

# Give It Your Best Shot

**BHW Trim in  
Educational Settings**

## Worry-Free Schools

Traditional lever and knob locks are often targets for vandals in educational environments, especially in low traffic areas. SARGENT's innovative ANSI/BHMA Grade 1 BHW trim features an integrated lever and escutcheon — a unique design that is difficult to damage. The lock's low profile eliminates catch points, typical on traditional lever trim, that carts or other equipment can damage. Available in 37 functions and ADA compliant, the BHW can be used in many school applications including locker rooms, storage rooms and back entryways.

### Features

- Uses the ANSI/BHMA Grade 1 8200 mortise lock
- Available in 37 functions including electrified options
- Uses standard mortise prep, with only 2 additional holes
- Stainless Steel finishes (629, 630) standard; Microshield® antimicrobial coating optional
- Matching thumbturn available
- Aesthetic, modern design with integrated lever and escutcheon
- UL Listed for use with Fire Rated doors
- ADA Compliant
- Patent Pending

### Applications

- Locker Rooms
- Offices
- Storage Rooms
- Safe Rooms
- Laboratories

### Benefits

- Strong and durable: Lock exceeds ANSI/BHMA Grade 1 requirements to withstand abusive environments; available with MicroShield® antimicrobial coating
- Safe: Low profile design reduces risk of injury by eliminating catch points
- Long lasting: Unique design reduces risk of damage from equipment or vandalism
- Beautiful: Tapered surfaces and escutcheon shape lend a modern design aesthetic to school facilities
- Easy to use: Intuitive operation of lever provides easy access for staff, students and visitors
- Versatile: 37 functions, including electrified; can be used on many opening types
