Certain Conventions

All references to “India” contained in this Red Herring Prospectus are to the Republic of India and its territories and possessions and all references herein to the “Government”, “Indian Government”, “GoI”, “Central Government” or the “State Government” are to the Government of India, central or state, as applicable.

Unless otherwise specified, any time mentioned in this Red Herring Prospectus is in Indian Standard Time (“IST”). Unless indicated otherwise, all references to a year in this Red Herring Prospectus are to a calendar year.

Unless stated otherwise, all references to page numbers in this Red Herring Prospectus are to the page numbers of this Red Herring Prospectus.

Financial Data

Unless stated otherwise or the context otherwise requires, the financial information and financial ratios in this Red Herring Prospectus has been derived from our Restated Financial Information. For further information, please see the section titled “*Financial Information*” on Page No. 172 of this Red Herring Prospectus.

Our Company’s financial year commences on April 1 and ends on March 31 of the next year. Accordingly, all references to a particular financial year, unless stated otherwise, are to the twelve (12) month period ended on March 31 of that year.

The Restated Financial Information of our Company, which comprises the Restated Statement of Assets and Liabilities of our Company as at December 31, 2023, March 31, 2023, March 31, 2022 and March 31, 2021, the Restated Statement of Profit & Loss and the Restated Cash Flow Statement for the Nine Months/ year ended December 31, 2023, March 31, 2023, March 31, 2022 and March 31, 2021, along with the summary statement of significant accounting policies read together with the annexures and notes thereto prepared in terms of the requirements of Section 32 of the Companies Act, the SEBI ICDR Regulations and the Guidance Note on Reports in Company Prospectus (Revised 2019) issued by the ICAI, as amended from time to time.

There are significant differences between Ind AS, Indian GAAP, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, the Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should, accordingly, be limited.

Unless the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” on Page Nos. 28, 118 and 209 respectively, of this Red Herring Prospectus, and elsewhere in this Red Herring Prospectus have been calculated on the basis of the Restated Financial Statements of our Company, prepared in accordance with GAAP, and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all the percentage figures have been rounded off to two decimal places including percentage figures in “*Risk Factors*”, “*Industry Overview*” and “*Our Business*” on Page Nos. _ and _ respectively, this Red Herring Prospectus.

Currency and Units of Presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to Indian Rupee, the official currency of the Republic of India; and
- “USD” or “US\$” or “\$” are to United States Dollar, the official currency of the United States of America.

Our Company has presented all numerical information in this Red Herring Prospectus in “lacs” or “Lakhs” units or in whole numbers where the numbers have been too small to represent in Lakhs. One lac represents 1,00,000 and one million represents 10,00,000.

Exchange rates

This Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Indian Rupee and other foreign currencies:

Currency	Exchange rate as on (in ₹)

Industry and Market Data

Unless stated otherwise, the industry and market data and forecasts used throughout this Red Herring Prospectus has been obtained from industry sources as well as Government Publications. Industry sources as well as Government Publications generally state that the information contained in those publications has been obtained from sources believed to be reliable. The extent to which the market and industry data used in this Red Herring Prospectus is meaningful depends on the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different industry sources. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, "Basis for Issue Price" on Page No. 88 of this Red Herring Prospectus includes information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the BRLM have independently verified such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in "Risk Factors" on Page No. 28 of this Red Herring Prospectus.

FORWARD LOOKING STATEMENTS

This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “propose”, “project”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties, expectations and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. These forward-looking statements, whether made by us or a third party, are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements.

Actual results may differ materially from those suggested by forward-looking statements due to risks or uncertainties associated with expectations relating to and including, regulatory changes pertaining to the industries in India in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on its business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes and changes in competition in the industries in which we operate.

Certain important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- Dependence on our flagship Salt Lake clinic, impact on our revenue if there are any changes in the economic or political circumstances of eastern India or particularly in or around Kolkata;
- Inability to attract/ retain healthcare professional in our Company;
- Regulatory changes applicable to the industry in which we operate;
- Inability to pass on our costs of our high medical equipment cost, manpower cost and infrastructure maintenance and repair cost, to our patients; and

For further discussion of factors that could cause the actual results to differ from our estimates and expectations, see “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Position and Results of Operations*” beginning on Page Nos. 28, 118 and 209, respectively, of this Red Herring Prospectus. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated.

We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect current views as on the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on our management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the Promoter, the Syndicate nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with the SEBI ICDR Regulations, our Company, the Promoter and the Book Running Lead Manager will ensure that the Bidders in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchange for the Issue.

SECTION II - ISSUE DOCUMENT SUMMARY

The following is a general summary of the terms of the Issue. This summary should be read in conjunction with and is qualified in its entirety by, the more detailed information appearing elsewhere in this Red Herring Prospectus, including the sections entitled “*Risk Factors*”, “*Industry Overview*”, “*Outstanding Litigation and Material Developments*”, “*Our Promoter and Promoter Group*”, “*Financial Information*”, “*Objects of the Issue*”, “*Our Business*”, “*Issue Procedure*” and “*Description of Equity Shares and Terms of Articles of Association*” beginning on Page Nos. 28, 98, 222, 166, 172, 75, 118, 254 and 284, respectively of this Red Herring Prospectus.

1. Summary of Industry in which the Company is operating

CKD is a severe public health issue in India. As per government estimates, nearly 2,20,000 patients develop end-stage renal disease (ESRD) annually in India, leading to an additional annual dialysis demand of 34 million treatment sessions. Unfortunately, in India, renal insufficiency treatment focuses more on curative nephrology rather than preventive and holistic solutions.

Kidney disease is a significant public health concern in India, with high morbidity and mortality rates. The Million Death Study estimated a 50% increase in deaths due to chronic kidney disease (CKD) between 2001–2003 and 2010–2013. Several surveys have shown a high population prevalence of CKD. As many as one out of every five adults in high-prevalence areas has CKD. Similarly, acute kidney injury is common and carries a high mortality, especially because treatment is frequently delayed. However, the National Programme for Prevention & Control of Cancer, Diabetes, Cardiovascular diseases and Stroke (NPCDCS), the flagship NCD prevention programme in India, does not cover kidney care.

For further details, please refer to the chapter titled “*Industry Overview*” beginning on Page No. 98 of this Red Herring Prospectus.

SECTION III – RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the sections “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 98, 118 and 209 of this Red Herring Prospectus, respectively. The industry-related information disclosed in this section has been obtained from publicly available industry sources. Neither our Company, nor any other person connected with the Issue, including the BRLM, has independently verified the information in the industry report or other publicly available information cited in this section.

This Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 21 of this Red Herring Prospectus.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Restated Financial Information, prepared in accordance with Ind AS and the Companies Act and restated in accordance with the SEBI ICDR Regulations.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, whether quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Red Herring Prospectus, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

In this section, unless the context requires otherwise, any reference to “we”, “us” or “our” refers to Nephro Care India Limited.

The risk factors are classified as under for the sake of better clarity and increased understanding.

INTERNAL RISK FACTORS

BUSINESS RELATED RISKS

- 1. Our Promoter, Dr. Pratim Sengupta, plays a key role in our functioning and we heavily rely on his knowledge and experience in operating our business and therefore, it is critical for our business that our Promoter remain associated with us.***

Our success depends on our Managing Director and Promoter, Dr. Pratim Sengupta. We believe that our relation with our Promoter, who has rich experience and expertise, has enabled us to experience growth and profitability. Our Promoter, Dr. Pratim Sengupta, is actively involved in the day-to-day operations and management since the incorporation of the Company. In case our Promoter disassociates himself from our Company, we may have to incur additional costs to replace the services of our Promoter or we may not be able to do so at all, which could adversely affect our business operations and affect our ability to continue to manage and expand our business.

- 2. Our expansion into new business vertical, i.e. setting up a hospital, may expose us to new challenges and more risks.***

Our Company is engaged in the business of running of clinics that offers a wide range of clinical and lifestyle solutions and services and renal insufficiency treatment to patients. We intend to expand our business operations. We are proposing to expand our business vertical by setting up one hub multi-speciality hospital at Madhyamgram, Kolkata. For the proposed hospital, we have signed an agreement to take on lease an existing 60 bedded hospital at Madhyamgram, Kolkata and have embarked on a project to convert the same into a 100 bedded multispeciality hospital. Furthermore, we intend to utilise an amount of ₹ 2,615.34 lakhs out of the Net Proceeds towards funding the capital expenditure for setting up of the multi-speciality hospital. For further details, please see the chapter titled “*Objects of the Issue*” on page 75. We do not have any experience of running a multispeciality hospital. This may expose us to new challenges which may in turn also impact our existing business and revenues in future. Therefore, our past results of operations should not be taken as indicative of our future performance. If we cannot successfully manage our proposed new business, address new challenges or compete effectively, we may not be able to recover costs of our investments and eventually achieve profitability, and our future results of operations and growth prospects may be materially and adversely affected.

In the event of any delay in the schedule of implementation or if we are unable to complete the project as per the scheduled time, it could lead to revenue loss. If our proposed projects are not commissioned at the scheduled time, our Company may face cash crunch. While we may seek to minimize the risks from any unanticipated events, it cannot be assured that all potential delays could be mitigated and that we will be able to prevent any cost over-runs and any loss of profits resulting from such delays, shortfalls and disruptions. As a result our business, financial condition, results of operations and prospects could be materially and adversely affected. For further details, please refer to the chapter titled — “*Objects of the Issue*” on page 75 of this Red Herring Prospectus.

- 3. Our revenues are significantly dependent on our flagship Salt Lake clinic. Further, all our clinics are located in the Kolkata. Any impact on the revenues of our flagship Salt Lake clinic or any change in the economic or political circumstances of West Bengal or particularly in or around Kolkata, could materially affect our business, financial condition and results of operations.***

Our flagship Salt Lake clinic commenced operations in 2022, is our longest operating clinic, which has over the last 2 years, established a track record of clinical and operational expertise. Accordingly, we derive a significant portion of our revenue from operations from our flagship Salt Lake clinic. Almost 99% of our revenue from operation comes from our Flagship Salt Lake clinic for the period ended December 31, 2023, and for the year ended March 31, 2023 and March 31, 2022.

Any material impact on our revenues from our clinics in Kolkata, including by reason of a reduction in patient footfall, regulatory changes, reputational harm, liabilities on account of medical negligence, adverse publicity or natural calamities and increased competition, could have a material adverse effect on our business, financial condition and results of operations.

Moreover, each of our clinics is located in the State of West Bengal. Such regional concentration exposes us to adverse economic or political circumstances that affect demand for healthcare services in the region. Any regional slowdown, political unrest, disruption, disturbance or sustained downturn in the economy of such regions could adversely affect our business, financial condition and results of operations.

4. *We are highly dependent on our healthcare professionals including doctors and nurses, and any future inability to attract/ retain such professionals will adversely affect our business, financial condition and results of operations.*

Our operations depend on the skills, efforts, ability and experience of our healthcare professionals including doctors and nurses at our clinics. As of March 31, 2023, our healthcare professionals included 5 doctors and 10 visiting consultants and 70 other professionals (including clinical associates, clinical and physician assistants, paramedical and support staff).

There is no assurance that the attrition amongst our healthcare professionals will not increase in the future. Our doctors work with us as consultants under various arrangements including on a fixed fee basis (fixed monthly remuneration), minimum consultation fee basis (remuneration is calculated based on number of visits and other services provided and includes a minimum fixed monthly remuneration) and pay-for-services model (remuneration is calculated based on number of visits and other services provided and does not include any fixed monthly remuneration), and are permitted to practice outside of our business and to work at clinics / hospitals that compete with us. Even though we are not dependent on any particular doctor for providing services to our patients, certain patients may choose our clinics because of the reputation of some of our individual doctors. There is no assurance that we will be able to retain our doctors or our doctors will continue to provide services to us or devote the whole of their time to our clinics or that our doctors will not prematurely terminate such agreements, which they may unilaterally terminate by serving a notice of typically one to Three months. We may, as a result, be unable to effectively utilize their time and expertise in providing services to our patients or be able to attract patients to our hospitals due to their preference of doctors, which may have an adverse impact on the patient volume and our profitability at such clinics. These arrangements may also give rise to conflicts of interest, including with regard to how these doctors allocate their time and other resources between our hospitals and other clinics or hospitals at which they work and where doctors refer patients.

We also compete with other healthcare services providers in recruiting and retaining trained healthcare professionals including doctors in a highly competitive industry. Additionally, some of our doctors may choose to join our competitors upon leaving us. Failure to attract and retain sufficient qualified healthcare professionals for our clinics could adversely affect the quality of our services and in turn affect our business, financial condition and results of operations.

5. *Our industry is highly regulated and requires us to obtain, renew and maintain statutory and regulatory permits, accreditations, licenses and comply with applicable safety, health, environmental, labour and other governmental regulations. Any regulatory changes or violations of such rules and regulations may adversely affect our business, financial condition and results of operations.*

Healthcare providers are subject to a wide variety of governmental, state and local environmental and occupational health and safety and other laws and regulations. Further, we are required to obtain and renew from time to time, a number of approvals, accreditations, licenses, registrations and permits from governmental and regulatory authorities such as in relation to establishment of clinics, operation of our clinics, procurement and operation of medical and other equipment, storage and sale of drugs. In particular, we are required to obtain certificate of registrations for carrying on certain of our business activities including from the Government of India, the State Governments and other such regulatory authorities that are subject to numerous conditions. For a description of the approvals and licenses obtained by us, see “Government and Other Approvals” on page 225. Moreover, health and safety laws and regulations in India have become increasingly stringent over time, and it is possible that they will become more stringent in the future. For detailed information in relation to the rules and regulations applicable to us, see “Key Regulations and Policies” on page 139 of this RHP.

The regulatory licenses that we require are typically granted for a limited term and are subject to renewal at the end of such terms. Further, we cannot assure you that the approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for and obtain the required approvals, licenses, registrations or permits, or any suspension or revocation of any of the approvals, licenses, registrations and permits that have been or may be issued to us, may impede our operations and may have an adverse effect on our business, financial condition and results of operations.

Further, if we fail to comply with the requirements for applicable quality standards, or if we are otherwise unable to obtain or renew such quality accreditations in the future, in a timely manner, or at all, our business and prospects may be adversely affected. The qualifications and practice of our healthcare professionals is also strictly regulated by applicable laws, regulations, policies and guidelines, as well as by applicable codes of professional conduct or ethics. If our healthcare professionals fail to comply with applicable laws, regulations, policies or guidelines, including professional licensing requirements, they and/or we may be subject to penalties including fines, loss of licenses or restrictions on our healthcare facilities and operations, which could materially and adversely affect our business and reputation. However, our company has not faced any instance of rejections of approvals/ renewals of material licenses, which could have hampered our operations.

6. *We incur high expenses in relation to manpower cost, infrastructure and medical maintenance and repair costs, ancillary and various pharmaceuticals items. If we are unable to obtain favourable pricing from suppliers or negotiate compensation of our healthcare professionals effectively, it could affect our profitability. Any inability to pass on such costs to our patients, may have an adverse impact on our business, financial condition and results of operations.*

We incur high expenses in relation to manpower, infrastructure and medical equipment maintenance and repair costs, ancillary and various pharmaceuticals items. Further, maintenance of highly specialized clinical equipment involves recurring substantial costs.

Our profitability is also susceptible to the cost of medical consumables, pharmaceuticals, drugs and surgical instruments. The complex nature of the treatments and procedures we perform or propose to introduce at our clinics require us to invest in new technology and equipment from time to time, which is generally expensive. If our Company is unable to obtain favourable pricing, discounts and rebates from vendors/suppliers (on account of recurring negotiations in a very competitive environment), it could affect our profitability. Moreover, these supplier programs may change periodically, potentially resulting in higher cost of surgical instruments, drugs and consumables and adverse profitability trends, if we cannot adjust our prices to accommodate such increase in costs. Further, such increased costs may negatively impact our ability to deliver quality care to our patients at competitive prices. If we are unable to adopt alternative means to deliver value to our patients (in terms of quality and affordable healthcare services), our revenue and profitability may be materially and adversely affected.

Further, given the high demand of skilled healthcare professionals and an increase in competition with other healthcare service providers, we may also be unable to negotiate compensation of our healthcare professionals effectively or pass on any of such cost increases to the patients. On the other hand, if we are unable to offer our healthcare professionals including doctors competitive fees, salaries and perquisites, our relationship with them may deteriorate and consequently, we may be unable to retain them. In the event we experience such an increase in costs, or if we are not able to grow our revenue in line with our costs, our profitability would be severely impacted, particularly during a period of economic decline or in the event of a reduction in our revenues, which could have a material adverse effect on our business, financial condition and results of operations.

The following table sets forth information in relation to certain key costs and expenses for the periods indicated:

S. No.	Particulars	For the period ended December 31, 2023		Fiscal

7. ***There can be no assurance that the objects of the Issue will be achieved within the time frame anticipated or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment. Further, the plan for deployment of the Net Proceeds has not been appraised by any bank or financial institution.***

We propose to set up one hub multi-speciality hospital at Madhyamgram, Kolkata, which is under remoulding and upgradation and a part of the IPO proceed is proposed to be utilised for the same purpose. We propose to utilise an amount of ₹ 2,615.34 lakhs towards funding the capital expenditure for setting up of the multi-speciality hospital. Our Board will have flexibility in temporarily investing the Net Proceeds as well as its inter se allocation across various heads under as disclosed in the section titled “Objects of the Issue” on page 75. Further, the plans for deployment of the Net Proceeds are in accordance with our management’s estimates and have not been appraised by any bank, financial institution or any other external agency. Our Company may have to revise its management estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, interest or exchange rate fluctuations and consequently its requirements may change.

In the event there is a shortfall in the management’s estimate on the funds required to establish the multispeciality hospital and the receipt of net issue proceeds from this Issue, we may be unable to meet the balance fund requirement for the proposed multi-speciality hospital which may have a bearing on the commission of our proposed multi-speciality hospital on time. In case of any shortfall, there can be no assurance that we will be able to raise the funds through other sources to meet our obligations for our proposed establishment or in case of shortfall in the proceeds of this Issue which are to be utilized for meeting the objects of the Issue, the shortfall will be met by such means as are available to our Company at such future time and at the discretion of the management, including by way of cash available with us or by any other means permissible under law. We cannot assure that we will be able to arrange for adequate cash or will be able to procure further loans to meet the funding requirements. Any failure to meet the additional funding requirements will have a material adverse effect on the implementation of the proposed multi-speciality hospital.

We may also be required to adhere to certain restrictive covenants as regards raising of finance for the multi-speciality hospital under the financing documents. Any failure or delay on our part to raise funds from the Issue or any shortfall in the fund requirements and subsequent inability of our Company to source alternate means of finance may delay the implementation of our project and could adversely affect our growth plans.

8. ***Our ability to provide affordable healthcare depends on the maintenance of a high volume of patients and effective capital management. Any increase in such costs could adversely affect our business, financial condition and results of operations.***

Our mission to deliver advanced and affordable healthcare services to patients depends on our ability to maintain a high volume of patients, occupancy rates, and effectively manage capital, operating costs and capital expenditure.

Patient volume is affected by, among others, factors out of our control such as seasonal illness cycles, climate and weather conditions, and the employment status of individuals. As a result, our clinics may experience a decrease in

patient volume in times of an economic downturn or stagnation. Set out below are details in relation to our patient volume and revenue along with certain other key operational parameters for the Fiscals indicated:

S. No.	Particulars	For the period ended December 31, 2023		Fiscal					
				2023		2022		2021	
		Total	% of total income	Total	% of total income	Total	% of total income	Total	% of total income
1.	Patient volume (in nos.)	26,508	-	21,287	-	1,381	-	4,929	-
2.	Patient income (₹ Lakh)	1,285	65.08%	1,259	73.64%	205	59.85%	122	66.82%

Note: The above excludes our revenue generated from in our pharmacy services.

Our ability to effectively manage our capital is crucial to our ability to maintain our cost structure and any adverse development relating to patient volume and our project cost may adversely affect our financial position and performance and require us to increase the fees charged to our patients, which may have a material adverse impact on our business, financial condition and results of operations. While we seek to manage our pricing model in light of these costs, we may not always be able to do so, including due to our fee arrangements and existing contracts, as well as regulatory restrictions.

There is no assurance that we will be able to maintain or improve our patients volume as compared to the increase in our total capital expenditures in the future. Any failure by us to maintain or improve our patients rates may result in an ineffective deployment of capital expenditure and reduced profit margins, which may have an adverse impact on our business, financial condition, and results of operations.

9. *Our Company is yet to place orders for the equipments and machines required for our proposed multi-speciality hospital. Any delay in placing orders or procurement of such equipment, may further delay the schedule of implementation and increase the cost of commissioning the manufacturing units.*

Our Company has received third party quotations for the equipment required for our proposed multi-speciality hospital, for details please refer to the chapter titled “*Objects of the Issue*” on page 75 of this Red Herring Prospectus. Although, we have identified the equipment to be purchased for the proposed multi-speciality hospital, we are placed order for some of the equipment required.

Further, the cost of the equipment is based on the quotations received from suppliers and such quotations are subject to change due to various factors such as, change in supplier of equipment, change in the government regulation and policies, change in management’s view of desirability of the current plans, possible cost overruns, etc. Since, we have not yet placed orders for the said equipments, we cannot assure that we will be able to procure the same in a timely manner and at the same price at which the quotations have been received. Delay in procurement of the same can cause time and cost overrun in the implementation of our proposed project and can also compel us to buy such equipments at a higher price, thus causing the budgeted cost to vary. As a result, our business, financial condition, results of operations and prospects could be materially and adversely affected.

10. *We may experience delays in commencement of operations of our proposed hospital or we may be unsuccessful in implementing our growth plans of expansion in a timely manner or at all, which may have an adverse effect on our business, financial condition and results of operations.*

We are also in the process of developing a multi-speciality hospital in Kolkata, which we believe will provide us with an opportunity to expand our footprint and serve larger patient volume. The hospital is under remoulding and upgradation. For further details in relation to our expansion plans, see “Our Business” on page 118. As part of our growth strategy, we may pursue selective acquisitions and strategic alliances in our focus micro-markets that provide us access to better infrastructure, high-value technological and operational capabilities, industry knowledge and geographical reach, and allow us to expand our patient base and service offerings.

Developing and operating new hospital / facilities could also be subject to certain risks, including:

- delays to secure approvals, permits and licenses or failure to comply with the conditions of such approvals;

- inability to obtain the requisite financing at favourable costs if at all;
- difficulties arising from coordinating and consolidating corporate and administrative functions, including the integration of internal controls and procedures such as timely financial reporting;
- difficulties in procuring equipment or recruiting and retaining healthcare professionals including
- doctors and nurses at existing and new hospitals; and
- unforeseen legal, regulatory, contractual, labour or other issues.

Upon completion of the proposed hospital/facility, we may not or take time to achieve the operating levels we expect from the newly developed hospital/ facility and thereby fail to achieve our targeted returns on such investments. In addition, our competitors may already have established operations in such areas and we may find it difficult to attract patients in such new areas or may be unsuccessful in managing the risks of such expansions. If we are unable to manage the growth of our business or successfully commence operations of, or integrate, newly developed hospital/ facility, our reputation and ability to compete effectively could be impaired, which would have a material adverse impact on our business, financial condition and results of operations.

11. We are dependent upon the experience and skill of our management team, a number of key managerial personnel and senior management personnel. If we are unable to attract or retain such qualified personnel, this could adversely affect our business, financial condition and results of operations.

We are dependent on our founder, Dr. Pratim Sengupta, who is also our Chairman and Managing Director, and certain other key members of our management team to manage our current operations and meet future business challenges. The loss of, or inability to attract or retain the services of our senior management or key personnel could significantly impair our ability to continue to manage and expand our business. For details in relation to the experience of our Promoter, our Directors, our Key Managerial Personnel and our Senior Management Personnel, see “*Our Promoter and Promoter Group*” and “*Our Management*” on pages 166 and 154, respectively. For further details on the attrition rate for our healthcare professionals including doctors and nurses, see “*Internal Risks - We are highly dependent on our healthcare professionals including doctors and nurses, and any future inability to attract/ retain such professionals will adversely affect our business, financial condition and results of operations.*”. We maintain directors and officers liability insurance for the senior members of our management team or other key personnel. Our continued success and ability to meet future business challenges depends on our ability to attract, recruit and retain experienced, talented and skilled healthcare professionals. Without a sufficient number of skilled employees, the quality of our services could suffer. Competition among healthcare service providers for qualified professionals is intense, and the ability to retain and attract qualified individuals is critical to our success.

12. Pricing regulations and related government reforms in the healthcare industry and associated uncertainty may adversely affect our business, financial condition and results of operations.

The kidney healthcare sector in India is particularly vulnerable to the impact of pricing regulations and government reforms within the broader healthcare industry. Pricing regulations and related governmental reforms can significantly affect the accessibility and affordability of kidney-related treatments, including dialysis and transplantation procedures. Given the critical nature of kidney health services, any alterations in pricing regulations or reforms could lead to a substantial change in the revenue streams for companies operating in this sector. Moreover, the uncertainty surrounding the nature and timing of future governmental measures adds to the risk, potentially disrupting business operations and financial stability. As a result, the kidney healthcare sector faces heightened susceptibility to adverse impacts on its business, financial condition, and results of operations due to pricing regulations and associated governmental reforms. However, our company has not faced any such strict regulations enforcements by the regulatory authority since we have started our operations and our company was never subject to price control measures imposed by the Central and state governments during the COVID-19 pandemic.

13. We could be exposed to risks relating to the handling of personal information, including medical data.

While the company has not encountered any incidents thus far, there exists a potential risk regarding the handling of personal information, including sensitive medical data. The healthcare industry inherently deals with a vast amount of personal and medical information, making it susceptible to data breaches, cyberattacks, or inadvertent disclosure. Any compromise in the security or confidentiality of this data could result in regulatory penalties, litigation,

reputational damage, and loss of trust among patients and stakeholders. Additionally, evolving data protection regulations further heighten the importance of robust cybersecurity measures and compliance frameworks. Despite the absence of past incidents, the company remains exposed to the inherent risks associated with handling personal information, necessitating ongoing vigilance and investment in data protection mechanisms to mitigate potential adverse impacts on its business and reputation.

14. An inability to keep pace with technological changes, new equipment, replacement of obsolete equipment and service introductions, changes in patients' needs and evolving industry standards as well as failure or malfunction of our medical or other equipment could adversely affect our business, financial condition and results of operations.

The healthcare services industry is characterized by periodic technological changes, new equipment and service introductions, changes in patients' needs and evolving industry standards, including, for example, changes associated with diagnostic processes, treatments and patient-doctor interactions in telemedicine offerings. Procuring and integrating new services and tools at commercially suitable terms and in a timely and cost-effective manner may be difficult, particularly as market preferences can change rapidly. We may also experience delays or failures at any stage of our service development, introduction or implementation. We cannot assure you that our existing equipment and technologies are error-free, and incapable of malfunctioning. The medical equipment we use as part of our business has a limited life span, and may become obsolete, including by reason of advancement of technology. Extended downtime of our medical equipment, and repair or replacement costs of such equipment, could result in loss of revenue, patient dissatisfaction, and damage to our reputation.

Failures, accidents, defects, improper use or lack of maintenance of our equipment may also lead to injury to our patients and healthcare professionals. In addition, we may not be able to respond to such failures or malfunctions in a timely manner or with acceptable cost, which could adversely impact our ability to provide patients with necessary treatments and quality services, result in injury to our healthcare professionals and patients as well as damage our reputation. Further, we cannot assure you that we will be able to procure the latest medical equipment and technologies at commercially suitable terms and in a timely manner, or at all. In such case our business, financial condition and results of operations may be materially and adversely affected.

15. Any failure to maintain and enhance our brand and reputation, and any negative publicity and allegations in the media against us, may adversely affect the level of trust in our services and market recognition, which could further result in an adverse impact on our business, financial condition and results of operations.

We believe that our brand and reputation are critical to our success. Many factors, some of which are beyond our control, are important to maintaining and enhancing our brand and, if not properly managed, may negatively impact our brand and reputation, including:

- our ability to maintain a convenient, standardized and reliable patient experience;
- our ability to effectively control the quality of service in our clinic and proposed hospital including doctor expertise, friendliness of staff, waiting times and ease of access to doctors, nurses and pharmacists, and to monitor their performance as we continue to expand our network;
- our ability to increase brand awareness among existing and potential patients through various methods of marketing and promotional activities; and
- our ability to maintain and renew existing accreditations or to apply for additional accreditations as we expand our network.

Despite our effort to manage and supervise healthcare professionals in our network, they may fail to meet our requirements and their contractual obligations with us. They may not possess the permits or qualifications required by the relevant laws and regulations at all times, or they may fail to meet other regulatory requirements for their operations. Our brand and reputation may be adversely impacted if our healthcare professionals provide inferior service, engage in medical malpractice, violate laws or regulations, commit fraud or misappropriate funds, harm a patient or mishandle personal healthcare information, in addition to any impact that such development would have on our business, financial condition, and results of operations. We face heightened risks of non-compliance, medical negligence and

professional misconduct with respect to healthcare professionals who do not operate fully under our management and over whom we have limited control. If such claims situation arises, we may become liable for damages and other consequences which may materially and adversely affect our brand, business, reputation, financial condition and results of operations.

16. We face competition from other healthcare service providers and an inability to compete effectively could adversely affect our business, financial condition and results of operations.

We compete with hospitals, clinics, diagnostic chains and other healthcare service providers of varying sizes and specialties. Our competitors also include healthcare facilities owned or managed by government agencies and trusts, which may be able to obtain financing or make expenditure on more favourable terms than private healthcare facilities such as us. We compete on the basis of factors such as specialties and other service offerings, quality of healthcare services and professionals, affordability, quality of care, patient satisfaction, brand and reputation. We face competition from players which operate in the same region as us. We also face competition mainly from hospital chains who provide secondary and tertiary healthcare services. The key players in eastern India include Apollo Hospitals Enterprises Limited, Fortis Healthcare Limited, Medica Superspecialty Hospital and AMRI Hospitals Limited (Source: CRISIL Report).

Any increase in competition (including from medical and scientific advances or alternative medicine and therapies available at non-hospitals which could reduce the need for hospitalization or other healthcare services at hospitals) may lead to pricing pressure as well as challenges in talent acquisition. We are required to evaluate and increase our competitive position in each of our markets, for example by offering competitive compensation to healthcare professionals and quality services with competitive rates to our patients. As a result, we may experience lower profitability as we strive to compete with our competitors on all fronts. Existing or new competitors may also price their services at a significant discount to ours or offer greater convenience or better services or amenities than we provide. Our competitors may compete with us for healthcare professionals including doctors. This may result in a higher attrition rate at our clinics network and could negatively impact our ability to register new patients and provide high quality services. Some of our competitors may also have substantially greater financial, technical or other resources than we do, which may enable them to undertake quicker responses to changes in the market demand, with new, alternative or emerging technologies. If we are unable to compete effectively with our competitors, our market share, business, financial condition and results of operations could be materially and adversely affected.

17. An inability to maintain optimum levels of doctor-patient ratio at our clinics and our proposed hospitals could adversely affect our business, operations, financial condition and results of operations.

In order to ensure the quality of our services and smooth functioning at our clinics, maintaining an optimum doctor to patient ratio at our clinics is critical for our operations.

A low doctor patient ratio, meaning that each doctor has to care for a large number of patients, may be associated with several risks, such as: reduced quality and continuity of care, as doctors may have less time and resources to assess, diagnose, treat, and follow up with each patient, leading to potential errors, delays, omissions, or complications, and increased workload and stress for doctors, which may impair their physical and mental health, performance, morale, and satisfaction, and increase the risk of burnout, turnover, absenteeism, or malpractice claims. While a high doctor patient ratio, meaning that each doctor has to care for a small number of patients, may also be associated with several risks, such as: reduced utilization and efficiency of doctors, as doctors may have excess capacity, underuse their skills, or duplicate services, leading to potential over diagnosis or overtreatment, and decreased collaboration and coordination among doctors, who may have less interaction, communication, or integration with other doctors or health professionals, leading to potential fragmentation, isolation, or competition. Any failure to maintain an optimum level of doctor-patient ratio at each of our clinics could adversely affect our business, operations, financial condition and results of operations. For reference, our current doctor-patient ratios are as follows:

Year	Number of Patient Consultations	Number of Doctors (Full Time + Consultants)	Patient to Doctor Ratio
For the period ended 9 months (Dec 31, 2023)	5652	15	377:1
2022-23	6201	10	620:1
2021-22	1069	4	267:1

2020-21	NA	NA	NA
---------	----	----	----

*Note: In the fiscal year 2021, the company did not have direct patient interactions. Despite this, revenue earnings and profit were generated as the company operated its machines within third-party hospitals, using their premises for service delivery.

18. Any failure to provide quality medical treatment and service to our patients and any lapses on part of our medical staff may adversely affect the reputation of our hospitals, and as a result, our business, financial condition and results of operations.

Healthcare quality is measured by certain factors, including the quality of medical care, doctor expertise, friendliness of staff, waiting times and ease of access to our doctors. Accordingly, our clinics' reputation and business depend on our ability to provide quality medical treatment and service to our patients. If we are unable to provide high quality services to our patients or fail to maintain a high level of patient satisfaction or experience a high rate of medical malpractice suits, our brand or reputation could be damaged.

Owning and operating clinics / medical facilities entails a number of operational, financial and reputational risks that could impair its performance and expose it to potential claims, litigation, regulatory actions, sanctions, or negative publicity. These risks and challenges include, but are not limited to:

- Medical errors, malpractice, negligence, or misconduct by our medical staff or by third parties that provide products or services to our clinics, such as diagnostic tests, drugs, devices or equipment.
- Adverse events, complications, infections, injuries, or deaths of patients resulting from our treatment or service, or from the use of defective or contaminated products or services supplied by third parties.
- Failure to comply with applicable laws, regulations, standards, guidelines, or policies relating to quality, safety, accreditation, certification, licensing, reporting, disclosure, privacy, security or billing of medical services, or to maintain adequate records, documentation, or evidence of such compliance.
- Failure to monitor, supervise, train, evaluate, or retain qualified, competent, and motivated medical staff, or to address any performance, conduct, or ethical issues that may arise among them.
- Failure to manage or mitigate any reputational damage, loss of trust, or loss of market share that may result from any of the above risks or challenges, or from any negative publicity, media coverage, social media activity, or public opinion that may arise in relation to our performance, practices or incidents.

Any of these risks or challenges could adversely affect our reputation, business and profitability as well as our ability to achieve our strategic objectives. There can be no assurance that we will be able to prevent, detect or correct any of these risks or challenges, or that we will be able to maintain or enhance our reputation and business in the face of any of these risks or challenges.

19. Our insurance coverage may not be sufficient to cover all possible economic losses, which could have an adverse effect on our business, financial condition and results of operations.

Our operations are subject to inherent risks of medical negligence, malpractice, personal injury and loss of life, damage to or destruction of property, plant and machinery and damage to the environment, and are subject to risks such as fire, theft, flood, earthquakes and terrorism. We maintain insurance policies to cover various risks customary to our industry.

Some of our claims could exceed the scope of the coverage in effect or coverage of particular claims could be denied. We believe our liability insurance has been adequate in the past but there can be no assurance that our insurance coverage will be sufficient to cover all future claims. If our arrangements for insurance or indemnification are not adequate to cover claims, we may be required to make substantial payments and our financial condition and results of operations may be adversely affected. Additionally, such insurance may not adequately cover all losses or liabilities that may arise from our operations, including, but not limited to, when the loss suffered is not easily quantifiable. If we were to make a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. If our losses significantly exceed our insurance coverage or cannot be recovered through insurance, our business, financial condition and results of operations could be adversely affected.

20. An inability to protect our intellectual property rights, or any exposure to misappropriation and infringement claims by third parties, could have an adverse effect on our business, reputation, financial condition and results

of operations.

We rely on our branding and intellectual property rights for the success of our business and in order to protect our intellectual property, we obtain appropriate statutory registrations. As of January 31, 2024, we have 8 (eight) registered trademarks under the Trademarks Act, 1999. For further details in relation to our intellectual property approvals, see “*Our Business – Intellectual Property*” on page 136.

Our failure to register or protect our intellectual property rights may undermine our brand and hinder the growth of our business. If any of our confidential or proprietary information were to be disclosed or misappropriated, or if a competitor independently developed any such information, our competitive position could be harmed.

Successful infringement claims against us could result in significant monetary liability. Our defence of any such claim, regardless of its merit, could also be time consuming and divert management resources. In addition, resolution of claims may require us to cease using those rights altogether. In addition, there is no assurance that steps taken by us to protect our intellectual property rights will be adequate to stop infringement by others, including imitation and misappropriation of our brand.

21. *In the past, there have been discrepancy and the instances of delays in filing of certain forms which were required to be filed as per the reporting requirements under the Companies Act, 2013 to RoC.*

In the past, there have been certain instances of delays in filing statutory forms as per the reporting requirements under the Companies Act, 2013 with the RoC, which have been subsequently filed by payment of an additional fee as specified by RoC. Following table shows the delays held in the past three FYs and the nine months stub period ended on 31st March, 2023:

No show cause notice in respect to the above has been received by our Company till date and except as stated in this Red Herring Prospectus, no penalty or fine has been imposed by any regulatory authority in respect to the same. It cannot be assured, that there will not be such instances in the future or our Company will not commit any further delays or defaults in relation to its reporting requirements, or any penalty or fine will not be imposed by any regulatory authority in respect to the same. The happening of such event may cause a effect on our results of operations and financial position.

22. *Our patients may contract serious communicable infections or diseases at our clinics due to the risks typically associated with the operation of medical care facilities.*

Our operations involve the treatment of patients, these patients may be in having infectious diseases. Therefore, people may contract serious communicable diseases during their visit at our clinics, which could result in significant claims for damages against us and, as a result of reports and press coverage, damage to our reputation. For example, diseases or infections such as tuberculosis and COVID-19 may pose risks. Further, our employees and other healthcare professionals are also susceptible to such diseases and their infection could significantly reduce the treatment and care capacity at our hospitals. In addition to claims for damages, any of these events may lead directly to limitations on the activities of our hospitals as a result of quarantines, partial or temporary closure of our hospitals, and regulatory restrictions on, or the withdrawal of, permits and authorizations. Any of these factors could have a material adverse effect on our reputation and business. However, our company has not faced any such incidence in the past.

23. *An inability to establish and maintain effective internal controls could lead to an adverse effect on our business and reputation.*

As we continue to expand, our success depends on our ability to effectively utilize our resources and maintain internal controls commensurate with the size and complexity of our operations. We are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances. Moreover, given our high volume of transactions, errors may be repeated or compounded before they are discovered and rectified. Despite our efforts, there remains a possibility that our actions may not consistently ensure effective internal checks and balances, especially given the high volume of transactions we handle. Furthermore, errors within our systems may be repeated or compounded before detection and rectification. We acknowledge the need for continual modification and enhancement of our financial and management control processes, reporting systems, and compliance procedures to align with our evolving business needs. However, even with these improvements, we cannot guarantee the elimination of all risks. In the event of any weaknesses in our internal controls, our ability to manage operations effectively could be compromised, potentially leading to inaccuracies in financial reporting. It's important to note that to date, the company has not experienced such lapses or failures resulting from human error. Nonetheless, we remain committed to upholding the integrity of our internal control systems to maintain investor confidence and safeguard the value of our Equity Shares.

24. *Our Promoters, Directors and Key Managerial Personnel have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits.*

Our Promoters, Directors and Key Managerial Personnel, may be deemed to be interested in our Company, in addition to the regular remuneration or benefits, reimbursements of expenses, Equity Shares held by them or their relatives, their dividend or bonus entitlement, benefits arising from their directorship in our Company. Our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners.

There can be no assurance that our Promoters, Directors, Key Management Personnel will exercise their rights as shareholders to the benefit and best interest of our Company. Our Promoters and members of our Promoter Group will continue to exercise significant control over our Company, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting of shareholders, and our other shareholders may be unable to affect the outcome of such voting. Our Directors and our Key Management Personnel may take or block actions with respect to our business, which may conflict with the best interests of our Company or that of minority shareholders. However, the Company Secretary of the Company Mr. Sougata Sengupta is not holding in any shares of the company as on date of this RHP.

25. *Our Promoters and members of the Promoter Group have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.*

Upon completion of this Issue, our Promoters and members of our Promoter Group will collectively hold 85.02% of the Equity share capital of our Company. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders' approval. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, undertaking sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interests of our Company. Further, such control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company's best interest. The interests of our Promoters could conflict with the interests of our other equity shareholders, and our Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

26. *The average cost of acquisition of Equity Shares held by our Promoters could be lower than the Issue Price.*

Our Promoters' average cost of acquisition of Equity Shares in our Company may be lower than the Issue Price which is proposed to be determined through book building mechanism. The average cost of acquisition of shares is as follows:

Name of Promoter	No. of shares held	Average Cost of Acquisition (in ₹)
Dr. Pratim Sengupta	1,00,00,000	0.50

27. We have in past entered into related party transactions and we may continue to do so in the future.

As of December 31, 2023, we have entered into several related party transactions with our Promoters, individuals and entities forming a part of our promoter group relating to our operations. In addition, we have in the past also entered into transactions with other related parties. For further details, please refer to the chapter titled — “*Restated Financial Information*” at page 190.

While we believe that all our related party transactions have been conducted on an arm's length basis, and we confirm that the related party transactions entered into by the company are in compliance with the relevant provisions of Companies Act and other applicable laws, we cannot assure you that we may not have achieved more favorable terms had such transactions been entered into with unrelated parties. There can be no assurance that such transactions, individually or taken together, will not have an adverse effect on our business, prospects, results of operations and financial condition, including because of potential conflicts of interest or otherwise. In addition, our business and growth prospects may decline if we cannot benefit from our relationships with them in the future.

28. We use highly flammable materials in our activities which expose us to the risk of loss due to fire. Any fire accidents may have a material adverse effect on our business, financial condition and results of operations.

We store, handle and use certain chemicals, such as alcohol, sanitizers, gases, fuel and other inflammable materials at all of our clinics. Healthcare facilities are subject to risks associated with fires, power failures, telecommunications failure and other events. Such events could materially impact our business in the future. Furthermore, any short circuit of power supply for our equipment and machines, including air conditioning plants and power supplies, could result in accidents and fires that could result in injury or death to our employees, our patients, and other persons present at our clinics. Further, in the event of such an incident, we cannot assure you that our insurance coverage will be sufficient to cover all damages and losses for which we become liable. In addition, any such incidents of fire may result in significant litigation, losses to property and/or loss of life and disrupt our use of our facilities to conduct our operations, thereby adversely affecting our business, financial condition and results of operations. However, our company has not faced any such incidence in the past.

29. Any conflict of interest which may occur between our business and any other similar business activities pursued by our Promoters could have a material adverse effect on our business and results of operations.

As of the date of this Red Herring Prospectus, one of our Promoter Dr. Pratim Sengupta maintain associations with entities engaged in business activities similar to those of our company by performing kidney transplant surgeries in two hospitals in his personal capacity namely ILS Hospital (Dum Dum) & Bellevue Clinic as an Independent Practicing Doctor. This situation inherently raises concerns regarding potential conflicts of interest between our company and our Promoters. Notably, we have not established a non-compete arrangement with our Promoters to mitigate these conflicts, as the profession of doctors comes under the purview of Noble Professional, as it is a lifesaving profession, hence our company cannot enter into any non-competent agreement.

The absence of a non-compete agreement introduces uncertainty regarding our ability to effectively manage and resolve conflicts of interest as they arise. While we endeavor to maintain transparency and fair dealings within our organization, the existence of competing business interests may lead to situations where the priorities of our company and our Promoters diverge. Such conflicts could manifest in various forms, including strategic decision-making, resource allocation, or market competition.

It is essential to recognize that while efforts may be made to prevent conflicts of interest, their occurrence cannot be entirely eliminated. Consequently, there is no guarantee that conflicts will not arise in the future, nor can we assure stakeholders that we will be able to resolve such conflicts satisfactorily without adversely affecting our business or operations.

- 30. We have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. Further, we have not identified any alternate source of financing the 'Objects of the Issue'. Any shortfall in raising / meeting the same could adversely affect our growth plans, operations and financial performance.**

As on date, we have not made any alternate arrangements for meeting our capital requirements for the Objects of the Issue. We meet our capital requirements through our bank finance, unsecured loans, owned funds and internal accruals. Any shortfall in our net owned funds, internal accruals and our inability to raise debt in future would result in us being unable to meet our capital requirements, which in turn will negatively affect our financial condition and results of operations. Further, we have not identified any alternate source of funding and hence any failure or delay on our part to raise money from this issue or any shortfall in the issue proceeds may delay the implementation schedule and could adversely affect our growth plans. For further details, please refer to the chapter titled "*Objects of the Issue*" beginning on page 75 of this Red Herring Prospectus.

- 31. We may face difficulties in implementing our strategies including our expansion and diversification plans of entering new geographical areas, development and commercialization of new products.**

We may face difficulties in implementing our strategies including our expansion and diversification plans of entering into new geographical areas and development and setting up of new manufacturing unit due to various factors such as entry barriers, stringent rules and regulations, fierce competition in the new markets, inadequacy of funds for expansion, high cost of debt that may be required for expansion and diversification. Implementation of our strategies may pose significant challenges to our administrative, financial and operational resources and additional risks that our Company may not be able to foresee. Failure to successfully implement some or all of our key strategic initiatives in an effective and timely manner may adversely affect our future business prospects. For further details on our business strategies, kindly see the chapter titled "*Our Business*" beginning on page 118 of this Red Herring Prospectus.

- 32. The deployment of funds raised through this Issue shall not be subject to any Monitoring Agency and shall be purely dependent on the discretion of the management of our Company.**

Since the Issue size is less than ₹ 10,000 lakhs, there is no mandatory requirement of appointing an Independent Monitoring Agency for overseeing the deployment of utilization of funds raised through this Issue. The deployment of funds raised through this Issue, is hence, at the discretion of the management and the Board of Directors of our Company and will not be subject to monitoring by any independent agency. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

- 33. Any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in the Red Herring Prospectus would be subject to certain compliance requirements, including prior shareholders' approval.**

We propose to utilise an amount of ₹2,615.34 lakhs towards funding the capital expenditure for one hub multi-speciality hospital at Madhyamgram, Kolkata. Our Board will have flexibility in temporarily investing the Net Proceeds as well as its inter se allocation across various heads under the setting up of the proposed one hub multi-speciality hospital and purchase of equipment, as disclosed in the section titled "*Objects of the Issue*" on page 75.

In case of any exigencies arising out of business conditions, economic conditions, competition or other factors beyond our control which adversely affect our business, we may require to use the Net Proceeds to meet any other expenditure or fund which expenditure cannot be determined with certainty as on the date of this Red Herring Prospectus. In terms of Section 27 of the Companies Act, 2013, we cannot undertake any variation in the utilisation of the Net Proceeds or in the terms of any contract as disclosed in the Red Herring Prospectus without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances requiring us to undertake variation in the utilisation of the Net Proceeds disclosed in the Red Herring Prospectus, we cannot assure that we will be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

Further, our Promoter would be required to provide an exit opportunity to the shareholders who do not agree with our proposal to change the objects of the Issue. Additionally, the requirement on Promoter to provide an exit opportunity to such dissenting shareholders may deter the Promoter from agreeing to the variation of the proposed utilisation of the Net Proceeds, even if such variation is in the interest of our Company. Further, we cannot assure you that the Promoter of our Company will have adequate resources at their disposal at all times to enable them to provide an exit opportunity at the price prescribed by SEBI.

In light of these factors, we may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Fresh Issue, if any, or vary the terms of any contract referred to in the Red Herring Prospectus, even if such variation is in the interest of our Company. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilised portion of Net Proceeds, if any, which may adversely affect our business and results of operations.

34. *The requirement of funds in relation to the objects of the Issue has not been appraised.*

We intend to use the proceeds of the Issue for the purposes described in the section titled "*Objects of the Issue*" on page 75. The objects of the Issue have not been appraised by any bank or financial institution. These are based on management estimates and current conditions and are subject to changes in external circumstances or costs, or in other financial condition, business or strategy. Based on the competitive nature of the industry, we may have to revise our management estimates from time to time and consequently our funding requirements may also change. The deployment of the funds towards the objects of the issue is entirely at the discretion of the Board of Directors/Management and is not subject to monitoring by external independent agency. However, the deployment of funds is subject to monitoring by our Audit Committee. Any inability on our part to effectively utilize the Issue proceeds could adversely affect our financials.

35. *Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.*

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. Our Company has not declared dividends in the past, and there can be no assurance that our Company will declare dividends in the future also. For further details, please refer to the chapter titled "*Dividend Policy*" on page 171 of this Red Herring Prospectus.

36. *We have not independently verified certain data in this Red Herring Prospectus.*

We have not independently verified data from the industry and related data contained in this Red Herring Prospectus. Such data may also be produced on a different basis from comparable information compiled with regards to other countries. Therefore, discussions of matters relating to India, its economy or the industries in which we operate that is included herein are subject to the caveat that the statistical and other data upon which such discussions are based have not been verified by us and may be incomplete, inaccurate or unreliable. Due to incorrect or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, we cannot assure you that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

37. *The requirements of being a listed company may strain our resources.*

We are not a listed Company and have not, historically, been subjected to the increased scrutiny of our affairs by shareholders, regulators and the public at large that is associated with being a listed company. As a listed company, we will incur significant legal, accounting, corporate governance and other expenses that we did not incur as an unlisted company. We will be subject to the listing agreements with the Stock Exchanges and compliances of SEBI (LODR) Regulations which will require us to file audited annual and unaudited half yearly results and limited review reports with respect to our business and financial condition. If we experience any delays, we may fail to satisfy our reporting obligations and/or we may not be able to readily determine and accordingly report any changes in our results of operations as promptly as other listed companies which may adversely affect the financial position of the Company.

As a listed company, we will need to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, including keeping adequate records of daily transactions to support the existence of effective disclosure controls and procedures, internal control over financial reporting and additional compliance requirements under the Companies Act, 2013. In order to maintain and improve the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight will be required. As a result, management's attention may be diverted from other business concerns, which could adversely affect our business, prospects, financial condition and results of operations. In

addition, we may need to hire additional legal and accounting staff with appropriate listed company experience and technical accounting knowledge and we cannot assure you that we will be able to do so in a timely manner.

38. *The Equity Shares have never been publicly traded and the Issue may not result in an active or liquid market for the Equity Shares.*

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. Although we currently intend that the Equity Shares will remain listed on the Stock Exchanges, there is no guarantee of the continued listing of the Equity Shares. Failure to maintain our listing on the Stock Exchanges or other securities markets could adversely affect the market value of the Equity Shares.

The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. You may not be able to resell your Equity Shares at a price that is attractive to you.

39. *There is no guarantee that the Equity Shares issued pursuant to the Issue will be listed on the SME Platform of National Stock Exchange of India Limited in a timely manner or at all.*

In accordance with Indian law and practice, permission for listing and trading of the Equity Shares issued pursuant to the Issue will not be granted until after the Equity Shares have been issued and allotted. Approval for listing and trading will require all relevant documents authorizing the issuance of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the SME Platform of National Stock Exchange of India Limited due to delay in submission of required documents/ completion of formalities/compliance with required laws by the issuer. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares.

40. *There is no existing market for our Equity Shares, and we do not know if one will develop to provide you with adequate liquidity. Further, an active trading market for the Equity Shares may not develop and the price of the Equity Shares may be volatile.*

An active public trading market for the Equity Shares may not develop or, if it develops, may not be maintained after the Issue. Our Company, in consultation with the lead manager, will determine the Issue Price. The Issue Price may be higher than the trading price of our Equity Shares following this Issue. As a result, investors may not be able to sell their Equity Shares at or above the Issue Price or at the time that they would like to sell. The trading price of the Equity Shares after the Issue may be subject to significant fluctuations in response to factors such as, variations in our results of operations, market conditions specific to the sectors in which we operate economic conditions of India and volatility of the securities markets elsewhere in the world.

41. *The price of the Equity Shares may be highly volatile after the Issue.*

The price of the Equity Shares on the Indian stock exchanges may fluctuate after this Issue as a result of several factors, including, volatility in the Indian and global securities market; our operations and performance; performance of our competitors and the perception in the market about investments in the our industry; adverse media reports on us or the industry; changes in the estimates of our performance or recommendations by financial analysts; significant developments in India's economic liberalization and deregulation policies; and significant developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market subsequently.

42. *The price of the Equity Shares may be volatile, which could result in substantial losses for investors acquiring the Equity Shares in the Issue.*

The market price of the Equity Shares may be volatile and could fluctuate significantly and rapidly in response to, among others, the following factors, some of which are beyond our control:

- volatility in the Indian and global securities market or in the value of the Rupee relative to the U.S. Dollar, the Euro and other foreign currencies;
- our profitability and performance;
- changes in financial analysts' estimates of our performance or recommendations;
- perceptions about our future performance or the performance of Indian companies in general;
- performance of our competitors and the perception in the market about investments in the textile sector;
- adverse media reports about us or the Indian textile sector;
- significant developments in India's economic liberalisation and deregulation policies;
- significant developments in India's fiscal and environmental regulations;
- economic developments in India and in other countries; and
- any other political or economic factors.

These fluctuations may be exaggerated if the trading volume of the Equity Shares is low. Volatility in the price of the Equity Shares may be unrelated or disproportionate to our results of operations. It may be difficult to assess our performance against either domestic or international benchmarks.

Indian stock exchanges, including the Stock Exchanges, have experienced substantial fluctuations in the prices of listed securities and problems such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. The governing bodies of Indian stock exchanges have also, from time to time, imposed restrictions on trading in certain securities, limitations on price movements and margin requirements. Further, disputes have occurred between listed companies, stock exchanges and other regulatory bodies, which in some cases may have had a negative effect on market sentiment. If such or similar problems were to continue or recur, they could affect the market price and liquidity of the securities of Indian companies, including the Equity Shares.

43. Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares and our ability to raise capital through further issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

44. Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.

Any instance of disinvestments of Equity Shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sale of Equity Shares might occur.

EXTERNAL RISK FACTORS

45. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. For example, the Government of India implemented a comprehensive national goods and services tax ("GST") regime with effect from July 1, 2017, that combined multiple taxes and levies by the Central and State Governments into a unified tax structure. Our business and financial performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the amendment of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST. The Government has enacted the GAAR which have come into effect from April 1, 2017.

The Government of India has announced the union budget for Fiscal 2024 and the Ministry of Finance has notified the Finance Act, 2023 (“**Finance Act**”). There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. We cannot predict whether any amendments made pursuant to the Finance Act would have a material adverse effect on our business, financial condition and results of operations. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has, in a decision clarified the components of basic wages, which need to be considered by companies while making provident fund payments. Our Company has not made relevant provisions for the same, as on date. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations. Further, the Personal Data Protection Bill, 2019 (“**PDP Bill**”) was introduced to propose a legal framework governing the processing of personal data. However, the PDP Bill has been withdrawn on August 3, 2022 and the Ministry of Electronics and Information Technology, Government of India (“**MoEIT**”) has submitted a new Digital Personal Data Protection Bill, 2022 before the Parliament.

We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

46. *Our business is substantially affected by prevailing economic conditions in India.*

We perform all of our activities in India, our business activities and manufacturing unit is located in Ranchi, Jharkhand, and the predominant portions of our customers are Indian nationals. As a result, we are highly dependent on prevailing economic conditions in India and our results of operation are significantly affected by factors influencing the Indian economy. Factors that may adversely affect the Indian economy, and hence our results of operations, include:

- any increase in Indian interest rates or inflation;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India’s present tax, trade, fiscal or monetary policies;
- natural disasters, political instability, communal disturbances, riots, civil unrest, terrorism or military conflict in India or in countries in the region or globally, including in India’s various neighboring countries; and
- prevailing national, regional or global economic conditions, including in India’s principal export markets.

In addition to the factors set forth above, our business may be affected by adverse changes specific to the textile markets.

47. *Foreign investors are subject to foreign investment restrictions under Indian law.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection or a tax clearance certificate from the income tax authority. We cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all.

48. *Any downgrading of India’s debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India’s credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable

terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

49. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

50. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance of our business. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in textile markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence and spending. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

51. *Natural calamities could have a negative impact on the Indian economy and cause our business to suffer.*

India has experienced natural calamities such as earthquakes, tsunami, floods etc. In recent years, the extent and severity of these natural disasters determine their impact on the Indian economy. Prolonged spells of abnormal rainfall or other natural calamities could have a negative impact on the Indian economy, which could adversely affect our business, prospects, financial condition and results of operations as well as the price of the Equity Shares.

52. *Terrorist attacks, civil unrests and other acts of violence or war involving India or other countries could adversely affect the financial markets, our business, financial condition and the price of our Equity Shares.*

Any major hostilities involving India or other acts of violence, including civil unrest or similar events that are beyond our control, could have a material adverse effect on India's economy and our business. Incidents such as the terrorist attacks, other incidents such as those in US, Indonesia, Madrid and London, and other acts of violence may adversely affect the Indian stock markets where our Equity Shares will trade as well as the global equity markets generally. Such acts could negatively impact business sentiment as well as trade between countries, which could adversely affect our Company's business and profitability. Additionally, such events could have a material adverse effect on the market for securities of Indian companies, including the Equity Shares.

In terms of SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 and the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, all the investors applying in a public Issue shall use only Application Supported by Blocked Amount (ASBA) process for application providing details of the bank account which will be blocked by the Self Certified Syndicate Banks (SCSBs) for the same. Further, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 01, 2018, Retail Individual Investors applying in public Issue may use either Application Supported by Blocked Amount (ASBA) facility for making application or also can use UPI as a payment mechanism with Application Supported by Blocked Amount for making application. For details in this regards, specific attention is invited to the chapter titled “**Issue Procedure**” beginning on page 254 of the Red Herring Prospectus.

The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.

For further details on the method and procedure for Bidding, please see section entitled “**Issue Procedure**” on page 254 of this Red Herring Prospectus.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Company in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 254 of this Red Herring Prospectus);
- Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- Ensure correctness of your PAN, DP ID and Client ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- Ensure that the Bid cum Application Form is duly completed as per instructions given in this Red Herring Prospectus and in the Bid cum Application Form;

Bid/Issue Program:

Commencement of trading of the Equity Shares on the Stock Exchange	On Friday, 05th July, 2024

The above timetable is indicative and does not constitute any obligation on our Company or the Book Running Lead Manager. Whilst our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchange are taken within 6 Working Days of the Bid/Issue Closing Date, the timetable may change due to various factors, such as extension of the Bid/ Issue Period by our Company, revision of the Price Band or any delays in receiving the final listing and trading approval from the Stock Exchange. The Commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws. SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days); ‘T’ being issue closing date. Our Company shall be undertaking this Issue in accordance with the timeline prescribed under SEBI circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023.

Bid Cum Application Forms and any revisions to the same will be accepted only between 10.00 a.m. to 5.00 p.m. (IST) during the Issue Period (except for the Bid/Issue Closing Date). On the Bid/ Issue Closing Date, the Bid Cum Application Forms will be accepted only between 10.00 a.m. to 3.00 p.m. (IST) for retail and non-retail Bidders. The time for applying

for Retail Individual Applicant on Bid/ Issue Closing Date maybe extended in consultation with the BRLM, RTA and National Stock Exchange of India Limited EmERGE taking into account the total number of applications received up to the closure of timings.

Due to the limitation of time available for uploading the Bid Cum Application Forms on the Bid/ Issue Closing Date, Bidders are advised to submit their applications one (1) day prior to the Bid/ Issue Closing Date and, in any case, not later than 3.00 p.m. (IST) on the Bid/ Issue Closing Date. Any time mentioned in this Red Herring Prospectus is IST. Bidders are cautioned that, in the event a large number of Bid Cum Application Forms are received on the Bid/Issue Closing Date, as is typically experienced in public Issue, some Bid Cum Application Forms may not get uploaded due to the lack of sufficient time. Such Bid Cum Application Forms that cannot be uploaded will not be considered for allocation under this Issue. Applications will be accepted only on Working Days, i.e., Monday to Friday (excluding any public holidays). Neither our Company nor the BRLM is liable for any failure in uploading the Bid Cum Application Forms due to faults in any software/hardware system or otherwise.

In accordance with SEBI ICDR Regulations, QIBs and Non-Institutional Applicants are not allowed to withdraw or lower the size of their Application (in terms of the quantity of the Equity Shares or the Application amount) at any stage. Retail Individual Applicants can revise or withdraw their Bid Cum Application Forms prior to the Bid/ Issue Closing Date. Allocation to Retail Individual Applicants, in this Issue will be on a proportionate basis.

In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical Bid Cum Application Form, for a particular Applicant, the details as per the file received from Stock Exchange may be taken as the final data for the purpose of Allotment. In case of discrepancy in the data entered in the electronic book vis-à-vis the data contained in the physical or electronic Bid Cum Application Form, for a particular ASBA Applicant, the Registrar to the Issue shall ask the relevant SCSBs / RTAs / DPs / stock brokers, as the case may be, for the rectified data.

WITHDRAWAL OF THE ISSUE

Our Company in consultation with the BRLM, reserve the right not to proceed with the Issue at any time before the Bid/Issue Opening Date without assigning any reason thereof.

If our Company withdraw the Issue any time after the Issue Opening Date but before the allotment of Equity Shares, a public notice within 2 (two) working days of the Issue Closing Date, providing reasons for not proceeding with the Issue shall be issued by our Company. The notice of withdrawal will be issued in the same newspapers where the pre-Issue advertisements have appeared and the Stock Exchange will also be informed promptly. The BRLM, through the Registrar to the Issue, will instruct the SCSBs to unblock the ASBA Accounts within 1 (one) working Day from the day of receipt of such instruction.

If our Company withdraw the Issue after the Bid/Issue Closing Date and subsequently decides to proceed with an Issue of the Equity Shares, our Company will have to file a fresh Red Herring Prospectus with the stock exchange where the Equity Shares may be proposed to be listed.

Notwithstanding the foregoing, the Issue is subject to obtaining (i) the final listing and trading approval of the Stock Exchange with respect to the Equity Shares Issued through the Prospectus, which our Company will apply for only after Allotment;

DETAILS OF THE MARKET MAKING ARRANGEMENT FOR THIS ISSUE

Our Company has entered into a Market Making Agreement dated June 12th 2024 with the following Market Maker for fulfilling the Market Making obligations under this Issue:

S.S Corporate Securities Limited Address: 3rd Floor, D-Block, NDM -2 Netaji Subash Place, Pitampura Delhi- 110034 Telephone: 011-47003600 Email: info@sscoperate.com Website: www.sscoperate.com SEBI Registration INZ000219533 Contact Person: Harshit Singhal	Up to 2,30,400 Equity share	Agreement dated – 12 th June 2024
---	-----------------------------	--

In accordance with Regulation 261 of the SEBI ICDR Regulations, we have entered into an agreement with the Lead Manager and the Market Maker (duly registered with National Stock Exchange of India Limited to fulfil the obligations of Market Making) dated June 12th 2024 to ensure compulsory Market Making for a minimum period of three years from the date of listing of equity shares offered in this Issue.

S.S Corporate Securities Limited, registered with EMERGE Platform of National Stock Exchange of India Limited will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI ICDR Regulations.

The Market Maker shall fulfil the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by National Stock Exchange of India Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making Arrangement:

1. The Market Maker shall be required to provide a 2-way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. Further, the Market Maker shall inform the Stock Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker.
2. The minimum depth of the quote shall be ₹ 1,00,000. However, the Investors with holdings of value less than ₹ 1,00,000 shall be allowed to offer their holding to the Market Maker in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker.
3. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker, for the quotes given by him.
4. After a period of three (3) months from the market making period, the market maker would be exempted to provide quote if the Shares of market maker in our Company reaches to 25% of Issue Size (Including the 2,30,400 Equity Shares ought to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 2,30,400 Equity Shares would not be taken in to consideration of computing the threshold of 25% of Issue Size. As soon as the Shares of market maker in our Company reduce to 24% of Issue Size, the market maker will resume

providing 2-way quotes.

5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, National Stock Exchange of India Limited may intimate the same to SEBI after due verification.
6. There would not be more than five Market Maker for the Company's Equity Shares at any point of time and the Market Maker may compete with other Market Maker for better quotes to the investors.
7. On the first day of the listing, there will be pre-opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the listing on the discovered price during the pre-open call auction. In case equilibrium price is not discovered the price band in the normal trading session shall be based on Issue price.
8. The Marker Maker may also be present in the opening call auction, but there is no obligation on him to do so.
9. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily / fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force-majeure will be applicable for non-controllable reasons. The decision of the Exchange for deciding controllable and non-controllable reasons would be final.
10. The Market Maker shall have the right to terminate said arrangement by giving one month notice or on mutually acceptable terms to the Lead Managers, who shall then be responsible to appoint a replacement Market Maker.

In case of termination of the abovementioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of Regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time.

11. **Risk containment measures and monitoring for Market Maker:** EMERGE Platform of National Stock Exchange of India Limited will have all margins which are applicable on the National Stock Exchange of India Limited Main Board viz., Mark-to-Market, Value-At-Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. National Stock Exchange of India Limited can impose any other margins as deemed necessary from time-to-time.
12. **Punitive Action in case of default by Market Maker:** EMERGE Platform of National Stock Exchange of India Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and / or non-compliances. Penalties / fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties / fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker in case he is not present in the market (offering two way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities / trading membership.
13. The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties / fines / suspension for any type of misconduct / manipulation / other irregularities by the Market Maker from time to time.
14. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to ₹ 250 crores, the applicable price bands for the first day shall be:
 - a. In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - b. In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.
15. Additionally, the securities of the Company will be placed in SPOS and would remain in Trade for Trade settlement for first 10 days from commencement of trading. The following spread will be applicable on the SME platform.

S. No.	Market Price Slab (in ₹)	Proposed Spread (in % to sale price)
1.	Up to 50	9
2.	50 to 75	8
3.	75 to 100	6

4.	Above 100	5
----	-----------	---

All the above mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

16. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for market makers during market making process has been made applicable, based on the Issue size and as follows:

Issue Size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue size)
Upto ₹20 Crore	25%	24%
₹20 Crore to ₹50 Crore	20%	19%
₹50 Crore to ₹80 Crore	15%	14%
Above ₹80 Crore	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and / or norms issued by SEBI / National Stock Exchange of India Limited from time to time.

- 17) The post-Issue paid up Equity Share Capital of our Company shall not exceed the authorised Equity Share Capital of our Company.
- 18) There have been no financing arrangements whereby our Directors or any of their relatives have financed the purchase by any other person of securities of our Company during the six months immediately preceding the date of filing of this Red Herring Prospectus.
- 19) No person connected with the Issue, including, but not limited to, our Company, the members of the Syndicate, or our Directors, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid, except for fees or commission for services rendered in relation to the Issue.
- 20) There neither have been and there will be no further issue of Equity Shares whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of filing of the Red Herring Prospectus until the Equity Shares have been listed on the Stock Exchange or all application monies have been refunded, as the case may be.
- 21) Our Company has no outstanding warrants, options to be issued or rights to convert debentures, loans or other convertible instruments into Equity Shares as on the date of this Red Herring Prospectus.
- 22) There shall be only one denomination of the Equity Shares, unless otherwise permitted by law. Our Company will comply with such disclosure and accounting norms as may be specified by SEBI from time to time.
- 23) Our Company shall ensure that any transactions in Equity Shares by our Promoters and the Promoter Group during the period between the date of filing the Red Herring Prospectus and the date of closure of the Issue, shall be reported to the Stock Exchanges within 24 hours of the transaction.
- 24) All Equity Shares issued pursuant to the Issue shall be fully paid-up at the time of Allotment and there are no partly paid-up Equity Shares as on the date of this Red Herring Prospectus.
- 25) Lead Manager to the Issue viz. Corporate CapitalVentures Private Limited and its associates do not hold any Equity Shares of our Company. However, Mr. Jagdish Prasad Sharma, immediate relative of Mr. Kulbhushan Parashar, director of Corporate Capitalventures Private Limited is holding 3,20,000 equity shares aggregating to 2.69% of the pre issue capital, further based on post issue capital his holding will become 1.94%.
- 26) Our Promoters and the members of our Promoter Group will not participate in the Issue.
- 27) Following are the details of Equity Shares of our Company held by our Directors, Key Management Personnel:

Sr. No.	Name of the Shareholders	Pre-Issue		Post - Issue	
		Number of Equity Shares	% of Pre-Issue Equity Share Capital	Number of Equity Shares	% of Post-Issue Equity Share Capital
1.	Dr. Pratim Sengupta	1,00,00,000	84.02	1,00,00,000	60.66
2.	Mr. Tapas Saha	22,400	0.19	22,400	0.14

	Total	1,00,44,800	84.40	1,00,44,800	60.94

- 28) Our Company has not raised any bridge loans which are proposed to be repaid from the proceeds of the Issue.
- 29) Investors may note that in case of over-subscription, allotment will be on proportionate basis as detailed under “Basis of Allotment” in the chapter titled “**Issue Procedure**” beginning on page 254 of this Red Herring Prospectus. In case of over-subscription in all categories the allocation in the Issue shall be as per the requirements of Regulation 253 (2) of SEBI (ICDR) Regulations, as amended from time to time.
- 30) An investor cannot make an application for more than the number of Equity Shares offered in this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investor.
- 31) An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest integer during finalizing the allotment, subject to minimum allotment, which is the minimum application size in this Issue. Consequently, the actual allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of allotment so made. In such an event, the Equity Shares held by the Promoters and subject to lock- in shall be suitably increased; so as to ensure that 20% of the post Issue paid-up capital is locked in.
- 32) Under subscription, if any, in any of the categories, would be allowed to be met with spill-over from any of the other categories or a combination of categories at the discretion of our Company in consultation with the Book Running Lead Manager and Designated Stock Exchange. Such inter-se spill over, if any, would be effected in accordance with applicable laws, rules, regulations and guidelines.
- 33) No payment, direct, indirect in the nature of discount, commission, and allowance, or otherwise shall be made either by us or by our Promoters to the persons who receive allotments, if any, in this Issue.
- 34) As on date of this Red Herring Prospectus, there are no outstanding financial instruments or any other rights that would entitle the existing Promoters or shareholders or any other person any option to receive Equity Shares after the Issue.

- 1) Setting up of Multi Speciality Hospital in the name of “Vivacity Multi Specialty Hospital” (unit of Nephro Care) at Kolkata (Madhyamgaram), West Bengal; and
- 2) General Corporate Expenses.

We believe that listing will give more visibility and enhance corporate image of our Company. We also believe that our Company and shareholders will receive the benefits from listing of Equity Shares on the Emerge Platform of NSE. It will also provide liquidity to the existing shareholders and will also create a public trading market for the Equity Shares of our Company.

The main object clause of Memorandum of Association of our Company enables us to undertake the activities for which the funds are being raised by us through the Issue. Further, we confirm that the activities which we have been carrying out till date are in accordance with the object clause of our Memorandum of Association. For the main objects clause of our Memorandum of Association, see “*History and Certain Corporate Matters*” on page 151.

Utilization of Net Proceeds: We intend to utilize the proposed net proceeds in the manner set forth below:

Particulars	(₹ in Lakhs) Amount
Setting up a Multi Speciality Hospital in the name of “Vivacity Multi Specialty Hospital” (unit of Nephro Care) at Kolkata (Madhyamgaram), West Bengal	Upto 2,615.34
General Corporate Expenses*	Upto [●]
Total	[●]

* The amount utilized for general corporate purposes shall not exceed 25% of the Gross Proceeds of the Issue.

Since, the entire fund requirement of the objects detailed above are intended to be funded from the Net Proceeds and internal accrual. In view of the above, we confirm that for our company, the firm arrangements of finance under Regulation 230(1)(e) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amounts to be raised through the proposed Issue and existing identifiable internal accruals, is available with our company, as total project cost is ₹ 3652.03 lakhs, out of which the company has spent ₹ 368.69 lakhs as on May 02, 2024, the balance to be funded from the internal accruals i.e ₹ 668 lakhs is available with the company, as reserves and surplus as on December 31, 2023 were ₹ 1332.81 lakhs. With regard to the compliance with regulation 230(1)(e) of SEBI ICDR, we hereby confirm and state that as the proposed project is funded from the issue proceeds and internal accrual, the company is not required to make firm arrangements of finance through verifiable means towards 75% of the stated means of finance for the project proposed to be funded from the issue proceeds. Thus, the Company is compliant with the regulation 230(1)(e) of SEBI ICDR.

s.

The fund requirements mentioned above are based on internal management estimates of our Company and have not been verified by the lead managers or appraised by any bank, financial institution or any other external agency. They are based on current circumstances of our business and our Company may have to revise its estimates from time to time on account of various factors beyond its control, such as market conditions, competitive environment, cost of commodities and interest or exchange rate fluctuations. Consequently, the fund requirements of our Company are subject to revisions in

the future at the discretion of the management. In the event of any shortfall of funds for the activities proposed to be financed out of the issue proceeds as stated above, our Company may re-allocate the issue proceeds to the activities where such shortfall has arisen, subject to compliance with applicable laws. Further, in case of a shortfall in the issue proceeds or cost overruns, our management may explore a range of options including utilizing our internal accruals or seeking debt financing.

To the extent our Company is unable to utilize any portion of the Net Proceeds towards the Object, as per the estimated schedule of deployment specified above; Our Company shall deploy the Net Proceeds in the subsequent Financial Years towards the Object. In case of variations in the actual utilisation of funds earmarked for the purpose set forth or shortfall in the Net Proceeds or delay in raising funds through the IPO, increased fund requirements for a particular purpose may be financed from our internal accruals and/ or debt financing, as required. If the actual utilisation towards any of the objects is lower than the proposed deployment, such balance will be used for funding other objects as mentioned above or towards general corporate purposes to the extent that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds from the Issue in accordance with the SEBI ICDR Regulations. However, we confirm that no bridge financing has been availed as on date, which is subject to being repaid from the Issue Proceeds. We further confirm that no part of the Issue Proceed shall be utilized for repayment of any part of outstanding unsecured loan as on date of filing the Red Herring Prospectus.

BASIS FOR ISSUE PRICE

The Price Band and Offer Price will be determined by our Company, in consultation with the BRLM, on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹ 10 each and the Offer Price is 8.5 times the face value at the lower end of the Price Band and 9.00 times the face value at the higher end of the Price Band.

Bidders should read the below mentioned information along with “Our Business”, “Risk Factors”, “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 118, 28, 172 and 209 respectively, to have an informed view before making an investment decision.

QUALITATIVE FACTORS:

Some of the qualitative factors, which form the basis for computing the price, are –

- We bridge the gap between day care and tertiary care services by addressing unmet needs through a blend of modern medical science and time tested yogic wisdom for overall wellbeing of the patients
- Our technology backbone is robust and supports consistent improvements in the quality and efficiency of our service delivery
- Track record of operating and financial performance and growth
- Professional management and experienced leadership
- Investment in infrastructure, processes and clinical services delivery framework, affordability resulting in a strong value proposition for stakeholders

For a detailed discussion on the qualitative factors which form the basis for computing the price, please refer to Section titled, “**Our Business**”, beginning on page no. 118 of this Red Herring prospectus.

Quantitative Factors

The information presented in this section is derived from our Restated Financial Statements. For details, see “*Financial Information*” on page 172. Investors should evaluate our Company and form their decisions taking into consideration its earnings, and based on its growth strategy. Some of the quantitative factors which may form the basis for computing the Issue price are as follows:

1. Basic and Diluted Earnings per Share (EPS), as adjusted for changes in capital

Year ended	Basic EPS⁵ (in ₹)	Diluted EPS⁵ (in ₹)	Weight
FY 2020-21	4.44	4.44	1
FY 2021-22	(0.03)	(0.03)	2
FY 2022-23	1.94	1.94	3
Weighted Average	1.72	1.72	
December 31, 2023	3.36	3.36	

Basic EPS and Diluted EPS is calculated after considering effect of allotments which was made after December 31, 2023 i.e. bonus issue of 1,13,07,280 equity shares allotted on March 8, 2024.

Note:

The ratios have been computed as under:

1. *Basic and diluted EPS: Restated net profit after tax, for the year/ period, attributable to equity shareholders (considering bonus issue) divided by weighted average number of equity shares outstanding during the year/period (bonus issue)*
2. *Basic and diluted EPS are computed in accordance with Accounting Standard 20 – Earnings per share;*
3. *Weighted average = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. (EPS x Weight) for each year/Total of weights*
4. *Basic and diluted EPS for the nine months period ended December 31, 2023 are not annualised*
5. *Earnings Per Share calculations have been reinstated in all the periods after giving effect of bonus 96,03,980 Equity shares.*

2. Price / Earning (P/E) Ratio in relation to Issue Price of ₹ 85 to ₹ 90 per Equity Share

Dear Sir(s),

Sub: Statement of possible Special tax benefit ('the Statement') available to Nephro Care India Limited (Formerly known as Nephro Care India Private Limited) and its shareholders prepared in accordance with the requirements under Schedule VI-Clause 9L of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (the 'Regulations')

We hereby confirm that the enclosed annexure, prepared by Nephro Care India Limited (Formerly known as Nephro Care India Private Limited) ("the Company") states the possible special tax benefits available to the Company and the shareholders of the Company under the Income – Tax Act, 1961 ("Act") as amended time to time, presently in force in India. Several of these benefits are dependent on the Company or its shareholders fulfilling the conditions prescribed under the relevant provisions of the Act. Hence, the ability of the Company or its shareholders to derive the tax benefits is dependent upon fulfilling such conditions, which based on the business imperatives, the company may or may not choose to fulfil.

The benefits discussed in the enclosed Annexure cover only special tax benefits available to the Company and its Shareholders and do not cover any general tax benefits. Further, these benefits are neither exhaustive nor conclusive and the preparation of the contents stated is the responsibility of the Company's management. We are informed that this statement is only intended to provide general information to the investors and hence is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences, the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the issue. We are neither suggesting nor are we advising the investor to invest money or not to invest money based on this statement.

Our views are based on the existing provisions of the Act and its interpretations, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Any such change, which could also be retroactive, could have an effect on the validity of our views stated herein. We assume no obligation to update this statement on any events subsequent to its issue, which may have a material effect on the discussions herein.

We do not express any opinion or provide any assurance as to whether:

- the Company or its Shareholders will continue to obtain these benefits in future; or
- the conditions prescribed for availing the benefits, where applicable have been/would be met.

The contents of this annexure are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company and the provisions of the tax laws.

No assurance is given that the revenue authorities / courts will concur with the views expressed herein. The views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We would not assume responsibility to update the view, consequence to such change.

We shall not be liable to Company for any claims, liabilities or expenses relating to this assignment except to the extent of fees relating to this assignment, as finally judicially determined to have resulted primarily from bad faith of intentional misconduct. The enclosed Annexure is intended solely for your information and for inclusion in the Draft Red Herring

Prospectus/ Red Herring Prospectus/ Prospectus or any other issue related material in connection with the proposed issue of equity shares and is not to be used, referred to or distributed for any other purpose without our prior written consent. Signed in terms of our separate report of even date.

SECTION V – ABOUT THE COMPANY

INDUSTRY OVERVIEW

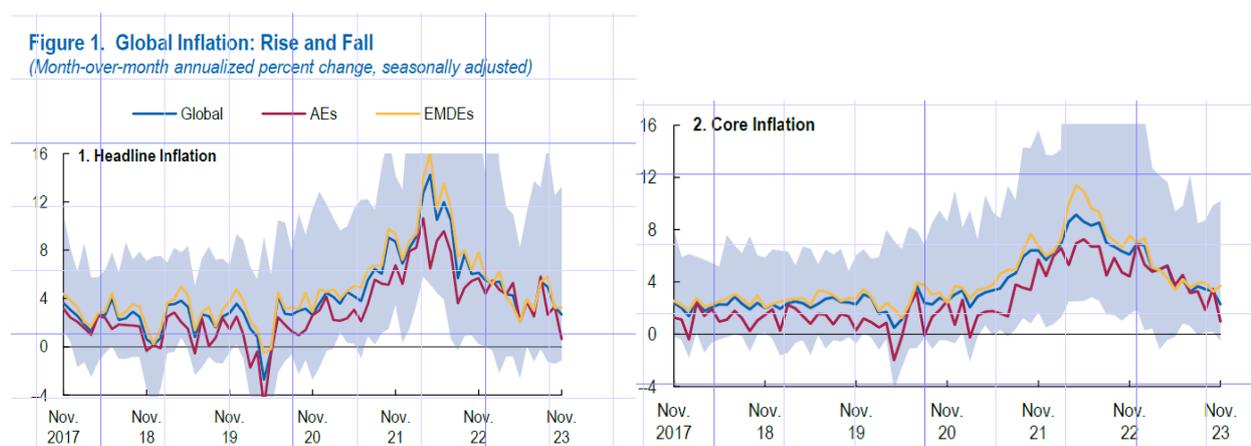

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and accordingly, investment decisions should not be based on such information. The information in this section must be read in conjunction with the sections titled “Risk Factors” and “Our Business” beginning on pages 28 and 118, respectively of this Red Herring Prospectus.

A MACRO OVERVIEW OF THE GLOBAL ECONOMY

The global economic recovery from the COVID-19 pandemic, Russia’s invasion of Ukraine, and the cost-of-living crisis is proving surprisingly resilient. Inflation is falling faster than expected from its 2022 peak, with a smaller-than-expected toll on employment and activity, reflecting favorable supply-side developments and tightening by central banks, which has kept inflation expectations anchored. At the same time, high interest rates aimed at fighting inflation and a withdrawal of fiscal support amid high debt are expected to weigh on growth in 2024.

Growth resilient in major economies. Economic growth is estimated to have been stronger than expected in the second half of 2023 in the United States, and several major emerging market and developing economies. In several cases, government and private spending contributed to the upswing, with real disposable income gains supporting consumption amid still-tight—though easing—labor markets and households drawing down on their accumulated pandemic-era savings. A supply-side expansion also took hold, with a broad-based increase in labor force participation, resolution of pandemic-era supply chain problems, and declining delivery times. The rising momentum was not felt everywhere, with notably subdued growth in the euro area, reflecting weak consumer sentiment, the lingering effects of high energy prices, and weakness in interest-rate-sensitive manufacturing and business investment. Low-income economies continue to experience large output losses compared with their pre-pandemic (2017–19) paths amid elevated borrowing costs.

Inflation subsiding faster than expected. Amid favorable global supply developments, inflation has been falling faster than expected, with recent monthly readings near the pre-pandemic average for both headline and underlying (core) inflation (Figure 1). Global headline inflation in the fourth quarter of 2023 is estimated to have been about 0.3 percentage point lower than predicted in the October 2023 WEO on a quarter-over-quarter seasonally adjusted basis. Diminished inflation reflects the fading of relative price shocks— notably those to energy prices—and their associated pass-through to core inflation.¹ The decline also reflects an easing in labor market tightness, with a decline in job vacancies, a modest rise in unemployment, and greater labor supply, in some cases associated with a strong inflow of immigrants. Wage growth has generally remained contained, with wage-price spirals—in which prices and wages accelerate together—not taking hold. Near-term inflation expectations have fallen in major economies, with long-term expectations remaining anchored.

Sources: Haver Analytics; and IMF staff calculations.

Note: The figure plots the median of a sample of 57 economies that accounts for 78% of World Economic Outlook world GDP (in weighted purchasing-power-parity terms) in 2023. Vertical axes are cut off at -4% and 16%. The bands depict the 10th to 90th percentiles of inflation across economies. "Core inflation" is the % change in the consumer price index for goods and services, excluding food and energy (or the closest available measure). AEs = advanced economies; EMDEs = emerging market and developing economies.

High borrowing costs cooling demand. To reduce inflation, major central banks raised policy interest rates to restrictive levels in 2023, resulting in high mortgage costs, challenges for firms refinancing their debt, tighter credit availability, and weaker business and residential investment. Commercial real estate has been especially under pressure, with higher borrowing costs compounding postpandemic structural changes. But with inflation easing, market expectations that future policy rates will decline have contributed to a reduction in longer-term interest rates and rising equity markets (Box 1). Still, long-term borrowing costs remain high in both advanced and emerging market and developing economies, partly because government debt has been rising. In addition, central banks' policy rate decisions are becoming increasingly asynchronous. In some countries with falling inflation—including Brazil and Chile, where central banks tightened policy earlier than in other countries—interest rates have been declining since the second half of 2023. In China, where inflation has been near zero, the central bank has eased monetary policy. The Bank of Japan has kept short-term interest rates near zero.

The Forecast

Growth Outlook: Resilient but Slow

Global growth, estimated at 3.1% in 2023, is projected to remain at 3.1% in 2024 before rising modestly to 3.2% in 2025. Compared with that in the October 2023 WEO, the forecast for 2024 is about 0.2 percentage point higher, reflecting upgrades for China, the United States, and large emerging market and developing economies. Nevertheless, the projection for global growth in 2024 and 2025 is below the historical (2000–19) annual average of 3.8 percent, reflecting restrictive monetary policies and withdrawal of fiscal support, as well as low underlying productivity growth. Advanced economies are expected to see growth decline slightly in 2024 before rising in 2025, with a recovery in the euro area from low growth in 2023 and a moderation of growth in the United States. Emerging market and developing economies are expected to experience stable growth through 2024 and 2025, with regional differences.

World trade growth is projected at 3.3% in 2024 and 3.6% in 2025, below its historical average growth rate of 4.9 percent. Rising trade distortions and geoeconomic fragmentation are expected to continue to weigh on the level of global trade. Countries imposed about 3,200 new restrictions on trade in 2022 and about 3,000 in 2023, up from about 1,100 in 2019, according to Global Trade Alert data.

These forecasts are based on assumptions that fuel and nonfuel commodity prices will decline in 2024 and 2025 and that interest rates will decline in major economies. Annual average oil prices are projected to fall by about 2.3% in 2024, whereas nonfuel commodity prices are expected to fall by 0.9 percent. IMF staff projections are for policy rates to remain at current levels for the Federal Reserve, the European Central Bank, and the Bank of England until the second half of 2024, before gradually declining as inflation moves closer to targets. The Bank of Japan is projected to maintain an overall accommodative stance.

For advanced economies, growth is projected to decline slightly from 1.6% in 2023 to 1.5% in 2024 before rising to 1.8% in 2025. An upward revision of 0.1 percentage point for 2024 reflects stronger-than-expected US growth, partly offset by weaker-than-expected growth in the euro area.

- In the United States, growth is projected to fall from 2.5% in 2023 to 2.1% in 2024 and 1.7% in 2025, with the lagged effects of monetary policy tightening, gradual fiscal tightening, and a softening in labor markets slowing aggregate demand. For 2024, an upward revision of 0.6 percentage point since the October 2023 WEO largely reflects statistical carryover effects from the stronger-than-expected growth outcome for 2023.
- Growth in the euro area is projected to recover from its low rate of an estimated 0.5% in 2023, which reflected relatively high exposure to the war in Ukraine, to 0.9% in 2024 and 1.7% in 2025. Stronger household consumption as the effects of the shock to energy prices subside and inflation falls, supporting real income growth, is expected

to drive the recovery. Compared with the October 2023 WEO forecast, however, growth is revised downward by 0.3 percentage point for 2024, largely on account of carryover from the weaker- than-expected outcome for 2023.

- Among other advanced economies, growth in the United Kingdom is projected to rise modestly, from an estimated 0.5% in 2023 to 0.6% in 2024, as the lagged negative effects of high energy prices wane, then to 1.6% in 2025, as disinflation allows an easing in financial conditions and permits real incomes to recover. The markdown to growth in 2025 of 0.4 percentage point reflects reduced scope for growth to catch up in light of recent upward statistical revisions to the level of output through the pandemic period. Output in Japan is projected to remain above potential as growth decelerates from an estimated 1.9% in 2023 to 0.9% in 2024 and 0.8% in 2025, reflecting the fading of one-off factors that supported activity in 2023, including a depreciated yen, pent-up demand, and a recovery in business investment following earlier delays in implementing projects.
- In emerging market and developing economies, growth is expected to remain at 4.1% in 2024 and to rise to 4.2% in 2025. An upward revision of 0.1 percentage point for 2024 since October 2023 reflects upgrades for several regions.
- Growth in emerging and developing Asia is expected to decline from an estimated 5.4% in 2023 to 5.2% in 2024 and 4.8% in 2025, with an upgrade of 0.4 percentage point for 2024 over the October 2023 projections, attributable to China's economy. Growth in China is projected at 4.6% in 2024 and 4.1% in 2025, with an upward revision of 0.4 percentage point for 2024 since the October 2023 WEO. The upgrade reflects carryover from stronger-than-expected growth in 2023 and increased government spending on capacity building against natural disasters. Growth in India is projected to remain strong at 6.5% in both 2024 and 2025, with an upgrade from October of 0.2 percentage point for both years, reflecting resilience in domestic demand.
- Growth in emerging and developing Europe is projected to pick up from an estimated 2.7% in 2023 to 2.8% in 2024, before declining to 2.5% in 2025. The forecast upgrade for 2024 of 0.6 percentage point over October 2023 projections is attributable to Russia's economy. Growth in Russia is projected at 2.6% in 2024 and 1.1% in 2025, with an upward revision of 1.5 percentage points over the October 2023 figure for 2024, reflecting carryover from stronger-than-expected growth in 2023 on account of high military spending and private consumption, supported by wage growth in a tight labor market.
- In Latin America and the Caribbean, growth is projected to decline from an estimated 2.5% in 2023 to 1.9% in 2024 before rising to 2.5% in 2025, with a downward revision for 2024 of 0.4 percentage point compared with the October 2023 WEO projection. The forecast revision for 2024 reflects negative growth in Argentina in the context of a significant policy adjustment to restore macroeconomic stability. Among other major economies in the region, there are upgrades of 0.2 percentage point for Brazil and 0.6 percentage point for Mexico, largely due to carryover effects from stronger-than-expected domestic demand and higher-than-expected growth in large trading-partner economies in 2023.
- Growth in the Middle East and Central Asia is projected to rise from an estimated 2.0% in 2023 to 2.9% in 2024 and 4.2% in 2025, with a downward revision of 0.5 percentage point for 2024 and an upward revision of 0.3 percentage point for 2025 from the October 2023 projections. The revisions are mainly attributable to Saudi Arabia and reflect temporarily lower oil production in 2024, including from unilateral cuts and cuts in line with an agreement through OPEC+ (the Organization of the Petroleum Exporting Countries, including Russia and other non- OPEC oil exporters), whereas non-oil growth is expected to remain robust.
- In sub-Saharan Africa, growth is projected to rise from an estimated 3.3% in 2023 to 3.8% in 2024 and 4.1% in 2025, as the negative effects of earlier weather shocks subside and supply issues gradually improve. The downward revision for 2024 of 0.2 percentage point from October 2023 mainly reflects a weaker projection for South Africa on account of increasing logistical constraints, including those in the transportation sector, on economic activity.

GLOBAL HEALTH CARE SECTOR

The global healthcare sector once again faces a year of unprecedented transformation and challenges. Providers worldwide continue to confront the lingering effects of the COVID-19 pandemic, which has led to widespread labor

shortages and rising costs. The sector has also been buoyed by the broader adoption of technology such as artificial intelligence (AI) that can address some of those issues.

At the same time, health inequities persist that could further add to the challenges and costs the sector faces in 2024. Left unaddressed, the cost of health inequities could triple to US\$1 trillion by 2040—or about US\$3,000 a year for each person.

The integration of AI and machine learning technologies can play a key role in addressing these inequities, if providers work to earn patients' trust and ensure that they take steps to mitigate bias within the technology.

In 2024, AI is expected to play a pivotal role in streamlining administration, diagnosis, treatment, and patient care. From predictive analytics to automating electronic health records, AI can further enhance the precision and efficiency of healthcare delivery.

With the growing global awareness of environmental issues and resource constraints, sustainability has emerged as a critical aspect of the healthcare sector. Health care organizations are adopting sustainable practices to reduce their carbon footprint and ensure responsible use of resources. From green hospital designs to sustainable supply chain management, this report highlights the impact of sustainability on healthcare operations, as well as its potential for cost savings.

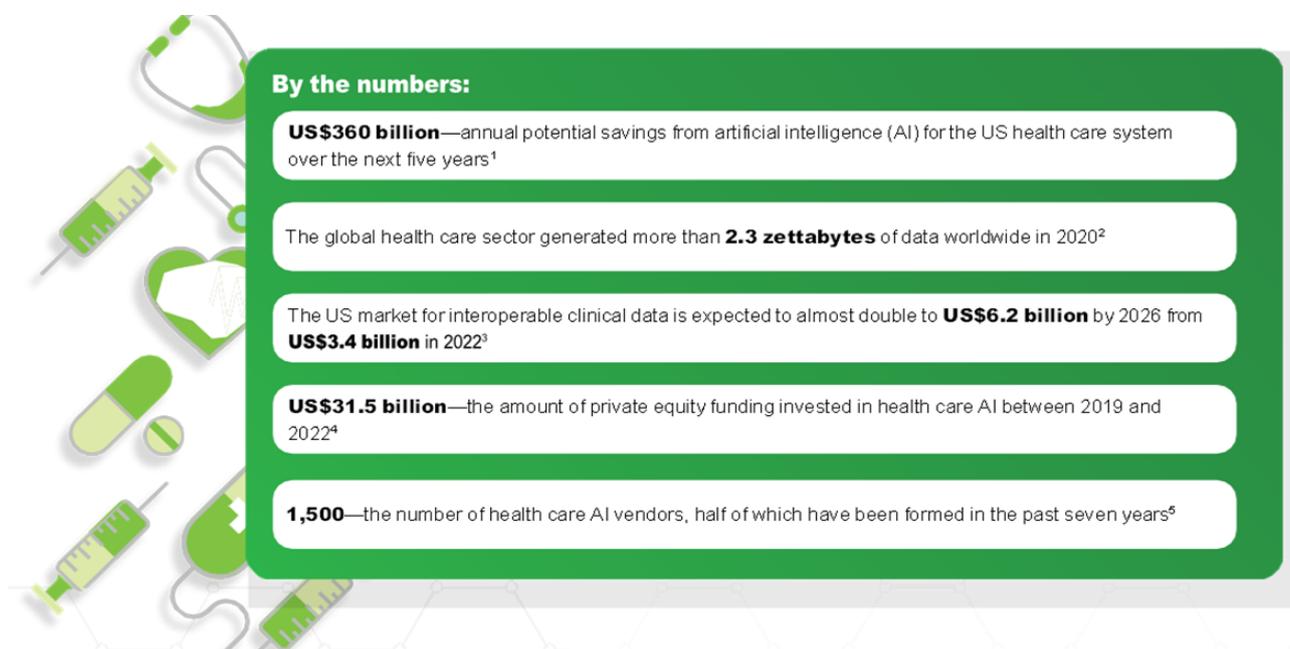

The use of remote technologies and telemedicine adopted during the pandemic are helping to define not just the delivery of care, but also the nature of it. Providers are extending care beyond traditional medical services to encompass holistic social care. This shift is attributed to the growing recognition of the profound connection between the social determinants of health and overall well-being. As a result, providers and policymakers are integrating social care into public health systems to address the multifaceted needs of patients.

As healthcare costs continue to escalate globally, the affordability of care remains a critical concern. Governments, payers, and providers are taking measures to control costs while maintaining the quality and accessibility of healthcare. From value-based care models to innovative pricing structures, these evolving strategies are designed to help ensure cost-effective healthcare delivery.

At the same time, the healthcare workforce is undergoing a significant transformation, driven by evolving patient demographics, technological advancements, and changing care delivery models. Providers worldwide face deep shortages of clinicians, and are taking innovative approaches to improve pay, reduce burnout, and build trust in the healthcare workplace. As providers work to attract, train, and retain a skilled and more adaptable talent pool, the role of telehealth, remote monitoring, and the gig economy are all reshaping healthcare workforce dynamics.

The global healthcare sector stands at a crossroads in 2024, poised for profound changes. The future of global healthcare is likely to be shaped by innovation, sustainability, social care integration, cost management, and workforce adaptation.

Transforming Healthcare with Artificial Intelligence

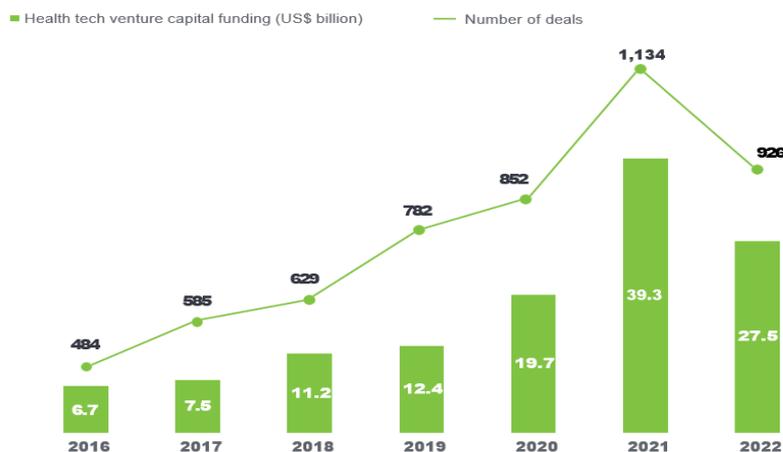

More than three years after the COVID-19 pandemic, many healthcare systems globally are still struggling with its lingering effects. The need to reduce costs and improve access to care—while still confronting a shortage of skilled workers and clinicians—has driven some healthcare systems to adopt emerging technology to fill the gaps.⁶

Technology offers healthcare organizations a chance to personalize patient interactions and treatment, taking pressures off clinicians for routine care, and enabling them to focus on the procedures that require their expertise and training.

AI and other forms of emerging technology have the potential to streamline both administrative and care processes for healthcare providers. Between 2019 and 2022, investors poured US\$31.5 billion in equity funding into healthcare AI, and the industry has consistently been a leader in AI mergers and acquisitions.⁷ The pandemic drove an increased focus on telemedicine and online portals for acute and wellness care. For the sector and patients to continue benefitting from technology, however, providers should sustain investments in technology—much as hospital systems and operators invested in equipment and offices in the past.

So far, this is happening slowly. Global funding for digital health declined by 3% in the second quarter of 2023, to US\$3 billion—the lowest in six years.⁹ Venture capital funding, which is often considered a barometer of technology investment in the industry, fell about 30% in 2022, to US\$27.5 billion from US\$39.3 billion. However, the investment levels still outpaced pre-pandemic levels, and overall funding levels continue to accelerate, excluding the boom in 2021 (Figure 1).

GLOBAL KIDNEY CARE ATLAS

Kidney disease is a significant worldwide public health problem. Acute kidney injury (AKI) and chronic kidney disease (CKD) are linked to high healthcare costs, poor quality of life, and serious adverse health outcomes. Despite this burden, kidney disease is often not included in major chronic disease control strategies, presenting an obstacle when engaging with governments to address kidney diseases.

Global Facts: About Kidney Disease

- 10% of the population worldwide is affected by chronic kidney disease (CKD), and millions die each year because they do not have access to affordable treatment.¹
- According to the 2010 Global Burden of Disease study, chronic kidney disease was ranked 27th in the list of causes of total number of deaths worldwide in 1990, but rose to 18th in 2010. This degree of movement up the list was second only to that for HIV and AIDS.
- Over 2 million people worldwide currently receive treatment with dialysis or a kidney transplant to stay alive, yet this number may only represent 10% of people who actually need treatment to live.³
- Of the 2 million people who receive treatment for kidney failure, the majority are treated in only five countries – the United States, Japan, Germany, Brazil, and Italy. These five countries represent only 12% of the world

population. Only 20% are treated in about 100 developing countries that make up over 50% of the world population.³

- More than 80% of all patients who receive treatment for kidney failure are in affluent countries with universal access to healthcare and large elderly populations.²
- It is estimated that number of cases of kidney failure will increase disproportionately in developing countries, such as China and India, where the number of elderly people are increasing.²
- In middle-income countries, treatment with dialysis or kidney transplantation creates a huge financial burden for the majority of the people who need it. In another 112 countries, many people cannot afford treatment at all, resulting in the death of over 1 million people annually from untreated kidney failure.³
- In the US, treatment of chronic kidney disease is likely to exceed \$48 billion per year. Treatment for kidney failure consumes 6.7% of the total Medicare budget to care for less than 1% of the covered population.¹
- In China, the economy will lose US\$558 billion over the next decade due to effects on death and disability attributable to heart disease and kidney disease.
- In Uruguay, the annual cost of dialysis is close to \$ US 23 million, representing 30% of the budget of the National Resources Fund for specialized therapies.
- In England, according to a recent report published by NHS Kidney Care, chronic kidney disease costs more than breast, lung, colon and skin cancer combined.
- In Australia, treatment for all current and new cases of kidney failure through 2020 will cost an estimated \$12 billion.
- In people aged 65 through 74 worldwide, it is estimated that one in five men, and one in four women, have CKD.
- Noncommunicable diseases (such as heart disease, diabetes, or kidney disease) have replaced communicable diseases (such as influenza, malaria, or AIDs) as the most common causes of premature death worldwide. An estimated 80% of this burden occurs in low- or middle-income countries, and 25% is in people younger than 60 years.
- Chronic kidney disease is a worldwide health crisis. For example, in the year 2005, there were approximately 58 million deaths worldwide, with 35 million attributed to chronic disease, according to the World Health Organization.
- Chronic kidney disease can be treated. With early diagnosis and treatment, it's possible to slow or stop the progression of kidney disease.

INDIAN ECONOMIC LANDSCAPE

Strong economic growth in the first quarter of FY23 helped India overcome the UK to become the fifth-largest economy after it recovered from the COVID-19 pandemic shock. India's gross domestic product (GDP) at current prices in the second quarter (Q2) of 2023-24 is estimated to be Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in Q2 of 2022-23, showing a growth rate of 9.1%. Strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key driver of the GDP in the first half of FY24. In 2023-24 (April-December), India's service exports stood at US\$ 247.92 billion. Furthermore, India's overall exports (services and merchandise) in 2023-24 (April-December) were estimated at US\$ 565.04 billion. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

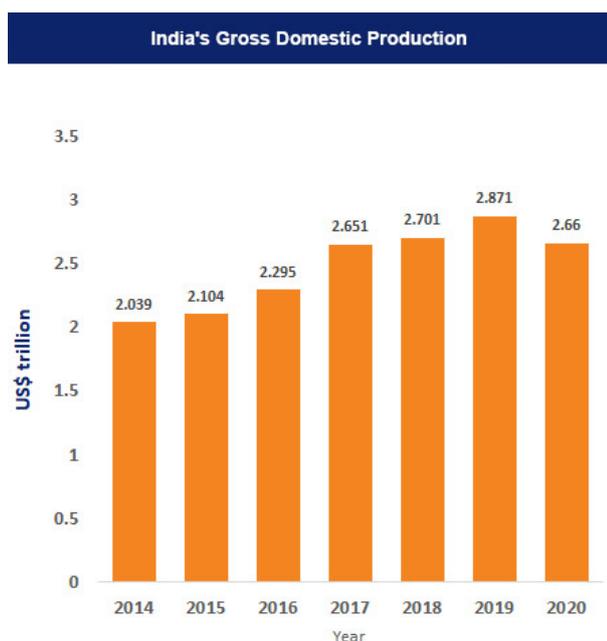

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

India's appeal as a destination for investments has grown stronger and more sustainable as a result of the current period of global unpredictability and volatility, and the record amounts of money raised by India-focused funds in 2022 are evidence of investor faith in the "Invest in India" narrative.

India's nominal gross domestic product (GDP) at current prices is estimated to be at Rs. 296.58 trillion (US\$ 3.56 trillion) in 2023-24. Additionally, the Nominal GDP at current prices in Q2 of 2023-24 was Rs. 71.66 trillion (US\$ 861.2 billion), as against Rs. 65.67 trillion (US\$ 789.2 billion) in 2022-23, estimating a growth of 9.1%. As of 03rd October 2023, India is home to 111 unicorns with a total valuation of US\$ 349.67 Billion. Out of the total number of unicorns, 45 unicorns with a total valuation of US\$ 102.30 Billion were born in 2021 and 22 unicorns with a total valuation of \$ 29.20 Billion were born in 2022. India presently has the third-largest unicorn base in the world. The government is also focusing on renewable sources by achieving 40% of its energy from non-fossil sources by 2030. India is committed to achieving the country's ambition of Net Zero Emissions by 2070 through a five-pronged strategy, 'Panchamrit'. Moreover, India ranked 3rd in the renewable energy country attractive index.

According to the McKinsey Global Institute, India needs to boost its rate of employment growth and create 90 million non-farm jobs between 2023 to 2030 in order to increase productivity and economic growth. The net employment rate needs to grow by 1.5% per annum from 2023 to 2030 to achieve 8-8.5% GDP growth between same time period. The current account deficit stood at US\$ 8.3 billion, or 1% of GDP, in the second quarter of fiscal 2023-24 as compared to US\$ 9.2 billion or 1.1% of GDP in the preceding quarter.

Exports fared remarkably well during the pandemic and aided recovery when all other growth engines were losing steam in terms of their contribution to GDP. Going forward, the contribution of merchandise exports may waver as several of India's trade partners witness an economic slowdown. According to Minister of Commerce and Industry, Consumer Affairs, Food and Public Distribution and Textiles Mr. Piyush Goyal, Indian exports are expected to reach US\$ 1 trillion by 2030.

RECENT DEVELOPMENTS

India is primarily a domestic demand-driven economy, with consumption and investments contributing to 70% of the economic activity. With an improvement in the economic scenario and the Indian economy recovering from the Covid-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also putting growth-oriented

policies into place to boost the economy. In view of this, there have been some developments that have taken place in the recent past. Some of them are mentioned below.

- As of January 19, 2024, India's foreign exchange reserves stood at US\$ 616.14 billion.
- In 2023, India saw a total of US\$ 49.8 billion in PE-VC investments.
- Merchandise exports in December 2023 stood at US\$ 38.45 billion, with total merchandise exports of US\$ 505.15 billion during the period of April-December (2023-24).
- India was also named as the 48th most innovative country among the top 50 countries, securing 40th position out of 132 economies in the Global Innovation Index 2023. India rose from 81st position in 2015 to 40th position in 2023. India ranks 3rd position in the global number of scientific publications.
- At the beginning of January 2024, the PMI Services comfortably remained in the expansionary zone, registering a value of 61.2.
- In December 2023, the gross Goods and Services Tax (GST) revenue collection stood at Rs.1,64,882 crore (US\$ 19.80 billion), of which CGST is Rs. 30,443 crore (US\$ 3.65 billion), SGST is Rs. 37,935 crore (US\$ 4.55 billion).
- Between April 2000–September 2023, cumulative FDI equity inflows to India stood at US\$ 953.14 billion.
- In November 2023, the overall IIP (Index of Industrial Production) stood at 141. The Indices of Industrial Production for the mining, manufacturing and electricity sectors stood at 131.1, 139.2 and 176.3, respectively, in November 2023.
- According to data released by the Ministry of Statistics & Programme Implementation (MoSPI), India's Consumer Price Index (CPI) based retail inflation reached 5.55% in November 2023.
- Foreign Institutional Investors (FII) inflows between April-July (2023-24) were close to Rs. 80,500 crore (US\$ 9.67 billion), while Domestic Institutional Investors (DII) sold Rs. 4,500 crore (US\$ 540.56 million) in the same period. As per depository data, Foreign Portfolio Investors (FPIs) invested Rs. 261,856 crore (US\$ 31.5 billion) in India during April-December (2023-24).
- The wheat procurement during RMS 2023-24 (till May) was estimated to be 262 lakh metric tonnes (LMT) and the rice procured in KMS 2023-24 was 385 LMT. The combined stock position of wheat and rice in the Central Pool is over 579 LMT (Wheat 312 LMT and Rice 267 LMT).

SNAPSHOT OF THE INDIAN HEALTHCARE SECTOR

Size & Dimensions of the Indian Healthcare Sector¹

The healthcare industry value chain in India includes hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The healthcare sector is growing at a brisk pace owing to its strengthening coverage, services, and increasing expenditure by public as well private players.

- The hospital industry in India, accounting for 80% of the total healthcare market, is witnessing a huge investor demand from both global as well as domestic investors. The hospital industry is expected to reach USD 132 Bn by 2023 from USD 61.8 Bn in 2017, growing at a CAGR of 16-17%.
- India ranked 10th in the Medical Tourism Index (MTI) for 2020-2021 out of 46 destinations of the world. The Indian Medical Tourism market size stood at ~USD 6.79 Billion in 2023 and is expected to reach USD 12.64 Billion by 2028 (growing at a CAGR of 13.23%).
- The diagnostics industry in India is currently valued at USD 4 Billion. The share of the organized sector is almost 25% in this segment (15% in labs and 10% in radiology).

¹ Invest India – the National Investment Promotion and Facilitation Agency

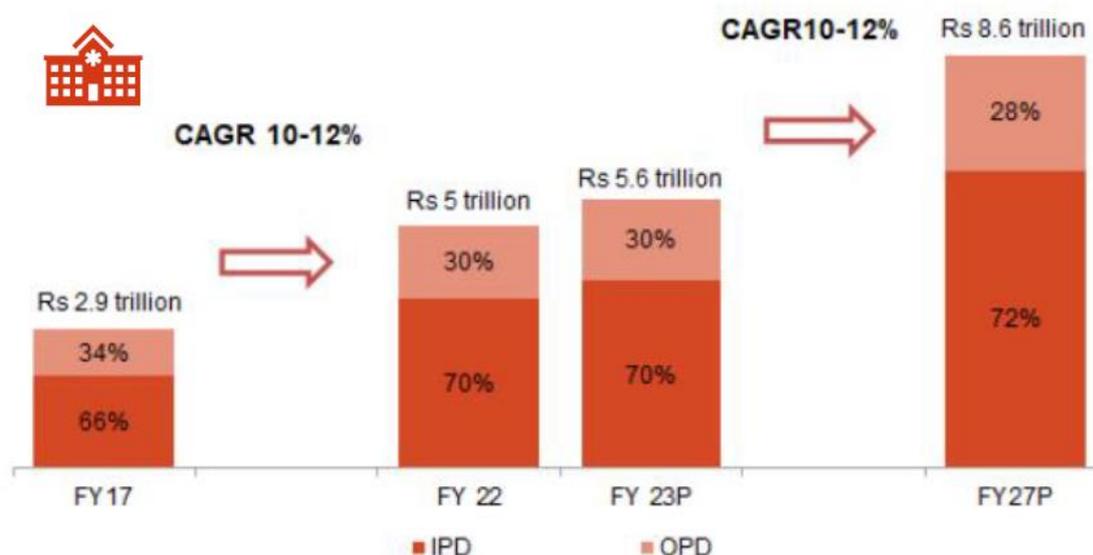

- ~1,60,000 Ayushman Bharat centers, which aim at providing primary healthcare services to communities closer to their homes, are operational in India.
- As a part of its efforts to provide access to high quality yet affordable healthcare to the masses, the Government of India has created more than 450 Million Ayushman Bharat Health Account (ABHA) IDs, registered 2,19,546 Health Facilities and on-boarded around 2,28,794 Healthcare Professionals boarded under the Ayushman Bharat Digital Mission (ABDM).

INDIAN HEALTHCARE DELIVERY MARKET POISED FOR ROBUST GROWTH IN THE MEDIUM TERM²

Breaching pre-covid level in FY22, expert agencies expect the Indian healthcare delivery industry to post healthy 10-12% compound annual growth rate between fiscals 2022 and 2027, driven by long term structural factors, strong fundamentals, increasing affordability and potential of the Ayushman Bharat scheme.

Overall healthcare delivery market in India

department and OPD stands for out-patient department. According to CRISIL Research out-patients are those who are not required to stay at the hospital overnight. It includes consultancy, day surgeries at eye care centres, and diagnostics, and excludes pharmaceuticals purchased from standalone outlets.

Healthcare delivery industry estimated at ~Rs 5.6 trillion in fiscal 2023

CRISIL Research estimates the Indian healthcare delivery market at ~Rs 5.5 - 5.7 trillion in value terms by end of fiscal 2023, with growth being contributed by stabilization of regular treatments, surgeries and OPD amid minimization of disruption due to the pandemic and expansion of ARPOB for the sector. A potential upside is also expected from picking up of high realization medical tourism as international travel restrictions are relaxed. Within the overall healthcare delivery market, the in-patient department (IPD) is expected to account for nearly 70% (in value terms), while the balance is to be catered by the out-patient department (OPD). Though in terms of volumes, OPD volumes outweigh IPD volumes, with the latter contributing the bulk of the revenues to healthcare facilities.

Healthcare delivery industry is expected to grow at a CAGR of 10-12% between FY22 and FY27

With long term structural factors supporting growth, renewed impetus from PMJAY and government focus shifting onto healthcare sector, the healthcare delivery market in India is expected to grow at 10-12% compounded annual growth rate (CAGR) and reach Rs 8.6 trillion in fiscal 2027.

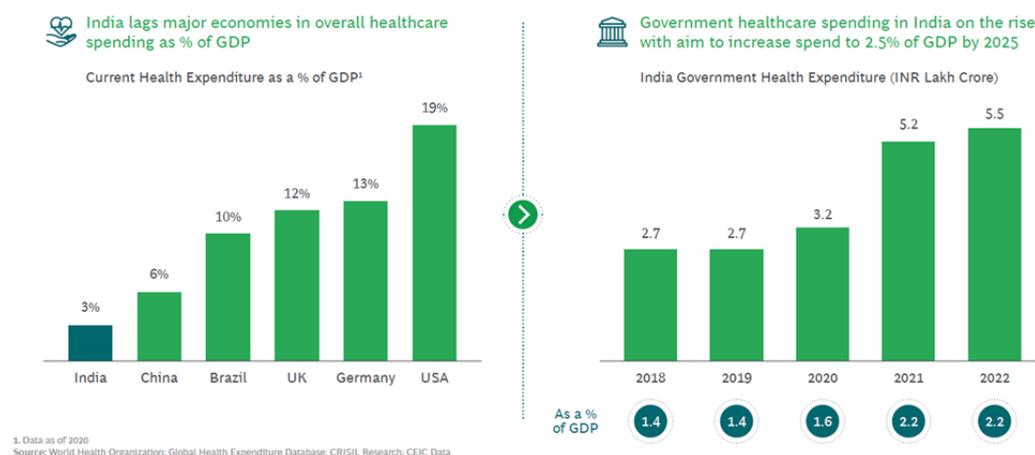

From fiscal 2018 to fiscal 2022, major hospital chains have added supply (~2-3% of their incremental supply during the period). The supply was affected during the Covid period as from fiscal 2020 to fiscal 2022, major hospital chains supply declined by ~1-2%. The government is expected to augment the supply of medical services via the Ayushman Bharat

² CRISIL Research – April 2023

scheme which aims to create 1,50,000 Health and Wellness centers (more than 1,50,000 HWC's created till Dec 2022) for strengthening primary & secondary infrastructure in the country. The other contributors to the demand are more structural in nature, like, increase in lifestyle-related ailments, increasing medical tourism, rising incomes and changing demography.

In India, healthcare services are provided by the government and private players, and these entities provide both IPD and OPD services. However, the provision of healthcare services in India is skewed towards the private players (both for IPD and OPD). This is mainly due to the lack of healthcare spending by the government and high burden on the existing state health infrastructure. The share of treatments (in value terms) by the private players is expected to increase from 60% in fiscal 2018 to nearly 70% in fiscal 2027, the share only witnessing a slight dip in fiscal 2021. The skew is more towards the private players owing to the expansion plans of private players being centered on it, further buttressed by increasing reliance on private facilities till government infrastructure is properly put in place.

India has low health expenditure but is expected to catch up rapidly going forward³

India's current healthcare expenditure (CHE) is skewed more towards private spending than public spending. Government expenditure on healthcare has remained range-bound at 20-30% of the current healthcare expenditure from calendar year 2010 to 2016. Government expenditure has since crossed 30% in the last five years. The rest of the expenditure is private in nature (expenditure from resources with no government control such as voluntary health insurance, and the direct payments for health by corporations (profit, not-for-profit and non-government organizations) and households. However, the government aims to increase public healthcare expenditure to 2.5-3% of GDP by 2025 from the current 2%, as per the National Health Policy.

High Chronic Disease Burden in India

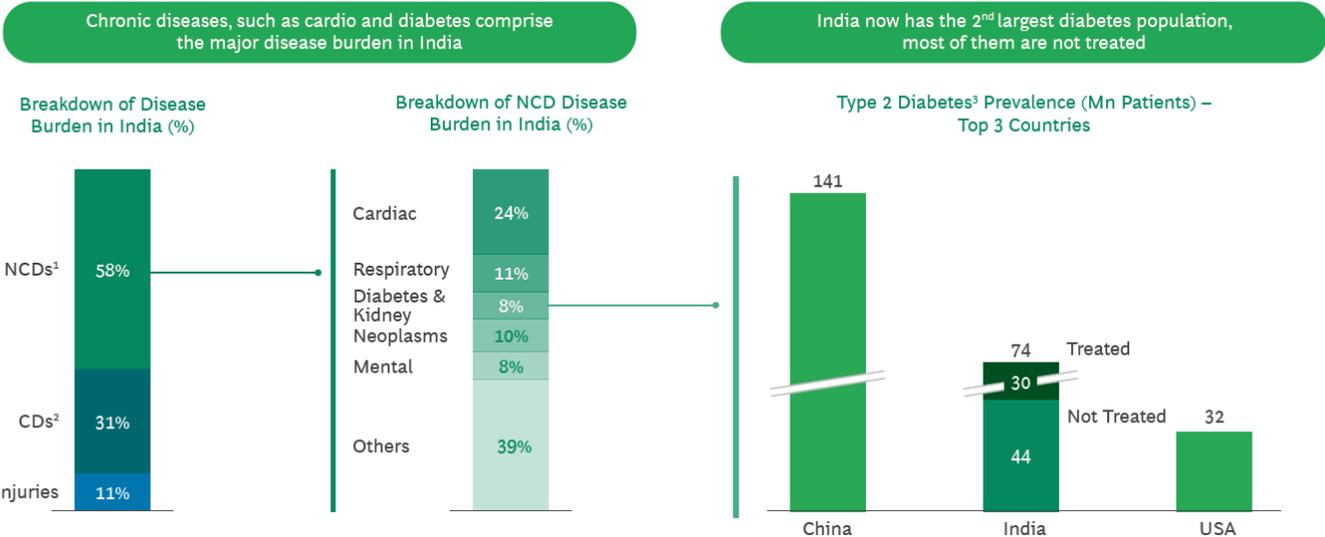

According to the Institute for Health Metrics and Evaluation (IHME), a research institute working in the area of global health statistics and impact evaluation at the University of Washington in Seattle, the per person disease burden, measured as disability-adjusted life year (DALY) rate, dropped in India by 36% from 1990 to 2016, but there are major inequalities among the states with the per person DALY rate varying almost two-fold between them.

- The results show that non-communicable diseases and injuries together have overtaken infectious and childhood diseases in terms of disease burden in every state of the country, but the magnitude of this transition varies markedly between the poor states and the wealthier states.
- In the wealthiest states, this transition took place about 30 years ago, but in the poorest states this transition has taken place only over the past few years.
- It is important to note, though, that diarrheal diseases, lower respiratory infections, iron-deficiency anemia, neonatal disorders, and tuberculosis still continue to be major public health problems in many poorer northern states.

³ Source: A Digital Pill for Revolutionizing Healthcare – BCG – October 2023

The contribution of most major non-communicable disease categories to the total disease burden has increased in all states since 1990. These include cardiovascular diseases, diabetes, chronic respiratory diseases, mental health and neurological disorders, musculoskeletal disorders, cancers, and chronic kidney disease.

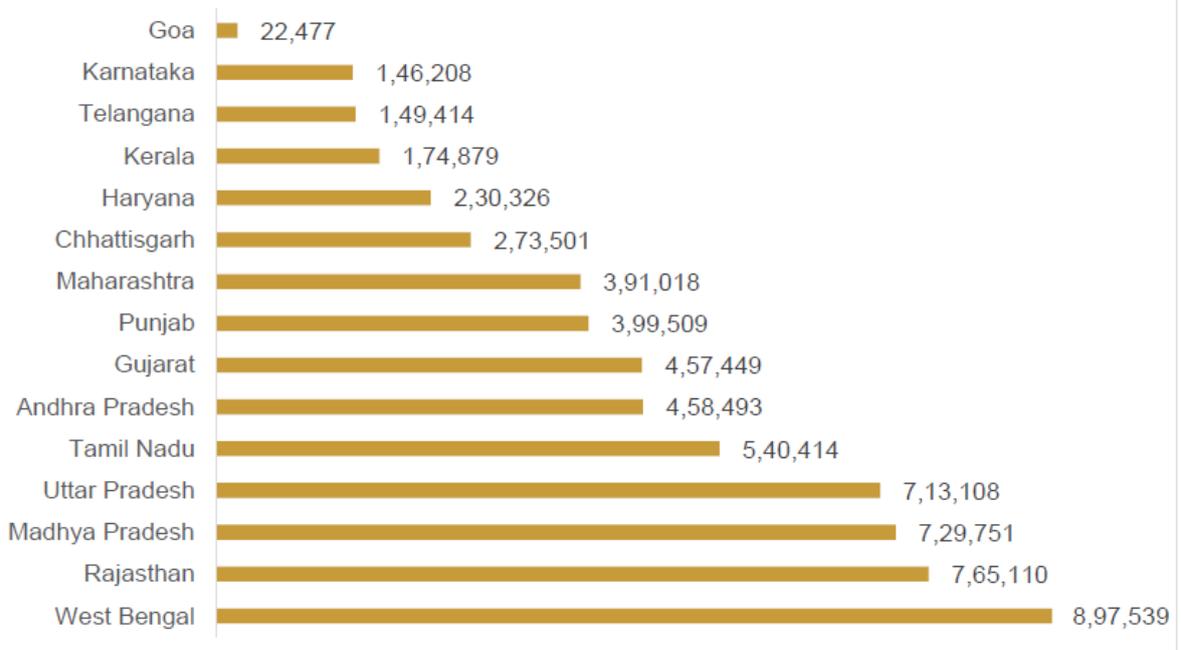

According to CRISIL Research Non-Communicable Diseases (NCDs) exhibit a tendency to increase in tandem with

rising income levels. WHO projects an increasing trend in NCDs by 2030, following which CRISIL forecasts demand for healthcare services associated with lifestyle-related diseases such as cardiac ailments, cancer and diabetes to rise. Another emerging market in the country is orthopaedics, which currently comprises a very small proportion compared with NCDs, but has a potential market in the country. The orthopaedics market can be classified into four different segments, viz., knee, hip, trauma, and spine, of which the knee replacement market holds the biggest share, followed by trauma and spine. Hip replacement in India is still a very small segment compared with knee replacement in contrast to the worldwide trend.

The following chart depicts the state-wise number of persons diagnosed with NCDs in CY2020

Healthcare Infrastructure in India needs to be ramped up considerably

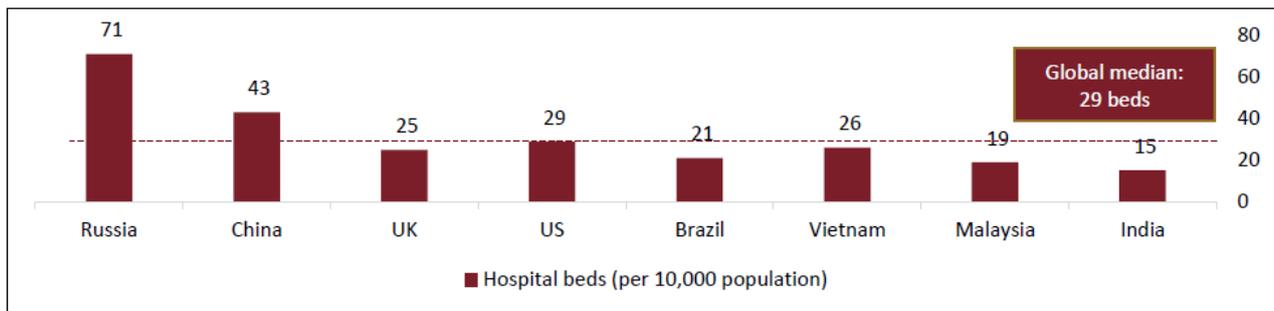

Over the years, India has been proactively pursuing improvements in healthcare infrastructure and capacity building. The pandemic, however, pushed India towards recalibrating its primary healthcare ecosystem and devising more innovative solutions for improving last mile access. For instance, by the end of last year, under the Ayushman Bharat scheme, the

Indian Government surpassed its promise of establishing 50,000 Health & Wellness centers (HWCs) to over 1,60,000 functional HWCs. While these efforts are being made in the right direction, gaps remain due to the massive demand of the country.

The adequacy of a country’s healthcare infrastructure and personnel is a barometer of its quality of healthcare. This, in turn, can be assessed from bed density (bed count per 10,000 population) and availability of physicians and nurses (per 10,000 population).

India’s bed-density (i.e. no. of hospital beds per 10,000 population) is among the lowest in the world as depicted in the following chart:

Hospital bed density: India vs. other countries

Note: India bed density is estimated by CRISIL Research for FY 2022, CY2016 figure for Bangladesh, CY2017 figures for Brazil, China, Malaysia and United States, CY2018 figures for Russian Federation, CY2019 figure for UK, global median is for CY2019

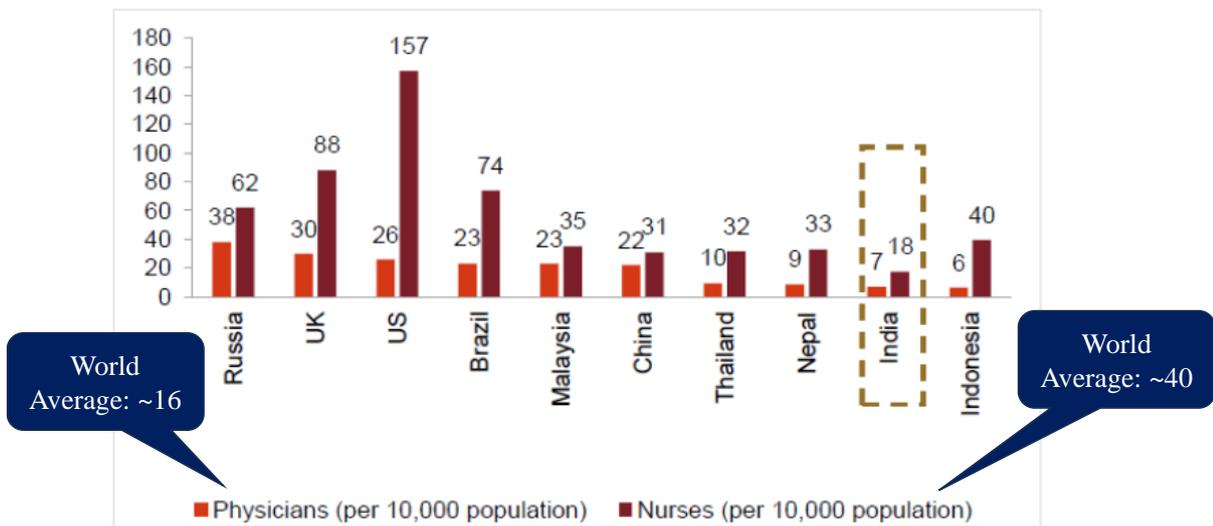

Source: World Health Organization Database, CRISIL MI&A Research

India needs an additional 24 lakh hospital beds to reach the recommended ratio of 3 beds per 1,000 people, as per a recently published report by Global Real Estate consultants, Knight Frank⁴. Currently, India has an estimated 70,000 hospitals of which the private sector constitutes 63% of the total share. Unlike developed countries where public healthcare is dominant, the hospital industry in India is dominated by the private sector.

Healthcare Personnel related Issues

The paucity of healthcare personnel compounds the problem. At seven physicians and 18 nursing personnel per 10,000 population (CY2012-CY2020), India trails the global median of 16 physicians and 40 nursing personnel during the same period. Even on this parameter, India lags developing countries such as Brazil (23 physicians, 74 nurses), Malaysia (23 physicians, 35 nurses) and other Southeast Asian countries.

1.1 Structure of the Healthcare Delivery Industry in India

The healthcare delivery industry in India can be broadly divided into four categories as depicted in the chart below:

Categories within the Indian Healthcare Delivery Sector & their respective shares of the market

Classification of Hospitals

Classification of hospitals based on services offered

Primary care/ dispensaries/ clinics

Primary care facilities are outpatient units that offer basic, point-of-contact medical and preventive healthcare services, where patients come for routine health screenings and vaccinations. These do not have intensive care units (ICU). Primary care centres also act as feeders for secondary care/ tertiary hospitals, where patients are referred to for treatment of chronic/ serious ailments.

Secondary care

Secondary care facilities diagnose and treat ailments that cannot be treated in primary care facilities. These act as the second point of contact in the healthcare system. There are two types of secondary care hospitals - general and specialty care.

- General secondary care hospitals

These hospitals are approached for common ailments, and attract patients staying within a radius of 30 km. The essential medical specialties in general secondary care hospitals include: internal medicine, general surgery, obstetrics and gynaecology, paediatrics, ear-nose-throat (ENT), orthopaedics, and ophthalmology. Such a hospital typically has one central laboratory, a radiology laboratory, and an emergency care department. Generally, secondary care hospitals have 50-100 in-patient beds, a tenth of which are allocated for the ICU segment. The remaining beds are equally distributed between the general ward, semi-private rooms, and single rooms.

- Specialty secondary care hospitals

These hospitals are located in district centres, treating patients living within a radius of 100-150 km. They usually have an in-patient bed strength of 100-200, 15% of which are reserved for critical care units. The balance is for private rather than general ward beds. Apart from medical facilities offered by a general secondary care hospital, specialty secondary care hospitals treat ailments related to gastroenterology, cardiology, neurology, dermatology, urology, dentistry, and oncology. These hospitals may also offer some surgical specialties, but they are optional. Diagnostic facilities in a

specialty secondary care hospital include: a radiology department; biochemistry, haematology and microbiology laboratories; and a blood bank. They also have a separate physiotherapy department.

Tertiary care

Tertiary care hospitals provide advanced healthcare services, usually on referral from primary or secondary medical care providers.

- Single-specialty tertiary care hospitals

These treat a particular ailment (such as cardiac, cancer, etc). Prominent facilities in India include: Escorts Heart Institute & Research Centre (New Delhi); Tata Memorial Cancer Hospital (Mumbai); HCGEL Oncology (Bengaluru); Sankara Nethralaya (Chennai); National Institute of Mental Health & Neuro Sciences (NIMHANS, Bengaluru); and Hospital for Orthopaedics, Sports Medicine, Arthritis and Trauma (HOSMAT, Bengaluru).

- Multi-specialty tertiary care hospitals

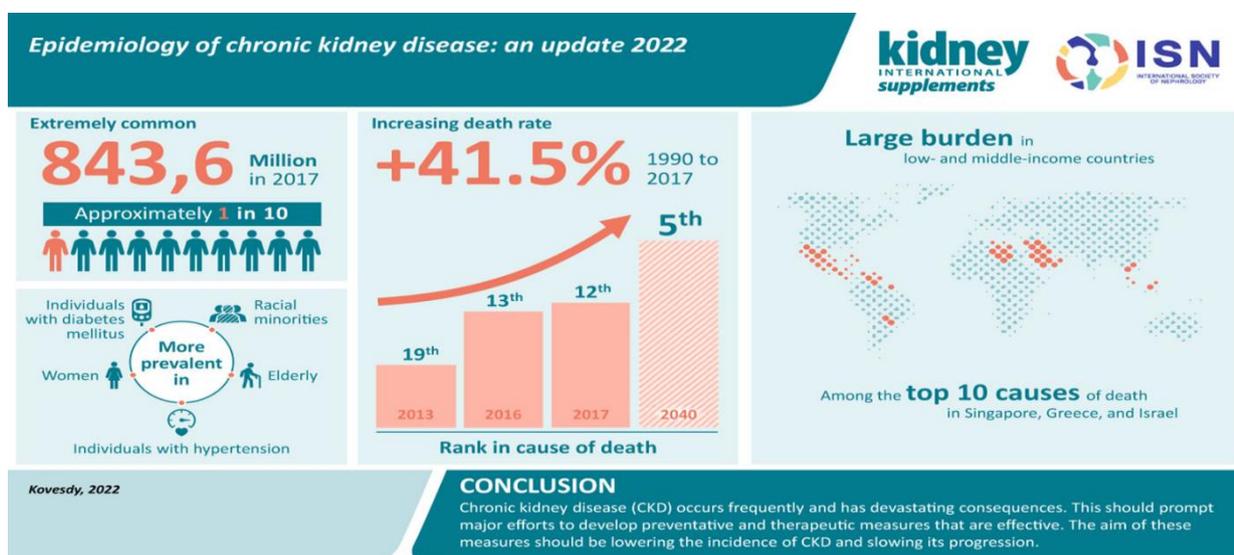

These hospitals offer all medical specialities under one roof and treat complex cases such as multi-organ failure, high-risk, and trauma cases. Most of these hospitals derive a majority of their revenue through referrals. Such hospitals are located in state capitals or metropolitan cities and attract patients from across states. They usually have more than 150-200 beds. Medical specialties offered include: cardio-thoracic surgery, neurosurgery, nephrology, surgical oncology, neonatology, endocrinology, plastic and cosmetic surgery, and nuclear medicine. In addition, these hospitals have histopathology and immunology laboratories as a part of its diagnostic facilities. Lilavati Hospital, Hiranandani Hospital, Jupiter Hospitals, Jaslok Hospital, Ruby Hall Clinic, Sahyadri Hospital, Bombay Hospital in West India are multi-specialty tertiary care hospitals.

1.2 The Chronic Kidney Disease (CKD) Scenario – an Overview

The Global Scenario

Chronic kidney disease (CKD) is a progressive condition that affects >10% of the general population worldwide, amounting to >800 million individuals. 14% of US adults are estimated to have chronic kidney disease—that is about 35.5 million people. CKD is more prevalent in older individuals, women and in people experiencing diabetes mellitus and hypertension. CKD represents an especially large burden in low- and middle-income countries, which are least equipped to deal with its consequences. Chronic kidney disease has emerged as one of the leading causes of mortality worldwide, and it is one of a small number of non-communicable diseases that have shown an increase in associated deaths over the past 2 decades. The high number of affected individuals and the significant adverse impact of chronic kidney disease should prompt enhanced efforts for better prevention and treatment.

CKD has emerged as one of the most prominent causes of death and suffering in the 21st century. Although mortality has declined in patients with end-stage kidney disease (ESKD), the Global Burden of Disease (GBD) studies have shown that CKD has emerged as a leading cause of worldwide mortality.

The Indian CKD Landscape⁵

CKD is a severe public health issue in India. As per government estimates, nearly 2,20,000 patients develop end-stage renal disease (ESRD) annually in India, leading to an additional annual dialysis demand of 34 million treatment sessions. Unfortunately, in India, renal insufficiency treatment focuses more on curative nephrology rather than preventive and holistic solutions.

Kidney disease is a significant public health concern in India, with high morbidity and mortality rates. The Million Death Study⁶ estimated a 50% increase in deaths due to chronic kidney disease (CKD) between 2001–2003 and 2010–2013. Several surveys have shown a high population prevalence of CKD. As many as one out of every five adults in high-prevalence areas has CKD. Similarly, acute kidney injury is common and carries a high mortality, especially because treatment is frequently delayed. However, the National Programme for Prevention & Control of Cancer, Diabetes, Cardiovascular diseases and Stroke (NPCDCS), the flagship NCD prevention programme in India, does not cover kidney care.

However, the existing renal care infrastructure in India with around 5,000 dialysis centres (including 1,353 centres under the PMNDP⁷) and 3,340 nephrologists (estimated by the industry) is grossly inadequate to meet the upcoming demand for dialysis as this disease gains traction due to various sociological and environmental factors.

There are two major types of complementary treatments offered to ESRD Patients in India: Hemodialysis (HD) Treatment and Peritoneal Dialysis (PD). 94% of dialysis patients in India are on HD treatment.

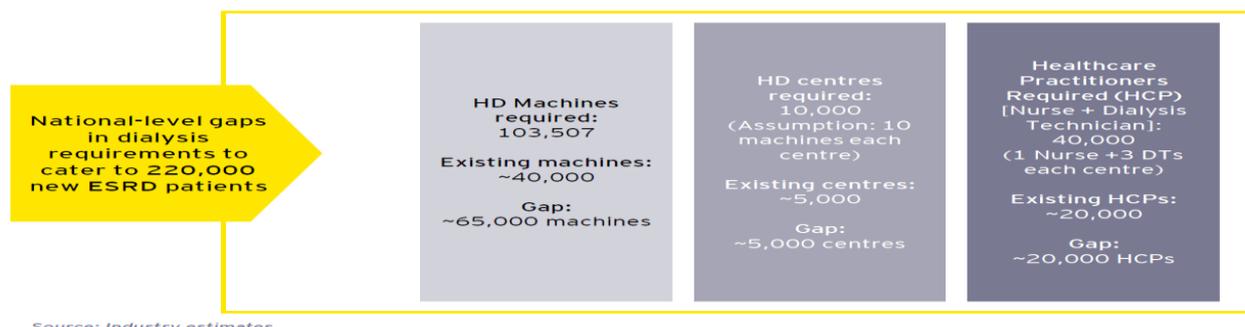

Key challenges faced in India in the treatment of CKD include:

- Lack of access to dialysis centres and machines across districts, lead to low frequency of treatment impacting the health of patients;
- Erratic and low rate of reimbursements for dialysis sessions affects operation of dialysis centres;
- Lack of skilled workforce including dialysis technicians and renal nurses;
- Low uptake of PD in India due to high cost and low clinical adoption.

1.3 The Renal Insufficiency Treatment Market in India – an Overview

Despite a sharp upturn in demand, the Hemodialysis market in India is just the tip of the iceberg. It has the potential to grow threefold. Out of the 2.4 million dialysis cases across the world, India contributes just a little over 4%. Around 80% of the End Stage Renal Disease (ESRD) patients in India start dialysis but only a third continue. Similarly, due to limited penetration in rural parts of the country, several cases are left untreated. As a preferred mode of ESRD treatment, India's hemodialysis market has huge headspace to grow and bridge the current unmet demand. Each year in India around 2.2 lakh new cases of CKD are identified.

Hemodialysis is the preferred mode of treatment but due to cost constraints and lack of availability of sufficient infrastructure, more than two-thirds of patients have to leave without availing full treatment.

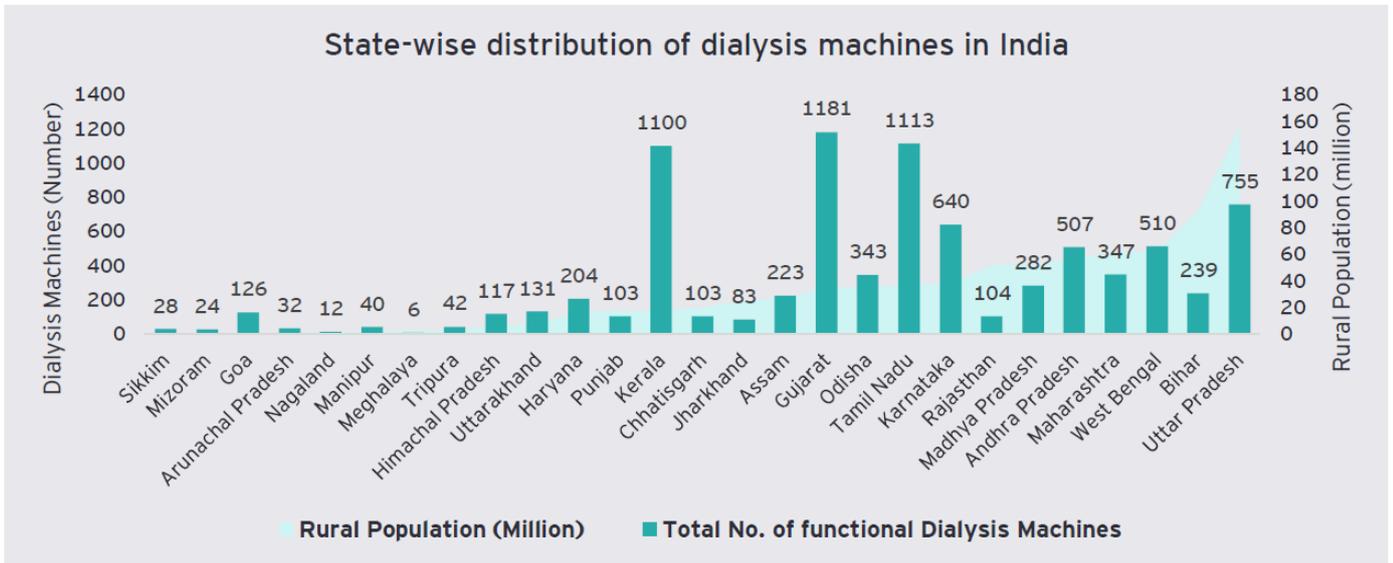

⁵ Dialysis delivery in India: demand, challenges and policy insights – EY – March 2023

⁶ The Million Death Study (MDS) is one of the largest studies of premature mortality in the world. The MDS is an ongoing study that is conducted in India, where, like most low- and middle-income countries, the majority of deaths occur at home and without medical attention. As a result, the majority of global deaths do not have a certified cause.

⁷ Pradhan Mantri National Dialysis Programme

Various research studies reiterate that large inequalities exist in accessing dialysis services in India, with the rural areas being at a disadvantage. As per industry experts, around 90% of the dialysis facilities in India are in urban India (i.e., metro cities and tier I and tier II cities). Thus, more than 60% of patients on dialysis travel about 50 km to access HD treatment while nearly 25% lived more than 100 kms away from the facility.

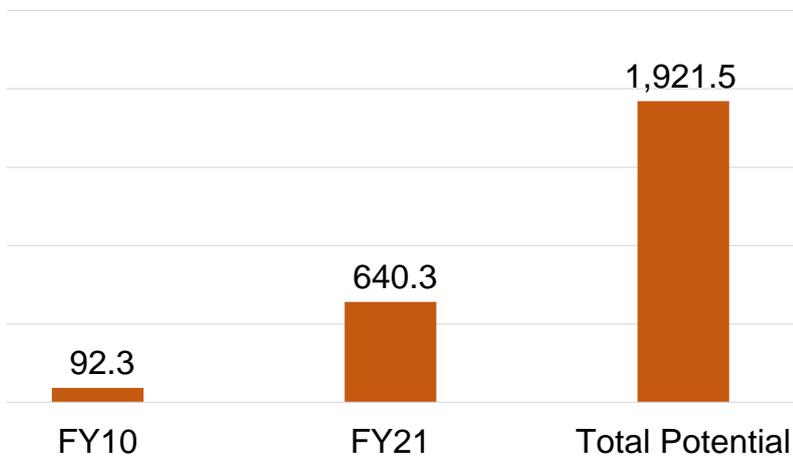

Access issues can also be understood by mapping the availability of dialysis machines under the PMNDP programme, against the rural population across various states. The following figure shows the state-wise variations and disparities in accessibility of dialysis services. For instance, states like Kerala and Tamil Nadu have a much higher number of dialysis machines, even though they have a lower rural population. In contrast, Bihar and Uttar Pradesh have a greater rural population suffers from inadequate dialysis access. Thus, access to dialysis machines remains a key concern in several states of India.

Hemodialysis Market Size in India – Actual & Potential (USD Million)

The value of the Hemodialysis market in India was estimated at ~USD 640 Million in FY21 with a total potential of USD 1,922 Million.

Current Trends in the Kidney Transplantation Space in India

The living kidney transplantation program in India has evolved in the past 45 years and is currently the second largest program in numbers after the USA. Transplantation from deceased donors where neurological criteria are used for determination of death has been possible since 1995 after the Indian parliament passed the law related to transplantation.

It is estimated that almost 220,000 people require kidney transplantation in India. The rising incidence of lifestyle diseases such as diabetes and hypertension makes long-term follow-up of kidney donors in India an urgent consideration. However, currently, approximately 7500 kidney transplantations are performed at 250 kidney transplant centers in India. Of these, 90% come from living donors and 10% from deceased donors. The data are not as accurate as would be desirable due to the absence of a national transplant registry.

The early challenges of medical and surgical complications of kidney transplantation have now been overcome and currently, there has been a gradual shift toward more transplant centers offering laparoscopic donor nephrectomy with a few also offering robotic kidney transplantation.

With the advent of better immunosuppressive drugs and induction agents to stop early rejection episodes, there has been a shift from using high-dose steroids to prevent graft rejection, and this has resulted in lower incidence of postoperative complications after transplant surgery. Minimally invasive methods for managing transplant surgery complications have been possible due to the advances made in the field of urology over the past few decades.

As per the Indian law and amendments to it in 2011, there is a provision of “required request” available to the intensive care doctors to ask for organ donation in the event of brain death. It also makes it mandatory to have a national registry to look at outcomes and appointment of a trained transplant coordinator for the purpose of counseling relatives for organ donation.

State-wise Dialysis Demand-Supply Scenario in India

EY has carried out an analysis of the state-wise demand-supply situation in the dialysis space across India in its paper “Dialysis delivery in India: demand, challenges and policy insights” published in March 2023.

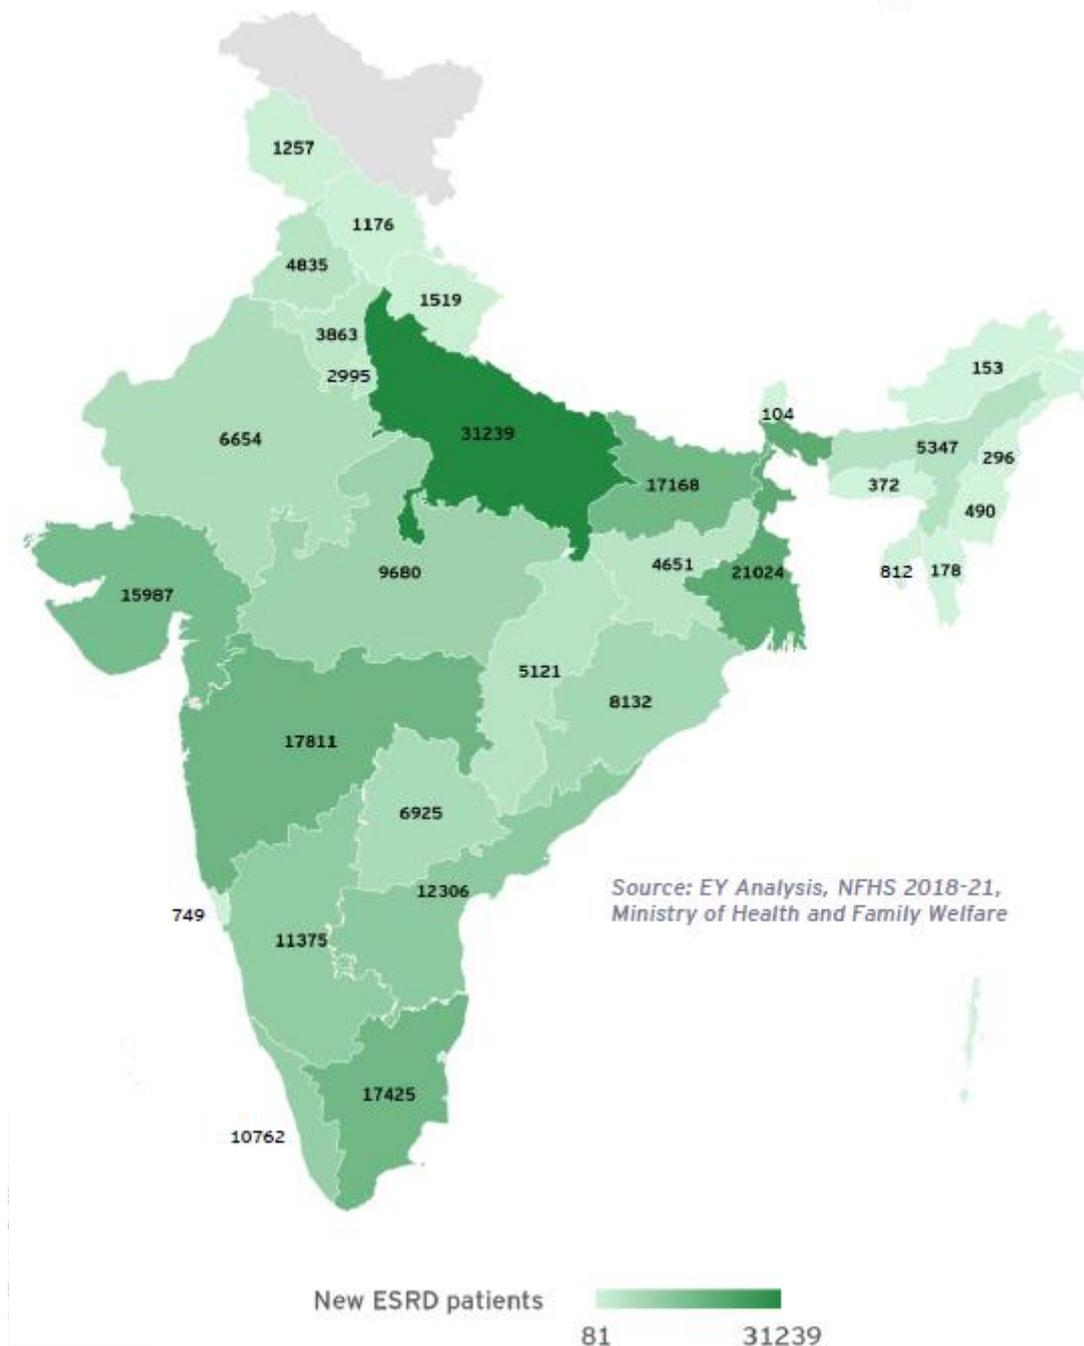

As 220,000 new ESRD patients are added every year, state-wise distribution of new patients requiring dialysis can be estimated through establishing a causal linkage between the incidence of critical triggers (e.g. diabetes and hypertension) and the prevalence of ESRD. For representation purposes, EY has taken the weight of each state to be the share of diabetic persons in that state in total population suffering from diabetes. This methodology has been used as diabetes is known to be the leading cause of ESRD.

It can be perceived, however, that there is a mismatch between the demand arising out of every state and the number of dialysis centres set up under the PMNDP programme in the respective state. [Note: Data from UT of Ladakh unavailable]

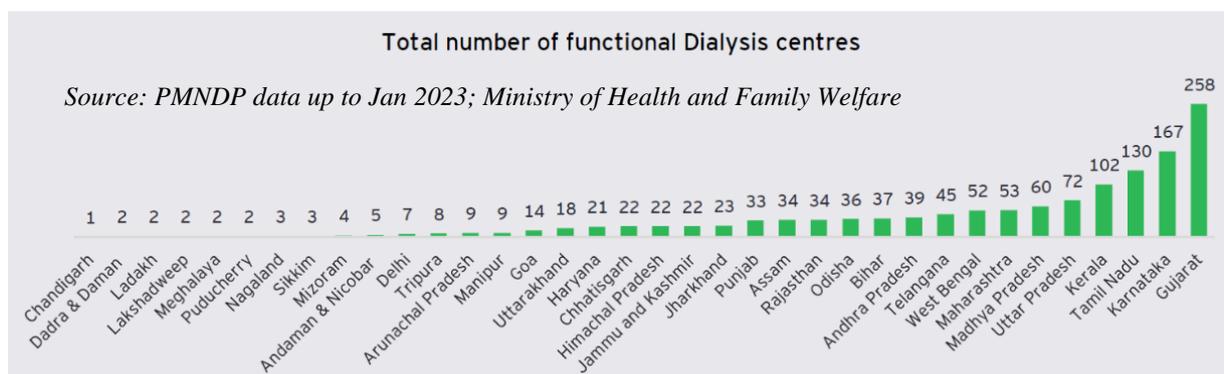

It may also be noted that ESRD is also caused due to several other factors such as hypertension and unknown issues. Since there is no statistical disintegration between diabetes and hypertension population in India, diabetes has been used as a credible weight in determining the state-wise ESRD population.

The following chart provides the overall national landscape of ESRD incidence:

New ESRD Patients added across states every year

In the background of the above, it seems the distribution of dialysis centres does not match region-wise demand:

Dialysis Delivery Capacity in India

- In terms of private dialysis capacity, India, on an average, has 7 dialysis machines per centre. In fact, the majority of states in India have 7 machines or less per centre, with at least 11 states having a lower density of 5 machines or less.
- This includes key states like Rajasthan, West Bengal, Madhya Pradesh and Gujarat which have 5 machines per centre or less.
- Tamil Nadu leads India with 418 private dialysis centres with 3,344 dialysis machines, followed by Karnataka (284 centres with 1704 machines), Uttar Pradesh (282 centres with 1692 machines) and Maharashtra (272 centres with 2176 machines).
- The states that have 100 machines or less include states with difficult terrains where availability of electricity and water may be an issue. These include the north eastern states and the hilly states of Uttarakhand and Himachal Pradesh.
- On including the PMNDP capacity, Gujarat and Kerala also lead in dialysis delivery capacity with aggregate (public and private) 209 and 231 dialysis centres respectively.
- Despite both public and private efforts, the dialysis delivering capacity in India is not sufficient. For instance in states with high rural population, the number of machines (either public or private) are much less than the dialysis demand.
- In terms of machine density or the number of new ESRD patients per machine, Tripura and West Bengal lead with highest gap of 14 new patients to a machine, followed by Uttar Pradesh (13 patients to a machine), Bihar (12 patients to a machine) and Assam (12 patients to a machine).
- These findings indicate that present issue to resolve is to increase the dialysis delivering capacity to match the demand by new ESRD additions. In particular, the dialysis capacity needs to improve in states with lower socioeconomic indicators where access to clean water and electricity is low.

1.4 Union Government Initiatives to Address the Dialysis Supply Shortage

Every year, about 2.2 lakh new ESRD cases are reported in India. This has resulted in additional demand for 3.4 Crore dialysis every year. The high cost of dialysis care leads to financial distress for families with such patients in the middle- and low-income categories.

As a part of its efforts to address the shortfall of dialysis supply in India, the Ministry of Health & Family Welfare launched the 'Pradhan Mantri National Dialysis Program' (PMNDP) under the National Health Mission in Public Private Partnership (PPP) mode in Union Budget 2016-17 at all the District Hospitals, to make renal-care services accessible & affordable to BPL (Below Poverty Line) patients.

The Pradhan Mantri National Dialysis Programme (PMNDP) was rolled out on 7th April 2016 as part of the National Health Mission (NHM) for the provision of free dialysis services to the poor. The programme has two components namely Hemodialysis (HD) services & Peritoneal dialysis (PD) services.

National Health mission supports establishment of dialysis centres (In-house & public private partnership/hybrid models) for HD service delivery as per the state/UT requirement. Hemodialysis Services under PMNDP is operational in Private Public Partnership (PPP) mode in 14 States/UTs, in-house mode in 16 States/UTS and hybrid mode in 6 States/UTs.

The PMNDP portal (IT platform) was launched on 05 May 22 by Hon'ble Union Minister of Health & Family Welfare Dr Mansukh Mandaviya at the 14th CCHF Meeting. The portal will integrate all the dialysis centres operational in the state under NHM and facilitate building of renal registry and ensuring portability within the state (one state one dialysis) and later throughout the country (One Nation-One Dialysis).

ABHA number is a 14-digit number that will uniquely identify one as a participant in India's digital healthcare ecosystem. ABHA number will establish a strong and trustable identity for the dialysis patients that will be accepted by healthcare providers and payers across the country.

The PMNDP scheme has been backed up with a robust technology backbone and is supported by features like the “ABHA (Ayushman Bharat Health Account) Address” that enables patients to access their health records digitally and register for services in a hassle-free manner.

Since its inception, around 21.06 lakh patients have availed of the PMNDP services and the Central Government has spent ~Rs. 3,600 Crores (@ ~Rs. 1,500 per dialysis session) for 238.57 lakh hemodialysis sessions carried out under the PMNDP scheme. The PMNDP scheme covers 36 States and Union Territories across 700 districts served by 1,431 centres under the scheme which are equipped with 9,684 HD machines⁸.

The Central Government also uses other legacy schemes like the Pradhan Mantri Jan Arogya Yojana (PMJAY), Rashtriya Swasthya Bima Yojana (RSBY), Central Government Health Scheme (CGHS), Ex-Servicemen Contributory Health Scheme (ECHS), Employees State Insurance Scheme (ESIS), etc. to reimburse the cost of dialysis and kidney treatment in India.

1.5 Key Trends in the Kidney Care Space in India

Telemedicine & Digital Healthcare Delivery

- Telehealth, remote healthcare services delivery and digitized patient monitoring are some of the top trends that we will witness in the medium to long term. Covid-19 forced healthcare professionals to deliver care to patients, from the remotest corners of the world.
- By December 2022, the Health Ministry’s *eSanjeevani* telemedicine service had acquired 1,144 online OPDs with 2,22,026 specialists, doctors and health workers that have been trained and onboarded. This platform has an impressive record of having served over 4.34 lakh patients in one day.
- The market in India is primarily driven by rapid digitization across the healthcare industry. This has encouraged leading players to heavily invest in the deployment of telemedicine due to its associated convenience offered to patients and healthcare professionals.
- Rising adoption of AI-based applications has enabled people to talk directly to doctors, physicians, and get expertise for the best treatment.

Increasing Penetration of Health Insurance

- In FY21, gross healthcare insurance stood at 29.5% of the overall gross direct premium income by non-life insurers segment.
- Gross direct premium income underwritten by health insurance companies grew 13.3% YoY in FY21 to ~Rs. 58,600 Crores (~US\$ 7.9 billion).
- Government initiatives to offer health insurance cover to the underserved section of the population through the PMJAY scheme is also expected to provide considerable momentum to the healthcare services industry.

Emergence of Tier 2 & Tier 3 Locations as the Epicentre of Growth

- Rising income levels in smaller towns and cities, increasing health awareness among local population, the information revolution ushered in by rapid penetration of the internet and a host of other factors have combined to bring Tier 2 & Tier 3 locations under the limelight in the healthcare services sector.
- Besides, with the introduction of health insurance schemes like Ayushman Bharat and similar programmes, the barrier to access to quality healthcare has increasingly weakened. The number of beneficiaries under the Ayushman Bharat scheme has already crossed 500 Million. 40% of these are from the bottom of the socio-economic pyramid.

OVERVIEW

Nephro Care was founded in the year 2014 by Dr. Pratim Sengupta in Kolkata with an object of providing comprehensive medical services for renal patients. As on date, Nephro Care is a one stop treatment centre based in Kolkata that offers a wide range of clinical and lifestyle solutions and services and renal insufficiency treatment to patients. The treatment framework covers the entire range of lifestyle, physiological and spiritual aspects of wellness. The operations of Nephro Care are supported by a pool of expert Doctors, experienced and well-trained paramedical professionals and a skilled management team. The entire team at Nephro Care is supported by sufficient clinical and investigative infrastructure. At Nephro Care treatment regimes are planned and practiced on the basis of core scientific understanding, transparency and ethics.

Initially Nephro Care’s offerings were limited to dialysis and renal OPD services delivered through 3rd party facilities of hospitals like Sahid Khudiram Bose Hospital, Fleming Hospital and Dreamland Hospital. Hence, till November 2021, the company’s earnings were limited to only the share of revenue agreed upon between the 3rd party facility owner and our company. In December 2021, our company set up our own daycare unit at JC-18, Salt Lake with facilities for offering a wide range of services.

As on this date of the RHP, we are operating our business through follows locations:

Location	Purpose	Brief of Services offered	Lease/Rent /Owned	Tenure
5th & 6th floor Plot No. 18 in Block-JC, Sector-III, Salt Lake City, Kolkata	Registered office and Operational Clinic	Inhouse Dialysis Unit, Outpatient Services in areas of Nephrology, Diabetology, Cardiology, Ophthalmology and Neurology, NABL accredited inhouse Pathology, Inhouse Pharmacy, Advance diagnostic facilities, Renal Nutrition department, Home Care, Mukti (Lifestyle Support Program), Home Dialysis	Lease	9 Years
Mukundu Station Road, Ward No. 21, Chandernagaore Municipal, Corporation, Mouza-Chandernagore, JL No. 1, Sheet No. 24, ADSR Office and PS Chandernagore, District-Hooghly	Operational Clinic	Inhouse Dialysis Unit, Outpatient Services in areas of Nephrology, Diabetology, Cardiology, Ophthalmology and Neurology, NABL accredited inhouse Pathology, Inhouse Pharmacy, Advance diagnostic facilities, Renal Nutrition department, Home Care, Mukti (Lifestyle Support Program), Home Dialysis	Lease	9 years

Our Unit at HB 113:

Our Company have entered into an agreement with e-Age Healthcare and taken up a dialysis unit (previously known as “Dial a Dialysis”) located at HB 113, Salt Lake City, Kolkata 700106 on a monthly rental model. Under the said agreement Nephro Care got the right to use the infrastructure and 11 dialysis machines available at the said premise. Nephro Care started operation at HB 113 from July 23 with their own staff and management.

Renal insufficiency and kidney diseases have become a major health issue in India. The Pradhan Mantri National Dialysis Program (PMNDP) Report⁹ notes that in India every year about 2.2 lakh new patients of End-Stage Renal Disease (ESRD) are added in India resulting in additional demand for 3.4 Crore dialysis every year. The high cost of dialysis care leads to financial hardship for practically all families with such patients.

Our vision is to reach out to the masses through a holistic approach combining modern medicine with time tested yogic wisdom to touch the lives of one million kidney disease patients across the country by leveraging our hub-and-spoke model.

Our clinics are equipped with technologically advanced equipment and diagnostic instruments. We have a wide spec of diagnostic facilities to provide our doctors freedom to explore all diagnostic possibilities and offer our patients a better service and care under one roof and to also ensure optimum clinical outcomes.

At present we provide healthcare services to around 900 Chronic Kidney Disease Patients (CKD Patient) every month and engage over 5 permanent doctors along with 10 visiting consultants led by 70 experienced paramedical professionals from our flagship Salt Lake clinic with an area of 5,352 sq. ft. and three satellite clinics at Salt Lake (HB 113), Chandannagar, West Bengal (near Kolkata).

We have recently signed an agreement to take on lease an existing 60 bedded hospital at Madhyamgram, Kolkata and have embarked on a project to convert the same into a 100 bedded multi-speciality hospital and a part of the IPO proceeds is proposed to be utilised for the said purpose.

Further, we are also in the process of opening 3 (three) more satellite clinics at the below locations and the agreements for the space for these clinics is already be executed:

S. No	Proposed Centres	Locations	State	Model
1.	Alipurduar	Kanthal Tala, PO Bholardabri, Alipurduar	West Bengal	Rented
2.	Shyambazar	6 B, Manmotha Bhattacherya Street, Kolkata 700004	West Bengal	Rented
3.	Balasore	Plot no. 567/1634, Bhaskarganj, Baleshwar, Odisha 756001	Orrisa	Rented

In March 2024, Nephro Care has been awarded the “Power Icon” award by the Times of India Group for its contribution to the healthcare sector in Eastern India.

At present, Nephro Care offers the following services at our clinics:

1. Inhouse Dialysis Unit
2. Outpatient Services in areas of Nephrology, Diabetology, Cardiology, Ophthalmology and Neurology
3. NABL accredited inhouse Pathology
4. Inhouse Pharmacy
5. Advance diagnostic facilities
6. Renal Nutrition department
7. Home Care
8. Mukti (Lifestyle Support Program)
9. Home Dialysis

Brief Profile of our Founder

Dr. Pratim Sengupta, our founder, is one of the leading Nephrologists in India with more than 20 years of active clinical experience. Dr. Sengupta has done more than 1,000 kidney transplants till now and is a pioneer in the field of holistic renal care through a combination of clinical intervention, yoga and lifestyle support.

Dr. Sengupta has been awarded with the “Bharat Jyoti Award” for meritorious services, outstanding achievement and remarkable role by India International Friendship Society in 2019 “The Economic Times Legends of India” in June 2022, and “Times Men of the Year Award, 2022” from Times of India Group for his outstanding contributions in Chronic Kidney Disease Care. Dr. Sengupta is the driving force behind our clinics.

For further details on our Founder please refer to “Our Promoter” in page 166 of this RHP.

OUR COMPETITIVE STRENGTHS

We believe that the following are some of our competitive strengths that place us well in the healthcare market in India.

Bridging the gap between day care and tertiary care services and addresses the unmet needs of the patient

Services offered at Nephro Care clinics are patient centric and covers a wide range of patient needs that are not addressed in most of the day care set-ups. We operate on a multidimensional patient engagement framework comprising programmes and facilities which include:

- (a) “Mukti” which takes care of the overall wellbeing of the patients and improve quality of life through a blend of modern medicine and ancient yogic wisdom;
- (b) “Home Dialysis” services that offer dialysis at the comfort of their homes to CKD patients who are unable to and/or do not wish to visit dialysis centres;
- (c) “Home Care” services extending clinical & lifestyle support beyond our clinics to take care of all collateral medical needs of our patients;
- (d) Wide range of diagnostic facilities not limited to the domain of nephrology and providing patients an opportunity to get investigated for co-existing ailments and provide health clinicians to offer patients a comprehensive treatment regimen.

Social Media Powered Community Engagement Model

Apart from routine patient engagement assignments, our Managing Director, Dr. Pratim Sengupta, who is a nationally acclaimed Nephrologist in his own right, also reaches out to close to 1,12,000 subscribers as on April 6, 2024, through his YouTube channel with regular updates and guidance on kidney related issues and advice on management of renal conditions. Each of his videos in his YouTube channel “*Dr. Pratim Sengupta*”¹⁰ regularly garner 5 lakh to 6 lakh views. Besides, Dr. Sengupta also connects with his audience through other social media platforms like Facebook, Instagram, LinkedIn and X. Dr. Sengupta’s lucid and viewer friendly explanation of common kidney related ailments as well as his guidance on the management of such issues are highly appreciated world-wide. Hence, our Company already has a vibrant communication channel with our target audience which helps us attract patients from all walks of life and from diverse geographies.

Our technology backbone is robust and supports consistent improvements in the quality and efficiency of our service delivery

Our Company has maintained a strong focus on developing and commercializing new and improved methodologies and formats of service delivery. This has enabled our Company to not only achieve higher levels of patient satisfaction and better quality of service, we have also considerably enhanced the efficiency of our operations.

We have developed in-house technology for the production of dialysis ready water from ordinary tap water through a portable RO system that can be installed anywhere within close proximity of the supply of water. The said RO system is currently being commercialized and we have already deployed several such systems to offer “Home Dialysis” services to our patients.

Our tele-calling and tele-medicine vertical offers remotely accessible clinical services to patients in far flung areas.

Core digital applications that drive the functions of our Company:

- (a) Hospital Information System: The primary technology platform that manages and monitors the entire business value chain of our Company from a patient registration, their medical history and records, pathological outcomes and diagnostics to scheduling to billing and care plans including clinical documentation and computerized physician order entry.

¹⁰ <https://www.youtube.com/@pratimsengupta8891>

- (b) Electronic Medical Record: A record system that allows the placing of lab, radiology, diagnostic and medication orders for patients from authorized mobile devices with minimal typing. Physicians can track an order status in real-time and get results as soon as they become available.
- (c) Telemedicine App: This mobile application facilitates patients to access tele-medicine services over video, phone or chat functions. The app has been developed in-house and is under beta testing at present. The monthly average of consultation via video and telephone in Kolkata increased by 262.38% from ₹1.91 Lakhs in Fiscal 2022 to ₹ 6.91 Lakhs in Fiscal 2023 and was ₹ 23.89 Lakhs in the nine months ended December 31, 2023.
- (d) HRMS: This mobile application and web-based system provides self-service for employees and other managers covering the complete employee life cycle. The app has been developed in-house and is under beta testing at present.
- (e) Business Intelligence: The enterprise business intelligence system accesses inputs from various functions & collates & curates data.

‘Hub-and-spoke’ model with focus on quality patient care supported by modern infrastructure

Each of our clinics operates on a ‘hub-and-spoke’ model where each clinic is independent, individually well-equipped with skilled healthcare professionals as well as advanced infrastructure to serve the healthcare needs of the patients and ensure their rehabilitation. We operate all our clinics in line with our “patient first” ideology, which primarily focuses on patient’s care, comfort, privacy and dignity. Our Salt Lake Clinic has also been honoured with the “Award of Excellence from Health Conclave” by Zee 24 Ghanta in 2022. We believe our patient centric approach supported by modern infrastructure and technological capabilities have improved our operational efficiency and enhanced our patients’ experience. We are also determined to provide healthcare services with high integrity and do not set any incentives that could compromise the quality of our services, such as financial targets for doctors.

Focus on Clinical Research and Innovations

We are also focused on clinical research. Established in December, 2021, our clinical research facility supported by a dynamic and dedicated medical research team committed to advancing knowledge and innovation in the field of nephrology. At present, the team comprises two key members, a Senior Research Officer and a Clinical Research Coordinator. The primary purpose of the medical research team at Nephro Care is to comprehend, cultivate and investigate innovative concepts proposed by clinicians. The team collaborates with esteemed institutions in India, including the Indian Statistical Institute in Kolkata, Indian Institute of Technology, Kharagpur, and National Institute of Technology, Silchar, Assam, to leverage their expertise and resources in pursuit of cutting-edge research. Our 8 Research papers and case reports were published in peer-reviewed international journals. The team has set an ambitious target of publishing four research papers and case reports in peer-reviewed international journals in a year. Leveraging specific strategies for handling extensive patient data, their retrospective analyses have led to numerous publications.

Ongoing research initiatives include the development of biosensor chips, low-cost hemodialysis machines with remote monitoring capabilities, a comprehensive study blending ancient yogic systems with modern medicine, etc. The investigations extend to understanding organ crosstalk, correlations between autoimmune kidney diseases and other genetic disorders of the kidney, a detailed comparison of home-based versus in-center hemodialysis facilities' impact on patient well-being, etc. Through these diverse projects, Nephro Care’s research team is dedicated to advancing knowledge and improving outcomes in the field of nephrology.

One of our recent innovations is an indigenous low cost dialysis machine developed in collaboration with NIT, Silchar. The same is under beta testing and has been submitted for approval to the Department of Science & Technology (DST), Biotechnology, West Bengal. We believe that the above innovation is capable of significantly reducing the recurring cost of dialysis and redefine the dialysis landscape in India.

Consistent Investments in Medical Technology and Cutting Edge Machinery to Improve Patient Outcomes

We continuously invest in the latest medical technology and equipment and diagnostic instruments to provide our doctors, nurses and medical staff with all the tools we believe they need to provide quality medical care as well as provide patients with accurate diagnoses and effective treatments. Our clinics are equipped with technologically advanced equipment and diagnostic instruments. We have a wide spec of diagnostic facilities to provide our doctors freedom to explore all diagnostic possibilities and offer our patients a better service and care under one roof and to ensure optimum clinical outcomes. We have inhouse diagnostic tools including UGS, ECHO, ECG, X Ray, PFT, NCB, Fibroscan, Sudoscan, Fundoscopy, BCM, Polysomnography, Holter monitoring which ensure complete screening and accurate diagnosis.

Our inhouse NABL accredited pathological lab provides a full spectrum of diagnostic and investigative solutions to enhance our patient support efforts. Our state-of-the-art equipment and SOP have enabled us to achieve quick turnaround in terms of providing reports and process the tests.

We provide healthcare services to around 900 Chronic Kidney Disease Patients (CKD Patient) per month and engage over 5 doctors and 10 visiting consultants led by 70 experienced paramedical professionals from our flagship Salt Lake clinic having an area of 5,352 sq. ft. and two satellite clinics at Salt Lake and Chandannagar, West Bengal.

We place a high focus on infection control as we deal with immune compromised ESRD and Post KT (kidney transplant) patients at our clinics and in our dialysis units. We have, through focused control and monitoring, managed to keep infection incidences at negligible levels which result in lower hospitalization rates. We have invested in the latest medical technology and equipment to provide our doctors and medical staff with all the tools we believe they need to practice and provide quality medical care. Our clinics are equipped with machines and devices with sophisticated technology. In addition, we also equip our clinic with latest medical technology and equipment and diagnostic instruments with the aim of providing our patients with accurate diagnoses and effective treatments. We believe our infrastructure and latest technology have improved our operational efficiency and enhanced our patients' experience.

Professional Management & Experienced Leadership

We benefit from an experienced senior management team that has made significant contributions to our continued growth and has an established and proven track record in the healthcare services industry. We propose to leverage their experience, expertise and insights in executing our growth strategy as described in this Red Herring Prospectus, retaining the flexibility to adapt to changing market conditions and capitalizing on market opportunities. Our management team is composed of corporate professionals as well as seasoned medical practitioners with both clinical and administrative experience.

Our senior management team has extensive healthcare industry experience and is led by Dr. Pratim Sengupta, the Managing Director of our Company. He has over 20 years of experience in the field of Nephrology and has been recognized for his distinguished contribution to medicine. After graduating from R.G. Kar Medical College & Hospital, Kolkata, in 2000, he pursued MD (Internal Medicine) from IPGME&R and SSKM Hospital in 2006 and DM (Nephrology) from IPGME&R and SSKM Hospital from Kolkata in 2010. He has done his (1) Clinical Research Fellowship from Harvard Medical School Boston, USA; (2) Renal Nutrition & Clinical Nephrology Fellowship from Karolinska Institute, Sweden; and (3) CAPD Fellowship from Peking University Third Hospital, Beijing China. He is also a member of in various professional societies including American Society of Nephrology, European Renal Association, International Society of Nephrology and Indian Society of Nephrology. Dr. Sengupta has done more than 1,000 kidney transplants till date and is a pioneer in the field of holistic renal care through a combination of clinical intervention, yoga and lifestyle support. Dr. Sengupta is the driving force behind our Clinics.

Track record of operational and financial performance

We have grown to a clinic providing quality tertiary care / treatment of Chronic Kidney Disease Patients with approximately 900 patients served per month. We believe that we have consistently delivered high operational and financial performance through high patient volumes and cost efficiency. Over the past 2 years of service to patients, our dedication has helped us in enhancing the "Nephro Care" brand and we believe that our patients have placed a high degree of trust in us. Our outpatient volume in Fiscals 2021, 2022, 2023 and the nine months ended December 31, 2023 were 4,929, 1,381, 21,287 and 26,508 (9 months) respectively.

We have a track record of financial performance and consistent growth. In Fiscals 2021, 2022 and 2023 and the Nine months ended December 31, 2023, we generated income from healthcare services of ₹ 182.28 Lakhs, ₹342.44 Lakhs, ₹1,709.27 Lakhs, and ₹1,975.14 Lakhs, respectively, and had EBITDA of ₹ 15.46 Lakhs, ₹ 12.56 Lakhs, ₹ 364.53 Lakhs and ₹ 504.64 Lakhs, respectively. Our return on capital employed was negligible, 21.42%, 4.13%, 71.09% and 36.56% in Fiscal 2021, Fiscal 2022, Fiscal 2023 and December 31, 2023, respectively. For a more detailed discussion on our financial performance, please see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Selected Historical Financial Information" on page 209.

Further, with a view to expand our operation geographically in the State of West Bengal, we are exploring long-term arrangements with clinics for managing specific specialities to promote an asset-light strategy for operations and management.

OUR BUSINESS STRATEGIES

Our strategic objective is to improve and consolidate our position as one of the leading clinic providing comprehensive medical services for kidney disease patients with a continuous growth philosophy and to enter in value services. Below points represents our continuous growth philosophy being implemented:

Continue to invest in extension of our Hub-and-Spoke network

We are continually looking for value-accretive opportunities. Our goal will be to carefully increase our capacity in existing facilities as well as start new clinics in the state of West Bengal and Odisha, through an asset light model, while at the same time complement such expanded capacity with improved quality and efficiency of our healthcare services by providing cost-effective care through efficient systems, optimal utilization of processes, Information Technology, Research and Innovation and other resources. We are also in the process of setting up of one hub multi-speciality hospital at Madhyamgram, Kolkata, which is under refurbishment and upgradation. Our efforts are expected to enhance our reach among existing and potential patients through deeper penetration in our target markets.

We will continue to leverage our scale and brand leadership to further enhance our operational efficiency and profitability at our facilities. We intend to develop multiple clinical disciplines, such as cardio care, transplant care, state-of-the-art diagnostic facilities through a central lab and facilities like MRI, Cathlab and CT scan at our proposed hospital at Madhyamgram, Kolkata. We also plan to on-board new doctors and employ new technology, machines and treatments by analyzing and evaluating the current and evolving needs of our patients. For example, we will continue to focus on the preventive aspect of the healthcare business such as encouraging early-stage intervention (wellness) and lifestyle improvement, chronic care management. We believe this area represents a dominant trend of the Indian healthcare industry which we are well poised to leverage to our benefit.

Continue to attract, engage and train prominent, skilled doctors and other healthcare professionals

High-quality healthcare professionals are key to our success. We believe that hiring healthcare professionals who have established a reputation in their respective field is crucial for the successful implementation of our strategy to develop and operate our clinics. We intend to strengthen our integrated human resources management system to further enhance the recruitment, training and retention of high-quality medical professionals. We continue to leverage our relationship with schools and medical institutions that we collaborate with for recruitment to source entry-level medical professionals. We also utilize other recruitment channels such as professional medical talent recruiting agencies and internal referrals to attract experienced medical professionals in order to strengthen our existing departments. In addition to regular training at our clinics, we intend to continue to send selected doctors, technicians and nurses to our collaborating hospitals and medical institutions to receive additional training. We also plan to increase our communications and collaborations with leading institutions and experts in different medical areas to improve our diagnostic, treatment and research capabilities. In addition, in order to better retain and incentivize our medical professionals, we will continue to enhance our performance-based compensation and review system to reward and promote service excellence. Leveraging the experienced specialists from our high-quality medical professional team, we aim to boost our brand recognition and reputation in order to attract more patients.

Enhance clinical capabilities and improve operating efficiencies

A key component of our growth strategy is enhancing clinical capabilities and improving operating efficiencies. We intend to improve equipment utilization at our clinics by continuing to maintain and recruit new medical professionals of high caliber in specified fields and focus on clinical excellence. We will also look to optimize operations through improving employee productivity and streamlining technology and processes. We also intend to apply principles of lean management across all of our administrative and management layers, and optimize the use of technology to build greater efficiencies in our ways of working.

Extend clinical services outside the clinic and across the lifetime of the patient

We intend to extend our clinical services outside our clinic by growing our home care business across sample collection, medicine delivery and all possible aspects of care at home. We also intend to expand the delivery of care both before and after acute interventions by focusing on preventive health and wellness as well as lifetime management of patients. We

plan to carry out this strategy across all locations where we currently operate and may leverage technology and other asset light business models to expand these services into new territories

Leverage technology to improve patient experience and grow our digital health services

We will continue to seek to leverage key technological advancements in healthcare at our clinics. We expect this will further enhance our total speciality healthcare services. We also plan to further strengthen our collaboration with domestic and international clinical development experts and institutions to continually implement advanced technology to improve our offering. We will endeavour to equip our clinics with latest equipment, which we believe is essential in increasing automation wherever appropriate, and ensuring reliability as well as cost competitiveness. We will leverage technology in our operations with the goal of improving the quality of patient experience and cost efficiency. In addition to our home care services business, we intend to grow our digital health services by further developing our website and online communication platform to educate the public on various health topics. To this end, we have invested and will continue to invest in digitalizing our IT back-end services to optimize a patient's experience through our physical plus digital ecosystem.

Build on our thought leadership through increased focus on academics and research

Training our doctors and other medical professionals in best practices and keeping up with medical advancements is critical to our leading position as a premier hospital in India. See “— Strengths — Focus on Clinical Research and Academics” on page 121. We intend to increase further our academics and research, which will help us to enhance the talent and expertise of our doctors to effectively treat our patients and thereby support our business growth. In addition, further investments in academics and research will enable our doctors and other healthcare personnel to improve themselves through focused learning opportunities. We also aim to maintain our strategic partnerships with internationally renowned institutes to further enhance our research efforts.

The “Mukti” Programme

An Introduction to “Mukti”

- In a unique measure to offer holistic healing to patients, Nephrocare has launched the “Mukti” Programme designed to combine the principles of medical science with the concepts of wellness and spirituality.
- Mukti is a perfect blend of modern medicine with ancient Yogic wisdom and aims to enhance the quality of life through all round support – mental, spiritual and physiological. Mukti is a journey towards self-fulfilment through a fusion of medicine and Yoga.

The Target Audience

- While “Mukti” has been designed to address the issues faced by kidney patients, this programme of holistic healing can benefit everyone regardless of their physical or mental health.

Service Delivery Mechanism

- The duration of an average Mukti session is usually about 90 minutes and the training and guidance are provided both offline and online.
- The Mukti programme has reached out digitally and physically to more than 1,000 beneficiaries across India till date.
- The Mukti programme is customized for each participant according to their physical and mental health as per their medical history and assessment of the top team of doctors at Nephrocare and is also supported by a 24x7 call centre.

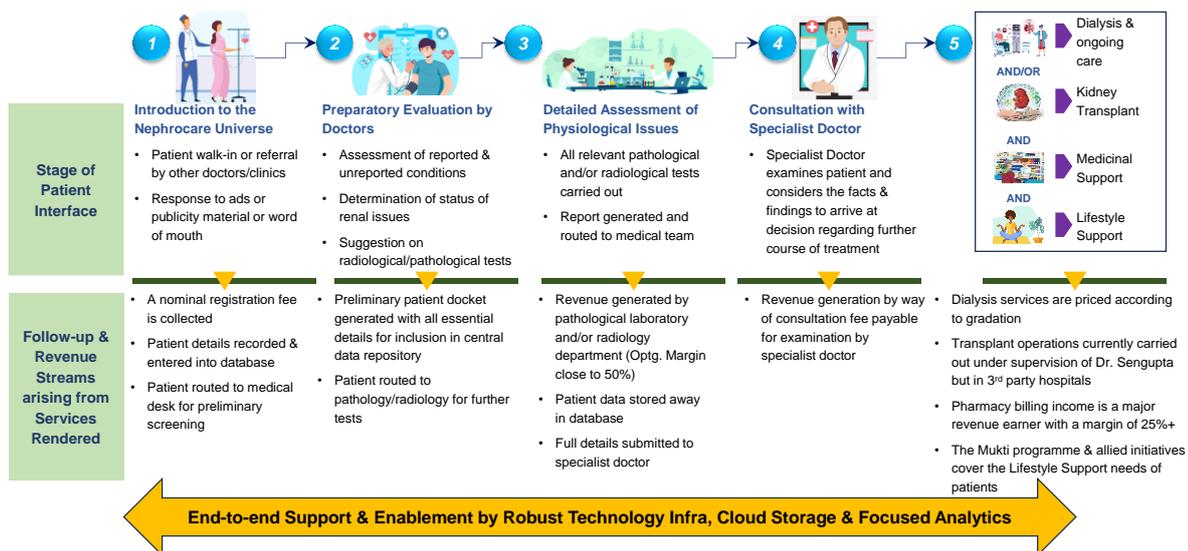

Economics of the Programme

- The fees charged per participant in a Mukti programme comprising 8 sessions are around ₹ 3,000.
- Currently, the Company earns a revenue of around ₹ 9 lakhs per month from its Mukti programme and with positive word-of-mouth and online publicity, the growth expected in this vertical is around 20% per annum.

Our Vendor Management System

We have a dedicated purchase department which undertakes centralized purchase of our supplies (including medicines and consumables) and equipment for our clinics. Our purchase regularly monitors and evaluates performance of vendors on multiple parameters like timeliness of delivery, quality of goods supplied, terms and conditions with respect to pricing and discounts, etc. Final purchase order is approved by CEO and processed by the purchase department.

For medical equipment, our technical committee headed by our Managing Director determines the optimum configuration of the machinery and support equipment required and specifies the technical specifications which the purchase department must follow while placing the orders.

We have focused on standardizing medical and other consumables used across clinics in our network, which allows us to optimize our supplier network and reduce our procurement costs. We have also implemented straightforward usage guidelines for medical and other consumables across different medical procedures and business segments.

We seek to maintain high service standards by sourcing most of our medical and non-medical supplies and equipment from reputable suppliers with a track record of satisfactory performance. Our suppliers are selected based on quality, price competitiveness, company history, and delivery capability, and we accord approval for such purchase in consultation with the relevant medical departments. Our supplies of most medicines and consumables are obtained locally and provided by agents representing major pharmaceutical companies.

Our Inventory Management System

Our inventory management system is built on an integrated digitized platform and is centralized at our JC-Hub. The inventory position of our Company is tracked on a real time basis by our CEO and COO and depending upon the lead time required for procurement of materials our purchase department is instructed to issue orders to empaneled vendors according to our inventory holding policy for various medicines, consumables and other items. For instance, in the case of a medicine that needs to be imported and/or difficult to procure our purchase department is usually instructed to ensure an inventory holding long enough to bridge the gap between order and delivery across cycles. For fast moving products we endeavour to minimize our inventory holding period in order to enhance our working capital efficiency.

Functional Support System

While we purchase most of the equipment required for our pathology and diagnostic services, certain laboratory equipment is provided to us on the reagent rental model which is common in the healthcare industry. Under this model, the vendor installs and maintains the laboratory equipment installed in our facilities throughout the tenure of the arrangement at the vendor's cost and in return we are required to assure the vendor a certain agreed amount of offtake of reagents.

We have entered into maintenance and service contracts for most of our medical equipment for the maintenance of medical and laboratory equipment, which cover, among others, regular inspection and maintenance of such equipment.

SWOT ANALYSIS

STRENGTHS	WEAKNESS
<ul style="list-style-type: none"> One stop treatment center offering wide range of comprehensive medical services for kidney disease patients Led by Dr. Pratim Sengupta, one of the leading Nephrologists in India and successfully done more than 1,000 kidney transplants. Clinic equipped with technologically advanced equipment and diagnostic instruments Highly trained medical professionals Ensure privacy of the data and information of the patients 	<ul style="list-style-type: none"> Dependency on promoter Dr. Pratim Sengupta High manpower cost. Need to regularly upgrade the knowledge base of our medical team may involve significant expenses. Need continuous monitoring on quality of services High Capex cost/ Unit.
OPPORTUNITIES	THREATS
<ul style="list-style-type: none"> Increasing need of comprehensive healthcare solutions. Huge gap between demand and supply when it comes to dialysis facilities. Nephro Care is a futuristic hybrid model that can bridge the service gap between day care and Hospital. Which is missing in current healthcare domine. Some need-based and value-added flagship services like Mukti and Home dialysis which are putting Nephro Care one step ahead of competitions. Chronic Kidney Disease (CKD) is at an epidemic stage in India and there is a huge imbalance between required facilities and current available options, which Nephro Care can address. 	<ul style="list-style-type: none"> Based on the per capita income in India affordability towards CKD treatment is a challenge. Lack of awareness. Govt health yojanas have limited and delayed pay out. Ratio between qualified doctor and patients is a big issue in India.

Environmental, Health and Safety matters

We are subject to Indian laws and regulations relating to the protection of the environment, human health and safety, and laws and regulations relating to the handling, transportation and disposal of medical specimens, infectious and hazardous waste and radioactive materials. For details on such laws and regulations, see “*Key Regulations and Policies*” on page 139. Our employees are trained and provided with personal protective equipment while handling biological specimen and emphasis is also laid on adherence to national and local safety guidelines, including that of biomedical waste disposal.

We also encourage employees to be actively involved in occupational health and safety. All new employees receive quality, safety, and health and environment inductions. Potential hazardous conditions are identified and reported continuously through the alert process. This helps to ensure that potential hazards are immediately rectified and identify possible new risks that require remedy.

We take the following measures to align ourselves with applicable environmental, health and safety laws and regulations in India:

- **Mandatory training programs:** Newly joined employees receive trainings on fire safety, facility management safety, security/disaster management, radiation safety, basic life support, infection control, hand hygiene, needle-stick injury and biomedical waste management. In all these sessions, the requirements, donning, doffing and disposal of relevant personal protective equipment (such as TLD Badge - Thermoluminescent dosimeter, radiation jackets, gloves and masks) are covered in detail. Once a year, all employees have to undertake online refresher training on the aforementioned topics.
- **Department specific trainings:** Training is conducted to ensure that the core departmental team is aware of how to respond in specific events, e.g. rapid response team, fire drills and alert managements by call-centre employees.
- **Alerts to employees:** Event-based memos and guidelines are sent out to all employees via email, e.g. the guidelines we distributed relating to Covid-19 isolation/treatment, social distancing and mask norms.
- **Employees can raise incidents of negligence, non-compliances and other issues via an online “Incident Reporting”** which is available on our intranet.

Information Technology

We use latest Information Technology (“IT”) in our operations that support enterprise and departmental functions across all locations on aspects relating to patients, caregivers and administrative staff. Key IT applications used by us in our operations are as follows:

1. MedExpert (OPD)
2. Marg (Pharmacy)
3. ITDOSE (Pathology)
4. Tally (Accounts)

CORPORATE SOCIAL RESPONSIBILITY

We as a responsible corporate citizen are committed to take up different developmental projects, as part of our Corporate Social Responsibility (“CSR”) initiatives towards improving the quality of lives of the underprivileged sections of the society and other stakeholders. Our CSR strategies are aligned to national priorities to meet the basic needs of the local community. Our CSR policy defines the framework for implementing CSR activities in compliance with Section 135 of the Companies Act, 2013 and rules framed thereunder. The CSR committee has been constituted as per the applicable act. We demonstrate our commitment towards our communities by committing our resources and energies to social development and we have aligned our CSR programs with Indian legal requirements. In furtherance of the same, we endeavour undertake CSR activities such as, promotion of preventive healthcare, promoting employment enhancing vocational skills among citizens including children, women, elderly, differently abled persons, promoting livelihood enhancement projects, promoting setting up of homes for women and orphans, old age homes, day care centres and such other facilities for senior citizens, promotion of sporting activities, promotion education etc.

SALES, MARKETING AND BRANDING

Our marketing efforts are spearheaded by the intensive reach and connect already achieved by Dr. Pratim Sengupta both across social media platforms as well as by word-of-mouth publicity. Apart from the personal touch of Dr. Sengupta, our brand has achieved visibility and profile through our branding campaigns and awareness generation programmes across various platforms.

We work closely with digital media agencies to optimize our website and promote our digital outreach through social media such as Facebook, Twitter, Instagram and YouTube. We create awareness about the renal issues and their causes and symptoms through conferences and community outreach programmes.

One of our primary channels of marketing has always been positive word of mouth spread by our satisfied patients. In addition, several of our doctors are well-known in the industry and well recognized in their area of work and we believe

that the combination of so many well-known clinicians all working together has provided us with a powerful ‘pull factor’ from prospective patients. We have incorporated different marketing activities in order to make our presence more visible to the patients, like we conduct lots of medical camps, leafleting, awareness camps. Also, we do advertise through exploring radio, Banner and others printing media. We have recently launched Mr. Nephro Care, our Mascot to promote awareness on kidney disease.

Competition

The nature of our business is such that we have no direct competition from any player that has the range and coverage of services we offer. However, on the basis of the nature of services we may consider the following players as our indirect competitors:

- (a) Nephrocare Health Pvt. Ltd.
- (b) Asian Institute of Nephrology & Urology
- (c) Hospitals with Nephrology department

See “Risk Factors—Internal Risks— We face increased competition from other hospitals and if we are unable to compete strongly, our business may be affected.” on page 36.

INTELLECTUAL PROPERTY RIGHTS

Our business is reliant on our branding and intellectual property rights. Accordingly, we protect our intellectual property by obtaining appropriate registrations where it makes economic and business sense to do so. Our Company has the following registered trademarks:

KEY INDUSTRIAL REGULATIONS AND POLICIES

The following is an overview of certain sector specific laws and regulations in India which are applicable to the business and operations of our Company. The information of laws and regulations available in this section has been obtained from publications available in public domain and is based on the current provisions of Indian law, which are subject to change or modification by subsequent legislative actions, regulatory, administrative or judicial decisions. The description of laws and regulations set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. Judicial and administrative interpretations are subject to modification or clarification by subsequent legislative, judicial or administrative decisions.

Under the provisions of various Central Government and State Government statutes and legislations, our Company is required to obtain and regularly renew certain licenses or registrations and to seek statutory permissions to conduct our business and operations. For details, see “Government and Other Approvals” on page 225.

The following is an overview of some of the important laws and regulations, which are relevant to the business of our Company.

A. INDUSTRY RELATED LAWS AND REGULATIONS

The Clinical Establishments (Registration and Regulation) Act, 2010 (“CERR Act”) and the Clinical Establishments (Central Government) Rules 2012 (“CECG Rules”) and allied state legislation

The CERR Act is a central legislation and provides for registration and regulation of clinical establishments. It prescribes the minimum standards for facilities and services provided by clinical establishments. In terms of the Clinical Establishments Act, a ‘clinical establishment’ means, among other things, a hospital, maternity home, nursing home, dispensary, clinic, sanatorium or an institution by whatever name called that offers services requiring diagnosis, treatment or care for illness, injury, deformity, abnormality or pregnancy in any recognized system of medicine established and administered or maintained by any person or body of persons, whether incorporated or not. The CERR Act mandates the registration of a clinical establishment. Every clinical establishment shall obtain a certificate of provisional registration and thereafter, upon fulfilment of prescribed standards, a certificate of permanent registration from the district registering authority. Further, the council established at the national and state levels under the CERR Act is, *inter alia*, required to maintain registers and periodically review the minimum standards to be followed by the clinical establishments. The CECG Rules, *inter alia*, provide conditions for registration and continuation of clinical establishments. In terms of the CECG Rules, clinical establishments are required to charge rates for each type of procedures and services within the range of rates determined by the Central Government in consultation with the State Governments and display such rates for the benefit of the patients at a conspicuous place in a local language as well as in English. Clinical establishments are required to maintain electronic records of patients and statistics, in accordance with the CECG Rules.

Our hospital at Indore in the state of Madhya Pradesh is governed by the Madhya Pradesh Upcharyagriha Tatha Rujopchar Sambandhi Sthapnaye (Registrikaran Tatha Anugyapan) Adhiniyam, 1973 (“**MP Clinical Establishment Act**”). The MP Clinical Establishment Act has been enacted to regulate clinical establishments and nursing homes in the state of Madhya Pradesh. Any person intending to start or carry on a clinical establishment or nursing home is required to make an application, prior to the date of commencing such clinical establishment or nursing home with the relevant authority for an authorization.

The Preconception and Pre-Natal Diagnostic Techniques (Prohibition of Sex Selection) Act, 1994 (“PCPNDT Act”) and the Pre-Natal Diagnostic Techniques (Regulation and Prevention of Misuse) Act, 1994 (“PNDT Act”)

The PCPNDT Act and PNDT Act prohibits sex selection, before or after conception, regulates use of pre-natal diagnostic techniques for the purposes of detecting genetic abnormalities or metabolic disorders or chromosomal abnormalities or certain congenital malformations or sex-linked disorders and provides for prevention of their misuse for sex determination leading to female foeticide. The PCPNDT Act regulates the registration of genetic counselling centres, laboratories or clinics, and lays down conditions for performing pre-natal diagnostic techniques. The PCPNDT Act and PNDT Act mandates all genetic counselling centres, genetic clinics and genetic laboratories carrying out pre-natal diagnostic techniques, to register with the appropriate authority, failing which penal actions may be taken against them. Hospitals providing pre-natal diagnostic facilities fall within the purview of the PCPNDT Act. The central supervisory board constituted under the PCPNDT Act is authorised to lay down a code of conduct to be observed by persons working in any genetic counselling centre, genetic laboratory or genetic clinic. Appropriate authority appointed by Central Government and respective State Government are conferred powers *inter alia* to grant, suspend or cancel the registration certificate of a genetic counselling centre, laboratory or clinic. Further, the PCNDT Act and the PNDT Act prohibit

advertisements relating to pre-conception and pre-natal determination of sex and any violation is punishable with fine and imprisonment.

Preconception and Pre-Natal Diagnostic Techniques (Prohibition of Sex Selection) Rules, 1996 (“PCPNDT Rules”)

The PCPNDT Rules prescribe qualifications of employees, required equipment and places for a genetic counselling centre, laboratory and clinic. The PCPNDT Rules stipulate the format in which an application for registration should be made by such centre, laboratory or clinic before the appropriate authority appointed under the PCPNDT Act and lays down the manner in which records are to be maintained and preserved by such genetic counselling centre, genetic laboratory or genetic clinic. The PCPNDT Rules provide for code of conduct and conditions to be followed by owners, employees or any other persons associated with a genetic counselling centre, genetic laboratory and genetic clinic registered under the PCPNDT Act. The PCPNDT Rules further require every genetic counselling centre, laboratory and clinic to intimate every change of employee, address and equipment installed, to the appropriate authority within the time prescribed and preserve such information as permanent records.

The Medical Termination of Pregnancy Act, 1971 (“MTP Act”) and the Medical Termination of Pregnancy Rules, 2003 (“MTP Rules”)

The MTP Act regulates the termination of pregnancies by registered medical practitioners by using medical or surgical methods and permits such termination of pregnancies only on specific grounds. It stipulates that medical terminations of pregnancies can be carried out only in certain stipulated circumstances by a registered medical practitioner who has the necessary qualification, training and experience in performing such terminations and only at a place equipped with facilities that meet the prescribed standards issued under the MTP Act and if such place is approved for the purpose. Further, in March 2021, the Medical Termination of Pregnancy (Amendment) Act, 2021 was introduced, which, *inter alia*, expands the scope of circumstances under which a registered medical practitioner can terminate pregnancies and imposes an obligation on the medical practitioners to protect the privacy of women undergoing the stipulated treatment.

Under the MTP Rules, as amended in 2021, private clinics and hospitals can receive approval for such procedure only if the government is satisfied that termination of pregnancies will be done under safe and hygienic conditions, and such clinic or hospital has the requisite infrastructure and instruments in place.

The Transplantation of Human Organs and Tissues Act, 1994 (“Transplantation Act”) and the Transplantation of Human Organs and Tissues Rules, 2014 (“Transplantation Rules”)

The Transplantation Act, and the Transplantation Rules have been enacted to regulate the removal, storage, and transplantation of human organs and tissues for therapeutic purposes, and for the prevention of commercial dealings in human organs and tissues. The Transplantation Act prohibits the removal of any human organ except in situations provided therein. No hospital can provide services relating to the removal, storage or transplantation of any human organ or tissue or both for therapeutic purposes unless such hospital is duly registered under the Transplantation Act. Certificate of registration under the Transplantation Act and the Transplantation Rules are issued by appropriate bodies appointed by the State Government.

The Registration of Births and Deaths Act, 1969 (“RBD Act”)

Under the RBD Act, the medical officer of a hospital is required to notify births and deaths occurring in the hospital to the relevant registrar appointed thereunder. Further, with respect to deaths where the relevant State Government has required that a certificate as to the cause of death be obtained, in the event of the death of any person who, during his last illness, was attended by medical practitioner, the medical practitioner shall, after the death of that person, issue without charging any fee, a certificate in the prescribed form stating to the best of his knowledge and belief the cause of death, and such certificate shall be received and delivered by such person to the registrar at the time of giving information concerning the death as required.

The National Medical Commission Act, 2019 (“NMC Act”)

The NMC Act, 2019 provides for, among others, a medical education system that improves access to quality and affordable medical education, ensures availability of adequate and high quality medical professionals, encourages medical professionals to adopt latest medical research and enforces high ethical standards in medical services. The National Medical Commission, constituted under the NMC Act, is entrusted with the exercise of powers and functions under the NMC Act, including prescribing policies for quality medical education and for regulating medical institutions and professionals, and assessing healthcare requirements and developing a road map to meet such requirements. No person

other than a person who is enrolled in the state or national medical register shall be allowed to practice medicine as a qualified medical practitioner and doing so is punishable with a fine or imprisonment or both.

The Indian Nursing Council Act, 1947 (“Nursing Act”)

Under the Nursing Act, nurses, midwives or health visitors are required to hold recognized qualifications (as prescribed in the Nursing Act) for enrolment in the state register. Further, each state is entitled to establish a state council to regulate the registration of nurses, midwives or health visitors in the relevant state. The Nursing Act also empowers the executive committee of the Indian Nursing Council, constituted under the Nursing Act, to appoint inspectors to inspect any institution which is recognized as a training institution granting any recognized qualification or recognized higher qualification under the Nursing Act.

The Indian Medical Council (Professional Conduct, Etiquette and Ethics) Regulations, 2002 (“Ethics Regulations”)

The Ethics Regulations enforce numerous requirements on medical practitioners, including in relation to good practices, maintenance of medical records, duties of physicians to patients and to the paramedical profession, regulations on advertising and publicity and a framework for punishment and disciplinary action for misconduct and violation of the Ethics Regulations. Oversight and enforcement of the Ethics Regulations have been conferred upon the relevant medical councils. If, upon enquiry, a medical practitioner is found guilty of violating norms prescribed in the Ethics Regulations, the appropriate medical council may award such punishment as deemed necessary, including a direction towards removal of such medical practitioner’s name from the medical registers (state and/or national level), either permanently or for a limited period.

Further, the Indian Medical Council (Professional Conduct, Etiquette and Ethics) (Amendment) Regulations, 2020, has enabled the practice of telemedicine, specifying that consultation through telemedicine by registered medical practitioners shall be permissible in accordance with the Telemedicine Practice Guidelines specified in the Ethics Regulations.

Epidemic Disease Act, 1897 (“ED Act”)

The ED Act is a central legislation that provides for the prevention of spread of a dangerous epidemic disease. It prescribes the powers of the State and Central Government to take special measures to prevent the spread of the epidemic including power to prescribe temporary regulations to be observed by the public.

The Atomic Energy Act, 1962 (“AE Act”)

The AE Act aims to ensure safe disposal of radioactive waste and secure public safety, including that of persons handling radioactive substances. The AE Act empowers the government of India to prohibit the manufacture, possession, use, and transfer, export and import, transport and disposal, of any radioactive substances without its written consent and requires any person to make periodical returns or other such statements as regards any prescribed substance in a person’s possession or control that can be a source of atomic energy. Persons violating certain provisions of the AE Act are liable for punishment with a fine or imprisonment, or both.

The Atomic Energy (Radiation Protection) Rules, 2004 (“Radiation Rules”)

Under the Radiation Rules, no person shall, without a license issued by the Atomic Energy Regulatory Board, establish a radiation installation for siting, design, construction, commissioning or operation. The Radiation Rules also require a license for a person to handle radioactive material or operate a radiation generating equipment. A registration will be required under the Radiation Rules for sources and practices associated with medical diagnostic x-ray equipment including therapy simulator and analytical x-ray equipment used for research.

The Atomic Energy (Safe Disposal of Radioactive Wastes) Rules, 1987 (“Radioactive Waste Rules”)

Under the Radioactive Waste Rules, an authorization is necessary for any person to dispose of radioactive waste, and the waste may only be disposed of in the terms of such authorization. A Radiological Safety Officer is required to be appointed to assist in the safe handling and disposal of radioactive waste. Further, records are required to be maintained of all disposals and handling of radioactive waste and the persons carrying it out.

The Radiation Surveillance Procedure for Medical Application of Radiation, 1989 (“Surveillance Procedures”)

The Surveillance Procedures seek to ensure that procedures and operations involving radiation installations, radiation equipment and radioactive materials are performed in conjunction with a pre-planned surveillance programme approved by the competent authority to ensure adequate protection. Any person desirous of handling any radioactive material or radiation equipment is required to obtain prior permission in the form of either a license or an authorization from the competent authority. The Surveillance Procedures prescribe the working conditions that are to be ensured at every medical radiation installation and provide safety guidelines regarding, *inter alia*, design safety of equipment, planning of radiation instalments, commissioning of radiation equipment or installations and isolation and disposal of radioactive effluents or damaged radioactive material.

The Safety Code for Medical Diagnostic X-Ray Equipment and Installations, 2001 (the “X-Ray Safety Code”)

The X-Ray Safety Code, issued by the AERB, governs radiation safety in design, installation and operation of X-ray generating equipment for medical diagnostic purposes. The X-Ray Safety Code stipulates that all medical X-ray machines are required to be operated in accordance with the requirements stipulated therein and that it is the responsibility of the owner or user of medical X-ray installation equipment to ensure compliance with the stipulated provisions. The X-Ray Safety Code mandates that only the medical X-ray machines approved by the AERB can be installed for use in compliance with the specific requirements of the X-Ray Safety Code, including in relation to location and layout.

The Safety Code for Nuclear Medicine Facilities, 2011 (“Nuclear Medicine Facilities Code”)

The Nuclear Medicine Facilities Code, issued by the AERB, governs the operations of a nuclear medicine facility from the setting up of such facility to its decommissioning. Nuclear medicine utilizes radio-pharmaceuticals to investigate disorders of anatomy, physiology and patho-physiology, for diagnosis or treatment of diseases or both. The Nuclear Medicine Facilities Code stipulates that a nuclear medicine facility can be commissioned, decommissioned or re-commissioned only with the prior approval of the AERB. The Nuclear Medicine Facilities Code further stipulates that radioactive material can only be procured after obtaining a license from the AERB. In addition to this, the Nuclear Medicines Facilities Code stipulates the responsibilities of employers, licensees, nuclear medicine physicians and technologists.

Static and Mobile Pressure-Vessel (Unfired) Rules, 2016 (“SMV Rules”)

The SMV Rules, issued by the Central Government, regulates the use, storage, installation, transportation, filing, manufacture, delivery, dispatch and import of liquified gas, cryogenic liquid, petroleum products, tanker, pressure vessels, flammable, and compressed gas in India. The SMV Rules lays down sanctions on registration and operation of premises dealing with the substances and prescribes procedure for grant of recognition for operation of licensed premises. The SMV Rules also stipulates regulatory standards for storage of compressed gas to minimise unauthorised usage and prevent industrial accidents.

The Guidelines for Exchange of Human Biological Material for Biomedical Research Purposes, 1997 (“HBM Guidelines”)

The HBM Guidelines, issued by the Central Government, lay down the manner in which human material with potential for use in biomedical research/ diagnostic purposes (including organs, cells, tissues, blood, and embryos) can be transferred to and from India and the mechanism to enable such transfers. The HBM Guidelines authorize the Indian Council of Medical Research (“ICMR”) to set up a committee for consideration of proposals relating to, *inter alia*, exchange of biological materials for commercial purposes.

Indian Council of Medical Research Regulations – ICMR Guidelines for Good Clinical Laboratory Practices, 2021 (“GCLP”)

The GCLP are guidelines provided by the Indian Council of Medical Research with the objective of promoting uniformity in maintaining quality of laboratory services, the first GCLP guidelines were released in the year 2008.

GCLP 2021 aims to establish minimum criteria which should be followed by clinical and research laboratories involved in examining human samples, in routine healthcare delivery and clinical research, respectively. The GCLP 2021 provides guidelines with regards to (i) infrastructure; (ii) personnel training; (iii) equipment; (iv) examination processes; (v) sample storage and disposal; (vi) safety and hygiene measure; (vii) ethical considerations; and (viii) quality control and management.

Indian Council of Medical Research (“ICMR”) Guidelines for COVID-19 testing private laboratories in India (“ICMR Guidelines”)

The guidelines laid down by ICMR for COVID-19 testing in private laboratories in India which was notified in the year 2020. The ICMR Guidelines stipulates that test to be conducted by a laboratory which has NABL accreditation for RT-PCR assay for RNA virus. The guidelines are with respect to (i) sample collection and testing guidelines (ii) reporting protocols (iii) policy for sample storage and destruction; (iv) policy for sample storage and destruction; and (v) cost of the test.

National Accreditation Board for Hospitals and Healthcare Providers (“NABH”)

NABH is a constituent board of the Quality Council of India, set up to establish and operate accreditation programme for healthcare organisations. The board is structured to cater to much desired needs of the consumers and to set benchmarks for progress of health industry. The board while being supported by all stakeholders including industry, consumers, government, have full functional autonomy in its operation. NABH offers a certification programme for laboratories that conduct biological, microbiological, immunological, chemical, haematological, pathological, cytological or other examination of materials derived from the human body for the purpose of providing information for the diagnosis, prevention and treatment of disease.

National Accreditation Board for Testing and Calibration Laboratories (“NABL”)

The NABL is an autonomous body established under the aegis of Department of Science and Technology, Government of India. NABL provides government, regulators and the diagnostic industry with a scheme of laboratory accreditation through third-party assessment for formally recognizing the quality and technical competence of the testing and calibration of laboratories in accordance with International Organisation for Standardization Standards. NABL certification is a mandatory eligibility condition for diagnostic centres empanelment under the Central Government Health Scheme. Diagnostic laboratories which are not accredited by NABL may also participate in application and get empanelled under the Central Government Health Scheme but their empanelment shall be provisional till they are inspected by Quality Council of India or NABL and are recommended for continuation of empanelment under the Central Government Health Scheme; however, there is no legal obligation to obtain certification from the NABL.

Central Government Health Scheme (“CGHS”) and Ex-servicemen Contributory Health Scheme (“ECHS”)

The CGHS Scheme seeks to provide medical care to the Central Government employees and pensioners enrolled under the scheme. This scheme covers identified categories of Central Government employees in cities covered by the CGHS. Eligible employees and their dependents who have been duly enrolled to the CGHS can avail cashless treatment for procedures covered by the CGHS, which include procedures under allopathic, homoeopathic and Indian streams of medicine.

The ECHS was launched by the Ministry of Defence, Government of India and has been in effect since April 1, 2003. The ECHS provides for medical treatment of ex-servicemen pensioners and their dependents. Under the ECHS, private hospitals, nursing homes and diagnostic centres are empanelled for the provision of healthcare coverage to ECHS beneficiaries. Our facilities are also empanelled with other various Central Government and State Government operated health schemes including, inter alia, the Ayushman Bharat Yojana (Pradhan Mantri Jan Arogya Yojana). An update to the ECHS was issued in March, 2022 by Director General Medical Services, Indian Navy whereby scope of ECHS facilities were enhanced along with empanelment of more hospitals.

The Food Safety and Standards Act, 2006 (“FSSA”)

The FSSA was enacted on August 23, 2006 by the Central Government, repealing and replacing the Prevention of Food Adulteration Act, 1954. The FSSA pursues to consolidate the laws relating to food and establish the Food Safety and Standards Authority of India (“FSSAI”) for laying down scientific standards for articles of food and to regulate their manufacture, storage, distribution, sale and import to ensure availability of safe and wholesome food for human consumption, and for matters connected therewith or incidental thereto. The standards prescribed by the FSSAI include specifications for food additives, flavourings, processing aids and materials in contact with food, ingredients, contaminants, pesticide residue, biological hazards and labels. Under the provisions of the FSSA, no person may carry on any food business except under a license granted by the FSSAI. The FSSA sets forth the requirements for licensing and registering food businesses in addition to laying down the general principles for safety, responsibilities and liabilities of food business operators.

Key legislations relating to drugs:

The Drugs and Cosmetics Act, 1940 (“Drugs Act”) and the Drugs and Cosmetics Rules, 1945 (“Drugs Rules”) and the New Drugs and Clinical Trials Rules, 2019 (“Clinical Trials Rules”)

The Drugs Act regulates the import, manufacture, distribution and sale of drugs and prohibits the manufacture and sale of drugs which are misbranded, adulterated or spurious. The Drugs Act and the Drugs Rules specify the conditions for grant of a license for the manufacture, sale, import or distribution of any drug or cosmetic and regulation of operation of blood banks. It further mandates that every person holding a license must keep and maintain such records, registers and other documents as may be prescribed which may be subject to inspection by the relevant authorities. Violation of certain provisions of the Drugs Act, including those pertaining to the manufacturing and import of spurious drugs, non-disclosure of specified information and a failure to keep the required documents, are punishable with a fine, or imprisonment or both.

Further, under the Clinical Trials Rules, the ethics committee constituted thereunder is required to register itself with the central licensing authority in order to conduct any clinical trial, bioavailability study or bioequivalence study. The Clinical Trials Rules further provide for the composition and functions of the ethics committee and its period of validity. The Clinical Trials Rules further mandate the maintenance of records for a period of five years after completion of the clinical trial, bioavailability study or bioequivalence study, as the case may be.

The Drugs (Prices Control) Order, 2013 (“DPCO”)

Formulated pursuant to the Essential Commodities Act, 1955, the DPCO, among others, sets out procedures for fixing the ceiling price of scheduled formulations of specified strengths or dosages, retail price of new drugs for existing manufacturers of scheduled formulations, method of implementation of prices fixed by government and penalties for contravention of its provisions. The DPCO also authorizes the government to prescribe a ceiling price for formulations listed in the National List of Essential Medicines, 2015 published by the Ministry of Health and Family Welfare and modified from time to time. Further, where an existing manufacturer of a drug with dosages and strengths as specified in the National List of Essential Medicines, 2015 launches a new drug, it must seek prior price approval of such drug from the government. The Drugs (Prices Control) Amendment Order, 2022 which was passed on November 14, 2022, has updated the National List of Essential Medicines mentioned in Schedule I of the DPCO.

The Pharmacy Act, 1948 and the Pharmacy Practice Regulations, 2015

Under the Pharmacy Act, 1948, which seeks to regulate the profession of pharmacy, pharmacists are required to be registered with the Pharmacy Council of India. The Pharmacy Practice Regulations, 2015 impose certain obligations on the owners of pharmacy businesses and registered pharmacists. For instance, names of the owner and the registered pharmacist must be mandatorily displayed in the premises where the business is being carried on and the pharmacy business should be conducted in compliance with the various conditions stipulated thereunder. Under the Pharmacy Act, 1948, if pharmacists falsely claim to be registered, or dispense medicines without being registered, they are punishable with fine or imprisonment or both.

The Narcotic Drugs and Psychotropic Substances Act, 1985 (“NDPS Act”) and the Narcotic Drugs and Psychotropic Substances Rules, 1985 (“NDPS Rules”) and Maharashtra Narcotic & Psychotropic Substances Rules, 1985 (“MNPS Rules”)

The NDPS Act regulates the possession and use of drugs falling within the definition of “narcotic drug” and “psychotropic substances” and seeks to regulate operations relating to such substances. Under the NDPS Rules, a hospital will need to obtain recognition as a medical institution from the relevant authority, to deal with substances regulated thereunder. The recognition will also provide for the quantity of drugs allowed thereunder and the conditions subject to which the hospital is permitted to possess and administer narcotic drugs. The NDPS Act also provides for penalties for contravention, which includes imprisonment and fine. The MNPS Rules applies to the state of Maharashtra and imposes certain restrictions to regulate the manufacture, trade, sale, transport, and possession of drugs falling within the definition of “narcotic drug” and “psychotropic substances”, as defined under the NDPS Act.

Environment (Protection) Act, 1986 (the “EP Act”), Environment (Protection) Rules, 1986 (the “EP Rules”) and Environmental Impact Assessment Notification, 2006 (“EIA Notification”)

The EP Act has been enacted for the protection and improvement of the environment. EP Act empowers the government to take all measures to protect and improve the quality of environment, such as by laying down standards for emission and discharge of environmental pollutants. It is in the form of an umbrella legislation designed to provide a framework for Central Government to coordinate the activities of various central and state authorities established under previous laws. It is also in the form of an enabling law, which delegates wide powers to the executive to enable bureaucrats to frame necessary rules and regulations. Further, the EP Rules specify, *inter alia*, the standards for emission or discharge of environmental pollutants and restrictions on the handling of hazardous substances in different areas. For contravention of any of the provisions of the EP Act or the rules framed thereunder, the punishment includes either imprisonment or fine or both. Additionally, under the EIA Notification and its subsequent amendments, projects are required to mandatorily obtain environmental clearance from the concerned authorities depending on the potential impact on human health and resources.

Air (Prevention and Control of Pollution) Act, 1981(the “Air Act”) and Air (Prevention and Control of Pollution) Rules, 1982 (“Air Rules”)

The Air Act was enacted to provide for the prevention, control and abatement of air pollution in India. It is a specialised piece of legislation which was enacted to take appropriate steps for the preservation of natural resources of the earth, which among other things include the preservation of the quality of air and control of air pollution. We are required to obtain consents under the Air Act.

Water (Prevention and Control of Pollution) Act, 1974 (the “Water Act”) and Water (Prevention and Control of Pollution) Board, 1975 (“Water Rules”)

The Water Act was enacted to control and prevent water pollution and for maintaining or restoring of wholesomeness of water in the country. The Water Act was enacted to control and prevent water pollution and for maintaining or restoring the purity of water in India. The objective of this legislation is to ensure that domestic and industrial pollutants are not discharged into streams and wells without adequate treatment. We are required to obtain consents under the Water Act.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the “Hazardous Waste Rules”), as amended by the Hazardous and Other Wastes (Management and Transboundary Movement) Amendment Rules, 2022 (“Amendment Rules”)

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. A list of hazardous wastes and processes that generate hazardous waste have been specified under the Hazardous Waste Rules. We are required to obtain authorizations for, *inter alia*, the generation, processing, treatment, package, storage, transportation, use, collection, destruction or transfer of the hazardous waste from the concerned state pollution control board.

The Bio-Medical Waste Management Rules, 2016 (“BMW Rules”)

The BMW Rules apply to all persons who generate, collect, receive, store, transport, treat, dispose or handle bio- medical waste in any form including hospitals, nursing homes and clinics. We are required to obtain an authorization under the BMW Rules for the generation of bio-medical waste to ensure that such waste is handled without any adverse effect to human health and the environment and to set up bio–medical waste treatment facilities as prescribed under the BMW Rules, including pre-treating laboratory and microbiological waste, and proving training to health care workers and others involved in handling bio-medical waste. We are also required to submit an annual report to the prescribed authority and also to maintain records related to the generation, collection, storage, transportation, treatment, disposal, and/ or any form of handling of biomedical waste in accordance with the BMW Rules and the guidelines issued thereunder. The prescribed authority may cancel, suspend or refuse to renew an authorization, if for reasons to be recorded in writing, the occupier/operator has failed to comply with any of the provisions of EP Act or BMW Rules.

The various labour and employment related legislation that may apply to our operations, from the perspective of protecting the workers’ rights and specifying registration, reporting and other compliances, and the requirements that may apply to us as an employer, would include, among others, the following: (i) Contract Labour (Regulation and Abolition) Act, 1970; (ii) Relevant state specific shops and commercial establishment legislations; (iii) Employees’ Provident Funds and Miscellaneous Provisions Act, 1952; (iv) Employees’ State Insurance Act, 1948; (v) Minimum Wages Act, 1948; (vi) Payment of Bonus Act, 1965; (vii) Payment of Gratuity Act, 1972; (viii) Payment of Wages Act, 1936; (ix) Maternity

Benefit Act, 1961; (x) Apprenticeship Act, 1961; (xi) Equal Remuneration Act, 1976; (xii) Employees' Compensation Act, 1923; and (xiii) Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.

In order to rationalize and reform labour laws in India, the Government has enacted the following codes, which will be brought into force on a date to be notified by the Central Government:

Code on Wages, 2019

The Code on Wages regulates and amalgamates wage and bonus payments and subsumes four existing laws namely – the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. It regulates, *inter alia*, the minimum wages payable to employees, the manner of payment and calculation of wages and the payment of bonus to employees. The Central Government has notified certain provisions of the Code on Wages, mainly in relation to the constitution of the central advisory board.

Code on Social Security, 2020

The Code on Social Security amends and consolidates laws relating to social security, and subsumes various social security related legislations, *inter alia* including the Employee's State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, Building and Other Construction Worker's Welfare Cess Act, 1996 and the Payment of Gratuity Act, 1972. It governs the constitution and functioning of social security organisations such as the Employee's Provident Fund Organisation and the Employee's State Insurance Corporation, regulates the payment of gratuity, the provision of maternity benefits and compensation in the event of accidents that employees may suffer, among others.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code consolidates and amends the laws regulating the occupational safety and health and working conditions of the persons employed in an establishment. It replaces 13 old central labour laws including the Factories Act, 1948, Contract Labour (Regulation and Abolition) Act, 1970, the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979.

Other applicable legislations:

The Trade Marks Act, 1999 ("Trademarks Act")

The Trademarks Act provides for application and registration of trademarks in India. It also provides for exclusive rights to marks such as device, brand, heading, label, ticket, name, signature, word, letter, numeral, or combination of colours or any combination thereof, and to obtain relief in case of infringement for commercial purposes as a trade description. The Trademarks Act prohibits registration of trademarks on grounds of being, *inter alia*, deceptively similar to other marks or being devoid of any distinctive character.

The Consumer Protection Act, 2019 ("COPRA, 2019")

The COPRA, 2019 provides for establishment of a Central Consumer Protection Authority to regulate, among other things, matters relating to violation of rights of consumers, unfair trade practices and false or misleading advertisements which are prejudicial to the interests of public and consumers. The key features of the COPRA, 2019 include wider definition of "consumer", flexibility in e-filing complaints, imposition of product liability and product liability actions, wide definition of unfair trade practices, and provision for alternative dispute resolution. COPRA, 2019 provides for penalties for, among others, manufacturing for sale or storing, selling or distributing or importing products containing adulterants and for publishing false or misleading advertisements.

Information Technology (Reasonable security practices and procedures and sensitive personal data on information) Rules, 2011 ("IT Rules")

The IT Rules aim to protect sensitive personal data such as medical records and history which is collected by an individual or a person who is involved in commercial or professional activities. Further, the IT Rules pose an obligation on such persons to provide a privacy policy for handling of or dealing in sensitive personal data. Such policy should be made available for view to the providers of information and should also be published on the website of the persons collecting such information.

In addition to the above, our Company is also required to comply with other applicable laws and regulations imposed by the Central and State Governments and other authorities for its day-to-day operations, including the Companies Act and rules framed thereunder, municipal laws, fire safety laws and legal metrology laws, to the extent applicable. Our Company is also amenable to various central and state tax laws.

B. TAX LAWS

In addition to the aforementioned material legislations which are applicable to our Company, some of the tax legislations that may be applicable to the operations of our Company include:

- Income-tax Act 1961, the Income-tax Rules, 1962, as amended by the Finance Act in respective years;
- Central Goods and Services Tax Act, 2017, the Central Goods and Services Tax Rules, 2017 and various state-wise legislations made thereunder;
- The Integrated Goods and Services Tax Act, 2017 and rules thereof;
- Professional tax-related state-wise legislations;
- Indian Stamp Act, 1899 and various state-wise legislations made thereunder; and

C. ENVIRONMENTAL LAWS

The Environment (Protection) Act, 1986 (“EPA”)

The EPA has been enacted for the protection and improvement of the environment. It stipulates that no person carrying on any industry, operation or process shall discharge or emit or permit the discharge or emission of any environmental pollutant in excess of such standards as may be prescribed. Further, no person shall handle or cause to be handled any hazardous substance except in accordance with such procedure and after complying with such safeguards as may be prescribed. EPA empowers the Central Government to take all measures necessary to protect and improve the environment such as laying down standards for emission or discharge of pollutants, providing for restrictions regarding areas where industries may operate and generally to curb environmental pollution.

Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”)

The Water Act aims to prevent and control water pollution and to maintain or restore wholesomeness of water. The Water Act provides for one central pollution control board, as well as state pollution control boards, to be formed to implement its provisions, including enforcement of standards for factories discharging pollutants into water bodies. Any person intending to establish any industry, operation or process or any treatment and disposal system likely to discharge sewage or other pollution into a water body, is required to obtain the consent of the relevant state pollution control board by making an application.

Air (Prevention and Control of Pollution) Act, 1981 (“Air Act”)

The Air Act aims to prevent, control and abate air pollution, and stipulates that no person shall, without prior consent of the relevant state pollution control board, establish or operate any industrial plant which emits air pollutants in an air pollution control area. Such person also cannot discharge or cause or permit to be discharged the emission of any air pollutant in excess of the standards laid down by the State Boards. The central pollution control board and the state pollution control boards constituted under the Water Act perform similar functions under the Air Act as well. Pursuant to the provisions of the Air Act, any person establishing or operating any industrial plant within an air pollution control area, must obtain the consent of the relevant state pollution control board prior to establishing or operating such industrial plant.

Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (“Hazardous Waste Rules”) as amended by the Hazardous and Other Wastes (Management and Transboundary Movement) Amendment Rules, 2022

The Hazardous Waste Rules regulate the management, treatment, storage and disposal of hazardous waste by imposing an obligation on every occupier and operator of a facility generating hazardous waste to dispose of such waste without harming the environment. The term “hazardous waste” has been defined in the Hazardous Waste Rules and any person who has, control over the affairs of the factory or the premises or any person in possession of the hazardous waste has been defined as an “occupier”. Every occupier and operator of a facility generating hazardous waste must obtain authorization from the relevant state pollution control board. Further, the occupier, importer or exporter is liable for damages caused to the environment resulting from the improper handling and disposal of hazardous waste and must pay any financial penalty that may be levied by the respective state pollution control board.

D. LABOUR LAW LEGISLATIONS

In order to rationalize and reform labour laws in India, the Government of India has notified four labour codes which are yet to come into force as on the date of this Red Herring Prospectus, namely, (i) the Code on Wages, 2019 which will repeal the Payment of Bonus Act, 1965, Minimum Wages Act, 1948, Equal Remuneration Act, 1976 and the Payment of Wages Act, 1936, (ii) the Industrial Relations Code, 2020 which will repeal the Trade Unions Act, 1926, Industrial Employment (Standing Orders) Act, 1946 and Industrial Disputes Act, 1947, (iii) the Code on Social Security, 2020 which will repeal certain enactments including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, Maternity Benefit Act, 1961, Employment Exchanges (Compulsory Notification of Vacancies) Act, 1959 and the Payment of Gratuity Act, 1972 and (iv) the Occupational Safety, Health and Working Conditions Code, 2020 which will repeal certain enactments including the Factories Act, 1948, Motor Transport Workers Act, 1961 and the Contract Labour (Regulation and Abolition) Act, 1970.

Certain portions of the Code on Wages, 2019 and Code on Social Security, 2020, have come into force upon notification by the Ministry of Labour and Employment. The remaining provisions of these codes shall become effective as and when notified by the Government of India. A brief summary of the aforementioned laws have been provided below:

The Code on Wages, 2019

The Code on Wages, 2019 received the assent of the President of India on August 8, 2019 and proposes to subsume four existing laws namely, the Payment of Wages Act, 1936, the Minimum Wages Act, 1948, the Payment of Bonus Act, 1965 and the Equal Remuneration Act, 1976. The Central Government has notified certain provisions of this code mainly in relation to the constitution of the advisory board.

The Occupational Safety, Health and Working Conditions Code, 2020

The Occupational Safety, Health and Working Conditions Code, 2020 received the assent of the President of India on September 28, 2020 and proposes to subsume certain existing legislations, including the Factories Act, 1948, the Contract Labour (Regulation and Abolition) Act, 1970, the Inter-State Migrant Workmen (Regulation of Employment and Conditions of Service) Act, 1979 and the Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996. The provisions of this code will be brought into force on a date to be notified by the Central Government.

The Industrial Relations Code, 2020

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the Central Government.

The Code on Social Security, 2020

The Code on Social Security, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume certain existing legislations including the Employee's Compensation Act, 1923, the Employees' State Insurance Act, 1948, the Employees' Provident Funds and Miscellaneous Provisions Act, 1952, the Maternity Benefit Act, 1961, the Payment of Gratuity Act, 1972, the Building and Other Construction Workers' Welfare Cess Act, 1996 and the Unorganised Workers' Social Security Act, 2008. The Central Government has notified certain provisions of this code.

Industrial Employment (Standing Orders) Act, 1946

In order to strengthen the bargaining powers of the workers this act is enacted, it requires the employers to formally define the working conditions to the employee. As per this act, an employer is required to submit five copies of standing orders required by him for adoption of his industrial establishment. An employer failing to submit the standing orders as required by this act shall be liable to pay fine as per section 13 of this act.

Contract Labour (Regulation and Abolition) Act, 1970, as amended (the “CLRA Act”)

The CLRA Act requires the principal employer of an establishment in which twenty or more workmen are employed or were employed on any day of the preceding twelve months as contract labour, to make an application to the concerned officer for registration of the establishment. In the absence of registration, contract labour cannot be employed in the establishment. Likewise, every contractor who employs or who employed on any day of the preceding twelve months twenty or more workmen, is required to obtain a license and not to undertake or execute any work through contract labour except under and in accordance with the license issued. The CLRA Act imposes certain obligations on the contractor in relation to establishment of canteens, rest rooms, drinking water, washing facilities, first aid, other facilities and payment of wages. However, in the event the contractor fails to provide these amenities, the principal employer is under an obligation to provide these facilities within a prescribed time period. Penalties, including both fines and imprisonment, may be levied for contravention of the provisions of the CLRA Act.

Employees State Insurance Act, 1948, as amended (the “ESIC Act”)

The ESI Act, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers. Employees (Provident Fund and Miscellaneous Provisions) Act, 1952, as amended (the “EPF Act”) The EPF Act applies to factories employing over 20 employees and such other establishments and industrial undertakings as notified by the GoI from time to time. It requires all such establishments to be registered with the state provident fund commissioner and requires such employers and their employees to contribute in equal proportion to the employees’ provident fund the prescribed percentage of basic wages and dearness and other allowances payable to employees. The EPF Act also requires the employer to maintain registers and submit a monthly return to the State provident fund commissioner.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“Act”) and the schemes formulated there under (“Schemes”)

This Act provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- i. ***The Employees Provident Fund Scheme:*** As per this Scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- ii. ***The Employees Pension Scheme:*** Employees’ Pension Scheme is Pension Scheme for survivors, old aged and disabled persons. This Scheme derives its financial resource by partial diversion from the Provident Fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33 per cent of the employee’s pay shall be remitted by the employer to the Employees’ Pension fund within 15 days of the close of every month by a separate bank draft or cheque on account of the Employees’ Pension Fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the Act. The Central Government shall also contribute at the rate of 1.16 per cent of the pay of the members of the Employees’ Pension Scheme and credit the contribution to the Employees’ Pension Fund.
- iii. ***The Employees Deposit Linked Insurance Scheme:*** As per this Scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the Act, to the Insurance Fund within 15 days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the Act.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”) provides for the protection of women at workplace and prevention of sexual harassment at workplace. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct

of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to constitute an Internal Complaints Committee, which shall always be presided upon by a woman.

(referred as “Restated Financial Information”)

The Restated Financial Information has been prepared by the management as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended (‘ICDR Regulations’) issued by the Securities and Exchange Board of India (‘SEBI’) in pursuance of the Securities and Exchange Board of India Act,1992 for the purpose of inclusion in the Draft Red Herring Prospectus (‘DRHP or Offering Document’) in connection with the proposed Initial Public Offering (‘IPO’) of equity shares of Rs. 10 each of the Company in terms of requirement of:

I. Section 26 and 32 of Part I of Chapter III to the Companies Act, 2013 (“the Act”) read with Companies (Prospectus and Allotment of Securities) Rules 2014;

II. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018 (“**ICDR Regulations**”) issued by the Securities and Exchange Board of India (“**SEBI**”)

III. The Guidance Note on Reports in Company Prospectus (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended from time to time (“Guidance Note”).

The restated financial information is compiled from IGAAP for the years ended 31 March 2023, 31 March 2022 and 31 March 2021 and nine months ended 31 December 2023

2. Basis of Preparation:

a) The financial statements are prepared and presented under the historical cost convention on accrual basis of accounting in accordance with generally accepted accounting principles in India (“Indian GAAP”) and comply in all material respects with the mandatory Accounting Standards (“AS”) prescribed under Section 133 of the Companies Act, 2013 (“the Act”) read with (the Companies (Accounting Standards) Rules, 2021, and with the relevant provisions of the Act and pronouncements of the Institute of Chartered Accountants of India (“ICAI”). The accounting policies have been consistently applied by the Company and are consistent with those used in the previous year.

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in Schedule III to the Act. Based on the nature of the work, the Company has ascertained its operating cycle as up to twelve months for the purpose of current and non -current classification of assets and liabilities.

b) Functional and Presentation Currency

The Financial Statements have been prepared in Indian Rupees (INR), which is also the Company’s functional currency. The Financial Statements have been rounded off to nearest lacs up to two places of decimals, unless otherwise stated

3. Use of Estimates and Judgements:

The preparation of financial statements is in conformity with generally accepted accounting principles, which requires the management of the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of liabilities at the date of the financial statements and the results of operations during the reporting periods. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from those estimates. Estimate and assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which estimate is revised and future periods affected.

Critical accounting judgements and key sources of estimation uncertainty: Key assumptions:

a) Useful lives of depreciable and amortisable assets: -

The company reviews the estimated useful lives of depreciable or amortisable assets at each reporting period, based its expected utility of those assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain items of property, plant and equipment.

b) Inventories: -

The company estimates the net realisable value (NRV) of its inventories by taking into account estimated selling price, estimated cost of completion, estimated costs necessary to make the sale, obsolescence considering past trend. Inventories are written done to NRV when such NRV is lower than their cost.

c) Recognition and measurement of provisions, liabilities and contingencies: -

Provision and liabilities are recognized in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can be reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change.

Contingencies in the normal course may be arise from litigation and other claims. Potential liabilities that are possible but not probable of crystalizing or are very difficult to quantify reliably are treated as contingent liabilities. Such liabilities are disclosed in the notes to accounts but are not recognized.

d) Income Taxes: -

The Company's tax jurisdiction is India. Significant judgements are involved in determining the provisions for income taxes including amount expected to be paid or recovered for uncertain tax positions.

e) Defined benefit obligations: -

The present value of defined benefit obligation which includes gratuity is determined using actuarial valuations using projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to changes in assumptions. All assumptions are reviewed at each reporting date.

4. Significant Accounting Policies:

Overall Considerations: -

The financial information has been prepared using significant accounting policies and measurement basis as summarised below: -.

a) Cash Flow Statement: -

Cash Flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of the transactions of non-cash nature, any deferrals or accruals past or future operating cash receipts or payments and any items of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities

b) Property, Plant and Equipment and Intangible Assets: -

Property, plant and equipment (“PPE”) are stated at cost, net of depreciation. The cost of an asset comprises its purchase price and any cost directly attributable for bringing the asset to its working condition and location for its intended use. Subsequent expenditures, if any, related to an item of PPE are added to its book value only if they increase the future benefits from existing asset beyond its previously assessed standard of performance.

The cost of property, plant and equipment not ready for its intended use at each reporting date are disclosed as capital work in progress. At the point when asset is operating at management intended use, the cost of construction is transferred to appropriate category of property, plant and equipment and depreciation commences.

Property, Plant and Equipment is derecognised on disposal or when no future benefits are expected for its use. Any gain or loss arising on derecognition of assets (calculated as the difference between the net disposal proceeds and the carrying amount of the assets) is recognised in other income/expenses in the statement of profit and loss in the year the asset is derecognised.

Depreciation and amortisation

Depreciation on Property, Plant and Equipment is determined using the Written Down Value on pro -rata basis based on the useful life of the asset as prescribed under Schedule II of the Companies Act, 2013

c) Taxation: -

Tax expense recognised in the Statement of Profit or Loss comprises the sum of the current tax and deferred tax.

i. Current Income Tax

Current tax is the amount of income tax determined to be payable in respect of taxable income for a period as per the provisions of the Income-tax Act, 1961 (“IT Act”). The Company account for tax credit in respect of Minimum Alternate Tax (“MAT”) in situations where the MAT payable is higher than tax payable under normal provisions of the IT Act and where there is a reasonable certainty of adjusting such credit in future years. The credit so availed is adjusted in future years when the tax under normal provisions is higher than MAT payable to the extent of the said difference.

ii. Deferred Tax

Deferred tax is the effect of timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are reviewed at each balance sheet date and recognised/derecognised only to the extent that there is reasonable/ virtual certainty, depending on the nature of the timing differences, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

d) Provisions, contingent liabilities and contingent assets: -

Provisions

A provision is recognised when there is a present obligation as a result of a past event and it is probable that an outflow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent Liabilities

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation but probably will not require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood on outflow of resources is remote, no provision or disclosure is made.

Contingent Assets

Contingent Assets are neither recognised nor disclosed. However, when realisation of the income is virtually certain, related asset is recognised.

Commitments

Commitments include the amount of the purchase order (net of advances) issued to the parties for completion of assets. Commitments are reviewed at each reporting period.

e) Revenue Recognition: -

The Company earns revenue primarily by providing income from OPD and sale of pharmaceutical products. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. When there is uncertainty on ultimate collectability, revenue recognition is postponed until such uncertainty is resolved

Income from OPD

It consists of activities for physical examinations, treatments and tests and other fees. The performance obligations for this stream of revenue include food & beverage, medical/clinical professional services and investigation

Pharmaceutical Products (Life Medicines)

Revenue from sale of pharmacy and pharmaceutical supplies is recognized at the point in time when control of the asset is transferred to the customer, generally on delivery of the pharmacy and pharmaceutical items. The Company collects goods and service tax (GST) on behalf of the government and, therefore, these are not economic benefits flowing to the Company and thus excluded from revenue. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates.

Interest Income

Interest income is recognised on time proportion basis taking into account the amount outstanding and interest rate applicable.

f) Inventories: -

Inventories comprises of pharmacy, drugs and consumables are valued at lower of cost or net realisable value. Cost includes cost of purchase, duties, taxes (other than those recoverable from tax authorities) and other cost bringing the inventories to their present location and condition.

Cost is determined First in First Out (FIFO) basis for medicine and other consumables

Net Realisable Value represents the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale

g) Employee Benefit Expenses: -

(a) Post Employee Benefits

Gratuity

Gratuity is a post-employment benefit and is a defined benefit plan. The liability recognised in the balance sheet represents the present value of the defined benefit obligation at the balance sheet date, less the fair value of plan assets (if any), together with adjustment for unrecognised actuarial gains or losses and past service cost. Independent actuaries using the Projected Unit Credit Method calculate the defined benefit obligation annually. Actuarial gains or losses arising from experience adjustments and changes in actuarial assumptions are credited or charged to the statement of profit and loss in the year in which such gains or losses arises.

Provident Fund

The Company contributes to the statutory provident fund of the Regional Provident Fund Commissioner, in accordance with the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 for its employees. The plan is a defined contribution plan and contribution paid or payable is recognised as an expense under the head 'Contribution to provident and other funds' in the period in which the employee renders services.

(b) Other long -term employment Benefits

Leave Salary

The Company also provides benefit of leave salary under which un-availed leave are allowed to be accumulated to be availed in future. The scheme is considered as a long-term benefit. The liability for compensated absences is determined in accordance with the rules of the Company and is based on actuarial valuations made on projected unit method at the balance sheet date.

h) Foreign Currency Transaction: -

The financial statements are presented in Indian Rupee (INR) which is the functional and presentation currency of the company. Foreign currency transactions are translated into the functional currency using the spot rates of

exchanges at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchange at the reporting date. Foreign exchange gain and losses resulting from the settlement of such transaction and from the translation of monetary assets and liabilities are generally recognised in profit and loss in the year which they arise

i) Earnings Per Share: -

Basic earnings per equity share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purposes of diluted earnings per equity share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

j) Event after reporting date: -

Where the events occurring after the Balance Sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events adjusted within the financial statements. Otherwise, events after the Balance Sheet date of material size or nature are only disclosed

k) Segment Reporting: -

The Company identifies primary segments based on the dominant source, nature of risks and returns and the internal organisation and management structure. The operating segments are the segments for which separate financial information is available and for which operating profit/loss amounts are evaluated regularly by the executive Management in deciding how to allocate resources and in assessing performance. However the company is currently dealing in only one primary segment ie healthcare services

l) Borrowing Cost: -

Borrowing Cost includes interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur

m) Investments: -

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments. Current investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. Provision for diminution in value is made to recognise a decline other than temporary in the value of the long-term investments.

n) Cash and cash equivalents: -

Cash and cash equivalents comprise cash and deposit with banks. The Company considers all highly liquid investments at the time of purchase with a remaining maturity of three months or less and that are readily convertible to known amounts of cash to be cash equivalents.

o) Impairment: -

Management periodically assesses using external and internal sources where there is an indication that an asset may be impaired. Impairment occurs when the carrying value exceeds the present value of future cash flows expected to arise from the continuing use of the asset and its eventual disposal. The impairment loss to be recognised is determined as the excess of the carrying amount over the higher of asset's net selling price and present value as determined above. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is recorded only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined net of depreciation or amortization, if no impairment loss has been recognized.

p) Lease: -

Leases of assets under which significant risks and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under an operating lease are recognised as expense in the statement of profit and loss on a straight-line basis over the lease term.

Disclosure as required by Accounting Standard-15 Employee Benefits

Gratuity is a Post employment benefit and is a defined benefit plan. The liability recognized in the balance sheet represents the present value of the defined benefit obligation at the balance sheet date, less the fair value of plan assets (if any), together with adjustment for unrecognized actuarial gains or losses and past service cost. Independent actuaries using the Projected Unit Credit Method to calculate the defined benefit obligation annually. The assumptions used for actuarial valuation of liabilities towards gratuity are given below.

We are committed to providing the best medical care at an affordable cost to all our local, national and international patients.

Renal insufficiency and kidney diseases have become a major health issue in India. The Pradhan Mantri National Dialysis Program (PMNDP) Report²¹ notes that in India every year about 2.2 lakh new patients of End-Stage Renal Disease (ESRD) are added in India resulting in additional demand for 3.4 Crore dialysis every year. The high cost of dialysis care leads to financial hardship for practically all families with such patients.

Our vision is to reach out to the masses through a holistic approach combining modern medicine with time tested yogic wisdom to touch the lives of one million kidney disease patients across the country by leveraging our hub-and-spoke model.

Our clinics are equipped with technologically advanced equipment and diagnostic instruments. We have a wide spec of diagnostic facilities to provide our doctors freedom to explore all diagnostic possibilities and offer our patients a better service and care under one roof and to also ensure optimum clinical outcomes.

At present we provide healthcare services to around 900 Chronic Kidney Disease Patients (CKD Patient) every month and engage over 10 doctors led by experienced paramedical professionals from our flagship Salt Lake clinic with an area of 5,352 sq. ft. and three satellite clinics at Salt Lake (HB 113), Chandannagar (near Kolkata).

We have recently signed an agreement to take on lease an existing 60 bedded hospital at Madhyamgram, Kolkata and have embarked on a project to convert the same into a 100 bedded multispeciality hospital and a part of the IPO proceeds is proposed to be utilised for the said purpose.

SIGNIFICANT DEVELOPMENTS SUBSEQUENT TO THE LAST AUDITED FINANCIALS

After the date of last Audited accounts i.e. December 31, 2023, the Directors of our Company confirm that, there have not been any significant material developments.

FACTORS AFFECTING OUR RESULTS OF OPERATIONS

Our business is subjected to various risks and uncertainties, including those discussed in the section titled “*Risk Factor*” beginning on page 28 of this Red Herring Prospectus. Our results of operations and financial conditions are affected by numerous factors including the following:

- Our revenues are significantly dependent on our flagship Salt Lake clinic. Further, all our clinics are located in the Kolkata. Any impact on the revenues of our flagship Salt Lake clinic or any change in the economic or political circumstances of West Bengal or particularly in or around Kolkata, could materially affect our business, financial condition and results of operations.
- We are highly dependent on our healthcare professionals including doctors and nurses, and any future inability to attract/ retain such professionals will adversely affect our business, financial condition and results of operations.
- Our industry is highly regulated and requires us to obtain, renew and maintain statutory and regulatory permits, accreditations, licenses and comply with applicable safety, health, environmental, labour and other governmental regulations. Any regulatory changes or violations of such rules and regulations may adversely affect our business, financial condition and results of operations.
- We incur high expenses in relation to medical equipment cost, manpower cost, infrastructure maintenance and repair costs, ancillary items and pharmaceuticals. If we are unable to obtain favourable pricing from suppliers or negotiate compensation of our healthcare professionals effectively, it could affect our profitability. Any inability to pass on such costs to our patients, may have an adverse impact on our business, financial condition and results of operations.
- There can be no assurance that the objects of the Issue will be achieved within the time frame anticipated or at all, or that the deployment of the Net Proceeds in the manner intended by us will result in any increase in the value of your investment. Further, the plan for deployment of the Net Proceeds has not been appraised by any bank or financial institution.
- Changes, if any, in the regulations / regulatory framework / economic policies in India and / or in foreign countries, which we operate;
- ability to retain our skilled personnel
- Patient volumes and case mix;
- Our failure to keep pace with rapid changes in technology;
- Increase in the competition of our industry;
- Performance of Company’s competitors;
- Competition with existing and new entrants;
- Failure to comply with regulations prescribed by authorities of the jurisdictions in which we operate;
- Significant developments in India’s economic and fiscal policies; and
- Global distress due to pandemic, war or by any other reason

**December numbers are not comparable, so the % of increase or decrease and the % of total revenue are not provided.

Justification for increase in revenue and profitability during the period ended December 31, 2023, and for the year ended March 31, 2023, March 31, 2022 and March 31, 2021:

1. Revenue

- (a) From inception in 2014 till November 2021, Nephro Care's offerings were limited to dialysis and renal OPD services delivered through 3rd party facilities of hospitals like Sahid Khudiram Bose Hospital, Fleming Hospital and Dreamland Hospital. Hence, till November 2021, the company's earnings were limited to only the share of revenue agreed upon between the 3rd party facility owner and our company. In December 2021, our company set up our own daycare unit at JC-18, Salt Lake with facilities for offering a wide range of services.
- (b) Hence our revenues during FY22 (Rs. 342.44 lakhs) reflect the full-fledged operation of our JC-18 unit only for about 2 ½ months of FY22. Besides, disruptions caused by the Covid-19 pandemic between March 2020 and May 2022 in two waves and the subsequent prolonged economic recovery phase resulted in the erosion of patient base and loss of business.
- (c) During the subsequent financial year, i.e. FY23, we operated our flagship unit at JC-18, Salt Lake for the full year and leverage all our facilities in a more optimized manner and significantly expanded our scope of operation from only dialysis & renal OPD to a wider range of services that included dialysis, pathology, pharmacy, lifestyle support, non-lab investigation, diet advisory and general consultation accessed by an increased number of patients. Footfall generated by our new flagship was driven by the reputation and eminence of Dr. Pratim Sengupta, word of mouth publicity and marketing drive of the company. On account of the above reasons our revenue for FY23 rose to Rs. 1709.27 lakhs.
- (d) During the 9-month period ended 31st December, 2023, the revenue (Rs. 1975.14 lakhs) was driven mainly by the following factors:
 - We introduced several other services including lifestyle management programmes aimed at holistic wellness (Mukti) and home dialysis/home care;
 - We optimized the utilization of our existing facilities at our flagship unit at JC-18, Salt Lake in order to generate more income out of available resources;
 - We set up a satellite dialysis unit ("Dial-a-Dialysis") at HB-113 with 11 dialysis machines in June 2023. This added to our revenue stream for the 9-month period ended 31st Dec. 2023.
 - Patient footfall has increased also through extensive social media presence of Dr. Sengupta through his YouTube channel.
 - Extensive digital and physical marketing drives have also pushed up volumes during this period.

2. Profitability

- (a) During FY21 and for the first 9 ½ months of FY22 the profits were essentially a function we experienced significant business disruption on account of the Covid-19 pandemic and the long economic recovery phase that followed. During this time, our financial performance was impacted because overheads increased without any commensurate rise in revenue (esp. during FY22). Hence, while we earned a PAT of Rs. 8.87 lakhs during FY21 on account of reasons described above we ended up with a small loss of Rs. 0.98 lakhs during FY22.
- (b) However, during FY23, not only did the economy experience full recovery and bounce-back we also managed to utilize our facilities and resources at our flagship clinic more optimally. This resulted in higher margins (EBITDA margin increased from 3.67% in FY22 to 21.33% during FY23 and PAT margin increased from -.29% to 11.36%).
- (c) During the 9-month period ended 31st December, 2023 we further streamlined our operations, enhanced efficiency of service delivery besides expanding the scope of our operations. Besides, on account of tighter vendor management our company managed to bring down our cost of overheads. All of this resulted in higher margins during the period under review (EBITDA margin increased from 21.33% to 25.55% and PAT margin increased from 11.36% to 17.22%).

Detailed rationale for increase in PAT and PAT Margins during financial year 31st March 2023 to financial year March 31st, 2022.

Reason of increase PAT and PAT Margins are as follows:

Particulars	FY 23 (In lakhs)	FY 22 (In lakhs)
Revenue	1,709.27	342.44
PAT	194.24	(0.98)
PAT Margin	11.36%	-0.29%

During the Financial Year 2022 - the Revenue of the company was Rs 342.44 Lakhs against the company shown the Loss of Rs (0.98) Lakhs, due to business disruption on account of the Covid-19 pandemic and the long economic recovery phase that followed. During this time, our financial performance was impacted because overheads increased without any commensurate rise in revenue, this resulted in low margins during FY22 and PAT margin Decreased from 4.84% to -0.29%.

During the Financial Year 2023 - the company sales volume was Rs 1,709.27 lakhs, with a profit of Rs 194.24 lakhs, mainly due to the full recovery and bounce-back of the economy.

In FY 2022, the Patient count was 1,069. In FY 2023, this increased to 6,201 Patient, representing an increase of 5,132 Patient. This increase in the Patient count is in line with the increase in revenue for FY 2023. Consequently, the company's sales volume reached Rs 1,709.27 lakhs, resulting in a profit of Rs 194.24 lakhs. This led to higher margins during FY23, and the PAT margin increased from -0.29% to 11.36%.

Detailed rationale for increase in PAT and PAT Margins during Stub period, December 31st, 2023 to financial year March 31st, 2023

Reason of increase PAT and PAT Margins are as follows

Particulars	31-Dec-23 (In lakhs)	FY 23 (In lakhs)
Revenue	1,975.14	1,709.27
PAT	340.04	194.24
PAT Margin	17.09%	11.36%

Reason of increase PAT and PAT Margins are as follows:

During the 9-month period ended 31st December, 2023, the revenue Rs. 1975.14 lakhs were driven mainly by the following factors:

- We introduced several other services including lifestyle management programmes aimed at holistic wellness Mukti (Lifestyle Support Program) and home dialysis/home care;
- Number of Patient Consultations - 5652
- We optimized the utilization of our existing facilities at our flagship unit at JC-18, Salt Lake in order to generate more income out of available resources;
- We set up a satellite dialysis unit ("Dial-a-Dialysis") at HB-113 Salt Lake City, Kolkata 700106 with 11 dialysis machines in June 2023. This added to our revenue stream for the 9-month period ended 31st Dec. 2023.
- Patient footfall has increased also through extensive social media presence of Dr. Sengupta through his YouTube channel.

Besides that, during the stub period, our company also started selling pharmaceutical products to B2B customers, primarily pharmacies/medical stores and pharma distributors who have valid certificates of pharmacy practice. As a result, income from the sale of medicines to pharmacies increased from 450.55 lakhs in March 2023 to 689.69 lakhs in December 2023, a total incremental difference of 239.14 lakhs.

During the 9-month period ended 31st December, 2023 we further streamlined our operations, enhanced efficiency of service delivery besides expanding the scope of our operations by introduction of Mukti (Lifestyle Support Program) and home dialysis/home care. Besides, on account of tighter vendor management the company managed to bring down our cost of overheads. All of this resulted in higher margins during the period under review PAT margin increased from 11.36% to 17.09%.

Jurisdiction

Exclusive Jurisdiction for the purpose of this Issue is with the competent courts/authorities in India.

The Equity Share have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, —U.S. personal (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in off-shore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

Nomination Facility to Investor

In accordance with Section 72 of the Companies Act, 2013, the sole or first applicant, along with other joint applicant, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicant, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall in accordance with Section 72 of the Companies Act, 2013 be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at the Registered Office of our Company or to the Registrar and Transfer Agent of our Company.

In accordance with Section 72 of the Companies Act, 2013, any Person who becomes a nominee by virtue of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- To register himself or herself as the holder of the Equity Shares; or
- To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 (ninety) days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the allotment of Equity Shares in the Issue is in dematerialized form, there is no need to make a separate nomination with us. Nominations registered with the respective depository participant of the applicant would prevail. If the investors require changing the nomination, they are requested to inform their respective depository participant.

Restrictions, if any on Transfer and Transmission of Equity Shares

Except for the lock-in of the pre-Issue capital of our Company, Promoter's minimum contribution as provided under the chapter titled "*Capital Structure*" on page 63 of this Red Herring Prospectus and except as provided in the Articles of Association there are no restrictions on transfer of Equity Shares. While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and commencement of trading of the Equity Shares on the Stock Exchange are taken within six Working Days of the Bid/Issue Closing Date or such other period as may be prescribed by the SEBI, the timetable may be extended due to various factors, such as extension of the Bid/Issue Period by our Company in consultation with the BRLM, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchange. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchange and in accordance with the applicable laws.

The SEBI is in the process of streamlining and reducing the post Issue timeline for initial public offerings. Any circulars or notifications from the SEBI after the date of the Draft Red Herring Prospectus may result in changes to the above-mentioned timelines. Further, the Issue procedure is subject to change to any revised circulars issued by the SEBI to this effect.

The BRLM will be required to submit reports of compliance with listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

In terms of the UPI Circulars, in relation to the Issue, the BRLM will submit report of compliance with T+3 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

Submission of Bids

Bid/Issue Period (except the Bid/Issue Closing Date)

Submission and Revision in Bids: Only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time (“IST”))

Bid/Issue Closing Date

Submission and Revision in Bids: Only between 10.00 a.m. and 3.00 p.m. IST

On the Bid/Issue Closing Date, the Bids shall be uploaded until:

- i. 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- ii. until 5.00 p.m. IST or such extended time as permitted by the Stock Exchange, in case of Bids by Retail Individual Bidders.

On the Bid/Issue Closing Date, extension of time will be granted by the Stock Exchange only for uploading Bids received from Retail Individual Bidders after taking into account the total number of Bids received and as reported by the BRLM to the Stock Exchange.

The Registrar to the Issue shall submit the details of cancelled/ withdrawn/ deleted applications to the SCSBs on a daily basis within 60 minutes of the Bid closure time from the Bid/ Issue Opening Date till the Bid/ Issue Closing Date by obtaining the same from the Stock Exchanges. The SCSBs shall unblock such applications by the closing hours of the Working Day and submit the confirmation to the BRLM and the RTA on a daily basis.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs or not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Issue Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Issue Closing Date. Any time mentioned in this Red Herring Prospectus is Indian Standard Time. Bidders are cautioned that, in the event, large number of Bids are received on the Bid/Issue Closing Date, as is typically experienced in public offerings, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Issue. Bids will be accepted only during Monday to Friday (excluding any public holiday). None among our Company or any Member of the Syndicate shall be liable for any failure in (i) uploading the Bids due to faults in any software/ hardware system or blocking of application amount by the SCSBs on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book *vis-a-vis* data contained in the physical Bid cum Application Form, for a particular Bidder, the details of the Bid file received from the Stock Exchanges may be taken. Our Company in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in the Price Band shall not exceed 20% on either side, i.e. the Floor Price can move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“UPI”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“UPI Phase I”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI. The Issue has been undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022, has introduced certain additional measures for streamlining the process of initial public Issues and redressing investor grievances. This circular shall come into force for initial public Issues opening on or after May 1, 2021 and the provisions of this circular are deemed to form part of this Prospectus. Subsequently, SEBI vide its circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 modifying the process timelines and extending the implementation timelines for certain measures introduced by the March 16 Circular. Furthermore, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to ₹ 5,00,000/- shall use the UPI Mechanism.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 02, 2021, read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Our Company, the Promoter and the BRLM do not accept any responsibility for the completeness and accuracy of the information stated in this section and General Information Document and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus.

Further, our Company, the Promoter and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Issue.

Phased implementation of Unified Payments Interface

SEBI has issued UPI Circulars in relation to streamlining the process of public issue of equity shares and convertibles. Pursuant to the UPI Circulars, UPI has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI Mechanism, the UPI Circulars proposes to introduce and implement the UPI Mechanism in three phases in the following manner:

- a) Phase I: This phase was applicable from January 01, 2019 and lasted till June 30, 2019. Under this phase, a Retail Individual Bidder, besides the modes of Bidding available prior to the UPI Circulars, also had the option to submit the Bid cum Application Form with any of the intermediary and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.
- b) Phase II: This phase has commenced with effect from July 01, 2019 and will continue for a period of three months or floating of five main board public issues, whichever is later. Under this phase, submission of the Bid cum Application Form by a Retail Individual Investor through intermediaries to SCSBs for blocking of funds has been discontinued and has been replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice.
- c) Phase III: Subsequently, the time duration from public issue closure to listing would be reduced to be three Working Days.
- d) SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being issue closing date. The provisions of this circular shall be applicable, on voluntary basis for public issues opening on or after September

1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timeline provided under the aforementioned circular.

Pursuant to the UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. The Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the Retail Individual Bidders using the UPI.

The processing fees for applications made by Retail Individual Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks provide a written confirmation on compliance with SEBI Circular No: SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI Circular No: SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

As per the existing regulations, OCBs are not eligible to participate in this Issue. The RBI has however clarified in its circular, A.P. (DIR Series) Circular No. 44, dated December 8, 2003 that OCBs which are incorporated and are not under the adverse notice of the RBI are permitted to undertake fresh investments as 138 incorporated non- resident entities in terms of Regulation 5(1) of RBI Notification No.20/2000-RB dated May 3, 2000 under FDI Scheme with the prior approval of Government if the investment is through Government Route and with the prior approval of RBI if the investment is through Automatic Route on case by case basis. OCBs may invest in this Issue provided it obtains a prior approval from the RBI. On submission of such approval along with the Bid Cum Application Form, the OCB shall be eligible to be considered for share allocation.

MAXIMUM AND MINIMUM APPLICATION SIZE

1. For Retail Individual Bidders

The Application must be for a minimum of 1,600 Equity Shares and in multiples of 1,600 Equity Shares thereafter, so as to ensure that the Application Price payable by the Bidder does not exceed ₹ 2,00,000. In case of revision of Applications, the Retail Individual Bidders have to ensure that the Application Price does not exceed ₹ 2,00,000.

2. For Other than Retail Individual Bidders (Non-Institutional Applicants and QIBs):

The Application must be for a minimum of such number of Equity Shares that the Application Amount exceeds ₹ 2,00,000 and in multiples of 1,600 Equity Shares thereafter. An Application cannot be submitted for more than the Net Issue Size. However, the maximum Application by a QIB investor should not exceed the investment limits prescribed for them by applicable laws. Under existing SEBI Regulations, a QIB Bidder cannot withdraw its Application after the Issue Closing Date and is required to pay 100% QIB Margin upon submission of Application.

In case of revision in Applications, the Non-Institutional Bidders, who are individuals, have to ensure that the Application Amount is greater than ₹ 2,00,000 for being considered for allocation in the Non-Institutional Portion.

Bidders are advised to ensure that any single Application from them does not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or regulation or as specified in this Red Herring Prospectus.

The above information is given for the benefit of the Bidders. The Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the number of Equity Shares applied for do not exceed the applicable limits under laws or regulations.

METHOD OF BIDDING PROCESS

Our Company, in consultation with the BRLM has decided the Price Band between Rs. 85/- and 90/- and the minimum

Bid lot size i.e 1600 lots for the Issue and the same shall be advertised in all editions [●], an English national daily newspaper and all editions of [●], a Hindi national newspaper and all Bengali editions of [●], a regional language newspaper (Bengali, being the regional language of Kolkata, where our Registered Office is situated) each with wide circulation at least two Working Days prior to the Bid / Issue Opening Date. The BRLM and the SCSBs shall accept Bids from the Bidders during the Bid / Issue Period.

- a) The Bid / Issue Period shall be for a minimum of three Working Days and shall not exceed 10 Working Days. The Bid/ Issue Period maybe extended, if required, by an additional three Working Days, subject to the total Bid/ Issue Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid / Issue Period, if applicable, will be published in all editions [●], an English national daily newspaper and all editions of [●], a Hindi national newspaper and all Bengali editions of [●], a regional language newspaper (Bengali, being the regional language of Kolkata, where our Registered Office is situated) each with wide circulation and also by indicating the change on the website of the Book Running Lead Manager.
- b) Each Bid cum Application Form will give the Bidder the choice to Bid for up to three optional prices (for details refer to the paragraph titled “Bids at Different Price Levels and Revision of Bids” below) within the Price Band and specify the demand (i.e., the number of Equity Shares Bid for) in each option. The price and demand options submitted by the Bidder in the Bid cum Application Form will be treated as optional demands from the Bidder and will not be cumulated. After determination of the Issue Price, the maximum number of Equity Shares Bid for by a Bidder/Applicant at or above the Issue Price will be considered for allocation/Allotment and the rest of the Bid(s), irrespective of the Bid Amount, will become automatically invalid.
- c) The Bidder / Applicant cannot Bid through another Bid cum Application Form after Bids through one Bid cum Application Form have been submitted to a BRLM or the SCSBs. Submission of a second Bid cum Application Form to either the same or to another BRLM or SCSB will be treated as multiple Bid and is liable to be rejected either before entering the Bid into the electronic bidding system, or at any point of time prior to the allocation or Allotment of Equity Shares in this Issue. However, the Bidder can revise the Bid through the Revision Form, the procedure for which is detailed under the paragraph “Buildup of the Book and Revision of Bids”.
- d) The BRLM/the SCSBs will enter each Bid option into the electronic bidding system as a separate Bid and generate a Transaction Registration Slip, (“TRS”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three TRSs for each Bid cum Application Form.
- e) Upon receipt of the Bid cum Application Form, submitted whether in physical or electronic mode, the Designated Branch of the SCSB shall verify if sufficient funds equal to the Bid Amount are available in the ASBA Account, as mentioned in the Bid cum Application Form, prior to uploading such Bids with the Stock Exchange.
- f) If sufficient funds are not available in the ASBA Account, the Designated Branch of the SCSB shall reject such Bids and shall not upload such Bids with the Stock Exchange.
- g) If sufficient funds are available in the ASBA Account, the SCSB shall block an amount equivalent to the Bid Amount mentioned in the Bid cum Application Form and will enter each Bid option into the electronic bidding system as a separate Bid and generate a TRS for each price and demand option. The TRS shall be furnished to the ASBA Bidder on request.
- h) The Bid Amount shall remain blocked in the aforesaid ASBA Account until finalization of the Basis of Allotment and consequent transfer of the Bid Amount against the Allotted Equity Shares to the Public Issue Account, or until withdrawal/failure of the Issue or until withdrawal/rejection of the Bid cum Application Form, as the case may be. Once the Basis of Allotment is finalized, the Registrar to the Issue shall send an appropriate request to the SCSB for unblocking the relevant ASBA Accounts and for transferring the amount allocable to the successful Bidders to the Public Issue Account. In case of withdrawal/failure of the Issue, the blocked amount shall be unblocked on receipt of such information from the Registrar to the Issue.

BIDS AT DIFFERENT PRICE LEVELS AND REVISION OF BIDS

- a. Our Company in consultation with the BRLM, and without the prior approval of, or intimation, to the Bidders, reserves the right to revise the Price Band during the Bid/ Issue Period, provided that the Cap Price shall be less than or equal to 120% of the Floor Price and the Floor Price shall not be less than the face value of the Equity Shares. The revision in Price Band shall not exceed 20% on the either side i.e. the floor price can move up or down to the extent of 20% of the floor price disclosed. If the revised price band decided, falls within two different price bands than the minimum application lot size shall be decided based on the price band in which the higher price falls into.
- b. Our Company in consultation with the BRLM, will finalize the Issue Price within the Price Band, without the prior approval of, or intimation, to the Bidders.
- c. The Bidders can Bid at any price within the Price Band. The Bidder has to Bid for the desired number of Equity

Shares at a specific price. Retail Individual Bidders may Bid at the Cut-off Price. However, bidding at the Cut-off Price is prohibited for QIB and Non-Institutional Bidders and such Bids from QIB and Non-Institutional Bidders shall be rejected.

- d. Retail Individual Bidders, who Bid at Cut-off Price agree that they shall purchase the Equity Shares at any price within the Price Band. Retail Individual Bidders shall submit the Bid cum Application Form along with a cheque/demand draft for the Bid Amount based on the Cap Price with the Syndicate. In case of ASBA Bidders (excluding Non-Institutional Bidders and QIB Bidders) bidding at Cut-off Price, the ASBA Bidders shall instruct the SCSBs to block an amount based on the Cap Price.

Option to Subscribe in the Issue

- a. As per Section 29(1) of the Companies Act 2013, allotment of Equity Shares shall be made in dematerialized form only. Investors will not have the option of getting allotment of specified securities in physical form.
- b. The Equity Shares, on allotment, shall be traded on the Stock Exchange in demat segment only.
- c. A single application from any investor shall not exceed the investment limit/minimum number of Equity Shares that can be held by him/her/it under the relevant regulations/statutory guidelines and applicable law.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

In accordance with the Consolidated FDI Policy, the total holding by any individual NRI, on a repatriation or non-

repatriation basis, shall not exceed 5.00% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5.00% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together, on a repatriation or non- repatriation basis, shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10.00% may be raised to 24.00% if a special resolution to that effect is passed by the general body of the Indian company.

NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the UPI Circular). Further, subject to applicable law, NRIs may use Channel IV (as specified in the UPI Circular) to apply in the Issue, provided the UPI facility is enabled for their NRE/ NRO accounts.

NRIs applying in the Issue using UPI Mechanism are advised to enquire with the relevant bank whether their bank account is UPI linked prior to making such application. For details of investment by NRIs, see ***“Restrictions on Foreign Ownership of Indian Securities”*** beginning on page 282. Participation of eligible NRIs shall be subject to FEMA NDI Rules.

BIDS BY FPIS

In terms of the SEBI FPI Regulations, the issue of Equity Shares to a single FPI or an investor group (which means the same multiple entities having common ownership directly or indirectly of more than 50% or common control) must be below 10% of our post-Issue Equity Share capital. Further, in terms of the FEMA NDI Rules, with effect from April 1, 2020, the aggregate FPI investment limit is the sectoral cap applicable to an Indian company as prescribed in the FEMA NDI Rules with respect to its paid-up equity capital on a fully diluted basis. Currently, the sectoral cap for retail trading of food products manufactured and/ or produced in India is 100% under automatic route.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time. In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non-Residents.

In terms of the FEMA, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

The FEMA NDI Rules were enacted on October 17, 2019 in supersession of the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017, except as respects things done or omitted to be done before such supersession. **FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.**

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with ‘know your client’ norms; and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing off-shore derivative instruments is also required to ensure that any transfer of off-shore derivative instruments issued by, or on behalf of it subject to, inter alia, the following conditions:

- (i). such offshore derivative instruments are transferred to person subject to fulfilment of SEBI FPI Regulations; and
- (ii). Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred are pre-approved by the FPI.

Bids by FPIs which finalise the multi-investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants issued to facilitate implementation of the SEBI FPI Regulations (“Operational FPI Guidelines”), submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs shall not be treated as multiple Bids (“MIM Bids”). It is hereby clarified that FPIs bearing the same PAN may be treated as multiple Bids by a Bidder and may be rejected, except for Bids from FPIs that finalise the multi- investment manager structure in accordance with the Operational FPI Guidelines (such structure referred to as “MIM Structure”). In order to ensure valid Bids, FPIs making MIM Bids using the same PAN and with different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM Structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

BIDS BY SEBI-REGISTERED AIFS, VCFS AND FVCIS

The SEBI FVCI Regulations, SEBI VCF Regulations and the SEBI AIF Regulations prescribe, inter alia, the investment restrictions on the FVCIs, VCFS and AIFs registered with SEBI respectively. FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering. Category I AIF and Category II AIF cannot invest more than 25% of the investible funds in one investee company directly or through investment in the units of other AIFs. A Category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. AIFs which are authorized under the fund documents to invest in units of AIFs are prohibited from offering their units for subscription to other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than 1/3rd of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, a VCF that has not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations (and accordingly shall not be allowed to participate in the Issue) until the existing fund or scheme managed by the fund is wound up and such funds shall not launch any new scheme after the notification of the SEBI AIF Regulations.

There is no reservation for Eligible NRIs, FPIs and FVCIs and all Bidders will be treated on the same basis with other categories for the purpose of allocation.

Further, the shareholding of VCFS, category I AIFs or category II AIFs and FVCIs holding Equity Shares prior to Issue, shall be locked-in for a period of at least one year from the date of purchase of such Equity Shares.

All non-resident investors should note that refunds, dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

The Company or the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserve the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof. The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended and Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended, is 10.00% of the paid up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10.00% of the bank's own paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company, subject to prior approval of the RBI if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation Act; or (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company. The bank is required to submit a time bound action plan to the RBI for the disposal of such shares within a specified period. The aggregate investment by a banking company along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank; and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap doesn't apply to the cases mentioned in (i) and (ii) above. The aggregate equity investments made by a banking company in all subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments shall not exceed 20% of the bank's paid-up share capital and reserves.

In terms of the Master Circular on Basel III Capital Regulations dated July 1, 2014, as amended (i) a bank's investment in the capital instruments issued by banking, financial and insurance entities should not exceed 10% of its capital funds; (ii) banks should not acquire any fresh stake in a bank's equity shares, if by such acquisition, the investing bank's holding exceeds 5% of the investee bank's equity capital; (iii) equity investment by a bank in a subsidiary company, financial services company, financial institution, stock and other exchanges should not exceed 10% of the bank's paid-up share capital and reserves; (iv) equity investment by a bank in companies engaged in non-financial services activities would be subject to a limit of 10% of the investee company's paid-up share capital or 10% of the bank's paid-up share

capital and reserves, whichever is less; and (v) a banking company is restricted from holding shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. For details in relation to the investment limits under Master Direction – Ownership in Private Sector Banks, Directions, 2016, see “*Key Regulations and Policies*” beginning on page 139

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars issued by the SEBI dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such applications.

BIDS BY SYSTEMICALLY IMPORTANT NBFCS

In case of Bids made by Systemically Important NBFCs registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, (ii) the last audited financial statements on a standalone basis, (iii) a net worth certificate from its statutory auditors, and (iv) such other approval as may be required by the Systemically Important NBFCs are required to be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

Systemically Important NBFCs participating in the Issue shall comply with all applicable regulations, directions, guidelines and circulars issued by the RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDAI, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

The exposure norms for insurers are prescribed under the IRDAI Investment Regulations, based on investments in equity shares of the investee company, the entire group of the investee company and the industry sector in which the investee company operates. Insurance companies participating in the Issue are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount calculated under (a), (b) and (c) above, as the case may be.

**The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of ₹ 25,000,000 lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of ₹ 5,000,000 lakhs or more but less than ₹ 25,000,000 lakhs.*

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI from time to time.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of ₹ 2,500 lakhs, a certified copy of a certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY ANCHOR INVESTORS

Our Company in consultation with the BRLM, may consider participation by Anchor Investors in the Issue for up to 60% of the QIB Portion in accordance with the SEBI Regulations. Only QIBs as defined in Regulation 2(1)(ss) of the

SEBI Regulations and not otherwise excluded pursuant to Schedule XIII of the SEBI Regulations are eligible to invest. The QIB Portion will be reduced in proportion to allocation under the Anchor Investor Portion. In the event of undersubscription in the Anchor Investor Portion, the balance Equity Shares will be added to the QIB Portion. In accordance with the SEBI Regulations, the key terms for participation in the Anchor Investor Portion are provided below.

- 1) Anchor Investor Bid cum Application Forms will be made available for the Anchor Investors at the offices of the BRLM.
- 2) The Bid must be for a minimum of such number of Equity Shares so that the Bid Amount is at least 200.00 lakhs. A Bid cannot be submitted for over 60% of the QIB Portion. In case of a Mutual Fund, separate Bids by individual schemes of a Mutual Fund will be aggregated to determine the minimum application size of 200.00 lakhs
- 3) One-third of the Anchor Investor Portion will be reserved for allocation to domestic Mutual Funds.
- 4) Bidding for Anchor Investors will open one Working Day before the Bid/ Issue Opening Date and be completed on the same day.
- 5) Our Company in consultation with the BRLM, will finalize allocation to the Anchor Investors on a discretionary basis, provided that the minimum and maximum number of Allottees in the Anchor Investor Portion will be, as mentioned below:
 - where allocation in the Anchor Investor Portion is up to 200.00 Lakhs, maximum of 2 (two) Anchor Investors.
 - where the allocation under the Anchor Investor Portion is more than 200.00 Lakhs but upto 2500.00 Lakhs, minimum of 2 (two) and maximum of 15 (fifteen) Anchor Investors, subject to a minimum Allotment of 100.00 Lakhs per Anchor Investor; and

- 7) Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.
- 8) If the Issue Price is greater than the Anchor Investor Allocation Price, the additional amount being the difference between the Issue Price and the Anchor Investor Allocation Price will be payable by the Anchor Investors within 2 (two) Working Days from the Bid/ Issue Closing Date. If the Issue Price is lower than the Anchor Investor Allocation Price, Allotment to successful Anchor Investors will be at the higher price, i.e., the Anchor Investor Issue Price.
- 9) Equity Shares Allotted in the Anchor Investor Portion will be locked in for a period of 30days from the date of Allotment.
- 10) The BRLM, our Promoters, Promoter Group or any person related to them (except for Mutual Funds sponsored by entities related to the BRLM) will not participate in the Anchor Investor Portion. The parameters for selection of Anchor Investors will be clearly identified by the BRLM and made available as part of the records of the BRLM for inspection byes.
- 11) Bids made by QIBs under both the Anchor Investor Portion and the QIB Portion will not be considered multiple Bids.
- 12) Anchor Investors are not permitted to Bid in the Issue through the ASBA process.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney or by limited companies, corporate bodies, registered societies, Eligible FPIs, Mutual Funds, Systemically Important NBFCs, insurance companies, insurance funds set up by the army, navy or air force of the Union of India, insurance funds set up by the Department of Posts, India, or the National Investment Fund and provident funds with a minimum corpus of ₹ 2,500lakhs (subject to applicable law) and pension funds with a minimum corpus of ₹ 2,500 lakhs, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association

and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the BRLM, reserves the right to accept or reject any Bid in whole or in part, in either case without assigning any reason therefor.

Our Company, in consultation with the BRLM, in their absolute discretion, reserves the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form subject to the terms and conditions that our Company, in consultation with the BRLM may deem fit.

ISSUANCE OF A CONFIRMATION NOTE (“CAN”) AND ALLOTMENT IN THE ISSUE:

1. Upon approval of the basis of allotment by the Designated Stock Exchange, the BRLM or Registrar to the Issue shall send to the SCSBs a list of their Bidders who have been allocated Equity Shares in the Issue.
2. The Registrar will then dispatch a CAN to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of a CAN shall be deemed a valid, binding and irrevocable contract for the Bidder.

Issue Procedure for Application Supported by Blocked Account (ASBA) Bidders

In accordance with the SEBI Circular No. CIR/CFD/POLICYCELL/11/2015 dated November 10, 2015 all the Bidders have to compulsorily apply through the ASBA Process. Our Company and the Book Running Lead Manager are not liable for any amendments, modifications, or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. ASBA Bidders are advised to make their independent investigations and to ensure that the ASBA Bid Cum Application Form is correctly filled up, as described in this section.

The lists of banks that have been notified by SEBI to act as SCSB (Self Certified Syndicate Banks) for the ASBA Process are provided on <https://www.sebi.gov.in/sebiweb/other/OtherAction.do?doRecognised=yes>. - b) The Registrar to the Issue shall give instruction to the SCSB for unblocking the ASBA Account on the Designated Date. QIBs and NIIs can neither withdraw nor lower the size of their Bids at any stage.

Price Discovery and Allocation

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM, shall finalize the Issue Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP. For details in relation to allocation, the Bidder may refer to the RHP.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spillover from any other category or combination of categories at the discretion of the Issuer and the in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an undersubscription applicable to the Issuer, Bidders may refer to the RHP.
- e) In case if the Retail Individual Investor category is entitled to more than the allocated portion on proportionate basis, the category shall be allotted that higher percentage.

Illustration of the Book Building and Price Discovery Process: Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue, it also excludes Bidding by Anchor Investors. Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹ 24 per share, Issue size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The Issuer, in consultation with the BRLM, may finalise the Issue Price at or below such Cut-Off Price, i.e., at or below ₹ 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

Anchor Investors are not allowed to withdraw their Bids after Anchor Investors bidding date.

ALLOTMENT PROCEDURE AND BASIS OF ALLOTMENT

The allotment of Equity Shares to Bidders other than Retail Individual Investors may be on proportionate basis. No Retail Individual Investor will be allotted less than the minimum Bid Lot subject to availability of shares in Retail Individual Investor Category and the remaining available shares, if any will be allotted on a proportionate basis. The Issuer is required to receive a minimum subscription of 90% of the Issue. However, in case the Issue is in the nature of Issue for Sale only, then minimum subscription may not be applicable.

BASIS OF ALLOTMENT

a. For Retail Individual Bidders

Bids received from the Retail Individual Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all the successful Retail Individual Bidders will be made at the Issue Price.

The Issue size less Allotment to Non-Institutional and QIB Bidders shall be available for allotment to Retail Individual Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 14,44,800 Equity Shares at or above the Issue Price, full Allotment shall be made to the Retail Individual Bidders to the extent of their valid Bids.

If the aggregate demand in this category is greater than 14,44,800 Equity Shares at or above the Issue Price, the Allotment shall be made on a proportionate basis up to a minimum of 1,600 Equity Shares and in multiples of 1,600 Equity Shares thereafter. For the method of proportionate Basis of Allotment, refer below.

b. For Non-Institutional Bidders

Bids received from Non-Institutional Bidders at or above the Issue Price shall be grouped together to determine the total demand under this category. The Allotment to all successful Non- Institutional Bidders will be made at the Issue Price.

The Issue size less Allotment to QIBs and Retail shall be available for allotment to Non- Institutional Bidders who have Bid in the Issue at a price that is equal to or greater than the Issue Price. If the aggregate demand in this category is less than or equal to 6,19,200] Equity Shares at or above the Issue Price, full allotment shall be made to Non-Institutional Bidders to the extent of their demand.

In case the aggregate demand in this category is greater than 6,19,200 Equity Shares at or above the Issue Price, Allotment shall be made on a proportionate basis up to a minimum of 1,600 Equity Shares and in multiples of 1,600 Equity Shares thereafter. For the method of proportionate Basis of Allotment refer below.

c. Allotment To Anchor Investor (If Applicable)

- a) Allocation of Equity Shares to Anchor Investors at the Anchor Investor Allocation Price will be at the discretion of the Issuer, in consultation with the BRLM, subject to compliance with the following requirements:
- i. not more than 60% of the QIB Portion will be allocated to Anchor Investors;
 - ii. one-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the price at which allocation is being done to other Anchor Investors; and
 - iii. allocation to Anchor Investors shall be on a discretionary basis and subject to:
 - maximum number of two Anchor Investors for allocation up to ₹ 2 crores; a minimum number of two Anchor Investors and maximum number of 15 Anchor Investors for allocation of more than ₹ 2 crores and up to ₹ 25 crores subject to minimum allotment of ₹ 1 crores per such Anchor Investor; and
 - in case of allocation above twenty-five crore rupees; a minimum of 5 such investors and a maximum of 15 such investors for allocation up to twenty-five crore rupees and an additional 10 such investors for every additional twenty-five crore rupees or part thereof,

shall be permitted, subject to a minimum allotment of one crore rupees per such investor.

d. For QIBs

Bids received from QIBs Bidding in the QIB Category at or above the Issue Price may be grouped together to determine the total demand under this category. The QIB Category may be available for Allotment to QIBs who have Bid at a price that is equal to or greater than the Issue Price. Allotment may be undertaken in the following manner: Allotment shall be undertaken in the following manner:

- i. In the first instance, allocation to Mutual Funds for 5% of the QIB Portion shall be determined as follows:
 - In the event that Bids by Mutual Fund exceeds 5% of the QIB Portion, allocation to Mutual Funds shall be done on a proportionate basis for 5% of the QIB Portion.
 - In the event that the aggregate demand from Mutual Funds is less than 5% of the QIB Portion then all Mutual Funds shall get full Allotment to the extent of valid Bids received above the Issue Price.
 - Equity Shares remaining unsubscribed, if any, not allocated to Mutual Funds shall be available for Allotment to all QIB Bidders as set out in (b) below;
- ii. In the second instance, allotment to all QIBs shall be determined as follows:
 - In the event of oversubscription in the QIB Portion, all QIB Bidders who have submitted Bids above the Issue Price shall be allotted Equity Shares on a proportionate basis, upto a minimum of 1,600 Equity Shares and in multiples of 1,600 Equity Shares thereafter for 95% of the QIB Portion.
 - Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis, upto a minimum of 1,600 Equity Shares and in multiples of 1,600 Equity Shares thereafter, along with other QIB Bidders.
 - Under-subscription below 5% of the QIB Portion, if any, from Mutual Funds, would be included for allocation to the remaining QIB Bidders on a proportionate basis. The aggregate Allotment to QIB Bidders shall not be more than 1,600 Equity Shares.
- iii. Basis of Allotment for QIBs and NIIs in case of Over Subscribed Issue:

In the event of the Issue being Over-Subscribed, the Issuer may finalise the Basis of Allotment in consultation with the National Stock Exchange of India Limited Emerge (The Designated Stock Exchange). The allocation may be made in marketable lots on proportionate basis as set forth hereunder:

- a) The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the oversubscription ratio (number of Bidders in the category multiplied by number of Shares applied for).
- b) The number of Shares to be allocated to the successful Bidders will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the oversubscription ratio).
- c) For Bids where the proportionate allotment works out to less than 1,600 equity shares the allotment will be made as follows:
 - Each successful Bidder shall be allotted 1,600 equity shares; and
 - The successful Bidder out of the total bidders for that category shall be determined by draw of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (b) above.
- d) If the proportionate allotment to a Bidder works out to a number that is not a multiple of 1,600 equity shares, the Bidder would be allotted Shares by rounding off to the nearest multiple of equity shares subject to a minimum allotment of 1,600 equity shares.
- e) If the Shares allotted on a proportionate basis to any category is more than the Shares allotted to the Bidders in that category, the balance available Shares or allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful Bidder in that category, the balance shares, if any, remaining after such adjustment will be added to the category comprising Bidder applying for the minimum number of Shares. If as a result of the

process of rounding off to the nearest multiple 1,600 Equity Shares, results in the actual allotment being higher than the shares offered, the final allotment may be higher at the sole discretion of the Board of Directors, up to 110% of the size of the Issue specified under the Capital Structure mentioned in this RHP.

Retail Individual Investor means an investor who applies for shares of value of not more than ₹ 2,00,000/. Investors may note that in case of over subscription, allotment shall be on proportionate basis and will be finalized in consultation with National Stock Exchange of India Limited.

The Executive Director / Managing Director of National Stock Exchange of India Limited – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Public Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations.

Issuance of Allotment Advice

- 1) Upon approval of the Basis of Allotment by the Designated Stock Exchange.
- 2) On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue.

The Book Running Lead Manager or the Registrar to the Issue will dispatch an Allotment Advice to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of Allotment Advice shall be deemed valid, binding and irrevocable contract for the Allotment to such Bidder.

- 3) Issuer will make the allotment of the Equity Shares and initiate corporate action for credit of shares to the successful Bidders Depository Account within 4 working days of the Issue Closing date. The Issuer also ensures that credit of shares to the successful Bidders Depository Account is completed within one working Day from the date of allotment, after the funds are transferred from ASBA Public Issue Account to Public Issue account of the issuer.

SEBI pursuant to its circular bearing reference number SEBI/HO/CFD/TPD1/CIR/P/2023/140 dated August 9, 2023 has reduced the time taken for listing of specified securities after the closure of public issue to 3 working days (T+3 days) as against the present requirement of 6 working days (T+6 days); 'T' being issue closing date. The provisions of this circular shall be applicable, on voluntary basis for public issues opening on or after September 1, 2023 and on mandatory basis for public issues opening on or after December 1, 2023. Our Company shall follow the timeline provided under the aforementioned circular.

BASIS OF ALLOTMENT

Allotment will be made in consultation National Stock Exchange of India Limited (The Designated Stock Exchange). In the event of oversubscription, the allotment will be made on a proportionate basis in marketable lots as set forth here:

1. The total number of Shares to be allocated to each category as a whole shall be arrived at on a proportionate basis i.e. the total number of Shares applied for in that category multiplied by the inverse of the over subscription ratio (number of applicants in the category x number of Shares applied for).
2. The number of Shares to be allocated to the successful applicants will be arrived at on a proportionate basis in marketable lots (i.e. Total number of Shares applied for into the inverse of the over subscription ratio).
3. For applications where the proportionate allotment works out to less than [●] equity shares the allotment will be made as follows:
 - i. Each successful applicant shall be allotted [●] equity shares; and
 - ii. The successful applicants out of the total applicants for that category shall be determined by the drawl of lots in such a manner that the total number of Shares allotted in that category is equal to the number of Shares worked out as per (2) above.
4. If the proportionate allotment to an applicant works out to a number that is not a multiple of [●] equity shares, the applicant would be allotted Shares by rounding off to the lower nearest multiple of [●] equity shares subject to a minimum allotment of [●] equity shares.
5. If the Shares allocated on a proportionate basis to any category is more than the Shares allotted to the applicants in that category, the balance available Shares for allocation shall be first adjusted against any category, where the allotted Shares are not sufficient for proportionate allotment to the successful applicants in that category, the balance Shares, if any, remaining after such adjustment will be added to the category comprising of applicants applying for the minimum number of Shares.

BASIS OF ALLOTMENT IN THE EVENT OF UNDER SUBSCRIPTION

In the event of under subscription in the Issue, the obligations of the Underwriters shall get triggered in terms of the Underwriting Agreement. The Minimum subscription of 100.00% of the Issue size shall be achieved before our company proceeds to get the basis of allotment approved by the Designated Stock Exchange. The Executive Director/Managing Director of the National Stock Exchange of India Limited – the Designated Stock Exchange in addition to Book Running Lead Manager and Registrar to the Issue shall be responsible to ensure that the basis of allotment is finalized in a fair and proper manner in accordance with the SEBI (ICDR) Regulations, 2018.

As per the RBI regulations, OCBs are not permitted to participate in the Issue. There is no reservation for Non-Residents, NRIs, FPIs and foreign venture capital funds and all Non-Residents, NRI, FPI and Foreign Venture Capital Funds applicants will be treated on the same basis with other categories for the purpose of allocation.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and Foreign Exchange Management Act, 1999 (“**FEMA**”). While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the Reserve Bank of India (“**RBI**”) and Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”).

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), has issued consolidated FDI Policy Circular of 2017 (“**FDI Policy 2017**”), which with effect from August 28, 2017, consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Policy 2017 will be valid until the DIPP issues an updated circular. The RBI also issues Master Circular on Foreign Investment in India every year. Presently, FDI in India is being governed by Master Circular on Foreign Investment dated July 01, 2015 as updated from time to time by RBI. In terms of the Master Circular, an Indian company may issue fresh shares to people resident outside India (who is eligible to make investments in India, for which eligibility criteria are as prescribed). Such fresh issue of shares shall be subject to *inter-alia*, the pricing guidelines prescribed under the Master Circular. The Indian company making such fresh issue of shares would be subject to the reporting requirements, *inter-alia* with respect to consideration for issue of shares and also subject to making certain filings including filing of Form FC-GPR.

Under the current FDI Policy of 2017, foreign direct investment in micro and small enterprises is subject to sectoral caps, entry routes and other sectoral regulations. At present 100 % foreign direct investment through automatic route is permitted in the sector in which our Company operates. Therefore applicable foreign investment up to 100% is permitted in our company under automatic route.

In case of investment in sectors through Government Route approval from competent authority as mentioned in Chapter 4 of the FDI Policy 2017 has to be obtained by the Company. The transfer of shares between an Indian resident to a non-resident does not require the prior approval of the RBI, subject to fulfilment of certain conditions as specified by DIPP/RBI, from time to time. Such conditions include: (i) where the transfer of shares requires the prior approval of the Government as per the extant FDI policy provided that: a) the requisite approval of the Government has been obtained; and b) the transfer of shares adheres with the pricing guidelines and documentation requirements as specified by the Reserve Bank of India from time to time.; (ii) where the transfer of shares attract SEBI (SAST) Regulations subject to the adherence with the pricing guidelines and documentation requirements as specified by reserve Bank of India from time to time.; (iii) where the transfer of shares does not meet the pricing guidelines under the FEMA, 1999 provided that: a) The resultant FDI is in compliance with the extant FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, etc.), reporting requirements, documentation etc.; b) The pricing for the transaction is compliant with the specific/explicit, extant and relevant SEBI regulations/guidelines (such as IPO, Book building, block deals, delisting, exit, open offer/substantial acquisition/SEBI SAST); and Chartered Accountants Certificate to the effect that compliance with the relevant SEBI regulations/guidelines as indicated above is attached to the form FC-TRS to be filed with the AD bank and iv) where the investee company is in the financial sector provided that: a) Any ‘fit and proper/due diligence’ requirements as regards the non-resident investor as stipulated by the respective financial sector regulator, from time to time, have been complied with; and b) The FDI policy and FEMA regulations in terms of sectoral caps, conditionalities (such as minimum capitalization, pricing, etc.), reporting requirements, documentation etc., are complied with. As per the existing policy of the Government of India, OCBs cannot participate in this Issue and in accordance with the extant FDI guidelines on sectoral caps, pricing guidelines etc. as amended by Reserve bank of India, from time to time. Investors are advised to confirm their eligibility under the relevant laws before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company. Investors will not offer, sell, pledge or transfer the Equity Shares of our Company to any person who is not eligible under applicable laws, rules, regulations, guidelines. Our Company, the Underwriters and their respective directors, officers, agents, affiliates and representatives, as applicable, accept no responsibility or liability for advising any investor on whether such investor is eligible to acquire Equity Shares of our Company.

Investment conditions/restrictions for overseas entities

Under the current FDI Policy 2017, the maximum amount of Investment (sectoral cap) by foreign investor in an issuing entity is composite unless it is explicitly provided otherwise including all types of foreign investments, direct and indirect, regardless of whether it has been made for FDI, , FPI, NRI/OCI, LLPs, FVCI, Investment Vehicles and DRs under Schedule 1, 2, , 3, 6, 7, 8, 9, and 11 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations, 2017. Any equity holding by a person resident outside India resulting from conversion of any debt instrument

under any arrangement shall be reckoned as foreign investment under the composite cap. Portfolio Investment upto aggregate foreign investment level of 49% or sectoral/statutory cap, whichever is lower, will not be subject to either Government approval or compliance of sectoral conditions, if such investment does not result in transfer of ownership and/or control of Indian entities from resident Indian citizens to non-resident entities. Other foreign investments will be subject to conditions of Government approval and compliance of sectoral conditions as per FDI Policy. The total foreign investment, direct and indirect, in the issuing entity will not exceed the sectoral/statutory cap.

i. Investment by FPIs under Portfolio Investment Scheme (PIS):

With regards to purchase/sale of capital instruments of an Indian company by an FPI under PIS the total holding by each FPI or an investor group as referred in SEBI (FPI) Regulations, 2014 shall not exceed 10 % of the total paid-up equity capital on a fully diluted basis or less than 10% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all FPIs put together shall not exceed 24 % of paid-up equity capital on fully diluted basis or paid-up value of each series of debentures or preference shares or share warrants. The said limit of 10 percent and 24 percent will be called the individual and aggregate limit, respectively. However, this limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

ii. Investment by NRI or OCI on repatriation basis:

The purchase/sale of equity shares, debentures, preference shares and share warrants issued by an Indian company (hereinafter referred to as “Capital Instruments”) of a listed Indian company on a recognised stock exchange in India by Non-Resident Indian (NRI) or Overseas Citizen of India (OCI) on repatriation basis is allowed subject to certain conditions under Schedule 3 of the FEMA (Transfer or Issue of security by a person resident outside India) Regulations, 2017 i.e.:

- The total holding by any individual NRI or OCI shall not exceed 5 percent of the total paid-up equity capital on a fully diluted basis or should not exceed 5 percent of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10 percent of the total paid-up equity capital on a fully diluted basis or shall not exceed 10 percent of the paid-up value of each series of debentures or preference 373 shares or share warrants; provided that the aggregate ceiling of 10 percent may be raised to 24 percent if a special resolution to that effect is passed by the general body of the Indian company.

iii. Investment by NRI or OCI on non-repatriation basis:

As per current FDI Policy 2017, schedule 4 of FEMA (Transfer or Issue of Security by Persons Resident outside India) Regulations – Purchase/ sale of Capital Instruments or convertible notes or units or contribution to the capital of an LLP by a NRI or OCI on non-repatriation basis – will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“US Securities Act”) or any other state securities laws in the United States of America and may not be sold or offered within the United States of America, or to, or for the account or benefit of “US Persons” as defined in Regulation S of the U.S. Securities Act, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of US Securities Act and applicable state securities laws. Accordingly, the equity shares are being offered and sold only outside the United States of America in an offshore transaction in reliance upon Regulation S under the US Securities Act and the applicable laws of the jurisdiction where those offers and sale occur.

		after such notice. To give effect to any such sale the Board may authorise some person to transfer the shares sold to the purchaser thereof and purchaser shall be registered as the holder of the shares comprised in any such transfer. Upon any such sale as the Certificates in respect of the shares sold shall stand cancelled and become null and void and of no effect, and the Directors shall be entitled to issue a new Certificate or Certificates in lieu thereof to the purchaser or purchasers concerned.
47.	Application of proceeds of sale.	The net proceeds of any such sale shall be received by the Company and applied in or towards payment of such part of the amount in respect of which the lien exists as is presently payable and the residue, if any, shall (subject to lien for sums not presently payable as existed upon the shares before the sale) be paid to the person entitled to the shares at the date of the sale.
FORFEITURE AND SURRENDER OF SHARES		
48.	If call or installment not paid, notice may be given.	If any Member fails to pay the whole or any part of any call or installment or any moneys due in respect of any shares either by way of principal or interest on or before the day appointed for the payment of the same, the Directors may, at any time thereafter, during such time as the call or installment or any part thereof or other moneys as aforesaid remains unpaid or a judgment or decree in respect thereof remains unsatisfied in whole or in part, serve a notice on such Member or on the person (if any) entitled to the shares by transmission, requiring him to pay such call or installment of such part thereof or other moneys as remain unpaid together with any interest that may have accrued and all reasonable expenses (legal or otherwise) that may have been accrued by the Company by reason of such non-payment. Provided that no such shares shall be forfeited if any moneys shall remain unpaid in respect of any call or installment or any part thereof as aforesaid by reason of the delay occasioned in payment due to the necessity of complying with the provisions contained in the relevant exchange control laws or other applicable laws of India, for the time being in force.
49.	Terms of notice.	The notice shall name a day (not being less than fourteen days from the date of notice) and a place or places on and at which such call or installment and such interest thereon as the Directors shall determine from the day on which such call or installment ought to have been paid and expenses as aforesaid are to be paid. The notice shall also state that, in the event of the non-payment at or before the time and at the place or places appointed, the shares in respect of which the call was made or installment is payable will be liable to be forfeited.
50.	On default of payment, shares to be forfeited.	If the requirements of any such notice as aforesaid shall not be complied with, every or any share in respect of which such notice has been given, may at any time thereafter but before payment of all calls or installments, interest and expenses, due in respect thereof, be forfeited by resolution of the Board to that effect. Such forfeiture shall include all dividends declared or any other moneys payable in respect of the forfeited share and not actually paid before the forfeiture.
51.	Notice of forfeiture to a Member	When any shares have been forfeited, notice of the forfeiture shall be given to the member in whose name it stood immediately prior to the forfeiture, and an entry of the forfeiture, with the date thereof shall forthwith be made in the Register of Members.
52.	Forfeited shares to be property of the Company and may be sold etc.	Any shares so forfeited, shall be deemed to be the property of the Company and may be sold, re-allotted, or otherwise disposed of, either to the original holder thereof or to any other person, upon such terms and in such manner as the Board in their absolute discretion shall think fit.
53.	Members still liable to pay money owing at time of forfeiture and interest.	Any Member whose shares have been forfeited shall notwithstanding the forfeiture, be liable to pay and shall forthwith pay to the Company, on demand all calls, installments, interest and expenses owing upon or in respect of such shares at the time of the forfeiture, together with interest thereon from the time of the forfeiture until payment, at such rate as the Board may determine and the Board may enforce the payment of the whole or a portion thereof as if it were a new call made at the date of the forfeiture, but shall not be under any obligation to do so.
54.	Effect of forfeiture.	The forfeiture shares shall involve extinction at the time of the forfeiture, of all interest in all claims and demand against the Company, in respect of the share and all other rights incidental to the share, except only such of those rights as by these Articles are expressly saved.
55.	Evidence of Forfeiture.	A declaration in writing that the declarant is a Director or Secretary of the Company and that shares in the Company have been duly forfeited in accordance with these articles on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the shares.
