SafeBolt™

Code-compliant barricade lock

Instant lockdown when every second matters

- Meets Department of Homeland Security's #1 recommendation to quickly lock down classroom doors without a key
- Retrofits existing cylindrical lever locks
- For schools, colleges & universities, shelter-in-place spaces, places of worship

CODE-COMPLIANT BARRICADE LOCK

SafeBolt™

Retrofits existing cylindrical lever locks

SECURITECH

ASSA ABLOY

When every second counts, SAFEBOLT™ provides a fast, reliable way to secure a space.

Anyone in the room can press the red button and project a 1" locking bolt to secure the room. SAFEBOLT™ retrofits to existing cylindrical lever locks, making it affordable and easy-to-install.

Keyless instant lockdown

No scrambling to find the classroom key, simply press the red button.

Retrofits to existing cylindrical lever locks

Cost efficient: Keep existing cylindrical door locks and keying systems by mounting the SAFEBOLT™ over the existing lock with the collar and adapter ring.

Superior intruder protection

Full 1" throw stainless steel locking bolt and latch

High visibility indicator

The visual indicator notifies occupants that the door is bolted.

Free egress

A single motion retracts the bolt and latch from the inside at all times. ADA compliant, meets all applicable life-safety codes

Keyed entry

Staff and first responders can always enter by key. No one is ever locked in.

Easy to install

- Inswing and outswing models available
- Thru-bolted assembly
- Accepts any standard rim cylinder (ordered separately)
- Metal installation template ensures smooth and speedy installation

Certifications

SAFEBOLT™ is approved to be used as an auxiliary component in fire door assemblies with up to 3-hour rating.

SAFEBOLT™ lets teachers focus on students

One simple push of the red button assures the teacher that their door is properly secured. This one-step approach allows the teacher to instantly focus on sheltering in place or evacuating.

Precious seconds and minutes are saved with this system.

SAFEBOLT™ wins Security Industry Association (SIA) Award

SIA NEW PRODUCT SHOWCASE WINNER Lock Systems and Secure Storage Containers Securitech Group, Inc. 2019 ISC WEST

At the 2019 ISC WEST convention, SAFEBOLT™ was selected as the outstanding New Product in the Lock Systems & Storage Containers category.

Exterior view

Interior view

How does it work?

A single press of the red button projects the locking bolt and instantly locks down the classroom in a code-compliant manner. The classroom lock functions normally at all times, with exiting always possible in a single motion, even when the SAFEBOLT™ locking bolt is engaged.

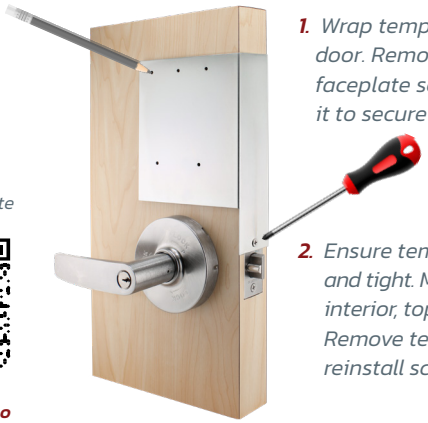

Entry is always possible by key, meeting code requirements for keyed entry to any locked classroom.

SAFEBOLT™ is the code-compliant classroom barricade lock.

Reusable metal marking template

Scan for installation video

1. *Wrap template around door. Remove top latch faceplate screw and use it to secure template.*
2. *Ensure template is level and tight. Mark 5 holes on interior, top 3 on exterior. Remove template and reinstall screw.*
