38-075

## Empire Armchair

### Kindel Classics

The simplistic lines of this chair can be traced to the finest shops of Paris during the turn of the 19th Century. A slender baluster splat seamlessly joins the curved top rail. The graceful side rails turn to flow and align with the seat. Grecian saber, front legs support the chair frame making this a truly timeless design. Spring seat construction.

**Wood Species:** Cherry

**COM Required:** 2 yards for 2 chairs
