

STORM RESISTANT

FE6700 Series Storm Shutter Multi-Point Latching System

The Corbin Russwin FE6700 Series is a robust three-point locking system engineered to help save lives by securing the community shelter window openings. Extra heavy-duty steel components secure the shutter to the frame—at the top, bottom and center latch points—fortifying the opening to withstand extreme wind speeds and flying debris. UL Classified for both FEMA P-320 (2014), FEMA P-361 (2015) and ICC 500 (2014), the FE6700 Series provides peace of mind when a tornado approaches.

FE6700 Series

Storm Shutter Multi-Point Latching System

BENEFITS

SECURE: Three-point auto locking engages instantly

COMPLIANT: Meets FEMA and ICC certification standards

VERSATILE: Fits in-swing openings across multiple sizes

DURABLE: Reinforced hardware built for storm-rated performance

FEATURES

- Three-point auto deadlocking system with automatic latch engagement
- UL Classified to FEMA P-320, P-361, and ICC 500 standards
- Available for in-swing applications in sizes 2'8" x 3'0" to 4' x 6'8"
