

Madera Smooth Grain (SG) Doors

The look of wood with the strength of steel

Madera Smooth Grain (SG) flush and paneled doors are stained on smooth steel with a tight straight grain design which produces the look of real maple or cherry wood.

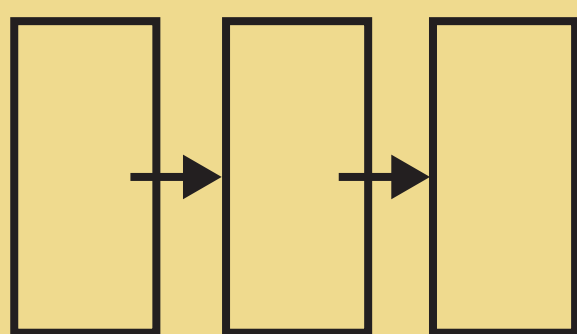

Madera Smooth Grain Advantages

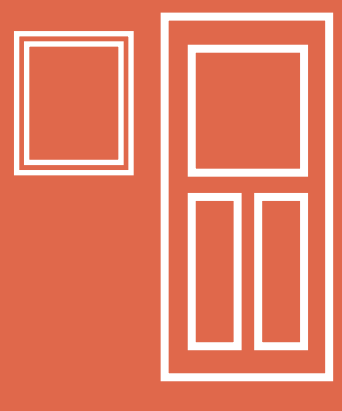

Tight wood grain stain design with a completely smooth surface

3 Hour fire rating with flush and six panel embossed options

Consistent wood grain pattern and color for easy matching

Matching wood grain astragals and window kits
