No assurance can be given regarding active and/or sustained trading in the Equity Shares nor regarding the price at which the Equity Shares will be traded after listing.

GENERAL RISK

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in the Offer unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in the Offer. For taking an investment decision, investors must rely on their own examination of our Company and the Offer, including the risks involved. The Equity Shares in the Offer have not been recommended or approved by the Securities and Exchange Board of India (“SEBI”), nor does SEBI guarantee the accuracy or adequacy of the contents of this Red Herring Prospectus. Specific attention of the investors is invited to “Risk Factors” on page 25.

ISSUER’S AND SELLING SHAREHOLDER’S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to our Company and the Offer, which is material in the context of the Offer, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions misleading in any material respect. Each of the Selling Shareholders severally, and not jointly, accepts responsibility for and confirms that the statements specifically made or confirmed by such Selling Shareholder in this Red Herring Prospectus solely to the extent of information specifically pertaining to itself and its portion of the Equity Shares offered by it in the Offer for Sale, and assumes responsibility that such statements are true and correct in all material respects and are not misleading in any material respect. The Selling Shareholders, severally and not jointly, assume no responsibility for any other statements, including, inter alia, any of the statements made by or relating to our Company or any other Selling Shareholders in this Red Herring Prospectus.

Financial Data

Unless stated otherwise, the financial information and financial ratios in this Red Herring Prospectus have been derived from our Restated Consolidated Financial Information. For further information, see “*Financial Information*” beginning on page no. 210 of this Red Herring Prospectus.

The Restated Consolidated Financial Information of our Company, along with our Subsidiaries, comprises of the restated consolidated summary statement of assets and liabilities as at December 31, 2022, March 31, 2022, March 31, 2021 and March 31, 2020, and the restated consolidated summary statements of profits and losses (including other comprehensive income), the restated consolidated statement of changes in equity and the restated consolidated statement of cash flows for the nine months period December 31, 2022 and the financial years ended March 31, 2022, March 31, 2021 and March 31, 2020, together with its notes, annexures and schedules are derived from our audited consolidated financial statements as at and for the nine months ended December 31, 2022 prepared in accordance with Ind AS, and for the financial years ended March 31, 2022, March 31, 2021 and March 31, 2020 prepared in accordance with Ind AS, and restated in accordance with requirements of Section 26 of Part I of Chapter III of Companies Act, SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI.

In this Red Herring Prospectus, figures for nine months ended December 31, 2022, Fiscals 2022, 2021 and 2020, have been presented.

Our Company’s financial year commences on April 1 of the immediately preceding calendar year and ends on March 31 of that particular calendar year and accordingly, all references to a particular financial year or fiscal are to the 12-month period commencing on April 1 of the immediately preceding calendar year and ending on March 31 of that particular calendar year. Unless the context requires otherwise, all references to a Fiscal/ Fiscal Year are to the year ended on March 31 of that calendar year.

There are significant differences between Ind AS, Indian GAAP, US GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or US GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our Company’s financial data. For details in connection with risks involving differences between Ind AS, U.S. GAAP and IFRS see “Risk Factors – Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.” on page 25. The degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, 2013 and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited. Further, any figures sourced from third-party industry sources may be rounded off to other than two decimal points to conform to their respective sources.

Unless the context otherwise indicates, any percentage amounts, as set forth in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Conditions and Results of Operations*” on page nos. 25, 130 and 261 respectively, and elsewhere in this Red Herring Prospectus have been calculated on the basis of the Restated Financial Statements or non-GAAP financial measures as described below.

In this Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals have been rounded off to the second decimal and all percentage figures have been rounded off to two decimal places. In certain instances, (i) the sum or percentage change of such numbers may not

conform exactly to the total figure given; and (ii) the sum of the numbers in a column or row in certain tables may not conform exactly to the total figure given for that column or row.

Non-GAAP Financial Measures

Certain non-GAAP financial measures relating to our financial performance such as, EBITDA, EBITDA margin, RoCE, RoE, return on net worth, working capital, net worth, net asset value per share and debt equity ratio have been included in this Red Herring Prospectus. We compute and disclose such non-GAAP financial measures relating to our financial performance as we consider such information to be useful measures of our business and financial performance. These non-GAAP financial measures and other information relating to financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures of similar nomenclature that may be computed and presented by other companies and are not measures of operating performance or liquidity defined by Ind AS and may not be comparable to similarly titled measures presented by other companies.

Currency and Units of Presentation

All references to:

- “Rupees” or “₹” or “INR” or “Rs.” are to the Indian Rupee, the official currency of India; and
- “USD” or “US\$” are to the United States Dollar, the official currency of the United States;

In this Red Herring Prospectus, our Company has presented certain numerical information. All figures have been expressed in millions. One million represents “10 lakhs” or 1,000,000. However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than millions in their respective sources, such figures appear in this Red Herring Prospectus expressed in such denominations as provided in such respective sources.

Time

All references to time in this Red Herring Prospectus are to Indian Standard Time.

Exchange Rates

This Red Herring Prospectus contains conversions of U.S. Dollars into Indian Rupees that have been presented solely to comply with the requirements of the SEBI ICDR Regulations. These conversions should not be construed as a representation that such currency amounts could have been, or can be converted into Indian Rupees, at any particular rate, or at all.

The exchange rates of certain currencies used in this Red Herring Prospectus into Indian Rupees are provided below.

Industry and Market Data

Unless stated otherwise, the industry and market data and forecasts used throughout this Red Herring Prospectus is derived from publicly available information as well as industry publication and sources. Further, the information has also been derived from the Brickworks Analytics Report dated March 21, 2022, which has been commissioned by our

Company from Brickworks. For risks in relation to commissioned reports, see “*Risk Factors*” beginning on page 25 of this Red Herring Prospectus. Industry publications generally state that the information contained in such publications has been obtained from publicly available documents from various sources believed to be reliable but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Although the industry and market data used in this Red Herring Prospectus is reliable, the data used in these sources may have been re-classified by us for the purposes of presentation. Data from these sources may also not be comparable.

In accordance with the SEBI ICDR Regulations, “*Basis for Offer Price*” on page no.94 of this Red Herring Prospectus include information relating to our peer group entities. Such information has been derived from publicly available sources, and neither we, nor the BRLM have independently verified such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors*” on page no. 25 of this Red Herring Prospectus. Accordingly, investment decisions should not be based solely on such information.

FORWARD-LOOKING STATEMENTS

This Red Herring Prospectus contains certain “forward-looking statements”. All statements regarding our expected financial condition and results of operations, business, plans and prospects are forward looking statements, which include statements with respect to our business strategy, our revenue and profitability, our goals and other matters discussed in this Red Herring Prospectus regarding matters that are not historical facts. These forward-looking statements include statements with respect to our business strategy, our expected revenue and profitability, our goals and other matters discussed in this Red Herring Prospectus regarding matters that are not historical facts. Similarly, statements which describe our strategies, objectives, plans or goals are also forward-looking statements.

These forward-looking statements are based on our current plans, estimates and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement. This could be due to risks or uncertainties associated with our expectations with respect to, but not limited to, regulatory changes in the industry we operate in and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India that may have an impact on our business or investments, monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates and prices, the changes in the competitive landscape and incidence of any natural calamities and/or violence. Significant factors that could cause our actual results to differ materially include, but are not limited to:

- Changes in laws and regulations relating to the sectors/areas in which we operate;
- General economic and market conditions in India and globally could have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.
- We are subject to extensive statutory and regulatory requirements and supervision, which have material influence on, and consequences for, our business operations.
- There are operational risks associated with our business which, if realized, may have a material adverse effect on our business, financial condition, cash flows, results of operations and prospects.
- Inability to identify the new premises may adversely affect the operations, finances and profitability of the Company;
- Our ability to successfully implement our growth strategy and expansion plans;
- Volatility of Loan interest rates and inflation;
- Our ability to meet our further capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Conflict of Interest with affiliated companies, the promoter group and other related parties;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Changes in government policies and regulatory actions that apply to or affect our business;
- Inability to adequately protect our trademarks;
- The performance of the financial markets in India and globally;
- The occurrence of natural disasters or calamities and
- Failure to successfully upgrade our products and service portfolio, from time to time.

For further discussions of factors that could cause our actual results to differ, please refer the section titled “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” beginning on page nos. 25, 130 and 261 of this Red Herring Prospectus, respectively.

Neither our Company, our Directors, our Promoters, the Selling Shareholders, the BRLM nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, our Company will ensure that investors in India are informed of material developments from the date of this Red Herring Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges.

SECTION III- RISK FACTORS

An investment in Equity Shares involves a high degree of financial risk. You should carefully consider all information in this Red Herring Prospectus, including the risks described below, before making an investment in our Equity Shares. The risk factors set forth below do not purport to be complete or comprehensive in terms of all the risk factors that may arise in connection with our business or any decision to purchase, own or dispose off the Equity Shares. This section addresses general risks associated with the industry in which we operate and specific risks associated with our Company. Any of the following risks, as well as the other risks and uncertainties discussed in this Red Herring Prospectus, could have a material adverse effect on our business and could cause the trading price of our Equity Shares to decline and you may lose all or part of your investment.

This Red Herring Prospectus also contains forward-looking statements that involve risks and uncertainties. We have described the risks and uncertainties that our management believes are material, but these risks and uncertainties may not be the only ones we face. Additional risks and uncertainties, including those we are not aware of or deem immaterial, may also result in decreased revenues, increased expenses or other events that could result in a decline in the value of our Equity Shares. In making an investment decision, prospective investors must rely on their own examination of our Company and the Offer, including the merits and risks involved. Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Investors are advised to read the risk factors carefully before taking an investment decision in this Offer. Investors should not invest in this Offer unless they are prepared to accept the risk of losing all or part of their investment, and they should consult their tax, financial and legal advisors about the particular consequences to you of an investment in the Equity Shares.

To obtain a better understanding of our business, you should read this section in conjunction with other chapters of this Red Herring Prospectus, including the chapters titled “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations”, “Industry Overview “and “Financial Information” on page nos.130, 261, 101 and 210 respectively of this Red Herring Prospectus, together with all other financial information contained in this Red Herring Prospectus. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Red Herring Prospectus.

Unless otherwise stated, the financial data in this chapter is derived from our Restated Consolidated Financial Statements for the period and years ended December 31, 2022, March 31, 2022, March 31, 2021 and March 31, 2020 as included in “Financial Information” on page no.210 of this Red Herring Prospectus.

1. Our Promoter/Director, our Subsidiaries and our Group Companies are parties to certain legal proceedings. Any adverse decision in such proceedings may have a material adverse effect on our business, results of operations and financial condition.

Our Promoters, Directors, our Subsidiaries and our Group Companies are parties to certain legal proceedings. These legal proceedings are pending at different levels of adjudication before various courts, tribunals and forums. Mentioned below are the details of the proceedings involving our Promotes, Directors, our Subsidiaries and our Group Companies as on the date of this Red Herring Prospectus along with the amount involved, to the extent quantifiable, based on the materiality policy for litigations, as approved by the Company in its Board meeting held on March 07, 2022.

There can be no assurance that these litigations will be decided in favour of our Promoters, Directors, our Subsidiaries, and our Group Companies, respectively, and consequently it may divert the attention of our management and Promoters and waste our corporate resources and we may incur significant expenses in such proceedings and may have to make provisions in our financial statements, which could increase our expenses and liabilities. If such claims are determined against us, there could be a material adverse effect on our reputation, business, financial condition and results of operations, which could adversely affect the trading price of our Equity Shares. For the details of the cases please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page no. 290 of this Red Herring Prospectus.

2. We derive a significant portion of our revenue from meat business and any reduction in demand or in the production of such products could have an adverse effect on our business, results of operations and financial condition.

We derive a significant portion of our revenue from meat business, which primarily comprises the sale of frozen deboned buffalo meat products. Our total income for the nine months ended December 31, 2022, year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 24,178.21 million, ₹ 31,389.76 million, ₹17,203.96 million and ₹24,166.13 million respectively. As compared to FY 2019 there was a reduction in sales in FY 2020 of 13% and thereafter as compared to FY 2020 there was a further reduction in sales in FY 2021 of 29%. The reason for these reductions in Total Income was due to effects of Covid-19 Pandemic and also due to strategically reducing our focus on low margin markets & gradually shifting towards higher margin markets which can be clearly seen in our financial results wherein our EBIDTA margins have increased from 3.25 % in FY 2020 to over 5.60 % in FY 2022. Hence, we have not experienced any reduction of demand for our products. However, consequently, any reduction in demand or a temporary or permanent discontinuation of processing of such products could have an adverse effect on our business, results of operations and financial condition. Any materially adverse social, political or economic development, natural calamities, civil disruptions, regulatory developments or changes in the policies of the government could adversely affect our processing and distribution activities, result in modification of our business strategy, or require us to incur significant capital expenditure, which will in turn have a material adverse effect on our business, financial condition, results of operations,

and cash flows. Further, our sales may decline as a result of increased competition, regulatory action, pricing pressures, fluctuations in the demand for or supply of our products or services, or the outbreak of an infectious disease such as COVID-19. Our failure to effectively react to these situations or to successfully introduce new products or services in these markets could adversely affect our business, prospects, results of operations, financial condition, and cash flows. The occurrence of, or our inability to effectively respond to, any unfavorable events or effectively manage the competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects.

3. *We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations.*

We require several statutory and regulatory permits, licenses and approvals to operate our business. Many of these approvals are granted for fixed periods of time and need renewal from time to time. Non-renewal of the said permits, approvals and licenses would adversely affect our operations, thereby having a material adverse effect on our business, results of operations and financial condition. There can be no assurance that the relevant authorities will issue any of such permits, approvals and licenses in the time-frame anticipated by us or at all.

Our Company and its processing facilities are yet to apply for the certificate of registration as principal employer under the Contract Labour (Regulation & Abolition) Act, 1970 in respect of the contract labor employed by us from time to time. Our Aligarh plant has received the permission from the Hon'ble High Court, at Allahabad, Lucknow vide Order dated March 02, 2023 to run the plant on trial basis for the period of eight weeks and in the ninth week, an inspection shall be conducted by the UP Pollution Control Board. The Company has started the trial run in accordance with the said Order of the Hon'ble High Court, at Allahabad, Lucknow. If and once the plant is approved by the UP Pollution Control Board, we will obtain all other relevant approvals prior to commencement of commercial production at the plant and comply with the other conditions, if any, imposed by the relevant authorities. The Manesar and Jaipur plants are currently non-operational and the Company is taking relevant steps to restart these plants. Hence, we will need to obtain various approvals prior to re-starting these plants. Accordingly, once relevant consents/approvals are obtained for each of these plants, the Company would be able to recommence operations at these plants. Further, the trial run at Haryana plant has been completed, and the plant has commenced its production for which substantial permissions are been obtained and several permissions would be needed in due course of business. For further details, please see chapters titled "*Key Regulations and Policies*" and "*Government and Other Statutory Approvals*" at pages 157 and 307 respectively of this Red Herring Prospectus.

Further, some of our permits, licenses and approvals are subject to several conditions and we cannot provide any assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to the cancellation, revocation or suspension of relevant permits, licenses or approvals. An inability to revoke the cancellation or suspension of any of the permits, licenses or approvals and any prohibition on sale of our products resulting from any such regulatory non-compliance may materially and adversely affect our business prospects, results of operations and financial condition or comply with applicable rules and regulations or apply in time, renew or requisite licenses or maintain certifications with respect to our processing facilities, procurement and processing operations, and raw material and product quality, or an inability to otherwise comply with applicable laws, may result in the prohibition on sale of, our products in certain markets, may result in the interruption of our operations and may have a material adverse effect on the business.

4. *We operate in a highly regulated and environmental and religiously sensitive business. Certain of our processing units generate pollutants and waste, some of which may be hazardous and harmful to the environment. Hence, we have in the past experienced plant shutdowns and disruptions with respect to our processing plants. Further, any failure to comply with statutory requirements may lead to penalties, fines and/or imprisonment. Our inability to manage statutory requirement and keep our processing units operational could affect our business including future results of operations, reputation and financial condition. For instance:*

We have experienced shutdowns/disruptions in the past with respect to our manufacturing plants in Aligarh, Agra and Punjab. We cannot assure you that we may not face any difficulty in our operations due to such shutdowns/disruptions in the future which may adversely affect our business, financial condition and results of operations. The table below sets-out the details/nature of plant which is shut down/faced disruption, current stage of proceedings and the effect of such shutdown/disruption on the revenue of the Issuer:

Sr.Nos.	Name of the Plant	Nature of the Plant	Reasons for Shutdown/Disruption	Current Stage of Proceedings	Impact on the Revenue
1.	Aligarh Plant Owned by Issuer Co.	Integrate Processing Plant	The Uttar Pradesh Pollution Control Board passed an Order dated March 17, 2019 for closure of the Company's abattoir situated at Aligarh to restrain or prohibit the discharge of any poisonous, noxious or polluting matter into a stream or well or on land or from making in sanitary use of a stream or well. <i>For further details kindly refer to the paragraph (i) mentioned below.</i>	The plant has received the permission from High Court, Allahabad, vide order dated March 02, 2023 to run the plant on trial basis for the period of eight weeks and in the ninth week, an inspection shall be conducted by the UP Pollution Control Board.,	No substantial impact as the company could operate from other plants in UP.
2.	Aligarh Plant, Agra Plant and Mohali Plant	Integrated Processing Plants	The Agricultural and Processed Food Products Export Developmental Authority issued show-cause notices dated September 15, 2020; September 16, 2020; September 17, 2020 to the Company for allegedly being involved in forging of health certificates. Vide the memorandum dated December 04, 2020 revoking the registration-cum-membership certificate and its access to meat portal of the Company and its wholly owned subsidiaries HMA Food Export Private Limited and Federal Agro Industries Private Limited. For further details kindly refer to paragraph (ii) mentioned below.	Disposed/No legal proceedings	Due to revocation of the registration-cum-membership certificate ("RCMC") of the Company during the Financial Year 20-21 and effects of pandemic during the year the revenue of the Company dropped by 28% Further the revocation was one time action and hence there is no future impact on the exports or exports to any country.
3.	Agra Plant Owned by Subsidiary Co. (HMA Food Export Pvt. Ltd.)	Integrated Processing Plant	The Uttar Pradesh Pollution Control Board passed an order dated an order dated December 19, 2012 against the Company for discharge of untreated effluents from the HMA Food Export Private Limited's industrial unit at Kuberpur, Agra. For further details kindly refer to the paragraph (iii) mentioned below.	Vide order dated January 28, 2013 the High Court of Allahabad remanded the matter to Uttar Pradesh Pollution Control Board and ordered the Uttar Pradesh Pollution Control Board to issue a fresh show cause notice. HMA Food Export Private Limited has not Received any show cause notice, thus far.	No Substantial Impact on revenue as the down time was for a few days and the company could manage to operate via other plants in UP.

4.	Aligarh Plant Owned by Issuer Co.	Integrate Processing Plant	The Uttar Pradesh Pollution Control Board passed an order dated January 08, 2013 against the Company for discharge of untreated effluents from the Company's industrial unit at Talaspur, Aligarh. <i>For further details kindly refer to the paragraph (iv) mentioned below.</i>	The plant has received the permission from High Court, Allahabad, vide order dated March 02, 2023 to run the plant on trial basis for the period of eight weeks and in the ninth week, an inspection shall be conducted by the UP Pollution Control Board.	No Substantial Impact on revenue as the down time was for a few days and the company could manage to operate via other plants in UP.

The Uttar Pradesh Pollution Control Board (“UPPCB”) had issued a letter to the Company stating that the Company’s abattoir at Aligarh is causing pollution, thereby violating the directions issued by the National Green Tribunal, Principal Bench, New Delhi (“NGT”). The UPPCB inter-alia directed the Company to ensure that the Effluent Treatment Plant (“ETP”) was operational and the treated effluent conforms to the parameters provided by the UPPCB. The Regional Officer and the District Level Committee inspected and took samples of the treated effluent from the Aligarh unit and found that the Abattoir was non-compliant. The UPPCB passed an Order dated March 17, 2019 for the closure of the Abattoir situated in Aligarh for violating Section 32(1) (c) of the Water (Prevention and Control of Pollution) Act, 1974 (“Water Act”). Consequently, the Company filed the Writ Petition (Civil) No. 10259 of 2019 before the Hon’ble High Court at Allahabad (“the Hon’ble High Court”) stating that the UPPCB failed to follow procedure and inter-alia praying for quashing of the Order dated March 17, 2019 issued by the Chief Environment Officer. The Hon’ble High Court vide order dated May 31, 2019 inter alia quashed the Order dated March 17, 2019 in favour of the Company and directed the Chief Environment Officer to follow the procedure prescribed in the Water Act and the Water Rules. Thus, the UPPCB issued a show cause notice but not pass any order to grant a personal hearing. Thereafter, the Company approached NGT praying for an ad-interim mandamus directing the UPPCB to grant the Company a personal hearing. In the meantime, the Company filed Appeal before NGT bearing no. 05/2020 dated January 07, 2020 against the Order dated January 07, 2020 passed by UPPCB. The NGT passed an Order dated February 13, 2020 for the formation of a joint committee for inspection of the abattoir. Further, an Order dated February 25, 2020 was passed by the NGT declaring that the operation of the unit would be only for the trial run period and would stop after inspection. Post-trial run, based on the observations of the committee, the NGT passed an Order dated October 09, 2020 and dismissed Appeal no. 05/2020 and directed UPPCB to take the appropriate action in this particular matter. The Company was granted a public hearing by UPPCB. Based on orders passed at public hearing dated March 23, 2021, UPPCB filed a reply dated April 09, 2021 listing down the non-compliances of the abattoir. The Company has complied with all the stipulations of UPPCB vide their submission dated September 16, 2021. The plant has received the permission from High Court, Allahabad, vide order dated March 02, 2023 to run the plant on trial basis for the period of eight weeks and in the ninth week, an inspection shall be conducted by the UP Pollution Control Board. The proceeding is currently pending before Uttar Pradesh Pollution Control Board. The Company has filed Writ Petition No.4488/2022 before the Hon’ble High Court at Allahabad, Lucknow Bench against the State of Uttar Pradesh through Principal Secretary, Environment Department and 5 others praying (i) to issue a writ, order or direction in the nature of certiorari quashing the impugned orders dated February 03, 2020 and April 12, 2021 passed by the opposite party no. 6 under the Water Act, 1974 as well as under the Air Act, 1981; (ii) to issue a writ order or direction in the nature of mandamus commanding the opposite parties to decide the representation dated 5.7.2021 and 16.08.2021, by reasoned and speaking order, within the time as may be prescribed by the Hon’ble Court; (iii) to issue a writ, order or direction in the nature of mandamus by way of alternative relief thereby directing the opposite parties to pass suitable order by resorting to the provision of Section 30 read with section 17(1)(1) of the Water Act, 1974 in case the Board authorities think desirable under the circumstances of the case, in order to maintain the environmental norms and also to permit the petitioner to run the unit as the same was being run for the last 10 years under the consents which were accorded in order to secure the ends of justice. In response to this Writ Petition, the U.P. Pollution Control Board has filed counter-affidavit and supplementary counter-affidavit. Along with the said supplementary counter affidavit, a report dated 27th February 2023 of the Committee constituted by U.P. Pollution Control Board was enclosed. This report summarized findings of inspection conducted by the team on 24th February, 2023, the Hon’ble High Court on the basis of the said inspection report prima facie inferred that unless industry starts running, it will not be possible for the Respondent Authorities to ascertain as to whether the Company is fulfilling the norms for grant of consent under the Air Act or Water Act. The Hon’ble High Court has issued the following directions vide Order dated March 02, 2023.

-
- (a) The Company shall be permitted to run the industry for a period of eight weeks from the date of its actual operation and after completion of said period of eight weeks, in the ninth week an inspection shall be conducted by the U.P. Pollution Control Board and the report which may be prepared on the basis of such inspection shall be provided to the petitioner as well. In case any deficiency is found in such inspection report, the same shall be removed by the petitioner within two weeks and thereafter again an inspection shall be conducted, report whereof shall be submitted to U.P. Pollution Control Board for consideration of the prayer of the petitioner for grant of consent under the Air Act and Water Act.
- (b) The Hon'ble High Court has made it clear that they have permitted the Company to run industry only on trial basis in terms of this order and to facilitate the process of consideration of the prayer of the Company for grant of consent under the Air Act and Water Act by the authority concerned.
- i. Agricultural and Processed Food Products Export Developmental Authority ("APEDA") issued show-cause notices ("SCN") to the Company revoking the registration-cum-membership-certificate ("RCMC"), suspended access to Meat Portal ("MPR") with immediate effect and seeking clarification on the certain allegations made against the company. And directed the Company to submit reasons as to why further action should not be taken against the Company. In response, the Company denied all the allegations of any manipulation committed by it. Further, the Company requested APEDA to drop the SCN and de-registration of its meat-plants, and to revoke the suspension of the RCMC of the Company. Further, APEDA issued a memorandum dated and held that the Company has been involved in forging of health certificates and suspended the RCMC and MPR of the Company, its wholly owned subsidiaries namely Federal Agro Industries Private and HMA Food Export Private Limited for a period of 6(six) months with effect from September 16, 2020 until March 15, 2021. Thereafter, the Company filed an appeal against the memorandum and pursuant to this appeal, APEDA granted the Company a personal hearing on January 6, 2020 and appeal was dismissed vide a letter dated February 9, 2021. Subsequently, APEDA issued a letter dated March 16, 2021 to activate the RCMC and MPR of the Company, Federal Agro Industries Private Limited and HMA Food Export Private Limited from March 16, 2021. APEDA acceded the Company's request with a warning of stricter action for future violations of this nature or any other. Due to revocation of the registration-cum-membership certificate ("RCMC") of the Company during FY 20-21 the revenue of the Company dropped by 28%. Further, the revocation was one time action and hence there is no future impact on the exports or exports to any country. Presently, the RCMC and MPR of the Company and its subsidiaries have been re-activated and no further action or negative correspondence has taken place with APEDA since these events.
- ii. The Uttar Pradesh Pollution Control Board ("UPPCB") issued a show cause notice dated November 22, 2012 against HMA Food Export Private Limited and collected samples of effluents of HMA Food Export Private Limited's industrial unit at Kuberpur, Agra on December 11, 2012. The UPPCB did not give the analysis report of the samples collected to the HMA Food Export Private Limited. But based on the analysis report, UPPCB passed an order dated December 19, 2012 against HMA Food Export Private Limited by which it inter alia refused to grant it consent for the year 2013 and ordered closure of its industrial unit at Kuberpur, Agra with immediate effect. Aggrieved, HMA Food Export filed a Writ Petition bearing no. 1295 of 2013 before the Hon'ble High Court of Allahabad ("**Court**") to quash the order dated December 19, 2012. The Court found that UPPCB had not fully complied with the principles of natural justice in the matter of HMA Food Export Private Limited. Vide order dated January 28, 2013, the Court inter alia (a) quashed the order of closure of plant dated December 19, 2012;(b) directed UPPCB to provide a copy of the analysis report of the sample collected on December 11, 2012 and (c) ordered the UPPCB to issue a fresh show cause notice to HMA Food Export Private Limited. No further SCN has been issued by UPPCB in this matter and the plant is operational since then.
- iii. The Uttar Pradesh Pollution Control Board ("UPPCB") issued a show cause notice dated November 22, 2012 against the Company and collected samples effluents of Company's industrial unit at Talaspur, Aligarh on December 13, and 2012. UPPCB did not give the analysis report of the samples collected to the Company. But based on the analysis report dated December 13, 2012, the UPPCB passed an order dated January 08, 2013 against Company by which it inter alia refused to grant it consent for the year 2013 and ordered closure of its industrial unit at Kuberpur, Agra with immediate effect. Aggrieved, Company filed a Writ Petition bearing no. 1295 of 4462 of 2013. The Court found that UPPCB had not fully complied with the principles of natural justice in the matter of Company. Vide order dated January 28, 2013, the Court inter alia (a) quashed the order of closure of plant dated January 08, 2013; (b) directed UPPCB to provide a copy of the analysis report of the sample collected on December 13, 2012 and (c) ordered the UPPCB to issue a fresh show cause notice to Company. No further SCN has been issued by UPPCB in this matter.

These past actions taken against our processing units have been properly dealt with and relevant compliance standards are being maintained at our active units. However, any failure to comply with statutory requirements may lead to penalties, fines and/or imprisonment. Our inability to manage statutory requirement and keep our processing units operational could affect our business including future results of operations, reputation and financial condition.

5. ***We do not have material experience in some of the new business ventures which have been recently started by our company and are proposed to be started shortly and our lack of business experience in these new ventures could reduce our investment returns and cause financial loss., which could in turn have a material adverse effect on our business, financial condition, results of operations and cash flows.***

We have been in the business of packaged frozen meat products since over 4 decades. We are currently among the largest exporters of frozen buffalo meat products from India and we account for more than 10% of India's total export of frozen buffalo meat (*Source: Brickworks Analytics Report*). Further in order to diversify our business model and add complimenting products to our portfolio, we have recently ventured into new businesses as under:

i) We have recently ventured into marine product exports which include Frozen Fish as a core product. Being an integrated line to Meat, exports of fish will enable us to capture new geographies and diversify our product portfolio. Pursuant to our board resolution dated September 20, 2021, we have entered into an outsourcing agreement dated October 01, 2021 for processing between HMA Agro Industries Limited and Gausia Cold Storage Private Limited wherein our company HMA Agro Industries Limited shall source all the orders from the market, procure the raw materials for processing and send to Gausia Cold Storage Private Limited who shall process, freeze and pack the products for us on a contractual basis and send the same back to our company for exports. The said agreement is valid upto November 02, 2024 and is renewable on mutual consent. The Company has executed exports of ₹ 389.17 million via this arrangement for the period ended December 31, 2022.

We have recently ventured into the business of exporting various types of Basmati rice pursuant to board resolution dated October 04, 2021. The company has executed exports of Basmati Rice of ₹ 32.43 million for the period ended December 31, 2022 and has invested nearly ₹ 27.04 million in the venture of Basmati rice. The vision is to utilize our export connections and well-established distribution network into Basmati Rice trade through partnership with local manufacturers and suppliers who are unable to utilize their installed capacities due to shortage of orders and finance availability. Further, Meat Products are normally consumed with Basmati Rice and hence this would become a critical cross saleable market for us.

When venturing in new businesses, we may face new and heightened risks due in part to our limited experience of such business. The risk and liquidity profiles of these new business ventures may significantly differ from the business we are traditionally in, and investments in these new business ventures may increase the overall risk exposure of our business. While we partner with experienced players in such field that delineates our business risks to certain extent, however lack of business experience of our top management in certain new business ventures could reduce our investment returns and cause financial loss, which could in turn have a material adverse effect on our business, financial condition, results of operations and cash flows. For further details, see "Our Business – Details of our recently initiated Business Diversification activities" on page no.130.

6. ***Our proposed expansion plans w.r.t our new processing facilities being set up are subject to the risk of unanticipated delays in implementation and cost overruns.***

We have made and intend to continue making investments to expand our processing capacities to aid our growth efforts. We through our wholly owned subsidiary United Farm Product Private Limited are establishing a Modern Integrated Abattoir cum Meat Processing Plant on a total area of 62.8 acres of plot area (2,54,467.47 Sq. mtr) at Nuh, Haryana (hereinafter referred to as "Haryana Plant"). The said plant was approved to be built vide board resolution dated May 23, 2018. The said plant has installed a slaughter cum buffalo meat processing line of 570 MT/ Day which will be the largest amongst all our other current plant capacities. Company has received Consent to Operate (CTO), completed trial runs and begun commercial production recently.

Our Proposed expansion remains subject to the potential problems and uncertainties that new manufacturing/processing projects face including delays in achieving production value/quality milestones and related design changes if any. Problems that could adversely affect our expansion plans include labour shortages, increased costs of equipment or manpower, inadequate performance of the equipment and machinery installed in our processing facilities, defects in design or construction, the possibility of unanticipated future regulatory restrictions, delays in receiving governmental, statutory and other regulatory approvals, incremental pre-operating expenses, taxes and duties, interest and finance charges, working capital margin, environment and ecology costs and other

external factors which may not be within the control of our management. If any incremental capital expenditures are required which significantly exceed our budgets, or even if our budgets were sufficient to cover these projects, we may not be able to achieve the intended economic benefits of these projects, which in turn may materially and adversely affect our financial condition, results of operations, cash flows, and prospects.

Further, our Company is currently partnering with a plant owner situated at D-1 & D-2, Site-1, UPSIDC Industrial Area, Unnao, Uttar Pradesh – 209801, India (hereinafter referred to as “Unnao Plant”). The plant is active and operational. Currently, Unnao Plant is owned by AOV Exports Pvt. Ltd. (which conducts processing on a contractual basis exclusively for HMA Agro Industries Ltd. currently). Further, our wholly owned subsidiary JFF Exports Pvt. Ltd. has recently entered into an agreement to acquire said plant from its current owner AOV Exports with all relevant assets pursuant to board resolution dated July 27, 2020. The transfer of plant assets is expected to be completed in FY 2023-2024. The Proposed change in ownership of such plant will require us to obtain various approvals, which are routine in nature. For further details, see “*Government and Other Key approvals*” on page no. 307. There can be no assurance that we will be able to obtain these registrations and approvals in a timely manner or at all. Further, in the event of any unanticipated delay in receipt of such approvals, the growth plans of our company could suffer substantially.

There can be no assurance that we will be able to complete the aforementioned expansion and additions in accordance with the proposed schedule of implementation and any delay could have an adverse impact on our growth, prospects, cash flows and financial condition.

7. *Certain of our subsidiary companies have incurred losses during the last three fiscal years, which may adversely affect our consolidated results of operations.*

Certain of our subsidiary companies have incurred losses on a standalone basis, details of which for the last three fiscal years have been set forth in the table below:

(₹ in millions)

Name of subsidiary companies	2021-2022	2020-2021	2019-2020
FNS Agro Foods Limited	(4.56)	(2.02)	(0.06)
HMA Natural Foods Private Limited	(0.04)	(0.03)	(0.01)
Indus Farmers Food Co. LLP	(0.06)	(0.03)	(0.01)
JFF Export Private Limited	(0.03)	(0.17)	NA
Laal Agro Food Private Limited	(4.49)	1.24	(2.68)
Swastik Bone and Gelatines Private Limited	(0.92)	(8.64)	(3.96)

In the event that these subsidiaries continue to incur losses or any of our other Subsidiaries incur losses, the Company’s consolidated results of operations and financial condition will be adversely affected. For further details, please refer the chapter titled “*History and Certain Corporate Matters*” beginning on page no. 165 of this Red Herring Prospectus.

8. *Some of our Group Companies have incurred losses in the last preceding financial year and have negative net worth, based on the last audited financial statements available.*

Some of our Group Companies has incurred losses in the preceding financial years based on the respective Group Companies’ last available audited financial statements. We cannot assure you that our Group Companies will not incur losses or have negative net worth in the future.

(₹ in millions)

Name of the Group Company	For the year ended March 31		
	2022	2021	2020
HMA Cattle Farming Private Limited	0.29	0.30	(0.53)
HMA Leather Export Private Limited	0.15	31.70	(0.15)
Gausia Cold Storage Private Limited	7.68	2.08	(6.00)

For more information on the Group Companies, please refer chapter titled “*Group Companies*” on page 206 of this Red Herring Prospectus.

9. ***Our Company has availed ₹ 31.28 million as unsecured loan on a consolidated basis which are repayable on demand. Any demand from the lenders for repayment of such unsecured loan may affect our cash flow and financial condition.***

As per the Restated Consolidated Financial Information as on December 31, 2022, our Company including its subsidiaries has availed total sum of ₹ 31.28 million as unsecured loans which are repayable on demand of which ₹ 4.42 million is from our directors. These unsecured loans were obtained and utilised towards working capital needs of the respective companies from time to time. The details of our unsecured loans outstanding entity wise are as below:

Name of the Entity (Relationship)	Amount (₹ in million)
Gulzar Ahmad (Key Managerial Personnel)	2.00
Mohammad Ashraf Qureshi (Relative of Key Managerial Personnel)	1.42
Wajid Ahmed (Key Managerial Personnel)	1.00
Indus Farmers Food Co. LLP (Subsidiary)	26.86
Grand Total	31.28

Sudden recall may disrupt our operations and also may force us to opt for funding at higher interest rates, resulting in higher financial burden. Further, we will not be able to raise funds at short notice and thus resulting in shortage of working capital fund. For further details, please refer to the section “*Financial Indebtedness*” beginning on page no. 285 of this Red Herring Prospectus. Any demand for the repayment of such unsecured loans, may adversely affect our cash flow and financial condition.

10. ***We do not have long-term agreements with suppliers for our raw materials which may lead to an increase in the cost of, or a shortfall in the availability of livestock raw materials.***

Our business depends on the availability of reasonably priced, high quality raw materials which are in the form of livestock, all of which are purchased from the open market. Our Cost of materials consumed for the nine months ended December 31, 2022, year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 17,827.61 million, ₹ 24,214.49 million, ₹ 13,358.77 million and ₹ 19,758.18 million respectively or 73.73%, 77.14, 77.65% and 81.76% of our total revenue, respectively. The price and availability of such raw materials depend on several factors beyond our control, including overall economic conditions, availability levels, market demand & competition for such raw materials, transportation costs, duties & taxes and trade restrictions. We usually don’t enter into long-term supply contracts with any of our suppliers and typically source raw materials from third-party suppliers or the open market. The absence of Long-term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require and we may be unable to pass these costs onto our customers, which may reduce our profit margins. We also face a risk that one or more of our existing suppliers may discontinue these supplies to us, and any inability on our part to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect our operations.

If, for any reason, primary suppliers of raw material should curtail or discontinue their delivery of such materials or products to us in the quantities we need, or on commercially acceptable terms, production schedules could be disrupted and our business and results of operations could be adversely affected.

11. ***A slowdown or shutdown in our processing operations or under-utilization of our processing facilities could have an adverse effect on our business, results of operations and financial condition.***

We process our products through APEDA approved Food Processing units, most of which are owned by our subsidiaries and some are owned by third parties. These processing units process our products on a contractual basis against the fixed charges, which are borne by our company. All the products are packaged and exported by our company under our brands. Our business is hence dependent upon our ability to manage our processing facilities, which are subject to various operating risks, including those beyond our control, such as the breakdown and failure of equipment or industrial accidents and severe weather conditions and natural disasters. Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair malfunctioning machinery in a timely manner or at all, our operations may need to be suspended until we restore or procure machinery to replace the same. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections and testing, or may shut down certain facilities for capacity expansion and equipment upgrades. We may also face protests from local citizens at our existing facilities or while setting up new facilities, which may delay or halt our operations.

We have experienced certain disruptions at our processing facilities in the past for further details please refer the chapter titled “*Outstanding Litigations and Material Developments*” on page no. 290 of this Red Herring Prospectus. We cannot assure you that there will not be any disruptions in our operations in the future. Our inability to effectively respond to such events and rectify any disruption, in a timely manner and at an acceptable cost, could lead to the slowdown or shut-down of our operations or the under-utilization of our processing facilities, which in turn may have an adverse effect on our business, results of operations and financial condition.

12. *We are subject to counterfeit, cloned and pass-off products, which may reduce our sales and harm the reputation of our brands.*

We are subject to counterfeit, cloned and pass-off products in our business. Our products are sold as packaged frozen meat products to end consumers through wholesale and retail distribution channels. The core product being food product, the differentiator for us lies in our quality maintenance and our ability to meet all statutory & food safety standards. The brand recall of our brands Black Gold, Kamil etc helps us retain clients who have tried our products and wish to re-buy them.

Counterfeit and cloned products are products manufactured and sold illegally as legitimate products (i.e. meat products which do not have the necessary statutory licenses or those who do not adhere to the food safety standards as compared to our products), whereas pass-off products are manufactured and packaged to resemble legitimate products (i.e. Our competitors may use packaging which is similar looking to our packaging and hence may be able to take advantage of our customer recall value created by our quality). In the past few years, advances in technology have contributed to the ease at which legitimate products can be counterfeited. The sale of counterfeit, cloned and pass-off products have led, and if left uncurbed, will continue to lead, to lower sales for our business. In addition, such products may be harmful to consumers or may be less effective than genuine products, which could harm our brands and reputation. The proliferation of unauthorized copies of our products, and the time in pursuing claims and complaints about spurious products could have an adverse effect on our reputation and our business.

13. *We have in the past entered into related party transactions and may continue to do so in the future, which may potentially involve conflicts of interest with the equity shareholders.*

We have entered into transactions with related parties in the past and from, time to time, we may enter into related party transactions in the future. These transactions principally include remuneration or benefits to executive Directors and Key Managerial Personnel, Charges paid by us to our subsidiaries for processing our products at their units on a contractual basis and other such routine transactions.

While all such transactions have been conducted on an arm’s length basis, in accordance with the Companies Act and other applicable regulations pertaining to the evaluation and approval of such transactions and all related party transactions that we may enter into post-listing, will be subject to Board or Shareholder approval, as necessary under the Companies Act and the SEBI Listing Regulations, in the interest of the Company and its minority Shareholders and in compliance with the SEBI Listing Regulations. Further, it is likely that we may enter into additional related party transactions in the future. Such related party transactions may potentially involve conflicts of interest.

In Fiscal 2020, 2021 and 2022 and in the nine months ended December, 2022, the aggregate amount of such related party transactions was ₹ 1,740.93 million, ₹ 1,424.78 million, ₹ 10,486.97 million and ₹ 16,117.13 million respectively. For further information on our related party transactions, see “Restated Financial Statements – Related party disclosure on page no. 221 of this Red Herring Prospectus.

14. *Our operating profits are dependent to a certain extent on the price movements of Indian made meat in the International Markets. Any adverse price movements in these markets could affect our results of operations and financial conditions.*

The price of Indian Buffalo meat has historically been lower than other country made meat such as USA, Australia, Canada and even other developing countries like Brazil, Argentina etc. in the international markets. For details of the average export prices earned country wise for the FY 2022 please see the graph on page 115 of this Red Herring Prospectus.

While the average price of Indian Made meat products has increased in the last few years, the Brickworks Analytics report states that the price of Indian Buffalo meat is expected to remain moderate in the coming year. These prices are market driven and are set based on the quality perception of Indian meat products in International Markets. The same is not in the control of our company nor the same are traded on any exchange whereby our company can hedge

the risks of price variation. If for some external reason the prices of Indian made meat fall and we are unable to reduce our cost of raw material purchase locally in the same ratio the same could affect our profitability, results of operations and financial conditions.

- 15. *Our Promoter and members of Promoter Group have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. Our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoter and members of Promoter Group in connection with our Company's borrowings.***

Our Promoter, Managing Director, and our Promoter Group have mortgaged their personal properties and provided personal guarantees for our borrowings to secure our loans. *For further details of the collateral securities offered to our secured lenders, please refer "Financial Indebtedness" on page 285 of this Red Herring Prospectus.* If any of these guarantees are revoked, our lenders may require alternative guarantees or collateral or cancellation of such facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations, cash flows and prospects may be adversely affected by the revocation of all or any of the personal guarantees provided by our Promoter and Promoter Group in connection with our Company's borrowings.

- 16. *The income-tax authorities have conducted searches at the premises our Company, its Subsidiaries, certain Group Companies/entities, the Promoters and Directors. Any adverse outcome of the searches would have an adverse effect on the operations and reputation of our Company, which in turn could have an adverse impact on our business, financial condition and results of operations.***

On November 5, 2022, income-tax authorities have conducted searches at the premises of the Company, its Subsidiaries, certain Group Companies/entities, the Promoters and Directors inter alia at various locations in Agra, Nuh, Dhandero, Jaipur, Dera Bassi, Parbhani, Aligarh, Unnao under Section 132 of the Income-tax Act, 1961. Panchnamas in respect of the above searches were prepared recording the search proceedings conducted by the various Income-tax officers at these locations of the Company, its Subsidiaries, certain Group Companies/entities, the Promoters and Directors. Further proceedings have been initiated against our Company and/or the Promoter/Director in this regard by the income-tax authorities while no demand have been raised till the date of this Red Herring Prospectus, we cannot assure you that such proceeding, if initiated, will not result in a demand or imposition of penalty or prosecution in future. Adverse action, if any, taken by the income-tax authorities against our Company and/or its Subsidiaries, certain Group Companies/entities, the Promoters and Directors arising from such searches, may have an adverse effect on the operations and reputation of our Company and could have an adverse impact on our ability to conduct our business, our financial condition and our results of operations. For further details, please refer to page no. 290 of this Red Herring Prospectus under the chapter titled "*Outstanding Litigation and Other Material Developments*".

- 17. *We rely on third-party transportation providers for both procurement of our raw materials and distribution of our products. Any failures by any of our transportation providers to deliver our raw materials or our products on time, or in good condition, or at all, may adversely affect our business, financial condition and results of operations.***

We depend on various forms of transportation to either receive raw materials for our processing purposes or to deliver the finished products to our distributors and other customers for our export and domestic sales. For these purposes, we typically use third-party transportation providers. Further, we undertake our export activities from Nhava Sheva Port, Mumbai to which our products are delivered primarily through road transport from our processing facilities and thereafter exported. We are therefore significantly dependent on transportation and logistics companies that we engage with.

The disruption of transportation services due to natural factors such as weather conditions particularly during monsoon or flood seasons, or man-made factors such as strikes, accidents, or other inadequacies in the transportation infrastructure, or any other factor that could impair the ability of our suppliers to deliver raw materials to us and our ability to deliver our products to our retailers and distributors and their ability to deliver products to the end customers in a timely manner, which may adversely affect our sale of our packaged frozen meat products. Such raw materials and our products may be lost, damaged or deteriorated and contaminated due to improper handling, negligence, transport strike or accidents or any other *force majeure* events which may not be within our control.

Additionally, if we lose one or more of our third-party transportation providers, there can be no assurance that we will be able to find new or alternative third-party transportation providers at all, or at terms as favourable as those which we have in force with our current partners. Further, our third-party transportation providers may not carry adequate insurance coverage and therefore, any losses that may arise during the transportation process may have to be claimed under our marine insurance policy. There can be no assurance that we will receive compensation for any such claims in full amount in a timely manner or at all, and consequently, any such loss may adversely affect our business, financial condition and results of operations.

18. Any failure to protect or enforce our rights to own or use trademarks and brand names and identities could have an adverse effect on our business and competitive position.

Our packaged frozen meat products are bought by end customers in over 40 countries off the shelf at a retail store or supermarket etc. Our products are sold under registered brand name “Black Gold”, “Kamil” and “HMA” Further our corporate logo and other relevant trademarks are also critical to our business. Hence, our brand recalls used in selling our packaged frozen meat products are critical to our growth and continuous business.

As on the date of this Red Herring Prospectus, we have 46 registered trademarks for which we have obtained valid registration certificates under various classes under the Trademarks Act in India. Our main logos, “We Believe in Quality Only – HMA” “Black Gold” & “HMA” are registered under various applicable classes of the Trademarks Act based on the products we offer and they are currently valid. Further we also use the brand ‘Kamil’ which is registered in the name of our subsidiary HMA Food Export Private Limited. We have on September 21, 2022 and on June 28, 2022 have made applications for the trademarks “HMA Fresh Gold” & “GREEN GOLD” under class 29 & 30 of the Trademarks Act of India. Further, due to certain differences in the “font” of HMA between the logo we use and the registered trademark of the same, we have recently in January 22, 2022 applied for trademark registration of our corporate logo with revised font as an additional trademark for further safety of our corporate logo. The said application has been filed and is currently pending for registration. However, there can be no assurance that the said application will succeed. If our Company is unable to obtain registration thereof, we may still continue to use the corporate logo but remain vulnerable to infringement and passing-off by third parties and will not be able to enforce any rights against them. We may also need to change our corporate logo which may adversely affect our reputation and business and could require us to incur additional costs.

We have not applied for or registered our trademarks in any of the foreign countries wherein we export our products. Local organizations in such countries could hence register a similar brand name and sell competing products and we may not be able to adequately protect our intellectual rights in such a situation. Further, similar sounding or looking products if any have a negative event in such country our brand image could also be damaged since we cannot restrain such competing organization from using a logo or brand similar to ours in their respective country.

Any failure to renew registration of our registered trademarks may affect our right to use them in future. Any failure to obtain registration of our applied trademark may affect our right to use them in future Our efforts to protect our intellectual property may not be adequate and any third-party claim may lead to erosion of our business value and our reputation, which could adversely affect our operations. It may lead to litigation and any such litigation could be time consuming and costly and their outcome cannot be guaranteed. Third parties may also infringe or copy our registered trademarks. We may not be able to detect any unauthorized use or take appropriate and timely steps to enforce or protect our trademarks. Further, if we do not maintain our brand name and identity, which is a principal factor that differentiates us from our competitors, or if we fail to provide high quality projects on a timely basis, we may not be able to maintain our competitive edge. If we are unable to compete successfully, we could lose our customers, which would negatively affect our financial performance and profitability. Moreover, our ability to protect, enforce or utilize our brand is subject to risks, including general litigation risks. Furthermore, we cannot assure you that our brand name will not be adversely affected in the future by actions that are beyond our control, including customer complaints or adverse publicity from any other source. Any damage to our brand name, if not immediately and sufficiently remedied, could have an adverse effect on our business and competitive position.

Finally, while we take care to ensure that we comply with the intellectual property rights of others, we cannot determine with certainty whether we are infringing any existing third-party intellectual property rights, which may force us to alter our offerings. We may also be susceptible to claims from third parties asserting infringement and other related claims. If similar claims are raised in the future, these claims could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities and require us to enter into potentially expensive royalty or licensing agreements or to cease certain offerings. Any of the foregoing could have an adverse effect on our business and competitive position. For details of the trademarks registered in the name of our Company

and the applications made for registration, please refer “Government and Other Approvals” on page no. 307 of this Red Herring Prospectus.

19. *Our ability to maintain quality standards is subject to performance of our contractual arrangements with owners of our processing units.*

We are a Three Star Export House and we export Packaged Frozen Meat Products to over 40 countries. The raw material procurement is done by our Company and the same is processed at various processing units most of which are owned by our subsidiaries and some are owned by third parties all of which process these products for us on a contractual basis for agreed charges which are borne by our company. (“Hereinafter referred to as “Processing Partners”).

These processing partners are selected based on various factors, including, experience, location, quality manufacturing practices and availability of manpower etc. Most of our processing partners are our subsidiaries and we exercise significant control over the day-to-day operations of these companies, however, although we carefully select our third-party processing partners, we have limited control over the day-to-day affairs of these units. *For the Financial Year ended March 31, 2022 out of our total export 34.14 % is processed by third party processing partners, respectively. The loss of any significant processing partners would have a material effect on our financial results. Further, the Company has established a Modern Integrated Abattoir cum Meat Processing Plant on a total area of 62.8 acres of plot area (254467.47 Sq. mtr) at Nuh, Haryana (Haryana Plant) and acquiring Unnao plant, as per management estimates, after commencement of Haryana Plant and acquisition of Unnao plant third party processing export shall be less than 20%.* We cannot ensure that our processing partners will meet our processing requirements at all times. Any delay at the level of our processing partners can cascade into our commitments to our buyers. We may not be able to exercise total quality control over the product and supplies of our processing partners. There is a risk that we may have disputes with our processing partners concerning quality, payments and timely execution of work among other things performed by our processing partners. We cannot assure you that these disputes will be amicably resolved or will not result into arbitration, litigation or other dispute resolution proceedings.

20. *Outbreaks of livestock diseases in general can significantly restrict our ability to conduct our operations.*

We take all reasonable precautions to ensure that our livestock are healthy and that our processing plants and other facilities operate in a hygienic and environmentally sound manner. However, events beyond our control, such as the outbreak of disease, could significantly restrict our ability to conduct our operations. Even though we have not had any such material incident in the past, an outbreak of disease could result in governmental restrictions on the export and domestic sale of our products or other products to, or from our suppliers, facilities or customers, or require us to destroy one or more of our livestock. This could result in the cancellation of orders by our customers and create adverse publicity that may have a material adverse effect on our ability to market our products successfully and on our business, reputation and prospects. Such outbreaks of diseases subject our business to increase regulatory or customer scrutiny and adversely affect our business. In addition, any disease or epidemic affecting the health of buffalo livestock in India may result in a decrease in the sale of our products.

21. *Non-eradication of foot-and mouth disease (FMD) from India could materially adversely affect our business operations and exports demand.*

The buffalo meat is processed and exported in accordance with Organization International Des Epizooties (OIE, international guidelines) for any risk mitigation. Only boneless buffalo meat is allowed for export from India which is safe and risk-free. India exports buffalo meat to more than 70 countries globally in Southeast Asia, Middle East, Africa, CIS countries. The major markets are Vietnam, Hong Kong, Malaysia, Egypt, Iraq, Saudi Arabia, Philippines, Indonesia, Myanmar, UAE, Algeria, and Russia.

India is classified as free from all the disease mentioned in “A” list (please refer, chapter titled “*Industry Overview*” on page 96 of this Red Herring Prospectus) of International Organization for Animal Health (OIE) diseases, except foot-and-mouth disease (FMD). FMD free status and product traceability are required for exports to developed markets such as USA and EU. India does not have FMD-free status, restricting access to many countries. It predominantly exports to developing and price sensitive markets in South-East Asia and the Middle East. India has already started taking measures to overcome such exports barriers. Government has launched National Animal Disease Control Programme, in June 2019, to control Foot-and-mouth disease (FMD) and Brucellosis by 2025 with vaccination and eradication of disease by 2030. 100 per cent cost of vaccine is borne by the Central Government with an outlay of ₹13,343 crore. Inability of Indian government to get Indian Buffalo meat the status of “FMD Free

status” could affect our grow and sustain our export business of buffalo meat. This could further affect our results of operations and financial conditions.

22. Adverse changes in our credit ratings could materially adversely affect our ability to raise funds and hence affect our financial conditions.

As of December 31, we had a total outstanding indebtedness of ₹ 3,406.77 million. Our debt raising is dependent on maintaining and improving our credit ratings. Over the last five years following are our credit ratings assigned ratings assigned:

Name of Rating Agency	Instrument/Facility	Date of Rating	Rating Granted
CRISIL Limited	Short Term Rating	02.05.2018	A3+
	Long Term Rating		BBB Stable
CRISIL Limited	Short Term Rating	08.07.2019	A3+
	Long Term Rating		BBB Stable
Infomeric Ratings	Long Term Bank Facility-Fund Based Limit	30.09.2020	BBB +Stable
	Short Term Bank Facility-Fund Based Limit		A2
CRISIL Limited	Short Term Rating	23.10.2020	A2
	Long Term Rating		BBB +Stable
CRISIL Limited	Long Term Rating	02.08.2021	BBB +Stable
Infomeric Ratings	Long Term Bank Facility-Fund Based Limit	29.11.2021	BB +
	Short Term Bank Facility-Fund Based Limit		A4+
CRISIL Limited	Long Term Rating	24.12.2021	A-Stable
CRISIL Limited	Long Term Rating	22.03.2022	A-Stable
CRISIL Limited	Long Term Rating	23.03.2023	A-Stable
CRISIL Limited	Long Term Rating	23.03.2023	A-Stable

If any our of credit ratings are revised downward in the future, this event may be looked at negatively by our lenders and hence it may affect our ability to continue to avail the credit facilities we enjoy as well as our ability to raise new debt if needed. This could affect our cash flows and financial condition adversely.

23. One of our Promoters has political background. Any adverse incidence in his political life may affect the business growth of our Company and/or the price of our scrip.

One of our Promoters i.e., Mr. Zulfiqar Ahmad Qurashi was a politician. Mr. Zulfiqar Ahmad Qurashi (also known as Zulfiqar Ahmed Bhutto in political career) was a M.L.A. of the Uttar Pradesh Legislature elected from Agra Cantt. Assembly constituency between 2007-12. His political career spanned over fifteen years; however, he has left active politics since 2017.

Due to the past political affiliations of our Promoter, Mr. Zulfiqar Ahmad Qurashi, the investors may perceive that any adverse incidences in their political career such as loss of power by the political party with whom he may affiliate in future, their political rivals or parties coming to power, defeat in elections and such other political reasons, may affect the business growth of our Company and/or the price of our scrip.

24. Some of our Directors and Promoter group members have given personal guarantees for our credit facilities obtained from banks and financial institutions. Inability to continue these guarantees could materially adversely affect our ability to continue to avail such credit facilities from Banks and Institutions.

Our company has availed debt from Banks and Financial Institutions from time to time. As part of their debt facility sanctions, some of our directors and promoters group members have provided personal guarantees to these banks and financial institutions. For details regarding these personal guarantees please refer to chapter titled “Financial Indebtedness” on page 285 of this Red Herring Prospectus. Even though we have not experienced any instance of promoter's personal guarantees and/or company guarantees been invoked in the past 3 fiscal years, however, there can be no assurance that we will not experience any guarantees been invoked or similar incidents in the future, which could adversely affect our results of operations and financial condition. Further our directors and promoters group members may in the future disassociate with our company for some reason and in such case, we may have to replace their names with the incoming members or other such collaterals would have to be provided to our lenders as the case may be. Our inability to ensure that these personal guarantees are replaced with adequate comfort as required

by the lenders could lead to our inability to continue to avail such debt facilities and the same could hence materially adversely affect our results of operations and financial conditions.

25. *The current and continuing impact of the COVID-19 pandemic on our business and operations, including its impact on the ability or desire of consumers to purchase our products, may have an adverse effect on our business prospects and future financial performance.*

The outbreak of COVID-19 was declared a pandemic by the World Health Organization on March 11 2020 and as of the date of this Red Herring Prospectus it is still ongoing. The GoI initiated a nation-wide lockdown from March 24, 2020 that lasted until May 31, 2020 and has been extended periodically by varying degrees by state governments and local administrations. Although the nationwide lockdown was lifted on June 1, 2020, restrictions on non-essential activities and travel were imposed in multiple states across specific districts that were witnessing increases in COVID-19 cases. The second wave of COVID-19 infections impacted India in April, May and June 2021. The second wave resulted in significant strain on the health infrastructure in the country resulting in several states announcing lockdown measures. The second wave also resulted in a large part of the population working from home and implementing social distancing measures. In June 2021, the COVID-19 reported cases from the second wave declined and the GoI and state governments started gradually easing some of the strict precautionary measures.

Our exports were impacted for two months – April & May 2020 on the onset of COVID-19, post which upon relaxation of restrictions the operations resumed from June 2020. Our Company has responded swiftly by implementing various processes to ensure our operations continue seamlessly.

As we are in the food industry, which was determined by the Government of India to be essential which allowed us to continue our operations during the nationwide lockdown. However, restrictions on manpower movement during the lockdown impacted our operations and capacity expansion projects, as well as increased our operation costs. We implemented health and safety measures as per the required norms. Our processing facilities, therefore, continued to operate normally during the first and second waves of COVID-19 infections except for the months stated above.

The impacts of the pandemic on our business, operations and financial performance have included and may continue to include the following:

- Temporary shutdown of certain of our processing facilities and regulatory restrictions relating to the pandemic interrupting our operations may also affect our ability to effectively manage our product inventory.
- Temporary shutdown at export hubs or key logistics point could affect our ability to manage our sales and purchase cycle.
- Temporary closure of our office and decline in the availability of workforce due to employees contracting the virus, rationalization of the workforce, and restrictions on travel and movement due to lockdowns imposed by various state governments, affecting commute of employees to their places of work.
- Compliance with evolving government regulations, including with respect to social distancing measures and sanitization practices. Although we are currently in compliance with such guidelines, any failure in the future to fully comply or adhere to the measures and guidelines or any other similar regulations could lead to the imposition of penalties, fines or other sanctions, which could have an adverse impact on our business.

Additionally, there can be no assurance that we will be able to successfully achieve our expansion strategies in the event of subsequent waves of the pandemic in India that led to additional restrictive measures or hamper overall economic recovery. For instance, the second wave of the COVID-19 pandemic in India in April and May 2021 led to additional restrictive measures such as lockdowns and curfews in certain parts of India, restricting operations at our processing facilities and exposing our personnel to the increased risk of contagion. Further, while a majority of the eligible population under India's vaccine scheme is now fully vaccinated, the likelihood of subsequent waves of the COVID-19 pandemic in India remains high especially against any new variants of COVID-19, for example, B.1.1.529 (Omicron) variant and we may be subject to further lockdowns or other restrictions in the rest of Fiscal 2022 and beyond. In the event subsequent waves worsen or are not controlled in a timely manner, we may not be able to (i) manage our operations at their full capacity; and (ii) successfully implement our growth strategy. Even though we have taken various initiatives to raise awareness for COVID as well as implemented social distancing and hygiene measures in our various facilities and offices, we cannot assure you that in the event of another COVID-19 wave additional restrictions will be put back in place or if another lockdown would be re-imposed to control the spread of COVID-19. The impact of the ongoing pandemic cannot be ascertained at this time, and while we cannot currently estimate the duration or future impact of the COVID-19 pandemic on our business or on the Indian or global

economy, there is a likelihood that the effects could continue into Fiscal 2022 and beyond. In addition, if our Key Managerial Personnel or a significant percentage of our workforce is unable to work due to COVID-19 illness, quarantine, limitations on travel or other government restrictions in connection with the COVID-19 pandemic, our operations may be negatively impacted. An outbreak of the COVID-19 pandemic connected to one or more of our processing facilities could also cause negative publicity directed at any of our distributors and cause customers to avoid our products, which could have a material adverse effect on our business, results of operations, financial condition, cash flows, reputation and prospects. Also, see “*Restated Financial Statements*” on page on. 210 of this Red Herring Prospectus.

26. *A significant change in the regulatory environment Government schemes or duty exemptions could disrupt our business and may affect our cash flow and financial condition and the price of our Equity Shares.*

The Government of India has traditionally exercised and continues to exercise a dominant influence over many aspects of the economy. Currently the company is availing various government schemes including, i) duty drawback which is 0.10% on FOB value of export. ii) Interest equalization from GOI which is right now 3% and extended by GOI upto March 2024. Such economic policies have had and could continue to have a significant effect on private sector entities, including us, and on market conditions and prices of Indian securities, including the Equity Shares. Any significant change in the government’s policies or any political instability in India could adversely affect business and economic conditions in India and could also adversely affect our business, our future financial performance and the price of our Equity Shares.

27. *Some of our group companies may operate in a similar line of business in future as that of our company. This could lead to potential conflicts of interests in the future and may adversely affect business operations and consolidated financial condition of our Company.*

None of our group companies currently compete with our company with the similar line of business. However, HMA Cattle Farming Private Limited, Gausia Cold Storage Private Limited, and HMA Hygienic Foods Industries Private Limited are allowed by their respective MOAs to engage in similar business activities as to our business and hence to that extent there does exist a potential conflict of interest therein. For further details, please refer the chapter titled “*Our Promoter and Promoter Group*” and “*Group Companies*” on page no. 198 and 206 of this Red Herring Prospectus.

Further, we have not entered into any non-compete agreement amongst such entities or our promoters and may not be able to protect the respective interests in case of a conflict. Our Promoter may have a conflict of interest with our interests or the interests of our shareholders and may favor certain companies in certain situations, or not direct opportunities to certain companies. Any such present and future conflicts could have a material adverse effect on our reputation, business, results of operations and financial condition which may adversely affect our profitability and results of operations.

28. *In addition to normal remuneration, other benefits and reimbursement of expenses of some of our directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding and dividend entitlement in our Company.*

Some of our Directors (including our Promoter) and Key Management Personnel are interested in our Company to the extent of their shareholding, loan, commission & dividend entitlement in our Company, in addition to normal remuneration or benefits and reimbursement of expenses. We cannot assure you that our directors or our Key Management Personnel would always exercise their rights as Shareholders to the benefit and best interest of our Company. As a result, our directors including our promoters will continue to exercise significant control over our Company, including being able to control the composition of our board of directors and determine decisions requiring simple or special majority voting, and our other Shareholders may be unable to affect the outcome of such voting. Our directors may take or block actions with respect to our business, which may conflict with our best interests or the interests of other minority Shareholders, such as actions with respect to future capital raising or acquisitions. We cannot assure you that our directors will always act to resolve any conflicts of interest in our favor, thereby adversely affecting our business and results of operations and prospects.

29. *Some of our borrowings carry restrictive covenants or conditions and could affect our ability to manage our business operations.*

Our borrowings from banks have certain conditions which could affect our operational flexibilities such as:

- The company would have to obtain prior permission of bank for availing credit facilities or operating current account with another bank.
- The company would have to take prior permission for making any adverse changes in its capital structure.
- Implement any scheme of amalgamation, merger or such restructuring.
- Implement any scheme of expansion or diversification or capital expenditure except normal activities indicated in fund flow statements submitted to bank.
- Undertake guarantee obligations on behalf of any other company/firm or person.
- Declare dividend for any year except out of profit relating to that year after meeting all the financial commitments to the bank and making all due and necessary provisions.
- Make any drastic changes in its management set ups.

Our inability to meet these conditions or ensure that compliance of these conditions do not hamper the operational flexibility needed from time to time could materially adversely affect our results of operations and financial conditions.

Further, for the proposed Offer, our Company has obtained the necessary consents from its lenders, as required under the relevant facility documentations for undertaking activities relating to the Offer including consequent actions, such as changes/amendments to including but not limited to, the constitutional documents (Memorandum of Association and/or Articles of Association) of our Company, the composition of its Management set-up, shareholding pattern, repayment/pre-payment of loans etc. For further details, please see “*Financial Indebtedness*” on page no.285 of this Red Herring Prospectus.

30. *The Improper handling, processing or storage of raw materials or products, or spoilage of and damage to such raw materials and products, or any real or perceived contamination in our products, could subject us to regulatory and legal action, damage our reputation and have an adverse effect on our business, results of operations and financial condition.*

The products that we process or produce are subject to risks such as contamination, adulteration and product tampering during their processing, transport or storage. We face inherent business risks of exposure to product liability or recall claims in the event that our products fail to meet the required quality standards or are alleged to result in harm to customers. For example, in meat exports business although we extensively test our primary raw material which is livestock of buffalo, there could still be some deviation from prescribed quality standards due to factors such as human error. Also, our raw materials and products are required to be stored and transported at specific conditions and under certain food safety conditions. Such risks may be controlled, but not eliminated, by adherence to good processing practices and finished product testing. We have little, if any, control over proper handling once our products are shipped to our customers, particularly our retail customers. We face the risk of legal proceedings and product liability claims being brought by various entities including consumers, distributors and government agencies for various reasons including for defective or contaminated products sold. For further details, please see “*Outstanding Litigation and Material Developments litigation filed against our company*” on page no. 290. If we experience a product recall or are a party to a product liability case, we may incur considerable expense in litigation. We cannot assure you that we will not experience product recalls or product liability losses in the future.

31. *Our inability to accurately forecast demand or price for our products and manage our inventory may have an adverse effect on our business, results of operations and financial condition.*

Our business depends on our ability to estimate the demand for our products from customers across different geographies we serve. If we underestimate demand or have inadequate capacity due to which we are unable to meet the demand for our products, we may process and produce fewer quantities of products than required, which could result in the loss of business. While we forecast the demand and price for our products and accordingly plan our production volumes, any error in our forecast could result in a reduction in our profit margins and surplus stock, which may result in additional storage cost and such surplus stock may not be sold in a timely manner, or at all. At times when we have overestimated demand, we may have incurred costs to build capacity or purchased more raw materials and processed more products than required. In addition, our products have a shelf life of a specified period and if not sold prior to expiry, may lead to losses or if consumed after expiry, may lead to health hazards. Our

inability to accurately forecast demand for our products and manage our inventory may have an adverse effect on our business, results of operations and financial condition.

32. *A shortage or non-availability of electricity, fuel or water may adversely affect our processing operations and have an adverse effect on our business, results of operations and financial condition.*

Our processing operations require a significant amount and continuous supply of electricity, fuel and water and any shortage or non-availability may adversely affect our operations. The production process of certain products, as well as the storage of livestock, raw materials and products in temperature-controlled environments requires significant power. We currently source our water requirements from state and municipal corporations and local body water supply, canals, bore wells and water tankers and depend on state electricity boards for our energy requirements. Although we have diesel generators to meet exigencies at certain of our facilities, we cannot assure you that our facilities will be operational during power failures. Any failure on our part to obtain alternate sources of electricity, fuel or water, in a timely fashion, and at an acceptable cost, may have an adverse effect on our business, results of operations and financial condition.

33. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.*

The regulatory and policy environment in which we operate is evolving and subject to change. Such changes may adversely affect our business, results of operations and prospects, to the extent that we are unable to suitably respond to and comply with any such changes in applicable law and policy. GST has been implemented with effect from July 1, 2017 and has replaced the indirect taxes on goods and services such as central excise duty, service tax, central sales tax, state VAT and surcharge currently being collected by the central and state governments. Unfavourable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future.

34. *Our operations are hazardous and could expose us to the risk of liabilities, loss of revenue and increased expenses.*

Our operations are subject to various hazards associated with the production of frozen meat products, such as the use, handling, processing, storage and transportation of livestock and disease as well as infections management from such activities. In addition, our employees operate heavy machinery at our processing facilities and accidents may occur while operating such machinery. These hazards can cause personal injury and loss of life, severe damage to and destruction of property and equipment, environmental damage and may result in the suspension of operations and the imposition of civil and criminal liabilities. On 21st April, 2023, an accident took place at the factory of Federal Agro Industries Private Limited, while cleaning the cement drainage pit constructed for draining waste of slaughtered animals. Federal Agro had engaged 4 persons to clean the said drainage pit. It appears that the said workers without following the proper procedure lifted the cover of the pit, which caused release of toxic gas from the drainage pit causing death of 4 workers. Pursuant to this accident, FIR was lodged against Mr. Kamil Quershi and P.M. Hameed at Dera Bassi Police Station under Sections 304 read with Section 34 of the Indian Penal Code. The Police have recorded the statements of relatives of the deceased workers. Federal Agro is investigating the matter and in the process of providing proper monetary compensation to the legal heirs of the deceased, on receipt of which the legal heirs would be withdrawing their respective complaints made to the Police station. We cannot assure that such accident or incident will not occur in future and if they occur, we and our employers, directors, officers may be liable criminally or otherwise for the damage, injury caused to any person or property and compensation payable therefore or for loss of life. As a result of past or future operations, claims of injury by employees or members of the public due to exposure, or alleged exposure, to the hazardous materials involved in our business may arise. For further details, see “*Outstanding Litigation and Material Developments*” on page no.290 of this Red Herring Prospectus. Liabilities incurred as a result of these events have the potential to adversely impact our financial position. Events like these could result in liabilities, or adversely affect our reputation with suppliers, customers, regulators, employees and the public, which could in turn affect our financial condition and business performance.

35. Fluctuations in the price of procurement of livestock could adversely affect our business and results of operations.

The results of operations of our meat business depend heavily on the price of livestock prices which are subject to volatility and cyclicity, and are affected by, among other things:

- The supply of and demand for buffalo livestock in local areas
- Local and global consumption levels of meat; and
- Import and Export duties and other taxes and regulations related to meat.
- Perception of Indian Buffalo in the foreign markets
- Local disruptions in other exporting or importing countries w.r.t livestock products

Livestock is not a globally exchange traded commodity and is severely local w.r.t its pricing. Various factors could affect the prices of livestock to change including but not limited to those mentioned above. Further, in the event of a significant and prolonged reduction in the prices for buffalo livestock, farmers may uproot their business of livestock and move to other activities, which could adversely affect our business and results of operations.

36. The Objects of the Offer for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled “Objects of the Issue”. Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management’s estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time on account of various factors such as our financial and market condition, business and strategy, competition, negotiation with suppliers, and other external factors including impact of the COVID-19 pandemic, interest or exchange rate fluctuations, increase in input costs, logistics and transport costs, taxes and duties, regulatory costs which may not be within the control of our management Our estimates may exceed the value and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. However, our Company has appointed, CRISIL Ratings Limited (CRISIL) as a Monitoring Agency in compliance with SEBI ICDR Regulations for monitoring the utilisation of the Net Proceeds and the Board after consideration and approval by the Audit Committee will disclose the utilisation of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchanges, on a quarterly basis, deviations, if any, in the Use of Proceeds of the Issue from the Objects stated in the Red Herring Prospectus or by way of an explanatory statement to the notice for a general meeting

37. We have certain contingent liabilities that have not been provided for in our Company’s financials, which if realized, could adversely affect our financial condition.

Our contingent liabilities as at December 31, 2022 is as follows:

(₹ in million)

Particulars	Period ended December 31, 2022
(a) Export obligation ⁽¹⁾ The Group has imported plant and machinery for their project under EPCG scheme for which - Export obligation pending against duty saved against which export has to be made in six years	705.58
(b) Other commitments – Guarantee given to Contingent Liabilities for loans availed by the Group	5,450.00
(c) Contingent Liabilities ⁽²⁾	
Claim against Group not acknowledged as debt for matters under appeal against below revenue authorities.	
Income Tax	-
Service Tax	125.67
Value Added Tax	199.30

⁽¹⁾ We cannot assure you that these contingent liabilities will not become established as liabilities. In the event any of these contingent liabilities become established as liabilities, it may have an adverse effect on our financial condition and results of operations.

⁽²⁾ The Company believes that these claims are not tenable and hence no provision

38. Any failure of our information technology systems could adversely affect our business and our operations.

We have information technology systems that support our business processes, including product formulas, product development, sales, order processing, production, procurement, inventory management, quality control, product costing, human resources, distribution and finance. These systems may be susceptible to outages due to fire, floods, power loss, telecommunications failures, natural disasters, break-ins and similar events. Effective response to such disruptions will require effort and diligence on the part of our third-party vendors and employees to avoid any adverse effect to our information technology systems. In addition, our systems and proprietary data stored electronically may be vulnerable to computer viruses, cybercrime, computer hacking and similar disruptions from unauthorized tampering. If such unauthorized use of our systems were to occur, data related to our product formulas, product development and other proprietary information could be compromised. Even though we have not experienced any major loss (not more than ₹ 5 million) due to technology failures in the past. The occurrence of any such events could adversely affect our business, interrupt our operations, subject us to increased operating costs and expose us to litigations.

39. Competition in the industries in which we operate could result in a reduction in our market share or require us to incur substantial expenditures on advertising and marketing, either of which could adversely affect our business, results of operations and financial conditions.

The industries in which we operate and intend to venture into are intensely competitive. We compete with several regional and local companies, as well as large multi-national companies that are larger and have substantially greater resources than we do, including the ability to spend more on advertising and marketing. We also face competition from new entrants who may have more flexibility in responding to changing business and economic conditions. Competition in our businesses can be based on, among other things, pricing, and innovation, perceived value, brand recognition, promotional activities, advertising, special events, new product introductions and other activities. It is difficult for us to predict the timing and scale of our competitors' actions in these areas. We expect competition to continue to be intense as our existing competitors expand their operations and introduce new products. Our failure to compete effectively, including any delay in responding to changes in the industry and market, together with increased spending on advertising, may affect the competitiveness of our products, which may result in a decline in our revenues and profitability. Our buffalo meat business faces significant competition, particularly from other vertically integrated peer companies. Some of our competitors may be larger than us, or develop alliances to compete against us, have more financial and other resources and have products with greater brand recognition than ours. Our competitors in certain regions may also have better access or exclusive arrangements to procure raw materials required in our operations and may procure them at lower costs than us, and consequently be able to sell their products at lower prices. As a result, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors or that our business and results of operations will not be adversely affected by increased competition.

40. Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business and results of operations.

As of December 31, 2022, we had a total outstanding indebtedness of ₹ 3,406.77 million. For details of our indebtedness please refer to chapter titled "*Financial Indebtedness*" on page 285 of this Red Herring Prospectus. Our ability to meet our debt service obligations and repay our outstanding borrowings will depend primarily on the cash generated by our business. Our financing agreements contain certain restrictive covenants that limit our ability to undertake certain types of transactions, including:

- any change in line of business or change in ownership,
- changes to our equity share capital and promoter ownership
- further charge creation on assets owned by the company
- raise debt capital from overseas or other debt markets

Inability to undertake such activities without the banks consent could delay such process of the company and hence in some cases adversely affect our business and financial condition. In addition, certain of our borrowings require us to maintain certain financial ratios and certain other informative covenants, which are tested at times on a quarterly or annual basis. In the event we breach any financial or other covenants contained in any of our financing arrangements or in the event we had breached any terms in the past which is noticed in the future, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. We may also be forced to sell some or all of our assets if we do not have sufficient cash or credit facilities to make repayments. Further, certain of our financing arrangements are due for renewal and we cannot guarantee that the facilities availed under such arrangements will be renewed on the previously agreed terms and conditions, or conditions which are

not more onerous on us. Our failure to meet our obligations under the debt financing agreements could have an adverse effect on our business, results of operations and financial condition.

41. *Some of our business operations are being conducted on leased premises and also as per agreements for facility usage. Our inability to seek renewal or extension of such leases may materially affect our business operations.*

Some of our business operations are being conducted on premises used by us from various third parties. We may also enter into such transactions with third parties in the future. Any adverse impact on the title, ownership rights, development rights of the owners from whose premises we operate, breach of the contractual terms of any lease, leave and license agreements, or any inability to renew such agreements on acceptable terms may materially affect our business operations. For further details, see “Our Business – Properties” on page no.130.

42. *Any inability on our part to collect amounts owed to us could result in the reduction of our profits.*

Our operations involve extending credit for extended periods of time to our distributors and certain customers and consequently, we face the risk of the uncertainty regarding the receipt of these outstanding amounts. The working capital cycle w.r.t our trade receivables for is of around 45 days with variation of 10 days expected as normal industry practice. As a result of such industry conditions, we have and may continue to have high levels of outstanding receivables. As per Restated Consolidated Financial Statement for the year ended March 31, 2022, March 31, 2021 and March 31, 2020 our trade receivables were ₹ 2,897.46 million, ₹ 1,567.42 million and ₹ 1,166.71 million respectively or 9.23%, 9.11% & 4.83% of our revenue from operations, respectively. The average working capital cycle of our trade receivables based on this data works out at around 45 days. We have a long-standing relationship with many of these debtors. We have not experienced any significant bad debts or trade recovery related issue, however as we scale our business, we may not be able to effectively manage our credit risk w.r.t as we enter new avenues and geographies. If our distributors and customers delay or default in making these payments, our profits could be adversely affected and it could affect our working capital cycle hence affecting our financial condition.

43. *If we pursue strategic acquisitions or joint ventures, we may not be able to successfully consummate favourable transactions or successfully integrate acquired businesses.*

We may from time to time evaluate potential acquisitions or joint ventures that would further our strategic objectives. We have multiple subsidiaries and a joint operation entity. However, we may not be able to identify suitable companies, consummate a transaction on terms that are favorable to us, or achieve expected returns and other benefits as a result of integration challenges or anti-monopoly regulations. Companies or operations acquired or joint ventures created by us may not be profitable or may not achieve sales levels and profitability that justify the investments made. Our corporate development activities may entail financial and operational risks, including diversion of management attention from its existing core business, difficulty in integrating or separating personnel and financial and other systems, and negative impacts on existing business relationships with suppliers and customers. Future acquisitions could also result in potentially dilutive issuances of equity securities; the incurrence of debt, contingent liabilities and increased operating expenses, all of which could adversely affect our business, financial condition, results of operations and prospects.

44. *We are dependent on a number of key personnel, including our senior management, and the loss of, or our inability to attract or retain such persons could adversely affect our business, results of operations and financial condition.*

Our performance depends largely on the efforts and abilities of our senior management and other key personnel. The inputs and experience of our senior management and key managerial personnel are valuable for the development of business and operations and the strategic decisions taken by our Company. Our overall attrition level for the period ended for December 31, 2022 was 18.70 % and for the year ended March 31, 2022, March 31, 2021 and March 31, 2020 were 5.5 %, 3.23 % and 2.99 % respectively. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all. We may require a long period of time to hire and train replacement personnel when qualified personnel terminate their employment with our Company. We may also be required to increase our levels of employee compensation more rapidly than in the past to remain competitive in attracting employees that our business requires.

Further, our ability to successfully carry out research and development depends on our ability to attract and retain skilled persons. The personnel at the helm of our R&D functions are critical for new product launches and creating differentiated offering for our businesses. Currently, we have an experienced technical and production team, we may not be able to continuously attract or retain such personnel, or retain them on acceptable terms, given the demand for such personnel. Competition for qualified personnel with relevant industry expertise in India is intense and the

loss of the services of our key personnel may adversely affect our business, results of operations and financial condition.

45. *Our operations may involve certain transactions in or with countries or persons that are subject to U.S. and other sanctions.*

U.S. law generally prohibits U.S. persons from directly or indirectly investing or otherwise doing business in or with certain countries that are the subject of comprehensive sanctions and with certain persons or businesses that have been specially designated by the OFAC or other U.S. government agencies. Other governments and international or regional organizations also administer similar economic sanctions. Although we have not experienced any material breach (not more than ₹ 5 million) w.r.t these compliances till date as we have endeavored to have compliance systems in place that are sufficient to block prohibited transactions, there can be no assurance that we will be able to fully monitor all of our transactions for any potential violation. We may enter into transactions with suppliers or logistics providers who may be doing business with countries to which certain OFAC administered and other sanctions apply. There can be no assurance that we will be able to fully monitor all of our transactions for any potential violation. If it were determined that transactions in which we participate violate U.S. or other sanctions, we could be subject to U.S. or other penalties, and our reputation and future business prospects in the United States or with U.S. persons, or in other jurisdictions, could be adversely affected. We rely on our staff to be up-to-date and aware of the latest sanctions in place. Further, investors in the Equity Shares could incur reputational or other risks as the result of our customers' dealings in or with countries or with persons that are the subject of U.S. sanctions.

46. *We face foreign exchange risks that could adversely affect our results of operations and cash flows.*

We have foreign currency payables for costs incurred during our export sales business operations and during our equipment procurement processes, capital goods procurement, and are therefore exposed to foreign exchange risk between the Indian Rupee and U.S. dollars and other foreign currencies. We do try to manage our foreign exchange risk by hedging the same by way of exchange traded as well as OTC products, however depending on the cost benefit analysis of such hedge available in the markets from time to time, we may continue to remain exposed to movements in foreign exchanges we deal in for medium to short term periods. Any significant fluctuation in the value of the Indian Rupee against such currencies including as noticed recently in the case of the US Dollar may adversely affect our results of operations. Any appreciation of foreign currencies against the Indian Rupee may result in reduction of our margins and consequently have an adverse effect on business and result of operations. For details of our net exposure to currency risk please refer to "Restated Financial Statements – "Exposure to Currency Risk "on page 230 of the Red Herring Prospectus. Also see, "Restated Financial Statements – Annexure VI – Note 27: Financial Risk Management" on page no. 229 of the Red Herring Prospectus.

47. *Our Company will not receive any proceeds from the Offer.*

The Offer comprises an Offer for Sale aggregating up to ₹ 3,300 million by the Selling Shareholders. Our Company will not receive any proceeds of the Offer. However, in the event that the Offer is withdrawn or not completed for any reason whatsoever, all the Offer related expenses will be exclusively borne by our Company. The expenses of the Selling Shareholders will, at the outset, be borne by our Company and each Selling Shareholder will reimburse our Company for such expenses (inclusive of taxes) incurred by our Company on behalf of such Selling Shareholders, in relation to the Offer, upon successful completion of the Offer in the manner as prescribed under applicable law and in a manner as may be mutually agreed among our Company and the Selling Shareholders.

48. *We may be subject to fraud, theft, employee negligence or similar incidents.*

Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during showroom stocking and display. Our industry typically encounters some inventory loss on account of employee theft, shoplifting, vendor fraud, credit card fraud and general administrative error. We maintain large amounts of inventory at all our processing facilities at all times and had a total inventory of ₹ 962.55 million, as of December 31, 2022. So far, our Company has not experienced any material fraud, theft or any such incident (not more than ₹ 5 million); however, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

Additionally, in case of losses due to theft, fire, breakage or damage caused by other casualties, there can be no assurance that we will be able to recover from our insurers the full amount of any such loss in a timely manner, or at all. If we incur a significant inventory loss due to third-party or employee theft and if such loss exceeds the limits of,

or is subject to exclusion from, coverage under our insurance policies, it could have an adverse effect on our business, results of operations and financial condition. In addition, if we file claims under an insurance policy it could lead to increases in the insurance premiums payable by us or the termination of coverage under the relevant policy.

49. *The loss of certain independent certification and accreditation of our products and the processing practices that we have adopted could harm our business.*

We rely on independent certification of our products and must comply with the requirements of independent organizations or certification authorities including our Halal certifications and certifications from APEDA, FSSAI, GMP, ISO, HACCP, etc.

We could lose the certifications and accreditations for certain of our products if we are not able to adhere to the quality standards and specifications required under such certifications and accreditations. The loss of any independent certification and processing practices may restrict our ability to export our products outside India, which could have a material adverse effect on our reputation, business, financial condition and results of operations.

50. *Our business is manpower intensive. Our business may be adversely affected by work stoppages, increased wage demands by our employees, or an increase in minimum wages across various states, and if we are unable to engage new employees at commercially attractive terms.*

Our operations are manpower intensive and we are dependent on our processing staff for a significant portion of our operations. As of December 31, 2022, we (including our subsidiary) had 926 staff base on our payroll. For details, see “*Our Business – Human Resource*” on page 130. The success of our operations depends on the availability of and maintaining good relationships with our workforce. Further, during the Fiscal 2020, Fiscal 2021 and Fiscal 2022, we (including our subsidiary) had incurred employee benefit expenses of ₹759.61 million, ₹585.96 million and ₹ 1,056.16 million respectively. Shortage of skilled personnel or disruptions caused by disagreements with employees could have an adverse effect on our business and the results of operations. While we have never experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past, there can be no assurance that we will not experience any such disruption in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management’s attention and result in increased costs. Our success also depends on our ability to attract, hire, train and retain skilled processing personnel. Due to our facilities’ remote locations, it is challenging for us to hire skilled managerial or professional staff from metro cities. An inability to recruit, train and retain suitably qualified and skilled personnel could adversely impact our reputation, business prospects and results of operations. As we expand our business network, we will need experienced manpower that has knowledge of the local market, or technical knowledge to operate machinery such that our operations can be perpetuated. We have faced increasing competition for management and skilled personnel with significant knowledge and experience in the food processing sector in India.

A significant increase in our employee attrition rate could also result in decreased operational efficiencies and productivity, loss of market knowledge and customer relationships, and an increase in recruitment and training costs, thereby materially and adversely affecting our business, results of operations and financial condition. We cannot assure you that we will be able to find or hire personnel with the necessary experience or expertise to operate our machinery in our existing processing facilities or new facilities that we are proposing to be commissioned. In the event that we are unable to hire people with the necessary knowledge or expertise, our business may be severely disrupted, financial condition and results of operations may be adversely affected.

While we consider our current labour relations to be good, and we have measures in place aimed at maintaining balanced employee relations, for example, a majority of our migrant workers stayed with us during the COVID- 19 pandemic and worked in our processing facilities, there can be no assurance that we will not experience future disruptions in our operations due to disputes, strikes, work stoppages, work slow-downs or lockouts at our processing facilities. Although we have not experienced any material labour unrest, we cannot assure you that we will not experience disruptions in work or our retail operations due to disputes or other problems with our work force, which may adversely affect our ability to continue our business operations. Any labour unrest directed against us, could directly or indirectly prevent or hinder our normal operating activities, and, if not resolved in a timely manner, could lead to disruptions in our operations.

During periods of shortages in labour, we may not be able to manufacture our products according to our previously determined time frames, at our previously estimated product costs, or at all, which may adversely affect our business, results of operations, cash flows and reputation. Moreover, since a majority of our processing workers are migrant workers, we are subject to stringent labour laws, and any violation of these laws may lead regulators or other

authorities to order a suspension of certain or all of our operations. Any of the foregoing may adversely affect our business and the results of operations.

We may also be subject to increasing manpower costs in India, which would directly impact our employee costs and consequently, on our margins. Further, the minimum wage laws in India may be amended leading to upward revisions in the minimum wages payable in one or more states in which we currently operate or are planning to expand to. We may need to increase compensation and other benefits in order to attract and retain key personnel in the future and that may materially affect our costs and profitability. We cannot assure you that as we continue to grow our business in the future, our employee costs coupled with operating expenses will not significantly increase.

51. *We rely on contract labor for carrying out certain of our operations and we may be held responsible for paying the wages of such workers, if the independent contractors through whom such workers are hired default on their obligations, and such obligations could have an adverse effect on our results of operations and financial condition.*

In order to retain flexibility and control costs, we appoint independent contractors who in turn engage on-site contract labor for performance of certain of our operations in each of our business verticals. We have appointed 68, 65 and 174 different independent labor contractors for the fiscal years 2020, 2021 and 2022 respectively for providing us contract labourers, as per our requirement from time to time. Although we do not engage these laborers directly, we may be held responsible for any wage payments to be made to such laborers in the event of default by such independent contractor. Any requirement to fund their wage requirements may have an adverse impact on our results of operations and financial condition. In addition, under the Contract Labour (Regulation and Abolition) Act, 1970, as amended, we may be required to absorb a number of such contract labourers as permanent employees. In the event of any non-compliance by contractors with statutory requirements, legal proceedings may be initiated against us. Thus, any such order from a regulatory body or court may have an adverse effect on our business, results of operations and financial condition.

52. *Our insurance coverage may not be sufficient or may not adequately protect us against all material hazards, which may adversely affect our business, results of operations and financial condition.*

We could be held liable for accidents that occur at our processing facilities or otherwise arise out of our operations. In the event of personal injuries, fires or other accidents suffered by our employees or other people, we could face claims alleging that we were negligent, provided inadequate supervision or be otherwise liable for the injuries.

We have not experienced any material losses due to under-insurance in past and endeavor to ensure that the insurance coverage which we maintain would be reasonably adequate to cover the normal and abnormal risks associated with the operations of our business such as fire, other natural calamities and accidents onsite, burglary, theft, maritime shipping related accidents/losses etc., As on date, we have the insurance coverage is approximately ₹ 5,700 million. We cannot assure you that any claim under the insurance policies maintained by us will be honored fully, in part or on time, or that we have taken out sufficient insurance to cover all our possible losses. In addition, our insurance expires from time to time. For eg: we have not obtained the insurance for events like covid pandemic or such disruptive events which do not allow us to operate our business, our insurance coverage does not include losses arising from statutory actions on our processing plants, livestock raw material damage due to mishandling by our workers etc. and hence we cannot be sure that all our risks are covered by insurance. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. To the extent that we suffer loss or damage, for which we did not obtain or maintain insurance, and which is not covered by insurance, exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected.

53. *Our ability to pay dividends in the future will depend on our earnings, financial condition, working capital requirements, capital expenditures and restrictive covenants of our financing arrangements.*

Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, working capital requirements, capital expenditure and restrictive covenants of our financing arrangements. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board and will depend on factors that our Board deems relevant, including among others, our future earnings, financial condition, cash requirements, business prospects and any other financing arrangements. We cannot assure you that we will be able to pay dividends in the future. For details of dividend paid by our Company in the past, see “Dividend Policy” on page no. 209

54. *Certain of our existing shareholders together may be able to exert substantial voting control over our Company after completion of the Issue, which may limit your ability to influence the outcome of matters submitted for approval of our shareholders.*

Following the completion of the Issue, certain of our existing shareholders will continue to hold more than 75% of our post- Issue Equity Share capital. This concentration of ownership could limit your ability to influence corporate matters requiring shareholder approval. These existing shareholders will have the ability to significantly influence matters requiring shareholders' approval, including the ability to appoint Directors to our Board and the right to approve significant actions at Board and at shareholders' meetings, including the issue of Equity Shares and dividend payments, business plans, mergers and acquisitions, any consolidation or joint venture arrangements, any amendment to our Memorandum of Association and Articles of Association, and any assignment or transfer of our interest in any of our licenses. In addition, if our shareholders do not act together, such matters requiring shareholder approval may be delayed or not occur at all, which could adversely affect our business. Moreover, these shareholders are not obligated to provide any business opportunities to us. If such other shareholders invest in another company in competition with us, we may lose the support provided to us by them, which could adversely affect our business, financial condition, cash flows and results of operations. We cannot assure you that our existing shareholders will not have conflicts of interest with other shareholders or with our Company. Any such conflict may adversely affect our ability to execute our business strategy or to operate our business.

55. *Industry information included in this Red Herring Prospectus has been derived from the Company commissioned Brickworks Analytics Industry Report and our Company had paid for such Industry Report.*

This Red Herring Prospectus includes information from the Company commissioned Brickworks Analytics Industry Report titled "Report on Meat Export Industry" dated March 21, 2022, which has been exclusively prepared for the purpose of the issue and is commissioned and paid-for by our Company. Brickworks Analytics has advised that, while it has taken due care and caution in preparing its report based on public information and industry and statistical data information obtained from sources which it considers reliable, it does not guarantee the adequacy or completeness of such information and is not liable for any loss or damage suffered because of reliance on the information contained in the report. The Company commissioned Brickworks Analytics Industry Report highlights certain industry and market data relating to our Company and our Competitors. Such data is subject to many assumptions. Further, such assumptions may change based on various factors. The assumption of Brickworks Analytics has been obtained from sources generally believed to be reliable, but their completeness and underlying assumptions are not guaranteed. Prospective investors are advised not to rely unduly on the Company commissioned Brickworks Analytics Industry Report when making their investment decisions.

56. *Our ability to raise foreign capital under the FDI route is constrained by Indian law and we may be subject to various conditions if we propose to raise foreign capital through the FDI route. Further, we propose to raise foreign capital in the Issue from certain foreign investors under the FPI route in accordance with the applicable law and may raise further foreign capital from such foreign investors. If our shareholders do not increase this limit in the future or the Government of India reduces the permissible limit or imposes restrictive conditions in the future, our ability to raise foreign capital could be adversely affected and consequently, this may adversely affect our business, prospects and results of operations.*

Our company presently does not propose to raise any foreign capital or in the issue through the FDI route and accordingly, our Company does not comply with these conditions. However, in the event that our Company proposes to raise foreign capital in the future through the FDI route, then we would be required to meet certain conditions as prescribed under the FDI policy. We cannot assure you that we will be able to comply with any of these conditions in the future, and such inability may adversely affect our growth plans and business prospects.

Further, in accordance with the FDI policy, we propose to allow participation by non-residents in the Issue to the extent of participation by (i) FPIs through the portfolio investment scheme under schedule 2A of the FEMA regulations, subject to limit of the individual holding of an FPI below 10% of the post-Issue paid up capital of our Company and the aggregate limit for FPI investment under applicable law, and (ii) Eligible NRIs only on non-repatriation basis under schedule 4 of the FEMA Regulations, subject to limit of the individual holding of an Eligible NRI below 5% of the post-issue paid-up capital of our company and aggregate limit for NRI investment to 10% on the post issue paid-up capital of our Company. Further other non-residents such as FVCIs, multilateral and bilateral development financial institutions are not permitted to participate in the issue. As per the existing policy of the Government of India, OCBs cannot participate in this issue.

We cannot assure you that the government of India will continue to allow current level of participation by the aforesaid investors in the sectors in which we operate or that the government of India build not impose any further conditions with respect to such investments any adverse decision by the government of India in this regard could adversely affect our business prospects results of operations and trading price of our equity shares for their more as an Indian company we are subject to exchange controls that regulate borrowing in foreign currencies such regulatory restrictions to constrain or ability to obtain finance things on competitive terms and define as existing indebtedness in addition we cannot assure you that any required regulatory approvals for borrowing in foreign currency is will be kind to us without on various conditions or tall limitations on foreign that maybe have an adverse effect on our business growth fund essel condition and results of operations

57. *We have business relationships with limited number of customers accounting for a substantial portion of our revenue. If our existing customers do not deal with us, or our relationships are impaired or terminated, our revenue could decline, and our results of operations would be adversely impacted.*

We derive a significant portion of our revenue from few of our customers, and focusing on catering them with our products is a part of our growth strategy. Our top ten customers contribute to 36.40 % for the nine-month period ended December 31, 2022, 38.55 % for the year ended March 31, 2022, 42.57% for the year ended March 31, 2021 and 45.60% for the year ended March 31, 2020 for our revenue from operations of our revenue from operations. This shows that we have a concentrated customer base and dependence on few customers making our business riskier. It is not possible for us to predict the future level of demand from our larger customers for our products.

Our clients typically have no obligation to maintain or expand their business relationship with us. If one or more of our clients terminate their dealings with us, whether for convenience, for default in the event of a breach by us, our business and results of operations could be adversely affected. This adverse impact would be even more pronounced for customers that represent a material portion of our revenue or business operations.

Our ability to build and maintain consistent client business relationships may decrease or vary as a result of a number of factors, including our customer satisfaction or dissatisfaction with our products, our pricing, the effects of general economic conditions, competitive offerings or alternatives, or reductions in our customers' spending levels. If our clients do not maintain their business relationships with us or the other terms and conditions are less favorable to us, our revenue may grow more slowly than expected or decline and our business could suffer. Our business, financial condition, and results of operations would also be adversely affected if we face difficulty collecting our accounts receivable from our clients. If our efforts to expand our existing business within our existing client base are not successful, our business, results of operations and financial condition may be adversely impacted.

58. *Our inability to fulfill the export obligation under the EPCG scheme could subject us to payment of customs duties together with interest thereby adversely impacting our financial condition.*

Our company has obtained licenses under EPCG scheme which enable us for duty free import of machinery required for processing of our export bound products. Such benefits are subject to fulfillment of time bound export obligations as may be specified. The value and quantity of each item permitted under EPCG imports are specified in the license, which are issued on pre-export or post-export export basis and are subject to fulfillment of time bound export obligation.

As on December 31, 2022, we have a net export obligation of ₹ 705.58 million. Any failure on our part to achieve the required export obligation will subject us to an obligation to pay the customs duty saved and any further penal charges if any. For more information on EPCG-Scheme (contingent liability), please refer page 240 of this Red Herring Prospectus.

External Risk Factors

Risks relating to India

59. *Changing regulations in India could lead to new compliance requirements that are uncertain.*

The regulatory and policy environment in which we operate are evolving and are subject to change. The GoI may implement new laws or other regulations and policies that could affect our business in general, which could lead to new compliance requirements, including requiring us to obtain approvals and licenses from the Government and other regulatory bodies, or impose onerous requirements. For instance, the GoI has introduced (a) the Code on Wages, 2019; (b) the Code on Social Security, 2020; (c) the Occupational Safety, Health and Working Conditions

Code, 2020; and (d) the Industrial Relations Code, 2020 which consolidate, subsume and replace numerous existing central labour legislations. While the rules for implementation under these codes have not been notified, we are yet to determine the impact of all or some such laws on our business and operations which may restrict our ability to grow our business in the future and increase our expenses. In another example, the GoI has made it mandatory for business establishments with turnover above a certain size to offer digital modes of payment from November 2019, with no charges being levied on the customers or the merchants by banks and payment service providers. Such measures could adversely impact our income streams in the future and adversely affect its financial performance.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy in the jurisdictions in which we operate, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. We may incur increased costs and other burdens relating to compliance with such new requirements, which may also require significant management time and other resources, and any failure to comply may adversely affect our business, results of operations, financial condition and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current businesses or restrict our ability to grow our businesses in the future. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

60. *Natural or man-made disasters, fires, epidemics, pandemics, acts of war, terrorist attacks, civil unrest and other events could materially and adversely affect our business.*

Natural disasters (such as typhoons, flooding and earthquakes), epidemics, pandemics such as COVID-19 and man-made disasters, including acts of war, terrorist attacks and other events, many of which are beyond our control, may lead to economic instability, including in India or globally, which may in turn materially and adversely affect our business, financial condition and results of operations. Our operations may be adversely affected by fires, natural disasters and/or severe weather, which can result in damage to our property or inventory and generally reduce our productivity and may require us to evacuate personnel and suspend operations. A number of countries in Asia, including India, as well as countries in other parts of the world, are susceptible to contagious diseases and, for example, have had confirmed cases of diseases such as the highly pathogenic H7N9, H5N1 and H1N1 strains of influenza in birds and swine and more recently, the COVID-19. A worsening of the current outbreak of COVID-19 pandemic or future outbreaks of COVID-19 or a similar contagious disease could adversely affect the global economy and economic activity in the region. As a result, any present or future outbreak of a contagious disease could have a material adverse effect on our business and the trading price of the Equity Shares. India has from time-to-time experienced instances of social, religious and civil unrest and hostilities between neighbouring countries. Recently there has been ongoing mass protest by farmers, against three farm acts which were passed by the Parliament of India in September 2020. The introduction of the law caused protests in several parts of the country like Delhi, Haryana and Punjab. In case there are mass protests leading to civil unrest, such incidents could impact both our operations and adversely affect our business, financial condition and results of operations. Present relations between India and Pakistan continue to be fragile on the issues of terrorism, armaments and Kashmir. In April 2019, skirmishes along India's border with Pakistan and the downing of an Indian military jet fighter plane significantly escalated tensions between the two countries. India has also experienced terrorist attacks in some parts of the country. In November 2008, several coordinated shooting and bombing attacks occurred across Mumbai, India's financial capital. These attacks resulted in loss of life, property and business. Military activity or terrorist attacks in the future could influence the Indian economy by disrupting communications and making travel more difficult and such political tensions could create a greater perception that investments in Indian companies involve higher degrees of risk. Events of this nature in the future, as well as social and civil unrest within other countries in Asia, could influence the Indian economy and could have a material adverse effect on the market for securities of Indian companies.

61. *A downgrade in ratings of India and other jurisdictions we operate may affect the trading price of the Equity Shares.*

Our borrowing costs and our access to the debt capital markets depend significantly on the credit ratings of India. Any further adverse revisions to credit ratings for India and other jurisdictions we operate in by international rating agencies may adversely impact our ability to raise additional financing. This could have an adverse effect on our

ability to fund our growth on favourable terms and consequently adversely affect our business and financial performance and the price of the Equity Shares.

62. *We may be affected by competition laws in India, the adverse application or interpretation of which could adversely affect our business.*

The Competition Act, 2002, of India, as amended (“**Competition Act**”), regulates practices having an appreciable adverse effect on competition in the relevant market in India (“**AAEC**”). Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an AAEC is considered void and may result in the imposition of substantial penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or the provision of services or shares the market or source of production or provision of services in any manner, including by way of allocation of geographical area or number of customers in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an AAEC and is considered void. The Competition Act also prohibits abuse of a dominant position by any enterprise. If it is proved that the contravention committed by a company took place with the consent or connivance or is attributable to any neglect on the part of, any director, manager, secretary or other officer of such company, that person shall be also guilty of the contravention and may be punished. The Competition Act aims to, among other things, prohibit all agreements and transactions, which may have an AAEC on competition in India and all agreements entered into by us could be within the purview of the Competition Act. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an AAEC in India. However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. However, since we pursue an acquisition driven growth strategy, we may be affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business, results of operations, cash flows and prospects.

63. *Financial instability in other countries may cause increased volatility in Indian financial markets.*

The Indian market and the Indian economy are influenced by economic and market conditions in other countries, including conditions in the United States, Europe and certain emerging economies in Asia. Financial turmoil in the United States, Asia and elsewhere in the world in recent years has adversely affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and us. Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby negatively affect the Indian economy. Financial disruptions could materially and adversely affect our business, prospects, financial condition, results of operations and cash flows. Further, economic developments globally can have a significant impact on our principal markets. Concerns related to a trade war between large economies may lead to increased risk aversion and volatility in global capital markets and consequently have an impact on the Indian economy. Following the United Kingdom’s exit from the European Union (“**Brexit**”), there remains significant uncertainty around the terms of their future relationship with the European Union including trade agreements between the United Kingdom and European Union and, more generally, as to the impact of Brexit on the general economic conditions in the United Kingdom and the European Union and any consequential impact on global financial markets. In addition, China is one of India’s major trading partners and there are rising concerns of a possible slowdown in the Chinese economy as well as a strained relationship with India, which could have an adverse impact on the trade relations between the two countries. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term effect of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have the intended stabilizing effects. Any significant financial disruption could have a material adverse effect on our business, financial condition and results of operation. These developments or the perception that any of them could occur, have had and may continue to have a material adverse effect on global economic conditions and the stability of global financial markets and may significantly reduce global market liquidity, restrict the ability of key market participants to operate in certain financial markets or restrict our access to capital. This could have a material adverse effect on our business, financial condition and results of operations and reduce the price of the Equity Shares. Since December 2019, the ongoing outbreak of COVID-19 has affected countries globally, with the World Health Organization declaring the outbreak as a pandemic in March 2020. There have been border controls, lockdowns and travel restrictions imposed

by various countries, as a result of the COVID-19 outbreak. Such an outbreak of an infectious disease together with the resulting restrictions on travel and/or imposition of lockdown measures have resulted in protracted volatility in domestic and international markets has resulted in a global slowdown and crisis. In particular, the COVID-19 outbreak has caused stock markets worldwide to fluctuate significantly in value and has impacted global economic activity. A number of governments have revised gross domestic product growth forecasts for 2020 and 2021 downwards in response to the economic slowdown caused by the spread of COVID-19, and it is possible that the outbreak of COVID-19 will cause a prolonged global economic crisis or recession. If we are unable to successfully anticipate and respond to changing economic and market conditions, our business, results of operations and financial condition and prospects may be adversely affected.

64. *The Indian tax regime has undergone substantial changes which could adversely affect our business and the trading price of the Equity Shares.*

Any change in Indian tax laws could have an effect on our operations. For instance, the Taxation Laws (Amendment) Act, 2019, prescribes certain changes to the income tax rate applicable to companies in India. According to this Act, companies can henceforth voluntarily opt in favour of a concessional tax regime (subject to no other special benefits/exemptions being claimed), which would ultimately reduce the effective tax rate (on gross basis) for Indian companies from 34.94% to approximately 25.17%. Any such future amendments may affect our ability to claim exemptions that we have historically benefited from, and such exemptions may no longer be available to us. The Government of India has also implemented two major reforms in Indian tax laws, namely the GST, and provisions relating to general anti-avoidance rules (“GAAR”). The indirect tax regime in India has undergone a complete overhaul. The indirect taxes on goods and services, such as central excise duty, service tax, central sales tax, state value added tax, surcharge and excise have been replaced by Goods and Service Tax with effect from July 1, 2017. The GST regime is relatively new and therefore is subject to amendments and its interpretation by the relevant regulatory authorities. GAAR became effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement may result in, among others, a denial of tax benefit to us and our business. In the absence of any precedents on the subject, the application of these provisions is subjective. If the GAAR provisions are made applicable to us, it may have an adverse tax impact on us. Further, if the tax costs associated with certain of our transactions are greater than anticipated because of a particular tax risk materializing on account of new tax regulations and policies, it could affect our profitability from such transactions. The Finance Act, 2020 has, amongst others things, provided a number of amendments to the direct and indirect tax regime, including, without limitation, a simplified alternate direct tax regime. For instance, dividend distribution tax (“DDT”) will not be payable by a domestic company in respect of dividends declared, distributed or paid by the company after March 31, 2020, and accordingly, such dividends would not be exempt in the hands of the shareholders, both resident as well as non-resident and are likely be subject to tax deduction at source. The Company may or may not grant the benefit of a tax treaty (where applicable) to a non-resident shareholder for the purposes of deducting tax at source from such dividend. Investors should consult their own tax advisors about the consequences of investing or trading in the Equity Shares. Further, the Government of India has notified the Finance Act, 2022 (“Finance Act”) which has introduced various amendments to taxation laws in India. There is no certainty on the impact that the Finance Act may have on our business and operations or on the industry in which we operate. In addition, unfavourable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment laws governing our business, operations and group structure could result in us being deemed to be in contravention of such laws or may require us to apply for additional approvals. We may incur increased costs relating to compliance with such new requirements, which may also require management time and other resources, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may affect the viability of our current business or restrict our ability to grow our business in the future. We cannot predict whether any new tax laws or regulations impacting our services will be enacted, what the nature and impact of the specific terms of any such laws or regulations will be or whether if at all, any laws or regulations would have an adverse effect on our business.

65. *If inflation were to rise in India, we might not be able to increase the prices of our products at a proportional rate in order to pass costs on to our customers thereby reducing our margins.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of wages and other expenses relevant to our business. High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to adequately pass on to our

customers, whether entirely or in part, and may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase the price of our products to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected. Further, the Government of India has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

66. *A third-party could be prevented from acquiring control of us post this Offer, because of anti-takeover provisions under Indian law.*

As a listed Indian entity, there are provisions in Indian law that may delay, deter or prevent a future takeover or change in control of our Company. Under the Takeover Regulations, an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also discourage a third party from attempting to take control of our Company subsequent to completion of the Offer. Consequently, even if a potential takeover of our Company would result in the purchase of the Equity Shares at a premium to their market price or would otherwise be beneficial to our shareholders, such a takeover may not be attempted or consummated because of Takeover Regulations.

67. *Investors may not be able to enforce a judgment of a foreign court against us, our Directors, the BRLM or any of their directors and executive officers in India respectively, except by way of a lawsuit in India.*

Our Company is a company incorporated under the laws of India and all of our directors are located in India. A majority of our assets, our Key Managerial Personnel and officers are also located in India. As a result, it may not be possible for investors to affect service of process upon our Company or such persons in jurisdictions outside India, or to enforce judgments obtained against such parties outside India. Furthermore, it is unlikely that an Indian court would enforce foreign judgments if that court was of the view that the number of damages awarded was excessive or inconsistent with public policy, or if judgments are in breach or contrary to Indian law. In addition, a party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amounts recovered. Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Code of Civil Procedure, 1908. India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. India has reciprocal recognition and enforcement of judgments in civil and commercial matters with only a limited number of jurisdictions, such as the United Kingdom, United Arab Emirates, Singapore and Hong Kong. In order to be enforceable, a judgment from a jurisdiction with reciprocity must meet certain requirements established in the Indian Code of Civil Procedure, 1908. The CPC only permits the enforcement and execution of monetary decrees in the reciprocating jurisdiction, not being in the nature of any amounts payable in respect of taxes, other charges, fines or penalties. Judgments or decrees from jurisdictions which do not have reciprocal recognition with India, including the United States, cannot be enforced by proceedings in execution in India. Therefore, a final judgment for the payment of money rendered by any court in a non-reciprocating territory for civil liability, whether or not predicated solely upon the general laws of the non-reciprocating territory, would not be directly enforceable in India. The party in whose favour a final foreign judgment in a non-reciprocating territory is rendered may bring a fresh suit in a competent court in India based on the final judgment within three years of obtaining such final judgment. However, it is unlikely that a court in India would award damages on the same basis as a foreign court if an action were brought in India or that an Indian court would enforce foreign judgments if it viewed the number of damages as excessive or inconsistent with the public policy in India. Further, there is no assurance that a suit brought in an Indian court in relation to a foreign judgment will be disposed of in a timely manner. In addition, any person seeking to enforce a foreign judgment in India is required to obtain the prior approval of the RBI to repatriate any amount recovered, and we cannot assure that such approval will be forthcoming within a reasonable period of time, or at all, or that conditions of such approval would be acceptable. Such an amount may also be subject to income tax in accordance with applicable law.

Risks relating to the Equity Shares and this Offer

68. *The Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer.*

Prior to the Offer, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Offer. Listing and quotation does not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Offer

Price of the Equity Shares will be determined by our Company and the Selling Shareholders in consultation with the BRLM through the Book Building Process. This price will be based on numerous factors, as described under “Basis for the Offer Price” on page 94 and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, problems such as temporary closure, broker default and settlement delays experienced by the Indian Stock Exchanges, strategic actions by us or our competitors, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors. Consequently, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Offer Price, or at all. There has been significant volatility in the Indian stock markets in the recent past, and our Equity Share price could fluctuate significantly because of market volatility. A decrease in the market price of our Equity Shares could cause investors to lose some or all of their investment.

69. *Investors may be subject to Indian taxes arising out of income arising on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, a capital gain arising from the sale of equity shares in an Indian company is generally taxable in India. A securities transaction tax (“STT”) is levied on and collected by an Indian stock exchange on which equity shares are sold. Any gain realized on the sale of listed equity shares held for more than 12 months may be subject to long-term capital gains tax in India at the specified rates depending on certain factors, such as STT paid, the quantum of gains and any available treaty exemptions. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of our Equity Shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. While non-residents may claim tax treaty benefits in relation to such capital gains income, generally, Indian tax treaties do not limit India’s right to impose tax on capital gains arising from the sale of shares of an Indian company. Further, the Finance Act, 2020 (“**Finance Act 2020**”), passed by the Parliament of India. The Finance Act 2020 stipulates the sale, transfer and issue of certain securities through exchanges, depositories or otherwise to be charged with stamp duty. The Finance Act 2020 has also clarified that, in the absence of a specific provision under an agreement, the liability to pay stamp duty in case of sale of certain securities through stock exchanges will be on the buyer, while in other cases of transfer for consideration through a depository, and the onus will be on the transferor. The stamp duty for transfer of certain securities, other than debentures, on a delivery basis is currently specified under the Finance Act 2020 at 0.015% and on a non-delivery basis is specified at 0.003% of the consideration amount. These amendments have come into effect from July 1, 2020. Under the Finance Act 2020, any dividends paid by an Indian company will be subject to tax in the hands of the shareholders at applicable rates. Such taxes will be withheld by the Indian company paying dividends. The Government of India announced the union budget for Fiscal 2022, following which the Finance Bill, 2021 (“**Finance Bill**”) was introduced in the Lok Sabha on February 1, 2021. Subsequently, the Finance Bill received assent from the President of India on March 28, 2021 and became the Finance Act, 2021 (“**Finance Act 2021**”). Thereafter, the Finance Act, 2022 and the Finance Bill, 2023 has been introduced. There is no certainty on the impact of Finance Act 2021 and 2022 and Finance Bill, 2023 on tax laws or other regulations, which may adversely affect the Company’s business, financial condition, and results of operations or on the industry in which we operate. Investors are advised to consult their own tax advisors and to carefully consider the potential tax consequences of owning Equity Shares.

70. *Investors will not be able to sell immediately on an Indian stock exchange any of the Equity Shares they purchase in the Offer.*

The Equity Shares will be listed on the Stock Exchanges. Pursuant to applicable Indian laws, certain actions must be completed before the Equity Shares can be listed and trading in the Equity Shares may commence. Investors’ book entries, or ‘demat’ accounts with depository participants in India, are expected to be credited with the Equity Shares within one working day of the date on which the Basis of Allotment is approved by the Stock Exchanges. The Allotment of Equity Shares in this Offer and the credit of such Equity Shares to the applicant’s demat account with depository participant could take approximately six Working Days from the Bid Closing Date and trading in the Equity Shares upon receipt of final listing and trading approvals from the Stock Exchanges is expected to commence within six Working Days of the Bid Closing Date. There could be a failure or delay in the listing of the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining the approval or otherwise any delay in commencing trading in the Equity Shares would restrict investors’ ability to dispose of their Equity Shares. There can be no assurance that the Equity Shares will be credited to investors’ demat accounts, or that trading in the Equity Shares will

commence, within the time periods specified in this risk factor. We could also be required to pay interest at the applicable rates if allotment is not made, refund orders are not dispatched or demat credits are not made to investors within the prescribed time periods.

71. *Any future issuance of Equity Shares, or convertible securities or other equity linked instruments by us may dilute your shareholding and sale of Equity Shares by shareholders with significant shareholding may adversely affect the trading price of the Equity Shares.*

We may be required to finance our growth through future equity offerings. Any future equity issuances by us, including a primary offering of Equity Shares, convertible securities or securities linked to Equity Shares including through exercise of employee stock options, may lead to the dilution of investors' shareholdings in our Company. Any future equity issuances by us or sales of our Equity Shares by our shareholders may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of our Equity Shares or incurring additional debt. Any disposal of Equity Shares by our major shareholders or the perception that such issuance or sales may occur, including to comply with the minimum public shareholding norms applicable to listed companies in India may adversely affect the trading price of the Equity Shares, which may lead to other adverse consequences including difficulty in raising capital through offering of the Equity Shares or incurring additional debt. There can be no assurance that we will not issue Equity Shares, convertible securities or securities linked to Equity Shares or that our Shareholders will not dispose of, pledge or encumber their Equity Shares in the future. Any future issuances could also dilute the value of your investment in the Equity Shares. In addition, any perception by investors that such issuances or sales might occur may also affect the market price of our Equity Shares.

72. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.*

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain restrictions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions referred to above, then a prior regulatory approval will be required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Non-debt Rules, all investments under the foreign direct investment route by entities of a country or where the beneficial owner of the Equity Shares is situated in or is a citizen of any such country, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. While the term "beneficial owner" is defined under the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 and the General Financial Rules, 2017, neither the foreign direct investment policy nor the FEMA Rules provide a definition of the term "beneficial owner". The interpretation of "beneficial owner" and enforcement of this regulatory change involves certain uncertainties, which may have an adverse effect on our ability to raise foreign capital. Further, there is uncertainty regarding the timeline within which the said approval from the GoI may be obtained, if at all. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all. For further information, see "Restrictions on Foreign Ownership of Indian Securities" on page 359.

73. *Significant differences exist between Ind AS and other accounting principles, such as U.S. GAAP and IFRS, which investors may be more familiar with and may consider material to their assessment of our financial condition.*

Our Restated Financial Statements for Fiscal 2020, 2021 and 2022 and the nine months ended December 31, 2022, have been prepared and presented in conformity with Ind AS. Ind AS differs in certain significant respects from IFRS, U.S. GAAP and other accounting principles with which prospective investors may be familiar in other countries. If our financial statements were to be prepared in accordance with such other accounting principles, our results of operations, cash flows and financial position may be substantially different. Prospective investors should review the accounting policies applied in the preparation of our financial statements, and consult their own professional advisers for an understanding of the differences between these accounting principles and those with which they may be more familiar. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Red Herring Prospectus should be limited accordingly.

- 74. *The determination of the Price Band is based on various factors and assumptions and the Offer Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Offer. Further, the current market price of some securities listed pursuant to certain previous issues managed by the BRLM is below their respective issue prices.***

The determination of the Price Band is based on various factors and assumptions and will be determined by our Company and Selling Shareholders in consultation with the BRLM. Furthermore, the Offer Price of the Equity Shares will be determined by our Company and Selling Shareholders in consultation with the BRLM through the Book Building Process. These will be based on numerous factors, including factors as described under “*Basis for the Offer Price*” on page 94 and may not be indicative of the market price for the Equity Shares after the Offer. In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the BRLM is below their respective issue price. For further details, see “Other Regulatory and Statutory Disclosures – Price information of past issues handled by the BRLM” on page 316. The factors that could affect the market price of the Equity Shares include, among others, broad market trends, financial performance and results of our Company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

- 75. *QIBs and Non-Institutional Investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after the submission of their Bid, and Retail Individual Investors are not permitted to withdraw their Bids after closure of the Bid/ Offer Closing Date.***

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Investors are required to pay the Bid Amount on submission of the Bid and are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Investors can revise their Bids during the Bid/ Offer Period and withdraw their Bids until the Bid/ Offer Closing Date. While we are required to complete all necessary formalities for listing and commencement of trading of the Equity Shares on all Stock Exchanges where such Equity Shares are proposed to be listed, including Allotment, within six Working Days from the Bid/ Offer Closing Date or such other period as may be prescribed by the SEBI, events affecting the investors’ decision to invest in the Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows or financial condition may arise between the date of submission of the Bid and Allotment. We may complete the Allotment of the Equity Shares even if such events occur, and such events may limit the Investors’ ability to sell the Equity Shares Allotted pursuant to the Offer or cause the trading price of the Equity Shares to decline on listing.

- 76. *Investors may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby may suffer future dilution of their ownership position.***

Under the Companies Act, a company having share capital and incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages before the issuance of any new equity shares, unless the pre-emptive rights have been waived by adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution. However, if the law of the jurisdiction the investors are in, does not permit them to exercise their pre-emptive rights without our Company filing an offering document or registration statement with the applicable authority in such jurisdiction, the investors will be unable to exercise their pre-emptive rights unless our Company makes such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for the investor’s benefit. The value such custodian receives on the sale of such securities and the related transaction costs cannot be predicted. In addition, to the extent that the investors are unable to exercise pre-emptive rights granted in respect of the Equity Shares held by them, their proportional interest in our Company would be reduced.

- 77. *Rights of shareholders of companies under Indian law may be more limited than under the laws of other jurisdictions.***

Our Articles of Association, composition of our Board, Indian laws governing our corporate affairs, the validity of corporate procedures, directors’ fiduciary duties, responsibilities and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights under Indian law may not be as extensive and wide-spread as shareholders’ rights under the laws of other countries or jurisdictions. Investors may face challenges in asserting their rights as shareholder of our Company than as a shareholder of an entity in another jurisdiction.

78. *Compliance with provisions of Foreign Account Tax Compliance Act may affect payments on the Equity Shares.*

The U.S. “Foreign Account Tax Compliance Act” (or “**FATCA**”) imposes a new reporting regime and potentially, imposes a 30% withholding tax on certain “foreign pass thru payments” made by certain non-U.S. financial institutions (including intermediaries). If payments on the Equity Shares are made by such non-U.S. financial institutions (including intermediaries), this withholding may be imposed on such payments if made to any non-U.S. financial institution (including an intermediary) that is not otherwise exempt from FATCA or other holders who do not provide sufficient identifying information to the payer, to the extent such payments are considered “foreign pass thru payments”. Under current guidance, the term “foreign pass thru payment” is not defined and it is therefore not clear whether and to what extent payments on the Equity Shares would be considered “foreign pass thru payments”. The United States has entered into intergovernmental agreements with many jurisdictions (including India) that modify the FATCA withholding regime described above. It is not yet clear how the intergovernmental agreements between the United States and these jurisdictions will address “foreign pass thru payments” and whether such agreements will require us or other financial institutions to withhold or report on payments on the Equity Shares to the extent they are treated as “foreign pass thru payments”. Prospective investors should consult their tax advisors regarding the consequences of FATCA, or any intergovernmental agreement or non-U.S. legislation implementing FATCA, to their investment in Equity Shares.

79. *U.S. holders should consider the impact of the passive foreign investment company rules in connection with an investment in our Equity Shares.*

A foreign corporation will be treated as a passive foreign investment company (“**PFIC**”) for U.S. federal income tax purposes for any taxable year in which either: (i) at least 75% of its gross income is “passive income” or (ii) at least 50% of its gross assets during the taxable year (based on of the quarterly values of the assets during a taxable year) are “passive assets,” which generally means that they produce passive income or are held for the production of passive income.

There can be no assurance that our Company will or will not be considered a PFIC in the current or future years. The determination of whether or not our Company is a PFIC is a factual determination that is made annually after the end of each taxable year, and there can be no assurance that our Company will not be considered a PFIC in the current taxable year or any future taxable year because, among other reasons, (i) the composition of our Company’s income and assets will vary over time, and (ii) the manner of the application of relevant rules is uncertain in several respects. Further, our Company’s PFIC status may depend on the market price of its Equity Shares, which may fluctuate considerably.

Monitoring Agency

Our Company has appointed CRISIL Ratings Limited, as the monitoring agency for monitoring the utilisation of the Net Proceeds prior to the filing of the Red Herring Prospectus in accordance with Regulation 41 of SEBI ICDR Regulations. For details in relation to the proposed utilisation of the Net Proceeds, see “*Objects of the Offer*” beginning on page 85.

Our Company will disclose the utilization of the Net Proceeds, including interim use, under a separate head in our Balance Sheet for such financial years as required under the applicable law, specifying the purposes for which the Net Proceeds have been utilised. Our Company will also, in its Balance Sheet for the applicable financial years, provide details, if any, in relation to all such Net Proceeds that have not been utilised, if any, and the proceeds of the Issue shall also be monitored by the Audit Committee till the utilization of the proceeds.

Further, our Company shall provide details/information/certifications obtained from Statutory Auditors on the utilization of the Net Proceeds to the Monitoring Agency. Also, any investments in acquisitions or strategic partnership or any inorganic growth initiative, post IPO from the IPO proceeds, detailed disclosures of the same shall be made in public domain at that time.

Experts

Our Company has received written consent dated February 24, 2023 from M/S. MAPSS and Company, to include their name as required under section 26 of the Companies Act, 2013 read with SEBI ICDR Regulations, in this Red Herring Prospectus, and as an “expert” as defined under section 2(38) of the Companies Act, 2013 to the extent and in their capacity as our Statutory Auditors, and in respect of their (i) examination report, dated February 24, 2023 on our Restated Consolidated Financial Statements; and (ii) their report dated February 24, 2023 on the Statement of Tax Benefits in this Red Herring Prospectus and such consent has not been withdrawn as on the date of this Red Herring Prospectus. However, the term “expert” shall not be construed to mean an “expert” as defined under the U.S. Securities Act.

Appraising Entity

None of the objects for which the Net Proceeds will be utilized has been appraised by any agency.

Credit Rating

As the Offer is of Equity Shares, credit rating is not required.

IPO Grading

No credit agency registered with SEBI has been appointed in respect of obtaining grading for the Offer.

Trustees

As this is an Offer of Equity Shares, the appointment of trustees is not required.

No green shoe option is applicable for the Offer.

Filing of Red Herring Prospectus

A copy of the Draft Red Herring Prospectus was filed electronically on the SEBI's online portal at <https://siportal.sebi.gov.in>, in accordance with SEBI circular bearing reference SEBI/HO/CFD/DIL1/CIR/P/2018/011 dated January 19, 2018 and at cfddil@sebi.gov.in, in accordance with the instructions issued by the SEBI on March 27, 2020, in relation to "Easing of Operational Procedure – Division of Issues and Listing – CFD".

A copy of this Red Herring Prospectus, along with the material contracts and documents required filed under Section 32 of the Companies Act would be filed with the RoC and a copy of the Prospectus to be filed under Section 26 of the Companies Act, 2013 would be filed with the RoC at its office and through the electronic portal at <http://www.mca.gov.in/mcafoportal/loginvalidateuser.do>.

BOOK BUILDING PROCESS

Book Building Process, in the context of the Issue, refers to the process of collection of Bids from investors on the basis of the Red Herring Prospectus, the Bid cum Application Forms and the Revision Forms within the Price Band. The Price Band, and minimum bid lot size will be decided by our Company and the Selling Shareholders in consultation with the BRLM, and advertised in all editions of the English National Daily Newspaper Business Standard, all editions of the Hindi National Daily Newspaper Business Standard and the Hindi edition of Samay Bhaskar, Hindi Daily Newspaper (Hindi being the regional language of Agra, where our Registered Office is located) each with wide circulation, at least two Working Days prior to the Bid/ Offer Opening Date and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Issue Price shall be determined by our Company and the Selling Shareholders in consultation with the BRLM after the Bid/Offer Closing Date.

All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Offer by providing details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by SCSBs. In addition to this, RIBs may participate through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs; or (b) through the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs (other than Anchor Investors) and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders (subject to the Bid Amount being up to ₹ 2, 00,000) can revise their Bids during the Bid/Offer Period and withdraw their Bids on or before the Bid/Offer Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bidding Date. Allocation to QIBs (other than Anchor Investors) and Non-Institutional Investors will be on a proportionate basis, while allocation to Anchor Investors will be on a discretionary basis. For further details, see "Terms of the Offer", "Offer Procedure" and "Offer Structure" on page nos. 328, 339 and 335, respectively of this Red Herring Prospectus.

The process of Book Building under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid in the Offer

Bidders should note that the Offer is also subject to (i) filing of the Prospectus by our Company with the RoC; and (ii) our Company obtaining final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment.

Each Bidder, by submitting a Bid in the Issue, will be deemed to have acknowledged the above restrictions and the terms of the Offer.

For further details on the method and procedure for bidding, please see “Offer Procedure” on page no. 339 of this Red Herring Prospectus.

Illustration of Book Building and Price Discovery Process

For an illustration of the Book Building Process and the price discovery process, see “Offer Procedure” on page no. 339 of this Red Herring Prospectus.

Underwriting Agreement

After the determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC, our Company and the Selling Shareholders will enter into the Underwriting Agreement with the Underwriters for the Equity Shares proposed to be issued/ offered through the Offer. The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement. Pursuant to the terms of the Underwriting Agreement, the obligations of each of the Underwriters will be several and will be subject to certain conditions, as specified therein.

The Underwriting Agreement is dated [●]. The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

(This portion has been intentionally left blank and will be completed before filing the Prospectus with the RoC).

(In ₹ million)

Name, Address, Telephone Number and Email Address of the Underwriters	Indicative Number of Equity Shares to be Underwritten	Amount Underwritten (in ₹million)
[●]	[●]	[●]

The abovementioned underwriting commitment is indicative and will be finalized after determination of the Offer Price and Basis of Allotment and will be subject to the provisions of the SEBI ICDR Regulations.

In the opinion of our Board of Directors (based on representations made to our Company by the Underwriters), the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The Underwriters are registered with the SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s).

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitments set forth in the table above. Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them in accordance with the Underwriting Agreement. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure purchasers for or purchase the Equity Shares to the extent of the defaulted amount in accordance with the Underwriting Agreement.

The Underwriting Agreement has not been executed as on the date of this Red Herring Prospectus and our Company and the Selling Shareholders intend to enter into an Underwriting Agreement with the Underwriters after the determination of the Offer Price and allocation of Equity Shares, but prior to filing the Prospectus with the RoC.

SECTION V- PARTICULARS OF THE ISSUE

OBJECTS OF THE ISSUE

The Offer comprises a Fresh Issue of up to [●] Equity Shares, aggregating up to ₹ 1,500 million by our Company (the “Fresh Issue”) and an Offer for Sale of up to [●] Equity Shares, aggregating up to ₹ 3,300 million by the Promoter Selling Shareholders (the “Offer for Sale”). For details of the Promoter Selling Shareholders and their respective portion of the Offered Shares, see “*The Offer*” on page 59.

Offer for Sale

The Promoter Selling Shareholders will be entitled to their respective portion of the proceeds of the Offer for Sale after deducting their proportion of Offer related expenses and relevant taxes thereon. Our Company will not receive any proceeds from the Offer for Sale by the Promoter Selling Shareholders and the proceeds received from the Offer for Sale will not form part of the Net Proceeds.

Fresh Issue Proceeds & Net Fresh Issue Proceeds

Fresh Issue Proceeds

The details of the proceeds of the Fresh Issue are set forth in the table below:

<i>(₹ in million)</i>		
Sr. No.	Particulars	Amount
1	Gross Proceeds of the Fresh Issue	1,500 ⁽¹⁾
2	Less: Company’s share of Offer related expenses ^(2 & 3)	[●]
	Net Proceeds of the Fresh Issue	[●]

⁽¹⁾ Subject to the full subscription of the Fresh Issue component

⁽²⁾ Except for the listing fees, which will be borne by our Company, all other expenses relating to the Offer will be borne by our Company and our Promoter Selling Shareholders in proportion to the Equity Shares contributed to the Offer. For further details, please see “*Offer Related Expenses*” as given below in this section. The Offer expenses are estimated expenses and are subject to change.

⁽³⁾ To be finalised upon determination of the Offer Price and updated in the Prospectus prior to filing with ROC

Net Fresh Issue

The Objects of the Net Fresh Issue is to raise funds for:

- 1) Funding working capital requirements of our Company
- 2) General Corporate Purpose

In addition to the aforementioned objects, our Company intends to strengthen its capital base and expects to receive the benefits of listing of the Equity Shares on the Stock Exchanges, including among other things, enhancing the visibility of our brand and our Company among our existing and potential customers.

The Main Objects clause as set out in the Memorandum of Association enables our Company to undertake its existing activities and the activities for which funds are being raised by the Company through the Present Offer. Further, we confirm that the activities that we have been conducting until now are in accordance with the objects clause of our Memorandum of Association.

Utilisation of Net Proceeds

We intend to utilise the Net Proceeds of the Fresh Issue (“Net Proceeds”) of ₹ [●] million for financing the objects as set forth below:

(₹ in million)

Sr. No.	Particulars	Amount
1.	Funding working capital requirements of our Company	1,350
2.	General Corporate Purposes ⁽¹⁾	■
Total		■

⁽¹⁾ To be determined on finalisation of the Offer Price and updated in the Prospectus prior to filing with ROC. The amount utilised for General Corporate Purposes shall not exceed 25% of the Gross Proceeds of the Fresh Issue.

Proposed Schedule of Implementation and Deployment of Funds

The entire Net Proceeds are proposed to be deployed in FY 2023-24. The fund deployment is based on current circumstances of our business and we may have to revise our estimates from time to time on account of various factors, such as financial and market conditions, competition, interest rate fluctuations and other external factors, which may not be within the control of our management. This may entail rescheduling the proposed utilisation of the Net Proceeds and changing the allocation of funds from its planned allocation at the discretion of our management, subject to compliance with applicable laws. For further details, see Risk Factors – “*The Objects of the Offer for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled “Objects of the Offer”. Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings*” on page no. 42 of this Red Herring Prospectus. If the actual utilisation towards any of the Objects, as set out above, is lower than the proposed deployment, such balance will be used towards general corporate purposes, provided that the total amount to be utilised towards general corporate purposes will not exceed 25% of the Gross Proceeds of the Fresh Issue, in accordance with the SEBI ICDR Regulations.

Means of Finance

We propose to fund the requirements of the objects detailed above entirely from the Net Proceeds. Accordingly, there is no requirement to make firm arrangements of finance to be made through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Fresh Issue and existing identifiable internal accruals as required under Regulation 7(1)(e) the SEBI ICDR Regulations.

DETAILS OF THE FUND REQUIREMENTS

The details in relation to objects of the Fresh Issue are set forth herein below:

1. Funding working capital requirements of our Company

HMA Group has been in the meat industry since over four decades. Our company is the flagship company of the group and is a three star export house recognized by Government of India.

We are currently among the largest exporters of frozen buffalo meat products from India and we account for more than 10% of India’s total export of frozen buffalo meat. Our products are mainly packaged under the brand name “Black Gold”, “Kamil” & “HMA” in form of food grade packaging and exported to over 40 countries all over the globe. We only deal in buffalo meat and allied products. Unlike beef or pork, buffalo meat is free from religious constraints and has the added advantage of low fat and cholesterol. The meat processed for export is in the form of deboned and deglanded frozen halal buffalo meat. The procurement of raw material is done by our Company and then this raw material is sent to various processing units to process the raw material into final products. Most of these processing units are owned by our subsidiaries and some are owned by third parties. Our Company pays the fixed charges to these processing units. On a consolidated basis, we had paid ₹ 197.68 million, ₹ 120.16 million, & ₹ 105.84 million for the fiscal year 2020, 2021 & 2022 respectively for processing our products. These charges on an aggregate basis are less than 1% of our consolidated revenue from operations for the respective years.

We procure the raw materials from local farmers; livestock markets & commission agents and we do not enjoy much credit period for procuring our raw materials. Further, since 90% of our sales are exports and we carry out exports to over 40 countries we need to maintain a healthy inventory for ensuring we are able to service orders from different distribution channels efficiently. Further, we have to provide sufficient credit period to our distribution channel partners to ensure healthy growth in order flow of our product portfolio including the recently added products. Hence, we have significant working capital requirements and we fund our working capital

requirements in the ordinary course of business from our owned funds / internal accrual and financing from various banks. As on December 31, 2022 our Company's working capital facilities limit is of ₹ 3,650 million on a standalone basis from banks. For details, please refer "Financial Indebtedness" on page no. 285 of this Red Herring Prospectus.

Existing Working Capital and source of funding

The details of our Company's standalone existing working capital gap and source of their funding, based on audited financial for the Fiscal 2020, 2021 & 2022 and for the nine months period ended December 31, 2022 are provided in the table below:

(₹ in million)

¹⁾ Other Current Assets excludes Cash and Cash Equivalents.

²⁾ The above working is certified by our Statutory Auditor pursuant to their certificate dated April 03, 2023.

Basis of estimates & assumptions for holding period

The audited standalone revenue from operation for the FY 2020-21 is ₹ 17,075 million whereas the audited standalone revenue from operation for the FY 2021-22 is ₹ 29,220 million. There is an increase in revenue by around 1.71 times as compare to revenue from operation of FY 2020-21. Further, the commercial activities at our Haryana Plant (which have installed capacity of 1, 71,000 MTPA) has been started and the application for the factory license has been made by the Company, for which the grant from the authority is awaited. For more information, please refer the section titled "Risk Factors" and "Government and Other Key Approvals" on page no 25 and 307 respectively. Accordingly, the company expects large growth in its business operations and total revenue going forward and the same will result in higher trade receivables in line with increase in turnover. Further, the company will also be entering into new geographies for its export business and hence may have to increase the credit periods to bring in new customers which will further lead to increase in trade receivables. Hence the trade receivables for FY 2024 are projected at ₹ 4,603 million. Simultaneously we want to reduce our credit period to get better pricing from vendors to increase our profitability. This would increase our working capital requirements. The funding of the working capital requirements of our Company is expected to lead to an increase in our profitability.

The details of the Company's standalone projected working capital requirements for the Fiscal 2024 and funding of the same are as provided in the table below:

(₹ in million)

Sr. No.	Particulars	Fiscal 2024
A	Current Assets	

Sr. No.	Particulars	Fiscal 2024

	Working Capital Facilities from Banks ⁽²⁾	3,650
	Owned Funds	900
	Proceeds from the Fresh Issue	1,350
	Total Source of Finance	5,900

¹⁾ Other Current Assets excludes Cash and Cash Equivalents.

²⁾ Our standalone sanctioned working capital facilities limit is of ₹ 3,650 million from banks. We confirm that Post Issue, there will be no reduction in the working capital facilities from banks.

³⁾ The above working is certified by our Statutory Auditor pursuant to their certificate dated April 03, 2023.

The table below contains the details of the holding levels (in number of days) considered and is derived from the Audited Standalone Financial Statements for the Fiscal 2020, 2021 and 2022 and assumptions for the projected periods are based on the future working plan.

Particulars	Assumptions
Current Assets	
Inventories	Our Company had inventories of around 24 days, 27 days and 16 days of revenue from operation for the Fiscal 2020, 2021 and 2022 respectively. Inventories days calculated as closing inventories divided by revenue from operation over 365 days. Our Company expects to streamline and make improvements to overall inventory management process and hence has assumed inventories days of around 18 days for the Fiscal 2024.
Trade Receivables	Our Company had trade receivables of around 20 days, 36 days and 36 days of revenue from operation for the Fiscal 2020, 2021 and 2022 respectively. Trade receivables days calculated as closing trade receivables divided by revenue from operation over 365 days. Our Company is targeting to increase its turnover by adding new customers / geographies and by providing higher credit to existing customers to grow its business and hence has assumed trade receivables days of around 42 days for the Fiscal 2024.
Other Current Assets	Our Company had other current assets (excluding cash & bank balance) of around 9 days, 21 days and 12 days of revenue from operation at the end of Fiscal 2020, 2021 and 2022 respectively. Other current assets (excluding cash & bank balance) days calculated as closing balances divided by revenue from operation over 365 days. Our Company has assumed other current assets days of around 6 days for the Fiscal 2024.
Current Liabilities	
Trade Payables	Our Company had trade payable of 8 days, 18 days and 10 days of cost of materials consumed for the Fiscal 2020, 2021 and 2022 respectively. Trade payable days calculated as closing trade payable divided by cost of materials consumed (including change in inventories) over 365 days. To improve the profitability, our Company aims to get better pricing from its suppliers by making timely / upfront payments and hence has assumed trade payable days of around 5 days for the Fiscal 2024.
Other Current Liabilities	Our Company had other current liabilities (excluding borrowings) of 17 days, 22 days and 7 days of cost of materials consumed for the Fiscal 2020, 2021 and 2022

Particulars	Assumptions
(Excluding Borrowing)	respectively. Other current liabilities days calculated as closing balances divided by cost of materials consumed (including change in inventories) over 365 days. Our Company has assumed other current liabilities days of around 11 days for the Fiscal 2024.

Our company has been increasing its owned processing units over the last few years. As on March 31, 2022, our Company's standalone networth is ₹ 3,676 million. We aim to use our networth for making further acquisitions of processing units going forward as and when such opportunity arises. Hence, the major portion of our company networth would be allocated towards growing our capital assets and around ₹ 900 million will be use for the working capital requirement. Accordingly, our Company requires additional working capital of ₹ 1,350 million for funding future growth requirements of our Company for the Net Proceeds.

The aforementioned working capital assumptions and projections have been approved by the Board through a resolution dated April 03, 2023. Our Company proposes to utilize ₹ 1,350 million of the Net Proceeds in the Fiscal 2024 towards our long-term working capital requirements.

We confirm that net proceeds from the issue if utilized for repayment of Borrowings / Loans will not being indirectly routed to promoters, promoter group, group companies and associates.

2. General Corporate Purposes

We propose to deploy ₹ [●] million, aggregating to [●]% of the Gross Proceeds of the Fresh Issue towards general corporate purposes, including but not restricted to strategic initiatives, partnerships, joint ventures and acquisitions, reduce consolidated debt levels, meeting exigencies which our Company may face in the ordinary course of business, to renovate and refurbish certain of our existing Company owned/leased and operated facilities or premises, towards brand promotion activities or any other purposes as may be approved by our Board.

We confirm that any issue related expenses shall not be considered as a part of General Corporate Purpose. Further, we confirm that the amount for general corporate purposes, including excess amount, if any, as mentioned in this Red Herring Prospectus, shall not exceed 25% of the amount raised by our Company through the Offer of Equity Shares.

Explanation for the Key Performance Indicators

Revenue from operations: Revenue from operations represents the total turnover of the business as well as provides information regarding the year over year growth of our Company.

EBITDA: EBITDA is calculated as Restated profit / loss for the period plus tax expense plus depreciation and amortization plus finance costs and any exceptional items. EBITDA provides information regarding the operational efficiency of the business of our Company.

EBITDA margin: EBITDA Margin the percentage of EBITDA divided by revenue from operations and is an indicator of the operational profitability of our business before interest, depreciation, amortisation, and taxes.

Restated profit for the period / year: Restated profit for the period / year represents the profit / loss that our Company makes for the financial year or during the a given period. It provides information regarding the profitability of the business of our Company.

Restated profit for the period / year margin: Restated profit for the period / year Margin is the ratio of Restated profit for the period / year to the total revenue of the Company. It provides information regarding the profitability of the business of our Company as well as to compare against the historical performance of our business.

Return on Average Equity (“RoAE”): RoAE refers to Restated profit for the period / year divided by Average Equity for the period. Average Equity is calculated as average of the total equity at the beginning and ending of the period. RoAE is an indicator of our Company’s efficiency as it measures our Company’s profitability. RoAE is indicative of the profit generation by our Company against the equity contribution.

Return on Capital Employed (“RoCE”): RoCE is calculated as Earnings before interest and taxes (EBIT) divided by Capital Employed by the Company for the period. RoCE is an indicator of our Company’s efficiency as it measures our Company’s profitability. RoCE is indicative of the profit generation by our Company against the capital employed.

Net Debt/ EBITDA: Net Debt to EBITDA is a measurement of leverage, calculated as a company's interest-bearing liabilities minus cash or cash equivalents, divided by its EBITDA. It shows how many years it would take for a company to pay back its debt if net debt and EBITDA are held constant.

6) Comparison of Key Performance Indicators with listed Industry Peers

There are no Indian listed companies that are engage in a business similar to that of our Company. However, there are certain unlisted Indian companies, which are our competitors and are comparable to our Company. For brief details of the same, please refer page 126 of this Red Herring Prospectus. Further there are no global listed peer companies of comparable size, from the same industry and with similar business model to that of our Company. Accordingly, it is not possible to provide an industry comparison of Key Performance Indicators.

7) Past Transfer(s) / Allotment(s)

- a) We had not undertaken any primary / new issuance of Equity Shares or any convertible securities, whether in a single transaction or a group of transactions during the 18 months preceding the date of the Draft Red Herring Prospectus or this Red Herring Prospectus.
- b) There have been no secondary sales / acquisitions of Equity Shares or any convertible securities (where promoter / promoter group entities or shareholder(s) selling shares through offer for sale in IPO or shareholder(s) having the right to nominate director(s) in the Board of the Issuer Company are a party to the transaction) equivalent to or exceeding 5% of the fully diluted paid-up share capital of the Company (calculated on the date of completion of the sale), whether in a single transaction or a group of transactions during the 18 months preceding the date of the Draft Red Herring Prospectus or this Red Herring Prospectus.
- c) Further we had not undertaken any primary / new issuance of Equity Shares or any convertible securities during the period of preceding 3 years from the date of the Draft Red Herring Prospectus or this Red Herring Prospectus except for issuance of equity shares on bonus issue as disclosed in the section entitled "Capital Structure" on page 73 and there have been no secondary sales / acquisitions of Equity Shares or any convertible securities (where promoter / promoter group entities or shareholder(s) selling shares through offer for sale in IPO or shareholder(s) having the right to nominate director(s) in the Board of the Issuer Company are a party to the transaction) during the period of preceding 3 years from the date of the Draft Red Herring Prospectus or this Red Herring Prospectus

Weighted average cost of acquisition ("WACA"), IPO Floor Price and Cap Price

Since there are no such transaction to report to under (a), (b) and (c) above, comparison of Weighted Average Cost of Acquisition (WACA) with IPO Floor Price & Cap Price is not possible.

Past Transactions	WACA	IPO Floor Price – ₹ [●]	IPO Cap Price – ₹ [●]
WACA of Primary issuance	Nil	NA	NA
WACA of Secondary transactions	Nil	NA	NA

8) The Offer price is [●] times of the face value of the Equity Shares.

The Offer Price of ₹ [●] has been determined by our Company and the Promoter Selling Shareholder in consultation with the Book Running Lead Manager on the basis of the assessment of market demand from investors for the Equity Shares determined through the Book Building Process and is justified based on the above qualitative and quantitative parameters. The Face Value of the Equity Shares is ₹ 10 per share and the Offer Price is [●] times of the face value. GLOBAL ECONOMIC SCENARIO AND OUTLOOK

Global economy on a bumpy ride; Outlook continues to remain uncertain

The global economic environment poses serious uncertainties despite after the gradual recovery from the disastrous Covid-19 pandemic in 2020 and the geopolitical crisis with Russia invading Ukraine in February 2022. The war is still on, and the prolonged geopolitical conflicts and the accompanying sanctions have continued to keep commodity prices, particularly in crude oil, at elevated levels. The excess liquidity released during the pandemic coupled with sharp increase in food and energy prices in the aftermath of war, resulted in record inflation in most of the global economies. In response to rapidly growing inflation, central banks around the world have tightened monetary policy by increasing interest rate. High inflationary conditions in developed western economies have led to sharp increases in interest rates, particularly in the US, UK, and the Euro area.

The Russia-Ukraine war and the sanctions have not only resulted in inflationary conditions and supply chain disruptions, but also caused significant economic slowdowns in most parts of the world. Although inflation has declined as central banks have raised interest rates and food and energy prices have come down, underlying price pressures are proving sticky. Side effects from the fast rise in policy rates are becoming apparent, as banking sector vulnerabilities have come into focus and fears of contagion have risen across the broader financial sector, including non-bank financial institutions.

Weakening global demand, spill overs from the banking crisis in some Advanced Economies (AEs), volatile capital flows and debt distress in certain vulnerable economies weigh on global growth prospects. In addition, the recent turmoil in the banking system in some AEs have heightened the financial stability concerns. More than a third of the economies are facing recessionary conditions. Growth projections for major economies have been revised down recently. The IMF, in its World Economic Outlook (WEO) update of April 2023, has revised the global GDP growth projections for 2023 to 2.8% from 2.9% estimated in January 2023. The growth rate was at 3.2% in 2022 and 6.1% in 2021. The risks to the growth outlook are firmly to the downside with the increased uncertainty from the recent financial sector turmoil.

Nevertheless, the global economic recovery is continuing. Commodity prices that rose sharply following Russia's invasion of Ukraine have moderated with easing supply-chain disruptions. The Covid-19 strains that caused widespread outbreaks last year, are not a major threat at present. Larger economies like China are recovering faster and Emerging market and developing economies are already showing better recovery. The slowdown is concentrated in advanced economies, especially the euro area and the UK.

Overall, the risks to the global growth outlook are tilted to the downside. The recent financial stability risks and global spill overs have imparted significant uncertainty to the economic outlook for 2023. The global economy likely to grow at a modest level from 2024 onwards. Global inflation will also decrease gradually with reduction in energy prices and easing of supply chain bottlenecks. Policymakers have already taken forceful actions to stabilize the banking system. The growth prospects depend how quickly the economies contain financial sector stresses and bring back the inflation rates to within the target.

DOMESTIC GROWTH OUTLOOK

Growth on a patchy path; GDP to decelerate in FY24

There are upside and downside risks to India's growth outlook. Overall, there are improved perceptions on general economic situation and the overall business situation in India. The Indian economy has recovered quickly after a lethal first wave of the Covid-19 pandemic, which began in March 2020 in India and despite the repeated lockdowns due to contagious Covid wave infections in 2021. The recovery was supported by timely intervention by both the government and RBI. Monetary policy actions are consistent with achieving the RBI's inflation target over the medium term and supporting growth.

Although domestic economic activity has improved after the pandemic, global supply chain bottlenecks and sharp rise in global commodity prices, particularly crude oil prices due to Russia Ukraine war continued to dampen the growth recovery. Further, there are inflation concerns and policy tightening. In FY23, consumer price inflation has remained above the upper band of the target of the RBI (2% to 6%) and averaged 6.6%, as supply-side pressures aggravated cost push inflation. The RBI increased the key policy rates by 250 basis points in FY23, in response to high inflation.

The prolonged Russia -Ukraine conflict and the accompanying sanctions have continued to keep commodity prices, at elevated levels. The recent banking turmoil in the advanced economies has created financial instability. Despite all the odds, India's economic recovery is expected to be fast paced compared to the other countries.

The government's thrust on capital expenditure is likely to drive the economy on an improved growth path, and bolster manufacturing and investment activity. While the past policy rates hikes, moderation in commodity prices and high base effect expected to help moderate the inflation levels. Despite global financial turmoil, the Indian economy is showing signs of improved capacity utilisation in manufacturing and double-digit credit growth. The contact-intensive services emerged completely from the pandemic and witnessing a stronger-than-expected rebound in the recent months. However, global recessionary scenario likely to drag the external demand and result in lower demand for exports. Protracted geopolitical tensions, tight global financial conditions and global financial market volatility pose risks to the external sector outlook.

After recovering to the pre-pandemic level in FY22, India's GDP is estimated to grow at 7% in FY23. For FY24, as per the RBI projections, the GDP will grow at 6.5%, which is in line with the estimates by Economic Survey 2022-23. Slowing global economy, sticky inflation and high interest rates are likely to dampen the growth outlook, and maintaining high growth next year will require significant policy interventions. Although, domestic economic activity remains resilient on the back of consecutive years of strong agricultural production, a post-pandemic rebound in contact-intensive services, buoyant growth in bank credit, a healthy banking and financial system and the government's capex push, the impact of rate hikes yet to manifest, which is likely in FY24. Continued geopolitical tensions, upsurge in global financial market volatility and tightening financial conditions also weigh heavily on the outlook.

An escalation in geopolitical tensions, a further hardening of international crude oil and other commodity prices, sustained disruptions to supply chains, persistence of global financial turmoil, a sharper loss of momentum in global trade and demand and weather-related concerns continue to pose downside risks to the domestic growth outlook.

Meat is a major dietary component across the globe and is a major source of protein in the diet. After pork and poultry, beef is the third most widely consumed meat in the world accounting for 24% of global consumption. In 2022, 360 million tonnes Carcass Weight Equivalent¹ (CWE) of meat was produced in the world, 1.2% higher compared to 356 million tonnes produced in 2021². Region wise, Asia contributes 43% of the total production followed by Europe and North America. USA, Brazil, China, European Union (EU), and India are the major meat producing countries while, Brazil, India, USA and Australia are the major exporters of meat in the world. Despite being the largest producers of meat, USA and China are the net meat importing countries due to high domestic consumption.

Note: Total meat includes bovine, ovine, pig, poultry and other meats, all expressed in carcass weight equivalents

In this report, from this section onwards ‘meat’ refers primarily to the meat of cattle - bull, ox, cow, buffalo – including water buffalo and veal (meat of calves) and variants, in global scenario. In India, due to religious beliefs, cows slaughter is strictly regulated. In Indian context, ‘meat/carabeef’ refers to buffalo meat only. Indian exports are carabeef (water buffalo).

1 CWE is the weight of an animal after slaughter and removal of most internal organs, head, and skin.

Buffalo Meat Industry

The world's total production of beef and buffalo meat was estimated at 59.348 million tonnes in 2022³. The USA continued to be the top country in terms of production of beef and buffalo meat in the world. As of 2022, production of beef and buffalo meat in the USA was 12.89 million tonnes that accounts for 21.7% of the world's production. Top 5 countries including US, Brazil, China, EU, and India account for 70% of the world's total production of beef and buffalo meat.

Meat is characterized and valued for its tenderness, flavor, texture, and levels of fat marbling. It has different shades of colour from bright pink to red. High-quality meat is firm, velvety, fine-grained, lean, bright red in colour and well-marbled. The fat is smooth, creamy white, and well distributed. Meat encompasses a wide range of products from a highly marbled premium meat to low value offal product. Meat has eight primal cuts such as brisket, shank, rib, loin, round, chuck, flank, and short plate. These are used in various ways - curry, stew, roast, steak, sausage, burger, soup, or fried - in the different recipes. Meat is the main ingredient in various traditional cuisines across the globe.

The cattle are usually classified into two major groups - *Bos indicus* and *Bos taurus*. Crossbreeding is generally done and is advantageous to obtain the desired attributes of two or more breeds in the offspring and improve traits such as productivity, environmental adaptation, fertility, and carcass traits, etc.

Some of the well-known breeds in the world are mentioned below:

- **Japanese breed** such as Japanese Black, Japanese Brown, Japanese Polled, Japanese Shorthorn
- **British breeds** such as Angus, Herefordshire, Galloway, Shorthorn, Murray Grey, Highland, Ayrshire, South Devon
- **European breeds** such as Piedmontese, Simmental, Brown Swiss, Charolais, Limousin, Holstein Freisian, Red Dane.
- **Indian subcontinent breeds** such as Gir, Murrah, Jafrabadi, Red Sindhi, Sahiwal, Mehsana, Toda, Nagpuri, Nili Ravi, Surti.

Methods of Meat Production

Meat cattle are raised in diverse ecosystems around the world, including the North American plains, the Brazilian Amazon, pastures of EU, across Indian subcontinent and in Australia.

Around the globe, the cattle are raised and reared using different methods such as

- a. **Ranching**- practice of raising cattle herds on large tracts of land called ranch, a subtype of farms
- b. **Free range**- denotes a method of farming husbandry where the animals may roam freely outdoors partially, rather than being confined in an enclosure entirely. Since the ranging area is fenced, thereby technically making this an enclosure. However, free range systems usually provide benefit of extensive locomotion and sunlight that is otherwise prevented by indoor housing systems
- c. **Backgrounding** –it is the rearing of steers and heifers from weaning until they enter the feedlots. It involves the feeding of a predominately forage-based diet, some grain may be fed. The process of backgrounding is used for weight control management so that cattle gain enough muscle and bone before laying down fat covering and marbling in the feedlot.
- d. **Feedlots** – feedlot is also known as feed yard is an array of pen or enclosure for animals. It represents an intensive production system with the aim of growing and/or fattening cattle until they reach slaughter weight. Concentrated animal feeding operations (CAFO) are large meat feedlots more common in USA and Canada, etc.

Meat grading system

Meat is graded with the measurement of traits such as carcass conformation, marbling, ossification, and meat colour. The quality grades for tenderness, succulence, and flavor; and yield grades for usable lean meat on the carcass.

- USA follows grading system of United States Department of Agriculture (USDA).
- The meat grading system used in the UK and Europe is the EUROP system of the European Commission.
- Australia uses Meat Standards Australia (MSA) grading system.

There are four main meat grades - prime, choice, select and standard, and an additional four lower grades - commercial, utility, cutter, and canner. Prime is the highest meat quality, while canner is the lowest meat quality. Sometimes, grade may be 3, 4 or 5 star and each meat cut is labelled in accordance.

Indian Buffalo Meat Industry

Overview

The livestock sector is an important component of Indian economy in terms of income, employment, and foreign exchange earnings. Besides directly benefiting the rural economy, the buffalo meat industry also provides various by-products. These by products are used as raw material for allied sectors -high-quality hides for the leather industry, processed offal for pharmaceutical and pet food applications, and inedible by-products provides poultry feed, special lubricants, and other products.

India has one of the largest cattle populations in the world and it accounts for more than 110 million buffaloes which is 43% of world buffalo population. India is also the fifth largest producer of buffalo meat in the world. According to the Agricultural and Processed Food Products Export Development Authority (APEDA), India accounts for about 43% of the world buffalo meat production, with Uttar Pradesh producing the most, followed by Andhra Pradesh and Maharashtra.

Buffalo meat has the largest share with more than 69% in the total animal products exported from India. In 2020-21, India remained the fourth largest buffalo meat exporter in the world. The major export destinations were Hong Kong, Vietnam, Malaysia, Egypt and Indonesia. In 2021-22, there has been a marked shift in exports towards Egypt, which topped the major importing country from India. Exports to Indonesia too is on the rise in the last four years which is expected to increase further in 2023. India is seeking access to Medan port of Indonesia to allow the shipment of buffalo meat on its northern coast rather than Jakarta due to the latter's proximity to the nation. Medan port is located in the north and Jakarta port is located in the southern Indonesia. It can potentially be cheaper to pay for transportation as it takes over 1,500 kilometres to go between the ports of Medan and Jakarta. As per APEDA, the annual export quota of bovine meat from India to Indonesia is also expected to rise.

Since FY21, there has been a steady growth in buffalo meat exports from India. In FY21 and FY22, buffalo meat exports increased by 3% and 5%, respectively in value terms. In FY23 so far (April to February 2023), India exported Rs 24,613 crore worth of buffalo meat, which is 5% more than the comparable period last year.

The rapid growth in exports has been supported and will be driven by:

- Steady demand for Indian buffalo meat in the international markets, specifically rise in demand for relatively good quality lower price Indian buffalo meat in developing countries
- Large and underutilized buffalo population, potential to increase meat production further
- Strong presence of export-oriented processing units implementing international quality guidelines
- Improving infrastructure, use of tagging and monitoring device, R&D in genetic and breeding
- The World Organization for Animal Health (OIE) standards for risk mitigation are followed while processing and exporting buffalo meat.

Buffalo meat is the top exported commodity in Indian animal products exports

According to APEDA, India's share in the world buffalo meat production stands at 43%. The share of buffalo meat exports was the highest at around 70% in comparison to other Indian animal products.

Buffalo meat has also been a major exporting item in agro-commodity basket since 2013-14. It accounts for 12% of total shipments in 2022-23, and the third major product in the APEDA export basket in the total agri and processed food exports.

Exports of Buffalo Meat from India- Major Countries

The major export destinations were Egypt, Vietnam, Malaysia, Indonesia, Iraq and Hong Kong.

The Indian buffalo meat exports industry is dominated by 6 to 7 major players with 60% of market share and remaining (40%) is dispersed with many small-size entities. The industry enjoys some inherent advantages such as abundant cattle population, robust infrastructure, and low labour costs. *The size of the Indian buffalo meat industry reached to around Rs 65,000 crore in FY22 with exports comprising of close to 40% of the total market.* Indian buffalo meat industry structure and market segmentation is shown as below:

The main products are

Domestic market	Export market
Fresh / Chilled/ Frozen buffalo meat	Chilled / Frozen buffalo meat
Carcasses of bovine	Carcasses of bovine
Buffalo meat with bone	Buffalo meat with bone
Boneless Buffalo meat	Boneless Buffalo meat

Source: Brickworks Analytics

Buffalo meat export is largely in the form of frozen deboned, de-glanded meat packed in different cuts at the meat export plants. Vacuum packed chilled buffalo meat is also exported.

The major centers for buffalo meat production are Uttar Pradesh, Andhra Pradesh, Maharashtra, and Punjab. Uttar Pradesh is the leading buffalo meat producing state, with its high buffalo population and efficient fully integrated meat processing units. Maharashtra and Telangana have been declared FMD-free states, however, the bulk of the production occurs in Uttar Pradesh, where the problem persists and needs to be altered.

The buffalo meat is processed and exported in accordance with Organization International Des Epizooties (OIE, international guidelines) for any risk mitigation. Only boneless buffalo meat is allowed for export from India which is safe and risk-free.

Government has launched National Animal Disease Control Programme, in June 2019, to control Foot- and-mouth disease (FMD) and Brucellosis by 2025 with vaccination and eradication of disease by 2030. Entire cost of vaccine is borne by the Central Government with an outlay of Rs 13,343 crore. India is classified as free from all the disease mentioned in “A” list of International Organization for Animal Health (OIE) diseases, except foot-and-mouth disease (FMD).

The Indian government is providing support to the local livestock meat industry, maintaining, and facilitating essential food and agricultural product processing. In the Budget FY 2023-24, it announced a sizeable allocation of funding for the Ministry of Agriculture and Farmers’ Welfare’s Department of Animal Husbandry and Dairying (DAHD) for the livestock health and disease management program. This has been done in order to control two deadly animal diseases, African Swine Fever and Lumpy Skin Disease.

Global preferences, pricing, quality along with the breeding and rearing practices provide India with numerous advantages. India has an efficient buffalo meat production and processing supply chain. The Indian buffalo meat is of good quality, meat is priced in affordable range and has international quality certifications and ‘Halal’ certification, which makes it an attractive option for Asian countries and MENA countries. It contributes towards food security and food price inflation control in the importing countries.

India exports buffalo meat to more than 70 countries globally in Southeast Asia, Middle East, Africa, CIS countries. The major markets are Vietnam, Hong Kong, Malaysia, Egypt, Iraq, Saudi Arabia, Philippines, Indonesia, Myanmar, UAE, Algeria, and Russia. FMD free status and product traceability are required for exports to developed markets such as USA and EU. India does not have FMD-free status, restricting access to many

countries. It predominantly exports to developing and price sensitive markets in South-East Asia and the Middle East. India has already started taking measures to overcome such exports barriers.

Key characteristics of Indian Buffalo Meat Exports Industry

The key characteristics of the Indian buffalo meat industry, exports only, is as below:

1. **Large players dominate the exports market-** The industry has a few top players such as Allanasons, HMA Agro, Fair Exports, Al Hamd Agro Food Products, Rustom Foods and Al Dua, together they have a major share (60%+) of the total export market. The rest of the industry is highly fragmented with the presence of multiple small and unorganised players. The share of organized players is increasing on account of their adoption of safe hygienic and automated operational processes, increase in market reach and focus on marketing and branding activities
2. **Largely unorganized, highly fragmented backend -** From acquisition and aggregation of animals from farmers/ village fairs/ markets till their transportation to export processing facilities, this backend process is fragmented, small-scale, unorganized, dispersed in nature and many livestock traders and aggregators are involved. The inefficiencies in the system result in higher costs over time.
3. **High Competition-** The sector is highly competitive because of the limited product differentiation and nature of the business. The industry requires moderate technological know-how and is moderately capital intensive. The industry has witnessed entry of many private sector players which has resulted in intense competition, thus limiting the pricing power of industry participants.
4. **Low/limited breeding for meat only -** The animals in India are not reared or bred entirely with the purpose of their meat. The animals used for the meat are generally culled, nonproductive dairy animal such as female buffaloes, post the milch phase of their life or male buffaloes or calves.
5. **Natural and almost organic cattle rearing -** The cattle is reared in green pastures and agricultural crop residues thus are raised under green livestock production system. The animals are raised on natural feeds without any supplement of antibiotics, hormones, and growth promoters. It gives a unique flavour and quality to Indian buffalo meat. Although Indian buffalo meat is not certified as organic, these low-intensity production practices are preferred by its consumers in some markets.
6. **High in nutritional value-** Indian buffalo meat is a relatively lean product that is comparable to international meat in terms of nutritional value and palatability. It is 93 percent chemically lean, helping it to be relatively lower in calories and cholesterol than meat from fed cattle. It has relatively good binding properties, which makes it suitable for processing.⁴
7. **Increased adoption of technology for identification -** The industry is witnessing an increase in the adoption of RFID tagging and barcoding so as to identify, trace and monitor cattle development. A livestock traceability database is established providing information about cattle, farm, abattoir, and veterinarian, etc. These systems provide quality assurance and assist in augmenting exports.
8. **Increase in R&D -** India has also started using technologically advanced reproductive procedures with genome selection, genetic information, and better vaccination techniques.
9. **Hygienic and low risk of disease -** India is classified as free from all the disease mentioned in “A” list of International Organization for Animal Health (OIE) diseases, except foot-and-mouth disease (FMD).
10. **Low penetration in the developed meat markets -** FMD free status and product traceability are required for exports to developed country, which India lacks currently, restricting access to many markets.

⁴ FICCI; APEDA red meat manual

11. **International certification-** The buffalo meat processing facilities have always been compliant and in accordance with the international quality standards. India has international quality certifications and ‘Halal’ certification, which makes it an attractive in various Asian countries and MENA countries. The meat exports are sourced exclusively from APEDA registered facilities. Hazard Analysis and Critical Control Points (HACCP) procedures, and animal health certificates are mandatory.

Indian Buffalo Meat Value Chain

The domestic value chain for buffalo meat production in India livestock producers, traders, butchers, wholesale meat dealers and retailers.

The buffalo meat value chain for export has different stakeholders working at several stages of production.

- Farmers raise the buffalo till they become uneconomical or suitable for slaughtering and thereafter sell them to traders directly or through trader.
- Traders play the role of aggregators in the value chain. They collect the animals from villages and transport them to livestock markets for onward sale to sub-traders.
- Traders/sub-traders sell the buffalo to exporters for further processing
- Exporters process the meat and forward for export destination markets.

Buffalo Meat Value Chain for Export Market

India Buffalo Meat Value Chain Process Constituents

The Indian buffalo meat value chain is significantly different as compared to some other countries. In India, cattle are reared and utilized primarily for milk production. They are also used as draught animals or for other byproducts, an additional income source. Utilization of bovines as draught animal has gone down due to progressive mechanization. Generally, the male calves, unproductive females and males are utilized for meat production.

Cattle Production System

Many cattle/buffalo owners are subsistence farmers with little or no land (less than 1 acre), and with 2 cattle-buffalo on an average. The cattle provide milk, draught power and manure and utilize non-marketable farm by products and extra family labour. The grazing/feeding method is usually dependent on the availability of open farms or pastures. In large metropolitan cities, for milk production, large herds of superior cattle are maintained under stall fed conditions. Their major feeding system is composed of dry roughages supplemented with some seasonal green fodder and large quantities of quality concentrates.

Well managed government owned farms also exist where scientific breeding, feeding, management and health care are practiced. These farms usually maintain 100-300 cattle.

Cattle Feed

Animal feeding is one of the major inputs in livestock industry accounting for 55-75%. Feed resources are the major constraints in exploiting the genetic potential of the livestock. Ruminants are fed on crop residues, green fodders, nonconventional feed resources and compounded livestock feeds. Animals are grazed on natural pastures. Feeding of mammalian by-products is prohibited in India. Similarly, hormones and antibiotics are not fed as feed supplements to lactating and meat animals. Therefore, dairying and meat production is almost organic. The compound livestock feed manufacturing industry is well organized producing livestock feed to cater requirement of animals.

Indian Veterinary Services and Disease Control Initiatives by Government

India is free from all the trade related diseases as per Organization International Des Epizooties (OIE) list. India is free from Rinderpest, Bovine Spongiform Encephalopathy (BSE) and Contagious Bovine Pleuropneumonia (CBPP). India has an efficient Animal Health Service System for systematic control of livestock diseases.

India has 12,234 Veterinary Hospitals/ Polyclinic, 27,140 Veterinary Dispensaries, 25,867 Veterinary Aid Centre/Mobile Dispensaries and 70,258 registered veterinarians.

India has robust veterinary services providing R&D about genetics, breeding, and disease control:

- a. Veterinary Services are provided by State Governments
- b. Central Govt's Centrally Sponsored Scheme under National Animal Disease Control Programme (NADCP) and Livestock Health and Disease Control (LH&DC) Scheme
- c. Central Government also regulates animal quarantine, import of livestock & livestock products as per the provisions of Livestock Importation Act, 1898 and 2001 (amended)
- d. R&D support under Department of Agricultural Research and Education (DARE) and Indian Council of Agricultural Research (ICAR).

Processing

Livestock Markets- The cattle are traded/ sold in livestock markets under the supervision of State Government Veterinary Departments. They are mostly weekly markets and are owned privately or by trust or local bodies (Panchayat/ Municipality/ Corporation). The animals are either sold individually or are grouped in lots of 10-20 cattle.

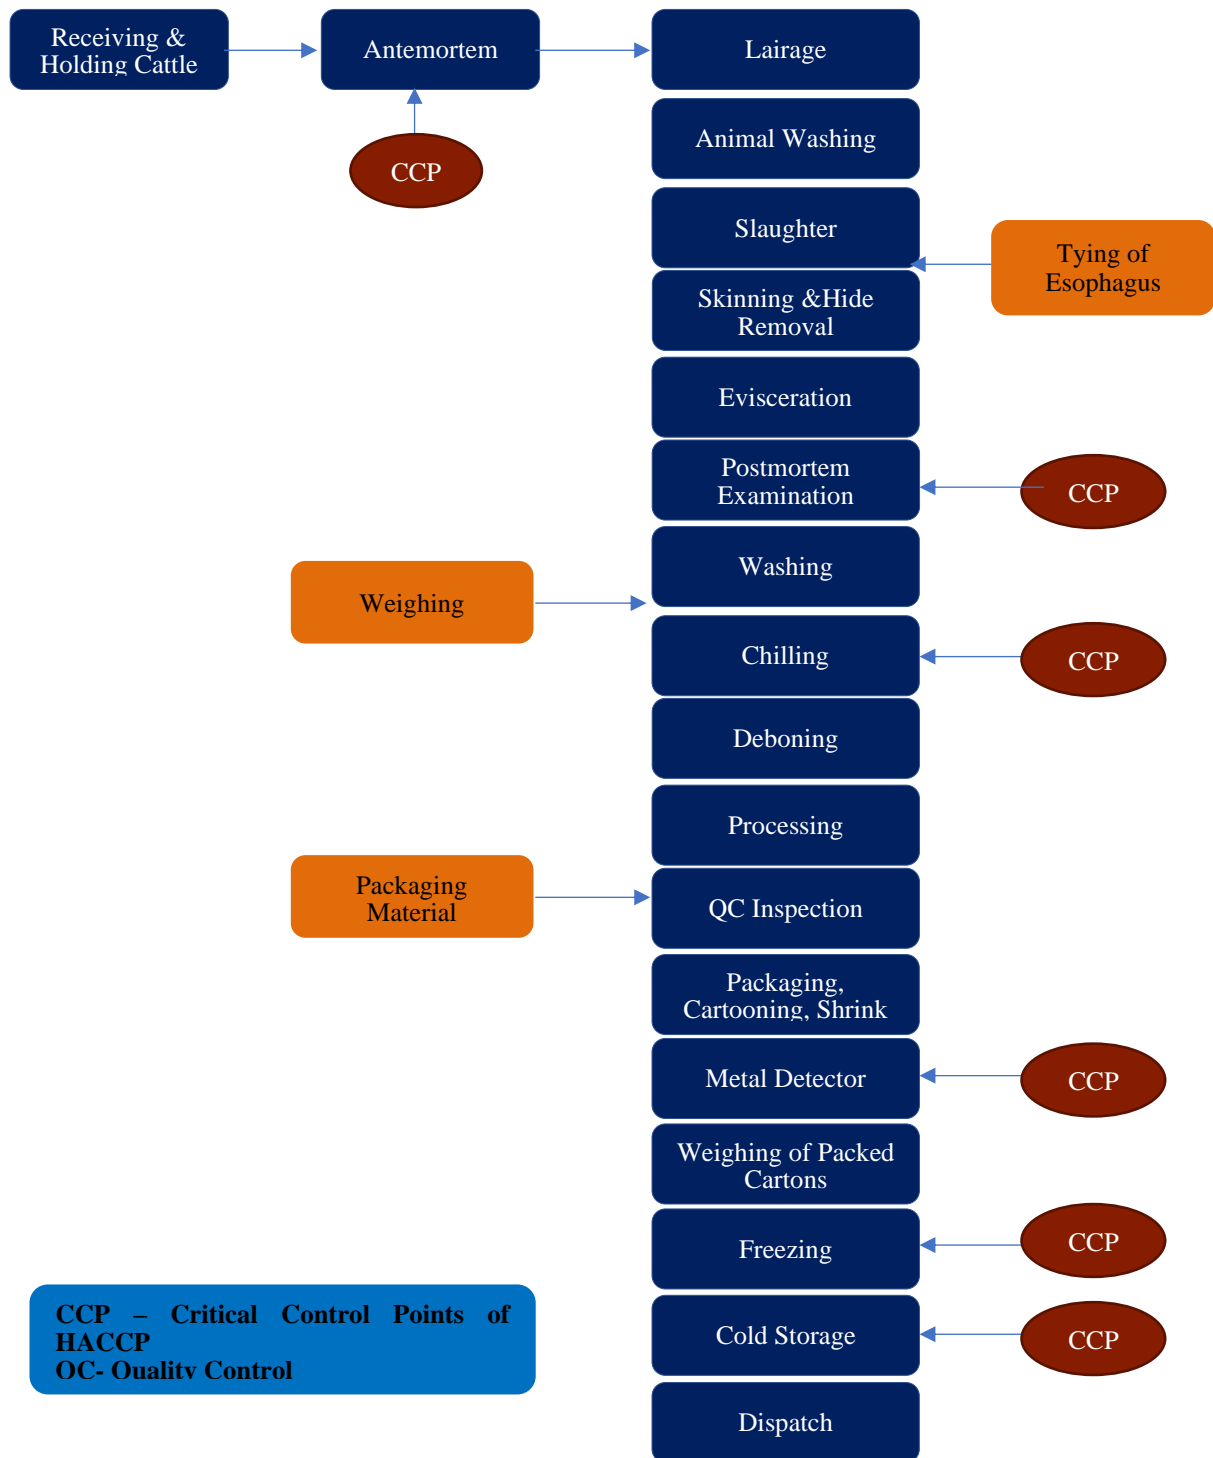

Marketing of livestock is undertaken by the states as per Agriculture Produce Markets Acts (APMA). All the functionaries in the markets particularly those maintained by local authorities or in most of the markets, the transactions take place after examination of the animals.

Municipal Abattoirs- For domestic market, there are 4,000+ slaughterhouses registered with the local bodies. Traders/individual butchers buy their animals from weekly livestock markets and bring them to slaughterhouses which cater either to domestic market or export-oriented units.

Retail meat shops- The buffalo meat is marketed in the retail meat shops and supermarkets. These shops are licensed to maintain the hygienic conditions as per FSSAI Act & Rules. The domestic meat industry prefers the fresh meat which is produced and sold daily.

Export Oriented Abattoirs- There are more than 111 modern meat processing plants many of which are fully integrated right from slaughter to the production of frozen buffalo meat with rendering and effluent treatment plants to ensure green safe meat production. The plants have HACCP, ISO 22,000 certifications. The meat processing and quality control measures undertaken at various critical control points are depicted below.

Global and Domestic Demand Supply Trends

Global outlook is mixed; Production and consumption is expected to remain unchanged in 2023.

Global meat production is estimated to be around 59.1 million tonnes in 2023.

Global trade has been disrupted by the pandemic and subsequent waves since 2020. In addition to severe disruptions in supply chains and logistical and processing barriers, many countries were affected by reduced

tourism, low employment levels and constrained consumer spending which led to a sharp decline in demand as well as supply. During 2020, total global meat production, consumption and exports declined by around 1% each compared to their previous year levels due to the contraction of supply from Australia and the impact of Covid-19 on India and Brazil.

In the aftermath of lifting of Covid-19 restrictions, economic recovery across the globe recovered gradually and the production and consumption of meat improved and reached the pre pandemic levels in 2022. Exports too bounced back and reported 5% growth in 2022 over 2021, due to increase in meat production in Brazil, India, Australia and Uruguay. In 2023, meat production is expected to remain stagnant at 59 million tonnes (MT).⁵ Production is expected to fall by 5.3% in USA, while Australia, China, Brazil, and India are expected to see an increase. Due to improved pastures and greater feed availability which supports heavier carcass weights, Australia, is expected to 9.7% rise in production. Good pasture conditions also help herd rebuilding. Brazil, which is the top meat production country after US, is likely to see 2% increase in meat production in 2023 as compared to a rise of 6.2% in 2022. The meat production in Brazil was supported by greater cattle availability and improved margins for slaughterhouses. In India, the meat production is expected to continue the recovery that began in 2021 after the easing of lockdown restrictions. However, the growth is likely to remain stagnant at around 2% in 2023, compared to 3.7% in 2022 and 11.6% in 2021.

Meat production in Australia, New Zealand, the EU and India is mainly a by-product of large dairy industries. Countries such as New Zealand is almost entirely export focused, while the EU countries cater to high demand from domestic markets.

E: Estimates

Source: United States Department of Agriculture, United States Department, April 2023, Brickworks Analytics

The majority of meat consumption growth over the past decade has been in the developing countries, particularly Asia, with forecasts for the next decade indicating a similar trend. However, surplus production remains centered in North and South America and Australia. These production and consumption imbalances drive global trade. Better supply chain network, better logistics, improved cold chains and the development of governing institutions have supported the growth of the global meat trade over the past two decades.

USA is the largest producer and consumer of meat in the world, China is the largest importer and Brazil is the major exporters of meat in the world.

USA has high affluent consumer base, combined with high per capita meat consumption, makes it influential in the global protein trade landscape.

In 2023, the global red meat exports are estimated to remain stagnant with a fractional growth due to ongoing geopolitical crises and global slowdown. USA is expected to see 11% fall in exports as the U.S. cattle herd contracted by roughly 3% compared to 2022. Brazil is likely to continue to outperform other major meat traders on tighter exportable supplies from its major competitors such as Argentina and Uruguay, which will support growing shipments to China. Price competitiveness and increased opportunities in China, Chile, and Japan following the reduced imports from the EU is also likely to support the demand. Elevated global meat prices are likely to induce more slaughter and result in increased production and exports. India’s meat production is likely to increase by 2% on export demand and marginally higher domestic consumption. Brazil exports are expected to remain high due to increase in the demand from China, its prime market. Australia is expected to have higher exports on production recovery, which may also lead to increase in competition in key Asian markets. Argentina, EU, New Zealand and Paraguay may experience reduction in exports as harsh weather this year may results in cattle to be marketed earlier than planned, and it may reduce cattle availability next year. Greater feed availability and improved pastures in Australia will support heavier carcass weights and boost the production by 10% in 2023.

Australia which is the third largest exporter and seventh largest producers of meat, continued to record contraction in production and exports for the three consecutive years since 2020.

The overall outlook for global meat trade continues to remain mixed for 2023. Global production appears to remain the same as per our analysis. There might be a slight decline in the meat production in US which will be balanced by an increased production from countries such as Australia, Brazil and India. Global meat production is estimated to be around 59.1 million tonnes in 2023, almost similar to 59.3 million tonnes in 2022. The global demand for meat has remained steady despite a change in preferences of meat by the people in different countries. Poultry and beef are still occupying the top position. There has been remarkable increase in meat exports from India in the recent few years. The primary reason for increase in exports is demand for Indian buffalo meat in the international market. Buffalo meat dominated the exports with a contribution of over 79.56% in total Animal Products export from India in 2021-22. The main markets for Indian buffalo meat and other animal products are Vietnam Social Republic, Malaysia, Egypt Arab Republic, Iraq and Saudi Arabia are the main markets for Indian Buffalo meat.

India is set to become the second largest buffalo meat exporter in the world in 2023

India has witnessed a robust growth in buffalo meat exports since 2021 and is set to become the second largest exporting country after Brazil in 2023. India's share in world exports has been on the rise and is at par with Australia and USA meat exports in the last five years. In FY22, India exported USD3.3 billion worth buffalo meat, showing an increase of 4% over FY21. In FY23 so far (April to February 2023), India's exports amounted to Rs USD 2.9 billion, or Rs 23,041 crore. In rupee terms, exports have increased by 2% over the comparable period previous year. As per USDA, India's buffalo meat exports are expected to reach 1.48 million tonnes⁶ and USD 4.1 billion in value terms in 2023⁷.

The Indian buffalo meat industry has shown a strong growth over the years as evident in the graph above. Post 2010, the exports have grown exponentially due to high demand from MENA and Asian countries.

Several factors affecting/or contributing to export trends are mentioned below:

- Level of buffalo meat exports in India is linked to demand from the Southeast nations:** Vietnam has been the largest export market for India for a decade 2010-2018, accounting for more than 45% of share in FY14 and FY15. The Indian buffalo meat exports were impacted adversely due to low demand from Vietnam, which accounts for about 12.7%⁸ share in FY22. Egypt has emerged as the largest importer of Indian buffalo meat in FY22. This increase in exports to other destinations, thus offset the loss caused

by decline in demand from Vietnam and that prevented a big fall in trade volume and value in FY21 and FY22. Exports to Indonesia is also on the rise in the four years and India is seeking access to Medan port of Indonesia to allow the shipment of buffalo meat on its northern coast rather than Jakarta due to the latter's proximity to the nation. The annual export quota of bovine meat from India to Indonesia is also expected to rise as per APEDA.

- **Increased competition from Brazil and Australia** - Brazil and Australia have more of their top markets (25+countries) in common with India than the USA. India replaced Brazil and emerged as top trading partners for Middle east countries in 2021 and the trend continued in 2022 as well. Brazil suffered setback amid a disruption of traditional shipping routes, while India had geographic advantages. Australian meat is perceived as high quality and safe, and disease-free meat, and cater to different consumer segment as compared to India in the same market.
- **Pandemic consequences** – The industry was severely hit by the consequences of Covid-19 and movement restrictions, lockdowns, and low demand in 2020. Contractions in processing capacity and logistical barriers across the country resulted in the decline in exports in the first half of 2020 and 2021. The meat industry bounced back with both production and exports showing prominent growth starting 2021. Industry sources are reporting increased demand from Malaysia and Middle Eastern markets and going forward, India is expected to exhibit strong growth in buffalo meat production as well as exports.

There is rise in demand in MENA, Asia, and USA with the economic recovery this year

The expectation of sustained recovery in 2023, amid improving demand for meat from both traditional and non-traditional buyers augurs well for Indian exports. The continued meat production deficit in East Asia, mainly China, Vietnam, and Philippines, was primarily behind the rise in global meat imports in 2021 and 2022. In many countries in the MENA region, demand for meat and meat products has recovered, reflecting higher demand from the hospitality industry, HORECA segment as well as consumers, following relatively faster recovery from the pandemic and increased imports of halal-certified meat products. The slowly recovering food services sales and associated intermediate demand in the Americas also contributed to a rise in global meat demand. Global exports are forecast fractionally higher in 2023 at 12.1 million tons as lower U.S. exports fully offset growth from Brazil, Australia, and India.

Average prices for meat are expected to increase moderately

International meat price trend is forecasted to increase at a moderate level. The economic slowdown since the pandemic has reduced incomes in net meat-importing, low-income countries, significantly eroding household purchasing power and compelling consumers to substitute the intake of meat products with cheaper alternatives. With the revival in economic recovery, and demand, prices may see an increase. Ongoing geopolitical tensions and supply constraints globally may induce higher import demand and lead to higher prices. Animal disease

outbreaks, sanitary restrictions, and trade policies will affect the price dynamics of meat price in the international markets.

Demand- supply dynamics are expected to result in price stabilization for the forecasted period.

USA, Australia, Canada meat prices are premium priced, while Indian buffalo meat is a commodity product that sets the world price floor as clearly seen. The price of Indian buffalo meat has increased moderately in FY21 to USD2.92 per Kg, from USD2.76 per Kg in FY20. India’s average export prices for buffalo meat is the lowest compared to the other major countries in the world. Given the current demand supply dynamics, the Indian meat prices are expected to remain moderate in the coming year. While the strong price competitiveness strengthens higher demand for exports. India exports are forecast 2% higher in 2023 on strong price competitiveness in key Southeast Asia and Middle East markets, especially Vietnam, Malaysia, and Saudi Arabia.

Government policy support is critical for the growth of the industry

In order to promote meat processing industries, increase level of processing and take advantage of the potential of international meat market, several initiatives were taken by the government as below:

Trade Policy: The Ministry of Commerce and Industry regulates livestock and livestock product exports. The Department of Animal Husbandry and Dairying regulates livestock and livestock product imports. It regulates imports in accordance with the Livestock Importation Act (1898) and amended (2001) to prevent the entry of exotic diseases through imported livestock and livestock products.

Meat Production Programs and Policy: The FSSAI regulates domestic slaughter and meat processing by means of the Food Safety and Standards Rules and Regulation (2011). The regulation defines standards for domestic and imported meat products.

Animal Husbandry Infrastructure Fund: Under the 'Make in India' or the Atma Nirbhar Bharat Abhiyan stimulus package, the Indian government plans to allocate funds from the Animal Husbandry Infrastructure Fund (June 2020) to dairy, meat processing, and animal feed processing infrastructure development. Fund is open to eligible farmer-producer organizations and individual entrepreneurs. The objectives include establishing new meat processing facilities across India. It aims product diversification for value-added meat products such as sausage, salami, nuggets, ham, bacon, and others. The fund promotes greater access to organized markets, as well as the establishment of animal feed manufacturing units (namely for bypass protein, mineral-mixtures, and silage), feed testing labs, and balance (mixed feed) producers.

Livestock and Animal Health: The Department of Animal Health and Dairying (DAHD) and Livestock Health and Disease Control is responsible for controlling and containing the spread of animal diseases such as foot-and-mouth disease - FMD, 2 peste des petits ruminants-PPR or ovine rinderpest, brucellosis, and anthrax.

National Animal Disease Control Program: National Animal Disease Control Program (NADCP), 2019 aims to control the spread of FMD and brucellosis through the vaccination of 100 percent of India's cattle. The program with an outlay of US\$1.9 billion aims to control the spread of the disease by 2025 and its elimination by 2030.

Livestock Feed Materials: Food Safety and Standards Authority of India (FSSAI), 2021 governs the industry. Food Safety and Standards (Food Products Standards and Food Additives) Amendment Regulation (2020) governs commercial feed/feed materials for cattle, which would then be slaughtered for meat and meat products. FSSAI requirement with respect to animal feed are aligned with those specified in Bureau of Indian Standards (BIS) and the DAHD.

Halal Certification System - Policy conditions for halal certification process of meat and meat products: On 6 April 2023, the Government issued a clarification concerning the export of meat and its products as 'halal certified'. As per the guidelines, meat and meat products shall be allowed to be exported as 'halal certified', only if produced, processed and/or packaged in facility having a valid certification under the i-CAS of the Quality Council of India (QCI), issued by a certification body duly accredited by the NABCB as per the guidelines issued/amended from time to time. There will, however, be no change in the procedure for the export of non-halal certified meat and meat products. Exporting consignments to countries where there is a regulation on halal, the producer/supplier/exporter would have to meet the importing country's requirements.

Opportunities and challenges ahead for the industry

Disruptions due to Covid restrictions, Russia-Ukraine war, sanctions and geopolitical tensions

The buffalo meat supply chains were severely impacted by Covid-19 pandemic, with logistical barriers challenging operations across the world. The social distancing measures across the world have disrupted global meat trade and the processing industry, with operational disruptions on production volumes for many suppliers in 2020 and continued in 2021 as well with intermittent and partial lockdown measures in response to Covid waves. Thereafter, the Russia-Ukraine war further accentuated the supply constraints.

Significant shifts in consumption patterns

Consumer purchasing behaviour has witnessed significant shifts since the pandemic. The foodservice sector has been one of the most impacted industries during Covid. There has been a growing consumer interest and awareness about locally sourced, natural products, and preference for healthy, immunity boosting, and ready to eat, convenient food products. Global meat consumption is declining as inflation and higher gas prices squeeze disposable income. Dietary recommendations advising limited red meat consumption as well the changing consumer's preferences towards alternatives to conventional meat proteins over the past years are having a greater impact on consumer purchases. In recent years there has been a noticeable shift in consumer preferences towards plant-based meat products in many countries. There has been an equal transition towards the seafood market. The market leaders visually look forward to diversifying their businesses on focused investment and efficiency in the meat and poultry market segment.

Adoption of practices comparable to international counterparts

Industry has adopted and implemented quality and hygienic procedures as per the requirement of international demands. Indian government is taking several measures to support the industry. The industry has already adopted RFID tagging and barcoding to identify, trace and monitor cattle. A livestock traceability database is established providing cattle and information about origins, breed, health, and disease, etc. India has also started using technologically advanced reproductive procedures with genome selection, genetic information for cattle. *FMD free status and product traceability are required for exports to developed countries. Implementation of these systems will assist in increasing exports in future.*

Shifts in trade policies and political landscape

There is a gradual yet significant shift in the political and trading policies that have resulted in trade liberalization becoming increasingly challenging. Recent example such as US-China trade war or trade tensions between Australia and China in 2020, China's restrictions on imports of Australian meat indicate rise in protectionism. There may be potential for a long-term rise in protectionism which could result in a renewed emphasis on food security and a focus on increasing local food production. *In the short term, India may benefit from it by replacing the country and being a preferred trading partner. Yet, in the long term it hampers a fair and equitable global trade balance.*

Environmental Impact of the industry

The meat industry poses numerous threats to the natural environment with high consumption of land and water resources and increase in anthropogenic GHG emissions. Many meat producing countries such as Brazil, Australia and Argentina have also been criticized for causing deforestation, clearing of forest for the soy and cattle industries, increase in soy plantations, increase in wildfires incidents and significant bio-diversity loss. The Indian buffalo meat follows green cattle production and processing methods, free of any growth hormones or artificial feeds, free of any animal cruelty issues. This is beneficial for India buffalo meat industry in coming years as consumers prefer animal friendly, environmentally friendly, and sustainable practices.

Demand Drivers

The long-term key demand drivers are listed as below:

1. Low per capita meat consumption among the developing countries

Global meat consumption is currently forecast to grow supported by population and income growth, primarily in Asia. Low per capita consumption along with demographic changes provides tremendous scope for future penetration. Major developing countries (SE Asian countries including India) with low meat consumption currently will emerge as major growth centers for the global meat industry

2. Population growth and demographics

Population growth is clearly the main driver of increased consumption, and the projected global population increase of 11% will support an increase of 14% in global meat consumption by 2030.⁹ The meat's share in the global consumption is expected to be around 21%.

3. High economic growth and increase in consumer purchasing power

Household income growth within developing countries is expected to drive further demand for meat, as increasing disposable incomes open a range of retail and dining choices for consumers. The developing countries are forecast to account for 77% of additional world consumption growth over the next five years, largely due to population growth, urbanization and increasing incomes.

4. Shift in consumer preferences

There is a marked shift in the consumer dietary preferences associated with health, immunity, nutrition, environment considerations, sustainability, and animal welfare. The demand in many mature markets is shifting focus from quantity to quality, as many high-income countries are reaching saturation levels of per capita meat consumption and consumer preferences leading to a diversification of protein sources. Differentiation is a key factor which will become increasingly important for consumers in developed markets, as they seek flavour and experience over volume. Increasingly, consumption in developed markets is also guided by health perceptions, environmental and animal welfare claims.

Trends in Meat Industry

There are several broad trends affecting meat consumption globally, as mentioned below:

- a. Significant growth in consumer demand for fresher and less processed offerings
- b. Preference for customized meals; consumers now value flavour, an experience and connection; prefer higher quality premium portions rather than quantity
- c. Preference for explore gourmet, specialty, international cuisines and authentic traditional cuisines
- d. Shift towards convenient, on-the-go and ready to eat and easy to make food products

⁹ OECD-FAO Agricultural Outlook 2021-2030

- e. Significant growth in different ways of marketing, ordering and methods of delivery from e-commerce channels
- f. Preference towards ‘local’, ‘organic’, ‘natural’, ‘grass-fed’, ‘green’, origins, and sourcing methods
- g. Dietary shifts to food products which are free from animal cruelty, environment friendly and sustainable

With high per capital income and higher disposable income, the consumers are now more quality conscious and health conscious. It is reflected in their preference for natural, organic, gourmet and specialty meat products. India is at disadvantage with its low-cost price sensitive buffalo meat products. There is concern for FMD and other diseases and meat quality. Indian buffalo meat industry follows all the stringent international quality controls and inspections before exporting. India is focused on being 100% FMD free in coming years. India has started traceability process and RFID tagging and monitoring its cattle. Going forward, all these measures will prove beneficial to this industry. It may open new geographies and developed markets which are currently not catered for by the industry.

Porter’s Five Forces Model – Indian Meat Industry Analysis

Competition

- 6-7 major companies have large market share (60%+), rest of the industry has many small players
- Low product differentiation, intensive competition among top players
- Due to the experience and long term relationship with international suppliers and its customers, major companies have added benefits

Threat of New Entrants

- Increasing investments are required to set up processing units. This creates entry barriers for the new players in the industry
- The big brands such as Allansons, HMA Agro, Fair Exports, Rustom Foods and Al-Hamd have an upper hand over the new players due to a capital intensive business operative mechanism. Therefore the threat of new players is medium

Substitution Effect

- There are no close substitutes for buffalo meat in the industry. Therefore the substitution effect is low
- However, based on price and availability, consumer may shift to other meat such as pig meat, poultry, sheep meat or fish

Bargaining Power of Suppliers

- Low bargaining power of suppliers as the product differentiation is low
- Importer (end user) may shift to different suppliers for the products

Bargaining Power of Customers

- Customer's taste and preferences change with the change in trends, lifestyle and income levels. hence, brand loyalty is low
- Quality is an important factor and HMA has been superior in its quality while competing with its international competitors to suffice the international taste of foreign customers
- Low switching cost makes customers switch from one supplier to another. Better quality with a reasonable price is what makes HMA win over its foreign customers

Financial Profile of HMA Agro Industries Limited

As per the latest information available from APEDA, HMA Agro is amongst the top three largest buffalo meat exporters in India (FY23). Total revenue improved significantly to Rs 2,979 core in FY22, after declining to Rs 1,720 crore during FY21 from Rs 2,418 crore in FY20 on account of the pandemic. Strong demand for buffalo meat in the international market and established customer relationships is likely to ensure steady revenue growth over the medium term. The HMA group achieved sales of more than Rs 2,922 crore in FY22, a 71% increase over FY21.

Moderate Operating Profitability: HMA Agro's operating margin has been below industry's median during the period between FY17 and FY19, due to an increase in operating cost. However, the operating margin improved significantly from FY20 and rose to 6% in FY21, higher than the industry's median of 4.1% due to reduction in raw material cost and employee cost. As of FY22, the operating profit margin is observed at 5.3%, much above the median average of 3.7%.

Efficient Working Capital Management: Working capital for HMA Agro seems comfortable as its working capital days has remained industry average, and lower than most of the other players in the industry. However, its working capital days has seen a sharp increase in FY21 (44 days) and continued to remain around 47 days in FY22. Stretched working capital cycle is weakening the financial risk profile and liquidity.

Higher Operating Costs: Employee cost as percentage of sales for HMA Agro is not only higher than most of the leading players in the industry, but also higher than the median value of the leading players. This has resulted in moderate profitability margin. Also, raw materials as percentage of sales for HMA Agro rose to 80% in FY22 from 78.4% in FY21, marginally lower than the median of the leading players.

Comfortable D/E ratio: The debt-to-equity ratio of HMA Agro is comparable with most of its competitors and less than 1.0 since FY19. As of FY22, the debt-to-equity ratio of HMA Agro stood 0.7 times.

Production Capacity: HMA Agro has one of the highest production capacities in the industry. Its current capacity is around 228,000 metric tonnes per annum (MTPA).

Sizeable Market Presence: HMA Agro is among the largest exporters of buffalo meat in India and accounts for more than 10% of India's total export of frozen buffalo meat.

Conclusion

Production expansion is attributed to growing demand for carabeef from India's export markets. The buffalo meat industry in India is exposed to domestic regulatory scenario, socio-political, economic scenario and trade policies of importing countries. The buffalo meat processing industry in India is very fragmented with presence of large organised and unorganised players.

The outlook for the global meat industry appears to be mixed, tilting towards optimistic growth. The industry saw a fall in demand during the Covid-19 situation but recovered well and the recent trends in production and exports suggest a sustained demand and supply scenario in 2023. According to USDA estimates, India's carabeef and beef production, to reach 4.4 million tons in 2023, with a growth of 2% over 2022. A strong growth recovery path is envisaged for the buffalo meat export industry as most supply-side shocks have softened and demand is growing. India's buffalo meat exports are expected to grow to 1.48 million tonnes and to reach USD 4.1 billion in 2023. India is the second largest buffalo meat exporter in the world, and it is expected that soon India will make impressive strides to become a leader in buffalo meat export with 50% share in world market exports. This will occur because of reasons like a sizeable buffalo population, less consumption of buffalo meat within the country and relatively a low price of the Indian buffalo meat in the world market.

The outlook for the Indian buffalo meat export industry is positive due to following factors:

- A faster- than- expected economic recovery, strong fundamentals, robust export-oriented industry infrastructure and government support is expected to boost meat exports further.
- Demand for red meat is anticipated to accelerate over the next year owing to increased demand from the growing middle-income population in developing countries especially from the Middle Eastern and South Asian markets.
- Population growth along with higher purchasing power is a major factor for increased consumption.
- There is a noticeable pattern indicating an improved standard of lifestyle linked to improved eating habits of more meat consumption, in demographics of developing economies.
- The low per capita meat consumption in countries provides tremendous scope for future penetration. Major developing countries with low meat consumption currently are expected to emerge as major growth centers for the global meat industry.
- Indian buffalo meat is sought after in many countries is preferred for its flavour, taste, high quality in affordable price range, 'Halal' certification, free of any growth hormones or artificial feeds.
- There is a growing consumer preference for green, grass-fed, organic, animal friendly and sustainable practices and Indian buffalo meat industry is expected to benefit.
- Indian buffalo meat is free of any disease as per OIE, but it does not have Foot-and-Mouth Disease (FMD) free status, which restricts exports to many developed markets. India's access to premium markets such as those of the United States and Japan will remain restricted as FMD is endemic, despite India having made strides in recent years to reduce FMD levels. India is focused on being 100% FMD free in coming years. The Indian government has also been ramping up its request for US market access for carabeef.
- India has started traceability process and RFID tagging and monitoring its cattle. Currently, it lacks product traceability, which is necessary for exporting to many countries. The implementation of these systems and networks will assist in increasing exports in future.
- Indian buffalo meat industry is susceptible to the regulatory shifts caused by changes in the political climate. However, a brief blanket ban on sale of cattle for slaughter was reversed in 2017, after severe negative economic impact of such a ban. Most Indian states continue to prohibit the slaughter of live cattle of all ages,

including female and male calves. For a few states, however, there are some very limited exceptions that permit authorized bovine cattle slaughter.

- The world is undergoing a balanced demand and supply situation with respect to the meat market. It is important to note that there still needs to be a complete recovery from the long term impacts of the COVID-19 which are causing supply chain disruptions, recession like situation in the world.
- The meat market in India is going to be stable and with further push for exports from the suitable government policies India is likely to dominate the meat exports particularly under the buffalo meat category.

OVERVIEW

HMA Group has been in the meat industry since over four decades. Our company is the flagship company of the group and is a three star export house recognized by Government of India.

We are currently among the largest exporters of frozen buffalo meat products from India and we account for more than 10% of India’s total export of frozen buffalo meat (*Source: Brickworks Analytics Report*). Our products are mainly packaged under the brand name “Black Gold”, “Kamil” & “HMA” and exported to over 40 countries all over the globe.

We deal in buffalo meat and allied products. Unlike beef or pork, buffalo meat is free from religious constraints and has the added advantage of low fat and cholesterol. The meat produced for export is in the form of deboned and deglanded frozen halal buffalo meat.

We (including our subsidiaries) own four fully integrated packaged meat processing plants which are located at Aligarh, Mohali, Agra and Parbhani and are in the process of setting up our fifth fully integrated owned meat product processing unit at Haryana. We are also in advanced stages to acquire an additional plant at Unnao and we expect to complete this acquisition by Q2 of FY 2023-24. These would make our total in-house meat product processing capacities to more than 4,00,000 metric tons p.a. spread over six different owned plants by FY 2023-24. Further we also own two additional secondary level meat processing units at Jaipur and Manesar.

The procurement of raw material is done by our Company and then this raw material is sent to various processing units to process the raw material into final products and we export these branded finished products through our distribution channels. Most of these processing units are owned by our subsidiaries and some are owned by third parties. Our Company pays the fixed charges to these processing units. On a consolidated basis, we had paid ₹ 197.68 million, ₹ 120.16 million, ₹ 105.84 million and ₹ 160.34 million for the fiscal year 2020-, 2021-, 2022- and nine-months period ended December 31, 2022 respectively for processing our products. These charges on an aggregate basis are less than 1% of our consolidated revenue from operations for the respective years.

In order to take advantage of our robust export business and well-established distribution channels across 40 countries, we have recently diversified our product portfolio by adding Frozen Fish Products, Basmati Rice and planning to start

Poultry and other agri products as business verticals. We intend to become one of the most well recognized food products exporters in India. Our business model including our proposed business verticals is illustrated below:

We have been a profit-making company and have an established track record of delivering robust financial performance. Our total income for the nine month ended December 31, 2022, year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 24,178.21 million, ₹ 31,389.76 million, ₹ 17,203.96 million and ₹ 24,166.13 million respectively, our Profit after tax was ₹ 1,132.37 million, ₹ 1,176.21 million, ₹ 715.97 million and ₹ 458.98 million respectively, our EBIDTA was ₹ 1,652.53 million, ₹ 1,758.15 million, ₹ 1,098.15 million and ₹ 786.25 million respectively, and our EBIDTA margin was 6.83%, 5.60 %, 6.38% and 3.25% respectively. In the last few years, we have been strategically reducing our focus on low margin markets & gradually shifting towards higher margin markets which can be clearly seen in our financial results wherein our EBIDTA margins have increased from 3.25 % in FY 2020 to over 5.60 % in FY 2022.

Our Competitive Strengths

Production Quality and well-established Set up

We believe that maintaining a high standard of quality for our products is critical to our brand and continued growth. Ever since our inception, we have been laying paramount importance towards quality improvisation of our products. We adhere to stringent quality parameters and ensure optimum hygiene and sanitation norms are maintained throughout the processing. All our operations are standardized in tune with the Good Manufacturing Practices (GMP), Good Hygienic Practices (GHP) and Hazard Analysis Critical Control Point (HACCP) which are harmonized with the International Codex Alimentarius Standards. We have introduced Quality Management System based on International Standard ISO 9001:2015, Food Safety Management System based on ISO 22000:2005 and HACCP to ensure the production of highest quality meat with adequate built-in consumer safety and to achieve our aim of producing the perfect product. We are also OHSAS ISO 18001:2007, ISO 14001:2015 and BRC certified.

Well Experienced Management Team

The Promoters of our Company, Wajid Ahmed, Gulzar Ahmad, Mohammad Mehmood Qureshi, Mohammad Ashraf Qureshi and Zulfiqar Ahmad Qurashi have significant industry experience and has been instrumental in the consistent growth of our Company's performance. Gulzar Ahmad has industry experience of around 20 years and possesses business intellect in the marketing and trading circles of buffalo meat exports industry. Wajid Ahmed has an experience of more than seven years in procurements and it is due to his proficiency that has brought automation in the business. Mohammad Mehmood Qureshi is one of the founding members having vast experience in the field of trading of livestock and currently heads the purchases. Mohammad Ashraf Qureshi has vast and diversified experience in the field of trading of livestock. Further our Company is managed by a team of experienced personnel. The team comprises of persons having operational, marketing and business development experience, who work in close coordination and in their respective area of specialization to ensure smooth and efficient working of the business activities. We believe that our management team's experience and their understanding of the industry enable us to continue to take advantage of both current and future market opportunities.

For further details regarding the experience and qualifications of our management team please see “*Our Management*” on page 181 of this Red Herring Prospectus. The knowledge and experience of our promoters and management would enable us to identify new opportunities, rapidly respond to market conditions, adapt to changes in the business landscape and competitive environment and enhance the growth in the business. The ability to identify, adapt to and capitalize on market developments has enabled us to stay at the forefront and develop a strong track record of achieving profitability and growth.

Long standing relations with our customer base and well-established marketing set up

Our customers are spread in various geographies over the globe. Our business model is customer centric and requires optimum utilization of our existing facilities, assuring quality supply of raw materials and achieving consequent economies of scale. We export our products to re-distributors in various countries and have relations with these distributors for over decades in most cases. Further we have over the last few years executed further such relationships and hence developed new markets by exploring higher margin areas and by maintaining the consistent quality output and delivery timelines. The business model has proved successful and scalable for our Company.

One of the well-established brands

We are one of the top three meat exporter companies of India exporting to more than 40 countries under the brands “Black Gold”, “Kamil” & “HMA”. Our products are bought off the shelf at local stores in these countries by end users. These products have been sold under these brand names from many years and hence due to continuity for over 10 years they carry brand recall values at the end customer level. Ever since our inception, we have been laying utmost importance towards building our brand through focusing on quality of our products which has helped us to get repetitive orders from our customers. Our brand names including our Trademarks are registered under the Trademarks Act in India.

Well diversified Market Reach

We cater to both, the domestic as well as international markets. Our products are exported to more than 40 countries. The total exports of the company for nine months period ending December 31, 2022 and the last two fiscal years i.e., 2021-22, and 2020-21 was ₹21,814.52 million, ₹26,749.25 million and ₹15,852.66 million respectively representing 90.22%, 86.76 % and 92.84 % of our total revenue from operations respectively. Below map shows the countries in which we export our products.

Below are the details of the countries to whom we export:

Such diversified market reach and presence makes our business de-risked and lack of dependence on single geography making this the core strength of our company.

Our Strategies

Augment capital base for adequate working capital

In order to effectively expand our product portfolio, business areas and also increase in the number of verticals and explore various geographical locations, along with effectively utilizing our existing and proposed processing facilities we need to have access to a larger amount of liquid funds and sufficient working capital. We want to give more credit period to our debtors to increase our sales and simultaneously we want to reduce our credit period to get better pricing to increase our profitability. Further there is growing demand for Indian meat globally and we are well positioned to take advantage of such growing demands in the global meat industry. Due to this growing demand, we expect to increase our order taking appetite thus increasing our volumes, revenues and scale of operations and we will require substantial working capital for the same. It is hence our strategy to raise funds from this issue and augment our fund based working capital capabilities. We believe that companies with high liquidity on their balance sheet would be able to better exploit market opportunities. Hence, in order to effectively operate and maximize our capacity utilization at the existing facilities we need to have access to a larger amount of liquid funds and sufficient working capital. For further details of the proposed working capital requirements of the company, kindly refer to the Chapter titled “*Objects of the Offer*” on page no. 85 of this Red Herring Prospectus.

Diversification

In order to take advantage of our robust exports business and well-established distribution channels across over 40 countries, we have recently diversified our product portfolio by adding Frozen Fish Products and Basmati Rice as business verticals. The first date of commencing our exports of packaged frozen fish was November 12, 2021 and Basmati Rice was August 08, 2022. We intend to become one of the most well recognized food products exporters in India. Salient details of our recent diversification endeavors are as below:

- ***Exports of Packaged Frozen Fish which has recently started in November 2021:***

We have recently ventured into marine product exports which include Frozen Fish as a core product. Being an integrated line to Meat, exports of fish will enable us to capture new geographies and diversify our product portfolio.

Pursuant to our board resolution dated September 20, 2021, we have entered into an outsourcing agreement dated October 01, 2021 for processing between HMA Agro Industries Limited and Gausia Cold Storage Private Limited wherein our company HMA Agro Industries Limited shall source all the orders from the market, procure the raw materials for processing and send to Gausia Cold Storage Private Limited who shall process, freeze and pack the products for us on a contractual basis and send the same back to our company for exports. The said agreement is valid upto November 02, 2024 and is renewable on mutual consent. The Brand name for this segment is “Fresh Gold”. The company has executed exports of ₹ 112.37 million via this arrangement in FY 2021-22 and ₹ 389.17 million till Q3 of FY 2022-23.

- **Exports of Packaged Basmati Rice which has recently started in August 2022:**

Pursuant to board resolution dated October 04, 2021, we have recently decided to venture into the business of exporting various types of Basmati rice. The vision is to utilize our export connections and well-established distribution network to enter into Basmati Rice trade and to partner with local manufacturers and suppliers who are unable to utilize their installed capacities due to shortage of orders and finance availability. Further, Meat Products are normally consumed with Basmati Rice and hence this would become a critical cross saleable market for us. The intension is to procure from domestic suppliers, rebrand and repackage the products under HMA group’s brand name and export the same as a bundle along with our meat products to our distributors. The Brand name for this segment is “Green Gold. The company has executed exports of ₹ 32.43 million till Q3 of FY 2022-23.

New Geographies

Over the years we have focused & penetrated export markets where we get better value for our products. In the last few years, we have been strategically reducing our focus on low margin markets & gradually shifting towards higher margin markets which can be clearly seen in our financial results wherein our net profit margins have increased from 1.90 % in FY 2020 to over 4% currently. We have in the recent years increased our export revenues to higher margin markets such as Egypt, Hong Kong and Malaysia and have reduced our exports to lower margin markets such as Vietnam, Myanmar, and Philippines etc.

Sr. No.	Country Name	F.Y 2019-2020	F.Y. 2020-2021	F.Y. 2021-2022	F.Y. 2022-2023 (Upto Dec 31, 2022)
1	Egypt	20.60%	3.57%	29.73%	11.20%

	Total	28.30%	36.92%	47.68%	49.54%

Our vision is to target new geographies where there is demand for quality products and create operational synergies. Expanding into new locations is an important step for growing businesses and our vision aligns with the same. We seek to increase our presence in exports markets in developed & emerging countries which are untapped by us. Also, we have recently diversified our product portfolio adding marine products and Basmati rice which will enhance our reach to new customers as well as to new geographies.

Business response to COVID-19

The outbreak of COVID-19 was declared a pandemic by the World Health Organization on March 11, 2020 and as of the date of this Red Herring Prospectus it is still ongoing. The GoI initiated a nation-wide lockdown from March 24, 2020 that lasted until May 31, 2020 and has been extended periodically by varying degrees by state governments and local administrations. Although the nationwide lockdown was lifted on June 1, 2020, restrictions on non-essential activities and travel were imposed in multiple states across specific districts that were witnessing increases in COVID-19 cases. The second wave of COVID-19 infections impacted India in April, May and June 2021. The second wave resulted in significant strain on the health infrastructure in the country resulting in several states announcing lockdown measures. The second wave also resulted in a large part of the population working from home and implementing social

distancing measures. In June 2021, the COVID-19 reported cases from the second wave declined and the GoI and state governments started gradually easing some of the strict precautionary measures.

Our exports were impacted for two months – April & May 2020 on the onset of COVID-19, post which upon relaxation of restrictions the operations resumed from June 2020. Our Company has responded swiftly by implementing various processes to ensure our operations continue seamlessly.

As we are in the food industry, which was determined by the Government of India to be essential which allowed us to continue our operations during the nationwide lockdown. However, restrictions on manpower movement during the lockdown impacted our operations and capacity expansion projects, as well as increased our operation costs. We implemented health and safety measures as per the required norms. Our processing facilities, therefore, continued to operate normally during the first and second waves of COVID-19 infections except for the months stated above.

In the event subsequent waves worsen or are not controlled in a timely manner, we may not be able to manage our operations at their full capacity; and successfully implement our growth strategies.

DETAILS OF OUR BUSINESS

We are a Three Star Export House processing and exporting Processed Food Products. Currently we are one of the top three market leaders in export of Packaged Frozen Buffalo Meat Products from India and we have recently begun product diversification process into other food processing and exports of products such as Frozen Fish and Basmati Rice. We further intend to keep adding new products to our portfolio and become one of the trusted and well recognized names in food exports business from India.

Value Chain: Domestic vs. Exports

Typical Domestic Value Chain

The domestic value chain for buffalo meat production in India consists of a network of stakeholders, who work within specific stages from farm to plate. The chain integrates livestock producers, traders, butchers, wholesale meat dealers and retailers. This section sheds light on the roles and responsibilities of various actors as the product moves from farm to consumers in domestic value chain and also various stages and the economics involved in each stage. India's livestock sector has continuously provided structural support to the rural economy as an important vocation for rural India, next only to crop rising. In view of this significance of buffalo in the domestic market, it is imperative for policy makers to devise policies and frameworks that would ensure sustained momentum in this sector. Therefore, the next phase of active reforms in the buffalo meat value chain for the domestic market should consider (a) modernization of existing abattoirs, (b) strengthening of livestock markets, (c) utilization of byproducts (d) an efficient disease diagnostic and monitoring system, and (e) developing a state-wise market intelligence system for the livestock sector, which can assist in realistic planning at the micro and macro levels.

Domestic vs. Exports

Our Company exports goods to more than 40 countries worldwide. Our Exports contribute around 90% of our total revenues. The revenue breakup for the preceding three financial years based on the sale of our products in domestic and international markets is as follows:

(₹ In millions)

Revenue from Operations	Year ended March 31, 2020	Year ended March 31, 2021	Year ended March 31, 2022	Period ended December 31, 2022

Further in addition to the above plants, we own two plants which does not have a fixed installed capacity since they are secondary level processing facilities which are located in Jaipur & Manesar. In secondary level facilities activities like Housing Lairage, Carcass Dressing and slaughter line are not installed. These plants include activities such as deboning, chilling, freezing, packaging and cold storage of meat. Jaipur plant is owned by Laal Agro Foods Private Limited (which is 99.99% subsidiary of our Company) and the Manesar plant is owned by FNS Agro Foods Limited (which is wholly owned subsidiary of our Company).

Plant being acquired:

**There is no conflict of Interest or relation with AOV Exports Private Limited (Current Owner of Unnao Plant) with our Company or the Directors/Promoters of our Company. The plant has begun processing on a contractual basis exclusively for HMA Agro Industries Ltd since May 2020 JFPL has entered into an agreement to acquire the said plant and related assets from AOV Exports Pvt. Ltd. vide Board resolution dated July 27, 2020. The government related approved transfer of plant assets is on going. The transfer of plant assets is expected to be completed by Q2 of FY 2023-24. The proceeds from fresh issue will not be utilised towards acquisition of this plant.*

Raw Material

We have built an effective raw material procurement system resulting in regular steady supply of sufficient quantities of healthy live stock. Buffalo and livestock trading in India typically occur through a large network of commission agents. The company has minimized its procurement risk by diversifying its procurement operations across a judicious mix of well-established small, medium and large sized players. The promoters have a long standing background in cattle trade for over four decades and sourcing of livestock is its core strength.

Healthy livestock identification is the initial stage of operations. The animals are procured from disease free zones recognized by the Department of Animal Husbandry of respective states. The procured raw materials go through various testing and inspection process before further processing i.e., they are sent to laboratories for quality control check. Ante and Post Mortem examinations are carried out by qualified veterinary doctors. The company has laid down a well-documented system for sourcing and traceability of the raw material from farm to finished product.

The Raw materials i.e., Live Animal go through the ante-mortem procedure as per the SOP provided by various Government Agencies and such inspection is conducted by the veterinary doctors appointed by the Company on their pay-roll and head by one Government appointed veterinary doctors. Once the animal passes the ante-mortem process we slaughter the same and after slight meat is also checked in internal laboratory of the Company which have all the international standards and approved by APEDA. Since we have in-house laboratories, there is no reason to send it to external laboratories. However, if a particular buyer requires a third-party sample check certificate, we send the same to govt. approved external laboratories from time to time as the case may be. The total amount spent on testing of our products is ₹ 1.78 million for the period ended December 31, 2022 and ₹ 5.63 million for the year ended March 31, 2022.

Integrated Process Flow for making Packaged Frozen Meat Products

We have in-house capabilities for majority of our meat processing process flow and hence are able to ensure good quality control over all the HACCPs involved in the process. We follow the standard procedure to make our product quality as per the global standards.

Our process flow is as shown below:

Identification & Traceability of raw material live stock

Identification of animals is carried out as soon as the animals arrive at the slaughter house at unloading area for slaughter. At unloading, the animal is tagged by recording arrival time, sex and age along with source from which it has been drawn. This creates a preliminary traceability system that commences as soon as the animal arrives and is a first step. Thereafter the traceability is enforced at various stages, namely, ante-mortem, abattoirs, post-mortem, chilling and processing hall with assigning the batch number.

Resting Pens

The resting pens are covered and provided with adequate supply of drinking water so that animals can rest after a stressful transportation. It is here that ante-mortem examination is carried out.

Isolation Pens

The premises have an isolation pen where suspected animals can be kept for detailed examination.

Lairage & Race

A covered lairage and race is provided where animals are cleaned, washed and moved before slaughtering.

Slaughtering

The animals are received in the Lairage area of the abattoir. The animals shouldn't be in strain/stress or in frightened condition. They are then taken to the slaughter house complex where all the animals are unloaded on the unloading platform. The ante-mortem examination for each animal takes place by qualified and experienced in-house veterinarians under the supervision of state government veterinarians from the State Animal Husbandry department. Any animal suffering from any disease or in febrile condition are immediately rejected and quarantined. The animals are then slaughtered in halal fashion while the blood collected is fed to the rendering plant. Slaughtering is done in accordance with FSSAI in the presence of personnel approved by Islamic Organization i.e., Jamiat Ulama I Hind Halal Trust of India. After slaughtering, the carcasses are hung on bleeding chain which is followed by cutting the hind legs, de-hiding, and cutting of ribs after sterilization of saw. The carcass is split through the center of the backbone and the tail is removed. The veterinary government doctors conduct post mortem examination to ensure the quality and safety of meat products. The legs are then cut and fed into chutes after which de-hiding and head removal takes place. Removal of hide from carcass is done as soon as possible so that the quality of the carcass doesn't deteriorate. After this, the carcass moves along the conveyor to the carcass splitting and evisceration section where the internal organs are carefully separated from the body attachments and taken out without contaminating the carcass or other visceral organs like ingesta, stomach and other offal. The carcass is then washed with chlorinated water after which the in house veterinarian will carry out the post mortem inspection of the carcass meat and of all the organs. The split carcasses or halves are washed with cold water using a pressure-washer and later they are kept for drying. After slaughtering is complete, halves are sent to a chiller where the washed cleaned carcasses are kept in at 2°C - 4°C for 24 hours to reduce the temperature to about (-)7°C and mature the carcasses to ph below 5.8 so that no pathogen, if any, can survive. After chilling the carcasses for 24 hours, the deboned meat is produced for quality & prime cuts. The deboned meat is packed in cartons and food grade bags then it is passed through the metal detector to monitor any metal contentment and frozen at (-) 40°C to bring the temperature at (-) 18°C. The freezing is done either in plate freezer or blast freezer. After chilling the carcasses for 24 hours, the deboned meat is produced for quality & prime cuts.

All International Halal Standards are implemented in our plants which are harmonized with standards and guidelines laid out by Halal Certification bodies of India and World Halal Food Council. We have established an Internal Halal Committee at all our plants which monitor and review halal compliance at every step of the process. Our team of Halal Supervisors, Checkers and Slaughter men are well qualified and have received training from Jamiat Ulema-E-Hind Halal Trust, New Delhi. Internal Halal Training is also provided to the team on a regular basis. We strictly adhere to our Non-Halal Policy and all non-conformities are promptly dealt with by the Halal Supervisory Team.

Processing

The carcass meat and edible organs obtained above would then be weighed and passed on to the chilling hall for cooling down. Primary chilling takes 24 hours and is completed when the warmest point of the carcass has reached a temperature of about 2°C ~4°C (3°C for edible offal). Deboning and trimming are a critical process which is handled by exceptionally skilled employees who produce a wide range of meat cuts, as desired by orders placed by customers. The carcass is divided into different cuts which may vary according to the carcass weight and quality. Therefore, cuts of meat vary in energy and nutrients, composition, weight and fat level.

Freezing and Storage

The processed boneless meat is then packed in HDPE Bags and sent for freezing. Freezing is done by either blast freezers or a plate freezer of around -40 degree Celsius till the surface temperature reaches around -35 degrees. After freezing, the product is packed in corrugated boxes and transferred to the cold storage, where the temperature equalizes to around minus -20 degree Celsius. This gives the product an enormously long shelf life. The packed deboned meat is forwarded to the freezer for storage at low temperature (-20 C). The usual temperatures are in the range of -18° to -25°C for periods of preservation of one year or more.

In-house Rendering Plant

Rendering is a process that converts waste animal tissue into stable, usable materials. The rendering process simultaneously dries the material and separates the fat from the bone and protein. All our integrated plants include a rendering plant for processing the waste produced during meat production, wherein it converts waste animal tissue into stable, usable products. The inedible Meat Trimmings, Fat Tissues, Bones, Offals from Deboning Process is transported by means of covered trolleys to Rendering Plant. The raw material is then unloaded into Bone and Soft Conveyor which in turn is transferred to raw material tins.

Raw material obtained from the various slaughtering and processing activities described above is brought in material bins to the rendering unit. The material is transferred to a conveyor and discharged across a magnet to remove ferrous metal contaminants. A raw material grinder then reduces the raw material to a uniform particle size for material handling and improved heat transfer in the cooking step. The ground raw material is fed at a controlled rate from a metering bin into a continuous cooker. The continuous cooker is an agitated vessel generally heated by boiler steam. It brings the raw material to a temperature between 240° and 290°F (approximately 115° to 145°C), evaporating moisture and freeing fat from protein and bone. Dehydrated slurry of fat and solids is discharged from the continuous cooker at a controlled rate

The discharged slurry is then transported to a drainer conveyor. The drainer conveyor separates liquid fat from the solids, which are then conveyed from the drainer conveyor by a discharge conveyor. In the discharge conveyor, solids from the drainer conveyor are combined with the solids discharge from the settling tank and from the decanter-type centrifuge. The solids from the discharge conveyor go to the screw presses, which reduce the solid fat content to about 10 to 12 percent. Solids that bypass the screw presses are recycled back to the cooker. Solids discharged from the screw presses in the form of pressed cake go to the pressed cake conveyor for transport to further processing into meal. The fat removed in the screw presses goes to the press fat conveyor, which separates large particles from the liquid fat and returns them to the discharge conveyor. Water vapor exits the continuous cooker through a vapor duct system that generally includes an entrainment trap to separate and return entrained particles to the continuous cooker. The vapor duct system transports the vapor stream to a vapor condenser. Non-condensable gases are removed from the condenser by a non-condensable fan. Odorous gases generated at various points in the process are collected by a ductwork system and are transported along with the non-condensable gases from the condenser to an odor control system for neutralization of odorous components.

Effluent Treatment Plant

A suitable capacity Effluent Treatment Plant (ETP) needs to be provided to treat the effluent both aerobically and anaerobically to check the pollution. The unit should be suitably equipped with ETP of high quality brand having advanced technology and fulfils the entire norms prescribed by State Pollution Control Board inclusive of relevant enactment and rules framed to control the pollution. The effluent after treatment with 30 BOD can then be used in the

premises to clean and utilize it for irrigation as per the karnal technology for agriculture, so as to have zero liquid discharge (ZLD).

All the animals are efficiently selected by professionals from a healthy livestock well examined and approved by the authorized veterinary doctors. Animals selected undergo compulsory ante mortem & post mortem inspection, for selecting the stress-free, healthy and non-productive animals from the received lot of animals to present them as fit for slaughter. Such fit animals are conveyed directly to the Lairage for rest and they are to be slaughtered within 24 hours. After a rest period and a warm shower, the animals are led to the Knocking Box situated in the Main Plant. Animals suspected for any disease are kept in isolation pen.

Packaging

The credibility of business is directly proportional to the quality of meat that reaches the end-users. Keeping this in mind the company has adequate packaging system which is equipped with modern packaging equipment and machines to deliver packaging that is capable of retaining the freshness of products alive for a longer duration. Along with the standardized packaging, a variety of portion sizes and packaging options are also available as per the requirements of the customer. Company also holds the capability to execute customized orders in bulk. The products are packed in the best food grade packing materials. The assorted meat products are packed following the standard practices or packing is tailored to customer's needs.

Laboratory

In addition to keep regular track on quality of the products, the company has in house chemical and microbiological laboratory along with well qualified technicians and microbiologist. Random samples of meat are taken for microbiological analysis and experts issue certificate for confirming suitability of product for human consumption. Post Quality assurance & safety tests, the consignments are released for export.

Altogether we are a quality-focused company and are committed to maintaining stringent quality standards at all steps of the processing cycles, from Procurement → Dispatch → Finished Products → Supply → Customer Satisfaction. We believe that our focus on ensuring compliance with the stringent quality standards has helped us in establishing and maintaining long standing relationships with our key customers. We have an effective control over our processing process which ensures consistent quality of products. Our processing facilities are equipped with advance equipment and modern technology which is also a factor helping us in maintaining quality, productivity, improving cost efficiency and ensuring uniformity in our products. We have strategically planned all our processing facilities which minimizes freight and logistics related time & costs.

Export Logistics

Our Finished Product i.e., frozen meat is transferred from Processing unit to sailing point. We store our Goods at the sailing point in the cold storages facilities. After confirmation from the Buyer and / or advance amount, if any, we generate Export Invoice and other Export related documents. Then, we handover the documents and product to CHA (Custom House Clearing Agent) / Shipping Line. From the day of dispatch to load the product in the ship, it takes approximately 12-15 days. There after our customer receives the goods at the respective port and the customer would manage the respective clearing and pick up from their port. After the dispatch of goods, it takes approximately 35-40 days on an average basis to receive the final payment from overseas buyers. Shelf life of our product is upto 24 months if kept in the specified temperature and conditions.

Plant and Machinery

Our state-of-the-art processing plants are equipped with latest machinery and well organized and arranged sterilization facilities for the processing of our products. A broad variety of machinery and equipment, gages, instruments are used in the food processing industry. The meat processing industry is extremely diverse, complex and evolved. There's a continual need for process innovation with the consumer market becoming more demanding and sophisticated. The consumer expects novelty, value for money, and a product that is safe in tamper-proof packaging.

The equipment in meat processing refers to processing machines, components, systems used to cook, handle, package, prepare or store meat and meat products. Following are the key machines / equipment used in our business operations:

- A. Lairage - Tervis & guarder rails for pens & walk ways
- B. Slaughter Hall- Ritual rotating box (knocking box); Cutting saws (leg, brisket & carcass); De-hider machines
- C. Chiller- Overhead rails, Air cooler fan units (Forced draft Air- coolers)
- D. Deboning Hall- Stainless steel tables; Rails; SS Hooks; SS trolleys
- E. Fresh & frozen packing Hall- weighing balances; Blast freezers; Plate freezers; Metal detector; Shrink wrap machines, Strapping machines
- F. Machine room and Electricals- Compressors; Evaporative condensers; Electrical panels; Transformers; Air curtains
- G. Rendering Unit- Prebreaker; RM Cookers; Decanters; Tallow tanks; Screw conveyors; Hammer mill; Silos for intermediate & finished goods
- H. Boiler
- I. Water softener
- J. ETP Plant

Other Important Aspects of our Processing Operations

Quality Control, Testing and Certifications

Food Safety and Standards Authority of India (FSSAI) has been providing guidance to the Indian food industry by formulating the national standards and certification systems. The FSSAI operates Quality Management System Certification Scheme (QMCS) according to IS/ISO 9001:2000.

All our operations are programmed and systemized as per Best Practice Industry requirement standards as explained below:

Sr. No.	Logo	Brief Description
1.	 <p>APEDA</p>	<p><u>The Agricultural and Processed Food Products Export Development Authority (APEDA)</u></p> <p>The Agricultural and Processed Food Products Export Development Authority (APEDA) is the government of India designated Authority which has various functions viz carries out inspection activities of meat & meat products in slaughter houses, processing plants, storage premises, conveyances or other places where such products are kept or handled for the purpose of ensuring the quality of such products.</p>
2.		<p><u>ISO 22000:2018</u></p> <p>It provides common framework across the entire supply chain to manage requirements, communication internally & externally, and continually improving the system.</p>
3.		<p><u>ISO 9001:2015</u></p> <p>It is an International standard dedicated to Quality Management Systems (QMS). It outlines a framework for improving quality and a vocabulary of understanding for any organization looking to provide products & services that consistently meet the requirements and expectations of customers and other relevant interested parties in the most efficient manner possible.</p>

Sr. No.	Logo	Brief Description
4.		<p><u>Hazard Analysis Critical Control Point (HACCP)</u></p> <p>HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product. It is mandatory that the entire export-oriented unit (EOU) have to follow the Hazard Analysis and Critical Control Points (HACCP) as a control system designed to identify and prevent microbial and other hazards in meat production. It includes steps designed to prevent problems before they occur and corrected as soon as they are detected. The HACCP is mandatory for exports as it reduces contamination, reduces recall of consignment, and provides quality assurance to branded products. The HACCP addresses all types of hazards, namely, physical, chemical and microbiological and can be integrated in small, medium and large scale enterprises.</p>
5.		<p><u>Good Manufacturing Practices (GMP)</u></p> <p>Good manufacturing practice (GMP) is a system for ensuring that products are consistently produced and controlled according to quality standards. It is designed to minimize the risks involved in any pharmaceutical production that cannot be eliminated through testing the final product.</p>
6.		<p><u>Quality Produce of INDIA</u></p> <p>Quality Produce of INDIA is a Trademark filed by Agricultural & processed Food Products Export Development Authority (ministry of commerce, Government of India).</p>

All our operations are programmed in tune with the Good Manufacturing Practices (GMP), Good Hygienic Practices (GHP) and HACCP (Hazard Analysis Critical Control Points) which are harmonized with the International Codex Alimentarius Standards. We have introduced Quality Management System within our organization which are based on International Standard ISO 9001:2015, Food Safety Management System based on ISO 22000:2018 and HACCP to ensure the production of highest quality meat with adequate built-in consumer safety and to achieve our aim of producing the perfect product. The company is also OHSAS ISO 45001:2018, ISO 14001:2015 and BRC certified.

Utilities

Water

Availability of water is important in relation to our processing. To ensure adequate supply of water, wells have been installed within our processing units for supply of water in addition to the routine sources of water.

Power

Our operations involve a significant amount of electricity as our raw materials and finished products are required to be stored at specified temperatures and require significant refrigeration facilities. The processing of meat and meat products also require significant power at each level of the process. We depend on State electricity supply for our power requirements. We also use diesel generators to meet exigencies and to operate our plant during power failures.

Collaborations

We have not entered into any financial or technical collaboration with any entity.

Capacity & Capacity Utilization

Installed & Capacity utilization details of our owned production facilities for the last three financial years are entailed below:

Sr.No.	Locations	Existing Installed Capacity - MTPA*	Details of Capacity for the year ended March 31,								
			2022			2021			2020		
			Installed	Utilised	Utilised (%)	Installed	Utilised	Utilised (%)	Installed	Utilised	Utilised (%)
1	Mohali Plant ⁽¹⁾	1,14,000	1,14,000	65,094	57.10%	NA	NA	NA	NA	NA	NA
2	Parbhani Plant ⁽²⁾	57,000	57,000	13,273	23.29%	NA	NA	NA	NA	NA	NA

4	Aligarh Plant ⁽³⁾	28,500	28,500	NA	NA	28,500	NA	NA	NA	NA	NA

* As per APEDA, capacity is given in term of number of Buffalo per day. The installed capacity of Buffalo (in MTPA) is calculated considering average weight of 190 kg and 300 no of days per year.

Notes:

- The installed capacity of Mohali plant is 1,14,000 MTPA and is owned by Federal Agro Industries Pvt. Ltd. We had acquired 60% stake in Federal Agro Industries Pvt. Ltd w.e.f April 2021.
- The installed capacity of Parbhani plant is 57,000 MTPA and is owned by Reliable Agro Foods. We had acquired 95% stake in Reliable Agro Foods w.e.f November 2021.
- Aligarh plant was fully operational up to February 2019, however due to regulatory approvals & related matters; the said plant has been inactive since February 2019. The matter is pending with Uttar Pradesh Pollution Control Board ("UPPCB"). Further, the Company, has received the permission from the High Court, Allahabad, to run the plant for eight weeks and in the ninth week the inspection shall be conducted by U.P Pollution Control Board.
- In addition to the above plants, we own two plants which does not have a fixed installed capacity since they are secondary level processing facilities which are located in Jaipur & Manesar. Both the plants are used from time to time as and when required. They are expected to become operational after our feeder facility at Haryana becomes fully operational.
- The installed capacity of Haryana plant is 1,71,000 MTPA and is owned by United Farm Products Pvt. Ltd. (wholly owned subsidiary of HMA Agro Industries Ltd.) It has received Consent To Operate (CTO) and the Company has began its commercial production from January 2023.
- The installed capacity of Unnao plant is 42,750 MTPA. Our wholly owned subsidiary namely JFF Exports Pvt. Ltd. has entered into an agreement to acquire said plant from its current owner. The transfer of plant assets is expected to be completed by Q2 of FY 2023-24.

Customer Base

We majorly sell our products to distributors, wholesalers & dealers. The portfolio of our customers is much diversified and the revenue from top 5 customers contributes to only 28.98 % for the FY 2021-2022 and 25.88% for period ended December 31, 2022. The percentage of revenue derived from our top customers in the nine months period ending December 31, 2022 and Financial Year 2021-2022 is given below:

(₹ in millions)

Sr.No.	Particulars	For the period ending Dec 31, 2022		For the year ending March 31, 2022	
		Revenue	(%)	Revenue	(%)
1	Income from Top 5 Customers	6,135.30	25.88%	8,938.78	28.98%

Sr.No.	Particulars	For the period ending Dec 31, 2022		For the year ending March 31, 2022	
		Revenue	(%)	Revenue	(%)
2	Income from Top 10 Customers	8,628.90	36.40%	11,890.54	38.55%

Although our top 5/10 customers may vary from one reporting period to another depending on the requirements, we have experienced a high degree of returning customers over the years, which reflects the value proposition provided by us. We constantly try to address the needs of our customers for maintaining a long-term working relation with the customers, in order to get continuous business.

Marketing and Distribution

After gauging the market scenario and the company's own sales and distribution capabilities we have strategically planned our marketing, distribution and brand building. Marketing plays a pivotal role in bringing lots of opportunities at a global level which helps us to grow and foster. With over more than 40 countries to cover and huge customer base we have planned our marketing inconsonance with our production capabilities. We participate in international trade fairs that provide us an opportunity to display our product portfolio and enhance our brand strength.

For the distribution of our products, we rely on our extensive distribution network, which enables us to effectively respond to market demand, evolving consumer preferences in our territories, and competitive pressures. We also have multiple intermediaries tie ups who act as a bridge between us and the consumers.

Details of our recently initiated Business Diversification activities:

Frozen Fish Products

We have recently ventured into marine product exports which include Frozen Fish as a core product. Being an integrated line to Meat, exports of fish will enable us to capture new geographies and diversify our product portfolio. Pursuant to our board resolution dated September 20, 2021, we have entered into an outsourcing agreement dated October 01, 2021 for processing between HMA Agro Industries Limited and Gausia Cold Storage Private Limited wherein our company HMA Agro Industries Limited shall source all the orders from the market, procure the raw materials for processing and send to Gausia Cold Storage Private Limited who shall process, freeze and pack the products for us on a contractual basis and send the same back to our company for exports. The said agreement is valid upto November 02, 2024 and is renewable on mutual consent. The company has executed exports of ₹ 112.37 million via this arrangement in FY 2021-22 and ₹ 389.17 million till Q3 of FY 2022-23. The Brand name for this segment is "Fresh Gold". The total Amount invested in Fish Venture upto December 31, 2022 is ₹ 44.98 million (including profit).

Benefits of having fish in diet: Fish are an important part of a healthy, well-balanced diet. They provide a good source of protein and vitamins, and are a primary dietary source of heart-healthy Omega-3 fatty acids.

- Fish is a common source of protein since it is rich in good fats such as Omega 3 and 6, and plenty of B vitamins, in addition to being comparatively lower in calories, saturated fats and cholesterol.
- Omega-3 fatty acids can:
 - Lower risk of heart disease
 - Lower triglyceride levels
 - Slow the growth of plaque in your arteries&
 - Slightly lower blood pressure
- Omega-3 fatty acids may also provide health benefits to developing babies.

Exports of Packaged Basmati Rice:

Pursuant to board resolution dated October 04, 2021, we have recently ventured into the business of exporting various types of Basmati rice. The vision is to utilize our export connections and well-established distribution network into Basmati Rice trade through partnership with local manufacturers and suppliers who are unable to utilize their installed capacities due to shortage of orders and finance availability. Further, Meat Products are normally consumed with Basmati Rice and hence this would become a critical cross saleable market for us. The intension is to procure from domestic suppliers, branding and repackage the products under HMA group's brand name and export the same as a bundle along with our meat products to our distributors. The Brand name for this segment is be "Green Gold" The company has made the internal workings and arrangements for the same are negotiated and provisionally finalized with third party processing units. However, due to on-going uncertainty in some of the buyer markets due to the Russia-Ukraine crisis and related market volatility, the company has not yet entered into formal agreements for this venture. Once the market and geo-political matters stabilize, the company would formalize the arrangements and begin the exports activity of rice. The Company has not executed any export order w. r. t Rice venture upto March 31,2022 The company has executed exports of Basmati Rice of Rs. 32.43 million for the period ended December 31, 2022 and has invested nearly ₹ 27.04 million upto December 31, 2022 in the venture of Basmati rice.

Following is our product portfolio of Basmati rice category:

- 1121 Golden Basmati Rice
- 1121 Steam Basmati Rice
- 1121 White Sella Basmati Rice
- 1509 White Sella Basmati Rice
- 1509 Golden Sella Basmati Rice
- 1509 Steam Sella Basmati Rice
- Sharbati Golden Sella Basmati Rice

Manufacturing of Poultry and Exports of other Agri Products

The facility being set up at Haryana for Frozen Packaged Meat Products, has additional plant and machinery space wherein we intend to set up Poultry and other Agri Basket item processing capabilities. However, the same are currently in planning stage and no material steps have been taken w.r.t the same. The management intends to first commercialize the unit and thereafter consider taking the other diversification lines ahead.

Export Obligations

Except as mentioned below, we do not have any export obligations as on the date of this Red Herring Prospectus:

Name of Company	Particulars of the Transaction	Export Obligation Amount and Timeline
United Farm Product Private Limited	The company has Imported Capital goods taking benefit of Export Promotion Capital Goods (EPCG) Scheme which was introduced under Chapter 5 of the Foreign Trade Policy (FTP) by the Directorate General of Foreign Trade (DGFT) wherein the payment of duty under Customs Act, 1962 is exempted provided the company fulfills an Export Obligation to Export goods worth six times the Import duty. Import duty saved being ₹ 117.59 million	₹ 705.58 million worth of products to be exported before October 2027.

Human Resources

As on December 31, 2022, we had 926 employees on our payroll on a consolidated basis. The following table sets forth the number of our employees as of December 31, 2022:

KEY REGULATIONS AND POLICIES

In carrying on our business as described in the section titled “Our Business” on page 130 of this Red Herring Prospectus, we are regulated by various legislations in India. The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this Chapter has been obtained from the various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the respective local authorities that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. For details of Government Approvals obtained by us in compliance with these regulations, kindly refer to the chapter titled “Government and Other Statutory Approvals” beginning on page 307 of this Red Herring Prospectus.

We are engaged in the business of processing of meat products. Our business is governed by various central and state legislations that regulate the substantive and procedural aspects of our business. We are required to obtain and regularly renew certain licenses/ registrations and / or permissions required statutorily under the provisions of various Central and State Government regulations, rules, bye-laws, acts and policies.

A. INDUSTRYRELATED LEGISLATION

1. The Factories Act, 1948

The Factories Act, 1948 ("Factories Act") seeks to regulate labour employed in factories and makes provisions for the safety, health and welfare of the workers. An occupier of a factory under the Factories Act, means the person who has ultimate control over the affairs of the factory. The occupier or manager of the factory is required to obtain a registration for the factory. The Factories Act also requires inter alia the maintenance of various registers dealing with safety, labour standards, holidays and extent of child labour including their conditions. Further, notice of accident or dangerous occurrence in the factory is to be provided to the inspector by the manager of the factory.

2. Food Safety Standards Act, 2006 (the “FSS Act”)

The FSS Act is the primary legislation in India relating to food and the corresponding safety standards. The FSS Act inter-alia mandates that no food business operator shall himself or herself or by any person on his behalf manufacture, store, sell or distribute any article of food:

- a. which is unsafe; or
- b. which is misbranded or sub-standard or contains extraneous matter; or
- c. for which a license is required, except in accordance with the conditions of the license; and
- d. This is for the time being prohibited by the Food Authority or the Central Government or the State Government in the interest of public health.

Every person who carries on food business is required to obtain a license under the FSS Act. The Food Safety and Standards Authority of India (“FSSAI”) has been established under the FSS Act. The FSSAI has the power to regulate and monitor the manufacture, processing, distribution, sale and import of food so as to ensure safe food. Its inter-alia has the power to regulate the quality control of articles of food imported in India, limits on use of additives, metals, drugs and anti-biotic in food, certification of bodies engaged in food safety management systems and food labeling standards. The FSSAI is obliged to provide scientific advice and technical support to the Central Government and the State Governments in framing the policies and rules in areas which have a direct or indirect bearing on food safety and nutrition. The FSS Act also provides power to the Food Safety Officer to enter and inspect any place where articles of food are manufactured, or stored for sale, or stored for the manufacture of any other article of food, or exposed or exhibited for sale and where any adulterant is manufactured or kept, and take samples of such articles of food or adulterant for analysis. Further, any person who whether by himself or by any other person on his behalf manufactures for sale or stores or sells or distributes or imports any article of food for human consumption which is sub-standard, shall be liable to a penalty which

may extend to five lakh rupees. The FSSAI has also framed the several rules and regulations relating to food safety and standards with regard to sale, packaging and labeling, analysis, additives and contaminants.

3. Agricultural and Processed Food Products Export Development Authority Act, 1985 ("APEDA Act")

The APEDA Act provides for establishment of Agricultural and Processed Food Products Export Development Authority for the development and promotion of export of certain agriculture and processed food products. APEDA has signed multiple MoUs with different institutions engaged in agri-trade and agri-infrastructure to foster cooperation in the areas of critical technology intervention requirements for organic as well as chemical/residue free production systems; development of Common Processing Centers; effectively supporting the entire value chain system in clusters identified under the Agriculture Export Policy (AEP); developing pre-production, production, post harvesting, primary processing, secondary processing and transportation/ distribution guidelines for all the stakeholders including farmers to meet international compliances, capacity building of various stakeholders and providing technical support to tribal farmers & groups, federations, organizations working with farmers, engaging cooperatives involved in agricultural production for improving the quality of agri-produce, its consolidation and export for better price realization to the farmers; facilitating necessary certifications for agri-produce/ organic produce; capacity development of agri-processing and allied cooperative societies/SHGs; showcasing the products and services being produced/offered by agri-produce/processing cooperatives in the Indian and global markets, etc. Such MoUs are expected to facilitate the development of clusters identified under the AEP, thus benefiting the farmers in those clusters and promoting agri exports from the country. Persons exporting scheduled products are required to be registered under the APEDA Act and are required to adhere to specified standards and specifications and to improve their packaging. The APEDA Act provides for imprisonment and monetary penalties for breach of its provisions. Further, Agricultural and Processed Food Products Export Development Authority Rules, 1986 have been framed for effective implementation of the APEDA Act and provides for the application, grant and cancellation of registration to be obtained by exporters of agricultural produce.

4. Electricity Act, 2003

The Electricity Act, 2003 ("**Electricity Act**") was enacted to regulate the generation, transmission, distribution, trading and use of electricity by authorising a person to carry on the above acts either by availing a license or by seeking an exemption under the Electricity Act. Additionally, the Electricity Act states no person other than Central Transmission Utility or State Transmission Utility, or a licensee shall transmit or use electricity at a rate exceeding 250 watts and 100 volts in any street or place which is a factory within the meaning of the Factories Act, 1948 or a mine within the meaning of the Mines Act, 1952 or any place in which 100 or more persons are ordinarily likely to be assembled. An exception to the said rule is given by stating that the applicant shall apply by giving not less than 7 days' notice in writing of his intention to the Electrical Inspector and to the District Magistrate or the Commissioner of Police, as the case may be, containing the particulars of electrical installation and plant, if any, the nature and purpose of supply of such electricity. The Electricity Act also lays down the requirement of mandatory use of meters to regulate the use of electricity and authorizes the Commission so formed under the Electricity Act, to determine the tariff for such usage. The Electricity Act also authorizes the State Government to grant subsidy to the consumers or class of consumers it deems fit from paying the standard tariff required to be paid.

B. EMPLOYEE AND LABOUR RELATED LEGISLATIONS:

Our Company is governed by various legislations for the safety and protection of the labour and employees either working for or engaged by the Company. Our Company is required to ensure compliance of various labour and employment laws to conduct its business and projects.

The Government of India has enacted the following codes for reforming labour laws in India:

- The Code on Wages, 2019;
- The Code on Social Security, 2020;
- The Occupational Safety, Health and Working Conditions Code, 2020; and
- The Industrial Relations Code, 2020

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 is also one of the labour laws applicable to Company.

C. SHOPS AND COMMERCIAL ESTABLISHMENTS LEGISLATION:

The Company is governed by various shops and establishments legislations, as applicable in the States where its offices are located. The Company has its corporate office at Agra and other offices and branch offices at various locations in Uttar Pradesh, Rajasthan, Haryana, Punjab, Maharashtra, and Bihar. These regulations regulate the conditions of work and employment in shops and commercial establishments and generally prescribe obligations in respect of inter alia registration, opening and closing hours, daily and weekly working hours, holidays, leave, health, and safety measures, and wages for overtime work. These establishments of the company will be governed by the acts, rules, and regulations of the respective states.

D. TAX RELATED LAWS:

1. Income-tax Act, 1961

Income-tax Act, 1961 (“**IT Act**”) is applicable to every company, whether domestic or foreign whose income is taxable under the provisions of this Act or Rules made there under depending upon its ‘Residential Status’ and ‘Type of Income’ involved. Every assessee, under the IT Act, which includes a company, is required to comply with the provisions thereof, including those relating to tax deduction at source, advance tax, minimum alternative tax and like.

2. Central Goods and Services Tax Act, 2017

The Central Goods and Services Tax Act, 2017 (“**CGST Act**”) regulates the levy and collection of tax on the intra- State supply of goods and services by the Central Government or State Governments. The CGST Act amalgamates a large number of Central and State taxes into a single tax. The CGST Act mandates every supplier providing the goods or services to be registered within the State or Union Territory it falls under, within 30 days from the day on which he becomes liable for such registration. Such registrations can be amended, as well as cancelled by the proper office on receipt of application by the registered person or his legal heirs. There would be four tax rates namely 5%, 12%, 18% and 28%. The rates of GST applied are subject to variations based on the goods or services.

3. Integrated Goods and Services Tax Act, 2017

Integrated Goods and Services Tax Act, 2017 (“**IGST Act**”) is a Central Act enacted to levy tax on the supply of any goods and/ or services in the course of inter-State trade or commerce. IGST is levied and collected by Centre on interstate supplies. The IGST Act sets out the rules for determination of the place of supply of goods. Where the supply involves movement of goods, the place of supply shall be the location of goods at the time at which the movement of goods terminates for delivery to the recipient. The IGST Act also provides for determination of place of supply of service where both supplier and recipient are located in India or where supplier or recipient is located outside India. The provisions relating to assessment, audit, valuation, time of supply, invoice, accounts, records, adjudication, appeal etc. given under the CGST Act are applicable to IGST Act.

Further, the Company is also governed by various State Goods and Service Tax statutes for levy and collection of tax on intra-State supply of goods and services or both.

4. The Customs Act, 1962 and the Customs Tariff Act, 1975

The provisions of the Customs Act, 1962 and Rules made there under are applicable at the time of import of goods into India from a place outside India or at the time of export of goods out of India to a place outside India. Any company requiring to import or export any goods is required to get itself registered under this Act and obtain

an Importer Exporter Code number. The Customs Tariff Act, 1975 provides the rates at which duties of customs will be levied under the Customs Act, 1962.

5. **Professional Tax**

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations. The professional tax is charged as per the List II of the Constitution. The professional taxes are classified under various tax slabs in India. The tax payable under the State Acts by any person earning a salary or wage shall be deducted by his employer from the salary or wages payable to such person before such salary or wages is paid to him, and such employer shall, irrespective of whether such deduction has been made or not when the salary and wage is paid to such persons, be liable to pay tax on behalf of such person and employer has to obtain the registration from the assessing authority in the prescribed manner. Every person liable to pay tax under these Acts (other than a person earning salary or wages, in respect of whom the tax is payable by the employer), shall obtain a certificate of enrolment from the assessing authority.

E. **INTELLECTUAL PROPERTY LAWS**

1. **The Trademarks Act, 1999**

Under the Trademarks Act, 1999 ("**Trademarks Act**"), a trademark is a mark capable of being represented graphically and which is capable of distinguishing the goods or services of one person from those of others used in relation to goods and services to indicate a connection in the course of trade between the goods and some person having the right as proprietor to use the mark. A 'mark' may consist of a device, brand, heading, label, ticket, name signature, word, letter, numeral, shape of goods, packaging or combination of colors or any combination thereof. Section 18 of the Trademarks Act requires that any person claiming to be the proprietor of a trade mark used or proposed to be used by him, must apply for registration in writing to the registrar of trademarks. The trademark, once applied for and which is accepted by the Registrar of Trademarks ("**the Registrar**"), is to be advertised in the trademarks journal by the Registrar. Oppositions, if any, are invited and, after satisfactory adjudications of the same, a certificate of registration is issued by the Registrar. The right to use the mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is 10 (ten) years, which may be renewed for similar periods on payment of a prescribed renewal fee.

F. **OTHER APPLICABLE LAWS:**

The Companies Act, 2013

The Companies Act, 2013 ("**Companies Act**") deals with laws relating to companies and certain other associations. The Companies Act primarily regulates the formation, financing, functioning, and winding up of companies. The Companies Act prescribes regulatory mechanism regarding all relevant aspects, including organizational, financial, and managerial aspects of companies. It deals with issue, allotment and transfer of securities and various aspects relating to company management. It provides for standard of disclosure in public issues of capital, particularly in the fields of company management and projects, information about other listed companies under the same management, and management perception of risk factors.

1. **The Consumer Protection Act, 1986**

The Consumer Protection Act, 1986 ("**Consumer Protection Act**") was enacted to provide speedy and simple redressal to consumer disputes through quasi-judicial machinery set up at district, state and national level. The provisions of the Consumer Protection Act cover products as well as services.

2. **The Transfer of Property Act, 1882 (“T.P. Act”)**

The transfer of property, including immovable property, between living persons, as opposed to the transfer property by operation of law, is governed by the Transfer of Property Act, 1882. The T.P. Act establishes the general principles relating to the transfer of property, including among other things, identifying the categories of property that are capable of being transferred, the persons competent to transfer property, the validity of restrictions and conditions imposed on the transfer and the creation of contingent and vested interest in the property. Transfer of property is subject to stamping and registration under the specific statutes enacted for the purposes which have been dealt with hereinafter.

The T.P. Act recognizes, among others, the following forms in which an interest in an immovable property may be transferred:

- Sale: The transfer of ownership in property for a price paid or promised to be paid.
- Mortgage: The transfer of an interest in property for the purpose of securing the payment of a loan, existing or future debt, or performance of an engagement which gives rise to a pecuniary liability. The T.P. Act recognises several forms of mortgages over a property.
- Charges: Transactions including the creation of security over property for payment of money to another which are not classifiable as a mortgage. Charges can be created either by operation of law, e.g., decree of the court attaching to specified immovable property, or by an act of the parties.
- Leases: The transfer of a right to enjoy property for consideration paid or rendered periodically or on specified occasions.
- Leave and License: The transfer of a right to do something upon immovable property without creating interest in the property.

Further, it may be noted that with regards to the transfer of any interest in a property, the transferor transfers such interest, including any incidents, in the property which he is capable of passing and under the law, he cannot transfer a better title than he himself possesses.

3. **The Sale of Good Act, 1930**

The Indian Sale of Goods Act, 1930 provides for the setting up of contracts where the seller transfers or agrees to transfer the title (ownership) in the goods to the buyer for consideration. It is applicable all over India. Under the act, goods sold from owner to buyer must be sold for a certain price and at a given period of time.

4. **The Registration Act, 1908**

The Registration Act, 1908 (“**Registration Act**”) was passed to consolidate the enactments relating to the registration of documents. The main purpose for which the Registration Act was designed was to ensure information about all deals concerning land so that correct land records could be maintained. The Registration Act is used for proper recording of transactions relating to other immovable property also. The Registration Act provides for registration of other documents also, which can give these documents more authenticity. Registering authorities have been provided in all the districts for this purpose.

5. **The Indian Contract Act, 1872**

The Indian Contract Act, 1872 (“**Contract Act**”) lays down the essentials of a valid contract, it provides a framework of rules and regulations that govern the validity, execution and performance of a contract and codifies the way in which a contract may be entered into, executed, implementation of the provisions of a contract and effects of breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and the breach enforced. The contracting parties themselves decide the rights and duties of parties and terms of agreement.

6. **The Specific Relief Act, 1963**

The Specific Relief Act, 1963 (“**Specific Relief Act**”) is complimentary to the provisions of the Contract Act and the Transfer of Property Act, as the Act applies both to movable property and immovable property. The Specific Relief Act applies in cases where the Court can order specific performance of a contract. Specific relief can be granted only for purpose of enforcing individual civil rights and not for the mere purpose of enforcing a civil law. Specific performance’ means Court will order the party to perform his part of agreement, instead of imposing on him any monetary liability to pay damages to other party.

7. **Competition Act, 2002**

The Competition Act, 2002 (“**Competition Act**”) aims to prevent anti-competitive practices that cause or are likely to cause an appreciable adverse effect on competition in the relevant market in India. The Competition Act regulates anti-competitive agreements, abuse of dominant position and combinations. The Competition Commission of India (“**Competition Commission**”) which became operational from May 20, 2009, has been established under the Competition Act to deal with inquiries relating to anti-competitive agreements and abuse of dominant position and regulate combinations. The Competition Act also provides that the Competition Commission has the jurisdiction to inquire into and pass orders in relation to an anti-competitive agreement, abuse of dominant position or a combination, which even though entered into, arising, or taking place outside India or signed between one or more non-Indian parties, but causes an appreciable adverse effect in the relevant market in India.

8. **Legislations pertaining to Stamp Duty**

Stamp duty in relation to certain specified categories of instruments as specified under Entry 91 of the list, is governed by the provisions of the Indian Stamp Act, 1899 (“**Stamp Act**”) which is enacted by the Central Government. All others instruments are required to be stamped, as per the rates prescribed by the respective State Governments in the respective schedules of the respective legislations pertaining to stamp duty as applicable in the State. Stamp duty is required to be paid on all the documents that are registered and as stated above the percentage of stamp duty payable varies from one State to another. Certain State in India have enacted their own legislation in relation to stamp duty while the other State have adopted and amended the Stamp Act, as per the rates applicable in the State. On such instruments stamp duty is payable at the rates specified in Schedule I of the Stamp Act. Instruments chargeable to duty under the Stamp Act which are not duly stamped are incapable of being admitted in court as evidence of the transaction contained therein. The Stamp Act also provides for impounding of instruments which are not sufficiently stamped or not stamped at all. Unstamped and deficiently stamped instruments can be impounded by the authority and validated by payment of penalty. The amount of penalty payable on such instruments may vary from State to State.

9. **Legal Metrology Act, 2009**

The Legal Metrology Act replaces the Standards of Weights and Measures Act, 1976 and the Standards of Weights and Measures (Enforcement) Act, 1985. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and for matters connected therewith or incidental thereto. The Legal Metrology Act inter-alia requires any person who manufactures, repairs or sells, or offers, exposes or possesses for repair or sale, any weight or measure, to obtain a license issued by the Controller of Legal Metrology. It has been clarified that no license to repair is required by a manufacturer for repair of his own weight or measure in a State other than the State of manufacture of the same. The Legal Metrology Act inter-alia provides that any person who is required to obtain a license under the Legal Metrology Act or the rules made thereunder, repairs or sells, or offers, exposes or possesses for repair or sale, any weight or measure, without being in possession of a valid license, will be punished in the first instance with fine and for a subsequent offence, with imprisonment and/or fine.

G. ENVIRONMENTAL LAWS

1. The Environment Protection Act, 1986 and Environment (Protection) Rules, 1986

The Environmental Protection Act, 1986 is an "umbrella" legislation designed to provide a framework for co-ordination of the activities of various Central and State authorities established under various laws. The potential scope of the Act is broad, with "environment" defined to include water, air and land and the interrelationships which exists among water, air and land, and human beings and other living creatures such as plants, micro-organisms and property. Further, the Ministry of Environment and Forests looks into Environment Impact Assessment. The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment which is assessed by the Ministry in detail before granting clearances for such proposed projects.

2. The Water (Prevention and Control of Pollution) Act, 1974 ("the Water Act")

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State Pollution Control Board ("State PCB"). The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent. The Water Act prescribes specific amounts of fine and terms of imprisonment for various contraventions.

3. The Air (Prevention and Control of Pollution) Act, 1981 ("the Air Act")

The Air Act requires that any individual, industry or institution responsible for emitting smoke or gases by way of use of fuel or chemical reactions must apply in a prescribed form and obtain consent from the State PCB prior to commencing any activity. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four months after the receipt of the application for consent the State PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent. The Air Act prescribes penalties for contravention in terms of fine, imprisonment or both.

4. Hazardous Waste Management Wastes (Management and Transboundary Movement) Rules, 2016

Hazardous Waste Management Rules aim to ensure safe handling, generation, processing, treatment, package, storage, transportation, use reprocessing, collection, conversion, and offering for sale, destruction and disposal of hazardous waste. The rules lay down corresponding duties of various authorities such as MoEF, CPCB, State/UT Govts., SPCBs/PCCs, DGFT, Port Authority and Custom Authority while State Pollution Control Boards/ Pollution Control Committees have been designated with wider responsibilities touching across almost every aspect of hazardous wastes generation, handing and their disposal.

H. REGULATIONS REGARDING FOREIGN INVESTMENT

Foreign Exchange Management Act, 1999

Foreign investment in India is governed by the provisions of Foreign Exchange Management Act, 1999 ("FEMA"), as amended, along with the rules, regulations and notifications made by the Reserve Bank of India thereunder, The Department for Promotion of Industry and Internal Trade ("DPIIT"), Ministry of Commerce and Industry has issued the Consolidated FDI Policy which consolidates the policy framework on Foreign Direct Investment ("FDI Policy"), with effect from October 15, 2020. The FDI Policy consolidates and subsumes all the press notes, press releases, and clarifications on FDI issued by DIPP till October 15, 2020.

In terms of the FDI Policy, foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments. FDI for the items or activities that cannot be brought in under the automatic route may

be brought in through the approval route. Where FDI is allowed on an automatic basis without the approval of the Government, the RBI would continue to be the primary agency for the purposes of monitoring and regulating foreign investment. In cases where Government approval is obtained, no approval of the RBI is required except with respect to fixing the issuance price, although a declaration in the prescribed form, detailing the foreign investment, must be filed with the RBI once the foreign investment is made in the Indian company.

The Company is engaged in the activity of manufacturing of meat products. The FDI Policy issued by the DIPP permits foreign investment up to 100% in the manufacturing sector under the automatic route. No approvals of the Administrative Ministries/Departments or the RBI are required for such allotment of equity Shares under this Offer. The Company will be required to make certain filings with the RBI after the completion of the Offer.

 - a. Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "Act");
 - b. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended ("ICDR Regulations"); and
 - c. The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note").
2. The Company's Board of Directors is responsible for the preparation of the Restated Consolidated Financial Statement for the purpose of inclusion in the Red Herring Prospectus to be filed with Securities and Exchange Board of India (the "SEBI"), BSE Limited and National Stock Exchange of India Limited (collectively, with BSE Limited, the "Stock Exchanges") in connection with the proposed IPO. The Restated Consolidated Financial Information have been prepared by the management of the Company on the basis of preparation stated in Annexure V to the Restated Consolidated Financial Information. The respective Board of Directors of the companies included in the Group are responsible for designing, implementing, and maintaining adequate internal control relevant to the preparation and presentation of the Restated Consolidated Financial Statement. The respective Board of Directors are also responsible for identifying and ensuring that the Group complies with the Act, ICDR Regulations and the Guidance Note, as applicable.
3. We have examined such Restated Consolidated Financial Information taking into consideration:
 - a. The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated February 01, 2022 in connection with the proposed IPO of equity shares of the Company;
 - b. The Guidance Note, which also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI.

-
- c. Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Consolidated Financial Statement; and
 - d. The requirements of Section 26 of the Act and the ICDR Regulations. Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the IPO.
4. These Restated Consolidated Financial Information have been compiled by the management from:
 - a. the audited Special Purpose Interim Consolidated Ind AS financial statements of the Group as at and for the nine month period ended December 31, 2022, prepared in accordance with Indian Accounting Standard (Ind AS 34 “Interim Financial Reporting” specified under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India (the “Consolidated Interim Ind AS Financial Statements”) which have been approved by the Board of Directors at their meeting held on February 24, 2023.
 - b. the audited Consolidated Ind AS Financial Statements of the Group as at and for the year ended March 31, 2022, prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”), read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in india (the “Consolidated Ind AS Financial Statements”), which have been approved by the Board of Directors at their meeting held on July 25, 2022.
 - c. The audited Consolidated Ind AS Financial Statements of the Group as at and for the year ended March 31, 2021 along with comparative audited Consolidated Ind AS Financial Statements for the year ended March 31, 2020 (the “Consolidated Ind AS Financial Statements”), prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”), which have been approved by the Board of Directors at their meeting held on November 02, 2021. The comparative information as at and for the year ended March 31, 2020 included in such Consolidated Ind AS Financial Statements have been prepared by us by making Ind AS adjustments to the audited consolidated Indian GAAP financial statements of the Group as at and for the year ended March 31, 2020, prepared in accordance with the accounting standards notified under the Section 133 of the Act (“Indian GAAP”) which was approved by the Board of Directors at their meeting held on November 30, 2020.
 5. For the purpose of our examination, we have relied on report issued by us dated February 24, 2023 on the Special Purpose Interim Consolidated Financial Statements of the Group as at and for the nine months period ended December 31, 2022 and Auditors’ reports issued by us dated July 25, 2022 and November 02, 2021 respectively on the Consolidated Financial Statements of the Group as at and for each of the years ended March 31, 2022, 2021 and 2020 respectively as referred to in paragraph 4 above.

Basis of Accounting and Restriction on Distribution and Use

We draw attention to Special Purpose Consolidated Ind AS Financial Statements, describing the purpose and basis of preparation. The Special Purpose Consolidated Ind AS Financial Statements have been prepared by the Company solely for the purpose of preparation of the Restated Consolidated Financial Statements as required under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 as amended from time to time (the "ICDR Regulations") in relation to the proposed initial public offering of the Company. As a result, the Special Purpose Consolidated Ind AS Financial Statements may not be suitable for any another purpose and are not financial statements prepared pursuant to any requirements under section 129 of the Companies Act, 2013. The Special Purpose Consolidated Ind AS Financial Statements cannot be referred to or distributed or included in any offering document or used for any other purpose except with our prior consent in writing. Our report is intended solely for the purpose of preparation of the Restated Consolidated Financial Statements and is not to be used, referred to or distributed for any other purpose without our prior written consent.

Our opinion is not modified in respect of this matter.

Nature and purpose of reserves

(a) **Securities Premium Reserve:** The amount received in excess of face value of the equity shares is recognised in Securities Premium. It can be used only in accordance with provisions of Companies Act, 2013 for specified purposes.

(b) **Retained Earnings:** Retained earnings are the profits that the Company has earned till date net of appropriations. It is available for distribution to shareholders.

(c) **Capital Reserves:** Any short fall of consideration paid over net assets acquired is treated as capital reserve under equity.

(d) **General Reserves:** Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid-up capital of the Company for that year, then the total dividend distribution is less than the total distributable results for that year. Consequent to introduction of Companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of Companies Act, 2013.

(e) **Cash flow hedging reserve:** The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. Such gains or losses will be reclassified to statement of profit and loss in the period in which the underlying hedged transaction occurs.

The above Annexure should be read with the basis of preparation and significant accounting policies appearing in Annexure V, notes to the restated consolidated financial information appearing in Annexure VI and statement on adjustments to the restated consolidated financial information appearing in Annexure VII.

These Restated Consolidated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of the board meetings for adoption of special purpose consolidated financial statements, statutory consolidated Ind AS financial statements and the statutory Indian GAAP Financial Statements. The accounting policies have been consistently applied by the Group in preparation of the Restated Consolidated Financial Information and are consistent with those adopted in the preparation of financial statements for the nine months period ended December 31, 2022. There have been no reservations or qualifications or adverse remarks of the Statutory Auditors in the last three fiscal years and for the nine months period ended December 31, 2022. These Restated Consolidated Financial Information have been prepared for the Group as a going concern basis.

HMA Agro Industries Limited
Annexure V - Statement of notes to the Restated Consolidated Financial Information

Basis of Consolidation

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

2.01 Business Combination

The Group accounts for each business combination by applying the acquisition method. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.

Control exists when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity.

The Group measures goodwill as of the applicable acquisition date at the fair value of the consideration transferred less the net recognized amount of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognized as capital reserve.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured, and settlement is accounted for within equity. Otherwise subsequent changes in the fair value of the contingent consideration are recognised in the Consolidated Statement of Profit and Loss.

Transaction costs that the Group incurs in connection with a business combination, such as finder's fees, legal fees, due diligence fees and other professional and consulting fees, are expensed as incurred.

Any goodwill that arises on account of such business combination is tested annually for impairment.

2.02 Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

Subsequent costs are included in the asset's carrying amount or Recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates.

Capital work in progress includes cost of PPE under development as at the Balance Sheet date and is carried at cost, comprising of direct cost and directly attributable cost.

Depreciation

Depreciation on property, plant and equipment is provided on written down value method, which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

Depreciation commences when the assets are ready for their intended use.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the statement of profit and loss.

The estimated useful lives are as follows :

Assets	Useful life (years)
Office equipment	10
Plant and Machinery	15
Building	30
Vehicles	8
Land	-

2.03 Impairment of property, plant and equipment

Consideration is given at each balance sheet date to determine whether there is any indication of impairment of the carrying amount of the Groups' each class of the property, plant and equipment. If any indication exists, an asset's recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount factor.

2.04 Accounting for Joint Operations

The Group has an interest in joint operation. It recognises in relation to its interest in a joint operation its:

- ▶ Assets, including its share of any assets held jointly
- ▶ Liabilities, including its share of any liabilities incurred jointly
- ▶ Revenue from the sale of its share of the output arising from the joint operation
- ▶ Share of the revenue from the sale of the output by the joint operation
- ▶ Expenses, including its share of any expenses incurred jointly

2.05 Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- ▶ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ▶ Held primarily for the purpose of trading
- ▶ Expected to be realised within twelve months after the reporting period, or
- ▶ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- ▶ It is expected to be settled in normal operating cycle
- ▶ It is held primarily for the purpose of trading
- ▶ It is due to be settled within twelve months after the reporting period, or
- ▶ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

2.06 Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For financial assets and liabilities maturing within one year from the balance sheet date and which are not carried at fair value, the carrying amount approximates fair value due to short term maturity of these instruments. The Group recognises the transfer between the levels of fair value hierarchy at the end of the reporting period during which the changes has occurred.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

This note summaries accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- ▶ Quantitative disclosures of fair value measurement hierarchy (Note 28)
- ▶ Financial instruments (including those carried at amortised cost) (Note 28)

2.07 Revenue from contract with customers

Revenue is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring services to a customer. The Group identifies the performance obligations in its contracts with customers and recognises revenue as and when the performance obligations are satisfied.

Revenue from inter-Group arrangement is recognised based on transaction price which is at arm's length based on transfer pricing arrangement.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Sale of products :

Revenue from sale of products is recognised when the control and ownership of the goods have been passed to the buyer, on delivery of the goods to the ultimate consumer.

2.08 Other income :

Interest income:

Interest income is recognised using effective interest rate method.

Profit/ (Loss) on derivatives :

Profit/ (Loss) on derivatives contracts on account of fair value changes are recognised as either income or expenses as the case may be through Profit and loss.

Duty drawback

Duty drawback income is recognised when right to receive such benefits is established. Further, in cases where there is uncertainty of such benefits, revenue is recognised when benefits are received.

2.09 Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

► Finished goods : cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on first in, first out basis.

► Packing material and stores & spares : cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

2.10 Taxes

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured using the tax rates that are expected to apply in a year when asset is realised or the liability is expected to be settled based on the tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax where the deferred tax assets and deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

2.11 Borrowing Cost :

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

2.12 Employee Benefits :

A.Non funded Gratuity Obligations : The Group accounts for employee benefit expense based on the independent Actuarial professional on every reporting date. The gratuity plan is a non funded plan and the Group makes provision in books of account based on the actuarial report.

B.Defined Contribution Plans : The Group has a defined contribution plan in respect of provident fund. Contributions are made to provident fund in India for employees as per regulations. The contributions are made to registered provident fund administered by the Government of India. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation.

2.13 Provisions and Contingent Liabilities

Provisions:

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities:

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

2.14 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Non Derivative Financial Assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are attributable to the acquisition of financial asset. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 2.06 for Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- ▶ Financial assets at amortised cost
- ▶ Financial assets at fair value through profit or loss
- ▶ Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses
- ▶ Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition

A 'financial asset' is measured at amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Group's financial assets at amortised cost includes other financial assets.

A 'financial asset' is measured at FVOCI if both the following conditions are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes derivative forwards which the Group has taken to hedge its foreign exchange reserves. Gain/loss on such transactions are recognised in the statement of profit and loss on every reporting period.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e. removed from a Group's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

HMA Agro Industries Limited
Annexure V - Statement of notes to the Restated Consolidated Financial Information

Impairment of financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired, if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

For trade receivables, the Group applies a simplified approach in calculating estimated credit loss. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

b. Non Derivative Financial Liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost (loans and borrowings)

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

c. Derivative Financial Instruments

Instruments in hedging relationship

The Group designates certain foreign exchange forward contracts as hedge instruments in respect of foreign exchange risks. These hedges are accounted for as cash flow hedges, net of taxes based on the forecasted highly probable transactions.

The Group uses hedging instruments that are governed by the policies of the Group which are approved by the Board of Directors. The policies provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Group.

The hedge instruments are designated and documented as hedges at the inception of the contract. The Group determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the statement of profit and loss upon the occurrence of the related forecasted transaction. If the hedged forecasted transaction are no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss. The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in the statement of profit and loss when the forecasted transaction ultimately affects profit and loss.

Instruments not in hedging relationship

The Group enters into contracts that are effective as hedges from an economic perspective, but they do not qualify for hedge accounting. The change in the fair value of such instrument is recognised in the statement of profit and loss.

2.15 Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset. The Group reduces the carrying amount of the asset to the extent of grant received. The grant is then recognised in profit or loss over the useful life of the depreciable asset by way of a reduced depreciation charge.

2.16 Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise of cash balances at banks, on hand cash balances and demand deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

In the cash flow statement, cash and cash equivalents includes cash in hand, cash at bank, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

2.17 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equity shares outstanding, without a corresponding change in resources. Earnings considered in ascertaining the Group's earnings per share is the net profit for the year after deducting any attributable tax thereto for the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.18 Segment Reporting

Based on "Management Approach" as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker evaluates the Group's performance and allocates the resources based on an analysis of various performance indicators by business segments.

Segment Policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the Consolidated financial statements of the Group as a whole. The Group operates only in single business segment hence the profit and loss and balance sheet are representative of its segment disclosure.

2.19 Dividend

The Group recognises a liability to pay dividend to equity holders of the parent when the distribution is authorised, and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.20 Significant accounting estimates, judgements and assumptions

The preparation of the Group's restated consolidated financial statements is in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the restated consolidated financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognized in the year in which the estimates are revised and in any future year affected.

In the process of applying the Group's accounting policies, management has made the following judgements which have significant effect on the amounts Recognized in the restated consolidated financial statements:

a. Useful lives of property, plant and equipment and intangible assets: Determination of the estimated useful life of tangible assets and intangible assets and the assessment as to which components of the cost may be Capitalized. Useful life of tangible assets is based on the life specified in Schedule II of the Companies Act, 2013 and also as per management estimate for certain category of assets. Assumption also need to be made, when Group assesses, whether as asset may be Capitalized and which components of the cost of the assets may be capitalized.

b. Contingencies: Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Group as it is not possible to predict the outcome of pending matters with accuracy.

c. Fair value measurements and valuation processes : Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. The Management determines the appropriate valuation techniques and inputs for the fair value measurements. In estimating the fair value of an asset or a liability, the Group used market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engaged third party qualified valuers to perform the valuations in order to determine the fair values based on the appropriate valuation techniques and inputs to fair value measurements such as Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d. Estimation of defined benefit plans :The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligation.

e. Tax expense :Tax expense is calculated using applicable tax rate and laws that have been enacted or substantially enacted. In arriving at taxable profit and all tax bases of assets and liabilities, the Group determines the taxability based on tax enactments, relevant judicial pronouncements and tax expert opinions, and makes appropriate provisions which includes an estimation of the likely outcome of any open tax assessments / litigations. Any difference is recognized on closure of assessment or in the period in which they are agreed.

Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilised.

Allocation of goodwill to cash-generating units

The subsidiary is identified as a separate cash generating unit. Goodwill has been allocated for impairment testing purposes to the cash-generating units.

The carrying amount of goodwill was allocated to major cash-generating units as follows:

(in Rupees Million)

Particulars	As at December 31, 2022	As at March 31, 2021	As at April 01, 2020	As at March 31, 2020

Total	6.23	6.23	6.23	6.23

Cash-generating units to which goodwill is allocated are tested for impairment annually at each reporting date, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to that unit. The Company has evaluated that there is no impairment of goodwill is required in respect of above entity.

An analysis of the sensitivity of the Computation to a change in key parameters (Operating margin, discount rate and long term growth rate) based on reasonable assumptions did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

(27) Financial risk management framework

The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies. The Board holds regular meetings on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group.

a). Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

Cash and cash equivalents

The Group held cash and cash equivalents and other bank balances of Rs. 1,990.39 millions as at December 31, 2022 (March 31, 2022 : Rs. 699.63 millions March 31, 2021 : Rs. 622.76 millions March 31, 2020 : Rs 488.55 millions). The credit worthiness of banks and financial institutions is evaluated by management on an ongoing basis and is considered to be good.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. This definition of default is determined by considering the business environment in which Group operates and other macro-economic factors.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Group, market intelligence and goodwill. Outstanding customer receivables are regularly monitored. The management uses a simplified approach for the purpose of computation of expected credit loss for trade receivables and other receivables. The Group provides for the long outstanding and doubtful balances as and when there are indications of impairment and non recoverability of outstanding amounts.

Other financial assets

Other financial assets measured at amortised cost includes deposits and capital advances for immovable properties etc. Credit risk related to these financial assets are managed by monitoring the recoveries of such amounts on regular basis and the Group does not perceive any credit risk related to these financial assets.

b). Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due. The Group has access to unused credit facility for the period ended December 31, 2022 amounting to Rs 859.51 million towards working capital needs.

(c). Market risk

Market risk is the risk arising from changes in market prices – such as foreign exchange rates and interest rates – that will affect the Group's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Group is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of derivative used to cover forecasted sales and outstanding foreign debtors. Thus, the exposure to market risk is a function of borrowing activities and revenue generating, operating activities in foreign currency.

HMA Agro Industries Limited
Annexure VI - Statement of notes to the Restated Consolidated Financial Information

(i). Currency risk

The Group is exposed to currency risk on account of foreign currency transactions including recognized assets and liabilities denominated in a currency that is not the Group's functional currency (₹), primarily in respect of United States Dollar (USD). The Group ensures that the net exposure is kept to an acceptable level.

Exposure to currency risk

The Group's exposure to foreign currency risk at the end of the reporting period expressed in INR, are as follows:

Derivative financial instruments and hedging activities

The Group's revenue is denominated in various foreign currencies. Given the nature of the business, a large portion of the costs are denominated in Indian Rupee. This exposes the Group to currency fluctuations.

The Board of Directors frames, implement and monitor the risk management plan of the Company which inter-alia covers risks arising out of exposure to foreign currency fluctuations. Under the guidance and framework provided by the board, the Group uses derivative instruments such as foreign exchange forward in which the counter party is generally a bank

The foreign exchange forward contracts designated as cash flow hedges mature over a maximum period of eighteen months. The group manages its exposures normally for a period of up to two years based on the estimated exposure over that period.

During the period ended December 31, 2022, the group has designated certain foreign exchange forward as cash flow hedges to mitigate the risk of foreign exchange exposure on highly probable forecasted cash transactions. The related hedge transactions which form a part of hedge reserve as at December 31, 2022 which will occur and be reclassified to the statement of profit and loss over as and when the forecasted transactions occur.

The reconciliation for the cash flow hedge reserve for the period ended December 31, 2022 is as follows:

HMA Agro Industries Limited**Annexure VI - Statement of notes to the Restated Consolidated Financial Information****(ii). Interest rate risk**

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

The Group's exposure to interest rate risks relates primarily to the Group's interest obligations on its borrowings. Borrowings taken at variable rates are exposed to fair value interest rate risk. Group carries excellent credit ratings, due to which it has assessed that there are no material interest rate risk and any exposure thereof.

(iii). Capital risk management

The Group aims to manage its capital efficiently so as to safeguard its ability to continue as a going concern and to optimise returns to its shareholders. The capital structure of the Group is based on management's judgement of the appropriate balance of key elements in order to meet its strategic and day-to-day needs. The Group's policy is to maintain a stable and strong capital structure with a focus on total equity so as to maintain investor, creditors and market confidence and to sustain future development and growth of its business. The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group monitors its capital by using gearing ratio, which is net debt divided to total equity. Net debt includes borrowings net of cash and bank balances and total equity comprises of equity share capital, general reserve, securities premium, other comprehensive income and retained earnings.

*Amount of December 31, 2022 are annualised to ensure consistent disclosure of numbers compared to full year ended numbers presented above.

Reason for Variance :

(1) Debt Equity Ratio : Increase in debt is due to term loan taken by United Farm Products Private Limited.

(2) Debt Service Coverage ratio : The Group has majorly cash credit facilities as part of debt. In year ended March 31, 2021 and year ended March 31, 2020, Group entity United Farm Products Private Limited has availed term loan for the purpose of factory building with a moratorium period of two years. Hence the variations appearing are not consistent given a majority part of debt being floating in nature.

(3) Inventory Turnover ratio : The ratio has decreased due to decrease in purchases as at year ended March 31, 2021 and March 31, 2020

(4) Trade Payable Turnover Ratio : The ratio has decreased due to decrease in purchases as at year ended March 31, 2021 and March 31, 2020

(5) Net Capital Turnover Ratio : The ratio has decreased due to decrease in turnover as at year ended March 31, 2021 and March 31, 2020

(6) Net Profit ratio : The ratio has increased due to increase in turnover resulting in increase in profit as at respective period end.

(7) Return on Investment : The Company invests in short term fixed deposits whenever it has surplus funds lying. Hence year on year variance on return on investment is not comparable.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

You should read the following discussion and analysis of financial condition and results of operations together with our financial statements included in this Red Herring Prospectus. The following discussion relates to our Company and is based on our restated financial statements. Our financial statements have been prepared in accordance with Ind-AS and other applicable provisions of the Companies Act.

Note: Statement in the Management Discussion and Analysis Report describing our objectives, outlook, estimates, expectations or prediction may be "Forward looking statement" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to our operations include, among others, economic conditions affecting demand/supply and price conditions in domestic and overseas market in which we operate, changes in Government Regulations, Tax Laws and other Statutes and incidental factors.

OVERVIEW

Industry Overview

The livestock sector is an important component of Indian economy in terms of income, employment, and foreign exchange earnings. Besides directly benefiting the rural economy, the buffalo meat industry also provides various by-products. These byproducts are used as raw material for allied sectors -high-quality hides for the leather industry, processed offal for pharmaceutical and pet food applications, and inedible by-products provides poultry feed, special lubricants, and other products.

India has one of the largest cattle populations in the world accounting to 13% share. India accounts for more than 110.17 million buffaloes which is 42.61% of world buffalo population. India is the fifth largest producer of buffalo meat in the world. In 2021, India is expected to produce 4,250 million metric tonnes (MMT) CWE of buffalo meat with market share of 7% in the global meat production.

India, after Brazil, is the second largest exporter of buffalo meat in the world. India is expected to export 1.600 million metric tonnes (MMT) of buffalo meat with market share of 13% in total meat export across the world. The rapid growth in India's exports has been supported and will be driven by:

- steady demand of Indian buffalo meat in the international markets, specifically rise in demand for relatively good quality lower price Indian buffalo meat in developing countries
- large and underutilized buffalo population, potential to increase meat production further
- strong presence of export-oriented processing units implementing international quality guidelines
- improving infrastructure, use of tagging and monitoring device, R&D in genetic and breeding

Buffalo meat has the largest share with more than 89.08% in the total animal products export from India and is the second largest exported product after rice within the agri-export basket of India.

Our Business

HMA Group has been in the meat industry since over four decades. Our company is the flagship company of the group and is a three star export house recognized by Government of India.

We are currently among the largest exporters of frozen buffalo meat products from India and we account for more than 10% of India's total export of frozen buffalo meat (*Source: Brickworks Analytics Report*). Our products are mainly packaged under the brand name "Black Gold", "Kamil" & "HMA" and exported to over 40 countries all over the globe.

We only deal in buffalo meat and allied products. Unlike beef or pork, buffalo meat is free from religious constraints and has the added advantage of low fat and cholesterol. The meat produced for export is in the form of deboned and deglanded frozen halal buffalo meat.

We (including our subsidiaries) own four fully integrated packaged meat processing plants which are located at Aligarh, Mohali, Agra and Parbhani and are in the process of setting up our fifth fully integrated owned meat product processing unit at Haryana. We are also in advanced stages to acquire an additional plant at Unnao and we expect to complete this acquisition by Q2 of FY 2023-24. These would make our total in-house meat product processing capacities to more than 4,00,000 metric tons p.a. spread over six different owned plants by FY 2023-24. Further we also own two additional secondary level meat processing units at Jaipur and Manesar.

The raw material procurement is done by our company and the same is processed at various processing units, most of which are owned by our subsidiaries and some are owned by third parties. These processing units process our products on a contractual basis against the fixed charges, which are borne by our company and we export these branded finished products through our distribution channels. Our facilities are approved for export to UAE, Iraq, Iran, Saudi Arabia, Oman, Bahrain, Jordan, Syria, Algeria, Egypt, Angola, Vietnam, Indonesia, Georgia and other Middle East, CIS, African Countries etc. Approximately 90% of our sales are in form of exports.

In order to take advantage of our robust export business and well-established distribution channels across 40 countries, we have recently diversified our product portfolio by adding Frozen Fish Products and Basmati Rice as business verticals. We intend to become one of the most well recognized food products exporters in India.

Our total income for the nine month ended December 31, 2022, year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 24,178.21million, ₹ 31,389.76 million, 17,203.96 million and 24,166.13 million respectively, our Profit after tax was ₹ 1,132.37 million, 1,176.21 million, 715.97 million and 458.96 million respectively, our EBIDTA was ₹ 1,652.53 million, 1,758.15 million, 1,098.15 million and 786.25 million respectively, and our EBIDTA margin was 6.83%, 5.60%, 6.38% and 3.25% respectively. In the last few years, we have been strategically reducing our focus on low margin markets & gradually shifting towards higher margin markets which can be clearly seen in our financial results wherein our EBIDTA margins have increased from 3.25% in FY 2020 to over 5.60% in FY 2022.

Significant Developments after December 31, 2022 that may affect our Future Results of Operations

Except as mentioned in Risk Factors, there are no significant developments.

Impact of COVID-19

The outbreak of COVID-19 was declared a pandemic by the World Health Organization on March 11, 2020 and as of the date of this Red Herring Prospectus it is still ongoing. The GoI initiated a nation-wide lockdown from March 24, 2020 that lasted until May 31, 2020 and has been extended periodically by varying degrees by state governments and local administrations. Although the nationwide lockdown was lifted on June 1, 2020, restrictions on non-essential activities and travel were imposed in multiple states across specific districts that were witnessing increases in COVID-19 cases. The second wave of COVID-19 infections impacted India in April, May and June 2021. The second wave resulted in significant strain on the health infrastructure in the country resulting in several states announcing lockdown measures. The second wave also resulted in a large part of the population working from home and implementing social distancing measures. In June 2021, the COVID-19 reported cases from the second wave declined and the GoI and state governments started gradually easing some of the strict precautionary measures.

Our exports were impacted for two months – April & May 2020 on the onset of COVID-19, post which upon relaxation of restrictions the operations resumed from June 2020. Our Company has responded swiftly by implementing various processes to ensure our operations continue seamlessly.

As we are in the food industry, which was determined by the Government of India to be essential which allowed us to continue our operations during the nationwide lockdown. However, restrictions on manpower movement during the lockdown impacted our operations and capacity expansion projects, as well as increased our operation costs. We implemented health and safety measures as per the required norms. Our processing facilities, therefore, continued to operate normally during the first and second waves of COVID-19 infections except for the months stated above.

In the event subsequent waves worsen or are not controlled in a timely manner, we may not be able to manage our operations at their full capacity; and successfully implement our growth strategies.

FACTORS AFFECTING OUR RESULT OF OPERATIONS

Except as otherwise stated in the Red Herring Prospectus and the Risk Factors given in the Red Herring Prospectus, the following important factors could cause actual results to differ materially from the expectations include, among others:

General economic and market conditions in India and globally

Our business is highly dependent on economic and political conditions in India and other countries. General economic and political conditions in India and globally that affect the commodities market may have a material adverse effect on our business which include macroeconomic policies, industry-specific trends, legislation and regulations, upward and downward trends in the market, consumer confidence, currency and interest rate fluctuations. Moreover, market conditions may change rapidly due to any adverse economic and political conditions and we may not be able to respond to such changes in a timely manner, or at all. Any adverse impact of general economic or political conditions could materially adversely affect our business, financial condition, cash flows, results of operations and prospects.

Cost and Availability of Raw Materials

Our cost of materials consumed constitutes the largest component of our cost structure. For the financial period for the nine months ended December 31, 2022 and year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 17,827.61 million, 24,214.49 million, 13,358.77 million and 19,758.18 million respectively, or 73.73%, 77.14%, 77.65% and 81.76% respectively. The price and availability of such raw materials dependant on several factors beyond our control, including overall economic conditions, availability levels, market demand & competition for such raw materials, transportation costs, duties & taxes and trade restrictions. We usually don't enter into long-term supply contracts with any of our suppliers and typically source raw materials from third-party suppliers or the open market. The absence of long-term contracts at fixed prices exposes us to volatility in the prices of raw materials that we require and we may be unable to pass these costs onto our customers, which may reduce our profit margins. We also face a risk that one or more of our existing suppliers may discontinue these supplies to us, and any inability on our part to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect our operations.

If, for any reason, primary suppliers of raw material should curtail or discontinue their delivery of such materials or products to us in the quantities we need, or on commercially acceptable terms, production schedules could be disrupted and our business and results of operations could be adversely affected.

Unexpected market movements and disruptions could affect our business

We derive a significant portion of our revenue from meat business, which primarily comprises the sale of frozen meat products. Our total income for the nine-month ended December 31, 2022, year ended March 31, 2022, March 31, 2021 and March 31, 2020 were ₹ 24,178.21 million, 31,389.76 million, 17,203.96 million and 24,166.13 million respectively. Consequently, any reduction in demand or a temporary or permanent discontinuation of processing of such products could have an adverse effect on our business, results of operations and financial condition. Any materially adverse social, political or economic development, natural calamities, civil disruptions, regulatory developments or changes in the policies of the government could adversely affect our manufacturing and distribution activities, result in modification of our business strategy, or require us to incur significant capital expenditure, which will in turn have a material adverse effect on our business, financial condition, results of operations, and cash flows. Further, our sales may decline as a result of increased competition, regulatory action, pricing pressures, fluctuations in the demand for or supply of our products or services, or the outbreak of an infectious disease such as COVID-19. Our failure to effectively react to these situations or to successfully introduce new products or services in these markets could adversely affect our business, prospects, results of operations, financial condition, and cash flows. The occurrence of, or our inability to effectively respond to, any unfavorable events or effectively manage the

competition in the region, could have an adverse effect on our business, results of operations, financial condition, cash flows and future business prospects.

Competition

The industry in which we operate are intensely competitive. We compete with several regional and local companies, as well as large multi-national companies that are larger and have substantially greater resources than we do, including the ability to spend more on advertising and marketing. We also face competition from new entrants who may have more flexibility in responding to changing business and economic conditions. Competition in our businesses can be based on, among other things, quality, pricing, and innovation, perceived value, brand recognition, promotional activities, advertising, special events, new product introductions and other activities. It is difficult for us to predict the timing and scale of our competitors' actions in these areas. We expect competition to continue to be intense as our existing competitors expand their operations and introduce new products. Our failure to compete effectively, including any delay in responding to changes in the industry and market, together with increased spending on advertising, may affect the competitiveness of our products, which may result in a decline in our revenues and profitability. Our business faces significant competition, particularly from other vertically integrated peer companies. Some of our competitors may be larger than us, or develop alliances to compete against us, have more financial and other resources and have products with greater brand recognition than ours. Our competitors in certain regions may also have better access or exclusive arrangements to procure raw materials required in our operations and may procure them at lower costs than us, and consequently be able to sell their products at lower prices. As a result, we cannot assure you that we will be able to compete successfully in the future against our existing or potential competitors or that our business and results of operations will not be adversely affected by increased competition.

Outbreaks of livestock diseases

We take all reasonable precautions to ensure that our livestock are healthy and that our processing plants and other facilities operate in a hygienic and environmentally sound manner. However, events beyond our control, such as the outbreak of disease, could significantly restrict our ability to conduct our operations. An outbreak of disease could result in governmental restrictions on the export and domestic sale of our products or other products to, or from our suppliers, facilities or customers, or require us to destroy one or more of our livestock. This could result in the cancellation of orders by our customers and create adverse publicity that may have a material adverse effect on our ability to market our products successfully and on our business, reputation and prospects. Such outbreaks of diseases subject our business to increase regulatory or customer scrutiny and adversely affect our business. In addition, any disease or epidemic affecting the health of buffalo livestock in India may result in a decrease in the sale of our products.

Foreign Exchange Risks

We have foreign currency receivables for our export sales business operations and foreign currency payables during our equipment procurement processes, capital goods procurement, and are therefore exposed to foreign exchange risk between the Indian Rupee and U.S. dollars and other foreign currencies. Any significant fluctuation in the value of the Indian Rupee against such currencies including as noticed recently in the case of the US Dollar may adversely affect our results of operations. Based on the geographical presence and recent developments in our business operations, we primarily deal in USD, EGP, HKD, and MYR. Our foreign currency exposures, exchange rate fluctuations between Indian Rupees and foreign currencies, especially USD, EGP, HKD and MYR may have material impact on our results of operations, cash flow and financial condition. Also see, "Restated Financial Statements - Note 27: Financial Risk Management" on page no.229.

Government Regulations and Policies

Government regulations and policies, of both India and Bangladesh and in countries to which we export, can affect the demand for, expenses related to and availability of our products and their raw materials. These regulations and policies are extensive and cover a broad range of industries, some of which are politically sensitive. These

regulations and policies and the tax regimes to which we are subject could change at any time, with little or no warning or time for us to prepare. For further details see, “*Risk Factors – Internal Risk Factors - We require certain approvals and licenses in the ordinary course of business and are required to comply with certain rules and regulations to operate our business, and the failure to obtain, retain and renew such approvals and licenses in timely manner or comply with such rules and regulations or at all may adversely affect our operations, may adversely affect our business, prospects and results of operations*” on page no. 25

Significant Accounting Policies

Restated Ind-AS Consolidated Summary Statements

- (b) do not require any adjustment for modification as there is no modification in the underlying audit reports;

These Restated Consolidated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of the board meetings for adoption of Special Purpose Consolidated Interim Financial Statements, Statutory Consolidated Ind AS Financial Statements and the Statutory Indian GAAP Financial Statements. The accounting policies have been consistently applied by the Company in preparation of the Restated Consolidated Financial Information and are consistent with those adopted in the preparation of financial statements for the nine months period ended December 31, 2022. There have been no reservations or qualifications or adverse remarks of the Statutory Auditors in the last three fiscal years and for the nine month period ended December 31, 2022. These Restated Consolidated Financial Information have been prepared for the Group as a going concern basis.

Basis of Consolidation

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated. Unrealized losses are eliminated in the same way as unrealized gains, but only to the extent that there is no evidence of impairment.

Business Combination

The Group accounts for each business combination by applying the acquisition method. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another. Control exists when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through power over the entity.

The Group measures goodwill as of the applicable acquisition date at the fair value of the consideration transferred less the net recognized amount of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognized as capital reserve.

Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured, and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognized in the Consolidated Statement of Profit and Loss.

Transaction costs that the Group incurs in connection with a business combination, such as finder's fees, legal fees, due diligence fees and other professional and consulting fees, are expensed as incurred.

Any goodwill that arises on account of such business combination is tested annually for impairment.

Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition.

Subsequent costs are included in the asset's carrying amount or Recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The residual values and useful lives of property, plant and equipment are reviewed at each financial year end and changes, if any, are accounted in the line with revisions to accounting estimates.

Capital work in progress includes cost of PPE under development as at the Balance Sheet date and is carried at cost, comprising of direct cost and directly attributable cost.

Depreciation

Depreciation on property, plant and equipment is provided on written down value method, which is in line with the estimated useful life as specified in Schedule II of the Companies Act, 2013.

Depreciation commences when the assets are ready for their intended use.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount. These are included in the statement of profit and loss.

The estimated useful lives are as follows:

Assets	Useful life (years)
Office equipment	10
Plant and Machinery	15
Building	30
Vehicles	8
Land	-

Accounting for Joint Operations

The Group has an interest in joint operation. It recognizes in relation to its interest in a joint operation its:

- Assets, including its share of any assets held jointly
- Liabilities, including its share of any liabilities incurred jointly
- Revenue from the sale of its share of the output arising from the joint operation

-
- Share of the revenue from the sale of the output by the joint operation
 - Expenses, including its share of any expenses incurred jointly

Current versus non-current classification

- The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities. The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The group has identified twelve months as its operating cycle.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For financial assets and liabilities maturing within one year from the balance sheet date and which are not carried at fair value, the carrying amount approximates fair value to due to short term maturity of these instruments.

The Group recognises the transfer between the levels of fair value hierarchy at the end of the reporting period during which the changes has occurred.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above. This note summaries accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Quantitative disclosures of fair value measurement hierarchy (Note 30)
- Financial instruments (including those carried at amortised cost) (Note 30)

Fair value measurement

The Group measures financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

Revenue from contract with customers

Sale of products:

Revenue from sale of products is recognised when the control and ownership of the goods have been passed to the buyer, on delivery of the goods to the ultimate consumer.

Revenue is recognised at an amount that reflects the consideration to which the Group expects to be entitled in exchange for transferring services to a customer. The Group identifies the performance obligations in its contracts with customers and recognises revenue as and when the performance obligations are satisfied.

Revenue from inter-Group arrangement is recognised based on transaction price which is at arm's length based on transfer pricing arrangement.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Interest income:

Interest income is recognised using effective interest rate method.

Profit/ (Loss) on derivatives:

Profit/ (Loss) on derivatives: Profit/ (Loss) on derivatives contracts on account of fair value changes are recognised as either income or expenses as the case may be through Profit and loss.

Inventories

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and conditions are accounted for as follows:

-
- Raw materials: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on first in, first out basis.
 - Finished goods: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost is determined on first in, first out basis.
 - Packing material and stores & spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Taxes

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income Tax Act 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle the asset and the liability on a net basis.

Deferred Tax

Deferred tax is recognised using balance sheet approach at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purpose at the reporting date.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured using the tax rates that are expected to apply in a year when asset is realised or the liability is expected to be settled based on the tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off assets against liabilities representing current tax where the deferred tax assets and deferred tax liabilities relate to taxes on income levied by the same governing taxation laws.

Borrowing Cost:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying asset are capitalised during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

Employee Benefits:

A. Non funded Gratuity Obligations: The Company accounts for employee benefit expense based on the independent Actuarial professional on every reporting date. The gratuity plan is a non funded plan and the Company makes provision in books of account based on the actuarial report.

B. Defined Contribution Plans: The Company has a defined contribution plan in respect of provident fund. Contributions are made to provident fund in India for employees as per regulations. The contributions are made to registered provident fund administered by the Government of India. The obligation of the Company is limited to the amount contributed and it has no further neither contractual nor any constructive obligation.

Provisions and Contingent Liabilities

Provisions:

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent Liabilities:

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made. The Group does not recognise a contingent liability but discloses its existence in the financial statements.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are attributable to the acquisition of financial asset. Trade receivables that do not contain a significant financing component are measured at the transaction price determined under Ind AS 115. Refer to the accounting policies in section 2.06 for Revenue from contracts with customers.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Financial Instruments continued

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Financial assets at amortised cost
- Financial assets at fair value through profit or loss
- Financial assets at fair value through other comprehensive income (FVTOCI) with recycling of cumulative gains and losses
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition

A 'financial asset' is measured at amortized cost if both the following conditions are met:

- a. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. The Group's financial asset at amortised cost includes loans and other financial assets.

A 'financial asset' is measured at FVOCI if both the following conditions are met:

- a. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b. The asset's contractual cash flows represent SPPI.

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit and loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

Financial assets at fair value through profit or loss are carried in the balance sheet at fair value with net changes in fair value recognised in the statement of profit and loss. This category includes investments in mutual funds. Dividends on such investments are recognised in the statement of profit and loss when the right of payment has been established.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Group of similar financial assets) is primarily derecognised (i.e., removed from a Group's balance sheet) when:

-
- The rights to receive cash flows from the asset have expired, or
 - The Group has transferred its rights to receive cash flows from the asset and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired, if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

For trade receivables, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

Financial liabilities

Initial recognition and measurement

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- c. Financial liabilities at fair value through profit or loss
- d. Financial liabilities at amortised cost (loans and borrowings)

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

- c. Derivative Financial Instruments

Instruments in hedging relationship

The Group designates certain foreign exchange forward contracts as hedge instruments in respect of foreign exchange risks. These hedges are accounted for as cash flow hedges, net of taxes based on the forecasted highly probable transactions.

The Group uses hedging instruments that are governed by the policies of the Group which are approved by the Board of Directors. The policies provide written principles on the use of such financial derivatives consistent with the risk management strategy of the Group.

The hedge instruments are designated and documented as hedges at the inception of the contract. The Group determines the existence of an economic relationship between the hedging instrument and hedged item based on the currency, amount and timing of their respective cash flows. The effectiveness of hedge instruments to reduce the risk associated with the exposure being hedged is assessed and measured at inception and on an ongoing basis. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the statement of profit and loss upon the occurrence of the related forecasted transaction. If the hedged forecasted transaction is no longer expected to occur, then the amounts that have been accumulated in other equity are immediately reclassified in net foreign exchange gains in the statement of profit and loss. The effective portion of change in the fair value of the designated hedging instrument is recognised in the other comprehensive income and accumulated under the heading cash flow hedging reserve.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or no longer qualifies for hedge accounting. Any gain or loss recognised in other comprehensive income and accumulated in equity till that time remains and is recognised in the statement of profit and loss when the forecasted transaction ultimately affects profit and loss.

Instruments not in hedging relationship

The Group enters into contracts that are effective as hedges from an economic perspective, but they do not qualify for hedge accounting. The change in the fair value of such instrument is recognised in the statement of profit and loss.

Leases

Group as a Lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset is classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income

Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise of cash balances at banks, on hand cash balances and demand deposits with an original maturity of three months or less, that are readily convertible to a known amount of cash and subject to an insignificant risk of changes in value.

In the cash flow statement, cash and cash equivalents includes cash in hand, cash at bank, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

Earnings per Share

Basic earnings per share is calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equities shares outstanding during the year. The weighted average number of equities shares outstanding during the period is adjusted for events such as bonus issue that have changed the number of equities shares outstanding, without a corresponding change in resources. Earnings considered in ascertaining the Group's earnings per share is the net profit for the year after deducting any attributable tax thereto for the year. For the purpose of calculating diluted earnings per share, the net profit for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

Segment Reporting

Based on “Management Approach” as defined in Ind AS 108 - Operating Segments, the Chief Operating Decision Maker evaluates the Group’s performance and allocates the resources based on an analysis of various performance indicators by business segments. Inter segment sales and transfers are reflected at market prices. An unallocable item includes general corporate income and expense items which are not allocated to any business segment.

Segment Policies

The Group prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the standalone financial statements of the Group as a whole. Common allocable costs are allocated to each segment on an appropriate basis.

Significant accounting estimates, judgments and assumptions

The preparation of the Group’s Restated Consolidated financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances existing when the Standalone financial statements were prepared. The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognized in the year in which the estimates are revised and in any future year affected.

In the process of applying the Group’s accounting policies, management has made the following judgments which have significant effect on the amounts Recognized in the Restated Consolidated financial statements:

- a. Useful lives of property, plant and equipment and intangible assets:** Determination of the estimated useful life of tangible assets and intangible assets and the assessment as to which components of the cost may be Capitalized. Useful life of tangible assets is based on the life specified in Schedule II of the Companies Act, 2013 and also as per management estimate for certain category of assets. Assumption also needs to be made, when Group assesses, whether as asset may be Capitalized and which components of the cost of the assets may be capitalized.
- b. Contingencies:** Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Group as it is not possible to predict the outcome of pending matters with accuracy.
- c. Fair value measurements and valuation processes:** Some of the Group’s assets and liabilities are measured at fair value for financial reporting purposes. The Management determines the appropriate valuation techniques and inputs for the fair value measurements. In estimating the fair value of an asset or a liability, the Group used market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engaged third party qualified valuers to perform the valuations in order to determine the fair values based on the appropriate valuation techniques and inputs to fair value measurements such as Discounted Cash Flow model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.
- d. Estimation of defined benefit plans:** The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation, actuarial rates and life expectancy. The discount rate is determined by reference to market yields at the end of the reporting period on government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligation.
- e. Tax expense:** Tax expense is calculated using applicable tax rate and laws that have been enacted or substantially enacted. In arriving at taxable profit and all tax bases of assets and liabilities, the Group determines the taxability based on tax enactments, relevant judicial pronouncements and tax expert opinions, and makes appropriate provisions which includes an estimation of the likely outcome of any open tax assessments / litigations.

Any difference is recognized on closure of assessment or in the period in which they are agreed. Deferred income tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, unabsorbed depreciation and unused tax credits could be utilised.

f. Operating lease commitments - Company as lessor The Group has entered into lease agreement for certain plant and machinery. The Group has determined based on an evaluation of the terms and conditions of the arrangements, such as the lease term not constituting a major part of the economic life of the asset and the fair value of the asset, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

Main Components of our Profit and Loss Account

Income

Our total income comprises of revenue from operations and other income.

Revenue from Operations

Our revenue from operations as a percentage of total income were 98.04%, 98.22%, 99.25%, and 98.19% respectively, for the nine-month period ended December 31, 2022, 2022 and fiscals March 31, 2022, March 31, 2021 and March 31, 2020.

Other Income

Our other income comprises of interest income, realized/unrealized gain on foreign exchange fluctuations, gain on derivatives measured through Profit and Loss. Other income, as a percentage of total income was 1.96%, 1.78%, 0.75% and 1.81% for the nine month period ended December 31, 2022 and fiscals March 31, 2022, March 31, 2021 and March 31, 2020.

Expenditure

Our total expenditure primarily consists of Cost of Raw material consumed, Changes in Inventory, Employee Benefit Expenses, Finance Cost, Depreciation & Amortization Expenses and Other Expenses.

Cost of Material Consumed & Purchases of stock in trade

Cost of Material consumed & Purchases of stock in trade is primarily purchase of livestock for further processing.

Employee Benefit Expenses

Expenses in relation to employee's remuneration and benefits include salaries, bonus, contribution to provident fund and other funds and staff welfare expenses etc.

Finance costs

Finance cost primarily consists of interest expenses on borrowings from bank and loss on derivative measured through profit and loss and other borrowing costs.

Depreciation and Amortization Expenses

Depreciation and Amortization Expenses consist of depreciation on the Tangible assets of our Company which primarily includes building, plant & machinery, office equipment, furniture and fixture and vehicles.

Other Expenses

Other expenses consist of Export & freight charges, communication expense, legal and professional fees, commission on sales, Power and fuel, Rent (short term leases) and facility utilization charges, repairs & maintenance, packaging expenses, cooling & freezing charges, travelling and conveyance and miscellaneous expenses etc.

Provision for Tax

The provision for current taxation is computed in accordance with relevant tax regulation. Deferred tax is recognized on timing differences between the accounting and the taxable income for the year and quantified using the tax rates and laws enacted or subsequently enacted as on balance sheet date. Deferred tax assets are recognized and carried forward to the extent that there is a virtual certainty that sufficient future taxable income

will be available against which such deferred tax assets can be realized in future.

Fiscal 2022 compared with fiscal 2021

In fiscal 2022, our Revenue from Operations increased by ₹ 13,756.94 million or 80.57 %, from ₹ 17,074.97 million in fiscal 2021 to ₹ 30,831.91 million in fiscal 2022. The increase in the year 2022 was due to increase in the physical trading of goods as compared to last year which was majorly due to release of movement restrictions that were imposed during the Covid-19 pandemic lockdown.

Other income increased by ₹ 428.86 million or 332.47%, from ₹ 128.99 million in fiscal 2021 to ₹ 557.85 million in fiscal 2022. The major factor for such increase was increase in foreign exchange gain.

Cost of Material Consumed/ Purchase of Stock in Trade

Cost of material consumed increased by ₹ 10,855.72 million or 81.26%, from ₹ 13,358.77 millions in fiscal 2021 to ₹ 24,214.49 millions in fiscal 2022 due to increase in purchase of raw materials as the processing activities increased during fiscal 2021-22.

Employee Benefit Expenses

Our employee benefit cost increased by ₹ 470.19 million or 80.24 %, from ₹ 585.96 millions in fiscal 2021 to ₹ 1,056.16 million in fiscal 2022. This increase was mainly due to increase in manpower on account of restart of manufacturing activities after lifting of restrictions due to Covid-19 lockdowns.

Financial Cost

Finance cost increased by ₹ 25.11 million or 61.95 %, from ₹ 40.54 millions in fiscal 2021 to ₹ 65.65 millions in fiscal 2022. The increase was mainly due to increase in cost of utilization of working capital demand loans.

Depreciation Expenses

Depreciation expenses increased by ₹ 23.56 million or 28.35 %, from ₹ 83.11 million in fiscal 2021 to ₹ 106.67 million in fiscal 2022. This increase was on majorly on account of increase in depreciation and amortization of assets.

Other Expenses

Other expenses increased by ₹ 2,603.90 million or 140.29 %, from ₹ 1,856.12 millions in fiscal 2021 to ₹ 4,460.02 million in Fiscal 2022. The increase was majorly due to high business volumes resulting in expense increase on account of commission, export charges, freight charges, power & fuel, packaging expenses, cooling and freezing charges.

Profit/ (Loss) before Tax

The increase in business quantum and decrease in expenses has led to increase in our Profit/(Loss) before tax by ₹ 611.32 millions or 62.73 % from ₹ 974.52 millions in fiscal 2021 to ₹ 1,585.83 millions in fiscal 2022.

Tax Expense

Tax expenses increased from ₹ 258.55 million in Fiscal 2021 to ₹ 409.62 million in Fiscal 2022 due to increase in income.

Profit/ (Loss) after Tax

After accounting for taxes at applicable rates, our Profit after Tax increased by ₹ 460.23 million or 64.28 %, from ₹ 715.97 millions in fiscal 2021 to ₹ 1,176.21 million in fiscal 2022.

Capital Work in Progress

The capital work in progress for the period / year ended March 31, 2021 and March 31, 2022 is ₹ 136.39 million and ₹ 916.39 million respectively. The Increase in Capital Work in Progress is primarily due to the capital expenditures being done towards the Haryana Plant being set up by our wholly owned Subsidiary – UFPPL.

Trade Receivables & Current Liabilities

The trade receivable for the period / year ended March 31, 2021 and March 31, 2022 is ₹ 1,567.41 million and ₹ 2,897.46 million respectively and the borrowing (forming part of current liabilities) for the period / year ended March 31, 2021 and March 31, 2022 is ₹ 1,763.00 million and ₹ 2,778.57 million respectively.

The Revenue from Operations for year ended March 31, 2021 was of ₹ 17,074.97 million whereas the Revenue from Operations for the period / year ended March 31, 2022 was ₹ 30,831.91 million. This shows an increase of 80.57% for year ended March 31, 2022 when compared with the Revenue from Operations for the period ended March 31, 2021.

This led to an increase in overall working capital assets and liabilities on our balance sheet which led to the increase in current liabilities as well as increase in trade receivables.

Fiscal 2021 compared with fiscal 2020

In fiscal 2021, our Revenue from Operations decreased by ₹ 6,652.92 million or (28.04) %, from ₹ 23,727.89 million in fiscal 2020 to ₹ 17,074.97 million in fiscal 2021. The decrease in the year 2021 was due to reduction in the physical trading of goods as compared to last year which was majorly due to movement restrictions which led to considerable shutdown of operations during the Covid-19 pandemic lockdown.

Other income decreased by ₹ 309.25 million or (70.57) %, from ₹ 438.24 million in fiscal 2020 to ₹ 128.99 million in fiscal 2021. The major factor for such decrease was decrease in foreign exchange gain.

Cost of Material Consumed/ Purchase of Stock in Trade

Cost of material consumed decreased by ₹ 6,399.41 million or (32.39) %, from ₹ 19,758.18 millions in fiscal 2020 to ₹ 13,358.77 million in fiscal 2021 due to movement restrictions during the Covid-19 pandemic lockdown.

Employee Benefit Expenses

Our Employee benefit cost decreased by ₹ 173.65 million or (22.86) %, from ₹ 759.61 millions in fiscal 2020 to ₹ 585.96 million in fiscal 2021. This decrease was mainly due to Internal restructuring of roles and responsibilities and reduction in staff strength during the Covid-19 pandemic lockdown.

Financial Cost

Finance cost decreased by ₹ 23.40 million or (36.60) %, from ₹ 63.94 millions in fiscal 2020 to ₹ 40.54 millions in fiscal 2021. The decrease was mainly due to reduction in cost of utilization of working capital demand loans.

Depreciation Expenses

Depreciation expenses decreased by ₹ 17.05 million or (17.02) %, from ₹ 100.16 million in fiscal 2020 to ₹ 83.11 million in fiscal 2021. The decrease was mainly due to depreciation and amortization of assets.

Other Expenses

Other expenses decreased by ₹ 1,643.70 million or (46.97) %, from ₹ 3,499.82 millions in fiscal 2020 to ₹ 1,856.12 million in Fiscal 2021. The decrease was majorly due to low business volumes resulting in expense reduction on account of commission, export charges, freight charges, cooling and freezing charges.

Profit/ (Loss) before Tax

The decrease in expenses has led to increase in our Profit/(Loss) before tax by ₹ 352.35 millions or 56.63 % from ₹ 622.17 millions in fiscal 2020 to ₹ 974.52 millions in fiscal 2021.

Tax Expense

Tax expenses increased from ₹ 191.11 million in Fiscal 2020 to ₹ 235.20 million in Fiscal 2021 due to increase in profits.

Profit/ (Loss) after Tax

After accounting for taxes at applicable rates, our Profit after Tax increased by ₹ 256.99 million or 55.99 %, from ₹ 458.98 millions in fiscal 2020 to ₹ 715.97 million in fiscal 2021.

SECTION VIII – LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated in this section, there are no outstanding: (a) criminal proceedings; (b) actions by statutory or regulatory authorities; (c) claims relating to direct and indirect taxes; or (d) Material Litigation (as defined below); involving our Company, its Subsidiaries, its Directors and Promoters (**‘Relevant Parties’**).

Our Board, in its meeting held on March 07, 2022, determined that outstanding legal proceedings involving the Company, its Directors and Promoters will be considered as material litigation (“Material Litigation”) (i) if the aggregate amount involved in such individual litigation exceeds 5% of profit after tax of the Company, as per the last audited consolidated financial statements of the Company or such litigations outcome could have a material impact on the business, operations, prospects or reputations of the Company.

Accordingly, disclosures of the following types of litigation involving Company, Directors, Promoters or Subsidiaries have been included.

All outstanding litigation, including any litigation involving the Relevant Parties, other than criminal proceedings, actions by regulatory authorities and statutory authorities, disciplinary actions including any penalty imposed by SEBI or stock exchanges against the promoters in the last five financial years including any outstanding actions, and tax matters (direct or indirect), would be considered **‘Material Litigation’** if:

- a. where such matters involve the Relevant Parties, the monetary amount of claim by or against the Relevant Parties in any such pending proceeding is in excess of the threshold defined in (i) above; or
- b. where such matters involve our Promoters, the monetary amount of claim by or against the Promoters in any such pending proceeding is in excess of 5% of the profit after tax of the Promoter for the last financial year as per their respective latest audited annual financial statements; or
- c. with respect to where monetary liability is not quantifiable or is not excess of the threshold defined in (i) above or any other outstanding litigation, but the outcome of which could, nonetheless have a material bearing on the business, operations, performance, prospects or reputation of the Company; or
- d. Where the decision in one litigation is likely to affect the decision in other similar litigations, even though the amount involved in an individual litigation may not exceed 5% of the Company’s profit after tax derived from the most recently completed fiscal year as per the Restated Financial Statements.

Further, as per the restated consolidated financials of Company for the financial year ending 2022, the profit after tax for the Company was ₹1176.21 million. Accordingly, matters where the monetary amount of claim by or against the Subsidiaries or Group Company in excess of ₹ 58.81 million has been considered as material.

It is clarified that for the above purposes, pre-litigation notices received by Relevant Parties (excluding statutory/ regulatory/ tax authorities or notices threatening criminal action), have not been considered as litigation until such time that the Relevant Parties are not impleaded as a defendant in the litigation proceedings before any judicial/ arbitral forum.

Unless stated to the contrary, the information provided below is as of the date of this Red Herring Prospectus.

LITIGATIONS INVOLVING THE COMPANY

A. LITIGATION FILED AGAINST OUR COMPANY

1. Litigation Involving Criminal Matters

- (a) Investigation of Case No.PE-02/E/2022 of CBI/EOIII Branch, New Delhi. The Central Bureau of Investigation vide their letter dated August 17, 2022 has sought certain documents with respect to certain

entities in Vietnam, in pursuance of reference received from Government of Vietnam. The Company has vided their letter bearing reference No. HAIL/HO/2022/ACC/443 provided the requisite documents as also reply to the Notice vide their letter No. HAIL/HO/2022/ACC/446, which was received by CBI on 29th September, 2022. Thereafter, one of the directors of the Company Mr. Gulzeb Ahmed remained present at the office of CBI and his personal statements was recorded. Thereafter, there is no communication from CBI.

2. Litigation Involving Actions by Statutory/Regulatory Authorities

Show Cause notice dated August 25, 2020 was issued to the Company by the Uttar Pradesh Pollution Control Board for contravening Section 32(1)(c) and Section 33-A of the Water (Prevention and Control of Pollution) Act, 1974

Uttar Pradesh Pollution Control Board (“UPPCB”) had issued a letter to the Company stating that the Company’s abattoir at Aligarh (“Abattoir”) are causing pollution, thereby violating the directions issued by the National Green Tribunal, Principal Bench, New Delhi (“NGT”). The UPPCB inter-alia directed the Company to (i) to ensure that the Effluent Treatment Plant (“ETP”) was operational to ensure that the treated effluent conforms to the parameters provided by the UPPCB. The Regional Officer and the District Level Committee inspected and took sample of the treated effluent from the Aligarh unit and found that the Abattoir was non-compliant. The UPPCB passed an Order dated March 17, 2019 for the closure of the Abattoir situated in Aligarh for violating Section 32(1) (c) of the Water Act. Consequently, the Company filed the Writ Petition (Civil) No. 10259 of 2019 before the Hon’ble High Court at Allahabad (“the Hon’ble High Court”) stating that the UPPCB failed to follow procedure and inter-alia praying for quashing of the Order dated March 17, 2019 issued by the Chief Environment Officer directing the Company to close its Abattoir in Aligarh, for allegedly contravening the provisions of the Water Act. The Hon’ble High Court vide order dated May 31, 2019 inter alia quashed the Order dated March 17, 2019 and directed the Chief Environment Officer to follow the procedure prescribed in the Water Act and the Water Rules and serve a show cause notice to the Company with all the relevant documents within a period of four weeks. Thereafter, the UPPCB issued a show cause notice dated June 10, 2019 (“SCN”) to the Company calling upon it to show cause as to why the abattoir should not remain closed. The Company filed a reply to the SCN and inter-alia requested the UPPCB to grant a personal hearing. Aggrieved by the UPPCB not passing any orders to the reply submitted by the Company, it approached NGT praying for it to issue an ad-interim mandamus directing UPPCB to grant the Company a personal hearing. Thereafter, NGT passed an Order dated July 29, 2019 under which the petition was held as not maintainable and it was dismissed. In the meantime, the Company filed Appeal no. 05/2020 dated January 07, 2020 against the Order dated January 07, 2020 passed by UPPCB. The NGT passed an Order dated February 13, 2020 for the formation of a joint committee comprising of CPCB, CGWA, and UP SPCB (“Committee”) and further ordered that the Committee might get a trial run conducted with a view to conduct inspections. Conduct inspection on the Abattoir. Further, an Order dated February 25, 2020 was passed by the NGT declaring that the operation of the unit would be only for the trial run period and would stop after inspection. Thereafter, a show cause notice dated August 25, 2020 was issued to the Company by the UPPCB based on the observations of the Committee’s report highlighting the ground water recharge credit claimed by Company was incorrect. The Committee submitted its report on August 28, 2020 stating the non-compliances of the Company. Subsequently, an Order dated October 09, 2020 was passed by the NGT inter alia stating that based on the Committee’s report and expired no objection certificate for ground water extraction for the Aligarh unit, the dismissed Appeal no. 05/2020. Based on orders passed at public hearing dated March 23, 2021, UPPCB filed a reply dated April 09, 2021 listing down the non-compliances of the Abattoir. The proceeding is pending before Uttar Pradesh Pollution Control Board. The Company has filed Writ Petition No.4488/2022 before the Hon’ble High Court at Allahabad, Lucknow Bench against the State of Uttar Pradesh through Principal Secretary, Environment Department and 5 others praying (i) to issue a writ, order or direction in the nature of certiorari quashing the impugned orders dated February 03, 2020 and April 12, 2021 passed by the opposite party no. 6 under the Water Act, 1974 as well as under the Air Act, 1981; (ii) to issue a writ order or direction in the nature of mandamus commanding the opposite parties to decide the representation dated 5.7.2021 and 16.08.2021, by reasoned and speaking order, within the time as may be prescribed by the Hon’ble Court; (iii) to issue a writ, order or direction in the nature of mandamus by way of alternative relief thereby directing the opposite parties to pass suitable order by resorting to the provision of Section 30 read with section 17(1)(1) of the Water Act, 1974 in case the Board authorities think desirable under the circumstances of the case, in order to maintain the environmental norms and also to permit the petitioner to run the unit as the same was being run for the last 10 years under the consents which were accorded in order to secure the ends of justice. In response to this Writ Petition, the U.P. Pollution Control Board has filed counter-affidavit and supplementary counter-affidavit. Along with the said supplementary counter affidavit, a

report dated 27th February 2023 of the Committee constituted by U.P. Pollution Control Board was enclosed. This report summarized findings of inspection conducted by the team on 24th February, 2023, the Hon'ble High Court on the basis of the said inspection report prima facie inferred that unless industry starts running, it will not be possible for the Respondent Authorities to ascertain as to whether the Company is fulfilling the norms for grant of consent under the Air Act or Water Act. The Hon'ble High Court has issued the following directions vide Order dated March 02, 2023.

- (c) The Company shall be permitted to run the industry for a period of eight weeks from the date of its actual operation and after completion of said period of eight weeks, in the ninth week an inspection shall be conducted by the U.P. Pollution Control Board and the report which may be prepared on the basis of such inspection shall be provided to the petitioner as well. In case any deficiency is found in such inspection report, the same shall be removed by the petitioner within two weeks and thereafter again an inspection shall be conducted, report whereof shall be submitted to U.P. Pollution Control Board for consideration of the prayer of the petitioner for grant of consent under the Air Act and Water Act.
- (d) The Hon'ble High Court has made it clear that they have permitted the Company to run industry only on trial basis in terms of this order and to facilitate the process of consideration of the prayer of the Company for grant of consent under the Air Act and Water Act by the authority concerned.

Order of seizure dated July 15, 2021, issued by the Intelligence Officer (IO) of the Directorate General of Goods and Services Tax Intelligence (DGGI) (Headquarters), New Delhi under sub section (2) of Section 67 of the CGST Act, 2017 for the premises of HMA Agro Industries Limited (“the Company”) situated at 18A-5/3, Fatehabad Road, Taj View Crossing, Agra (Uttar Pradesh) -282001

The Intelligence Officer, Directorate General of GST Intelligence, Delhi Zone (“DGGI”) passed an Order of seizure dated July 15, 2021 under Section 67(2) of the Central Goods and Services Tax Act, 2017 against the Company stating that searches were carried out at the premises of the Company at 18A-5/3, Fatehabad Road, Taj View Crossing, Agra (Uttar Pradesh) -282001. After scrutinizing the books of accounts, documents etc. found at the premise, it was concluded that certain documents were to be confiscated as those were proved to be relevant for further proceedings. Subsequently, a Panchanama dated July 15, 2021 was also drawn by DGGI, recording the search proceeding conducted by the officers of Directorate General of GST Intelligence. It was discovered during the investigation that the Company had sold two bye-products namely tallow oil and Poultry Feed Supplements (“PFS”) in the market; the tallow oil was sold with GST @ 12% since June 2017 but no GST was paid from July 01, 2017 to March 14, 2019 on the sale of PFS by classifying it under tariff/HSN 2309. Thereafter, the Company had started paying GST @ 5% from March 15, 2019 after the clarification issued under the GST Circular No. 80/54/2018-GST dated December 31, 2018. However, the accountant of the Company stated that no GST was paid before March 15, 2019, because the Company was under the impression that the PFS was exempt from levy of GST in terms of S. No. 102 of the Notification No. 2/2017 of the Central Tax (Rate) dated June 28, 2017. Meanwhile, in this regard the All-India Buffalo and Sheep Meat Exporters Association had filed a Writ Petition before the Delhi High Court (WP No. 23432/2019) challenging the paragraphs 4.1, 4.2 and 4.3 of the Circular No. 80/54/2018-GST dated December 12, 2018. The Company had voluntarily deposited part amount for non-payment of GST during the period of July 01, 2017 to March 14, 2019 against their liability for the period 2017-2018 and 2018-2019 and had submitted copies of DRC-03 dated July 15, 2021 the Company received Summons dated 18th Oct 2022 to remain present and submit documents as may be requested by DGGI. Since due to unavoidable circumstances, the representatives of the Company were not able to remain present, the Company has requested for extension of time to remain present. Thereafter, there is no communication from DGGI. However, the Company has paid the tax to the tune of ₹ 1,51,37,372 /- suo moto to minimise the interest & penalty. This matter is presently pending.

Civil Appeal dated September 28, 2019 filed by State of Madhya Pradesh, the Company (Intervener) & others (collectively “Appellants”) against Vinod Kumar Kori (“Respondent”) in the Hon’ble Supreme Court of India (“Hon’ble Court”)

Based on the tender the Company was selected to construct a slaughterhouse at Adampur Chhawani by the State of Madhya Pradesh. Subsequently, Vinod Kumar Kori filed O.A No. 337 of 2014 (CZ) before the National Green Tribunal, Principal Bench, New Delhi (“NGT”) inter alia praying for the following (i) Bhopal Municipal Corporation (“BMC”) be directed to close down the slaughterhouse at Maida Hill Road, Bhopal, (ii) the Madhya Pradesh Pollution Control Board (“MPPCB”) be directed to revoke the consent to operate accorded to the slaughterhouse at Maida Hill Road and heavy penalty should be imposed on the Management of the Slaughter House, Municipal Corporation and MPPCB on the "Polluter Pays" principle laid down by the Hon'ble Court; (iii) BMC and District Collector may be directed to shift the Slaughterhouse outside the heavily populated area of the city; and (iv) State Level Monitoring Committee (for Slaughterhouse), may be directed to submit an action taken report on regular basis. Thereafter, the NGT through a series of orders directed (a) the State of Madhya Pradesh to submit an action taken report for shifting the slaughterhouse outside the city and also enquired about if there was any policy regarding shifting of slaughterhouses to various other municipal areas of the state; (b) the BMC to make adequate arrangements for collecting effluent from the tanks of the slaughterhouse and directed that the effluent not be discharged into the nallah and obtain Consent to Operate from MPPCB and (d) gave an opportunity to the Appellants to find a suitable site to

which the Slaughterhouse could be relocated. Despite attempts to relocate the slaughterhouse, the Appellant informed the NGT that suitable site could not be located. On September 30, 2015 the NGT directed closure of the slaughterhouse by June 30, 2016 and further gave directions regarding finding suitable site and construction of a new slaughterhouse. The State of Madhya Pradesh was also forced to cancel the agreement with HMA Agro Industries Limited for construction of slaughterhouse in the new site at Adampur Chhawani. Without delaying the matter any further, fresh tenders were floated by the appellants on April 03, 2018 by the Bhopal Municipal Corporation. Supreme Buildcon Private Limited's bid was accepted. Therefore, the Company was no longer the tender holder. The Respondents filed M.A. No. 475 of 2018 and M.A No. 477 of 2018 before the NGT seeking extension of time for shifting the proposed site due to opposition from the local people. Thus, the construction work of the slaughterhouse could not start. The NGT vide its order dated July 18, 2019 dismissed the M.A. No. 477 of 2018 and inter alia directed recovery of ₹ 45,70,000 from the performance guarantee of ₹ 2,00,00,000/- (Rupees Two Crores Only) furnished by the Appellants. It was also directed that the new slaughterhouse be made operational on or before December 31, 2019 in compliance of condition viz. furnishing of performance guarantee of ₹ 5,00,00,000/- (Rupees Five Crores Only). The NGT also directed the daily penalty of ₹ 10,000 to continue till December 31, 2019. In compliance of order dated July 18, 2019, the State of Madhya Pradesh along with letter dated September 26, 2019 furnished a cheque in lieu of performance guarantee for an amount of ₹ 5,00,00,000/- (Rupees Five Crore Only) vide cheque No. 063341 dated September 26, 2019. In compliance of the order dated July 18, 2019 passed by the NGT, Bhopal Municipal Corporation also filed an affidavit of compliance detailing the circumstances which prevented the appellants starting construction of slaughterhouse. Hence, the Appellants filed the appeal dated September 28, 2019. Vide an order dated December 09, 2019, the NGT stated that it had been informed that another site had been selected for the slaughterhouse for which new tender would be invited. The Hon'ble Court had directed the Appellants to file an affidavit indicating the plan for the establishment of the slaughterhouse within four weeks. Thereafter, an order dated February 14, 2020 was passed by the Hon'ble Court stating that actual land to be allotted must be earmarked within a period of 8 weeks from February 14, 2020. The Company no longer holds the tender for construction of the slaughterhouse. This matter is pending.

FNS Agro Foods Limited

Appeal dated June 10, 2016 bearing no. CRL. L.P. No. 396 of 2016/CRLA.490/2017 filed by Mohd. Abrar (“Appellant”) against FNS Agro Foods Limited and Mohd. Salim Khatri (“Respondent”) before the Hon’ble High Court of Delhi (“the Hon’ble Court”)

A criminal appeal bearing no. 369/2016 dated June 10, 2016 was filed by the Appellant before Hon’ble High Court against the Respondent under Section 378(4) of Code of Criminal Procedure, 1973 (“Cr.P.C.”) against the judgement dated April 23, 2016 passed by the Metropolitan Magistrate, South East District, Saket Courts, New Delhi in the criminal complaint bearing no. 750/10. The Appellant had filed a complaint dated May 17, 2013 under Section 138 of the Negotiable Instruments Act, 1881 (“N.I. Act”) against the Respondent herein on the ground that the Appellant against duly received bills have supplied to the Respondent buffalo meat with effect from November 26, 2012 till December 31, 2012 and the Respondent paid Rs.3, 469,163/- (Rupees Thirty-Four Lakh Sixty-Nine Thousand One Hundred Sixty-Three Only) through RTGs on December 14, 2012 as intermittent payment. The Respondent acknowledged the total outstanding liability as on December 31, 2012 to the tune of Rs.19, 147,569/- (Rupees One Crore Ninety-One Lakh Forty-Seven Thousand Five Hundred Sixty-Nine Only). However, the Respondent sought some time for making the balance stating that their export payments are awaited and as and when those payments are cleared, it will make the payment of total amount. The Respondent in order to discharge its liability of Rs.1,91,47,569/-, paid an amount of Rs.30 Lakhs through RTGS on January 23, 2013 and ₹ 30 Lakhs through RTGs on February 04, 2013 and Rs.15 Lakhs on February 27, 2013 through RTGS. On the same day i.e., February 27, 2013, the Respondent handed over four post-dated cheques to the Appellant. Out of those four post-dated cheques three were drawn on Oriental Bank of Commerce, Nehru Place Branch bearing nos. 204248 for an amount of Rs.30 Lakhs dated April 05, 2013, 204249 for an amount of Rs.20 Lakhs dated April 05, 2013 and 204250 for an amount of Rs.20 Lakhs dated April 08, 2013. The Respondent had issued one cheque in order to discharge their liability drawn on Oriental Bank of Commerce, Kalu Sarai Branch bearing no.117426 for an amount of Rs.3, 081,369/- dated April 08, 2013. While issuing the aforesaid cheques, the Respondent assured to pay rest of the amount through RTGs however, the aforesaid cheques when presented for encashment as per the instructions of the Respondent were returned back unpaid being dishonored on account of payment being stopped by the drawer. The legal notice was sent separately in respect of cheques bearing no.117426 and 20250 for an amount of Rs.30,81,369/- and Rs.20 Lakhs dated April 08, 2013 and in respect of other two cheques bearing no. 204248 and 204249 dated April 05, 2013 a separate notice was issued. The Appellant has also filed a separate complaint under section 138 of the N.I. Act in respect of the cheques bearing no. 204248 and 204249 dated April 05, 2013. The Respondent replied to the legal notice vide its reply dated May 10, 2013. The complaint filed in respect of the other two cheques bearing no. 204248 and 204249 dated April 05, 2013 were also tried together vide bearing no. 749/13 before the Learned Metropolitan Magistrate and the evidences recorded in both the complaints are same. The Learned Metropolitan Magistrate acquitted the Respondent in the complaint case no. 750/13. The Appellant is under the belief that the Learned Trial Court had committed material irregularity while acquitting the Respondent in the instant case on the basis of same evidences, appreciation of which led the Learned Metropolitan Magistrate to convict the accused another case filed simultaneously, however, in respect of different cheques. Consequently, the appeal was filed praying before the Hon’ble Court to set aside the impugned judgment dated April 23, 2016 passed by the Learned Metropolitan Magistrate, Saket Courts, New Delhi in a Criminal Complaint case bearing no. 750/10 filed by the Appellant against the Respondent under Section 138 of the NI Act and to convict or punish the Respondent. Order dated February 23, 2018 has been passed by the Hon’ble Court stating that bail bond and surety have been furnished and to list this appeal in ‘Regular Matters’. Vide an Order dated September 03, 2021 passed by the Metropolitan Magistrate. This matter is currently pending.

Suit bearing no. CS/1124/2020 filed by (1) Tayyub Hussain, (2) Sohrab, (3) Ousaf and (4) Sirajuddin (“Plaintiffs”) against United Farm Products Private Limited (“Defendant”) before the Civil Judge (Senior Division), F.P. Jhirka, Haryana

The Defendant had filed an application under Section 7 of Punjab Village Common Lands (Regulation) Act, 1962 against Mr. Sultan, the grandfather of the Plaintiffs, seeking an order for eviction in the court of Assistant Collector 1st Grade, Ferozepur, Jhirka against the Plaintiffs from the land bearing Khasra no. 14(10-9) measuring 10 Bigha 9 Biswa situated within the revenue estate of Village Ghata Shamsabad, Tehsil Ferozepur Jhirka, District Mewat (“disputed land”) claiming that the ownership of the disputed land vested in the Defendant and Mr. Sultan had possessed it in unauthorized manner and was liable to be evicted from the same. The said application was decided by the Court of Assistant Collector 1st Grade, Ferozepur dismissing the claim of the Defendant. Thereafter, Plaintiffs came to know that the name of the Defendant is reflecting as the owner in the revenue record, i.e., Jamabandi. The Plaintiffs have also claimed that the Defendant had threatened him to dispossess the Plaintiffs and had raised construction over the disputed land. Thereafter, a suit for mandatory injunction and possession with permanent injunction dated August 14, 2020 was filed by the Plaintiffs against the Defendant before the Court of Addl. Civil Judge (Senior Division), Ferozepur Jhirka, Mewat. The Defendant submitted a written statement denying the claims of the Plaintiffs and further stated that the Defendant’s land is adjacent to the disputed land and Defendant had raised the boundary wall of the land after purchasing it and getting it demarcated and the Plaintiffs were satisfied with the demarcation report and prayed before the court of Addl. Civil Judge (Senior Division), Ferozepur Jhirka to dismiss the aforementioned application. An Order dated October 13, 2021 was passed by the Civil Judge (Junior Division), F.P. Jhirka, Haryana stating that the matter was fixed for argument on the application under Order 39 Rule 1 and 2 of the Code of Civil Procedure, 1908 (“CPC”) with adjournment sought and thereafter allowed. The matter was listed for hearing on December 02, 2021 for arguments on application under Order 39 Rule 1 and 2 of the CPC. Subsequently, on December 02, 2021 both the parties agreed for the Court to pass an interim order to maintain status quo till disposal of the suit. The Court advised the parties to adopt any one of the alternate dispute resolution mechanisms under Section 89 of the CPC. But none of the parties want to avail the same. This matter is currently pending.

1. Litigation Involving Criminal Matters

FNS Agro Foods Limited

Criminal Appeal bearing registration no. 204229/2016 dated May 24, 2016 filed by the FNS Agro Foods Limited and Mohd. Salim Khatri (“Appellants”) before the District and Sessions Judge, South East, Saket Courts Complex, New Delhi (“the Hon’ble Court”) against Mohd. Abrar (“Respondent”).

A criminal appeal was filed by the FNS Agro Foods Limited and Mohd. Salim Khatri before the District and Sessions Judge, South East, Saket Courts Complex, New Delhi against Mohd. Abrar under Section 374(3) of Code of Criminal Procedure, 1973 (“Cr.P.C.”) The Respondent used to supply buffalo meats to the Appellants and to discharge liability for the quantity of the meat supplied to them, the Appellants had issued four PDCS i.e., cheque no. 204249 dated April 05, 2013 of ₹ 20 Lakhs and cheque no. 204248 dated April 05, 2013 of ₹ 30 Lakhs, cheque no. 117426 of ₹ 3,081,369/- dated April 08, 2013 and cheque no. 204250 dated April 08, 2013 of ₹ 20 Lakhs drawn on Oriental Bank of Commerce. The Respondent had filed two

criminal complaints under section 138 of the Negotiable Instruments (“N.I. Act”) against the appellants, registered as case no. 749/1/2013 wherein one of the Appellant was convicted and sentenced and 750/1/2013, wherein the appellant was acquitted. Both of the complaints registered before the Learned Trial Court had originated from the allegations which were common and from the same transaction in which the four numbers of cheques were dishonored due to the reasons of stop payments by the bankers of the appellants. Thereafter, two separate legal demand notices were issued by Respondent for the Appellants dated April 25, 2013 in respect of the four cheques and subsequently, the four numbers of cheques were bifurcated in two parts. On August 30, 2014, the Learned Trial Court framed notices under Section 251 Cr.P.C. in both the complaint cases. Vide an Order dated April 23, 2016, the Learned Trial Court pronounced to acquit the Appellants in Criminal 750/1/2013 and to convict the Appellants in 749/1/2013 as mentioned above. The entire liability in both the cases was for per the sum of ₹ 1,91,47,569/- out of which the appellants made a total payment of ₹ 1,09,69,163/- to the Respondent, so the total liability of the Appellant was for a sum of ₹ 81,78,406/-. The Appellants had filed this appeal on the ground that the Learned Trial Court did not bifurcate the liability of the Appellants in proportion of the amounts and sought from the Hon’ble court to summon the trial court record pertaining CC No. 749/1/2013 & 750/1/2013 in case titled as Mohd. Abrar vs. FNS Agro Food Limited & Anr. And to set aside the orders dated April 23, 2016 and April 27, 2016. The Appellants had further filed another application dated January 01, 2018 in the Hon’ble Court stating that the Learned Trial Court did not have the jurisdiction to try the aforementioned matter as the Respondent’s bank in which the cheque was presented was in the jurisdiction of Karkardooma Court. An Order dated November 01, 2021 was passed by the Additional Sessions Judge-04, Saket Court, New Delhi stating that the matter is pending for arguments and the next date of hearing is November 30, 2021 before the 9- Special Judge (NDPS). An Order dated November 30, 2021 was passed by the ASJ-04, Spl. Judge (NDPS) South East District, Saket Court, New Delhi stating that the matter was earlier sent for mediation but it remained un-settled and the matter was next listed for January 13, 2022. The matter is next listed for March 05, 2022. This matter is pending.

LITIGATIONS INVOLVING PROMOTERS AND DIRECTORS

A. LITIGATION FILED AGAINST OUR PROMOTERS AND DIRECTORS

1. Litigation Involving Criminal Matters

Criminal Case No. 994 of 2012 filed by State of Uttar Pradesh against Zulfiqar Ahmad Bhutto before the Hon'ble High Court of Allahabad.

A Criminal Miscellaneous Application No. 6497 of 2013 dated April, 2013 was filed by Zulfiqar Ahmad Bhutto ("the Applicant") against (1) State of Uttar Pradesh ("the State") and (2) Constable 3356- Amar Nath, Police Station Mantola, District Agra ("the Opposite Party No. 2/ First Informant") before the Hon'ble High Court of Allahabad ("the Hon'ble High Court") praying for quashing of the Criminal Case No. 994 of 2012 under Section 188, 171-H of the Code and Section 126 of Lok Pratinidhitvya Adhiniyam, 1951, including the cognizance Order dated May 29, 2012 and summoning Order dated October 11, 2012 passed by the Learned VIII Additional Chief Judicial Magistrate, Agra therein and sought a stay on the further proceedings in the aforementioned matter. The Opposite Party No. 2 had lodged a First Information Report registered as Crime No. 30 of 2012 against the Applicant and 30-40 other persons under Section 188, 171-H of Indian Penal Code, 1860 ("the Code") and Section 126 of Lok Pratinidhitvya Adhiniyam, 1951 at Police Station Mantola, District Agra stating that the Applicant at that time was contesting the Election of Assembly and was holding a procession with 30-40 persons, when the Opposite Party No. 2 and other police personnels reached the procession while on patrolling duty and questioned the Applicant on whether he possessed a pass of such procession, to which a negative response was given and when the Police Force reached the premise after obtaining the information, the procession had dispersed. Statements of the First Informant and witness, Constable Dalbeer Singh were recorded on January 25, 2012 under section 161 of Code of Criminal Procedure, 1973 ("Criminal Code"). In the meantime, a FIR dated February 25, 2012 was lodged against the Applicant as Crime No. 36 of 2012 under Section 188, 171-H of the Code and Section 126 of Lok Pratinidhitvya Adhiniyam, 1951 in Police Station Nyayee Ki Mandi, Agra stating that the Applicant had violated the election code. After the conclusion of the investigation, the Police submitted the charge sheet on February 29, 2012 on which the cognizance was taken against the applicant on June 04, 2012/ September 06, 2012 which was challenged by the Applicant by the means of Criminal Miscellaneous Application No. 34193 of 2012 before the Hon'ble High Court. The Applicant alleged that the charge sheet submitted by the Investigating Officer against the applicant was submitted based on the abovementioned statements dated February 21, 2012 without conducting fair investigation and without collecting any evidence. On the basis of the charge sheet, the Learned VIII Additional Chief Judicial Magistrate, Agra took cognizance under Section 190(1) (b) of the Criminal Code on May 29, 2012 and issued the process of summons under the process under Section 204 of the Criminal Code on October 11, 2012. Consequently, the Applicant filed the above Criminal Miscellaneous Application No. 6497 of 2013 inter-alia praying for quashing of the Criminal Case No. 994 of 2012 under Section 188, 171-H of the Code and Section 126 of Lok Pratinidhitvya Adhiniyam, 1951, including the cognizance Order dated May 29, 2012 and summoning Order dated October 11, 2012 passed by the Learned VIII Additional Chief Judicial Magistrate, Agra therein and sought a stay on the further proceedings in the aforementioned matter. Thereafter, the Hon'ble High Court passed an interim Order dated October 17, 2012 in favour of the Applicant stating that till the next date, any further proceedings in Criminal Case No. 611 of 2012 should remain stayed. A counter-affidavit was filed by the Sub-Inspector at Police Station Mantola, Agra, praying that the stay Order dated March 01, 2013 be vacated. The Criminal Miscellaneous Application bearing no. 6497 of 2013 filed by the Applicant is still pending before the Hon'ble High Court.

Redressal of Investor Grievances

The agreement between the Registrar to the Issue, our Company provides for retention of records with the Registrar to the Offer for a period of at least eight years from the date of listing and commencement of trading of the Equity Shares to enable the investors to approach the Registrar to the Offer for redressal of their grievances.

In terms of SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2018/22 dated February 15, 2018, SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and subject to applicable law, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days. Further, the investors shall be compensated by the SCSBs in accordance with SEBI circular SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 in the events of delayed unblock for cancelled/withdrawn/deleted bids, blocking of multiple amounts for the same UPI bid, blocking of more amount than the bid amount, delayed unblocking of amounts for non-allotted/partially-allotted bids for the stipulated period. In an event there is a delay in redressal of the investor grievance in relation to unblocking of amounts, the Book Running Lead Manager shall compensate the investors at the rate higher of ₹ 100 or 15% per annum of the bid amount for the period of such delay.

All grievances in relation to the Bidding process may be addressed to the Registrar to the Offer with a copy to the relevant Designated Intermediary to whom the Bid cum Application Form was submitted. The Bidder should give full details such as name of the sole or First Bidder, bid cum Application Form number, Bidder DP ID, PAN, Client ID, UPI ID (in case of RIBs using the UPI Mechanism), date of the submission of Bid cum Application Form, address of the Bidder, number of the Equity Shares applied for and the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the Bidder.

Further, the Bidder shall also enclose a copy of the Acknowledgment Slip duly received from the concerned Designated Intermediary in addition to the information mentioned herein above.

The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders. Our Company, the BRLM and the Registrar to the Offer accept no responsibility for errors, omissions, commission or any acts of SCSBs including any defaults in complying with their obligations under applicable SEBI ICDR Regulations. Investors can contact the Compliance Officer or the Registrar to the Offer in case of any pre-Offer or post-Offer related problems such as non-receipt of letters of Allotment, non-credit of allotted Equity Shares in the respective beneficiary account, non-receipt of refund intimations and non-receipt of funds by electronic mode.

Anchor Investors are required to address all grievances in relation to the Offer to the Book Running Lead Manager.

Our Company has also appointed Nikhil Sundrani, Company Secretary and Compliance Officer of our Company. For details, see “*General Information*” beginning on page no. 66 of this Red Herring Prospectus.

Our Company has also constituted a Stakeholders’ Relationship Committee to review and redress the shareholders and investor grievances such as transfer of Equity Shares, non-recovery of balance payments, declared dividends, approve subdivision, consolidation, transfer and issue of duplicate shares.

The Company has obtained authentication on the SCORES and complied with the SEBI circular no. CIR/OIAE/1/2013 dated April 17, 2013 in relation to redressal of investor grievances through SCORES.

Our Company has not received any investor complaint during the three years preceding the date of this Red Herring Prospectus.

Further, no investor complaint in relation to our Company is pending as on the date of this Red Herring Prospectus.

Our Group Companies and our Subsidiaries are not listed on any stock exchange.

Disposal of investor grievances by our Company

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be 10 Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Exemption from complying with any provisions of securities laws, if any, granted by SEBI

Our Company has not applied to SEBI for any exemption from complying with any provisions of the securities laws since incorporation.

Other confirmations

Any person connected with the Offer shall not offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any person for making an application in the initial public offer, except for fees or commission for services rendered in relation to the Offer.

Expenses for the Offer shall be shared amongst our Company and the Selling Shareholders in the manner specified in “*Objects of the Offer - Offer Expenses*” on page 85.

Compliance with disclosure and accounting norms

Our Company shall comply with all applicable disclosure and accounting norms as specified by SEBI from time to time

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and our Articles of Association, our Shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy and e-voting, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability of the Equity Shares, subject to applicable laws, including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the terms of the SEBI Listing Regulations, and our Memorandum of Association and Articles of Association.

For a detailed description of the main provisions of the Articles of Association of our Company relating to voting rights, dividend, forfeiture and lien, transfer, transmission and/or consolidation or splitting, see “*Main Provisions of Articles of Association*” beginning on page no. 361 of this Red Herring Prospectus.

Allotment of Equity Shares in dematerialised form

Pursuant to Section 29 of the Companies Act, 2013 and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialised form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- 1) Tripartite agreement dated October 23, 2021 between our Company, NSDL and the Registrar to the Offer.
- 2) Tripartite agreement dated October 20, 2021 between our Company, CDSL and the Registrar to the Offer.

Market Lot and Trading Lot

Further, trading of our Equity Shares shall only be in dematerialized form, consequent to which, the tradable lot is one Equity Share. Allotment of Equity Shares will be only in electronic form in multiples of [●] Equity Shares, subject to a minimum Allotment of [●] Equity Shares. For the method of Basis of Allotment, see “*Offer Procedure*” on page no. 339 of this Red Herring Prospectus.

Joint Holders

Subject to the provisions contained in the Articles of Association, where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

Jurisdiction

The courts of Mumbai, India will have exclusive jurisdiction in relation to this Offer.

Nomination facility to investors

In accordance with Section 72 of the Companies Act read with Companies (Share Capital and Debentures) Rules, 2014, as amended, the sole Bidder, or the first Bidder along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale, transfer or alienation of Equity Share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or to the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 shall upon the production of such evidence as may be required by the Board, elect either:

- (a) to register himself or herself as the holder of the Equity Shares; or
- (b) to make such transfer of the Equity Shares, as the deceased holder could have made

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized mode, there shall be no need to make a separate nomination with our Company. Nominations registered with respective Depository Participant of the Bidder would prevail. If the Bidder wants to change the nomination, they are requested to inform their respective Depository Participant.

Our Company shall comply with such disclosure and accounting norms as may be specified by SEBI from time to time.

Withdrawal of the Issue

Our Company and the Selling Shareholders, in consultation with the Book Running Lead Manager, reserve the right not to proceed with the Fresh Issue, and the Selling Shareholders reserves the right to not proceed with the Offer for Sale, in whole or in part thereof, to the extent of the Offered Shares after the Bid/Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements were published, within two days of the Bid/Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer. The Book Running Lead Manager through the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank, in case of RIBs using the UPI Mechanism, to unblock the bank accounts of the ASBA Bidders (other than Anchor Investors) shall notify the Escrow Collection Banks to release the Bid Amounts to the Anchor Investors, within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is filed with the RoC. If our Company and the Selling Shareholders, in consultation with the Book Running Lead Manager, withdraws the Offer after the Bid/Offer Closing Date and thereafter determines that it will proceed with an issue of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with SEBI and the Stock Exchanges.

For the avoidance of doubt, the provisions of the SEBI circular dated March 16, 2021, as amended pursuant to SEBI circular dated June 2, 2021 shall be deemed to be incorporated in the agreements to be entered into by and between the Company and the relevant intermediaries, to the extent applicable.*

The above time-table is indicative in nature and does not constitute any obligation or liability on our Company, the Selling Shareholders or BRLM. While our Company and the Selling Shareholders will use best efforts to ensure that all steps for the completion of the necessary formalities for the listing and trading of the Equity Shares on the Stock Exchanges commences within six Working Days of the Bid/Offer Closing Date or such other period as may be prescribed by SEBI, the timetable may be subject to change for various reasons, including extension of Bid/Offer Period by our Company and the Selling Shareholders, due to revision of the Price Band, any delays in receipt of final listing and trading approvals from the Stock Exchanges, delay in receipt of final certificates from SCSBs, etc. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges in accordance with applicable law. The Selling Shareholders confirm that he will extend complete co-operation required by our Company and the BRLM for the completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within six Working Days from the Bid/Offer Closing Date, or within such other period as may be prescribed.

SEBI is in the process of streamlining and reducing the post Offer timeline for IPOs. Any circulars or notifications from SEBI after the date of this Red Herring Prospectus may result in change of the above - mentioned timelines. Further, the Offer procedure is subject to change to any revised SEBI circulars to this effect.

Except in relation to the Bids received from the Anchor Investors, Bids and any revision in Bids will be accepted **only between 10.00 a.m. and 5.00 p.m.** (Indian Standard Time (“IST”) during the Bid/Offer Period at the Bidding Centers, except that on the Bid/Offer Closing Date (which for QIBs may be a day prior to the Bid/Offer Closing Date of non-QIBs), Bids will be accepted only between 10.00 a.m. and 3.00 p.m. (Indian Standard Time) and uploaded until (i) 4.00 p.m. (Indian Standard Time) for Bids by QIBs and Non-Institutional Investors; and (ii) 5.00 p.m. or such extended time as permitted by the Stock Exchanges (Indian Standard Time) in case of Bids by Retail Individual Bidders. On the Bid/Offer Closing Date, extension of time may be granted by the Stock Exchanges only for uploading Bids received from Retail Individual Bidders, after taking into account the total number of Bids received up to closure of timings for acceptance of Bid cum Application Forms as stated herein and reported by the BRLM to the Stock Exchanges.

The Registrar to the Offer shall submit the details of cancelled/withdrawn/deleted bids to the SCSB’s on daily basis within 60 minutes of the Bid closure time from the Bid/ Offer Opening Date till the Bid/Offer Closing Date by obtaining the same from the Stock Exchanges. The SCSB’s shall unblock such bids by the closing hours of the Working Day

Due to limitation of time available for uploading Bids on the Bid/Offer Closing Date, Bidders are advised to submit Bids one day prior to the Bid/Offer Closing Date and, in any case, no later than 1.00 p.m. (Indian Standard Time) on the Bid/Offer Closing Date. Bidders are cautioned that if a large number of Bids are received on the Bid/Offer Closing Date, as is typically experienced in public issues, which may lead to some Bids not being uploaded due to lack of sufficient time to upload, such Bids that cannot be uploaded on the electronic bidding system will not be considered for allocation in the Offer. It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by the SCSBs would be rejected. Our Company, Selling Shareholders and the members of Syndicate will not be responsible for any failure in (i) uploading Bids due to faults in any hardware/software system or otherwise; (ii) the blocking of Bid Amount in the ASBA Account on receipt of instructions from the Sponsor Bank on account of any errors, omissions or non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in, or otherwise, in the UPI Mechanism. Bids will be accepted only on Working Days. Investors may please note that as per letters dated July 3, 2006 and July 6, 2006, issued by the BSE and NSE respectively, Bids and any revisions in Bids shall not be accepted on Saturdays and public holidays as declared by the Stock Exchanges.

Our Company and the Selling Shareholders, in consultation with the BRLM, reserve the right to revise the Price Band during the Bid/ Offer Period in accordance with the SEBI ICDR Regulations. The revision in the Price Band shall not exceed 20% on either side, i.e., the Floor Price may move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly, but the Floor Price shall not be less than the face value of the Equity Shares. In all circumstances, the Cap Price shall be at least 105% of the Floor Price and less than or equal to 120% of the Floor Price.

In case of any revision to the Price Band, the Bid/Offer Period will be extended by at least three additional Working Days following such revision of the Price Band, subject to the total Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company may, for reasons to be recorded in writing, extend the Bid / Offer Period for a minimum of three Working Days, subject to the Bid/ Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a press release, and also by indicating the change on the websites of the Book Running Lead Manager and terminals of the Syndicate Members and will also intimated to SCSBs, the Registered Brokers, RTAs, CDPs and the Sponsor Bank. However, in case of revision in the Price Band, the Bid Lot shall remain the same

In case of discrepancy in data entered in the electronic book vis-à-vis data contained in the physical Bid cum Application Form for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories (including QIBs) or a combination of categories at the discretion of our Company and the Selling Shareholders, in consultation with the BRLM and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. For further details, please see “*Terms of the Offer*” beginning on page no.328 of this Red Herring Prospectus.

OFFER PROCEDURE

All Bidders should read the 'General Information Document for Investing in Public Offers' prepared and issued in accordance with the circular SEBI/HO/CFD/DIL1/CIR/P/2020/37 dated March 17, 2020 and the UPI Circulars (the "General Information Document"), which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLM. Please refer to the relevant provisions of the General Information Document which are applicable to the Offer.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) Category of investor eligible to participate in the Issue; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) Payment Instructions for ASBA Bidders/Applicants; (v) Issuance of CAN and Allotment in the Issue; (vi) General instructions (limited to instructions for completing the Bid Form); (vii) designated date; (viii) disposal of bids; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI through its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019 and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface ("UPI") and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. ("UPI Phase I"). The UPI Phase I was effective till June 30, 2019.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2018/138) dated November 1, 2018 as amended from time to time, including pursuant to circular (SEBI/HO/CFD/DIL2/CIR/P/2019/50) dated April 3, 2019 has proposed to introduce an alternate payment mechanism using Unified Payments Interface ("UPI") and consequent reduction in timelines for listing in a phased manner. UPI has been introduced in a phased manner as a payment mechanism with the ASBA for applications by Retail Individual Investors through intermediaries from January 1, 2019. The UPI Mechanism for Retail Individual Investors applying through Designated Intermediaries, in phase I, was effective along with the prior process and existing timeline of T+6 days ("UPI Phase I"), until June 30, 2019. Subsequently, for applications by Retail Individual Investors through Designated Intermediaries, the process of physical movement of forms from Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism with existing timeline of T+6 days is applicable for a period of three months or launch of five main board public issues, whichever is later ("UPI Phase II"), with effect from July 1, 2019, by SEBI circular (SEBI/HO/CFD/DIL2/CIR/P/2019/76) dated June 28, 2019, read with circular (SEBI/HO/CFD/DIL2/CIR/P/2019/85) dated July 26, 2019. Further, as per the SEBI circular (SEBI/HO/CFD/DCR2/CIR/P/2019/133) dated November 8, 2019, the UPI Phase II had been extended until March 31, 2020. However, due to the outbreak of COVID-19 pandemic, UPI Phase II has been further extended by SEBI until further notice, by its circular (SEBI/HO/CFD/DIL2/CIR/P/2020/50) dated March 30, 2020. Thereafter, the final reduced timeline of T+3 days may be made effective using the UPI Mechanism for applications by Retail Individual Investors ("UPI Phase III"), as may be prescribed by SEBI. Accordingly, the Offer has been considered to be made under UPI Phase II, till any further notice issued by SEBI. Further, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, and circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021, has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. These circulars, to the extent already in force, are deemed to form part of this Red Herring Prospectus. Furthermore, pursuant to SEBI Circular No. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 05, 2022, all individuals' bidders in initial public offerings whose application sizes are upto ₹ 5,00,000 shall use UPI mechanism for submitting their bids with (i) a Syndicate Member; (ii) a Registered Broker at the Broker Centre; (iii) a Collecting Depository Participant; and (iv) the Registrar to the Offer

Further, SEBI vide its circular bearing reference number SEBI/HO/CFD/DIL2/P/CIR/2022/75 dated May 30, 2022, has mandated that ASBA applications in public issues shall be processed only after the application monies are blocked in the investor's bank accounts. Accordingly, Stock Exchanges shall, for all categories of investors viz. Retail, QIB, NII and other reserved categories and also for all modes through which the applications are processed, accept the ASBA applications in their electronic book building platform only with a mandatory confirmation on the application monies blocked

In case of any delay in unblocking of amounts in the ASBA Accounts (including amounts blocked through the UPI Mechanism) exceeding four Working Days from the Bid/ Offer Closing Date, the Bidder shall be compensated at a uniform rate of ₹100 per day for the entire duration of delay exceeding four Working Days from the Bid/ Offer Closing Date by the intermediary responsible for causing such delay in unblocking. The BRLM shall, in their sole discretion, identify and fix the liability on such intermediary or entity responsible for such delay in unblocking.

Our Company, the Selling Shareholders and BRLM do not accept any responsibility for the completeness and accuracy of the information stated in this section and the General Information Document and is not liable for any amendment, modification or change in the applicable law which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of Equity Shares that can be held by them under applicable law or as specified in this Red Herring Prospectus, the Red Herring Prospectus and the Prospectus.

Further, the Company, the Selling Shareholders and the Members of the Syndicate are not liable for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in this Offer.

Book Building Procedure

The Offer is being made in terms of Rule 19(2)(b) of the SCRR through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations, wherein not more than not more than 50% of the Offer shall be allocated to QIBs on a proportionate basis, provided that our Company and the Selling Shareholders, in consultation with the Book Running Lead Manager, may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations of which one-third shall be reserved for domestic Mutual Funds, subject to valid Bids being received from them at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Offer shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not less than 35% of the Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Under-subscription, if any, in any category, except the QIB Category, would be allowed to be met with spill-over from any other category or categories, as applicable, at the discretion of our Company and the Selling Shareholders in consultation with BRLM and the Designated Stock Exchange, subject to applicable laws. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialised segment of the Stock Exchanges

Bidders should note that the Equity Shares will be allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for RIB Bidders bidding using the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.

Phased implementation of Unified Payments Interface

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIBs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever is later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RIB had the option to submit the ASBA Form with any of the Designated Intermediary and use

his/ her UPI ID for the purpose of blocking of funds. The time duration from public Issue closure to listing continued to be six working days.

Phase II: This phase has become applicable from July 1, 2019. SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 had extended the timeline for implementation of UPI Phase II till March 31, 2020. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020 dated March 30, 2020 decided to continue Phase II of UPI with ASBA until further notice. Under this phase, submission of the ASBA Form by RIBs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds will be discontinued and will be replaced by the UPI Mechanism. However, the time duration from public closure to listing would continue to be six Working Days during this phase

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public Issue closure to listing is proposed to be reduced to three working days.

The Offer will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid/Offer Opening Date. If the Offer is made under UPI Phase III of the UPI Circular, the same will be advertised in all editions of the English National Daily Newspaper Business Standard, all editions of the Hindi National Daily Newspaper Business Standard and the Hindi edition of Samay Bhaskar, widely circulated Hindi Daily Newspaper (Hindi being the regional language of Agra, where our Registered Office is located) each with wide circulation, on or prior to the Bid/Offer Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their respective websites.

Pursuant to the SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 issued by SEBI, as amended by the SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 (the “UPI Streamlining Circular”); SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the UPI Streaming Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked no later than one day from the date on which the Basis of Allotment is finalized. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors’ complaints, the relevant SCSB as well as the post-Offer BRLM will be required to compensate the concerned investor.

All SCSBs offering facility of making application in public Offers shall also provide facility to make application using UPI. The Issuers will be required to appoint one of the SCSBs as a sponsor bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and / or payment instructions of the Retail Individual Bidders using the UPI Mechanism

For further details, refer to the General Information Document available on the websites of the Stock Exchanges and the BRLM.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the abridged prospectus will be available with the Designated Intermediaries at relevant Bidding Centers and at our Registered Office of our Company. An electronic copy of the Bid cum Application Forms will also be available for download on the websites of the NSE (www.nseindia.com) and the BSE (www.bseindia.com) at least one day prior to the Bid/Offer Opening Date. For Anchor Investor, the Anchor Investor Application Form will be available at the offices of the Book Running Lead Manager.

All Bidders (other than Anchor Investors) shall mandatorily participate in the Offer only through the ASBA process. RIBs are mandatorily required to use the UPI Mechanism for submitting their bids to Designated Intermediaries and are allowed to use ASBA Process by way of ASBA Forms to submit their bids directly to SCSBs. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

RIBs bidding using the UPI Mechanism must provide the UPI ID in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain the UPI ID are liable to be rejected.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with Central Board of Direct Taxes notification dated February 13, 2020 and press release dated June 25, 2021 and September 17, 2021.

ASBA Bidders (including Bidders using UPI Mechanism) must provide bank account details and authorisation to block funds in their respective ASBA Accounts in the relevant space provided in the ASBA Form and the ASBA Forms that do not contain such details are liable to be rejected or the UPI ID, as applicable, in the relevant space provided in the ASBA Form. Applications made using third party bank account or using third party linked bank account UPI ID are liable for rejection. RIBs using the UPI Mechanism may also apply through the mobile applications using the UPI handles as provided on the website of the SEBI

ASBA Bidders shall ensure that the Bids are made on ASBA Forms bearing the stamp of the Designated Intermediary, submitted at the Bidding Centres only (except in case of electronic ASBA Forms) and the ASBA Forms not bearing such specified stamp are liable to be rejected. RIBs using UPI Mechanism, may submit their ASBA Forms, including details of their UPI IDs, with the Syndicate, Sub-Syndicate members, Registered Brokers, RTAs or CDPs. RIBs authorising an SCSB to block the Bid Amount in the ASBA Account may submit their ASBA Forms with the SCSBs. ASBA Bidders must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked by the SCSB or the Sponsor Bank, as applicable, at the time of submitting the Bid

The prescribed colour of the Bid cum Application Forms for various categories is as follows:

Category	Colour of Bid cum Application Form ⁽¹⁾
Resident Indians including resident QIBs, Non-Institutional Investors, Retail Individual Bidders and Eligible NRIs applying on a non-repatriation basis	White
FPIs applying on a repatriation basis	Blue
Anchor Investors	White ⁽²⁾

⁽¹⁾ excluding electronic Bid cum Application Form

⁽²⁾ *Anchor Investor Application Forms shall be made available at the offices of the Book Running Lead Manager.*

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. For RIBs using UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds. For ASBA Forms (other than RIBs) Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID / Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of DP ID / Client ID or PAN ID, bank code and location code in the Bid details already uploaded

For RIBs using UPI mechanism, the Stock Exchanges shall share the bid details (including UPI ID) with Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to RIBs for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to RIBs, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every bid entered in the Stock Exchanges bidding platform, and the liability to compensate RIBs (using the UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e., the Sponsor Bank, NPCI or the Banker to an Issue) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Banks and the Bankers to an Offer. The Book Running Lead Manager shall also be required to obtain the audit trail from the Sponsor Banks and the Banker to the Offer for analysing the same and fixing liability. For ensuring timely information to investors, SCSBs shall send SMS alerts as specified in SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021, as amended pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the BRLM in the format and within the timelines as specified under the UPI Circulars. Sponsor Bank and Issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do three-way reconciliation with Banks UPI

Eligible NRIs bidding on a repatriation basis are advised to use the Bid cum Application Form meant for non-Residents (blue in colour).

For details of investment by NRIs, see "*Restrictions in Foreign Ownership of Indian Securities*" on page no. 359 on this Red Herring Prospectus Participation of eligible NRIs shall be subject to NDI Rules

Bids by FPIs

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of our post-Offer Equity Share capital. Further, in terms of the FEMA Non-Debt Instruments Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company and the total holdings of all FPIs put together with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e., up to 100%). In terms of the FEMA Non-Debt Instruments Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for Offer procedure, as prescribed by SEBI from time to time.

AFPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognized stock exchange in India, and/ or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Offer subject to compliance with conditions and restrictions which may be specified by the Government from time to time

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by a FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs; (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs; (iii) such offshore derivative instruments are issued after compliance with 'know your client' norms; and (iv) such other conditions as may be specified by SEBI from time to time.

In case the total holding of an FPI increases beyond 10% of the total paid-up Equity Share capital, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants issued that may be issued by our Company, the total investment made by the FPI will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, inter alia, the following conditions:

- i. each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- ii. Prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

The FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for non-residents. Further, Bids received from FPIs bearing the same PAN will be treated as multiple Bids and are liable to be rejected, except for Bids from FPIs that utilize the multiple investment manager structure in accordance with the Operational Guidelines for Foreign Portfolio Investors and Designated Depository Participants which were issued in November 2019 to facilitate implementation of SEBI (Foreign Portfolio Investors) Regulations, 2019 (such structure "MIM Structure") provided such Bids have been made with different beneficiary account numbers, Client IDs and DP IDs. Accordingly, it should be noted that multiple Bids received from FPIs, who do not utilize the MIM Structure, and bear the same PAN, are liable to be rejected. In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, were required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilize the MIM Structure

and indicate the names of their respective investment managers in such confirmation. In the absence of such confirmation from the relevant FPIs, such multiple Bids will be rejected

Participation of FPIs in the Offer shall be subject to the FEMA Rules

Bids by SEBI registered VCFs, AIFs and FVCIs

The SEBI AIF Regulations prescribe, amongst others, the investment restrictions on AIFs. Post the repeal of the SEBI VCF Regulations venture capital funds which have not re-registered as AIFs under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs

The holding by any individual VCF or FVCI registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

Category I and II AIFs cannot invest more than 25% of their investible funds in one Investee Company. A category III AIF cannot invest more than 10% of their investible funds in one Investee Company. A VCF registered as a category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking. Additionally, the VCFs which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations.

Participation of AIFs, VCFs and FVCIs shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only, and net of bank charges and commission.

Our Company, the Selling Shareholders and the BRLM will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Information for Bidders (other than Anchor Investors)

In addition to the instructions provided to Bidders in the *General Information Document for Investing in Public Offers*, Bidders are requested to note the following additional information in relation to the Offer.

1. The Offer Period shall be for a minimum of three Working Days and shall not exceed ten Working Days. The Offer Period may be extended, if required, by an additional three Working Days, subject to the total Offer Period not exceeding ten Working Days
2. The relevant Designated Intermediary will enter each Bid option into the electronic Bidding system as a separate Bid and generate an acknowledgement slip (“**Acknowledgement Slip**”), for each price and demand option and give the same to the Bidder. Therefore, a Bidder can receive up to three Acknowledgement Slips for each Bid cum Application Form. It is the Bidder’s responsibility to obtain the TRS from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/ allotted. Such Acknowledgement will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier Acknowledgement Slip and may request for a revised TRS from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.
3. In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the BRLM are cleared or approved by the Stock Exchanges; nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of the Draft Red Herring Prospectus or this Red Herring Prospectus; nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.
4. In the event of an upward revision in the Price Band, Retail Individual Bidders who had Bid at Cut-off Price could either (i) revise their Bid or (ii) shall make additional payment based on the cap of the revised Price Band (such that the total amount i.e., original Bid Amount plus additional payment does not exceed ₹ 200,000 if the Bidder wants to continue to Bid at Cut-off Price). The revised Bids must be submitted to the same Designated Intermediary to whom the original Bid was submitted. If the total amount (i.e., the original Bid Amount plus additional payment) exceeds ₹ 200,000, the Bid will be considered for allocation under the Non-Institutional Portion. If, however, the Retail Individual Bidder does not either revise the Bid or make additional payment and the Offer Price is higher than the cap of the Price Band prior to revision, the number of Equity Shares Bid for shall be adjusted downwards for the purpose of allocation, such that no additional payment would be required from the Retail Individual Bidder and the Retail Individual Bidder is deemed to have approved such revised Bid at Cut-off Price.
5. In the event of a downward revision in the Price Band, Retail Individual Bidders who have bid at Cut-off Price may revise their Bid; otherwise, the excess amount paid at the time of Bidding would be unblocked after Allotment is finalized.
6. Any revision of the Bid shall be accompanied by instructions to block the incremental amount, if any, to be paid on account of the upward revision of the Bid.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Investors are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise their Bid(s) during the Bid/ Offer Period and withdraw their Bid(s) until Bid/ Offer Closing Date. Anchor Investors cannot withdraw or lower the size of their Bids at any stage after submission of the Bid.

3. details of all un-utilised monies out of the Fresh Issue, if any, shall be disclosed under an appropriate separate head in the balance sheet of the Issuer indicating the form in which such un-utilised monies have been invested

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“DIPP”) makes policy announcements on FDI through press notes and press releases which are notified by the RBI as amendments to the FEMA. The DIPP also issues the Consolidated Foreign Direct Investment Policy (“FDI Policy”) from time to time. The regulatory framework pertaining to foreign investment, over a period of time, thus, consists of acts, regulations, master circulars, press notes, press releases, and clarifications among other amendments.

India’s current FDI Policy issued by the DIPP with effect from October 15, 2020, consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DIPP till October 15, 2020. All the press notes, press releases, clarifications on FDI issued by DIPP till October 15, 2020 stand rescinded as on October 15, 2020. In terms of the FDI Policy, Foreign investment is permitted (except in the prohibited sectors) in Indian companies either through the automatic route or the Government route, depending upon the sector in which foreign investment is sought to be made. In terms of the FDI Policy, the work of granting government approval for foreign investment under the FDI Policy and FEMA Regulations has now been entrusted to the concerned Administrative Ministries/Departments.

Further, the existing individual and aggregate investment limits for an FPI in our Company are not exceeding 10% of the total paid-up Equity Share capital of our Company for each FPI and the total holdings of all FPIs in the Company shall not exceed 24% of the total paid-up Equity Share capital of our Company. The RBI, in exercise of its power under the FEMA, has also notified Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 to prohibit, restrict or regulate, transfer by or issue security to a person resident outside India. SEBI registered FPIs have been permitted to purchase shares of an Indian company through the Offer, subject to total FPI investment being within the individual FPI/sub account investment limit of less than 10% of the total paid-up equity capital on a fully diluted basis of the Company subject to the total holdings of all FPIs/sub accounts including any other direct and indirect foreign investments in the Company shall not exceed 24% of the paid-up equity capital of the Company on a fully diluted basis. The aggregate limit of 24% in case of FPIs may be increased up to the sectoral cap/statutory ceiling, as applicable, by the Company concerned by passing of resolution by the Board of the Company to that effect and by passing of a special resolution to that effect by its Shareholders. With effect from April 1, 2020, the aggregate limit of 24% has increased to the sectoral cap applicable to the Indian Company which in case of the Company is 100%. As per the Regulations, the aggregate limit as provided above was permitted to be decreased by the Company to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors through a resolution and also of its shareholders by means of a special resolution, before March 31, 2020. The Company has passed no such Board Resolution and hence, has not revised its sectoral caps. Our Company falls within the applicable statutory ceiling limits which stand at 100% for the meat products sector under the FDI Policy. Further, eligible NRIs and OCIs investing on repatriation basis are subject to individual investment limit of 5% of the total paid-up equity capital on a fully diluted basis subject to the aggregate paid-value of the shares purchased by all NRIs and OCIs put together on repatriation basis not exceeding 10% of the total paid-up equity capital on a fully diluted basis of the Company. The aggregate limit of 10% in case of NRIs and OCIs together may be raised to 24 % if a special resolution to that effect is passed by the shareholders of the Company. As on date, no such resolution for raising the limit has been passed by the Company

The transfer of shares between an Indian resident and a Non-resident does not require prior approval of RBI, subject to fulfillment of certain conditions as specified by DIPP / RBI, from time to time. Such conditions include (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the SEBI (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI. Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of our Company.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”), or the securities laws of any state of the United States and may not be offered or sold within the United States, except pursuant to exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable state securities laws. Accordingly, the Equity Shares are being offered and sold only outside the United States in offshore transactions in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdiction where those offers and sale occur. The Equity Shares have not been and will not be registered, listed or otherwise qualified in any

other jurisdiction outside India and may not be offered or sold, and Applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

The above information is given for the benefit of the Bidders. Our Company and the BRLM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that the Bids are not in violation of laws or regulations applicable to them.

10. The Company in general meeting may decide to issue fully paid-up bonus share to the members if so, recommended by the Board of Directors.
11. The Share Certificate to the Share registered in the name of two or more person shall be delivered to first named person in the register and this shall be a sufficient delivery to all such holders.
12. Each fully paid-up share shall carry one vote.
13. Subject to the provisions of the Act, the Board shall have the power to issue or re-issue preference shares of one or more classes which are liable to be redeemed, or converted to equity shares, on such terms and conditions and in such manner as determined by the Board in accordance with the Act.

INCREASE AND REDUCTION OF CAPITAL

14. The Company in General Meeting may, from time to time, by ordinary resolution increase the share capital of the Company by the creation of new shares by such sum, to be divided into shares of such amount as may be deemed expedient.
15. Subject to any special rights or privileges for the time being attached to any shares in the capital of the Company when issued, the new shares may be issued upon such terms and conditions and with such preferential, qualified or such rights and privileges or conditions there to as general meeting resolving upon the creation thereof shall direct. If no direction be given, the Board shall determine in particular the manner

in which such shares may be issued with a preferential or qualified right to dividends and in the distribution of assets of the Company.

16. Before the issue of any new shares, the Company in General Meeting may make provisions as to the allotment and issue of the new shares and in particular may determine to whom the shares be offered in the first instance and whether at par or premium. In case no such provision is made by the Company in General Meeting, the new shares may be dealt with according to the provisions of these Articles.
- 16A. whenever the company proposes to increase its subscribed capital by the issue of further shares, such shares shall be offered either to its existing shareholders or employees under ESOP scheme or to any other person subject to the provisions of Section 62 of the Companies Act, 2013. Such existing Shareholders shall have right to renounce the shares offered to him in favour of any other person;
17. Subject to the provisions of the Companies Act 2013, the Company may, from time to time in any manner, by special resolution and subject to any consent required under the Companies Act 2013, reduce:
- (a) Its share capital,
 - (b) Any capital redemption reserve account; or
 - (c) Any share premium account
18. Subject to provisions of the Companies Act 2013, the Board may accept from any member, to surrender, on such terms and conditions as shall be agreed, of all or any of his shares.

ALTERATION OF SHARE CAPITAL

19. The Company, by ordinary resolution may, from time to time:
- a) Consolidate and divide all or any of its share capital into shares of larger amount than its existing shares.
 - b) sub-divide its share or any of them into shares of smaller amount than is fixed by the Memorandum of Association so, however, that in the subdivision the proportion between the amount paid and the amount, if any, unpaid on each reduced share shall be the same as it was in the case of the share from which the reduced share is derived.
 - c) Cancel any shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of its share capital by the amount of share so cancelled. Where any share capital is sub-divided, the Company in General Meeting, subject to the Sections 43, 47 and other provisions of the Companies Act, 2013, may determine that as between the holders of the shares resulting from sub-division, one or more of such shares shall have same preferential or special rights as regards dividend, payment of capital, voting or otherwise.

LIEN

20. Subject to the provisions of Companies Act, 2013 the Company shall have a first and paramount lien upon all the shares (not being a fully paid up share) for all monies (presently payable) registered in the name of such member (whether solely or jointly with others) and upon the proceeds of sale thereof for his debts, liabilities and engagements (whether presently payable or not) solely or jointly with any other person, to or with the Company, whether the period for the payment, fulfillment or discharge thereof shall have actually lien or not and such lien shall extend to all dividends, from time to time, declared in respect of shares, subject to section 123 of the Companies Act 2013. The Board of Directors may at any time declare any shares to be wholly or in part exempt from the provisions of this clause.

CALLS ON SHARES AND TRANSFER OF SHARES

21. The Directors are empowered to make call on members of any amount payable at a time fixed by them. However, the Company may accept from any member, the whole or a part of the amount remaining unpaid on any shares held by him, even if no part of that amount has been called up.
22. (I) The Company shall use a Common form of transfer. The instrument of transfer of any share in the company shall be executed by or on behalf of both the transferor and transferee.

-
- (ii) The transferor shall be deemed to remain a holder of the share until the name of the transferee is entered in the register of members in respect thereof. No transfer of shares shall be made or registered without the previous sanction of the Directors, except when the transfer is made by any member of the Company to another member or to a member's wife or child or children or his heirs. The Directors may decline to sanction the transfer subject to Section 58 of the Companies Act, 2013.
23. The Board may decline to recognise any instrument of transfer unless—
- (a) The instrument of transfer is in the form as prescribed in rules made under sub-section (1) of section 56;
 - (b) the instrument of transfer is accompanied by the certificate of the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer; and
 - (c) The instrument of transfer is in respect of only one class of shares.
24. On giving not less than seven days' previous notice in accordance with section 91 and rules made there under, the registration of transfers may be suspended at such times and for such periods as the Board may from time to time determine:
25. Provided that such registration shall not be suspended for more than thirty days at any one time or for more than forty-five days in the aggregate in any year.
26. Subject to the provisions of Section 59 of Companies Act, 2013, the Board may decline to register any transfer of Shares on such grounds as it think fit in the benefit of the company (notwithstanding that the proposed transferee be already a Member), but in such case it shall, within two (2) months from the date the instrument of transfer was lodged with the Company, send to the transferee and the transferor notice of the refusal to register such transfer giving reasons for such refusal. Provided that registration of a transfer shall not be refused on the ground of the transferor being either alone or jointly with any other person or persons indebted to the Company on any account whatsoever.

TRANSMISSION OF SHARES

27. (i) On the death of a member, the survivor or survivors where the member was a joint holder, and his nominee or nominees or legal representatives where he was a sole holder, shall be the only persons recognised by the company as having any title to his interest in the shares.
- (ii) Nothing in clause (i) shall release the estate of a deceased joint holder from any liability in respect of any share which had been jointly held by him with other persons.³⁰ The notice aforesaid shall—
- (a) Name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
 - (b) State that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.
28. (i) Any person becoming entitled to a share in consequence of the death or insolvency of a member may, upon such evidence being produced as may from time to time properly be required by the Board and subject as hereinafter provided, elect, either—
- (a) To be registered himself as holder of the share; or
 - (b) To make such transfer of the share as the deceased or insolvent member could have made.
- (ii) The Board shall, in either case, have the same right to decline or suspend registration as it would have had, if the deceased or insolvent member had transferred the share before his death or insolvency.
29. (i) If the person so becoming entitled shall elect to be registered as holder of the share himself, he shall deliver or send to the company a notice in writing signed by him stating that he so elects.

(ii) If the person aforesaid shall elect to transfer the share, he shall testify his election by executing a transfer of the share.

(iii) All the limitations, restrictions and provisions of these regulations relating to the right to transfer and the registration of transfers of shares shall be applicable to any such notice or transfer as aforesaid as if the death or insolvency of the member had not occurred and the notice or transfer were a transfer signed by that member.

30. A person becoming entitled to a share by reason of the death or insolvency of the holder shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the share, except that he shall not, before being registered as a member in respect of the share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the company:

Provided that the Board may, at any time, give notice requiring any such person to elect either to be registered himself or to transfer the share, and if the notice is not complied with within ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the share, until the requirements of the notice have been complied with.

FORFEITURE OF SHARES

31. If a member fails to pay any call, or installment of a call, on the day appointed for payment thereof, the Board may, at any time thereafter during such time as any part of the call or installment remains unpaid, serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.

32. The notice aforesaid shall—

- (a) Name a further day (not being earlier than the expiry of fourteen days from the date of service of the notice) on or before which the payment required by the notice is to be made; and
- (b) State that, in the event of non-payment on or before the day so named, the shares in respect of which the call was made shall be liable to be forfeited.

33. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which the notice has been given may, at any time thereafter, before the payment required by the notice has been made, be forfeited by a resolution of the Board to that effect.

34. (i) A forfeited share may be sold or otherwise disposed of on such terms and in such manner as the Board thinks fit.

- (ii) At any time before a sale or disposal as aforesaid, the Board may cancel the forfeiture on such terms as it thinks fit.

35. (i) A person whose shares have been forfeited shall cease to be a member in respect of the forfeited shares, but shall, notwithstanding the forfeiture, remain liable to pay to the company all monies which, at the date of forfeiture, were presently payable by him to the company in respect of the shares.

- (ii) The liability of such person shall cease if and when the company shall have received payment in full of all such monies in respect of the shares.

36. (i) A duly verified declaration in writing that the declarant is a director, the manager or the secretary, of the company, and that a share in the company has been duly forfeited on a date stated in the declaration, shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share;

- (ii) The company may receive the consideration, if any, given for the share on any sale or disposal thereof and may execute a transfer of the share in favour of the person to whom the share is sold or disposed of;

- (iii) The transferee shall thereupon be registered as the holder of the share; and

-
- (iv) The transferee shall not be bound to see to the application of the purchase money, if any, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the share.

37. The provisions of these regulations as to forfeiture shall apply in the case of nonpayment of any sum which, by the terms of issue of a share, becomes payable at a fixed time, whether on account of the nominal value of the share or by way of premium, as if the same had been payable by virtue of a call duly made and notified.

CAPITALISATION OF PROFITS

- 37A. (i) The company upon the recommendation of the Board, resolve—
- (a) that it is desirable to capitalise any part of the amount for the time being standing to the credit of any of the company's reserve accounts, or to the credit of the profit and loss account, or otherwise available for distribution; and
- (b) that such sum be accordingly set free for distribution in the manner specified in clause (ii) amongst the members who would have been entitled thereto, if distributed by way of dividend and in the same proportions.
- (ii) The sum aforesaid shall not be paid in cash but shall be applied, subject to the provision contained in clause (iii), either in or towards—
- (A) paying up any amounts for the time being unpaid on any shares held by such members respectively;
- (B) paying up in full, unissued shares of the company to be allotted and distributed, credited as fully paid-up, to and amongst such members in the proportions aforesaid;
- (C) partly in the way specified in sub-clause (A) and partly in that specified in sub-clause (B);
- (D) A securities premium account and a capital redemption reserve account may, for the purposes of this regulation, be applied in the paying up of unissued shares to be issued to members of the company as fully paid bonus shares;
- (E) The Board shall give effect to the resolution passed by the company in pursuance of this regulation.

A provision of the Act or these regulations requiring or authorising a thing to be done by or to a director and chief executive officer, manager, company secretary or chief financial officer shall not be satisfied by its being done by or to the same person acting both as director and as, or in place of, chief executive officer, manager, company secretary or chief financial officer.

MANAGING DIRECTOR

81. The business of the Company may be carried on by the Managing Director(s) who may be appointed by the Board of Directors / members in their General Meeting, from time to time who shall fix the terms, qualifications, remuneration, duties, authorities and powers. The Board may from time to time and subject to the provisions of the Act delegate to the Managing Director(s) such of their powers and duties and subject to such limitations and conditions as they may deem fit. The Board may from time to time, revoke, withdraw, alter or vary all or any of the powers conferred on him or dismiss him from office and appoint another in his place.
82. Subject to the provisions of section 179 and 180 of the Companies Act, 2013, the Managing Director of the Company, if any, shall be empowered to carry on the day to day business affairs of the Company. He shall have the general control, management and superintendence of the business of the Company with power to appoint and to dismiss employees and to enter into contracts on behalf of the Company in the ordinary course of business and to do and perform all other acts, deeds and things which in the ordinary course of business may be considered necessary/proper or in the interest of the Company.
83. Any debenture, bonds, or other securities may be issued at premium or otherwise and with special privileges as to redemption, surrender, drawing and allotment of shares of the Company and otherwise.

DIVIDENDS AND RESERVE

84. The company in general meeting may declare dividends, but no dividend shall exceed the amount recommended by the Board.
85. Subject to the provisions of section 123, the Board may from time to time pay to the members such interim dividends as appear to it to be justified by the profits of the company.
86. (i) The Board may, before recommending any dividend, set aside out of the profits of the company such sums as it thinks fit as a reserve or reserves which shall, at the discretion of the Board, be applicable for any purpose

to which the profits of the company may be properly applied, including provision for meeting contingencies or for equalizing dividends; and pending such application, may, at the like discretion, either be employed in the business of the company or be invested in such investments (other than shares of the company) as the Board may, from time to time, think fit.

(ii) The Board may also carry forward any profits which it may consider necessary not to divide, without setting them aside as a reserve.

87. (i) Subject to the rights of persons, if any, entitled to shares with special rights as to dividends, all dividends shall be declared and paid according to the amounts paid or credited as paid on the shares in respect whereof the dividend is paid, but if and so long as nothing is paid upon any of the shares in the company, dividends may be declared and paid according to the amounts of the shares.

(ii) No amount paid or credited as paid on a share in advance of calls shall be treated for the purposes of this regulation as paid on the share.

(iii) All dividends shall be apportioned and paid proportionately to the amounts paid or credited as paid on the shares during any portion or portions of the period in respect of which the dividend is paid; but if any share is issued on terms providing that it shall rank for dividend as from a particular date such share shall rank for dividend accordingly.

88. The Board may deduct from any dividend payable to any member all sums of money, if any, presently payable by him to the company on account of calls or otherwise in relation to the shares of the company.

89. (i) Any dividend, interest or other monies payable in cash in respect of shares may be paid by cheque or warrant sent through the post directed to the registered address of the holder or, in the case of joint holders, to the registered address of that one of the joint holders who is first named on the register of members, or to such person and to such address as the holder or joint holders may in writing direct.

(ii) Every such cheque or warrant shall be made payable to the order of the person to whom it is sent

90. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.

91. Any one of two or more joint holders of a share may give effective receipts for any dividends, bonuses or other monies payable in respect of such share.

92. Notice of any dividend that may have been declared shall be given to the persons entitled to share therein in the manner mentioned in the Act.

93. No dividend shall bear interest against the company.

94. No unclaimed Dividend shall be forfeited before the claim becomes barred by law, and unclaimed Dividends shall be dealt with in accordance with the applicable provisions of the Act

BORROWING POWERS

95. Subject to section 73-76A and 179 of the Companies Act 2013, and Regulations made thereunder and Directions issued by the RBI the directors may, from time to time, raise or borrow any sums of money for and on behalf of the Company from the member companies or banks or they may themselves advance money to the company on such interest or no interest as may be approved by the Directors, without security or on security.

96. The Directors may, from time to time, secure the payment of such money in such manner and upon such terms and conditions in all respects as they deem fit and in particular by the issue of bonds or debentures or by pledge, mortgage, charge or any other security on all or any properties of the Company (both present and future) including its uncalled capital for the time being.
