

Exact Path Proficiency West Virginia Programs

Exact Path Proficiency delivers West Virginia-standards-aligned formative assessments and practice in core subjects across grades 3-12 to drive standards mastery and test readiness. It's pre-built, short-cycle formative assessments effectively monitor standards progress, while teacher-guided practice accelerates grade-level readiness. District-to-classroom reporting empowers educators to track proficiency systemwide and ensure test success for every student.

Grade	Available Programs
3	Science
