Notes:

- 1. Do not scale drawing.
- 2. Dimensions are in inches (mm).
- LHR door shown. Preparation is typical for both door
- Minimum door stile width: 4-1/2 (114). 4.
- 5. Prepare mounting holes when installing the device.
- 6. Unreinforced frames require blind rivet nuts (by others) to mount the strike.
- This hole MUST be field located using physical part as template, after installation is complete and device is fully operational.
- 8. For outside trim preparation see appropriate trim
- Provide adequate structural support to maintain door integrity after device installation with power tools, door use, or abuse.
- 10. Device mount to hinge stile (not shown) requires hole location and preparation during device installation. Door structural requirements are similar for both door
- 11. Wood screws #14 x 1-1/2" (by others) permitted for solid core wood doors if pilot holes are used for installation, when door label allows its use.
