Oxford Chest

Mid-Century and French design elements combine on the Oxford Chest. The breakfront was designed to resemble the pleats on "Oxford Bags," a style of men's dress pants originally designed in 1924. The Oxford is made of Oak solids and veneers and features four drawers. Available in Oak finishes only. Dark Pewter hardware is standard. Alternate hardware options are available.

Wood Species: Oak

Dimensions

Width: 50" (127 cm)
