India electrical equipment market is experiencing significant growth due to rapid urbanization and infrastructural development. The market includes various segments such as power distribution equipment, transmission equipment, and generation equipment. India's government initiatives like Make in India have encouraged domestic manufacturing and boosted the electrical equipment sector.

Key Drivers

The market is experiencing rapid growth, marked by a rising market growth rate and a surge in demand for various components. Electric construction equipment, generators, switches, sockets, lighting, meters, panels, automation solutions, solar and wind technologies, batteries, inverters, voltage regulators, circuit breakers, and connectors are key players in this expanding market. The increasing emphasis on renewable energy sources like solar and wind has further propelled the demand for cutting-edge electrical components. Mostly electricity consumed in India is generated using renewable energy sources. From efficient lighting solutions to advanced circuit breakers, India's electrical equipment sector is at the forefront of innovation, meeting the evolving needs of a dynamic and growing market.

Significant Trends

Increasing urbanisation and population growth are leading to a remarkable increase in the electricity demand which is a major market trends. Due to the lack of electricity generation capacity in countries such as Bangladesh, Nepal, and Myanmar, many people living in these countries do not have access to electricity. Electricity shortage is a major challenge for poverty reduction and the development of the economy.

Therefore, cross-border electricity trade plays an important role in economic growth and development as it contributes to reducing energy prices, overcoming power shortages, mitigating energy shocks, and facilitating favourable for the decarbonisation process to expand and integrate into the market. The benefits of cross-border electricity trading are encouraging many governments to choose this option. Hence, growth in cross-border electricity trade will drive the market growth and trends.

Major Challenges

The number of cyber attacks, such as those by hackers and cybercriminals, is increasing in India. In this market, electrical systems are controlled and monitored by IT systems and infrastructure, such as control and data acquisition (SCADA) systems and automated production controls. In cyber attacks, hackers can attack computer systems to cause infrastructure damage and power supply breakdown, resulting in power outages.

Moreover, false data injection (FDI) is a common type of cyber attack in power systems. A successful FDI attack on a computer system can cause an imbalance between power consumption and power generation in the network. Such actions can damage equipment, and continued failure can lead to widespread power outages. Hence, the threat posed by cyberattacks on the power industry could impede the growth of the market.

Segmentation by Product and Application

Product Segment Analysis

The cables segment will account for a major share of the market's growth going forward. Cables are electrical equipment, which is used for the transmission of power from a source to any facility operating on electricity. In India, demand for power increases as a result of the growth in both households and commercial sectors, which will also encourage cable consumption. Demand for more housing units is increasing due to the increase in the middle-class population of the country.

The **cables segment** was valued at **USD 14.74 billion** in 2017 and continued to grow until 2021. The availability of low-cost labour in India makes the country more favourable for foreign companies looking to expand into new markets. This encourages companies in the construction industry to invest in construction and infrastructure development activities. Additionally, programs like the Indian government's Atal Distribution Transformation Yojana, which commits the private sector to improving the efficiency of state-owned distribution companies, will continue to help the government deliver electricity to all citizens. Therefore, such factors will drive the growth of the market going forward.

Application Segment Analysis

Based on application, the market has been segmented into transmission, distribution, and generation. The transmission segment will account for the largest share of this segment. Electricity generated by power plants must be transported over long distances to load centers and from there distributed to end users via towers and transmission lines. Furthermore, the transmission and distribution of power are largely controlled by both the

central government of India and various state governments. The Indian government has invested heavily in the distribution sector through programs such as Deendayal Upadhyaya Gram Jyoti Yojana (DDUGJY). To ensure that electricity is provided to all its citizens, an increase in the installation of transmission or distribution lines has taken place throughout India. Hence, such factors will drive the growth of the market.

POWER INDUSTRY

Power is among the most critical components of infrastructure, crucial for the economic growth and welfare of nations. The existence and development of adequate power infrastructure is essential for sustained growth of the Indian economy. The fundamental principle of India’s power industry has been to provide universal access to affordable power in a sustainable way. The Ministry of Power has made significant efforts over the past few years to turn the country from one with a power shortage to one with a surplus by establishing a single national grid, fortifying the distribution network, and achieving universal household electrification.

GLOBAL MARKET

The global power generation market size was estimated at USD 1.94 trillion in 2022 and it is expected to hit around USD 3.9 trillion by 2032, growing at a CAGR of 8.04% from 2023 to 2032.

As electricity is one of the essential commodities of modern economies and is responsible for providing a rising share of energy services. The demand of electricity is expected to increase as a consequence of increased household incomes, with the increased rate of electrification of transport and heat, and surging demand for digitally connected devices and air conditioners.

GROWTH FACTORS

The power generation market has experienced a great demand due to various factors like increasing population with eventually increasing the number of consumers with rapid urbanization. The growing demand of electricity is expected to increase in the future due to the rising share of energy services. The economic growth of a nation is possible through the growth of its infrastructure in terms of power.

It leads to the overall welfare of a country. Developing the existing power infrastructure and creating new power infrastructure is extremely important for the growth of an economy.

Sustainable ways are gaining popularity to introduce affordable power in many nations across the globe especially in the developing nations. Constant efforts are being made by the government in the recent times to reduce power shortage and create a surplus by installing more grids and increasing the network of distribution. The number of investments made for power generation in the developed as well as the developing nations of the world has grown in the recent times and this is expected to play a significant role in the growth of the market.

- Increase in investment of various market players.
- Environmental sustainability is a major factor leading to an increased use of renewable source of energy for the development of power.
- Increasing population of various nations across the globe is another factor driving the growth of power generation market.
- Rapid urbanization is one of the major reasons creating more demand for electricity.
- Industrialization in the developing nations across the globe is having a positive impact on the power generation market.
- As the income of the consumers is increasing the amount of electricity consumed at the homes is also increasing.
- Technological advancements and development are expected to have a major impact on the demand of electricity across the globe.
- Fluctuating temperatures and changes in the season may have a major impact on the consumption of electricity as such weather conditions could increase the consumption of electricity at homes.

KEY MARKET DRIVERS

- **Increase in population:** The rapid increase in the population is serving as the key market driver for the power generation market. In the previous year, significant economic growth has been registered in many developing nations across the globe. The increasing population is one of the factors driving the growth of the global power generation market. Attractive growth opportunities and good potential will be provided by the nations like Mexico, Russia, Argentina, South Africa, South Korea, Indonesia, Thailand, Taiwan, China, Brazil, and India. The government policy in these regions is supporting the growth of the global power generation market. Other favourable factors are the presence of renewable sources of energy production in most of these nations which have led to an increased amount of power generation through a sustainable source. The offered opportunities by the developing countries have given chance to future market players of the power generation market.
- **Rise in urbanization:** The rise in urbanization in developing countries have given the speedy increase in demand for electricity, which has eventually forced the respective governments across the world to revamp various initiatives to ensure adequate power supply on their country.
- **Popularization of smart grid technologies:** Smart grid technologies have gained popularity in the whole world due to the significant benefits in account to it efficiency and reliability. The surge in demand of smart grid has been expected as the major aspect that will affect the growth of the global power generation market in the upcoming years.

KEY MARKET CHALLENGES

- **Old power generation infrastructure:** The existing generation equipment and the system mostly rely on aging infrastructure they really struggle to meet the growing advance demand of electricity. The developing countries are especially suffering from infrastructure aging problems as the replacement requires high investment, so adding a significant inhibitor to the market.

- **The decline in investment:** The decline in investment in the power sectors is the biggest challenge in market growth. The investment in the coal-fired plant had already descended by 11% and the investment in gas-fired generation is affected by delays in gas-rich emerging economies.

DOMESTIC MARKET

India's power sector is one of the most diversified in the world. Sources of power generation range from conventional sources such as coal, lignite, natural gas, oil, hydro and nuclear power, to viable non-conventional sources such as wind, solar, agricultural and domestic waste. Electricity demand in the country has increased rapidly and is expected to rise further in the years to come. In order to meet the increasing demand for electricity in the country, massive addition to the installed generating capacity is required.

Market Size

- India's power generation witnessed its highest growth rate in over 30 years in FY23. Power generation in India increased by 8.87% to 1,624.15 billion kilowatt-hours (kWh) in FY23.
- In FY24 (until January 2024), the power generation in India was 1,452.42 BU.
- During FY10-FY23, electricity generation in India increased at a CAGR of 4.75%.
- In the Union Budget 2022-23, the government allocated Rs. 7,327 crore (US\$ 885 million) for the solar power sector including grid, offgrid, and PM-KUSUM projects.
- For FY24, the electricity generation target from conventional sources has been fixed at 1,750 BU, comprising 1,324.11 BU of thermal energy, 156.70 BU of hydro energy, 46.19 BU of nuclear energy, 215 BU of RES (excluding hydro), and 8 BU to be imported from Bhutan.
- India's power consumption grew over 8% to 127.79 BU in February 2024 as compared to the year-ago period, according to government data. The Nathpa Jhakri Hydro Electricity Station of Satluj Jal Vidyut Nigam (SJVN) has set a new monthly power generation record, increasing from 1,213.10 million units to 1,216.56 million units on July 31, 2021.

KEY DEVELOPMENTS & INVESTMENTS

Cumulative FDI inflow in the power sector stood at US\$ 18.17 billion between April 2000 and December 2023.

Some major investments and developments in the Indian power sector are as follows:

- Power is one of the key sectors attracting FDI inflow into India, and it accounted for about 2.73% of the total FDI inflow until December 2023.
- From April 2000- December 2023, India recorded FDI inflow worth US\$ 16.27 billion in the non-conventional energy sector.
- Cumulative FDI inflow in the power sector stood at US\$ 18.17 billion between April 2000 and December 2023.
- From April 2020 to September 2023, the renewable energy sector in India attracted US\$ 6.1 billion in FDI equity investment.
- India has received a cumulative amount of US\$ 3.8 billion in foreign direct investment (FDI) in the solar energy sector over the past three fiscal years and the ongoing fiscal year until September 2023.
- Mumbai headquartered Essar Group has formed the Essar Energy Transition (EET) with the objective to invest a total of US\$ 3.6 billion in developing a range of low carbon energy transition projects over the next five years.
- In August 2022, Norfund, who manage the Norwegian Climate Investment Fund, and KLP, Norway's biggest pension company, signed an agreement to buy a 49% share of a 420 MW solar power plant in Rajasthan for Rs. 2.8 billion (US\$ 35.05 million).

- Renew Power is planning to develop renewable energy projects in Maharashtra across wind, solar, hybrid power, battery storage and green hydrogen, at an investment of Rs. 50,000 crore (US\$ 6.39 billion) over the next six years.
- In September 2021, the Government of the UK announced that it will invest US\$ 1.2 billion through public and private investments in green projects and renewable energy in India to support the latter's target of 450 GW of renewable energy by 2030.

GOVERNMENT POLICIES & INITIATIVES

The Government of India has identified the power sector as a key sector of focus to promote sustained industrial growth. Some initiatives by the Government to boost the Indian power sector are as below:

- The Union Cabinet has sanctioned the PM-Surya Ghar: Muft Bijli Yojana. This initiative, with a total budget of Rs. 75,021 crore (US\$ 9 billion) aims to install rooftop solar systems and offer complimentary electricity of up to 300 units per month to one crore households.
- In the Budget for 2024, the government's power sector initiatives have been allocated funds that are 50% higher. Increased funds have been allocated to green hydrogen, solar power, and green-energy corridors in line with the renewable energy target for 2030.
- In the Union Budget 2022-23, the government allocated Rs. 7,327 crore (US\$ 885 million) for the solar power sector including grid, off-grid, and PM-KUSUM projects.
- Under the Union Budget 2022-23, the government announced the issuance of sovereign green bonds, as well as conferring infrastructure status to energy storage systems, including grid-scale battery systems.
- The Green Energy Corridor projects have been initiated to facilitate renewable power evacuation and reshaping the grid for future requirements. As on October 2022, 8651 ckm of intra-state transmission lines have been constructed and 19,558 MVA intra-state substations have been charged.
- To encourage rooftop solar (RTS) throughout the country, Ministry New and Renewable Energy has developed a National Portal wherein any residential consumer from any part of the country can apply for rooftop solar without waiting for Discom to finalize tender and empanel vendors. Since the launch on July

30, 2022, the total number of applications received on the national portal is for 117 MW solar capacity and the feasibility of more than 18 MW projects is granted.

- Production Linked Incentive Scheme (Tranche II) on ‘National Programme on High Efficiency Solar PV Modules,’ with an outlay of Rs. 19,500 crore (US\$ 2.47 billion) was approved and launched.
- As of August 24, 2022, over 36.86 crore LED bulbs, 72.18 lakh LED tube lights and 23.59 lakh energy-efficient fans have been distributed across the country, saving around 48,411 million kWh per year and around Rs. 19,332 crore (US\$ 2.35 billion) in cost savings.
- As of November 2022, over 51.62 lakh smart metres have been deployed under the National Smart Grid Mission (NSGM), with a further 61.13 lakh to be deployed.
- Electrification in the country is increasing with support from schemes like Deen Dayal Upadhyay Gram Jyoti Yojana (DDUGJY), Ujwal DISCOM Assurance Yojana (UDAY), and Integrated Power Development Scheme (IPDS).
- In order to meet India’s 500 GW renewable energy target and tackle the annual issue of coal demand supply mismatch, the Ministry of Power has identified 81 thermal units which will replace coal with renewable energy generation by 2026.
- In February 2022, a parliamentary standing committee recommended the government to take steps to increase the loan limit for renewable energy sector under priority sector lending. The current limit stands at Rs. 30 crore (US\$ 3.93 million).
- In December 2021, West Bengal got a loan approval for US\$ 135 million from the International Bank for Reconstruction and Development (also called the World Bank) to improve the operational efficiency and reliability of electricity supply in select regions in the state.
- In November 2021, the government announced future plans to increase the funding under the PLI scheme for domestic solar cells and module manufacturing to Rs. 24,000 crore (US\$ 3.17 billion) from the existing Rs. 4,500 crore (US\$ 594.68 million) to make India an exporting nation.
- In November 2021, Energy Efficiency Services Limited (EESL) stated that it will partner with private sector energy service companies to scale up its Building Energy Efficiency Programme (BEEP).
- In September 2021, the Government of the United Kingdom announced that it will invest US\$ 1.2 billion through public and private investments in green projects and renewable energy in India to support the latter’s target of 450 GW of renewable energy by 2030.
- The Pradhan Mantri Sahaj Bijli Har Ghar Yojana, “Saubhagya,” was launched by the Government of India with an aim of achieving universal household electrification. As of March 2021, 2.82 crore households have been electrified under this scheme.
- According to the S&P Global Platts Top 250 Global Energy Rankings 2021, Reliance Industries Ltd. and Indian Oil Corp. Ltd. ranked 3rd and 6th, respectively.

ROAD AHEAD

In the current decade (2020-29), the Indian electricity sector is likely to witness a major transformation with respect to demand growth, energy mix and market operations. India wants to ensure that everyone has reliable access to sufficient electricity at all times, while also accelerating the clean energy transition by lowering its reliance on dirty fossil fuels and moving toward more environmentally friendly, renewable sources of energy.

Future investments will benefit from strong demand fundamentals, policy support and increasing government focus on infrastructure.

The Government of India is preparing a 'rent a roof' policy for supporting its target of generating 40 GW of power through solar rooftop projects by 2022. It also plans to set up 21 new nuclear power reactors with a total installed capacity of 15,700 MW by 2031.

The Central Electricity Authority (CEA) estimates India's power requirement to grow to reach 817 GW by 2030. Also, by 2029-30, CEA estimates that the share of renewable energy generation would increase from 18% to 44%, while that of thermal energy is expected to reduce from 78% to 52%.

The government plans to establish renewable energy capacity of 500 GW by 2030.

NON-FERROUS MINERALS AND METALS INDUSTRY

GLOBAL SCENARIO – COPPER

The world copper mine production from February, 2023 to January, 2024 was about 22,037 thousand metric tonnes (TMT). The share of India in the world production was 26.490 TMT i.e.0.12% during February, 2023 to January, 2024.

The world refined copper production from February, 2023 to January, 2024 was about 27,004 TMT against world consumption of 27,114 TMT. As per International Copper Study Group (ICSG) forecast dated 04.10.2023 for the Calendar Years 2023 and 2024, world refined copper production and consumption are projected as 26,329 and 26,357 & 27,534 and 27,066 TMT, respectively. The projected world refined copper production and consumption from February, 2023 to January, 2024 shall be 26,429 and 26,416 TMT, respectively. The share of India in the world production was 1.88% during February 2023 to January 2024.

The average LME price in March 2024 was US\$ 8,672.82 per tonne compared to average LME of US\$ 8,835.72 per tonne in March 2023, thereby registering a decrease by 1.84%. The average LME price during the year 2022-23 was US\$ 8,551 per tonne, and cumulative average LME price during 2023-24 (April-March) was US\$ 8,361.50 per tonne.

DOMESTIC SCENARIO – COPPER

The size of Indian copper industry (consumption of refined copper per annum) is around 6.6 lakh tonnes, which as percentage of world copper market is only three percent. Sterlite Industries, Hindalco Industries and Hindustan Copper Ltd. are major producers of refined copper in India. Production in India has declined significantly due to the permanent closure of Vedanta's smelter/refinery plant of Tamil Nadu in May 2018.

The production of copper cathode in the organized sector by the public sector unit viz. Hindustan Copper Ltd. (HCL), and private sector units, viz. Hindalco Industries Ltd. (HINDALCO, Unit Birla Copper) and Sesa Sterlite Ltd. (SSL) in the country, during FY 2022-23 and the month of March 2024 is as follows:

Capacity and Production during FY 2022-23 is as follows:

(Unit: Lakh Tonnes)

Company	Capacity	Production
HCL	0.685	0.000073
HINDALCO	5.00	4.07
SSL	2.16	1.48
Total	7.85	5.55

FACTORS INFLUENCING COPPER MARKETS

- Copper prices in India are fixed on the basis of the rates that rule on LME and Rupee & US Dollar exchange rate.
- Economic growth of the major consuming countries such as China, USA, Japan, Germany and India.
- Growth and development in the Infrastructure, Real-estate, Telecom and Electrical Industry, Renewable Energy and Electrical Vehicle sectors.
- Surplus/deficit in copper market.

OUR BUSINESS

Some of the information in this section, including information with respect to our plans and strategies, contain forward-looking statements that involve risks and uncertainties. You should read “Forward-Looking Statements” on page 18 for a discussion of the risks and uncertainties related to those statements and also “Risk Factors”, “Restated Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 25, 187 and 195, respectively, for a discussion of certain factors that may affect our business, financial condition or results of operations. Our actual results may differ materially from those expressed in or implied by these forward-looking statements.

Our Company’s financial year commences on April 1 and ends on March 31 of the immediately subsequent year, and references to a particular fiscal year are to the 12 months ended March 31 of that particular year. Unless otherwise indicated or the context otherwise requires, the financial information for fiscal years 2024, 2023 and 2022 included herein is derived from the Restated Financial Statements, included in this Red Herring Prospectus. For further information, see “Restated Financial Statements” on page 187. Additionally, please refer to “Definitions and Abbreviations” on page 02 for certain terms used in this section.

Unless otherwise indicated or the context otherwise requires, in this section, references to “the Company” or “our Company” are to Divine Power Energy Limited.

OVERVIEW

Our Company was incorporated on August 24, 2001, as ‘PDRV Enterprises Private Limited’, a private limited company under the Companies Act, 1956, pursuant to a certificate of incorporation issued by the Registrar of Companies, NCT of Delhi & Haryana. Our Company’s name was changed from ‘PDRV Enterprises Private Limited’ to ‘Dee Power and Electricals Private Limited’ pursuant to the Resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on January 05, 2023 and a fresh Certificate of Incorporation dated May 11, 2023 was issued to this effect by Registrar of Companies, NCT of Delhi & Haryana. Further, our Company’s name was changed from ‘Dee Power and Electricals Private Limited’ to ‘Divine Power Energy Private Limited’ pursuant to the Resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on June 10, 2023 and a fresh Certificate of Incorporation dated July 11, 2023 was issued to this effect by Registrar of Companies, NCT of Delhi & Haryana. Subsequently, pursuant to a resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on July 17, 2023, our Company was converted from a private limited company to a public limited company and a fresh certificate of incorporated dated August 03, 2023 was issued by the Registrar of Companies, Delhi. Consequent to the conversion of our Company, the name of our Company was changed to ‘Divine Power Energy Limited’.

Divine Power Energy Limited is a manufacturer of Bare Copper/ Aluminium Wire, Bare Copper/ Aluminium Strip, Winding Copper/ Aluminium Wire, Winding Copper / Aluminium Strip. Winding wires / strips are manufactured by annealing and insulating wires / strips and covering them with paper, cotton, fiberglass etc. Winding wires/ strips covered with paper, crepe paper and cotton are sold to power distribution companies and transformer manufacturers to manufacture transformers and also to fix normal wear and tear. In the current calendar year our company started manufacturing wires / strips covered with fiberglass which are used in manufacturing electromagnetic coils, like the one used in lifting magnets which are used to lift heavy objects like containers, machinery etc. The Company has supplied wires / strips covered with fiberglass to markets like Punjab, Bengaluru, Ahmedabad. In the recent past the Company has started trading in super enamelled wires and strips in an effort to cater customer demand and remain competitive.

Our Company mainly sells winding wires to the power distribution companies and transformer manufacturers. Transformers play a critical role in power distribution by regulating the voltage from generation source to the consumer end. The transformer steps up the voltages to higher voltages before transmission at the generator, reducing the power loss during transmission and steps down the higher voltage to lower as required before

transmitting the power to the end user. One of the critical components of a transformer is its coil which plays the role of converting electric energy to magnetic energy and then to electric energy, and changes the voltage and current at the same time. The coil is made from winding the wires in a given ratio as per the capacity and ability of the transformer. Our Company manufactures winding wires by insulating bare conductors (wires / strips of copper/ aluminium) by paper, cotton, super enamel, fiberglass etc. which are used to make coils of the transformers. Therefore, making our product indispensable for manufacturing transformers and hence power transmission and distribution.

The winding wires/ strips which we sell are made by insulating the bare conductor with various insulating materials such as insulating paper, crepe paper, cotton, fiberglass etc. Through the passage of time the insulating material deteriorates which results in the insulated conductor getting bare. When two bare conductors come into contact, it results in shorting of the transformer. Hence require repair and maintenance, for which the old winding wires/ strips are replaced with the new. The power distribution companies maintain large numbers of transformers to distribute power to its customers and require our products for to fix normal wear and tear. This propels the demand of our product for repair and maintenance of the transformers by the power distribution companies.

The Company enjoys the patronage of reputed clients such as TATA Power Limited, Pashchimanchal Vidyut Vitran Nigam Limited, BSES, Madhyanchal Vidyut Vitaran Nigam Limited, Dakshinanchal Vidyut Vitran Nigam Limited, Purvanchal Vidyut Vitaran Nigam Limited, Uttarakhand Power Corporation Limited etc., which ensure stable demand for our products. Also, the Company sources its raw material from reliable and reputed suppliers such as NALCO (through National Small Industries Corporation Limited), Birla Copper (through third party), Hindalco etc. With reliable suppliers, the Company has never faced supply disruption in the past and also expect the same in the future.

Currently in the States of Uttar Pradesh, Haryana, Rajasthan etc. the power losses (Aggregate Technical & Commercial (AT&C)) during power transmission are at the levels of 17% to 18%. The Government of India envisages to bring down power losses to 5% by 2026. To implement the envisaged target, the Government under Revamped Distribution Sector Scheme, has allocated Rs.3,03,758 crore and Gross Budgetary Support of Rs. 97,631 crore for the duration of 5 years i.e. from (FY 2021-22 to FY 2025-26), to upgrade the power infrastructure. On revamping power infrastructure, the old transformers will be replaced with new one as it brings down significantly the cost of operating and probability of blowing of the transformer so do the power disruption. Transformers are the critical component of power distribution infrastructure and our product is the lifeline of the transformer.

Our Company is equipped with the latest plant and machinery to produce quality products. The Company leverages an in-house quality control lab with in-house testing equipments to test the quality of our products. Our finished goods undergo a strict quality check to ensure best quality standards set in the industry. We continuously regulate and monitor the quality, safety and packaging of the products with huge demand for our product in the fast-growing power distribution sector and support from the Government we are confident to achieve higher growth in the future. We are proud to contribute towards the energy security of our country and committed to the national goal of achieving energy security sustainably.

Manufacturing Unit/Facility

We have one manufacturing plant which is strategically located at Plot No 56/1&2, Site-IV Industrial Area Sahibabad, Ghaziabad having total area of 1,777 square meters (Sq. m.). The manufacturing facility is built in an area of 1550 sq. m with an open area of 277 sq. m. Our manufacturing facility constitutes two floors which takes our covered area to 3,100 sq. m. in which the company conducts its operations. In our Manufacturing Facility we produce Bare Copper/ Aluminium Wire, Bare Copper/ Aluminium Strip, Winding Copper/ Aluminium Wire, Winding Copper / Aluminium Strip with latest product-specific equipment and machineries including Vertical Paper Covering Machine for Round Wire, Fiberglass Insulation Machine, Automatic Horizontal Multipaper

Covering, RBD Machine, Wire Drawing Machines, Conform Machines etc. Our products are made from copper and aluminium with insulation by cotton, paper, crepe paper, fiberglass etc.

As on date, our Manufacturing Facility has a total installed capacity to handle 300 metri tonnes per month of Aluminium and 400 metric tonnes per month of Copper. Further, we have a sufficient storage facility at our Manufacturing Facility for the purposes of holding inventories of raw material as well as finished products which ensures stability of operations.

Our Mission

At Divine Power Energy Limited, our mission is to empower the future by delivering high-quality insulated copper and aluminium wires and strips that power innovation and connectivity across India. We are committed to providing reliable and sustainable energy solutions to enhance the lives of our customers and the communities we serve.

Our Vision

Our vision is to be the premier manufacturer and supplier of insulated copper and aluminium wires and strips in India, recognized for excellence in quality, innovation, and sustainability. We strive to lead the industry by continuously pushing boundaries, fostering technological advancements, and contributing to a brighter, more electrified future for all.

Our Core Values

1. **Quality Excellence:** We are unwavering in our commitment to produce products of the highest quality, setting industry standards, and consistently meeting or exceeding our customers' expectations.
2. **Innovation:** We embrace innovation as a driving force, fostering a culture of creativity and forward thinking that enables us to adapt to changing market needs and deliver cutting-edge solutions.
3. **Sustainability:** We prioritize sustainability in every aspect of our business, from responsible sourcing of materials to efficient manufacturing processes, with a focus on reducing our environmental footprint.
4. **Financial Responsibility:** We manage our financial resources prudently and sustainably to ensure the long-term success and growth of Divine Power Energy Limited, providing stability and reliability to our stakeholders.

Market

We have a strong presence in North India particularly in markets like Uttar Pradesh, Delhi, Uttarakhand, Haryana, Punjab and Bihar. Primarily we sell winding wires / strips to power distribution companies and transformer manufacturers. In the current calendar year, we have started selling fiberglass insulated winding wires to the industry dealing in manufacturing of electromagnetic field coils used for making magnets used to lift heavy objects like containers, machinery etc., which we mainly sell to states like Punjab, Karnataka and Gujrat. We see a huge prospective market in Mumbai which houses a large port and shipping industry.

Our future endeavor is to cater to the Solar and Automobile Ancillary industry by offering tinned copper wires. The tinned wires will be used by the Solar industry to manufacture solar panels and by the Automobile Ancillary industry to manufacture harness wire. The market demand for tinned wire is huge and requires sophisticated machinery which we plan to procure from foreign nation.

Some of our financial details for the Fiscal 2024, Fiscal 2023 and Fiscal 2022, respectively, are set out below:
(Rs. In Lakhs)

Particulars	For the year ended 31st March 2024	For the year ended 31st March 2023	For the year ended 31st March 2022
Share Capital	1,577.91	1,577.91	14.28
Reserve & Surplus	978.62	338.03	1,231.72
Networth	2,556.53	1,915.94	1,246.00
Total Income	22,272.00	15,084.20	12,290.38
Profit for the Period	640.59	284.94	80.51

Justification for increase in profit for the period between F.Y, 2024 and 2023.

Our profit for the year increased by Rs. 355.65 lakhs or 124.82% to Rs. 640.59 lakhs for Fiscal 2024 compared to Rs. 284.94 lakhs for Fiscal 2023 because of the following factors:

- **Addition of New Machineries:** In Fiscal 2024, the Company purchased one online annealer machine which cools the wires and strips simultaneously during the annealing process, which has allowed us to expand the production very efficiently. During the annealing process the metal is heated to improve the workability of a material, increasing toughness, reducing hardness and increasing the ductility and machinability of a metal. The online annealer machine cools the metal instantly as the metal comes out of the machine reducing the time to cool the metal almost to zero which earlier use to take hours. The online annealer machine has increased the efficiency and the ability to produce more in any given time.
- **Product Modifications:** In F.Y. 2024 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.
- **Utilization:** Our Capacity utilization for the Financial Year 2024 was 49.86% of the total capacity as compared to 39% in the previous Financial Year 2023. The higher utilization is attributable the robust domestic demand as evident from increase of revenue from sale of finished products. The revenue from sales of finished goods increased by Rs. 7,149.47 lakhs or 47.48% to Rs. 20,329.69 lakhs for Fiscal 2024 as compared to Rs. 13,688.00 lakhs for Fiscal 2023. Increase in revenue from operation has led to increase in profit owing to Economies of Scale and Operating Leverage.

Justification for increase in profit for the period between F.Y, 2023 and 2022.

The Company's revenue from operations have increased by 22.94% or Rs. 2,809.44 Lakhs to Rs. 15,058.53 Lakhs for Fiscal 2023 as compared to Rs.12,249.09 Lakhs in Fiscal 2022, however profit after tax increased 216.18% or Rs. 194.91Lakh to Rs. 285.08 Lakh for Fiscal 2023 as compared to Rs.90.16 Lakhs in Fiscal 2022 due to the following reason:

- **Addition of New Machineries:** In Fiscal 2023, we purchased two Fiberglass Insulation Machines which helped us to expand our product mix. In F. Y 2023 we started selling fiberglass coated winding wires/ strips which have higher margins. The demand for such product is to make electromagnetic coils for lifting magnets which are used to lift heavy objects like containers, machinery etc. and have also purchased two Automatic Horizontal Paper Covering Machine which has resulted in increasing efficiency and automating the process of insulating wires/ strips with paper hence decreasing labour cost.
- **Product Modifications:** In F.Y. 2023 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.

- **Relaxation in Raw Material Prices:** In F.Y. 2023 the commodity prices cooled throughout the year in comparison to F.Y. 2022, this helped us to purchased raw material at reasonable price. The cost of material consumed was only increased by 2.13% only from Rs. 12,768.67 Lakhs in Fiscal 2022 to Rs. 13,040.66 Lakhs in Fiscal 2023, however the revenue from operations have increased by 22.94% in same period.
- **Utilization:** Our Capacity utilization for the Financial Year 2023 was 39% of the total capacity as compared to 48% in the previous Financial Year 2022. In F.Y. 2023 the Company increased the focus on increasing the contrition of fine wires in the total sale owing to uptick in demand from the market and higher profit margins from the segment. The lower Capacity Utilization is primarily linked to the increase in the proportion of fine wire in the total sale which resulted in lower consumption of metal, which is our primary raw material and the major cost center, to produce winding wires with fine wire. As fine wire requires lesser metal consumption it lowers the demand for the metal and increases the profit margin. Hence, in a nutshell, the reason for lower utilization capacity and increase in profit is the increase in the proportion of fine wire in the total sale.

Product-wise Revenue Breakup:

IMPACT OF COVID-19 ON OUR BUSINESS OPERTAIONS

The pandemic outbreak has caused an economic downturn on a global scale, including closures of many businesses and reduced customers spending, as well as significant market disruption and volatility. However, our company operation was not affected as our product was characterized as “Essential Product” by the Government and with the order of the District Industrial Centre dated April 13, 2020 we were allowed to operate under the strict Covid guideline. Hence, the pandemic outbreak had a very limited impact on our business.

OUR COMPETITIVE STRENGTHS

Cutting-edge Technology: The Company leverages state-of-the-art manufacturing technology to produce high-quality insulated copper and aluminium wires, ensuring efficiency and reliability. The Company has added plant and machinery of Rs 165.55 Lakhs, 232.45 Lakh and 119.57 Lakhs for the years ending March 31, 2024, March 31, 2023 and March 31, 2022. In the period ending March 31, 2024 the Company purchased one online annealer machine which cools the wires and strips simultaneously during the annealing process, which has allowed us to expand the production very efficiently. In F.Y 2023 the Company purchased 2 Automatic Horizontal Paper Covering Machines which greatly reduced the human intervention in the process of covering paper around the wires and strips. In F.Y. 2022 we purchased a fully automatic Conform Machine for manufacturing Copper strips and 3 Automatic Horizontal Paper Covering Machine and in the same year we purchased Fiberglass insulation machine which allowed us to expand our product mix. Over the period the Company has taken adequate steps in increasing efficiency, reducing manual intervention, and diversifying the product mix. We endeavour to update our technology with time and stay ahead of time and remain competitive and relevant in the market. Based on internal assessment and inputs received from Indian Transformers Manufacturers Association (ITMA) we continuously assess the need to upgrade for technologies. Also, the Company regularly participates in the Trade Fairs organized in India as well as abroad, which helps the Company to interact with the industry and assess the changing business practices and know new business opportunities. At present we believe that our company has updated technology capable of producing high quality products to cater the future demand.

Wide Product Range: With a diverse portfolio of insulated wires and strips, the company caters to varied industry needs, providing a comprehensive solution to its customers. We supply our products to transformer manufacturers and power distribution companies. We supply copper and aluminium wires / strips insulated with paper, crepe paper, and fiberglass, to Discoms and transformer manufacturers which are used for assembling and repairing transformers. In the financial year 2023 the Company started manufacturing fiberglass coated winding wires / strips and also started trading of super enamelled wires and strips in an effort to cater customer demand and remain competitive. Winding wires insulated with different materials has different usages and efficiency, hence, cater to different needs of the customers. The copper / aluminium wires insulated with fiberglass are used to manufacture electromagnetic coils used in lifting magnets, used to lift heavy objects like containers, machinery etc. We cater to the demand of our customers by producing products according to the description provided by the customers.

Customization Capabilities: The company caters specific customer requirements by offering tailored solutions as per their needs, enhancing its competitiveness in the market. We believe in delivering our product which fits the requirements of our customers. The Company has the ability to produce products in different shapes and descriptions as per the Customer demand. The Company manufactures wires in the range of 0.19 mm to 4.00 mm and strips in the range of 5 mm sq. to 150 mm sq., catering to the specific demand of its customers. We produce winding wires/ strips from copper and aluminium by insulating wires / strips by paper, cotton, fiberglass etc. which have different usage. For example, copper winding wires / strips are mainly used for manufacturing transformer of more than 200 kVA, aluminium winding wires/ strips are mainly used in manufacturing transformers of less than 200 kVA, fiberglass coated winding wires/strips are used in manufacturing electromagnetic coils used in lifting magnets etc. As our products cater different customers' needs, this helps us to remain competitive in the market and acquire customers with specific demands.

Experienced Team: Our Promoters and senior management team is well experienced in this industry. Mr. Rajesh Giri and Mr. Vikas Talwar started the Company in the Year 2001 under the leadership and guidance of Mr. Dev Sharan Giri and both of them have the experience of more than two decades in manufacturing Copper Wire, Aluminium Wire and allied products.

Our Company believes that it benefits from the vision, leadership, skills, experience, commitment and relationships of our Promoters. Our Promoters in aggregate, have more than forty years of experience in relation to manufacturing of Copper Wire, Aluminium Wire and allied products. Further, our Promoter Mr. Rajesh Giri & Mr. Vikas Talwar, are actively involved in managing the day-to-day affairs of our Company. Mr. Rajesh Giri manages marketing and finance functions while Mr. Vikas Talwar looks after production and human resource functions. Our success has been, and will continue to be, dependent on our senior management team. Our senior management team comprises professionally qualified members with experience and knowledge in the power distribution industry and regulatory environment. We believe that our management team's experience and their understanding of the industry will enable us to continue to take advantage of both current and future opportunities. A large number of our senior management personnel have worked with us for a significant period of time, resulting in effective operational coordination and continuity of business strategies. For further details on education, experience and other details of our Management and our Key Managerial Personnel, kindly refer to the Section titled "*Our Management*" beginning on page 160.

International Accreditations and product approvals: We are one of the growing brands in Copper Wire, Aluminium Wire and allied products. We follow international standard manufacturing practices and our Manufacturing Facility benefits from the quality benchmarking certifications. We are ISO 9001:2015 certified by International Management Certification, a body accredited by Global Accreditation Assessment Forum Series. Such practices and accreditations, coupled with our technical capabilities and know-how enable us to manufacture products with superior quality. Our capabilities and accreditations have enabled us to supply our Products to some of the reputed companies in the past in the power distribution industry. We believe that our certifications and industrial expertise favourably position us in servicing client requirements across all segments of the Copper Wire, Aluminium Wire and allied products.

Multi-fold demand of our Products

The demand for our Products in our ordinary course of business is generated from three broad categories:

1. **Manufactures of Transformers:** We supply our products for manufacturing transformer and to powers distribution Company and transformer manufacturers. We have maintained our presence in this sector on a consistent basis in the last many financial years and have continued to secure orders both from existing and new customers.
2. **Repair and Maintenance:** We regularly supply our Products to existing / new customers consequent to normal wear and tear of the products being used by them. The frequency of such orders is dependent on the quality of winding wires used in the transformer and power fluctuations in the particular area and typically an instruction / order is raised to supply a specific number of pieces in order to rectify the deficiency.
3. **Manufacturing electromagnetic coils used in lifting magnets:** We produce fiberglass insulated winding wires which are used to manufacture electromagnetic coils used in lifting magnets which are used to lift heavy machines and containers. There is huge demand for fiberglass insulated winding wires in heavy engineering and shipping industry owing to rapid industrialization, renewed focus of Government in manufacturing sector and international trade. We are witnessing an exponential demand of this product in the market and expect this to continue in coming years.

We believe that the demand from the aforesaid categories ensures a strong revenue growth on a year-on-year basis. We have achieved a compounded growth in revenue of 8.99% in the period from F.Y. 2021 till F.Y. 2023 and compounded revenue growth of 24.06% in the period from F.Y. 2021 till F.Y. 2024. Further, we believe that the demand for our Products shall increase in the future placing us in a competitive position. Considering the nature of our Products and their demand, we further believe that we shall be in a position to create new customer relationships and strengthen the existing ones due to repeat orders.

OUR STRATEGY

Strengthen our brand value

We have been in the business of manufacturing copper/ aluminium winding wires for more than two decades. The Company enjoys the patronage of existing clients with some of them having clinched with the Company for more than a decade. The Company sells its product to many reputed clients like BSES, Uttarakhand Power Corporation Limited, Dehradun, Tata Power Limited etc. Considering the market demand the Company intends to make consistent efforts to strengthen our brand “Divine” and enhance our brand visibility for attaining parity with our industry peers. Towards this end, we undertake various marketing initiatives including participation in industrial trade fairs, exhibitions, and digital marketing. The Company regularly participates in trade fairs in India and abroad. In an effort to make our brand noticeable in the market, the Company gives advertisement every month in the business magazine / portal “99 Electrical World” devoted to Electrical Products, Market and Industry and in the “AITMA’s (All India Transformer Manufacturers Association)’s magazine”. We believe that such initiatives shall improve our brand positioning, overall brand recall value and support us in our growth strategy.

Expanding our customer base

The Company intends to increase our production of our existing product and expand our product mix to cater growing demand from our existing markets and new markets. In the current calendar year, we have started manufacturing fiberglass insulated winding wires which are used in the manufacturing of electromagnetic lifting magnets. Also, the Company has started selling enamelled winding wires by procuring from a third party. The Company identifies growing demand for enamelled winding wires which when used to produce transformer’s coils, increases its life substantially. In line with our vision to expand our market we are making constant efforts to identify new trends and cater them with our ability to produce new products. In addition to expanding our

product mix the Company also intends to expand its reach to new geographies within the Country. In the current calendar year, the Company has received orders from markets like Karnataka, Punjab, and Gujarat for our wires/ strips insulated with fiberglass. Enhancing our presence in a new market will help the company to diversify its dependence from current markets and helps to enhance our goodwill as a national player in our industry.

Quality Assurance

We are ISO 9001:2015 certified by International Management Certification, a body accredited by Global Accreditation Assessment Forum Series. Such accreditations, coupled with our technical capabilities and know-how enable us to manufacture products with superior quality. We will continue to maintain the quality of our existing products to cater to various customers in the market. We endeavour to maintain the quality of our products, and follow strict procedures to ensure timely delivery at competitive prices. The company intends to strengthen its product development effort by leveraging skills of its employees which will help to increase the sales of the Company and retain customers. To achieve our goal to serve our customer with the best quality product, the Company has an in-house dedicated quality control team which continuously monitors and checks the product quality.

Continue to improve operating efficiencies through technology enhancements

We continue to further develop our technology systems to increase asset productivity, operating efficiencies and strengthen our competitive position. Over the period the Company has taken adequate steps in increasing efficiency, reducing manual intervention, and diversifying the product mix. For example, the Company has integrated Online Annealer Machine, Automatic Horizontal Paper Covering Machine, Fiberglass Insulation machine which has helped to reduce cost, increase efficiency and expand the product mix. We believe that our in-house technology capabilities will continue to play a key role in effectively managing and expanding our operations, maintain strict operational and fiscal controls and continue to enhance customer service levels. We intend to continue to invest in our in-house technology capabilities to develop customized systems and processes to ensure effective management control. We continue to focus on further strengthening our operational and fiscal controls.

Our Products

We offer a wide range of products under our own “Divine” brand including:

Aluminium Strips	
<ul style="list-style-type: none"> • Aluminium Strips are drawn from Aluminium rods which are used to make aluminium winding strips. • We make strips in the range of 5 mm sq. to 150 mm sq. • We sell aluminium strips to different parties who buy from us to manufacture winding strips. 	

Copper Strips	
<ul style="list-style-type: none"> • Copper Strips are drawn from Copper rods which are used to make copper winding wire. • We manufacture strips of wide description ranging from mm sq. to 150 mm sq. depending on the customer demand. 	
Copper Wires	
<ul style="list-style-type: none"> • Copper wires are drawn from Copper rods which are used to make copper winding wires. • Copper being the good conductor is widely used in power infrastructure including electricity wires at home. In addition, copper good tensile strength, lower thermal expansion which makes it ideal to make home electrical wires. • We manufacture copper wires in the range of 0.19 mm to 4.00. 	
Aluminium Wires	
<ul style="list-style-type: none"> • Aluminium wires are drawn from Aluminium rods which are used to make aluminium strips. • Aluminium wires are widely used in power infrastructure owing to its light weight and lower cost. It is mainly used in overhead power lines. • Aluminium wires could be sold to manufactures of winding wires and overhead power lines. 	
Winding Wires	
<ul style="list-style-type: none"> • Winding wires are made by insulating Copper / Aluminium Wires with paper, crepe paper, cotton and fiberglass. • Winding wires are used to make coil of transformers, electromagnetic coil used in lifting magnets, servo inverters and motors. • We manufacture Double Paper Covered, Triple Paper Covered and Multi Paper Covered winding wires which are insulated by insulated paper/ crepe paper. We also manufacture Double Cotton Covering, Triple Cotton Covering and Multi Cotton Covering winding wires which are insulated with cotton threads. In addition, we manufacture fiberglass insulated winding wires insulated with fiberglass. • We manufacture winding wires of different description depending on the customer need. 	

Winding Strips

- Winding strips are made by insulating Copper / Aluminium strips with paper, crepe paper, cotton and fibreglass.
- Winding strips are used to make coil of transformers, electromagnetic lifting magnets, servo inverters and motors.
- Just like winding wire, we manufacture winding strips which are insulated with insulating paper, crepe paper, cotton and fibreglass.
- We manufacture winding wires of different description depending on the customer need.

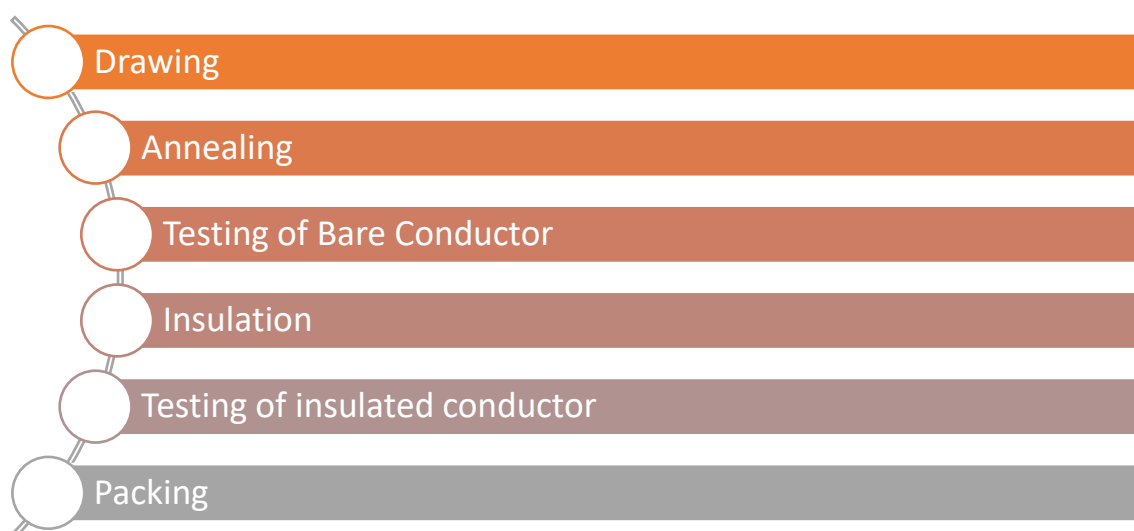

Super enamelled insulated wires

- Super enamelled insulated wires are made by insulating copper/ aluminium with super enamelled varnish.
- Super enamelled insulated wires used to manufacture coil of transformers, electromagnetic lifting magnets, servo inverters and motors.
- Super enamelled insulated wires have long life than paper coated or cotton coated winding wires and have higher temperature bearing capacity.
- We do not manufacture super enamelled insulated wires

Our manufacturing process for winding wires is as follows:

1. **Drawing:** In this process the aluminium / copper rods are drawn into wire/ strips (flat wire) through rod breakdown machine (for round wire) and conform machine (for strips). Wire/ strips are drawn in different sizes depending on the customer demand. We produce wire in the range of 0.19 mm to 4.00 mm and strips in the range of 5 mm sq. to 300 mm sq. We have sophisticated fully automatic machines which are capable of drawing wire / strips in different sizes.

- Annealing:** The bare conductor is hard due to the drawing process, which is not suitable for winding wires. To soften the conductor, it is subjected to heat using an electric furnace. In the case of stripes wires this process is integrated in the process of drawing itself. Similarly, we have adapted to an online annealing process in round wires as well. This cut shortens the process time for round wires by 24 hours and makes the production of the bare round wires which are ready for insulation an instant process.
- Testing of bare conductor:** We have an in-house facility to test the quality of the bare conductor. Our testing team takes the sample from each spool and conducts tests for quality, tensile strength, resistivity and conductivity.
- Insulation:** Once the wire / strips are tested, the same are insulated with various materials like paper, cotton, fiberglass, crepe paper. Insulation refers to the process of covering the bare wire / strips with an insulating material. The insulation is done to protect the wires from short circuiting. To protect the shorting of the transformer the insulation is done from different materials. Insulation from different materials decides the life of the transformer and the temperature bearing capacity of the transformer. The insulation from different materials are as follows

From Insulation Paper: Insulation with paper is done by covering paper around the wires/ strips. The wire/ strips are covered with paper in two or more layers. Wire/ strips when covered by two paper covering is called Double Paper Covered Conductor (DPC) and when covered with three paper covering is called Triple Paper Covered Conductor (TPC) and when covered with more than three paper covering is called Multi Paper Covered Conductor (MPC).

From Fiberglass: Two layers of fiberglass thread are wrapped on the bare conductor followed by dipping it in varnish and then it is subjected to heat using a furnace which is then cooled down using a blower. The process of varnish application and heating is carried out 3 times to get the final fiberglass insulated conductor. The thread used is cheese wound in house using a cheese winding machine to get the specified thickness of the insulation.

From Cotton: Two or more layers of cotton threads are wrapped around the conductor. Conductor when wrapped with two cotton threads is called Double Cotton Covering (DCC), when wrapped with three cotton threads is called Triple Cotton Covering (TCC) and when wrapped with more than three cotton threads is called Multi Cotton Covering (MCC).

- Testing of insulated conductor:** After insulating the conductor, the same is subject to high voltage test. In this test, voltage is applied after entangling two wires or strips together, and increased gradually to ascertain the break point at which it gets short. Transformers are meant to handle high voltage and hence it is imperative to ascertain whether the wire /strip can handle the high voltage without shorting.
- Packing:** Post final testing the insulated conductor is ready for packing. The spools of the conductor are wrapped with protective film to protect the conductor from any abrasion during transportation. The packed material is ready for dispatch.

Our Business Process:

In our business operations, we actively engage in bidding for government tenders. In addition to this, we also receive orders from private entities or parties who are in need of winding wires / strips. The process of securing business through government tenders and from private entities or parties are distinct and can be described as follows:

BIDDING PROCESS FOR GOVERNMENT TENDERS

1. **Publication of Tender Announcement/Tender Notification:** The government agency releases a tender notification in newspapers, government portals, and/or its official website to announce the tender opportunity.
2. **Internal Deliberation and Evaluation:** Prior to committing to participation, a rigorous internal deliberation process is initiated. This involves a comprehensive evaluation of the organization's capacity, resources, and alignment with the tender's specific requirements.
3. **Pre-Bid Qualification Criteria:** The tender imposes specific pre-bid qualification criteria:
 - a. **Actual Manufacturer Status:** A fundamental requirement is that bidders must establish their status as actual manufacturers of Wire of Transformers. Substantiating documentation, such as Udyam Registration Certificates, is obligatory.
 - b. **Financial Viability:** Bidders are expected to furnish evidence of financial viability, with an annual turnover exceeding a specified amount during any one of the preceding three financial years. Such evidence may consist of attested copies of Audited Financial Statements along with Chartered Accountant Certificate.
 - c. **Test Reports from Accredited Labs:** Comprehensive attested copies of Type Test reports and special test reports, procured from independent, NABL-accredited laboratories like CPRI, ERDA, among others, are mandatory for the specified capacity of distribution of Wires of Transformers.
 - d. **Production Capacity:** Production capacity in a given calendar year.
4. **Bid Submission Post Pre-Bid Compliance:** Once all the stipulated pre-bid requirements are satisfied, the organization is primed to initiate the bid submission process. This entails crafting and submitting a comprehensive bid package, inclusive of all requisite documents, qualifications, and information specified by the tendering authority.
5. **Contract award:** After evaluating the bids, the government agency will award the contract to the eligible bidder who has submitted the most favorable bid as per the evaluation criteria. The bidder will be notified either through mail or official communication.
6. **Signing of contract:** Once the bid is awarded, the selected bidder needs to sign a legally binding contract with the government agency, which outlines the terms, conditions, and payment schedule of the project.

ORDERS FROM PRIVATE ENTITIES OR PARTIES

1. **Initial Inquiry:** Customers initiate contact with the company's marketing department by submitting initial inquiries, outlining a concise overview of their specific requirements.
2. **Request for Quotation:** Following initial inquiries and discussions, customers proceed to submit a formal Request for Quotation (RFQ) to the company's marketing department. This document outlines detailed specifications for winding wires, including quantity, delivery timelines, and any other pertinent information.
3. **Evaluation of Proposal:** Customers review and assess the proposals or quotations presented by us.

4. **Place an Order:** Upon evaluating factors such as pricing, delivery time, quality standards, and the company's reputation, customers, when satisfied, proceed to place orders in accordance with the agreed-upon terms and conditions.
5. **Quality Assurance:** Throughout the manufacturing process, customers uphold open communication with the Company, ensuring that the winding wires are being manufactured according to their specifications and adhering to quality standards.
6. **Delivery and Installation:** Post-manufacturing, the delivery of winding wires are executed through coordinated efforts with customers, following the agreed-upon schedule.

Raw Materials:

Our company acquires raw materials from suppliers based in India without having specific contracts in place. The company places a strong emphasis on ensuring the quality and timely delivery of goods to its clients, leading to a diverse list of suppliers for raw materials. Our company maintains flexibility by not being tied to any specific supplier, and its list of suppliers is subject to change based on factors such as product availability, pricing, and logistics. It is to be noted that no formal agreements have been established with the following suppliers, allowing the company to adapt to changing circumstances in the procurement process.

Aluminium and Copper Rods: Our main raw materials are Aluminium and Copper Rods from which the wires and strips are drawn. These wires / strips are subject to insulation from different insulating material to manufacture winding wires. We mainly source conductor rods from Hindalco, NALCO and Birla Copper.

Insulating Paper: Insulating paper is special paper used to cover the wires/ strips. As per the customer demand we make double covered, triple covered and multi covered wires/ strips. We mainly procure insulating paper from the local market.

Crepe paper: Carpe paper is a special form of insulating paper which does not get torn easily by bending the wire/ strip. It is durable and has a longer life than normal insulating paper.

Fiberglass. From fiberglass threads are bunched together to make a thick fiber thread. Multiple threads are bunched together to get the desired thickness of insulation. Fiberglass insulated winding wires are more durable and are mainly used in dry state transformers which don't require oil for cooling. We mainly source fiber glass from China which is procured from the local distributors.

Cotton: Cotton is required to make cotton thread which are wrapped around the conductor for insulation. The insulation is done by wrapping two cotton thread, three cotton thread and multiple cotton thread to make double cotton covered, triple cotton covered and multi cotton covered winding wires. We mainly procure cotton from the local market.

Utilities

Raw Material and Component Sourcing

Our major raw material is Copper and Aluminium rods from which wires are drawn to produce winding wires. We procure raw material from reliable and major players like NALCO, Hindalco, Birla Copper (Hindalco's copper division) and few other private players. We mainly procure raw material from NALCO, Hindalco and Birla Copper which give us assurance of timely delivery and favorable terms with respect to cost, payment schedule etc.

The Company has the option to procure raw material from Hindalco and Birla Copper either by paying upfront margin money of 25 % of the present total cost of order and take delivery in the future if it expects the prices to

decrease, or alternatively take delivery at present and fix price in the future at the price which it deems favorable if it expects the prices to decrease. This payment mechanism helps company to effectively manage raw material cost owing to the price fluctuation of raw material which are linked to commodity demand, economic condition etc.

Other than Copper and Aluminium rods we procure fiberglass thread and paper for insulating wires to produce winding wires. The fiberglass thread is sourced from China whereas paper is sourced from Sweden and Japan, however we procure them through Indian distributor who import them in their own name. The imported raw material is of better quality however, we may procure fiberglass thread and paper from Indian players if import of these products is restricted or if cost of import increases owing to increase in import duty. We enjoy the credit period of 15-30 days and have never faced a challenge to procure the raw material and expect the same for the future.

Certification

We have following certification on Quality Management System.

Issuing Organization	Certification Number	Creation Date	Expiry Date
International Management Certification	ISO 9001: 2015	August 12, 2021	August 11, 2024

Following tests are conducted at our manufacturing premise.

We have in-house test lab with dedicated team which constantly gauge the product quality and ensure desired quality as demanded by our customer. Our product, winding wires and strips has to be of specific dimension and must meet the parameters with respect to tensile strength, ductility, conductivity and ability to withstand high voltage. We conduct the following test at our manufacturing premise.

Size Test

We manufacture winding wire of different diameter and strips of different height, width and corner radius. Our in-house testing team take the sample from every spool and test the size of the wire/ strips. We use digital micrometers to measure the dimensions of the conductor.

Conductivity Test

Electrical conductivity is the measure of the amount of electrical current a material can carry or it's ability to carry a current. Our testing team conduct tests on wire / strips to confirm the desired results. We use a conductivity meter setup to measure conductivity of the conductor.

High Voltage Test

We conduct High Voltage Test to ascertain whether the conductor can withstand the desired voltage or not. In this test two wires/ strips are entangled together and are subjected to high voltage which is raised slowly and gradually to get the point at which it will get short. This test is conducted to ascertain the break point of the conductor. We use high voltage breakdown to conduct this test.

Tensile Test.

Tensile strength refers to the property of the metal to extend or stretch without breaking. In this test the wires / strips are pulled from both ends to test tensile strength. We have tensile testing machines to conduct this test

Our Machineries

The following is a brief description of the critical machineries deployed by us in the manufacturing processes carried out at our Manufacturing Facility:

Note: The Company do not use any leased Machinery

Water

The water requirements at our Manufacturing Facility are met through water tankers procured from local water supply providers on a need-basis during the course of our business operations.

Power

Our Manufacturing Facility and registered office have adequate power supply position from the public supply utilities. For the Manufacturing Facility, we have a connected load of 33 KVA from Paschimanchal Vidyut Vitaran Nigam Limited (PVVNL). Further, we have a 24x7 power backup at our Manufacturing Facility through a DG set supporting our critical manufacturing operations.

Capacity Utilization

We produce winding wires/ strips from Cotton and Aluminium, the combined installed capacity and actual production is given below

(In Metric Tonnes)

Capacity Utilisation	March 31, 2024	March 31, 2023	March 31, 2022
Installed Capacity	8,400	7,500	7,500
Actual Production	4,188	2,925	3,600
% Utilization	49.86%	39.00%	48.00%

The under-utilisation of installed capacity is mainly due to higher working capital requirement in our business as evident from the table provided below. The Company needs to fund the revenue growth by offering longer credit period to its debtors and maintaining higher inventory to support the incremental growth in the revenue. The working capital requirement of the Company is directly proportional to the growth in the topline. The Company strive to maintain the balance between the growth and profitability.

(in days)

Particulars	Year Ended		
	March 31, 2024	March 31, 2023	March 31, 2022
Debtor Cycle	34	67	63
Inventory Cycle	81	76	83
Creditor Cycle	5	10	15
Working Capital Cycle	110	133	131

Other than working capital requirement, our capacity utilization levels are dependent on our ability to carry out uninterrupted operations at manufacturing facility as well as on the market demand of the products sold by us. Among others, the capacity utilization also depends upon the availability of raw materials, labour, industry/ market conditions and procurement practice followed by our customers

Environmental, Health and Safety matters

As our Company does not deal in hazardous products, we are not required to obtain Pollution Certificate from the local authorities. The Company takes utmost care of the safety of its employees and adhere to common safety measures such as installation of fire extinguishers, and employee training by third parties. The Company continuously watches the health of its employees and take the necessary steps to eliminate any risk associated with health and safety of its employees.

We have adopted safety procedures at our Manufacturing Facility, particularly in relation to the production, handling, storage and transportation of materials. In addition, our staff is trained for safety at work and manuals

for various activities. This includes knowledge about storage, handling and disposal of materials, which they handle. We have provided necessary personal protection equipment for the safety of our workers.

Sales and Marketing

Our products have high demand owing to growing power infrastructure and revamping existing infrastructure. The demand of our products is driven by satisfied customers, our image in the market, quality of the product and ability to cater the specific needs of our customers. The Company gives advertisement every month in the business magazine / portal “99 Electrical World” devoted to Electrical Products, Market and Industry and in the “AITMA’s (All India Transformer Manufacturers Association)’s magazine”. The portal features numerous Manufacturers, Suppliers, Dealers, Distributors, Traders and Sellers dealing in Electrical Components, Equipments, Products and Electrical Machines. We believe 99 Electrical World and the AITMA are adequate platforms to market our product as it caters to reach our target audience.

Quality Assurance

We are ISO 9001:2015 certified by International Management Certification, a body accredited by Global Accreditation Assessment Forum Series. We have an in-house lab for testing the quality of our product. We give highest attention to our product quality and for that we take samples from every spool of the product. We have two dedicated employees in our quality control team who work under overall supervision of our Board of directors. Our quality control team ensures that our raw materials as well as end products are tested on all quality parameters to ensure that we are compliant with the international product standards.

Insurance

Our operations are subject to hazards inherent to manufacturing winding wires / strips industry, such as work accidents, storms, fire, tempest, earthquake, flood and other force majeure events, inundation and explosions including hazards that may cause severe damage, including damage caused to employees. We are also subject to losses resulting from defects or damages arising during transit of our Products in addition to risk of equipment

failure, acts of terrorism and environmental damage. We may also be subject to product liability claims if the products that we manufacture are not in compliance with regulatory standards and the terms of our contractual arrangements.

In this regard, our Company has maintained various insurance policies, in amounts that we believe are commercially appropriate are as follows:

Human Resources

Our workforce is a critical factor in maintaining quality and safety which strengthens our competitive position and our human resource policies focus on training and retaining our employees. We identify, develop and retain our talent through an array of initiatives which include talent acquisition, learning and development, compensation and benefits, employee engagement and performance management. We train our employees on a regular basis to increase the level of operational excellence, improve productivity and maintain compliance standards on quality and safety. We believe our management policies, working environment, career development opportunities, appraisal mechanism and employee benefits are instrumental in maintaining good employee relations and employee retention.

As on the date of filing of this Red Herring Prospectus our Company has a total of 40 permanent employees. We also employ 5 -10 contract workers from time to time depending on the business need. The breakup of permanent employees is detailed below:

Competition

In the listed space Shera Energy Limited, Bhagyanagar India Limited, Rajnandini Metal Limited, Ram Ratna Wires Limited and Precision Wires India Limited are our competitor as they manufacture all kind aluminium / copper winding wires i.e. paper insulated, Enamel coated and Fiberglass Insulated etc. In addition to winding wires, our competitors also manufacture tubes, billets, rods, sheets, nuggets and bus bars made from copper, aluminium, and brass. Considering the size of our competitors and the scale at which they operate we face stiff competition from them. Some of our competitors have deep pockets owing to their size, which limit our capability to cater the growing demand and match the ever-evolving technological developments. However, owing to huge demand for our product, our competitiveness and size of market we do not envisage major disruption from our competitors.

Corporate Social Responsibility

In compliance with the requirements of the Companies Act, 2013 and the Companies (Corporate Social Responsibility) Rules, 2014 notified by Central Government and amendments thereto. As on the date of this Red Herring Prospectus Corporate Social Responsibility are not applicable on us.

KEY INDUSTRY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the GoI and other regulatory bodies that are applicable to our business. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by regulatory bodies, and the bye laws of the respective local authorities that are available in the public domain. The regulations set out below may not be exhaustive and are merely intended to provide general information to the shareholders and neither designed, nor intended to substitute for professional legal advice. For details of government approvals obtained by us, see the section titled “Government and Other Statutory Approvals” on page 211.

Our business is governed by various central and state legislations that regulate the substantive and procedural aspects of our business. We are required to obtain and regularly renew certain licenses/ registrations and / or permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye laws, acts and policies.

Given below is a brief description of the certain relevant legislations that are currently applicable to the business carried on by us:

BUSINESS RELATED REGULATION

LEGAL METROLOGY ACT, 2009 (“LEGAL METROLOGY ACT”)

The Legal Metrology Act, 2009 came into effect on January 14, 2010 and has repealed and replaced the Standard of Weights and Measures Act, 1976 and the Standards of weights and Measures (Enforcement) Act, 1985. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matters incidental thereto. The Legal Metrology Act, inter alia, provides for: (a) approval of model of weight or measure; (b) verification of prescribed weight or measure by Government approved Test Centre; (c) exempting regulation of weight or measure or other goods meant for export; (d) nomination of a Director by a company who will be responsible for complying with the provisions of the enactment; (e) empowering the Central Government to make rules for enforcing the provisions of the enactment; and (f) penalty for offences and compounding of offences.

THE MICRO, SMALL AND MEDIUM ENTERPRISES DEVELOPMENT ACT, 2006

In order to promote and enhance the competitiveness of Micro, Small and Medium Enterprise (MSME) the act is enacted. A National Board shall be appointed and established by the Central Government for MSME enterprise with its head office at Delhi in the case of the enterprises engaged in the manufacture or production of goods pertaining to any industry mentioned in first schedule to Industries (Development and regulation) Act, 1951 as

—a Micro enterprise, where the investment in plant and machinery does not exceed one crore rupees and annual turnover does not exceed five crore rupees; or

—a Small enterprise, where the investment in plant and machinery is more than one crore rupees but does not exceed ten crore rupees and annual turnover is more than five crore rupees but does not exceed fifty crore rupees; or

—a Medium enterprise, where the investment in plant and machinery is more than ten crore rupees but does not exceed fifty crore rupees and annual turnover is more than fifty crore rupees but does not exceed two hundred and fifty crore rupees.

LAWS RELATING TO EMPLOYMENT AND LABOUR

FACTORIES ACT, 1948

The Factories Act, 1948 (“Factories Act”) consolidates the law relating to labour in factories. The main objective of the Factories Act is to regulate the working conditions in factories, to regulate health, safety welfare, and annual leave and enact special provision in respect of young persons, women and children who work in the factories. Any factory which fulfils the criteria given in the Factories Act is required to obtain a registration under the Factories Act. Under the Factories Act, the State Government may make rules mandating approval for proposed factories and requiring licensing and registration of factories.

MINIMUM WAGES ACT, 1948

This Act aims to make provisions for statutory fixation of minimum rates of wages in scheduled employment wherein labour is not organized. It seeks to prevent the exploitation of workers and protect their interest in the ‘sweated industries’. Wage fixing authorities have been guided by the norms prescribed by the Fair Wage Committee in the settlement of issues relating to wage fixation in organized industries. The Act contemplates the minimum wage rates must ensure not only the mere physical needs of a worker which keeps them just above starvation level, but must ensure for him and his family’s subsistence, and also to preserve his efficiency as a worker.

THE PAYMENT OF WAGES ACT, 1936

The Payment of Wages Act, 1936 (“PW Act”) is applicable to the payment of wages to persons in factories and other establishments. PW Act ensures that wages that are payable to the employee are disbursed by the employer within the prescribed time limit and no deductions other than those prescribed by the law are made by the employer.

PAYMENT OF GRATUITY ACT, 1972

The Payment of Gratuity Act, 1972 (“Act”) was enacted with the objective to regulate the payment of gratuity, to an employee who has rendered for his long and meritorious service, at the time of termination of his services. A terminal Lump sum benefit paid to a worker when he or she leaves employment after having worked for the employer for a prescribed minimum number of years is referred to as "gratuity." The provisions of the Act are applicable to all the factories. The Act provides that within 30 days of opening of the establishment, it has to notify the controlling authority in Form A and thereafter whenever there is any change in the name, address or change in the nature of the business of the establishment a notice in Form B has to be filed with the authority. The Employer is also required to display an abstract of the Act and the rules made there-under in Form U to be affixed at the or near the main entrance. Further, every employer has to obtain insurance for his Liability towards gratuity payment to be made under Payment of Gratuity Act 1972, with Life Insurance Corporation or any other approved insurance fund.

PAYMENT OF BONUS ACT, 1965

The Payment of Bonus Act, 1965 is applicable to every establishment employing 20 or more employees. The said Act provides for payment of the minimum bonus to the employees specified under the Act. It further requires the maintenance of certain books and registers such as the register showing computation of the allocable surplus; the register showing the set on & set off of the allocable surplus and register showing the details of the amount of Bonus due to the employees. Further it also requires for the submission of Annual Return in the prescribed form (Form D) to be submitted by the employer within 30 days of payment of the bonus to the Inspector appointed under the Act.

CHILD LABOUR (PROHIBITION AND REGULATION) ACT, 1986

This statute prohibits employment of children below 14 years of age in certain occupations and processes and provides for regulation of employment of children in all other occupations and processes. Under this Act the employment of child labour in the building and construction industry is prohibited.

CONTRACT LABOUR (REGULATION AND ABOLITION) ACT, 1970

The Contract Labour (Regulation and Abolition) Act, 1970 (“**CLRA**”) is an act to regulate the employment of contract labour in certain establishments and to provide for its abolition in certain circumstances. The CLRA applies to every establishment in which 20 (twenty) or more workmen are employed or were employed on any day of the preceding 12 (twelve) months as contract labour. It also applies to every contractor who employs or who employed on any day of the preceding 12 (twelve) months, 20 (twenty) or more workmen provided that the appropriate Government may after giving not less than 2 (two) months’ notice, by notification in the Official Gazette, apply the provisions of the CLRA to any establishment or contractor. Further, it contains provisions regarding Central and State Advisory Board under the CLRA, registration of establishments, and prohibition of employment of contract labour in any process, operation or other work in any establishment by the notification from the State Board, licensing of contractors and welfare and health of the contract labour. The Contract Labour (Regulation and Abolition) Central Rules, 1971 are formulated to carry out the purpose of the CLRA.

EQUAL REMUNERATION ACT, 1976

Equal Remuneration Act, 1976 provides for payment of equal remuneration to men and women workers and for prevention of discrimination, on the ground of sex, against female employees in the matters of employment and for matters connected therewith.

WORKMEN’S COMPENSATION ACT 1923

This Act came into force on April 01, 1924. It aims at providing financial protection to workmen and their dependents in case of accidental injury by means of payment of compensation by the employers. However, here the employer shall not be liable in respect of any injury that does not result in the total or partial disablement of the workmen for a period exceeding 3 days in respect of any injury not resulting in death, caused by an accident which was due to the reason that workman was under the influence of drugs, or due to his willful disobedience of an order expressly given to him, or a willful removal or disregard of any safety device by the workmen, or when the employee has contracted a disease which is not directly attributable to a specific injury caused by the accident or to the occupation.

THE EMPLOYEES PROVIDENT FUNDS AND MISCELLANEOUS PROVISIONS ACT, 1952

The Employees’ Provident Funds and Miscellaneous Provisions Act, 1952 is a social welfare legislation to provide for the institution of Provident Fund, Pension Fund and Deposit Linked Insurance Fund for employees working in factories and other establishments. The Act aims at providing social security and timely monetary assistance to industrial employees and their families when they are in distress.

The Act is administered by the Government of India through the Employees' Provident Fund Organization (EPFO). The following three schemes have been framed under the Act by the Central Government:

- (a) The Employees’ Provident Fund Schemes, 1952;
- (b) The Employees’ Pension Scheme, 1995; and
- (c) The Employees’ Deposit-Linked Insurance Scheme; 1976.

The Central Government has been constituted Employees' Provident Funds Appellate Tribunal to exercise the powers and discharge the functions conferred on such by Employees’ Provident Funds and Miscellaneous Provisions Act, 1952.

EMPLOYEES STATE INSURANCE ACT, 1948

The promulgation of Employees' State Insurance Act, 1948 (ESI Act), by the Parliament was the first major legislation on social Security for workers in independent India. It was a time when the industry was still in a nascent stage and the country was heavily dependent on an assortment of imported goods from the developed or fast developing countries. The deployment of manpower in manufacturing processes was limited to a few select industries such as jute, textile, chemicals etc. The legislation on creation and development of a fool proof multi-dimensional Social Security system, when the country's economy was in a very fledgling state was obviously a remarkable gesture towards the socio-economic amelioration of a workforce though limited in number and geographic distribution. India, notwithstanding, thus, took the lead in providing organized social protection to the working class through statutory provisions.

THE INDUSTRIAL DISPUTES ACT, 1947 AND INDUSTRIAL DISPUTE (CENTRAL) RULES, 1957:

Industrial Dispute Act, 1947 and the Rules made thereunder provide for the investigation and settlement of industrial disputes. The Industrial Disputes Act, 1947 (IDA) was enacted to make provision for investigation and settlement of industrial disputes and for other purposes specified therein. Workmen under the ID Act have been provided with several benefits and are protected under various labour legislations, whilst those persons who have been classified as managerial employees and earning salary beyond a prescribed amount may not generally be afforded statutory benefits or protection, except in certain cases. The Industrial Dispute (Central) Rules, 1957 specify procedural guidelines for lock-outs, closures, lay-offs and retrenchment.

MATERNITY BENEFIT ACT, 1961

Maternity Benefit Act, as amended from time to time ("MB Act") entitles a woman employee who has been in employment with the employer for eighty (80) days in the twelve (12) months immediately preceding her delivery to maternity leave of twelve (12) weeks, of which not more than six (6) weeks can precede the date of her delivery. The MB Act further provides for (i) paid leave of six (6) weeks for miscarriage or medical termination of pregnancy; (ii) paid leave of two (2) weeks following the date of tubectomy operation; (iii) one (1) month's paid leave on account of any illness occurred after pregnancy, delivery, miscarriage, medical termination of pregnancy or tubectomy operation; and (iv) medical bonus of Rs.3,500 (Rupees three thousand five hundred) from the employer if no pre-natal confinement or post-natal care is provided by the employer free of charge. The Lok Sabha passed the Maternity Benefit (Amendment) Act, 2016 ("Amendment"), which has received presidential assent and was came into force with effect from March 28, 2017. The Amendment has increased paid maternity leave from twelve (12) weeks to twenty six (26) weeks for women having two surviving children and provides for twelve (12) weeks maternity leave for women having more than two children. The Amendment also provides for paid leave of twelve (12) weeks for commissioning mothers (in case of surrogacy) and adopting mothers who legally adopt a child below the age of three (3) months. The Amendment also codified a 'work from home' option for women after the period of maternity leave depending on the nature of work and on certain mutually agreed terms and conditions between the employer and the woman. The Amendment mandates employers employing more than fifty (50) employees in an establishment to provide crèche facilities where women are allowed to visit four times in a day.

THE SEXUAL HARASSMENT OF WOMEN AT WORKPLACE (PREVENTION, PROHIBITION AND REDRESSAL) ACT, 2013 ("SHWW ACT")

The SHWW Act provides for the protection of women at work place and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favour or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e. a written complaint is to be made within a period of 3 (three) months from the date of the last incident. If the establishment has less than 10 (ten) employees, then the complaints from employees

of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs. 50,000/- (Rupees Fifty Thousand Only).

INTELLECTUAL PROPERTY LAWS

Intellectual Property in India enjoys protection under both common law and statute. Under statute, India provides for patent protection under the Patents Act, 1970, copyright protection under the Copyright Act, 1957, trademark protection under the Trade Marks Act, 1999 and design protection under the Designs Act, 2000. The above enactments provide for protection of intellectual property by imposing civil and criminal liability for infringement.

TRADEMARKS ACT, 1999

A trademark is used in relation to goods so as to indicate a connection in the course of trade between the goods and a person having the right as proprietor or user to use the mark. The Trademarks Act, 1999, (Trademarks Act) governs the registration, acquisition, transfer and infringement of trademarks and remedies available to a registered proprietor or user of a trademark. Registration is valid for a period of 10 years but can be renewed in accordance with the specified procedure. As per the Trademarks (Amendment) Bill, 2009, Registrar of Trade Marks is empowered to deal with international applications originating from India as well as those received from the International Bureau and maintain a record of international registrations. It also removes the discretion of the Registrar to extend the time.

COPYRIGHT ACT, 1957

The Copyright Act, 1957 protects literary and dramatic works, musical works, artistic works including maps and technical drawings, photographs and audio-visual works (cinematograph films and video).

PATENTS ACT, 1970

The Patents Act, 1970 (the “Patents Act”) governs the patent regime in India. Being a signatory to the Agreement on Trade Related Aspects of Intellectual Property Rights, India is required to recognise product patents as well as process patents. In addition to the broad requirement that an invention, a patent has to satisfy the requirements of novelty, utility and non-obviousness in order for it to avail patent protection. The Patents Act stipulates that patent protection may not be granted to certain specified types of inventions and materials even if they satisfy the above criteria. The Patents Act prohibits any person resident in India from applying for patent for an invention outside India without making an application for the invention in India. The term of a patent granted under the Patents Act is twenty (20) years from the date of filing of the application for the patent.

ENVIRONMENTAL LAWS

ENVIRONMENT PROTECTION ACT, 1986

The purpose of the Environment Protection Act, 1986 is to act as an umbrella legislation providing a framework for Central Government to co-ordinate of environment protection activities of various central and state authorities. The said Act prohibits person carrying on business, operations, process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed by the Government in this regard.

WATER (PREVENTION & CONTROL OF POLLUTION) ACT, 1974

The Water (Prevention & Control of Pollution) Act, 1974 (“Water Act”) provides for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water, for the establishment, with a view to carrying out the purposes aforesaid, of Boards for the prevention and control of water pollution, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Water Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into any water resources or on land/air and polluting thereby the environmental water/air is required to obtain consent.

AIR (PREVENTION & CONTROL OF POLLUTION) ACT, 1981

The Air (Prevention & Control of Pollution) Act, 1981 (“Air Act”) provide for the prevention, control and abatement of air pollution, for the establishment, with a view to carrying out the aforesaid purposes, of Boards, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Air Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into air and polluting thereby the environmental air is required to obtain consent.

TAXATION & DUTY LAWS

THE CENTRAL GOODS AND SERVICES TAX ACT, 2017

The Government of India proposed a comprehensive national goods and services tax ("GST") regime that would combine taxes and levies by the Central and State Governments into a unified rate structure. In this regard, the Constitution (101 Amendment) Act 2016, which received presidential assent on September 8, 2016, enabled the Government of India and State Government to introduce GST. Accordingly, GST was enacted to make a provision for levy and collection of tax on supply of goods or services or both and was made effective from July 1, 2017. GST is a destination based tax levied on supply of goods and services. GST is levied on all transactions such as sale, transfer, purchase, barter, lease, or import of goods and/or services. India adopted a dual GST model, meaning that taxation is administered by both the Union and State Governments. Transactions made within a single state are levied with Central GST (CGST) by the Central Government and State GST (SGST) by the Government of that State. For inter-State transactions and imported goods or services, an Integrated GST (IGST) is levied by the Central Government. GST will be levied on all stages of the supply chain till the final sale to consumers, providing ITC the supply chain. There will be four tax rates namely 5%, 12%, 18% and 28%. The rates of GST applied are subject to variations based on the goods and services.

INCOME TAX ACT, 1961

The government of India imposes an income tax on taxable income of all *persons* including individuals, Hindu Undivided Families (HUFs), companies, firms, association of persons, body of individuals, local authority and any other artificial judicial person. Levy of tax is separate on each of the persons. The levy is governed by the Indian Income Tax Act, 1961. The Indian Income Tax Department is governed by CBDT and is part of the Department of Revenue under the Ministry of Finance, Govt. of India. Income tax is a key source of funds that the government uses to fund its activities and serve the public. The quantum of tax determined as per the statutory provisions is payable as: a) Advance Tax; b) Self-Assessment Tax; c) Tax Deducted at Source (TDS); d) Tax Collected at Source (TCS); e) Tax on Regular Assessment.

IN GENERAL

THE COMPANIES ACT, 2013

The Companies Act, 2013 ("CA 2013") has been introduced to replace the existing Companies Act, 1956 in a phased manner. The CA 2013 primarily regulates the formation, financing, functioning and winding up of companies. The CA 2013 prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial and managerial aspects of the company. It plays a fundamental role in protecting the investors and the shareholders and balances it with different aspects of company autonomy. The Ministry of Corporate Affairs has also issued Rules complementary to the Act, establishing the procedure to be followed by the companies in order to comply with the substantive provisions of the CA 2013.

THE INDIAN CONTRACT ACT, 1872

The Indian Contract Act, 1872 ("Contract Act") codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. A person is free to contract on any terms he chooses. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. It provides a framework of rules and regulations that govern formation and

performance of contract. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

BUREAU OF INDIAN STANDARDS ACT, 2016 (“BIS ACT”)

The BIS Act provides for the establishment of the Bureau of Indian Standards (“BIS”) for the development of activities of standardization, conformity assessment and quality certification of goods, articles, processes, systems and services. The BIS Act provides for the functions of the BIS which includes, among others (a) to publish, establish, promote and review Indian standards; (b) to adopt as Indian standard, any standard, established by any other institution in India or elsewhere, in relation to goods, articles, processes, systems or services; (c) to carry out functions necessary for promotion, monitoring and management of the quality of goods, articles, processes, systems and services and to protect the interests of consumers and other stake holders; and (d) undertake, support and promote research necessary for formulation of Indian standards. The BIS Act empowers the Central Government to order compulsory use of standard mark for any goods or article if it finds it expedient to do so in public interest, national security, protection of human, animal or plant health, safety of environment or prevention of unfair trade practices. The BIS Act also provides the penalties in case there is a contravention of the provisions of the BIS Act.

THE CONSUMER PROTECTION ACT, 1986

The Consumer Protection Act ("COPRA") aims at providing better protection to the interests of consumers and for that purpose makes provisions for the establishment of authorities for the settlement of consumer disputes. The COPRA provides a mechanism for the consumer to file a complaint against a trader or service provider in cases of unfair trade practices, restrictive trade practices, defects in goods, deficiency in services; price charged being unlawful and goods being hazardous to life and safety when used. The COPRA provided for a three tier consumer grievance redressal mechanism at the national, state and district levels.

THE TRANSFER OF PROPERTY ACT, 1882

The Transfer of Property Act, 1882 ("TP Act") as amended, establishes the general principles relating to transfer of property in India. It forms a basis for identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingencies and vested interest in the property. It also provides for the rights and liabilities of the vendor and purchaser in a transaction of sale of land.

THE ARBITRATION AND CONCILIATION ACT, 2015

The Arbitration and Conciliation Act ("Arbitration Act") was enacted to consolidate and amend the law relating to domestic arbitration, international commercial arbitration and enforcement of foreign arbitral awards as also to define the law relating to conciliation and for matters connected therewith or incidental thereto. The Act provides for the arbitral tribunal to give reasons for its arbitral award, to ensure that the arbitral tribunal remains within the limits of its jurisdiction and thus minimizing the supervisory role of courts in the arbitral process. There are many provisions that also permit an arbitral tribunal to use mediation, conciliation or other procedures during the arbitral proceedings to encourage settlement of disputes, to provide that every final arbitral award is enforced in the same manner as if it were a decree of the court, to provide that a settlement agreement reached by the parties as a result of conciliation proceedings will have the same status and effect as an arbitral award on agreed terms on the substance of the dispute rendered by an arbitral tribunal and to provide that, for purposes of enforcement of foreign awards, every arbitral award made in a country to which one of the two International Conventions relating to foreign arbitral awards to which India is a party applies, will be treated as a foreign award.

NEGOTIABLE INSTRUMENTS ACT, 1881

In India, cheques are governed by the Negotiable Instruments Act, 1881, which is largely a codification of the English Law on the subject. The Act provides effective legal provision to restrain people from issuing cheques without having sufficient funds in their account or any stringent provision to punish them in the event of such cheque not being honoured by their bankers and returned unpaid. Section 138 of the Act, creates statutory offence

in the matter of dishonour of cheques on the ground of insufficiency of funds in the account maintained by a person with the banker which is punishable with imprisonment for a term which may extend to two year, or with fine which may extend to twice the amount of the cheque, or with both.

FOREIGN EXCHANGE AND MANAGEMENT ACT, 1999 (“FEMA”)

Foreign investment in India is governed by the provisions of the Foreign Exchange and Management Act, 1999 (“FEMA”) and the rules, regulations, notifications issued under the same, read with the extant Consolidated Foreign Direct Investment Policy, as issued by the Department of Industrial Policy and Promotion (“DIPP”). The Reserve Bank of India (“RBI”), in exercise of its powers under FEMA, has notified various regulations governing the purchase, sale, allotment or subscription of securities of an Indian company to a non-resident individual or entity. Pursuant to the aforementioned legal framework, no permission is required for investment in sectors falling under the ‘automatic route’ within the specified sectoral caps.

COMPETITION ACT, 2002

The Competition Act is an act to prevent practices having adverse effect on competition, to promote and sustain competition in markets, to protect the interests of consumers and to ensure freedom of trade in India. The act deals with prohibition of (i) certain agreements such as anti-competitive agreements and (ii) abuse of dominant position and regulation of combinations. No enterprise or group shall abuse its dominant position in various circumstances as mentioned under the Competition Act. The prima facie duty of the Competition Commission of India (“Commission”) is to eliminate practices having adverse effect on competition, promote and sustain competition, protect the interests of consumers and ensure freedom of trade. The Commission shall issue notice to show cause to the parties to combination calling upon them to respond within 30 days in case it is of the opinion that there has been an appreciable adverse effect on competition in India. In case a person fails to comply with the directions of the Commission and Director General (as appointed under Section 16(1) of the Competition Act), he shall be punishable with a fine which may extend to Rs.100,000 for each day during such failure subject to maximum of Rs.10,000,000, as the Commission may determine.

INFORMATION TECHNOLOGY, 2000

The Information Technology, 2000 is an act to provide legal recognition for transactions carried out by means of electronic data interchange and other means of electronic communication, commonly referred to as "electronic commerce", which involve the use of alternatives to paper-based methods of communication and storage of information, to facilitate electronic filing of documents with the Government agencies and further to amend the Indian Penal Code, the Indian Evidence Act, 1872, the Bankers' Books Evidence Act, 1891 and the Reserve Bank of India Act, 1934 and for matters connected therewith or incidental thereto. Where any law provides that information or any other matter shall be authenticated by affixing the signature or any document shall be signed or bear the signature of any person (hen, notwithstanding anything contained in such law, such requirement shall be deemed to have been satisfied, if such information or matter is authenticated by means of digital signature affixed in such manner as may be prescribed by the Central Government. Penalty for damage to computer, computer system and failure to furnish information return, etc., shall be to pay damages by way of compensation not exceeding one crore rupees to the person so affected and not exceeding one lakh and fifty thousand rupees for each such failure respectively.

DIVINE POWER ENERGY LIMITED

(Formerly known as 'PDRV ENTERPRISES PRIVATE LIMITED')

RESTATED SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES	
ANNEXURE-4	
1. General Information	
Divine Power Energy Limited (Formerly known as "PDRV Enterprises Private Limited"), incorporated on August 24, 2001 is engaged in manufacturing of insulated wire, cable wire, cable and other insulated conductors. The Company is a unlisted public limited company with its registered office in New Delhi.	
2. Summary of Significant Accounting Policies	
2.1 Basis of Preparation	
The Restated Summary Statement of the Assets and Liabilities, of the Company as at March 31, 2024, March 31, 2023 and March 31, 2022, the Restated Summary Statement of Profits and Losses and the Restated Summary Statement of Cash Flows, for the reporting periods ended March 31, 2024, March 31, 2023 and March 31, 2022 (collectively referred to as 'Restated Summary Statements') have been compiled by the management of the Company from the audited financial statements of the Company for the periods ended March 31, 2024, March 31, 2023 and March 31, 2022 and have been prepared specifically for the purpose of inclusion in the offer document to be filed by the Company with the Securities and Exchange Board of India ('SEBI') in connection with the proposed Initial Public Offering (hereinafter referred to as 'IPO').	
The audited financial statements were prepared in accordance with the accounting principles generally accepted in India, including the Accounting Standards as specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). The audited financial statements were prepared on a going concern basis under the historical cost convention on accrual basis. The accounting policies were consistently applied by the Company unless otherwise stated.	
Effective 01 April 2014, Schedule III notified under the Companies Act, 2013 was applicable to the Company for preparation and presentation of its financial statements. The adoption of Schedule III of the Companies Act, 2013 did not impact recognition and measurement principles followed for preparation of financial statements.	
The Restated Summary Statement of the Assets and Liabilities, profits and losses and cash flows have been prepared to comply in all material respects with the requirement of Section 26(1)(b) of the Companies Act, 2013, read with rules 4 to 6 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (as amended from time to time).	
2.2 Operating Cycle	
Based on the nature of products / activities of the company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.	
2.3 Use of Estimates	
The preparation of the financial statements in conformity with Indian GAAP requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported amounts of income and expenses during the year. The Management believes that the estimates used in preparation of standalone financial statements are prudent and reasonable. Estimates and underlying assumptions are reviewed at each balance sheet date. Future results could differ due to these estimates and the differences between the actual results and estimates are recognized in the periods in which the results are known/materialise.	
2.4 Revenue Recognition	
(i) Sale of Goods	
Sales of goods are recognized on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.	
The company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers as reduction of revenue on a systematic and rational basis.	
Revenues are shown net of allowances/ returns, goods and services tax and applicable discounts and allowances.	
(ii) Interest Income	

Interest income is accrued on a time proportion basis, by reference to the principle outstanding and the effective interest rate applicable.
2.5 Inventories
Finished goods are valued at the lower of cost (First in First Out -FIFO basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi and other levies, transit insurance and receiving charges. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty. Raw Material is valued at cost (First in First Out -FIFO basis).
2.6 Provisions and Contingencies
A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.
A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.
2.7 Intangible Assets
Goodwill is an asset representing the future economic benefits arising from other assets acquired in a business combination that are not individually identified and separately recognized.
Goodwill is initially measured at cost, being the excess of the consideration transferred over the net identifiable assets acquired and liabilities assumed.
Goodwill is considered to have indefinite useful life and hence is not subject to amortization but tested for impairment at least annually. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.
For the purpose of impairment testing, goodwill acquired in a business combination, is from the acquisition date, allocated to each of the Company's cash generating units (CGUs) that are expected to benefit from the combination.
A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. Each CGU or a combination of CGUs to which goodwill is so allocated represents the lowest level at which goodwill is monitored for internal management purpose and it is not larger than an operating segment of the Company.
A CGU to which goodwill is allocated is tested for impairment annually, and whenever there is an indication that the CGU may be impaired, by comparing the carrying amount of the CGU, including the goodwill, with the recoverable amount of the CGU. If the recoverable amount of the CGU exceeds the carrying amount of the CGU, the CGU and the goodwill allocated to that CGU is regarded as not impaired. If the carrying amount of the CGU exceeds the recoverable amount of the CGU, the Company recognizes an impairment loss by first reducing the carrying amount of any goodwill allocated to the CGU and then to other assets of the CGU pro-rata based on the carrying amount of each asset in the CGU.
2.8 Property, Plant and Equipment
Property, Plant and Equipment are carried at cost less accumulated depreciation / amortisation and impairment losses, if any. Acquisition Cost comprises its purchase price net of any trade discounts and rebates, any import duties and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use, other incidental expenses and interest on borrowings attributable to acquisition of qualifying fixed assets up to the date the asset is ready for its intended use. Subsequent expenditure on fixed assets after its purchase / completion is capitalised only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance.
Losses arising from the retirement of, and gains or losses arising from disposal of fixed assets which are arrived at cost are recognised in the Statement of Profit and Loss.

Depreciation has been provided in accordance with useful lives prescribed in the Companies Act, 2013 on Written Down Value method.
Depreciation on fixed assets has been provided on written down value method in accordance with the manner specified in Schedule II of the Companies Act, 2013.
2.9 Cash and Cash Equivalents
Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.
2.10 Cash Flow Statement
Cash flows are reported using the indirect method, whereby net profit before extraordinary items and tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.
2.11 Taxes on Income
Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and other applicable tax laws.
Deferred tax is recognised on timing differences, being the differences between the taxable income and the accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted as at the reporting date. Deferred tax liabilities are recognised for all timing differences. Deferred tax assets are recognised for timing differences of items other than unabsorbed depreciation and carry forward losses only to the extent that reasonable certainty exists that sufficient future taxable income will be available against which these can be realised. However, if there is unabsorbed depreciation and carry forward of losses and items relating to capital losses, deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that there will be sufficient future taxable income available to realise the assets. Deferred tax assets are reviewed at each balance sheet date for their realisability.
2.12 Earnings per Share
Basic earnings per share is computed by dividing the net profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period presented. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.
2.13 Employee Benefits
The Company provides for the various benefits plans to the employees. These are categorized into Defined Benefits Plans and Defined Contributions Plans. Defined contribution plans includes the amount paid by the company towards the liability for Provident fund to the employees provident fund organization and Employee State Insurance fund in respect of ESI and defined benefits plans includes the retirement benefits, such as gratuity.
a. In respect Defined Contribution Plans, contribution made to the specified fund based on the services rendered by the employees are charged to Statement of Profit & Loss in the year in which services are rendered by the employee.
b. Liability in respect of Defined Long Term benefit plan is determined at the present value of the amounts payable determined using actuarial valuation techniques performed by an independent actuarial at each balance sheet date using the projected unit credit methods. Re-measurement, comprising actuarial gain and losses, the effects of assets ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the statement of Financial Position with a charge or credit recognized in other

comprehensive income in the period in which they occur. Past Service cost is recognized in the statement of profit & loss in the period of plan amendment.
c. Liabilities for short term employee benefits are measured at undiscounted amount of the benefits expected to be paid and charged to Statement of Profit & Loss in the year in which the related service is rendered.

MANAGEMENTS' DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion in conjunction with our restated consolidated financial statements and restated standalone financial statement ("restated financials statements") attached in the chapter titled "Financial Information of the Company" beginning on page 187. You should also read the section titled "Risk Factors" on page 25 and the section titled "Forward Looking Statements" on page 18, which discusses a number of factors and contingencies that could affect our financial condition and results of operations. The following discussion relates to us, and, unless otherwise stated or the context requires otherwise, is based on our Restated financial Statements.

Our financial statements have been prepared in accordance with Indian GAAP, the Companies Act and the SEBI (ICDR) Regulations and restated as described in the report of our auditor dated June 13, 2024 which is included in this Red Herring Prospectus under "Financial Statements". The Restated Financial Information has been prepared on a basis that differs in certain material respects from generally accepted accounting principles in other jurisdictions, including US GAAP and IFRS. Our financial year ends on March 31 of each year, and all references to a particular financial year are to the twelve-month period ended March 31 of that year.

BUSINESS OVERVIEW

Our Company was incorporated on August 24, 2001, as 'PDRV Enterprises Private Limited', a private limited company under the Companies Act, 2013, pursuant to a certificate of incorporation issued by the Registrar of Companies, NCT of Delhi & Haryana. Our Company's name was changed from 'PDRV Enterprises Private Limited' to 'Dee Power and Electricals Private' pursuant to the Resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on January 05, 2023 and a fresh Certificate of Incorporation dated May 11, 2023 was issued to this effect by Registrar of Companies, NCT of Delhi & Haryana. Further, our Company's name was changed from 'Dee Power and Electricals Private' to 'Divine Power Energy Private Limited' pursuant to the Resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on June 10, 2023 and a fresh Certificate of Incorporation dated July 11, 2023 was issued to this effect by Registrar of Companies, NCT of Delhi & Haryana.

Subsequently, pursuant to a resolution passed by the Shareholders in an Extra-Ordinary General Meeting held on July 17, 2023, our Company was converted from a private limited company to a public limited company and a fresh certificate of incorporation dated August 03, 2023 was issued by the Registrar of Companies, Delhi. Consequent to the conversion of our Company, the name of our Company was changed to 'Divine Power Energy Limited'.

Divine Power Energy Limited is a manufacturer of Bare Copper/ Aluminium Wire, Bare Copper/ Aluminium Strip, Winding Copper/ Aluminium Wire, Winding Copper / Aluminium Strip. Winding wire/ strips are manufactured by annealing and insulating wires / strips by covering with paper, cotton, fiber etc. Winding wire/ strips covered with paper, crab paper and cotton are sold to power distribution companies and transformer manufactures to manufacture transformer and also to fix normal wear and tear.

In the current calendar year our company started manufacturing wires/ strips covered with fibers which are sold to manufacture electromagnetic lifting magnets used to lift heavy object like containers, machinery etc. The Company has supplied wires/ strips covered with fibers to markets like Punjab, Bengaluru, Ahmedabad. In the recent past the Company has started trading in enamelled wire and strips in an effort to cater customer demand and remain competitive.

Our Company mainly sells winding wires to the power distribution companies and transformer manufactures. It manufactures winding wires by insulation copper/ aluminium by paper, cotton, enamelling etc. which are used to make coil of the transformers. Therefore, making our product indispensable for manufacturing transformers.

SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST FINANCIAL YEAR

In the opinion of the Board of Directors of our Company, there have not arisen, since the date of the last financial statements disclosed in this Red Herring Prospectus i.e. March 31, 2024, any significant developments or any circumstance that materially or adversely affect or are likely to affect the profitability of our Company or the value of its assets or its ability to pay its material liabilities within the next twelve months except as follows:

1. Appointment of Ms. Swati Bansal as Company Secretary and Compliance Officer on May 31, 2024.
2. Resignation of Mr. Aman Gupta as Company Secretary and Compliance Officer w.e.f. May 18, 2024

SIGNIFICANT FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our business is subjected to various risks and uncertainties, including those discussed in the section titled “Risk Factor” beginning on page 25. Our results of operations and financial conditions are affected by numerous factors including the following:

- Since major raw material for our company is copper and aluminium, our margins are mainly linked to the commodity prices. The commodity prices are mainly affected by various micro and macro-economic condition which makes them cyclical in nature so does our business.
- We do not import raw materials directly; however, we procure imported fiberglass and paper from local vendors. The imported raw material, price hike or supply chain disruption, may affect the trust of our customers in our products and our margins.
- Important factors that could cause actual results to differ materially from our expectations include, among others:
 - Uncertainty in relation to continuing effect of the COVID-19 pandemic on our business and operations;
 - Increased competition in Power Distribution Industry.
 - Fluctuations in operating costs;
 - Our failure to keep pace with rapid changes in technology;
 - Our ability to meet our capital expenditure requirements;
 - Our dependence on our key personnel, including our Directors and senior management;
 - Our ability to successfully implement our business strategy and plans;
 - General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
 - Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
 - Changes in government policies and regulatory actions that apply to or affect our business;
 - Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
 - The performance of the financial markets in India and globally;
 - The occurrence of natural disasters or calamities;
 - Other factors beyond our control;
 - Our ability to manage risks that arise from these factors.

products by 6,641.69 or 48.52% to Rs.20,329.69 lakhs for Fiscal 2024 compared to Rs. 13,688.00 lakhs for Fiscal 2023, which is in line with the growth in Cost of Material Consumed.

Change in inventories of finished goods and work-in-progress

The table below sets forth details in relation to changes in inventories for the periods indicated below:

Particulars	Fiscal 2024 (In Lakhs)	Fiscal 2023 (In Lakhs)	% Increase/(decrease)
Opening Stock of Finished Goods	1,830.63	1,352.76	35.33%
Opening Stock of work-in-progress	1,203.49	1,287.49	-6.52%
Total (a)	3,034.12	2,640.25	14.92%
Closing Stock of Finished Goods	2,947.95	1,830.63	61.03%
Closing Stock of work-in-progress	1,857.63	1,203.49	54.35%
Total (b)	4,805.58	3,034.12	58.38%
Changes in Inventories (a-b)	(1,771.46)	(393.87)	349.76%

Our inventory level for finished goods in Fiscal 2024 had increased by Rs.1,117.32 lakhs i.e. from Rs. 1,830.63 lakhs in Fiscal 2023 to Rs. 2,947.95 lakhs in Fiscal 2024. The level of work in progress had increased by Rs. 654.14 lakhs i.e. from Rs. 1,203.49 lakhs in Fiscal 2023 to Rs. 1,857.63 lakhs in Fiscal 2024. The increase in inventory of finished good & work-in-progress are in line with increase turnover in the Fiscal 2024.

Employee benefits expense

Our employee benefits expense increased by Rs. 7.55 lakhs or 95.43% to Rs. 65.67 lakhs for Fiscal 2024 from Rs. 128.66 lakhs for Fiscal 2023. The increase is primarily due to increase in Director's and Relatives of Key Management Personnel remuneration from Rs. 14.40 lakhs in Fiscal 2023 to Rs. 57.20 lakhs in Fiscal 2024, an increase of 297.22% as compared to the previous years. Further, as a percentage of our revenue from operation, the cost of employee benefit expenses also increased to 0.58% in Fiscal 2024 from 0.44% in Fiscal 2023.

Other expenses

Our other expenses increased by Rs. 97.22 lakhs or 36.61% to Rs. 362.76 lakhs for Fiscal 2024 as compared to Rs. 265.54 lakhs for Fiscal 2023. This increase was primarily due to increase in expenses on Power and Fuel, Job Work Charges, Travelling and Conveyance, Consumption of Stores and Spares and Provision for Doubtful Debts. Further, as a percentage of our revenue from operation, the other expenses also decreased to 1.63% in Fiscal 2024 from 1.76% in Fiscal 2023.

EBITDA

For the reasons described below, our EBITDA increased by Rs. 465.63 lakhs, or 44.99%, to Rs.1,500.50 lakhs for Fiscal 2024 from Rs. 1,034.87 lakhs for Fiscal 2023.

Finance costs

The table below sets forth details in relation our finance cost for the periods indicated below:

Particulars	Fiscal 2024 (In Lakhs)	Fiscal 2023 (In Lakhs)	% Increase/(decrease)
Interest expense on			
(i) Working capital facilities	364.47	258.74	40.86%
(ii) Term Loan	131.68	147.26	-10.58%
(iii) Delayed payment to trade payables	0.03	0.69	-95.65%
(iv) Channel Financing	0.00	7.63	-100.00%
(v) Others	25.11	12.87	95.15%

Bank Charges	18.96	23.62	-19.72%
Finance cost	540.25	450.81	19.84%

Our finance costs increased by Rs. 89.44 lakhs or 19.84% to Rs. 540.25 lakhs for Fiscal 2023 compared to Rs. 450.81 lakhs for Fiscal 2023. This increase was primarily due to increase in interest paid to banks for utilization of working capital requirements in Fiscal 2024.

Depreciation and Amortisation Expense

Our depreciation and amortisation expense increased by Rs. 24.86 lakhs or 20.77% to Rs. 144.60 lakhs for Fiscal 2024 compared to Rs. 119.73 lakhs for Fiscal 2023. This increase was due to addition of plant & machinery and factory building amounting to Rs. 165.55 lakhs and Rs. 166.54 lakhs in the Fiscal 2024.

Profit before Tax

As a result of the foregoing factors, our profit before tax increased by Rs. 351.33 lakhs or 75.66% to Rs. 815.66 lakhs for Fiscal 2024 as compared to Rs. 464.33 lakhs for Fiscal 2023. This increase was on account of increased order flow, higher productions capacity utilization, and better realizations.

Tax Expenses

Our tax expenses decreased by Rs. 4.32 lakhs or 2.41% to Rs. 175.07 lakhs for Fiscal 2024 compared to Rs. 179.39 lakhs for Fiscal 2023. The current tax in the Fiscal 2024 was Rs. 224.25 lakhs, which was 75.66% more as compared to the previous Fiscal 2023 amounting to Rs. 464.33 lakhs. However, there was Deferred tax credit of Rs. 49.18 lakhs in Fiscal 2024 as compared to Deferred tax expense of Rs. 43.24 lakhs in Fiscal 2023. The decrease in total tax is mainly due to deferred tax credit as compared to deferred tax expense in the previous year.

Profit for the Year

As a result of the foregoing factors, our profit for the year increased by Rs. 355.65 lakhs or 124.82% to Rs. 640.59 lakhs for Fiscal 2024 compared to Rs. 284.94 lakhs for Fiscal 2023.

- **Addition of New Machineries:** In Fiscal 2024, the Company purchased one online annealer machine which cools the wires and strips simultaneously during the annealing process, which has allowed us to expand the production very efficiently. During the annealing process the metal is heated to improves the workability of a material, increasing toughness, reducing hardness and increasing the ductility and machinability of a metal. The online annealer machine cools the metal instantly as the metal comes out of the machine reducing the time to cool the metal almost to zero which earlier use to take hours. The online annealer machine has increased the efficiency and the ability to produce more in any given time.
- **Product Modifications:** In F.Y. 2024 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.
- **Utilization:** Our Capacity utilization for the Financial Year 2024 was 49.86% of the total capacity as compared to 39% in the previous Financial Year 2023. The higher utilization is attributable the robust domestic demand as evident from increase of revenue from sale of finished products. The revenue from sales of finished goods increased by Rs. 7,149.47 lakhs or 47.48% to Rs. 20,329.69 lakhs for Fiscal 2024 as compared to Rs. 13,688.00 lakhs for Fiscal 2023. Increase in revenue from operation has led to increase in profit owing to Economies of Scale and Operating Leverage.

FISCAL 2023 COMPARED TO FISCAL 2022

Income

The table below sets forth details in relation to our revenue for Fiscal 2023 and Fiscal 2022:

Particulars	Fiscal 2023 (In Lakhs)	Fiscal 2022 (In Lakhs)	% Increase/(decrease)
Sale of products (a)			
-Finished Goods	13,688.00	11,957.88	14.47%
-Traded Goods	1,097.94	21.05	5115.87%
-Job Work Income	272.59	270.16	0.90%
Other Income (b)	25.68	41.29	-37.81%
Total Revenue (a+b)	15,084.21	12,290.38	22.73%

Our revenue from operations increased by Rs. 2,809.44 lakhs or 22.94% to Rs. 15,058.53 lakhs for Fiscal 2023 as compared to Rs. 12,249.09 lakhs for Fiscal 2022. This increase in revenue from operations was primarily due to increased sales of our products resulting from a robust growth of domestic demand.

Our revenue from sales increased due to increase in trading goods of Super Enameled wire and strips by Rs. 1076.89 lakhs or 5115.89% to Rs. 1,097.94 lakhs for Fiscal 2023 from Rs. 21.05 lakhs in Fiscal 2022. Further we have also started manufacturing of Fiber Coated Winding Wires in FY 2023, due to addition of new product the revenue from finished goods has increased by 1,730 Lakhs or 14.47% as compare to FY 2022. The increase in the sale was also due to addition of new customers in domestic market.

Other income decreased by Rs. 15.61 lakhs or 37.81% to Rs. 25.68 lakhs for Fiscal 2023 compared from Rs. 41.29 lakhs for Fiscal 2022. This decrease in other income was primarily due to decrease in interest income of Rs. 19.31 lakhs.

Expenses

The table below sets forth details in relation to our total expenses for Fiscal 2023 compared to our total expenses for Fiscal 2022:

Particulars	Fiscal 2023 (In Lakhs)	Fiscal 2022 (In Lakhs)	% Increase/(decrease)
Cost of Material Consumed	13,040.66	12,768.67	2.13%
Changes in Inventories of Finished goods and Work-in-process	677.32	-1410.69	-148.01%
Employee Benefits Expense	65.84	86.11	-23.54%
Finance Cost	450.8	391.52	15.14%

Other Expenses	265.54	274.92	-3.41%
Total Expenses	14,619.87	12,179.27	20.04%

Our total expenses increased by Rs. 2,453.34 lakhs or 20.16% to Rs. 14,619.72 lakhs for Fiscal 2023 compared to Rs. 12,166.38 lakhs for Fiscal 2022. This was primarily attributable to:

Cost of Material Consumed

The table below sets forth details in relation to our cost of materials consumed for the periods indicated below:

Particulars	Fiscal 2023 (In Lakhs)	Fiscal 2022 (In Lakhs)	% Increase/(decrease)
Opening Stock	101.01	181.10	-44.22%
Add: Purchases	12,975.22	12,688.58	2.26%
Less: Closing Stock	(35.57)	(101.01)	-64.79%
Cost of Material Consumed	13,040.66	12,768.67	2.13%

Our cost of materials consumed increased by Rs.271.99 lakhs or 2.13% to Rs. 13,040.66 lakhs for Fiscal 2023 compared to Rs. 12,768.67 lakhs for Fiscal 2022. This increase was primarily due to increase in production of

newly introduce product i.e. Fiber Coated Winding Wires as well as prices of raw material for the other products, the cost has increased inline with the increase in sales.

Change in inventories of finished goods and work-in-progress

The table below sets forth details in relation to changes in inventories for the periods indicated below:

Particulars	Fiscal 2023 (In Lakhs)	Fiscal 2022 (In Lakhs)	% Increase/(decrease)
Opening Stock of Finished Goods	1,352.76	263.63	413.13%
Opening Stock of work-in-progress	1,287.49	946.43	36.04%
Total (a)	2,640.25	1,210.06	118.19%
Closing Stock of Finished Goods	1,830.63	1,352.76	35.33%
Closing Stock of work-in-progress	1,203.49	1,287.49	-6.52%
Total (b)	3,034.12	2,640.25	14.92%
Changes in Inventories (a-b)	(393.87)	(1,430.19)	-72.46%

Our inventory level for finished goods in Fiscal 2023 had increased by Rs. 477.87 lakhs i.e. from Rs. 1,352.76 lakhs in Fiscal 2022 to Rs. 1,830.63 lakhs in Fiscal 2023. The level of work in progress had decreased by Rs. 84.00 lakhs i.e. from Rs. 1,287.49 lakhs in Fiscal 2022 to Rs. 1,230.49 lakhs in Fiscal 2023. The increase in inventory of finished good & work-in-progress are in line with increase turnover in the Fiscal 2023.

Employee benefits expense

Our employee benefits expense decreased by Rs. 20.27 lakhs or 23.54% to Rs. 65.84 lakhs for Fiscal 2023 from Rs. 86.11 lakhs for Fiscal 2022. The decrease primary due to decrease in salary and wages. Further, as a percentage of our revenue from operation, the cost of employee benefit expenses also decreased to 0.44% in Fiscal 2023 from 0.70% in Fiscal 2022.

Other expenses

Our other expenses decreased by Rs. 9.38 lakhs or 3.41% to Rs. 265.54 lakhs for Fiscal 2023 as compared to Rs. 274.92 lakhs for Fiscal 2022. This decrease was primarily due to decrease in Repair and Maintenance - Machinery, spares and tools consumed and Job work charges. Further, as a percentage of our revenue from operation, the other expenses also decreased to 1.76% in Fiscal 2023 from 2.24% in Fiscal 2022.

EBITDA

For the reasons described below, our EBITDA increased by Rs. 463.51 lakhs, or 77.15%, to Rs. 1,034.87 lakhs for Fiscal 2023 from Rs. 571.36 lakhs for Fiscal 2022.

Finance costs

The table below sets forth details in relation our finance cost for the periods indicated below:

Particulars	Fiscal 2023 (In Lakhs)	Fiscal 2022 (In Lakhs)	% Increase/(decrease)
Interest expense on			
(i) Working capital facilities	147.26	143.54	2.59%
(ii) Term Loan	0.69	-	100.00%
(iii) Delayed payment to trade payables	7.63	8.30	-8.07%
(iv) Channel Financing	12.87	23.72	-45.74%
(v) Others	23.62	30.89	-23.54%
Bank Charges	450.80	391.52	15.14%
Finance cost	258.74	185.06	39.81%

Our finance costs increased by Rs. 59.28 lakhs or 15.14% to Rs. 258.74 lakhs for Fiscal 2023 compared to Rs. 185.06 lakhs for Fiscal 2022. This increase was primarily due to increase in bank charges and interest paid to banks for utilization of working capital requirements in Fiscal 2023.

Depreciation and Amortisation Expense

Our depreciation and amortisation expense increased by Rs. 50.99 lakhs or 74.18% to Rs. 119.73 lakhs for Fiscal 2023 compared to Rs. 68.74 lakhs for Fiscal 2022. This increase was due to purchase of plant & machinery.

Profit before Tax

As a result of the foregoing factors, our profit before tax increased by Rs. 353.21 lakhs or 317.88% to Rs. 464.33 lakhs for Fiscal 2023 as compared to Rs. 111.11 lakhs for Fiscal 2022. This increase was on account of increased order flow, higher productions and better realizations.

Tax Expenses

Our tax expenses increased by Rs. 148.80 lakhs or 486.37% to Rs. 179.39 lakhs for Fiscal 2023 compared to Rs. 30.59 lakhs for Fiscal 2022. The increase in tax expenses during Fiscal 2023 is mainly on account of increase in current tax by Rs. 102.40 lakhs, or 303.41%, to Rs. 136.15 lakhs for Fiscal 2023 from Rs. 33.75 lakhs for Fiscal 2022. The increase in current tax was primarily on account of increase in taxable income for Fiscal 2023.

Profit for the Year

As a result of the foregoing factors, our profit for the year increased by Rs. 204.42 lakhs or 253.91% to Rs. 284.94 lakhs for Fiscal 2023 compared to Rs. 80.51 lakhs for Fiscal 2022.

- **Addition of New Machineries:** In Fiscal 2023, we purchased two Fiberglass Insulation Machines which helped us to expand our product mix. In F. Y 2023 we started selling fiberglass coated winding wires/ strips which have higher margins. The demand for such product is to make electromagnetic coils for lifting magnets which are used to lift heavy objects like containers, machinery etc. and have also purchased two Automatic Horizontal Paper Covering Machine which has resulted in increasing efficiency and automating the process of insulating wires/ strips with paper hence decreasing labour cost.
- **Product Modifications:** In F.Y. 2023 we have shifted our focus to make fine wires / strips which have higher margins as drawing fine wires/ strips require greater technological expertise and control over production. The margin in selling fine wires and strips are fairly high as compared to thick wires/ strips.
- **Relaxation in Raw Material Prices:** In F.Y. 2023 the commodity prices cooled throughout the year in comparison to F.Y. 2022, this helped us to purchase raw material at reasonable price. The cost of material consumed was only increased by 2.13% only from Rs. 12,768.67 Lakhs in Fiscal 2022 to Rs. 13,040.66 Lakhs in Fiscal 2023, however the revenue from operations have increased by 22.94% in same period.
- **Utilization:** Our Capacity utilization for the Financial Year 2023 was 39% of the total capacity as compared to 48% in the previous Financial Year 2022. In F.Y. 2023 the Company increased the focus on increasing the contribution of fine wires in the total sale owing to uptick in demand from the market and higher profit margins from the segment. The lower Capacity Utilization is primarily linked to the increase in the proportion of fine wire in the total sale which resulted in lower consumption of metal, which is our primary raw material and the major cost center, to produce winding wires with fine wire. As fine wire requires lesser metal consumption it lowers the demand for the metal and increases the profit margin. Hence, in a nutshell, the reason for lower utilization capacity and increase in profit is the increase in the proportion of fine wire in the total sale.

SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022.

The above timetable, other than the Bid/ Issue Closing Date, is indicative and does not constitute any obligation on our Company the BRLM.

While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and commencement of trading of the Equity Shares on the Stock Exchange are taken within three (3) Working Days of the Bid/ Issue Closing Date or such other period as may be prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid/ Issue Period by our Company in consultation with the BRLM, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchange. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

The SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Red Herring Prospectus may result in changes to the abovementioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will submit report of compliance with T+3 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

SUBMISSION OF BIDS

Bid/ Issue Period (Except the Bid/ Issue Closing Date)

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”).

Bid/ Issue Closing Date

Submission and Revision in Bids: Only between 10.00 a.m. and 3.00 p.m. IST.

On the bid/ issue closing date, the bids shall be uploaded until:

- i. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- ii. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Retail Individual Bidders.

On the Bid/ Issue Closing Date, extension of time will be granted by the Stock Exchange only for uploading Bids received from Retail Individual Bidders after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

To avoid duplication, the facility of re-initiation provided to Syndicate Members, if any shall preferably be allowed only once per Bid/batch and as deemed fit by the Stock Exchange, after closure of the time for uploading Bids.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date. Any time mentioned in this Red Herring Prospectus is Indian Standard Time. Bidders are cautioned that, in the event, large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only during Monday to Friday (excluding any public holiday). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book vis-a-vis data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken.

Our Company in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. The Floor Price shall not be less than the face value of the Equity Shares.

In case of any revision to the Price Band, the Bid/Issue Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the Bid/Issue Period not exceeding a total of 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company in consultation with the BRLM, for reasons to be recorded in writing, extend the Bid/Issue Period for a minimum of three Working Days, subject to the Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchange, by issuing a public notice, and also by indicating the change on the respective websites of the BRLM and the terminals of the Syndicate Members, if any and by intimation to SCSBs, other Designated Intermediaries and the Sponsor Bank as applicable. In case of revision of Price Band, the Bid Lot shall remain the same.

MIGRATION TO MAIN BOARD

In accordance with the National Stock Exchange of India Limited Circular dated March 10, 2014, our Company will have to be mandatorily listed and traded on the Emerge Platform of the NSE for a minimum period of 2 (Two) years from the date of listing and only after that it can migrate to the Main Board of National Stock Exchange of India Limited as per the guidelines specified by SEBI and as per the procedures laid down under Chapter IX of the SEBI (ICDR) Regulations. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or `launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI. The Issue has been undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public Issues and redressing investor grievances. This circular shall come into force for initial public Issues opening on or after May 1, 2021 and the provisions of this circular are deemed to form part of this Red Herring Prospectus. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 modifying the process timelines and extending the implementation timelines for certain measures introduced by the March 16 Circular. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 01, 2022) whose application sizes are up to Rs. 5,00,000/- shall use the UPI Mechanism.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI

Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Our Company, the Promoter and the BRLM do not accept any responsibility for the completeness and accuracy of the information stated in this section and General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus.

Further, our Company, the Promoter and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Issue.

Applicants shall only use the specified Application Form for the purpose of making an

Application in terms of this Red Herring Prospectus. The Application Form shall contain space for indicating number of specified securities subscribed for in demat form.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a. Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.
- b. Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c. Phase III: Subsequently, the time duration from public issue closure to listing would be reduced to be three Working Days.
- d. SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being issue closing date. The provisions of this circular were applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company mandatorily have to close this Issue within three (03) working days, in accordance with the timeline provided under the aforementioned circular.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalized under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

For further details, refer to the “General Information Document” available on the websites of the Stock Exchange and the BRLM.

Bid cum Application Form

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non- resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Retail Individual Bidders

The Application must be for a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder does not exceed Rs. 2,00,000. In case of revision of Applications, the Retail Individual Bidders have to ensure that the Application Price does not exceed Rs. 2,00,000.

2. For Other than Retail Individual Bidders (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds Rs. 2,00,000 and in multiples of [●] Equity Shares thereafter. An application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application Amount is greater than Rs. 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, in consultation with the BRLM will decide the Price Band and the minimum Bid lot size for the Issue and the same shall be advertised in all editions of Business Standard (a widely circulated English national daily newspaper), in all editions of Business Standard (a widely circulated Hindi national daily newspaper) and

in Pratah Kiran the Delhi edition of Hindi (being the regional language) Newspaper where the registered office of the company is situated, each with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

- a. The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be published in all editions of Business Standard (a widely circulated English national daily newspaper), in all editions of Business Standard (a widely circulated Hindi national daily newspaper) and in Pratah Kiran the Delhi edition of Hindi (being the regional language) Newspaper where the registered office of the company is situated, each with wide circulation and also by indicating the change on the website of the Book Running Lead Manager.
- b. Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- c. The Bidder/ Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- d. The BRLM/ the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- e. Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- f. If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- g. If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- h. The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the

amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b. Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity Shares at a specific price. Retail Individual Bidders may Bid at the Cut-off Price. However, bidding at the Cutoff Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.
- d. Retail Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Retail Individual Bidders shall submit the Bid cum Application Form along with a cheque/ demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

PARTICIPATION BY ASSOCIATES/ AFFILIATES OF BRLM AND THE SYNDICATE MEMBERS

The BRLM and the Syndicate Members, if any, shall not be allowed to purchase in this Issue in any manner, except towards fulfilling their underwriting obligations. However, the associates and affiliates of the BRLM and the Syndicate Members, if any, may subscribe the Equity Shares in the Issue, either in the QIB Category or in the Non- Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients.

OPTION TO SUBSCRIBE IN THE ISSUE

- a. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- b. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.
- c. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

INFORMATION FOR THE BIDDERS:

Our Company and the Book Running Lead Manager shall declare the Issue Opening Date and Issue Closing Date in the Red Herring Prospectus to be registered with the RoC and also publish the same in two national newspapers (one each in English and Hindi) and in a regional newspaper with wide circulation. This advertisement shall be in prescribed format.

2. Our Company will file the Red Herring Prospectus with the RoC at least 3 (three) days before the Issue Opening Date.
3. Copies of the Bid Cum Application Form along with Abridge Prospectus and copies of the Red Herring Prospectus will be available with the, the Book Running Lead Manager, the Registrar to the Issue, and at the Registered Office of our Company. Electronic Bid Cum Application Forms will also be available on the websites of the Stock Exchange.
4. Any Bidder who would like to obtain the Red Herring Prospectus and/ or the Bid Cum Application Form can obtain the same from our Registered Office.
5. Bidders who are interested in subscribing for the Equity Shares should approach Designated Intermediaries to register their applications.
6. Bid Cum Application Forms submitted directly to the SCSBs should bear the stamp of the SCSBs and/or the Designated Branch, or the respective Designated Intermediaries. Bid Cum Application Form submitted by Applicants whose beneficiary account is inactive shall be rejected.
7. The Bid Cum Application Form can be submitted either in physical or electronic mode, to the SCSBs with who the ASBA Account is maintained, or other Designated Intermediaries (Other than SCSBs). SCSBs may provide the electronic mode of collecting either through an internet enabled collecting and banking facility or such other secured, electronically enabled mechanism for applying and blocking funds in the ASBA Account. The Retail Individual Applicants has to apply only through UPI Channel, they have to provide the UPI ID and validate the blocking of the funds and such Bid Cum Application Forms that do not contain such details are liable to be rejected.
8. Bidders applying directly through the SCSBs should ensure that the Bid Cum Application Form is submitted to a Designated Branch of SCSB, where the ASBA Account is maintained. Applications submitted directly to the SCSB's or other Designated Intermediaries (Other than SCSBs), the relevant SCSB, shall block an amount in the ASBA Account equal to the Application Amount specified in the Bid Cum Application Form, before entering the ASBA application into the electronic system.
9. Except for applications by or on behalf of the Central or State Government and the Officials appointed by the courts and by investors residing in the State of Sikkim, the Bidders, or in the case of application in joint names, the first Bidder (the first name under which the beneficiary account is held), should mention his/her PAN allotted under the Income Tax Act. In accordance with the SEBI Regulations, the PAN would be the sole identification number for participating transacting in the securities market, irrespective of the amount of transaction. Any Bid Cum Application Form without PAN is liable to be rejected. The demat accounts of Bidders for whom PAN details have not been verified, excluding person resident in the State of Sikkim or persons who may be exempted from specifying their PAN for transacting in the securities market, shall be "suspended for credit" and no credit of Equity Shares pursuant to the Issue will be made into the accounts of such Bidders.
10. The Bidders may note that in case the PAN, the DP ID and Client ID mentioned in the Bid Cum Application Form and entered into the electronic collecting system of the Stock Exchange Designated Intermediaries do not match with PAN, the DP ID and Client ID available in the Depository database, the Bid Cum Application Form is liable to be rejected.

BIDS BY HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application

Form as follows: “Name of sole or first Bidder: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/ Applications from individuals.

BIDS BY MUTUAL FUNDS

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid can be made in respect of each scheme of the Mutual Fund registered with SEBI and such Bids in respect of more than one scheme of the Mutual Fund will not be treated as multiple Bids provided that the Bids clearly indicate the scheme concerned for which the Bid has been made.

No Mutual Fund scheme shall invest more than 10.00% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10.00% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10.00% of any company’s paid-up share capital carrying voting rights.

BIDS BY ELIGIBLE NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRI Bidders bidding on a repatriation basis by using the Non-Resident Forms should authorize their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident External (“NRE”) accounts, or Foreign Currency Non-Resident (“FCNR”) Accounts, and eligible NRI Bidders bidding on a non- repatriation basis by using Resident Forms should authorize their SCSB (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“NRO”) accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form. Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non-repatriation basis, shall not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non- repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circular). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circular) to apply in the Issue, provided the UPI facility is enabled for their NRE/ NRO accounts.

NRIs applying in the Issue using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of investment by NRIs, see “Restrictions on Foreign Ownership of Indian Securities” beginning on page 276 Participation of eligible NRIs shall be subject to FEMA NDI Rules.

BIDS BY FPIs

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for retail trading of food products manufactured and/ or produced in India is 100% under automatic route.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, ailing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents. In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. **FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.**

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivative instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- i. such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and
- ii. prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which utilise the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations ("Operational FPI Guidelines"), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids ("MIM Bids"). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that utilise the multi-investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as "MIM Structure"). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

BIDS BY SEBI-REGISTERED AIFs, VCFs AND FVCIs

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFs and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFs, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action

plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid-up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see “Key Industry Regulation and Policies” beginning on page 146.

BIDS BY SCSBs

SCSBs participating in the Issue are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

BIDS BY SYSTEMICALLY IMPORTANT NBFCs

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone/ consolidated basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

Systemically Important NBFCs participating in the Issue shall comply with all applicable regulations, directions, guidelines and circulars issued by the RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in

which the investee company operates. Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- a. equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- b. the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- c. the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

**The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of Rs. 25,000,000 lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of Rs. 5,000,000 lakhs or more but less than Rs. 25,000,000 lakhs.*

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs. 2,500 lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY ANCHOR INVESTORS

Our Company in consultation with the BRLM, may consider participation by Anchor Investors in the Issue for up to 60% of the QIB Portion in accordance with the SEBI Regulations. Only QIBs as defined in Regulation 2(1)(ss) of the SEBI Regulations and not otherwise excluded pursuant to Schedule XIII of the SEBI Regulations are eligible to invest. The QIB Portion will be reduced in proportion to allocation under the Anchor Investor Portion. In the event of undersubscription in the Anchor Investor Portion, the balance Equity Shares will be added to the QIB Portion. In accordance with the SEBI Regulations, the key terms for participation in the Anchor Investor Portion are provided below.

1. Anchor Investor Bid cum Application Forms will be made available for the Anchor Investors at the offices of the BRLM.
2. The Bid must be for a minimum of such number of Equity Shares so that the Bid Amount is at least 200.00 lakhs. A Bid cannot be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of 200.00 lakhs
3. One-third of the Anchor Investor Portion will be reserved for allocation to domestic Mutual Funds.

4. Bidding for Anchor Investors will open one Working Day before the Bid/ Issue Opening Date and be completed on the same day.
5. Our Company in consultation with the BRLM, will finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum and maximum number of Allottees in the Anchor Investor Portion will be, as mentioned below:
 - where allocation in the Anchor Investor Portion is up to 200.00 Lakhs, maximum of 2 (two) Anchor Investors.
 - where the allocation under the Anchor Investor Portion is more than 200.00 Lakhs but upto 2500.00 Lakhs, minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, subject to a minimum Allotment of 100.00 Lakhs per Anchor Investor; and

6. Allocation to Anchor Investors will be completed on the Anchor Investor Bid/ Issue Period. The number of Equity Shares allocated to Anchor Investors and the price at which the allocation is made will be made available in the public domain by the BRLM before the Bid/Issue Opening Date, through intimation to the Stock Exchange.
7. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.
8. If the Issue Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Issue Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors within 2 (two) Working Days from the Bid/ Issue Closing Date. If the Issue Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor Issue Price.
9. At the end of each day of the bidding period, the demand including allocation made to anchor investors, shall be shown graphically on the bidding terminals of syndicate members and website of stock exchange offering electronically linked transparent bidding facility, for information of public.
10. Equity Shares Allotted in the Anchor Investor Portion will be locked in for a period of 30 days from the date of Allotment.
11. The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection byes.
12. Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
13. Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, Eligible FPIs, Mutual Funds, Systemically Important NBFCs, insurance companies, insurance funds set up by the army, navy or air force of the Union of India, insurance funds set up by the Department of Posts, India, or the National Investment Fund and provident funds with a minimum corpus of Rs. 2,500 lakhs (subject to applicable law) and pension funds with a minimum corpus of Rs. 2,500 lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Our Company, in consultation with the BRLM, in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form subject to the terms and conditions that our Company, in consultation with the BRLM may deem fit.

ISSUANCE OF A CONFIRMATION NOTE ("CAN") AND ALLOTMENT IN THE ISSUE:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the BRLM or Registrar to the Issue shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Issue.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

ISSUE PROCEDURE FOR APPLICATION SUPPORTED BY BLOCKED ACCOUNT (ASBA) BIDDERS

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>. For details on designated branches of SCSB collecting the Bid Cum Application Form, please refer the above-mentioned SEBI link.

TERMS OF PAYMENT

The entire Issue price of Rs. [●] per share is payable on application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar shall instruct the SCSBs to unblock the excess amount paid on Application to the Bidders.

SCSBs will transfer the amount as per the instruction of the Registrar to the Public Issue Account, the balance amount after transfer will be unblocked by the SCSBs.

The Bidders should note that the arrangement with Bankers to the Issue or the Registrar is not prescribed by SEBI and has been established as an arrangement between our Company, Banker to the Issue and the Registrar to the Issue to facilitate collections from the Bidders.

PAYMENT MECHANISM

The Bidders shall specify the bank account number in their Bid Cum Application Form and the SCSBs shall block an amount equivalent to the Application Amount in the bank account specified in the Bid Cum Application Form. The SCSB shall keep the Application Amount in the relevant bank account blocked until withdrawal/ rejection of the Application or receipt of instructions from the Registrar to unblock the Application Amount. However, Non-Retail Bidders shall neither withdraw nor lower the size of their applications at any stage. In the event of withdrawal or rejection of the Bid Cum Application Form or for unsuccessful Bid Cum Application Forms, the Registrar to the Issue shall give instructions to the SCSBs to unblock the application money in the relevant bank account within one day of receipt of such instruction. The Application Amount shall remain blocked in the ASBA Account until finalization of the Basis of Allotment in the Issue and consequent transfer of the Application Amount to the Public Issue Account, or until withdrawal/ failure of the Issue or until rejection of the Application by the ASBA Bidder, as the case may be.

Please note that, in terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self-Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Retail Individual Investors applying in public Issue have to use UPI as a payment mechanism with Application Supported by Blocked Amount for making application.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

All the investors other than Anchor Investors are required to bid through ASBA Mode. Anchor Investors are requested to note the following:

Our Company in consultation with the Book Running Lead Manager, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors.

- a) For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of: a. In case of resident Anchor Investors: — “DIVINE POWER ENERGY LIMITED-ANCHOR ACCOUNT-R”
- b) In case of Non-Resident Anchor Investors: — “DIVINE POWER ENERGY LIMITED-ANCHOR ACCOUNT-NR”
- c) Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Syndicate, the Escrow Collection Bank and the Registrar to the Issue to facilitate collections from the Anchor Investors.

BUILD OF THE BOOK

- a. Bids received from various Bidders through the Designated Intermediaries may be electronically uploaded on the Bidding Platform of the Stock Exchange on a regular basis. The book gets built up at various price levels. This information may be available with the BRLM at the end of the Bid/ Issue Period.

- b. Based on the aggregate demand and price for Bids registered on the Stock Exchange Platform, a graphical representation of consolidated demand and price as available on the websites of the Stock Exchange may be made available at the Bidding centres during the Bid/ Issue Period.

WITHDRAWAL OF BIDS

- a. RIIs can withdraw their Bids until Bid/ Issue Closing Date. In case a RII wishes to withdraw the Bid during the Bid/ Issue Period, the same can be done by submitting a request for the same to the concerned Designated Intermediary who shall do the requisite, including unblocking of the funds by the SCSB in the ASBA Account.
- b. The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

PRICE DISCOVERY AND ALLOCATION

- a. Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price.
- b. The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c. Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d. In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e. In case if the Retail Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue; it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

- c. In case of under subscription in the Issue, spill-over to the extent of such under- subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the RHP.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Retail Individual Investors may be on proportionate basis. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Issue for Sale only, then minimum subscription may not be applicable.

BASIS OF ALLOTMENT

a. For Retail Individual Bidders

Bids received from the Retail Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Retail Individual Bidders will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for allotment to Retail Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Issue Price, full Allotment shall be made to the Retail Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than [●] Equity Shares at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Issue Price.

The Issue size less Allotment to QIBs and Retail shall be available for allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to [●] Equity Shares at or above the Issue Price, full allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than [●] Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. Allotment To Anchor Investor (If Applicable)

Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the

discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:

- i. not more than 60% of the QIB Portion will be allocated to Anchor Investors;
- ii. one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
- iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - maximum number of two Anchor Investors for allocation up to Rs. 2 crores; a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than Rs. 2 crores and up to Rs. 25 crores subject to minimum allotment of Rs. 1 crores per such Anchor Investor; and
 - in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof, shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

d. For QIBs

Bids received from QIBs Bidding in the QIB Category at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner:

- i. In the first instance, allocation to Mutual Funds for [●]% of the QIB Portion shall be determined as follows:
 - In the event that Bids by Mutual Fund exceeds [●]% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for [●]% of the QIB Portion.
 - In the event that the aggregate demand from Mutual Funds is less than [●]% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
 - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- ii. In the second instance, allotment to all QIBs shall be determined as follows:
 - In the event of oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter for [●]% of the QIB Portion.
 - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of [●] Equity Shares and in multiples of [●] Equity Shares thereafter, along with other QIB Bidders.
 - Under-subscription below [●]% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than [●] Equity Shares.
- iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the National Stock Exchange of India Limited Emerge (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b. The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
- c. For Bids where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted [●] equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d. If the proportionate allotment to a Bidder works out to a number that is not a multiple of [●] equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
- e. If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the process of rounding off to the nearest multiple of [●] Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this DRHP.

Retail Individual Investor means an investor who applies for shares of value of not more than Rs. 2,00,000/. Investors may note that in case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with National Stock Exchange of India Limited.

The Executive Director / Managing Director of National Stock Exchange of India Limited - the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Issuance of Allotment Advice

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Foreign investment is allowed up to 100% under automatic route in our Company.

The RBI and the concerned ministries/ departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as the Department of Industrial Policy and Promotion) (“DPIIT”), issued the FDI Policy, which, with effect from October 15, 2020 consolidated, subsumed and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect prior to October 15, 2020. In terms of FDI Policy, FDI to an extent of 51% is allowed in multi brand retail trading with government approval. The FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy is permitted up to 100% of the paid-up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

Under the current FDI Policy and the FEMA Non-Debt Rules, foreign direct investment is not permitted in companies engaged in (a) multi-brand retail trading, undertaking retail trading by means of e-commerce, and (b) inventory-based model of e-commerce. In accordance with the FEMA Non-debt Rules, participation by non-residents in the Issue is restricted to participation by (i) FPIs under Schedule II of the FEMA Non-debt Rules, subject to limit of the individual holding of an FPI below 10% of the post-Issue paid-up capital of our Company and the aggregate limit for FPI investment currently not exceeding the sectoral cap i.e. 51% of the post issue paid up share capital; and (ii) Eligible NRIs applying only on a non-repatriation basis under Schedule IV of the FEMA Non-debt Rules. Further, other non-residents applying on a repatriation basis, FVCIs and multilateral and bilateral development financial institutions are not permitted to participate in the Issue. As per the existing policy of the Government of India, OCBs cannot participate in this issue. See “*Issue Procedure*” beginning on page 239.

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (DIPP), issued consolidated FDI Policy, which with effect from August 28, 2017 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP that were in force and effect as on August 27, 2017. The Government proposes to update the consolidated circular on FDI Policy once every year and therefore, the Consolidation FDI Policy will be valid until the DIPP issues an updated circular.

The transfer of shares by an Indian resident to a Non-Resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the Consolidated FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the Consolidated FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI/RBI.

The foreign investment in our Company is governed by, inter-alia, the FEMA, the FEMA Non-debt Rules, the FDI Policy issued and amended by way of press notes.

Further, in terms of the FEMA Non-debt Rules, the aggregate FPI investment limit is the sectoral cap applicable to Indian company as prescribed in the FEMA Non-Debt Instruments Rules with respect to its paid-up equity capital on a fully diluted basis. See “*Issue Procedure*” beginning on page 239.

Further, in accordance with the FDI Policy, the Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the FEMA Non-debt Rules, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country (“Restricted Investors”), will require prior approval of the Government, as prescribed in the FDI Policy and the FEMA Non-debt Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Furthermore, on April 22, 2020, the Ministry of Finance, Government of India has also made a similar amendment to the FEMA Non-Debt Rules. Each Bidder should seek independent legal advice about its ability to participate in the Issue. In the event such prior approval of the Government of India is required, and such approval has been obtained, the Bidder shall intimate our Company and the Registrar in writing about such approval along with a copy thereof within the Bid/ Issue Period.

The Equity Shares have not been and will not be registered under the U.S. Securities Act and may not be offered or sold within the United States except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are only being offered and sold outside the United States in offshore transactions in reliance on Regulation S and the applicable laws of the jurisdiction where those Issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Applicants. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

79.	The Board shall provide for the safe custody of the seal. The seal of the company shall not be affixed to any instrument except by the authority of a resolution of the Board or of a Committee of the Board Authorised by it in that behalf and except in the presence of at least two directors and of the secretary or such other person as the Board may appoint for the purpose and those two directors and secretary or other person aforesaid shall sign every instrument to which the seal of the company is so affixed in their presence.
DIVIDENDS AND RESERVE	
80.	The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
81.	Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.
82.	The Board may before recommending any dividend set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, think fit. The Board may also carry forward any profits which it may consider necessary not, to divide, without setting them aside as a reserve.
83.	Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares. No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share. All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect

	of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.
84.	The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.
85.	Any dividend interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct. Every such cheque or warrant shall be made payable to the order of the person to whom it is sent.
86.	Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.
87.	Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.
88.	No dividend shall bear interest against the company.
