Motorized Electric Latch Retraction Option for 6000 Series Exit Device

ACCENTRA

ASSA ABLOY

ASSA ABLOY is transitioning the Yale Commercial brand to ACCENTRA. This affects only the brand name; the products and product numbers will remain unchanged. Prior to May 20, 2024, products may be shipped either as Yale Commercial brand or ACCENTRA brand. Products shipping after May 20, 2024, will be branded ACCENTRA.

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people experience a more open world.

ASSA ABLOY Opening Solutions leads the development within door openings and products for access solutions in homes, businesses and institutions. Our offering includes doors, frames, door and window hardware, mechanical and smart locks, access control and service.

The Motorized Electric Latch Retraction (MELR) provides remote-controlled latch retraction that delivers a quieter and smooth operation for convenient, hassle-free egress. The 6000 Series Exit Device can easily be installed in new applications or upgrade applications. The MELR features a maintenance-free design with few moving parts using 86% less power consumption during retraction than solenoid devices.

Plus, MELR is powered by a standard power supply, simplifying installation, and increasing system design flexibility.

Typical Applications

- Offices
- Healthcare Facilities
- Convention Halls
- Theaters
- Schools
- Libraries

Features

- Continuous or intermittent use
- Digital timer (0-20 seconds) – no costly external timer required
- Diagnostic LED to ease field service
- Available for 34" – 48" doors
- .85A during retraction and .3A maintained in hold position
- 24 VDC 1 amp regulated/filtered power supply required
- UL/cUL listed for panic and fire exit hardware
- Compatible with many options: latchbolt position monitor, touch bar monitor, trim monitor, hex key, and cylinder dogging
- Utilizes BPS Power Supply by Securitron listed as UL Class 2 circuit
- 10 year Warranty and 2 year limited warranty on electrical components.

Benefits

- Responsive, quieter retraction perfect for any environment that demands consistent performance
- Hands free operation for convenient egress
- Self-adjusting retraction reduces installation time and improves performance
- Low current draw
- Uses standard electric hinge – special power transfer device NOT required
