

**SARGENT®**  
ASSA ABLOY

**7300 SERIES MULTI-POINT LOCK**

High-security  
performance.  
Seamless everyday use.

The SARGENT 7300 Series secures the opening at the top, center, and bottom with heavy-duty steel components and the proven 8200 Series mortise platform. Three latch points project automatically; a fourth engages with a single motion. Choose from standard 7300, FM7300 for storm-shelter assemblies, or BL7300 for blast and hurricane applications.

Experience a safer  
and more open world

## BENEFITS

- ⊕ **Strength you can trust:** Multi-point deadlocking with stainless-steel bolts, fortified front, and thru-bolted trim.
- ⊕ **Smooth operation:** Lever rotation retracts all bolts together; top and bottom rods adjust from the center case with the door hung.
- ⊕ **Faster installs:** Reversible, offset strikes help accommodate real-world opening and floor conditions.

## FEATURES

- Multi-point strength with heavy-duty steel construction and multiple locking points for dependable security
- Smooth lever action and optional single-latch mode for ease of everyday operation
- Field-adjustable rods and reversible strikes for faster, more efficient installation
- Wide range of mechanical, electrified, and access control functions for adaptable security
- Multiple trim, lever, and finish options — including Studio Collection™ designs and MicroShield® antimicrobial coating
- ANSI/BHMA Grade 1 certified and backed by a seven-year warranty for lasting reliability

## APPLICATIONS

- **7300:** High-security storage, museums, and back-of-house areas in retail, residential, and commercial facilities
- **FM7300:** Community shelters, schools, healthcare, and government facilities requiring FEMA/ICC 500 compliance
- **BL7300:** Government, military, petrochemical, and hurricane-prone sites needing blast or impact resistance

- ⊕ **Flexible by design:** Broad suite of mechanical, electrified, and access control functions, plus classroom, storeroom, and privacy options.
- ⊕ **Looks that fit the project:** Sectional or escutcheon trim, Studio Collection™ and standard levers, and a wide range of finishes.

## MODELS AT A GLANCE

- **7300:** Economical multi-point security for higher-security storage and back-of-house openings.
- **FM7300:** For tornado/hurricane safe rooms and community shelters where a deadbolt is required for the rating.
- **BL7300:** For blast-resistant and hurricane-exposed perimeters in government, petrochemical, critical infrastructure, and museums.

The ASSA ABLOY Group is the global leader in access solutions. Every day we help people feel safe, secure and experience a more open world.
