

Medeco Key System Design Studio

Create Master Key Systems Using Online Tool

Experience a safer
and more open world

The Medeco Key System Design Studio is an online tool which streamlines the Medeco master key system request process. Users simply answer a few questions about the system's required parameters and management capabilities. Users are walked through the complete system request process, from plan design to product ordering, and processing through the Medeco Master Key Department.

The Medeco Key System Design Studio:

- Eliminates missing information which can delay system and order processing
- Provides real-time assistance via integrated Chat feature with a Medeco Master Key Specialist
- Allows users to manage and check status on submitted system requests

To access the Medeco Key System Design Studio:

Log in to the ASSA ABLOY Door Security Solutions Extranet at <https://extranet.assaabloydss.com/extranet/index.cfm> (home to crcDash). Click on Key Systems/Key System Design Studio. If you do not have a login for the DSS Extranet, contact the Medeco Customer Care Dept. at 1-877-633-3261 to sign up for an account. In Canada, contact Medeco Customer Service at 1-888-633-3264.

For a demonstration, contact the Medeco Master Key Department at medecomasterkey@assaabloy.com
