BORED LOCKS

Secure Every Opening

Experience a safer
and more open world

Versatile Locking Solutions for Any Environment

Facilities with varying security needs can be a challenge to secure. One size never fits all when it comes to safety and security. SARGENT bored locks offer the choices you need to provide the right level of security at each door opening. These locks never compromise on durability, strength, or style.

10X LINE

This cylindrical lock is engineered for high-traffic, high-abuse environments, exceeding ANSI/BHMA Grade 1 standards by up to 20x for long-term reliability. Available with a multitude of mechanical and electromechanical functions to handle any application.

11 LINE

This lock is built for demanding facilities, with unique T-Zone construction that exceeds ANSI/BHMA Grade 1 torque and cycle testing for reliable performance in abusive applications. A single lock body supports all functions for added durability, flexibility, and simplified management over the life of the facility.

7 LINE

The 7 Line key-in-lever lock exceeds ANSI/BHMA A156.2 Grade 2 standards for cycling and durability. This product is designed for standard duty commercial interior and exterior applications.

BENEFITS

- ‡ **Strength & Durability:** Exceeds ANSI/BHMA Grade 1 requirements for cycle and torque resistance and certified beyond Grade 1 cycle testing (UL Verify #V584148)
- ‡ **Safety & Security:** Specialized functions allow for quick and secure lockdowns
- ‡ **Flexibility:** Accommodates retrofit applications and a variety of door preparations
- ‡ **Efficient Installation:** Pre-assembled components makes for quick, easy installation

FEATURES

- 30 different functions, including classroom security and electromechanical options
- Freewheeling and vandal resistant trim optional
- 10 Year Mechanical and 2 Year Electrical Warranty
- 15 architectural grade finishes to match any décor with or without MicroShield® antimicrobial coating
- Available with visual status indicators and behavioral health trim

APPLICATIONS

- Hospitals
- Manufacturing Facilities
- Offices
- Schools / Universities

BENEFITS

- ⊕ **Durable and Reliable:** Independently-verified cycle testing proves the 11 Line will last the lifetime of the facility
- ⊕ **Flexible:** Integrates with numerous key systems and utilizes one lockbody for multiple functions, simplifying facility maintenance
- ⊕ **Lower Cost of Ownership:** Fewer inventoried parts combined with a high number of opening cycles results in less time and frequency for maintenance and reduced overall expenses
- ⊕ **Safe and Secure:** Torque resistant construction provides ability to withstand tough environments to keep occupants and property safe and secure
- ⊕ **Sustainable:** Contributes to your sustainability efforts - fewer lock replacements due to long life and high post-consumer recycled content

FEATURES

- 7 functions available, including Classroom Security; many functions are field changeable requiring no additional parts
- Integrates into most existing facility's key systems. Accepts SARGENT key systems including patented Degree® and Signature; also accepts SFIC, ASSA ABLOY ACCENTRA®, Schlage® and Medeco® LFIC
- Retrofits any standard cylindrical lock door prep and is non handed
- Simple cylinder removal provides easy change outs
- Made from 68% post-consumer recycled content as per LEED MR credit 4
- Available in 14 architectural grade finishes and Microshield® antimicrobial coating
- 10 year limited warranty

DURABILITY AND CYCLE TESTING

- Withstands more than **TWO TIMES** ANSI/ BHMA A156.2 Grade 1 torque force on a locked leve
- UL Certified to 7.6 million cycles (UL Verify #V584148)

APPLICATIONS

- Areas subject to severe abuse
- High traffic doors
- Retrofit applications
- Schools, hospitals, other public buildings

BENEFITS

⊕ **Reliable:** Exceeds ANSI/BHMA A156.2 Grade 2 cycle requirements

FEATURES

- 10 mechanical functions
- Conveniently installs in one minute or less; user-friendly packaging and instructions
- Multiple security key systems available (Degree®, Signature, XC, Keso and Keso F1)
- Internal through-bolts supply strength and stability without requiring additional door preparation
- 5 year limited warranty; no service required
- 14 architectural grade finishes and Microshield®

⊕ **Flexible:** Ideal for many applications with 10 functions; fits modified 161 door preps

APPLICATIONS

- Government Facilities
- Hotels / Motels
- Medical Clinics
- Offices
- Public Buildings

Where to Use SARGENT Locks

Using a combination of the 11, 10x, and 7 lines of locks, each opening can have the right level of strength, durability to last, and flexibility. The floor plans below show how the combination of these locks secure the diverse openings in any type of facility.
