

# Intelligent Key Cabinet

**medeco**  
**ASSA ABLOY**

## Spec Sheet

Experience a safer  
and more open world

The Intelligent Key Cabinet (IKC) provides a revolutionary method of key and asset management designed to fit the needs of all industries while providing the ultimate solution in accountability, analytics, security, key management, and asset control. The Intelligent Key Cabinet can be any combination of 32 or 64 port cabinets, and up to seven Add-On units (512 keys) are available for every main unit. The IKC can be easily wall-mounted or a stand can be purchased separately. The software provides a complete audit trail of critical assets including user history, duration, and when items were returned. When paired with the Medeco XT key system you have access to complete tracking, electronic access scheduling, and custom programming of user rights.

- Web-Based Administration
- Customized Reporting
- Email SMS/Alerts
- Digital Photo Capture
- Multiple Access Options (PIN, Biometric, Proximity Cards)
- Available in 3 configurations: XT, iFob, or Hybrid (XT & iFob)
- And Much More

## FEATURES AND ADD-ONS:

### Digital Camera:

For added security, every transaction is photographed and time/date stamped for identity verification.

### Prox Card

Do you already have identification cards within your organization? A prox or swipe card reader can be integrated into the IKC to read your existing identification cards.

### Multi-System Networking:

Link multiple systems throughout your organization. Keys and users can then float across multiple key systems for added convenience, storage, and reporting.

### LCD Screen

A built-in 10" LCD touchscreen allows for programming right at the cabinet and users to access/return keys.

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.
