

**90 SERIES EXIT DEVICES**

# Classically Designed

The SARGENT 90 Series exit device is ideal for historical preservation projects requiring additional security, all crossbar assemblies are brass, bronze, stainless steel or steel.

Available in rim, mortise, surface vertical and concealed vertical rod configurations, these exit device configurations can outfit most historic openings. With modular construction and few moving parts, the 90 Series exit device is maintenance-free and provides unsurpassed security for historical facilities.

## BENEFITS

- ⊕ **Strength & Reliability:** Independently verified cycle and strength testing proves the 90 Series will withstand years of use and abuse.
- ⊕ **Security:** Multiple security features provide additional resistance against vandalism and unauthorized entry.
- ⊕ **Aesthetics:** Attractive, minimalist design featuring full many levers and architectural finishes to blend with any decor.
