

ASSA Locks Product Brochure

ASSA specializes in patented, robust, and sophisticated key systems, as well as high security cylinders. We are also the premiere manufacturer of mogul cylinders and master key systems for detention centers.

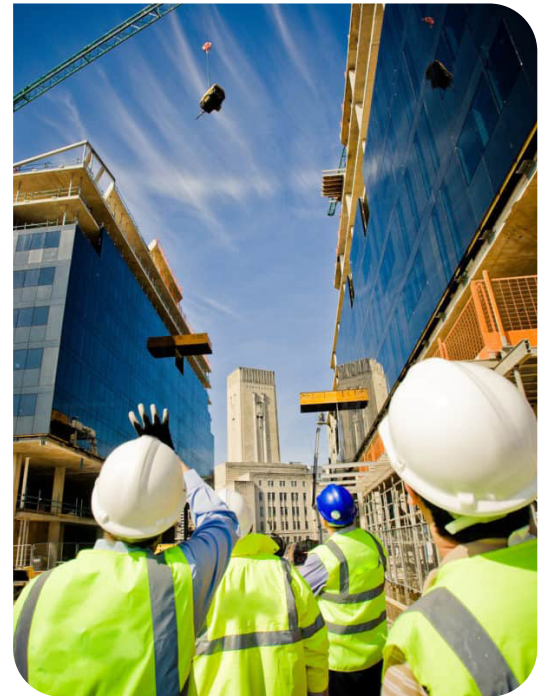

Small Format Interchangeable Cores

Maximum+

The Maximum+ SFIC cylinders, based on Maximum+ Restricted technology, provides seamless integration of SFIC with high security cylinders, both mechanical and electronic, all operated by a single key.

Why ASSA SFIC?

Brass Construction

ONE KEY – ALL MAX+ TECHNOLOGIES...

Maximum+ Restricted

Wide Product Range

ASSA Maximum+ Restricted lock cylinders are based on Maximum+ patented key profile but are non-UL437 cylinders to give flexibility for openings that do not require a High Security lock cylinder. The Maximum+ Restricted cylinder is less expensive providing cost savings where key control is the main feature.

Why ASSA Max+ Restricted?
