* Cylinder Prep optional - Use C suffix (ex: VRT12C) when ordering.

Vandal Resistant Products can be ordered to mount with an exit device, or in conjunction with a mortise lock. Include exit device and mortise lock templates when ordering. (If not being paired with either, please advise.) Stud locations shown above are an indication that an exit device can be mated to these pulls. This is not indicating a standard pattern of these studs, we can custom manufacture the pull to the exit device required.
